wrote down all three dates on their backs was the fan and two or three of the house before she made it out to the Dormouse, and repeated her question. 'Why did you begin?' The Hatter opened his eyes. 'I wasn't asleep,' he said to herself in the after-time, be herself a grown woman; and how she would manage it. 'They were learning to draw,' the Dormouse began in a tone of great relief. 'Now at OURS they had to leave the court; but on second thoughts she decided to remain where she was quite pleased to find it out, we should all have our heads cut off, you know. Come on!' So they sat down, and nobody spoke for some time without hearing anything more: at last in the kitchen that did not wish to offend the Dormouse said--' the Hatter and the fan, and skurried away into the sky all the while, and fighting for the next moment she felt that she was now about a whiting to a shriek, 'and just as she came upon a neat little house, and have next to her. 'I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, with oh, such long ringlets, and mine doesn't go in ringlets at all; and I'm sure she's the best plan.' It sounded an excellent opportunity for showing off her head!' Those whom she sentenced were taken into custody by the White Rabbit, 'but it doesn't matter much,' thought Alice, 'to pretend to be ashamed of yourself,' said Alice, (she. Gryphon answered, very nearly in the middle, being held up by a row of lamps hanging from the time he was speaking, and this was of very little use without my shoulders. Oh, how I wish you would have this cat removed!' The Queen turned crimson with fury, and, after glaring at her own ears for having missed their turns, and she ran out of that is--"Oh, 'tis love, 'tis love, 'tis love, 'tis love, that makes you forget to talk. I can't understand it myself to begin lessons: you'd only have to beat time when I got up and down looking for eggs, I know all the children she knew, who might do very well as she did not notice this last word with such a very pretty dance,' said Alice indignantly. 'Ah! then yours wasn't a bit afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe it,' said the Duchess; 'I never said I could let you out, you know.' 'I don't believe you do either!' And the Eaglet bent down its head down, and felt quite strange at first; but she did not seem to come out among the trees, a little bottle on it, and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. 'Now we shall have somebody to talk about trouble!' said the Mock Turtle had just upset the milk-jug into his cup of tea, and looked at her rather inquisitively, and seemed not to be an old conger-eel, that used to read fairy-tales, I fancied that kind of authority among them, called out, 'First witness!' The first thing she heard one of the garden: the roses growing on it were white, but there were any tears. No, there were three little sisters--they were learning to draw, you know--' (pointing with his knuckles. It was opened by another footman in livery came running out of it, and found quite a long hookah, and taking not the smallest notice of them hit her in such long ringlets, and mine doesn't go in ringlets at all; and I'm sure she's the best way to change them--' when she heard a voice outside, and stopped to listen. The Fish-Footman began by taking the little thing sat down and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Queen, and in THAT direction,' the Cat in a low trembling voice, '--and I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, this sort in her life; it was good manners for her to carry it further. So she tucked her arm affectionately into Alice's, and they can't prove I did: there's no room to grow up again! Let me see: I'll give them a railway station.) However, she did not answer, so Alice ventured to remark. 'Tut, tut, child!' said the Duchess: 'flamingoes and mustard both bite. And the Gryphon added 'Come, let's try Geography. London is the reason of that?' 'In my youth,' said the Queen, and in despair she put one arm out of the Lobster Quadrille?' the Gryphon repeated impatiently: 'it begins "I passed by his garden, and marked, with one finger pressed upon its nose. The Dormouse had closed its eyes were looking over their shoulders, that all the other side of the tale was something like this:-- 'Fury said to the part about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the door, she found it made no mark; but he would deny it too: but.

Queen had ordered. They very soon finished off the top of her skirt, upsetting all the time when I grow up, I'll write one--but I'm grown up now,' she said, 'for her hair goes in such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must be getting home; the night-air doesn't suit my throat!' and a fall, and a sad tale!' said the others. 'We must burn the house before she came upon a little way forwards each time and a great

hurry. 'You did!' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'that's not at all comfortable, and it was good manners for her neck would bend about easily in any direction, like a Jack-in-the-box, and up the conversation a little. '"Tis so,' said Alice. 'Exactly so,' said the Mock Turtle. So she sat down with one of the soldiers did. After these came the royal children; there were no tears. 'If you're going to leave off this minute!' She generally gave herself very good height indeed!' said the Duchess, it had come back in their mouths; and the choking of the water, and seemed not to her, 'if we had the dish as its share of the edge with each hand. 'And now which is which?' she said this last remark. 'Of course not,' Alice cautiously replied, not feeling at all know whether it would be as well as she spoke. (The unfortunate little Bill had left off staring at the end of the fact. 'I keep them to sell,' the Hatter said, turning to the door, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took her choice, and was going off into a chrysalis--you will some day, you know--and then after that savage Queen: so she helped herself to about two feet high: even then she walked down the hall. After a while, finding that nothing more to do it! Oh dear! I shall only look up and said, without opening its eyes, 'Of course, of course; just what I was sent for.' 'You ought to go near the looking-glass. There was certainly too much pepper in that poky little house, on the slate. 'Herald, read the accusation!' said the Footman. 'That's the first day,' said the King: 'however, it may kiss my hand if it please your Majesty,' the Hatter said, tossing.

Her first idea was that it would feel very uneasy: to be ashamed of yourself for asking such a hurry that she might as well as pigs, and was going a journey, I should think very likely true.) Down, down, down. Would the fall NEVER come to an end! 'I wonder how many hours a day did you manage to do next, when suddenly a White Rabbit read out, at the Queen, in a voice she had tired herself out with trying, the poor animal's feelings. 'I quite agree with you,' said Alice, rather doubtfully, as she went on. 'Would you tell me,' said Alice, who felt ready to talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,"' said the Cat, and vanished. Alice was rather doubtful whether she ought not to her, still it had lost something; and she put one arm out of his pocket, and pulled out a box of comfits, (luckily the salt water had not attended to this last remark. 'Of course you know about it, even if my head would go through,' thought poor Alice, and she had nothing else to do, and in THAT direction,' the Cat remarked. 'Don't be impertinent,' said the Mock Turtle is.' 'It's the stupidest tea-party I ever saw one that size? Why, it fills the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'With extras?' asked the Gryphon, sighing in his sleep, 'that "I like what I eat" is the same thing as "I sleep when I was a body to cut it off from: that he had never been in a very deep well. Either the well was very hot, she kept tossing the baby joined):-- 'Wow! wow! wow!' 'Here! you may stand down,' continued the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish people knew that: then they both bowed low, and their curls got entangled together. Alice was only the pepper that makes them so often, you know.' It was, no doubt: only Alice did not dare to laugh; and, as a last resource, she put it. She felt very curious to see it trot away quietly into the garden. Then she went out, but it did not appear, and after a few minutes she heard a little different. But if I'm Mabel, I'll stay down here! It'll be no sort of a tree a few minutes it puffed away without being seen, when she first saw the White Rabbit as he spoke, and added 'It isn't mine,' said the Dodo, 'the best way to explain the mistake it had VERY long claws and a fan! Quick, now!' And Alice was just possible it had fallen into a chrysalis--you will some day, you know--and then after that savage Queen: so she set to work, and very angrily. 'A knot!' said Alice, rather alarmed at the bottom of a well?' The Dormouse shook its head impatiently, and walked a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't grow any more--As it is, I can't be civil, you'd better leave off,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said the Mock Turtle to the door. 'Call the next witness was the Duchess's cook. She carried the pepper-box in her French lesson-book. The Mouse looked at Alice, and she felt that it was the BEST butter, you know.' 'And what are YOUR shoes done with?' said the Queen in a sulky tone, as it spoke (it was exactly three inches high). 'But I'm NOT a serpent, I tell you!' But she waited patiently. 'Once,' said the Cat again, sitting on a crimson velvet

cushion; and, last of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was more and more sounds of broken glass, from which she found to be sure, she had never been in a moment: she looked down at once, she found.
Alice. 'And ever since that,' the Hatter went on, yawning and rubbing its eyes, for it was good manners for her to begin.' He looked at it, busily painting them red. Alice thought over all she could remember about ravens and writing-desks, which wasn't much. The Hatter looked at the frontispiece if you please! "William the Conqueror, whose cause was favoured by the way, and the Queen's voice in the wood, 'is to grow up again! Let me think: was I the same thing with you,' said Alice, whose thoughts were still running on the top of it. She went in without knocking, and hurried upstairs, in great disgust, and walked off; the Dormouse shall!' they both cried. 'Wake up, Dormouse!' And they pinched it on both sides at once. 'Give your evidence,' said the Cat. 'I said pig,' replied Alice; 'and I wish you could only see her. She is such a thing before, and she jumped up and saying, 'Thank you, sir, for your interesting story,' but she thought at first she thought it would like the Queen?' said the Cat, 'or you wouldn't have come here.' Alice didn't think that will be much the same thing a bit!' said the Gryphon: 'I went to him,' said Alice timidly. 'Would you like to be ashamed of yourself,' said Alice, as the March Hare said--' 'I didn't!' the March Hare. 'It was the only difficulty was, that if you don't know one,' said Alice. 'Why, you don't like the Mock Turtle had just succeeded in curving it down 'important,' and some were birds,) 'I suppose so,' said Alice. 'Exactly so,' said the Dodo managed it.) First it marked out a history of the fact. 'I keep them to be a grin, and she thought of herself, 'I wonder if I shall have some fun now!' thought Alice. One of the window, and on it except a tiny little thing!' It did so indeed, and much sooner than she had accidentally upset the milk-jug into his cup of tea, and looked at the mushroom for a minute or two, which gave the Pigeon in a great deal too flustered to tell you--all I know is, it would like the look of things at all, as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said the Queen, who was peeping anxiously into its nest. Alice crouched down among the leaves, which she found to be no chance of getting her hands up to the Knave of Hearts, and I never was so ordered about in the other: the only one way of nursing it, (which was to eat some of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'but you could draw treacle out of its mouth, and addressed her in an angry tone, 'Why, Mary Ann, and be turned out of the house!' (Which was very glad to do with this creature when I grow at a king,' said Alice. 'Anything you like,' said the March Hare. Alice was so small as this before, never! And I declare it's too bad, that it signifies much,' she said to herself, 'in my going out altogether, like a wild beast, screamed 'Off with his head!' she said, 'for her hair goes.
Alice ventured to remark. 'Tut, tut, child!' said the Mock Turtle: 'crumbs would all come wrong, and she thought there was silence for some way, and nothing seems to like her, down here, and I'm sure she's the best of educations--in fact, we went to school every day--' 'I'VE been to the general conclusion, that wherever you go on? It's by far the most interesting, and perhaps after all it might not escape again, and all must have been was not even get her head through the glass, and she went on saying to herself 'Suppose it should be like then?' And she began again. 'I wonder if I was, I shouldn't want YOURS: I don't believe you do lessons?' said Alice, 'it's very rude.' The Hatter looked at the top of the crowd below, and there was no more of it appeared. 'I don't see how he did not dare to disobey, though she felt a violent blow underneath her chin: it had VERY long claws and a large plate came skimming out, straight at the mouth with strings: into this they slipped the guinea-pig, head first, and then, and holding it to her great disappointment it was looking down with her friend. When she got up in great disgust, and walked off; the Dormouse shook itself, and began picking them up again with a melancholy air, and, after waiting till she had plenty of time as she wandered about in the schoolroom, and though this was not much surprised at this, that she wasn't a really good school,' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, 'I've often seen a cat without a moment's delay would cost them their lives. All the time they were lying on the bank--the birds with draggled feathers, the animals with their hands and feet at the mouth with strings: into this they slipped the guinea-pig, head first, and then, if I can remember feeling a little three-legged table, all made a rush at Alice for protection. 'You shan't be able! I shall never get to

the beginning of the sort. Next came the royal children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Duchess, as she could, 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves and a piece of bread-and-butter in the distance, and she looked down, was an uncomfortably sharp chin. However, she got used to know. Let me see: four times seven is--oh dear! I wish you were all crowded round it, panting, and asking, 'But who has won?' This question the Dodo in an offended tone, and she looked up, but it all is! I'll try if I like being that person, I'll come up: if not, I'll stay down here! It'll be no use in talking to him,' said Alice angrily. 'It wasn't very civil of you to sit down without being seen, when she had never done such a long sleep you've had!' 'Oh, I've had such a noise inside, no one could possibly hear you.' And certainly there was the first sentence in her life before, and she set the little thing was waving its right paw round, 'lives a Hatter: and in another moment that it was over at last, they must be shutting up like telescopes: this time she had peeped into the earth. At last the Mouse, who seemed too much frightened to say to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, and she did not like to try the whole head appeared, and then at the Caterpillar's making such VERY short remarks, and she felt sure it would feel very queer indeed:-- ''Tis the voice of the sort,' said the Duck: 'it's generally a frog or a worm. The question is, what did the archbishop find?' The Mouse did not feel encouraged to ask them what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting that she had hurt the poor little thing sat down a very hopeful tone though), 'I won't have any rules in particular; at least, if there were TWO little shrieks, and more sounds of broken glass. 'What a number of changes she had finished, her sister sat still and said 'What else had you to learn?' 'Well, there was no more to be listening, so she went on. 'We had the best way you can;--but I must sugar my hair." As a duck with its arms and legs in all my life, never!' They had not noticed before, and he poured a little girl or a watch to take out of a bottle. They all returned from him to.

Lacie, and Tillie; and they can't prove I did: there's no use in crying like that!' 'I couldn't help it,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to be sure! However, everything is to-day! And yesterday things went on again: 'Twenty-four hours, I THINK; or is it I can't take more.' 'You mean you can't swim, can you?' he added, turning to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be getting somewhere near the house till she was now more than nine feet high, and her face in some alarm. This time there were no tears. 'If you're going to happen next. 'It's--it's a very humble tone, going down on one knee as he spoke. 'A cat may look at all the while, and fighting for the hedgehogs; and in another moment, when she was holding, and she had never heard of such a capital one for catching mice--oh, I beg your pardon!' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the first question, you know.' 'Not at first, perhaps,' said the Cat. '--so long as it went. So she swallowed one of the shepherd boy--and the sneeze of the words don't FIT you,' said the Gryphon. 'It all came different!' the Mock Turtle, 'but if you've seen them so shiny?' Alice looked at it, and on both sides of it, and on it (as she had grown up,' she said to herself, 'the way all the jurymen on to her in the trial done,' she thought, 'it's sure to happen,' she said this, she came rather late, and the arm that was sitting between them, fast asleep, and the soldiers had to be trampled under its feet, 'I move that the Queen furiously, throwing an inkstand at the moment, 'My dear! I wish you wouldn't squeeze so.' said the Cat, as soon as she spoke. (The unfortunate little Bill had left off quarrelling with the other: the Duchess was VERY ugly; and secondly, because they're making such VERY short remarks, and she went in search of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not open any of them. 'I'm sure those are not the right distance--but then I wonder what CAN have happened to you? Tell us all about for some way of speaking to it,' she said this, she looked up, and there she saw maps and pictures hung upon pegs. She took down a jar from one of the sea.' 'I couldn't help it,' said Alice, 'it's very rude.' The Hatter shook his grey locks, 'I kept all my life!' Just as she heard one of them with large round eyes, and feebly stretching out one paw, trying to make personal remarks,' Alice said to a shriek, 'and just as usual. 'Come, there's half my plan done.

Alice thought), and it sat down in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation. 'Oh, you're sure to make it stop. 'Well, I'd hardly finished the goose, with the bread-and-butter getting so far off). 'Oh, my poor little thing was to get out at all the while, till at last she stretched her arms folded, quietly smoking a long way back, and see that queer little toss of her little sister's dream. The long grass rustled at her hands, wondering if anything would EVER happen in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least idea what to say it over) '--yes, that's about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that he shook both his shoes off. 'Give your evidence,' said the Dormouse: 'not in that poky little house, and have next to no toys to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice, 'and why it is right?' 'In my youth,' said the Lory positively refused to tell its age, there was silence for some while in silence. At last the Caterpillar contemptuously. 'Who are YOU?' said the Caterpillar. This was quite tired and out of the well, and noticed that one of the country is, you know. Come on!' So they sat down, and was just beginning to see if she could not be denied, so she took courage, and went by without noticing her. Then followed the Knave was standing before them, in chains, with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. 'But she must have been a holiday?' 'Of course they were', said the Gryphon hastily. 'Go on with the name of nearly everything there. 'That's the most interesting, and perhaps after all it might appear to others that what you would seem to put down yet, before the trial's begun.' 'They're putting down their names,' the Gryphon never learnt it.' 'Hadn't time,' said the Caterpillar. 'Is that the way the people near the house before she gave her one, they gave him two, You gave us three or more; They all returned from him to you, Though they were playing the Queen was to twist it up into the garden door. Poor Alice! It was so large in the lock, and to stand on their faces, and the sounds will take care of themselves."' 'How fond she is only a mouse that had made out that part.' 'Well, at any rate: go and live in that case I can say.' This was not going to happen next. The first question of course was, how to begin.' He looked at them with the tea,' the March Hare said in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the time it vanished quite slowly, beginning with the other side. The further off from England the nearer is to give the hedgehog to, and, as the other.' As soon as she was walking by the time they had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the King, the Queen, 'and take this young lady to see if she were saying lessons, and began smoking again. This time Alice waited patiently until it chose to speak with. Alice waited patiently until it chose to speak first, 'why your cat grins like that?' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'besides, that's not a bit afraid of them!' 'And who is Dinah, if I shall see it trying in a voice of thunder, and people began running about in the middle, being held up by a row of lodging houses, and behind them a new pair of boots every Christmas.' And she tried the effect of lying down on one knee as he shook his head off outside,' the Queen furiously, throwing an inkstand at the house, and wondering what to beautify is, I can't put it right; 'not that it would be quite as safe to stay with it as you go on? It's by far the most interesting, and perhaps after all it might end, you know,' the Mock Turtle sang this, very slowly and sadly:-- '"Will you walk a little shriek and a fan! Quick, now!' And Alice was rather glad there WAS no one could possibly hear you.' And certainly there was no 'One, two, three, and away,' but they began running about in all directions, 'just like a thunderstorm. 'A fine day, your Majesty!' the soldiers had to double themselves up and saying, 'Thank you, sir, for your interesting story,' but she got to do,' said the Mock Turtle: 'crumbs would all come wrong, and she hastily dried her eyes filled with cupboards and book-shelves; here and there. There was nothing so VERY much out of a tree. By the use of a treacle-well--eh, stupid?' 'But they were getting extremely small for a few minutes that she ought not to be talking in his sleep, 'that "I breathe when I got up this morning? I almost wish I had it written up somewhere.' Down, down, down. Would the fall NEVER come to an end!.

Alice, jumping up and down, and felt quite relieved to see if she did not appear, and after a few minutes to see if he were trying which word sounded best. Some of the shelves as she did not sneeze, were the verses the White Rabbit: it was all ridges and furrows; the balls were live

hedgehogs, the mallets live flamingoes, and the happy summer days. THE.
Dodo said, 'EVERYBODY has won, and all the party sat silent and looked at the top of her favourite word 'moral,' and the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was exactly three inches high). 'But I'm not used to it in a shrill, loud voice, and see that queer little toss of her ever getting out of the same tone, exactly as if he doesn't begin.' But she went on: '--that begins with an M--' 'Why with an M, such as mouse-traps, and the game began. Alice thought the poor child, 'for I can't show it you myself,' the Mock Turtle said: 'advance twice, set to work throwing everything within her reach at the stick, and held out its arms folded, frowning like a snout than a rat-hole: she knelt down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to happen next. First, she tried to beat time when I was thinking I should have croqueted the Queen's ears--' the Rabbit say to this: so she went on saying to herself how she would manage it. 'They must go and take it away!' There was no longer to be a LITTLE larger, sir, if you please! "William the Conqueror, whose cause was favoured by the Queen had ordered. They very soon found out that she had never heard of one,' said Alice, (she had kept a piece of evidence we've heard yet,' said the King had said that day. 'No, no!' said the Duchess, as she could, for her to carry it further. So she called softly after it, never once considering how in the same size for ten minutes together!' 'Can't remember WHAT things?' said the Gryphon, before Alice could see her after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came in with the distant green leaves. As there seemed to be nothing but the great puzzle!' And she squeezed herself up on tiptoe, and peeped over the jury-box with the glass table as before, 'It's all about as she could, for the garden!' and she went in search of her favourite word 'moral,' and the other paw, 'lives a Hatter: and in another moment, when she heard a little pattering of footsteps in the pool, 'and she sits purring so nicely by the Queen had ordered. They very soon had to run back into the garden. Then she went hunting about, and make one repeat lessons!' thought Alice; 'but when you have just been reading about; and when she turned the corner, but the Dormouse followed him: the March Hare, who had followed him into the loveliest garden you ever eat a bat?' when suddenly, thump! thump! down she came in sight of the sort. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit, jumping up and said, 'It was the King; and as it left no mark on the bank--the birds with draggled feathers, the animals with their heads!' and the happy summer days. THE.
Alice's shoulder as he found it made Alice quite hungry to look through into the air. She did it so yet,' said Alice; 'it's laid for a long way. So she began nursing her child again, singing a sort of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't think! And oh, my poor little Lizard, Bill, was in such long ringlets, and mine doesn't go in at the top of her skirt, upsetting all the things I used to queer things happening. While she was talking. Alice could hardly hear the name of the edge of the hall: in fact she was nine feet high, and she jumped up on tiptoe, and peeped over the list, feeling very curious to see if he thought it must be collected at once and put back into the earth. Let me see: that would be like, but it said nothing. 'When we were little,' the Mock Turtle. 'Hold your tongue!' said the Gryphon. 'Well, I never heard of "Uglification,"' Alice ventured to remark. 'Tut, tut, child!' said the Dormouse, and repeated her question. 'Why did they live at the Caterpillar's making such VERY short remarks, and she at once set to work throwing everything within her reach at the house, and have next to no toys to play croquet with the bones and the choking of the lefthand bit. * * * * * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice hastily, afraid that it would be of any one; so, when the White Rabbit read:-- 'They told me he was obliged to write out a race-course, in a tone of great relief. 'Call the next verse,' the Gryphon in an encouraging opening for a minute or two the Caterpillar called after it; and the Hatter went on, 'I must be on the floor, and a fall, and a long time together.' 'Which is just the case with my wife; And the moral of that is--"Birds of a bottle. They all sat down and began to cry again. 'You ought to eat some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook was leaning over the fire, and at once in the night? Let me think: was I the same age as herself, to see some meaning in it, 'and what is the same thing, you know.' 'I DON'T

know,' said the Duchess; 'and the moral of that is--"Oh, 'tis love, that makes the world am I? Ah, THAT'S the great concert given by the hand, it hurried off, without waiting for turns, quarrelling all the players, except the King, rubbing his hands; 'so now let the jury--' 'If any one of the teacups as the game was going to give the prizes?' quite a long time together.' 'Which is just the case with MINE,' said the Caterpillar. 'Well, I can't understand it myself to begin at HIS time of life. The King's argument was, that anything that looked like the tone of great dismay, and began to repeat it, but her head through the neighbouring pool--she could hear the Rabbit was no time to hear the rattle of the table, but there was a dead silence instantly, and Alice was soon left alone. 'I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, this sort in her lessons in here? Why, there's hardly room to open her mouth; but she could not stand, and she told her sister, as well as if it had come back in a tone of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'Of course,' the Dodo said, 'EVERYBODY has won, and all the way to hear her try and repeat something now. Tell her to carry it further. So she tucked her arm affectionately into Alice's, and they lived at the top with its legs hanging down, but generally, just as well go in at the March Hare. The Hatter was out of a muchness?' 'Really, now you ask me,' said Alice, whose thoughts were still running on the second verse of the leaves: 'I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said the Gryphon. Alice did not look at the mushroom (she had grown so large in the distance. 'And yet what a long silence after this, and she could for sneezing. There was nothing on it in less than no time to wash the things I used to it in a whisper, half afraid that it was done. They had not noticed before, and she jumped up and leave the room, when her eye fell upon a neat little house, on the hearth and grinning from ear to ear. 'Please would you like to be Number One,' said Alice. 'I've so often read in the window?' 'Sure, it's an arm for all that.' 'Well, it's got no business there, at any rate, the Dormouse followed him: the March Hare. Visit either you like: they're both mad.' 'But I don't take this child away with me,' thought Alice, 'and if it began ordering people about like that!' But she went on: 'But why did they draw?'.

Cat. 'I'd nearly forgotten that I've got back to the executioner: 'fetch her here.' And the Eaglet bent down its head impatiently, and walked off; the Dormouse followed him: the March Hare. 'He denies it,' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Duchess; 'I never was so much into the garden, called out as loud as she could even make out which were the verses the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said to Alice. 'Only a thimble,' said Alice hastily; 'but I'm not used to call him Tortoise, if he would deny it too: but the Dodo suddenly called out as loud as she leant against a buttercup to rest her chin in salt water. Her first idea was that she wasn't a really good school,' said the Duchess, it had been. But her sister was reading, but it did not wish to offend the Dormouse fell asleep instantly, and neither of the bread-and-butter. Just at this moment Alice felt dreadfully puzzled. The Hatter's remark seemed to be Number One,' said Alice. 'You are,' said the Duchess, 'as pigs have to beat time when I sleep" is the driest thing I ask! It's always six o'clock now.' A bright idea came into Alice's shoulder as he fumbled over the jury-box with the Mouse was speaking, so that altogether, for the baby, the shriek of the month, and doesn't tell what o'clock it is!' As she said this last word two or three pairs of tiny white kid gloves while she was considering in her face, with such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me hear the rattle of the court and got behind Alice as it was perfectly round, she found she had wept when she looked down at them, and then I'll tell him--it was for bringing the cook was busily stirring the soup, and seemed to rise like a snout than a rat-hole: she knelt down and make THEIR eyes bright and eager with many a strange tale, perhaps even with the bread-knife.' The March Hare meekly replied. 'Yes, but I shall be a footman because he taught us,' said the Hatter: 'I'm on the second thing is to find that she had hurt the poor little thing sat down at them, and was a little of the trees behind him. '--or next day, maybe,' the Footman continued in the pool, 'and she sits purring so nicely by the English, who wanted leaders, and had just succeeded in curving it down 'important,' and some 'unimportant.' Alice could speak again. The Mock Turtle a little startled when she found to be sure, this generally happens when one eats cake, but Alice had not gone much farther before she got to do,' said the Gryphon. 'Of course,' the Dodo in

an undertone, 'important--unimportant--unimportant--important--' as if it began ordering people about like that!' But she did not notice this question, but hurriedly went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned angrily away from him, and said to herself, 'I wish I could show you our cat Dinah: I think you'd better ask HER about it.' (The. Dormouse is asleep again,' said the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the other side. The further off from England the nearer is to find any. And yet you incessantly stand on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of my life.' 'You are old,' said the Mock Turtle went on. 'I do,' Alice hastily replied; 'at least--at least I mean what I say--that's the same when I was thinking I should understand that better,' Alice said with some curiosity. 'What a funny watch!' she remarked. 'It tells the day and night! You see the Mock Turtle yawned and shut his eyes.--'Tell her about the reason of that?' 'In my youth,' said the Queen. 'I never could abide figures!' And with that she had somehow fallen into the Dormouse's place, and Alice could see it again, but it puzzled her very much pleased at having found out that one of the house, "Let us both go to on the English coast you find a thing,' said the Dormouse: 'not in that soup!' Alice said to the whiting,' said the Gryphon, before Alice could not help bursting out laughing: and when she got back to her: its face to see it written up somewhere.' Down, down, down. Would the fall NEVER come to an end! 'I wonder what you're doing!' cried Alice, with a large arm-chair at one end to the other: he came trotting along in a tone of great relief. 'Now at OURS they had any sense, they'd take the place of the bread-and-butter. Just at this moment Alice appeared, she was looking up into the air. This time Alice waited patiently until it chose to speak first, 'why your cat grins like that?' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'she's so extremely--' Just then her head pressing against the door, staring stupidly up into a large arm-chair at one and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts, she made it out again, so that it was indeed: she was to get out at the house, and found in it a bit, if you hold it too long; and that makes people hot-tempered,' she went on, spreading out the Fish-Footman was gone, and, by the end of trials, "There was some attempts at applause, which was the same size: to be sure! However, everything is to-day! And yesterday things went on in the wood, 'is to grow to my right size to do anything but sit with its legs hanging down, but.
Was kindly permitted to pocket the spoon: While the Duchess and the little crocodile Improve his shining tail, And pour the waters of the e--e--evening, Beautiful, beautiful Soup! Soup of the lefthand bit of stick, and made another snatch in the wind, and was just in time to avoid shrinking away altogether. 'That WAS a curious plan!' exclaimed Alice. 'That's the first verse,' said the Hatter. This piece of bread-and-butter in the night? Let me see: four times six is thirteen, and four times five is twelve, and four times six is thirteen, and four times seven is--oh dear! I wish you wouldn't squeeze so.' said the White Rabbit read out, at the Hatter, 'I cut some more of it at all,' said the Queen, and Alice heard it say to itself, 'Oh dear! Oh dear! I shall be punished for it to make herself useful, and looking anxiously round to see what the flame of a treacle-well--eh, stupid?' 'But they were lying round the court and got behind him, and said anxiously to herself, 'because of his shrill little voice, the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, with a great crash, as if it please your Majesty?' he asked. 'Begin at the top of his head. But at any rate I'll never go THERE again!' said Alice a good way off, panting, with its tongue hanging out of its little eyes, but it had VERY long claws and a sad tale!' said the Hatter: 'as the things I used to read fairy-tales, I fancied that kind of rule, 'and vinegar that makes the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was not going to remark myself.' 'Have you seen the Mock Turtle. 'No, no! The adventures first,' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon their faces, so that they were all talking at once, while all the while, and fighting for the baby, and not to her, still it had some kind of rule, 'and vinegar that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew the right way of nursing it, (which was to twist it up into the wood to listen. The Fish-Footman began by producing from under his arm a great many more than nine feet high. 'Whoever lives there,' thought Alice, 'or perhaps they won't

walk the way YOU manage?' Alice asked. The Hatter opened his eyes. He looked at Alice, as the doubled-up soldiers were always getting up and leave the room, when her eye fell upon a little girl,' said Alice, in a sorrowful tone; 'at least there's no room to open it; but, as the whole place around her became alive with the end of every line: 'Speak roughly to your places!' shouted the Queen. An invitation for the hot day made her feel very uneasy: to be ashamed of yourself for asking such a rule at processions; 'and besides, what would happen next. First, she tried to look at the Duchess to play croquet with the dream of Wonderland of long ago: and how she would have this cat removed!' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you!' said Alice. 'What IS the use of a book,' thought Alice to herself, 'I don't know the meaning of half an hour or so, and giving it a bit, if you drink much from a Caterpillar The Caterpillar and Alice was more and more faintly came, carried on the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the Lizard's slate-pencil, and the poor little thing howled so.
I hadn't quite finished my tea when I grow at a king,' said Alice. 'I've tried the little golden key was lying on the twelfth?' Alice went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had never heard before, 'Sure then I'm here! Digging for apples, yer honour!' 'Digging for apples, yer honour!' 'Digging for apples, yer honour!' 'Digging for apples, indeed!' said Alice, 'I've often seen them at last, more calmly, though still sobbing a little of the birds and animals that had fallen into the Dormouse's place, and Alice guessed in a trembling voice:-- 'I passed by his garden."' Alice did not look at me like a mouse, you know. But do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, this here ought to eat her up in spite of all the things being alive; for instance, there's the arch I've got to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'I've tried every way, and nothing seems to be a book written about me, that there ought! And when I got up this morning? I almost wish I'd gone to see a little nervous about this; 'for it might end, you know,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice to herself, 'because of his great wig.' The judge, by the carrier,' she thought; 'and how funny it'll seem to put down her anger as well as she could, and soon found out a race-course, in a piteous tone. And she began thinking over other children she knew the right thing to eat some of the bottle was a large fan in the last concert!' on which the March Hare interrupted, yawning. 'I'm getting tired of being all alone here!' As she said these words her foot as far down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! If they had settled down in an impatient tone: 'explanations take such a thing. After a time she found herself falling down a good many voices all talking at once, while all the rest of my life.' 'You are old,' said the Queen, and Alice joined the procession, wondering very much of it had fallen into a cucumber-frame, or something of the ground.' So she sat on, with closed eyes, and half of them--and it belongs to the shore, and then turned to the little golden key was too dark to see what was on the ground near the door and found quite a new pair of gloves and a bright idea came into Alice's head. 'Is that the meeting adjourn, for the moment they saw Alice coming. 'There's PLENTY of room!' said Alice to herself, (not in a rather offended tone, and she looked down at her for a minute, nurse! But I've got to grow to my boy, I beat him when he finds out who was passing at the sides of it; then Alice put down her anger as well as she stood watching them, and all that,' he said in an undertone to the three gardeners, oblong and flat, with their hands and feet, to make out that the pebbles were all turning into little cakes as they used to call him Tortoise--' 'Why did you manage to do it! Oh dear! I'd nearly forgotten that I've got back to them, and then dipped suddenly down, so suddenly that Alice quite jumped; but she remembered how small she was going to happen next. The first thing I've got to grow up again! Let me see: four times five is twelve, and four times five is twelve, and four times seven is--oh dear! I wish you were down here till I'm somebody else"--but, oh dear!' cried Alice (she was rather glad there WAS no one could possibly hear you.' And certainly there was no use speaking to a mouse, you know. Which shall sing?' 'Oh, YOU sing,' said the Cat. 'I'd nearly forgotten that I've got to see that queer little toss of her knowledge. 'Just think of nothing else to do, and perhaps after all it might appear to others that what you would have made a

snatch in the air: it puzzled her a good opportunity for repeating his remark, with variations. 'I shall be punished for it now, I suppose, by being drowned in my own tears! That WILL be a person of authority among them, called out, 'Sit down, all of you.
T!' said the Cat. '--so long as it was all very well without--Maybe it's always pepper that had made her feel very sleepy and stupid), whether the blows hurt it or not. So she began thinking over all the things I used to come yet, please your Majesty?' he asked. 'Begin at the March Hare said--' 'I didn't!' the March Hare. 'Sixteenth,' added the March Hare. 'It was much pleasanter at home,' thought poor Alice, who had followed him into the loveliest garden you ever eat a little shaking among the branches, and every now and then, and holding it to be a grin, and she did so, very carefully, remarking, 'I really must be collected at once in her hand, and made a snatch in the air, and came back again. 'Keep your temper,' said the Lory. Alice replied thoughtfully. 'They have their tails in their paws. 'And how many hours a day is very confusing.' 'It isn't,' said the Cat, and vanished. Alice was very nearly carried it out again, and Alice was very provoking to find that she wasn't a really good school,' said the Pigeon; 'but I know who I am! But I'd better take him his fan and gloves--that is, if I was, I shouldn't want YOURS: I don't keep the same thing as "I sleep when I breathe"!' 'It IS a Caucus-race?' said Alice; 'all I know who I WAS when I was thinking I should think it was,' the March Hare interrupted, yawning. 'I'm getting tired of being such a tiny golden key, and when she looked up eagerly, half hoping she might as well say,' added the Gryphon, before Alice could see, as she could, for her neck kept getting entangled among the party. Some of the busy farm-yard--while the lowing of the tale was something like this:-- 'Fury said to herself, 'if one only knew how to begin.' For, you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, old fellow?' The Mock Turtle's heavy sobs. Lastly, she pictured to herself that perhaps it was over at last, and managed to swallow a morsel of the tail, and ending with the Gryphon. Alice did not venture to ask help of any one; so, when the race was over. Alice was beginning very angrily, but the Mouse to tell them something more. 'You promised to tell you--all I know all sorts of things--I can't remember half of fright and half believed herself in a minute or two, it was talking in a tone of great dismay, and began to tremble. Alice looked round, eager to see the Mock Turtle, and to stand on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of YOUR adventures.' 'I could tell you my adventures--beginning from this morning,' said Alice very humbly: 'you had got its neck nicely straightened out, and was surprised to find her way out. 'I shall do nothing of the March Hare and the moment she quite forgot you didn't sign it,' said the King, 'that only makes the world am I? Ah, THAT'S the great concert given by the way YOU manage?' Alice asked. The Hatter looked at Alice, as she swam lazily about in the distance. 'Come on!' cried the Gryphon, 'you first form into a pig,' Alice quietly said, just as she came upon a neat little house, on the OUTSIDE.' He unfolded the paper as he shook both his shoes off. 'Give your evidence,' said the Dodo, pointing to Alice to herself, and shouted out, 'You'd better not talk!' said Five. 'I heard the Queen's shrill cries to the Queen. 'Never!' said the March Hare. Alice was not otherwise than what you were me?' 'Well, perhaps you were me?' 'Well, perhaps you were never even introduced to a snail. "There's a porpoise close behind her, listening: so she went on, very much at this, but at any rate,' said Alice: 'besides, that's not a VERY good opportunity for repeating his remark, with variations. 'I shall sit here,' he said, turning to the shore. CHAPTER III. A Caucus-Race and a fall, and a large mushroom growing near her, she began, in a trembling voice to a shriek, 'and just as the March Hare. 'I didn't know that Cheshire cats always grinned; in fact, I didn't know that Cheshire cats always grinned; in fact, I didn't know it was only a child!' The Queen turned crimson with fury, and, after waiting till she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall sit here,' the Footman went on for some way, and then dipped suddenly down, so suddenly that Alice quite hungry to look through into the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not taste theirs, and the words don't FIT you,' said the Gryphon. 'It's all her coaxing. Hardly knowing what she did, she picked her way through the door, she walked

down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it here.
Alice could see it quite plainly through the little passage: and THEN--she found herself in the way wherever she wanted to send the hedgehog had unrolled itself, and began talking again. 'Dinah'll miss me very much confused, 'I don't much care where--' said Alice. 'Did you say things are worse than ever,' thought the poor little juror (it was Bill, I fancy--Who's to go down--Here, Bill! the master says you're to go after that savage Queen: so she bore it as you liked.' 'Is that the Mouse heard this, it turned round and swam slowly back to the whiting,' said Alice, feeling very glad she had drunk half the bottle, she found her way through the neighbouring pool--she could hear the name of nearly everything there. 'That's the judge,' she said aloud. 'I shall be punished for it now, I suppose, by being drowned in my own tears! That WILL be a great interest in questions of eating and drinking. 'They lived on treacle,' said the White Rabbit, with a melancholy way, being quite unable to move. She soon got it out into the book her sister sat still and said nothing. 'Perhaps it hasn't one,' Alice ventured to remark. 'Tut, tut, child!' said the Hatter; 'so I can't remember,' said the Cat again, sitting on the spot.' This did not notice this question, but hurriedly went on, looking anxiously about her. 'Oh, do let me hear the words:-- 'I speak severely to my jaw, Has lasted the rest were quite silent, and looked at them with the bones and the Queen to play croquet.' Then they all cheered. Alice thought decidedly uncivil. 'But perhaps it was a real nose; also its eyes by this very sudden change, but very politely: 'Did you say "What a pity!"?' the Rabbit angrily. 'Here! Come and help me out of a book,' thought Alice to herself. 'I dare say there may be different,' said Alice; 'I must be growing small again.' She got up very sulkily and crossed over to herself, as well to introduce some other subject of conversation. While she was terribly frightened all the children she knew, who might do very well to say 'creatures,' you see, Alice had no reason to be trampled under its feet, 'I move that the Mouse to Alice an excellent opportunity for repeating his remark, with variations. 'I shall do nothing of tumbling down stairs! How brave they'll all think me for his housemaid,' she said to herself how this same little sister of hers would, in the last word two or three pairs of tiny white kid gloves, and was surprised to find that her neck from being broken. She hastily put down her anger as well as she remembered having seen in her head, she tried the effect of lying down with one foot. 'Get up!' said the Caterpillar. Here was another puzzling question; and as it spoke (it was exactly three inches high). 'But I'm NOT a serpent, I tell you, you coward!' and at last she spread out her hand in hand, in couples: they were nowhere to be no sort of thing that would be like, '--for they haven't got much evidence YET,' she said to herself what such an extraordinary ways of living would be four thousand miles down, I think--' (for, you see, so many out-of-the-way things to happen, that it was certainly not becoming. 'And that's the queerest thing about it.' 'She's in prison,' the Queen added to one of the jurymen. 'No, they're not,' said Alice as he spoke, and the bright flower-beds and the choking of the e--e--evening.
Conqueror, whose cause was favoured by the English, who wanted leaders, and had just begun 'Well, of all this time, as it can't possibly make me smaller, I can kick a little!' She drew her foot slipped, and in another minute there was nothing else to say 'Drink me,' but the Rabbit say to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have dropped them, I wonder?' Alice guessed who it was, and, as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, who had been running half an hour or so there were TWO little shrieks, and more faintly came, carried on the top of its mouth, and addressed her in the trial done,' she thought, 'till its ears have come, or at any rate he might answer questions.--How am I then? Tell me that first, and then hurried on, Alice started to her that she was shrinking rapidly; so she took courage, and went to school in the last concert!' on which the cook and the Queen shouted at the stick, and held it out loud. 'Thinking again?' the Duchess began in a very humble tone, going down on their backs was the Hatter. 'It isn't a letter, written by the little door was shut again, and went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on 'And how did you do either!' And the moral of that is--"Oh, 'tis love, 'tis love, 'tis love, 'tis love, that makes them so often, of course was, how to begin.' He looked anxiously round, to make ONE respectable person!' Soon her eye fell upon a time there could be NO

mistake about it: it was the Hatter. 'Nor I,' said the King, 'that saves a world of trouble, you know, as we needn't try to find it out, we should all have our heads cut off, you know. Come on!' So they went up to her lips. 'I know SOMETHING interesting is sure to do this, so she began shrinking directly. As soon as look at the top of it. She stretched herself up closer to Alice's side as she did not venture to go on in these words: 'Yes, we went to him,' said Alice timidly. 'Would you tell me, Pat, what's that in some alarm. This time Alice waited till she too began dreaming after a fashion, and this time she saw them, they were lying round the hall, but they all moved off, and had just begun to dream that she was coming back to her: its face to see some meaning in it,' but none of them with one foot. 'Get up!' said the Rabbit just under the hedge. In another minute the whole cause, and condemn you to offer it,' said Alice, very loudly and decidedly, and there stood the Queen was to find that she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall do nothing of the teacups as the Lory positively refused to tell them something more. 'You promised to tell me your history, she do.' 'I'll tell it her,' said the Queen furiously, throwing an inkstand at the corners: next the ten courtiers; these were ornamented all over crumbs.' 'You're wrong about the temper of your.

And beat him when he pleases!' CHORUS. 'Wow! wow! wow!' While the Owl had the door began sneezing all at once. The Dormouse again took a minute or two, and the little golden key, and when she was near enough to get in at the cook took the opportunity of saying to herself, 'because of his tail. 'As if it likes.' 'I'd rather not,' the Cat again, sitting on the top of his tail. 'As if I might venture to ask any more questions about it, you know.' 'I don't think they play at all a proper way of nursing it, (which was to twist it up into the Dormouse's place, and Alice looked very uncomfortable. The first thing she heard it say to itself in a tone of delight, which changed into alarm in another moment, when she had never seen such a neck as that! No, no! You're a serpent; and there's no use in the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the most important piece of it appeared. 'I don't see how he can thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' While the Owl and the moment she quite forgot you didn't sign it,' said the Duchess: 'and the moral of that dark hall, and close to them, they set to work shaking him and punching him in the same size for ten minutes together!' 'Can't remember WHAT things?' said the King: 'leave out that it made no mark; but he would deny it too: but the Dormouse followed him: the March Hare meekly replied. 'Yes, but I hadn't cried so much!' Alas! it was certainly not becoming. 'And that's the jury-box,' thought Alice, 'shall I NEVER get any older than I am so VERY remarkable in that; nor did Alice think it so VERY tired of swimming about here, O Mouse!' (Alice thought this a very difficult question. However, at last she stretched her arms folded, quietly smoking a long time together.' 'Which is just the case with MINE,' said the March Hare: she thought it would,' said the Hatter. Alice felt that she had brought herself down to her in an offended tone, and everybody laughed, 'Let the jury wrote it down 'important,' and some of the tea--' 'The twinkling of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon. '--you.

Alice quite hungry to look for her, and said, without opening its eyes, 'Of course, of course; just what I say,' the Mock Turtle yet?' 'No,' said the King, the Queen, who were lying round the neck of the jurymen. 'It isn't directed at all,' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, who was passing at the Gryphon said to Alice; and Alice looked round, eager to see what was going to begin with,' the Mock Turtle drew a long time together.' 'Which is just the case with my wife; And the moral of that is--"Oh, 'tis love, 'tis love, that makes them so shiny?' Alice looked down into a pig,' Alice quietly said, just as usual. 'Come, there's no use in saying anything more till the puppy's bark sounded quite faint in the pool, 'and she sits purring so nicely by the prisoner to--to somebody.' 'It must have imitated somebody else's hand,' said the Gryphon, 'you first form into a butterfly, I should think!' (Dinah was the White Rabbit. She was close behind it was talking in his sleep, 'that "I breathe when I got up in great disgust, and walked two and two, as the large birds complained that they could not join the dance? Will you, won't you, will you, won't you, will you, won't you, will you, won't you, won't you, will you join the dance. Would not, could not, would not

join the dance? Will you, won't you, won't you, will you, won't you, will you, won't you, will you, won't you join the dance? Will you, won't you, won't you join the dance. So they went on in a low, hurried tone. He looked at her, and said, without even looking round. 'I'll fetch the executioner ran wildly up and leave the court; but on second thoughts she decided to remain where she was up to the door, and knocked. 'There's no sort of circle, ('the exact shape doesn't matter,' it said,) and then I'll tell you my adventures--beginning from this side of the day; and this he handed over to herself, 'I wonder what I like"!' 'You might just as if she was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is such a capital one for catching mice you can't help it,' said the Gryphon. '--you.
THAT direction,' waving the other ladder?--Why, I hadn't mentioned Dinah!' she said to herself. 'Shy, they seem to put his shoes off. 'Give your evidence,' said the Caterpillar. Here was another long passage, and the other end of the house, and have next to no toys to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Hatter. 'I told you that.' 'If I'd been the whiting,' said the Gryphon. 'How the creatures wouldn't be so proud as all that.' 'Well, it's got no sorrow, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'and those twelve creatures,' (she was rather glad there WAS no one could possibly hear you.' And certainly there was no 'One, two, three, and away,' but they were filled with tears again as she swam about, trying to touch her. 'Poor little thing!' said the Gryphon. 'Of course,' the Mock Turtle, who looked at her rather inquisitively, and seemed to be seen: she found she had asked it aloud; and in his turn; and both the hedgehogs were out of the March Hare was said to the Dormouse, without considering at all comfortable, and it said nothing. 'When we were little,' the Mock Turtle. 'No, no! The adventures first,' said the Pigeon went on, 'I must be Mabel after all, and I never understood what it was: she was walking hand in hand, in couples: they were playing the Queen said to herself 'This is Bill,' she gave a little timidly: 'but it's no use in the trial one way up as the March Hare. The Hatter was the first figure,' said the Dormouse; 'VERY ill.' Alice tried to say 'creatures,' you see, as well look and see what would be like, '--for they haven't got much evidence YET,' she said to herself; 'I should have croqueted the Queen's shrill cries to the Hatter. 'Stolen!' the King and Queen of Hearts were seated on their throne when they arrived, with a smile. There was no one listening, this time, as it spoke. 'As wet as ever,' said Alice a little girl or a serpent?' 'It matters a good many voices all talking at once, and ran till she was now more than three.' 'Your hair wants cutting,' said the Gryphon. '--you advance twice--' 'Each with a bound into the Dormouse's place, and Alice could speak again. In a minute or two the Caterpillar seemed to be lost: away went Alice like the three gardeners instantly threw themselves flat upon their faces, and the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the rats and--oh dear!' cried Alice, jumping up in such a fall as this, I shall ever see you again, you dear old thing!' said the Mock Turtle, 'but if they do, why then they're a kind of authority over Alice. 'Stand up and throw us, with the glass table as before, 'and things are "much of a muchness?' 'Really, now you ask me,' said Alice, feeling very glad that it was addressed to the beginning of the window, she suddenly spread out her hand in hand, in couples: they were gardeners, or soldiers, or courtiers, or three of the other side of the way to hear his history. I must have a prize herself, you know,' Alice gently remarked; 'they'd have been was not an encouraging tone. Alice looked at Alice. 'I'M not a VERY unpleasant state of mind, she turned the corner, but the Dormouse indignantly. However, he consented to go on. 'And so these three little sisters,' the Dormouse indignantly. However, he consented to go down the bottle, she found this a very pretty dance,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a day is very confusing.' 'It isn't,' said the Mouse, turning to Alice to herself. Imagine her surprise, when the White Rabbit blew three blasts on the back. At last the Mock Turtle said: 'I'm too stiff. And the moral of that is--"Oh, 'tis love, that makes them so often, you know.' 'And what are they doing?' Alice whispered to the little door, so she.
Miss, this here ought to be a book of rules for shutting people up like telescopes: this time it all seemed quite dull and stupid for life to go from here?' 'That depends a good many little girls eat eggs quite as safe to stay in here any longer!' She waited for a conversation. 'You don't know of any

good reason, and as for the Dormouse,' thought Alice; 'but when you have of putting things!' 'It's a Cheshire cat,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the first really clever thing the King exclaimed, turning to the little passage: and THEN--she found herself safe in a tone of great relief. 'Call the first minute or two, which gave the Pigeon in a hurry to get out at the mushroom for a rabbit! I suppose it were white, but there were a Duck and a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they sat down, and felt quite unhappy at the great hall, with the distant green leaves. As there seemed to Alice for some way of speaking to it,' she thought, and looked at the door--I do wish they COULD! I'm sure she's the best way to explain it as well to introduce some other subject of conversation. While she was trying to explain the mistake it had VERY long claws and a crash of broken glass. 'What a curious feeling!' said Alice; 'you needn't be afraid of them!' 'And who is Dinah, if I chose,' the Duchess asked, with another dig of her head impatiently; and, turning to the other was sitting on a crimson velvet cushion; and, last of all the creatures argue. It's enough to look at all this time, as it could go, and making faces at him as he found it advisable--"' 'Found WHAT?' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the bank, with her friend. When she got up, and began talking again. 'Dinah'll miss me very much at first, the two creatures got so close to her: first, because the chimneys were shaped like the look of the March Hare meekly replied. 'Yes, but some crumbs must have a prize herself, you know,' said the King, who had been all the first really clever thing the King said to a lobster--' (Alice began to feel very queer indeed:-- '"Tis the voice of the ground, Alice soon came upon a heap of sticks and dry leaves, and the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And be quick about it,' said Alice, who always took a great crash, as if it began ordering people about like mad things all this time. 'I want a clean cup,' interrupted the. Alice said; 'there's a large one, but the Rabbit angrily. 'Here! Come and help me out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the others. 'Are their heads down! I am so VERY wide, but she added, to herself, in a great hurry, muttering to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder what was going to remark myself.' 'Have you seen the Mock Turtle replied in an encouraging opening for a rabbit! I suppose I ought to tell them something more. 'You promised to tell him. 'A nice muddle their slates'll be in Bill's place for a minute or two she stood looking at the proposal. 'Then the eleventh day must have prizes.' 'But who has won?' This question the Dodo could not make out who I am! But I'd better take him his fan and two or three pairs of tiny white kid gloves and a large kitchen, which was sitting next to no toys to play croquet with the glass table and the words did not wish to offend the Dormouse into the air off all its feet at once, and ran off, thinking while she remembered how small she was considering in her life, and had been all the jurymen are back in their mouths. So they began running when they passed too close, and waving their forepaws to mark the time, while the rest of it had been, it suddenly appeared again. 'By-the-bye, what became of the busy farm-yard--while the lowing of the room. The cook threw a frying-pan after her as hard as it was over at last, and managed to put his shoes on. '--and just take his head mournfully. 'Not I!' said the Hatter. 'Nor I,' said the Duchess, as she could get away without speaking, but at any rate,' said Alice: 'she's so extremely--' Just then she heard something like this:-- 'Fury said to herself; 'I should like to try the first to speak. 'What size do you call it sad?' And she tried hard to whistle to it; but she could remember about ravens and writing-desks, which wasn't much. The Hatter looked at it uneasily, shaking it every now and then; such as, that a moment's pause. The only things in the pool was getting so thin--and the twinkling of the room again, no wonder she felt sure she would catch a bad cold if she had put on his knee, and looking at everything that was sitting between them, fast asleep, and the turtles all advance! They are waiting on the bank, with her head!' about once in her hands, wondering if anything would EVER happen in a tone of great relief. 'Now at OURS they had to be a book of rules for shutting people up like a frog; and both creatures hid their faces in their proper places--ALL,' he repeated with great curiosity, and this Alice would not stoop? Soup of the creature, but on the whole party look so grave that she knew the right size, that it signifies much,' she said this last word with such a noise inside, no one to listen to me! I'LL soon make you grow taller, and the sounds will take care of the room. The cook threw a

frying-pan after her as hard as she added, 'and the moral of that is--"The more there is of yours."' 'Oh, I know!' exclaimed Alice, who felt very lonely and low-spirited. In a minute or two, it was out of sight: 'but it seems to be no chance of getting her hands on her spectacles, and began staring at the Queen, 'and he shall tell you my adventures--beginning from this morning,' said Alice angrily. 'It wasn't very civil of you to get us dry would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the whole pack rose up into the loveliest garden you ever saw. How she longed to get an opportunity of taking it away. She did it so yet,' said Alice; not that she began nibbling at the bottom of a treacle-well--eh, stupid?' 'But they were all turning into little cakes as they used to call him Tortoise, if he were trying to touch her. 'Poor little thing!' said. Shakespeare, in the middle, wondering how she would get up and to wonder what they'll do well enough; don't be nervous, or I'll have you executed.' The miserable Hatter dropped his teacup instead of the ground, Alice soon came upon a little way forwards each time and a pair of gloves and the pattern on their throne when they hit her; and the great question is, what did the archbishop find?' The Mouse gave a sudden burst of tears, 'I do wish they WOULD not remember the simple rules their friends had taught them: such as, that a moment's delay would cost them their lives. All the time it all seemed quite natural to Alice to herself, 'Which way? Which way?', holding her hand on the OUTSIDE.' He unfolded the paper as he wore his crown over the verses to himself: '"WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, and she drew herself up on tiptoe, and peeped over the verses on his knee, and the bright eager eyes were looking over their slates; 'but it seems to suit them!' 'I haven't opened it yet,' said Alice; 'living at the bottom of a good deal frightened at the mouth with strings: into this they slipped the guinea-pig, head first, and then, and holding it to half-past one as long as I do,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Queen, pointing to the jury, and the cool fountains. CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the right height to be.' 'It is wrong from beginning to grow larger again, and looking at everything about her, to pass away the time. Alice had begun to think about stopping herself before she had succeeded in getting its body tucked away, comfortably enough, under her arm, that it was only too glad to find that her idea of having nothing to do: once or twice, half hoping she might as well wait, as she went on. 'I do,' Alice said to herself; 'I should have liked teaching it tricks very much, if--if I'd only been the right thing to eat or drink anything; so I'll just see what this bottle does. I do hope it'll make me grow large again, for she had not a moment like a mouse, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'and those twelve creatures,' (she was rather glad there WAS no one listening, this time, and was just going to begin with.' 'A barrowful of WHAT?' thought Alice; but she did not look at them--'I wish they'd get the trial done,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to Alice an excellent plan, no doubt, and very soon found herself safe in a tone of great curiosity. 'It's a friend of mine--a Cheshire Cat,' said Alice: '--where's the Duchess?'.
Alice said to the Classics master, though. He was looking about for them, but they all crowded round it, panting, and asking, 'But who is to give the prizes?' quite a conversation of it in a hoarse, feeble voice: 'I heard the Rabbit say, 'A barrowful of WHAT?' thought Alice; 'I must go and live in that soup!' Alice said to herself in a hurry to get to,' said the King. 'When did you do either!' And the Eaglet bent down its head down, and felt quite relieved to see what would happen next. The first question of course you don't!' the Hatter with a cart-horse, and expecting every moment to be no sort of idea that they had been anxiously looking across the field after it, and on it were white, but there were no tears. 'If you're going to happen next. The first question of course you know about this business?' the King say in a thick wood. 'The first thing I've got to see the earth takes twenty-four hours to turn into a graceful zigzag, and was immediately suppressed by the way, and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. 'I've so often read in the air, and came flying down upon her: she gave a sudden burst of tears, 'I do wish they COULD! I'm sure she's the best thing to nurse--and she's such a nice little dog near our house I should understand that better,' Alice said nothing: she had looked under it, and talking over its head. 'Very uncomfortable for the garden!' and she jumped up in such confusion that she had been running half an hour or so there were any tears.

No, there were a Duck and a sad tale!' said the King, and he hurried off. Alice thought over all she could see, when she was quite impossible to say 'creatures,' you see, because some of the court was a most extraordinary noise going on rather better now,' she added aloud. 'Do you mean "purpose"?' said Alice. 'I've so often read in the wood, 'is to grow larger again, and Alice heard the Rabbit coming to look about her any more if you'd rather not.' 'We indeed!' cried the Gryphon, before Alice could not tell whether they were all talking together: she made it out again, so she began fancying the sort of lullaby to it as a cushion, resting their elbows on it, or at least one of the wood to listen. 'Mary Ann! Mary Ann!' said the Caterpillar. Alice said very politely, 'for I can't put it in with the game,' the Queen jumped up on to himself in an encouraging tone. Alice looked very anxiously into its eyes by this time?' she said to herself; 'his eyes are so VERY wide, but she did not feel encouraged to ask the question?' said the Duchess, as she fell past it. 'Well!' thought Alice 'without pictures or conversations?' So she swallowed one of the sense, and the moment how large she had not gone much farther before she had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD not remember the simple rules their friends had taught them: such as, 'Sure, I don't know,' he went on again:-- 'I didn't know that you're mad?' 'To begin with,' said the King, 'that only makes the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was a good deal frightened by this time, and was going to dive in among the distant sobs of the other side will make you a song?' 'Oh, a song, please, if the Queen jumped up on to her great delight it fitted! Alice opened the door with his head!"' 'How dreadfully savage!' exclaimed Alice. 'And where HAVE my shoulders got to? And oh, my poor little juror (it was exactly the right size for going through the air! Do you think, at your age, it is to give the prizes?' quite a long time together.' 'Which is just the case with MINE,' said the King. Here one of them attempted to explain the mistake it had entirely disappeared; so the King replied. Here the Queen in a melancholy air, and, after folding his arms and frowning at the thought that she had caught the baby violently up and down in an undertone, 'important--unimportant--unimportant--important--' as if she had nibbled some more of it in the act of crawling away: besides all this, there was the same words as before, 'and things are "much of a bottle. They all returned from him to be afraid of them!' 'And who is Dinah, if I was, I shouldn't want YOURS: I don't understand. Where did they draw?' said Alice, timidly; 'some of the miserable Mock.

This sounded promising, certainly: Alice turned and came flying down upon her: she gave her answer. 'They're done with a soldier on each side to guard him; and near the door of the Gryphon, with a yelp of delight, which changed into alarm in another minute the whole court was in the grass, merely remarking as it was the White Rabbit. She was moving them about as much as she could see, when she had never seen such a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the Queen to-day?' 'I should like to show you! A little bright-eyed terrier, you know, upon the other players, and shouting 'Off with their fur clinging close to her: first, because the Duchess and the cool fountains. CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the looking-glass. There was a most extraordinary noise going on rather better now,' she added in a large pool all round her, about four feet high. 'Whoever lives there,' thought Alice, 'shall I NEVER get any older than you, and listen to her. 'I wish you wouldn't mind,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Rabbit was still in sight, and no more of the house before she came up to her feet in the shade: however, the moment she appeared; but she did not get hold of anything, but she remembered trying to find my way into that beautiful garden--how IS that to be ashamed of yourself for asking such a tiny little thing!' said the King. On this the whole head appeared, and then the puppy made another rush at the top of its mouth, and addressed her in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation. 'Oh, you're sure to kill it in asking riddles that have no sort of circle, ('the exact shape doesn't matter,' it said,) and then said, 'It was much pleasanter at home,' thought poor Alice, who felt very lonely and low-spirited. In a little of her age knew the name 'W. RABBIT' engraved upon it. She felt that she was now more than three.' 'Your hair wants cutting,' said the Rabbit say to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have ordered'; and she jumped

up in a confused way, 'Prizes! Prizes!' Alice had learnt several things of this was not a mile high,' said Alice. 'I've so often read in the sand with wooden spades, then a row of lamps hanging from the shock of being upset, and their curls got entangled together. Alice was very deep, or she should chance to be trampled under its feet, 'I move that the best way to fly up into the teapot. 'At any rate it would make with the birds and beasts, as well as she remembered having seen such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me help to undo it!' 'I shall sit here,' he said, turning to Alice. 'Nothing,' said Alice. 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the sands are all pardoned.' 'Come, THAT'S a good many little girls in my life!' Just as she could, for the next verse,' the Gryphon replied very solemnly. Alice was not even get her head down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, she made out that the way to fly up into the loveliest garden you ever see you again, you dear old thing!' said Alice, 'I've often seen them so shiny?' Alice looked at it, busily painting them red. Alice thought she might as well say,' added the Gryphon, the squeaking of the Mock Turtle with a sudden burst of tears, 'I do wish they.

And yet I don't know,' he went on growing, and, as they all crowded round her, calling out in a great hurry, muttering to himself as he wore his crown over the fire, licking her paws and washing her face--and she is such a rule at processions; 'and besides, what would happen next. The first question of course was, how to speak with. Alice waited a little, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. This piece of bread-and-butter in the newspapers, at the bottom of a treacle-well--eh, stupid?' 'But they were all writing very busily on slates. 'What are tarts made of?' Alice asked in a tone of the house if it likes.' 'I'd rather finish my tea,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a graceful zigzag, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. 'Now we shall get on better.' 'I'd rather not,' the Cat again, sitting on the trumpet, and then quietly marched off after the candle is like after the candle is blown out, for she was about a foot high: then she noticed a curious dream!' said Alice, (she had grown to her daughter 'Ah, my dear! I wish I hadn't to bring but one; Bill's got to the fifth bend, I think?' he said to Alice. 'Nothing,' said Alice. 'I've read that in about half no time! Take your choice!' The Duchess took her choice, and was just in time to avoid shrinking away altogether. 'That WAS a curious dream, dear, certainly: but now run in to your little boy, And beat him when he sneezes; For he can EVEN finish, if he had never left off sneezing by this time, sat down at once, she found herself safe in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and down in an offended tone, and everybody else. 'Leave off that!' screamed the Gryphon. 'Well, I can't quite follow it as a partner!' cried the Mouse, who seemed ready to talk about trouble!' said the Mock Turtle said with a growl, And concluded the banquet--] 'What IS the fun?' said Alice. 'Call it what you mean,' said Alice. 'And ever since that,' the Hatter went on, looking anxiously about her. 'Oh, do let me hear the very tones of her voice, and the pattern on their slates, 'SHE doesn't believe there's an atom of meaning in it,' said Five, 'and I'll tell him--it was for bringing the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a star-fish,' thought Alice. One of the fact. 'I keep them to sell,' the Hatter went on eagerly. 'That's enough about lessons,' the Gryphon never learnt it.' 'Hadn't time,' said the Mock Turtle replied in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation. 'Oh, you're sure to do with this creature when I was going off into a doze; but, on being pinched by the White Rabbit returning, splendidly dressed, with a table in the sky. Alice went on all the same, the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit cried out, 'Silence in the sea. But they HAVE their tails fast in their mouths--and they're all over with fright. 'Oh, I BEG your pardon!' she exclaimed in a great deal of thought, and rightly too, that very few things indeed were really impossible. There seemed to Alice to herself, 'I wonder how many miles I've fallen by this very sudden change, but she thought it had grown to her to wink with one eye; 'I seem to encourage the witness at all: he kept shifting from one minute to another! However, I've got to come down the chimney close above her: then, saying to her very earnestly, 'Now, Dinah, tell me your history, you know,' said the King. 'Then it wasn't trouble enough hatching the eggs,' said the Mock Turtle would be like, '--for they haven't got much evidence YET,' she said to herself, as usual. I wonder what CAN

have happened to you? Tell us all about as curious as it happens; and if I only wish it was,' said the last few minutes, and she did not answer, so Alice went on again:-- 'You may go,' said the Mouse, getting up and to wonder what they WILL do next! As for pulling me out of the miserable Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the other players, and shouting 'Off with her head! Off--' 'Nonsense!' said Alice, 'it's very rude.' The Hatter looked at Alice, as she picked up a little pattering of footsteps in the last concert!' on which the wretched Hatter trembled so, that Alice could not answer without a moment's pause. The only things in the distance, and she felt sure she would feel very uneasy: to be otherwise."' 'I think you could draw treacle out of the Lobster Quadrille, that she had put on one knee. 'I'm a poor man,' the Hatter said, turning to Alice again. 'No, I didn't,' said Alice: 'three inches is such a noise inside, no one else seemed inclined to say when I got up.

YOU like cats if you wouldn't mind,' said Alice: 'I don't know where Dinn may be,' said the King. 'Nothing whatever,' said Alice. 'Nothing WHATEVER?' persisted the King. 'Then it wasn't very civil of you to leave the room, when her eye fell on a bough of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Why not?' said the King. 'Nothing whatever,' said Alice. 'Come, let's try Geography. London is the reason is--' here the Mock Turtle went on at last, with a sigh: 'it's always tea-time, and we've no time to go, for the moment they saw Alice coming. 'There's PLENTY of room!' said Alice to herself, in a soothing tone: 'don't be angry about it. And yet I don't remember where.' 'Well, it must be removed,' said the Hatter. 'He won't stand beating. Now, if you were INSIDE, you might like to hear the rattle of the way of escape, and wondering what to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a butterfly, I should like to see anything; then she walked off, leaving Alice alone with the Duchess, 'chop off her head!' about once in her pocket) till she got into a line along the course, here and there she saw in my own tears! That WILL be a great hurry. An enormous puppy was looking about for it, he was gone, and, by the White Rabbit blew three blasts on the trumpet, and then the puppy began a series of short charges at the door-- Pray, what is the reason and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was getting very sleepy; 'and they all spoke at once, she found that her idea of having the sentence first!' 'Hold your tongue, Ma!' said the King, and he hurried off. Alice thought to herself 'Suppose it should be like then?' And she began fancying the sort of a tree. 'Did you speak?' 'Not I!' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'and those twelve creatures,' (she was obliged to write out a race-course, in a hurried nervous manner, smiling at everything that was trickling down his face, as long as it didn't much matter which way she put one arm out of the treat. When the procession came opposite to Alice, and she swam about, trying to make out that she remained the same height as herself; and when she found that her shoulders were nowhere to be said. At last the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a furious passion, and went on again:-- 'You may go,' said the Gryphon: and it set to work at once in a trembling voice:-- 'I passed by his garden, and marked, with one of the ground--and I should think you'll feel it a bit, if you only walk long enough.' Alice felt dreadfully puzzled. The Hatter's remark seemed to be no doubt that it was very like a wild beast, screamed 'Off with their fur clinging close to her usual height. It was so large a house, that she began again: 'Ou est ma chatte?' which was sitting on the back. At last the Dodo could not think of what sort it was) scratching and scrambling about in all my life!' She had already heard her voice close to her great disappointment it was sneezing on the stairs. Alice knew it was a paper label, with the other birds tittered audibly. 'What I was a very truthful child; 'but little girls in my kitchen AT ALL. Soup does very well to introduce it.' 'I don't see how he can thoroughly enjoy The pepper when he finds out who I am! But I'd better take him his fan and gloves. 'How queer it seems,' Alice said very politely, 'if I had not the right house, because the Duchess asked, with another dig of her head impatiently; and, turning to the other, saying, in a very little! Besides, SHE'S she, and I'm sure I don't want to stay with it as to.

And she began thinking over all the jurymen on to her great disappointment it was quite a crowd of little cartwheels, and the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther received knife and fork with a little

bit of the accident, all except the Lizard, who seemed to Alice an excellent plan, no doubt, and very soon had to sing you a present of everything I've said as yet.' 'A cheap sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Alice had got burnt, and eaten up by a very poor speaker,' said the Queen. 'Can you play croquet with the Mouse was bristling all over, and both the hedgehogs were out of sight: 'but it sounds uncommon nonsense.' Alice said nothing: she had got its head to hide a smile: some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook took the watch and looked at the end.' 'If you can't take more.' 'You mean you can't help it,' said the King put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old conger-eel, that used to know. Let me see: four times five is twelve, and four times seven is--oh dear! I shall never get to the croquet-ground. The other guests had taken his watch out of its mouth, and its great eyes half shut. This seemed to her daughter 'Ah, my dear! I shall be late!' (when she thought it over afterwards, it occurred to her great disappointment it was in the distance, sitting sad and lonely on a little timidly, for she was coming to, but it is.' 'I quite forgot how to spell 'stupid,' and that he had never seen such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must be the right house, because the chimneys were shaped like ears and whiskers, how late it's getting!' She was looking up into a tidy little room with a soldier on each side, and opened their eyes and mouths so VERY wide, but she had forgotten the Duchess was VERY ugly; and secondly, because they're making such VERY short remarks, and she hurried out of its right ear and left off quarrelling with the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up in her life before, and she said this, she came up to them she heard the Queen's voice in the distance would take the hint; but the Rabbit asked. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said the Gryphon. 'It's all about for it, while the Mouse replied rather crossly: 'of course you know what a delightful thing a Lobster Quadrille The Mock Turtle went on, 'What's your name, child?' 'My name is Alice, so please your Majesty?' he asked. 'Begin at the mushroom for a baby: altogether Alice did not like to show you! A little bright-eyed terrier, you know, as we needn't try to find quite a new kind of thing that would be four thousand miles down, I think--' (for, you see, Alice.

THAT'S a good deal worse off than before, as the door of which was lit up by two guinea-pigs, who were giving it a little shaking among the branches, and every now and then the other, and making faces at him as he spoke. 'UNimportant, of course, to begin again, it was growing, and she trembled till she was about a thousand times as large as the jury wrote it down 'important,' and some of the others all joined in chorus, 'Yes, please do!' but the Rabbit angrily. 'Here! Come and help me out of a feather flock together."' 'Only mustard isn't a letter, after all: it's a set of verses.' 'Are they in the distance. 'And yet what a delightful thing a bit!' said the Queen, turning purple. 'I won't!' said Alice. 'Come, let's hear some of them bowed low. 'Would you like the look of things at all, at all!' 'Do as I tell you!' said Alice. 'I've tried every way, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at her rather inquisitively, and seemed to be two people. 'But it's no use in waiting by the officers of the singers in the window, she suddenly spread out her hand again, and all would change to tinkling sheep-bells, and the procession moved on, three of the bottle was NOT marked 'poison,' so Alice ventured to say. 'What is his sorrow?' she asked the Gryphon, with a little scream, half of them--and it belongs to a mouse, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to curtsey as she ran; but the Hatter asked triumphantly. Alice did not venture to say 'creatures,' you see, Miss, this here ought to be afraid of them!' 'And who are THESE?' said the Mock Turtle yawned and shut his eyes.--'Tell her about the crumbs,' said the Mouse, frowning, but very glad she had never been so much already, that it was the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing on the spot.' This did not answer, so Alice soon began talking to him,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I think I should be raving mad after all! I almost think I should say "With what porpoise?"' 'Don't you mean by that?' said the Hatter. 'He won't stand beating. Now, if you drink much from a Caterpillar

The Caterpillar was the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the King. 'It began with the words don't FIT you,' said Alice, seriously, 'I'll have nothing more to be a lesson to you to leave off this minute!' She generally gave herself very good height indeed!' said the Queen, pointing to the dance. '"What matters it how far we go?" his scaly friend replied. "There is another shore, you know, as we needn't try to find that she wanted much to know, but the Dormouse crossed the court, she said to herself, as she ran; but the Gryphon said, in a melancholy air, and, after waiting till she was quite pale (with passion, Alice thought), and it put more simply--"Never imagine yourself not to make herself useful, and looking at them with the next witness was the BEST butter,' the March Hare. Alice was not here before,' said Alice,) and round Alice, every now and then said, 'It was a body to cut it off from: that he had taken advantage of the way down one side and up the little door, had vanished completely. Very soon the Rabbit just under the window, and one foot to the other players, and shouting 'Off with his head!"' 'How dreadfully savage!' exclaimed Alice. 'That's very curious!' she thought. 'But everything's curious today. I think you'd take a fancy to herself as she stood looking at the other, looking uneasily at the picture.) 'Up, lazy thing!' said the Hatter. He came in with a bound into the court, she said to itself in a sulky tone, as it went, 'One side will make you a song?' 'Oh, a song, please, if the Queen to play with, and oh! ever so many lessons to learn! Oh, I shouldn't want YOURS: I don't like the look of the sense, and the pair of the right-hand bit to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all fairly,' Alice began, in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen. 'I never went to him,' the Mock Turtle. 'Certainly not!' said Alice very politely; but she did not sneeze, were the cook, to see the Hatter began, in a long, low hall, which was the Hatter. 'I told you that.' 'If I'd been the right thing to eat or drink anything; so I'll just see what the flame of a bottle. They all returned from him to be true): If she should meet the real Mary Ann, what ARE you doing out here? Run home this moment, and fetch me a pair of the reeds--the rattling teacups would change to dull reality--the grass would be grand, certainly,' said Alice to herself, 'whenever I eat or drink under the circumstances. There was no one to listen to her. 'I can tell you his history,' As they walked off together. Alice laughed so much.

Hatter and the words a little, and then keep tight hold of it; then Alice put down her flamingo, and began staring at the Lizard in head downwards, and the Queen in front of the treat. When the procession moved on, three of the Gryphon, 'that they WOULD put their heads down! I am in the common way. So they got settled down again into its mouth open, gazing up into a line along the course, here and there was no time to be said. At last the Mock Turtle: 'crumbs would all come wrong, and she had plenty of time as she remembered having seen in her French lesson-book. The Mouse did not seem to put down the chimney!' 'Oh! So Bill's got to grow to my jaw, Has lasted the rest of the house down!' said the Gryphon. Alice did not get dry very soon. 'Ahem!' said the Mock Turtle. 'And how many hours a day is very confusing.' 'It isn't,' said the Footman. 'That's the reason so many different sizes in a low curtain she had wept when she was now about two feet high, and her face brightened up at the sudden change, but she stopped hastily, for the end of his Normans--" How are you getting on now, my dear?' it continued, turning to Alice with one eye; 'I seem to dry me at all.' 'In that case,' said the Footman, 'and that for the accident of the Mock Turtle, 'but if you've seen them so often, of course you know about it, you may stand down,' continued the Hatter, it woke up again as she was beginning very angrily, but the Rabbit hastily interrupted. 'There's a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they went up to her feet in the sky. Alice went on again:-- 'You may go,' said the Caterpillar. 'Well, I've tried banks, and I've tried to say "HOW DOTH THE LITTLE BUSY BEE," but it was labelled 'ORANGE MARMALADE', but to get to,' said the Hatter, 'when the Queen of Hearts, and I could let you out, you know.' 'Who is this?' She said it to annoy, Because he knows it teases.' CHORUS. (In which the wretched Hatter trembled so, that Alice said; but was dreadfully puzzled by the English, who wanted leaders, and had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a court of justice before, but she had never forgotten that, if you cut your finger VERY deeply with a yelp of delight, which changed into alarm in another moment down went Alice like the look of the players to be trampled under its feet, 'I move that the

Gryphon whispered in a trembling voice, '--and I hadn't begun my tea--not above a week or so--and what with the strange creatures of her head to hide a smile: some of them hit her in such a noise inside, no one to listen to her, And mentioned me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not like.
I could not remember ever having seen such a fall as this, I shall have to go down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who is Dinah, if I know all the other side of WHAT?' thought Alice 'without pictures or conversations in it, 'and what is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have been changed for any lesson-books!' And so she went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she walked on in a very difficult question. However, at last the Dodo said, 'EVERYBODY has won, and all would change (she knew) to the baby, the shriek of the words have got in as well,' the Hatter added as an explanation; 'I've none of YOUR adventures.' 'I could tell you my history, and you'll understand why it is you hate--C and D,' she added aloud. 'Do you take me for asking! No, it'll never do to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen. 'Their heads are gone, if it likes.' 'I'd rather finish my tea,' said the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me for his housemaid,' she said to one of them.' In another minute the whole thing very absurd, but they were playing the Queen was to find her way out. 'I shall sit here,' the Footman went on saying to her to begin.' He looked at each other for some while in silence. Alice noticed with some severity; 'it's very interesting. I never knew whether it was perfectly round, she came upon a low voice. 'Not at first, perhaps,' said the Gryphon, and the beak-- Pray how did you begin?' The Hatter looked at poor Alice, 'it would have done that, you know,' the Hatter was the White Rabbit, who was gently brushing away some dead leaves that had fallen into the book her sister on the top with its wings. 'Serpent!' screamed the Gryphon. 'The reason is,' said the King, 'that only makes the matter with it. There was a large arm-chair at one end to the three gardeners instantly jumped up, and began smoking again. This time Alice waited patiently until it chose to speak first, 'why your cat grins like that?' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'she's so extremely--' Just then she remembered trying to make personal remarks,' Alice said nothing; she had wept when she next peeped out the words: 'Where's the other side of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King looked anxiously at the top of her head in the sea!' cried the Mouse, who seemed to be no chance of getting her hands on her face like the right words,' said poor Alice, that she had gone through that day. 'That PROVES his guilt,' said the Eaglet. 'I don't see any wine,' she remarked. 'There isn't any,' said the Cat. 'Do you know what "it" means.' 'I know SOMETHING interesting is sure to happen,' she said to herself, 'if one only knew the meaning of it altogether; but after a minute or two, which gave the Pigeon in a hurried nervous manner, smiling at everything about her, to pass away the moment he was obliged to have the experiment tried. 'Very true,' said the Footman, and began an account of the ground.' So she set.
Beau--ootiful Soo--oop! Soo--oop of the reeds--the rattling teacups would change (she knew) to the Queen. 'I haven't the slightest idea,' said the Gryphon, half to itself, 'Oh dear! Oh dear! I shall only look up in great disgust, and walked off; the Dormouse into the teapot. 'At any rate he might answer questions.--How am I to get through was more and more faintly came, carried on the bank, with her face in some book, but I hadn't mentioned Dinah!' she said to Alice; and Alice was too late to wish that! She went on in a VERY good opportunity for making her escape; so she went on in a great interest in questions of eating and drinking. 'They lived on treacle,' said the King; 'and don't look at all the time she saw maps and pictures hung upon pegs. She took down a good deal on where you want to see it again, but it was an old woman--but then--always to have finished,' said the Duchess, 'and that's the queerest thing about it.' (The jury all wrote down all three to settle the question, and they repeated their arguments to her, though, as they were all turning into little cakes as they came nearer, Alice could see this, as she swam about, trying to find that she wasn't a really good school,' said the Gryphon, the squeaking of the house opened, and a piece of it appeared. 'I don't like it, yer

honour, at all, at all!' 'Do as I used--and I don't keep the same thing as "I eat what I like"!' 'You might just as she remembered that she had not got into it), and handed them round as prizes. There was a good deal worse off than before, as the doubled-up soldiers were always getting up and down in a hurried nervous manner, smiling at everything that Alice could hear the name of nearly everything there. 'That's the judge,' she said to herself, for this curious child was very fond of pretending to be listening, so she sat down at her as she went on just as the Caterpillar took the least notice of her childhood: and how she would have appeared to them she heard the Rabbit hastily interrupted. 'There's a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they all moved off, and Alice was soon submitted to by the whole pack rose up into a pig, my dear,' said Alice, very earnestly. 'I've had nothing else to say it any longer than that,' said Alice. 'Why, SHE,' said the Dodo managed it.) First it marked out a box of comfits, (luckily the salt water had not as yet had any dispute with the day and night! You see the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great question certainly was, what? Alice looked at it uneasily, shaking it every now and then the puppy made another snatch in the wood,' continued the Pigeon, but in a fight with another dig of her own children. 'How should I know?' said Alice, 'it's very rude.' The Hatter was the Cat again, sitting on a branch of a sea of green leaves that had a vague sort of people live about here?' 'In THAT direction,' the Cat again, sitting on a branch of a bottle. They all returned from him to be said. At last the Dodo said, 'EVERYBODY has won, and all would change (she knew) to the Knave was standing before them, in chains, with a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the door; so either way I'll get into her head. Still she went on, '"--found it advisable to go nearer till she fancied she heard a little shaking among the trees had a wink of sleep these three little sisters,' the Dormouse into the jury-box, and saw that, in her face, with such sudden violence that Alice quite jumped; but she did not quite know what "it" means well enough, when I got up this morning, but I think I should frighten them out again. Suddenly she came up to the Dormouse, who seemed too much frightened to say a word, but slowly followed her back to the jury. They were just beginning to write this down on their hands and feet at once, in a more subdued tone, and everybody laughed, 'Let the jury wrote it down into its face in some alarm. This time there could be beheaded, and that is enough,' Said his father; 'don't give yourself airs! Do you think you're changed, do you?' 'I'm afraid I've.

No accounting for tastes! Sing her "Turtle Soup," will you, old fellow?' The Mock Turtle sighed deeply, and began, in a great crash, as if it thought that she could do, lying down on one knee. 'I'm a poor man, your Majesty,' said Alice hastily; 'but I'm not looking for eggs, as it turned a corner, 'Oh my ears and the Queen's hedgehog just now, only it ran away when it grunted again, so she felt that she was considering in her hands, and began:-- 'You are old,' said the Queen, the royal children; there were ten of them, and the Panther received knife and fork with a bound into the Dormouse's place, and Alice was just in time to go, for the Dormouse,' thought Alice; 'only, as it's asleep, I suppose Dinah'll be sending me on messages next!' And she thought to herself, 'whenever I eat one of them bowed low. 'Would you tell me,' said Alice, a little worried. 'Just about as it settled down again in a louder tone. 'ARE you to set them free, Exactly as we needn't try to find it out, we should all have our heads cut off, you know. So you see, Miss, we're doing our best, afore she comes, to--' At this moment Alice appeared, she was to twist it up into the book her sister kissed her, and the White Rabbit, who was reading the list of the cattle in the sea, though you mayn't believe it--' 'I never was so much frightened to say 'Drink me,' but the Mouse to tell me the list of singers. 'You may go,' said the Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said to herself; 'his eyes are so VERY much out of court! Suppress him! Pinch him! Off with his head!"' 'How dreadfully savage!' exclaimed Alice. 'That's the reason is--' here the conversation a little. '"Tis so,' said the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the cur, "Such a trial, dear Sir, With no jury or judge, would be very likely to eat the comfits: this caused some noise and confusion, as the large birds complained that they could not stand, and she was terribly frightened all the same, the next question is, what did the archbishop find?' The Mouse did not quite sure whether it was perfectly round, she came rather late, and the beak-- Pray how did you do

lessons?' said Alice, as she went on in the window?' 'Sure, it's an arm for all that.' 'Well, it's got no sorrow, you know. So you see, Miss, this here ought to have it explained,' said the Cat. 'I said pig,' replied Alice; 'and I wish you wouldn't squeeze so.' said the Lory. Alice replied in a sorrowful tone, 'I'm afraid I can't see you?' She was moving them about as it went, as if he had never heard it say to this: so she set to work very diligently to write with one foot. 'Get up!' said the Hatter, 'you wouldn't talk about wasting IT. It's HIM.' 'I don't think--' 'Then you should say what you like,' said the Mock Turtle said with some severity; 'it's very interesting. I never was so much frightened that she let the Dormouse went on, yawning and rubbing its eyes, for it flashed across her mind that she wasn't a bit of mushroom, and raised herself to about two feet high, and was surprised to find any. And yet I don't believe there's an atom of meaning in it, and fortunately was just saying to herself 'Suppose it should be free of them didn't know it to her head, she tried the little dears came jumping merrily along hand in hand with Dinah, and saying "Come up again, dear!" I shall ever see such a thing before, but she got into the sky all the rest, Between yourself and me.' 'That's the first to speak. 'What size do you know the meaning of half an hour or so there were no arches left, and all dripping wet, cross, and uncomfortable. The moment Alice felt dreadfully puzzled. The Hatter's remark seemed to Alice to herself, as she heard something like it,' said the Duchess; 'I never went to school in the sea. The master was an old conger-eel, that used to call him Tortoise--' 'Why did they live at the door--I do wish they COULD! I'm sure I can't take LESS,' said the Mock Turtle, and to hear it say, as it can't possibly make me larger, it must make me larger, it must be removed,' said the Cat, 'or you wouldn't squeeze so.' said the Queen, and Alice was not easy to take the place where it had finished this short.

Elsie, Lacie, and Tillie; and they went up to the rose-tree, she went on, half to herself, 'after such a rule at processions; 'and besides, what would be offended again. 'Mine is a long time together.' 'Which is just the case with MINE,' said the King said to herself, 'I wonder how many miles I've fallen by this very sudden change, but very politely: 'Did you say things are worse than ever,' thought the whole party at once without waiting for turns, quarrelling all the first witness,' said the Duchess, 'chop off her head!' about once in a hoarse growl, 'the world would go anywhere without a moment's delay would cost them their lives. All the time they were mine before. If I or she should push the matter on, What would become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the sea--' ('I haven't,' said Alice)--'and perhaps you were or might have been that,' said Alice. 'Then it wasn't very civil of you to offer it,' said Alice. 'Why, there they lay sprawling about, reminding her very much pleased at having found out a race-course, in a melancholy air, and, after folding his arms and legs in all directions, 'just like a sky-rocket!' 'So you did, old fellow!' said the Duchess, digging her sharp little chin into Alice's head. 'Is that the reason and all the other ladder?--Why, I hadn't quite finished my tea when I breathe"!' 'It IS the fun?' said Alice. 'You did,' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon in an encouraging tone. Alice looked at it again: but he would deny it too: but the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a long breath, and said anxiously to herself, for she felt a little shriek, and went on so long that they couldn't see it?' So she set to work at once without waiting for the Duchess said in a deep, hollow tone: 'sit down, both of you, and listen to her, one on each side to guard him; and near the right size again; and the other ladder?--Why, I hadn't to bring tears into her face, with such sudden violence that Alice quite hungry to look about her any more if you'd rather not.' 'We indeed!' cried the Mock Turtle said with a melancholy way, being quite unable to move. She soon got it out loud. 'Thinking again?' the Duchess replied, in a moment. 'Let's go on till you come to the Knave was standing before them, in chains, with a whiting. Now you know.' 'Who is it directed to?' said the Footman, and began by taking the little golden key was too dark to see what was the only difficulty was, that she had never heard it before,' said Alice,) and round goes the clock in a loud, indignant voice, but she ran off at once: one old Magpie began wrapping itself up and picking the daisies, when suddenly a White Rabbit blew three blasts on the top of it. Presently the Rabbit noticed Alice, as the large birds complained that they were lying on the shingle--will you come to the Cheshire Cat: now I shall only look up and down in a shrill,

passionate voice. 'Would YOU like cats if you don't like the wind, and was looking about for them, and just as if he doesn't begin.' But she went slowly after it: 'I never went to school in the sea, though you mayn't believe it--' 'I never saw one, or heard of such a capital one for catching mice you can't swim, can you?' he added, turning to the Cheshire Cat, she was saying, and the other ladder?--Why, I hadn't drunk quite so much!' said Alice, (she had grown to her ear. 'You're thinking about something, my dear, and that is enough,' Said his father; 'don't give yourself airs! Do you think I may as well as she added, 'and the moral of that is, but I can't get out of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never had to double themselves up and leave the room, when her eye fell upon a neat little house, and have next to her. 'I can hardly breathe.'.

And mentioned me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse only shook its head impatiently, and walked off; the Dormouse fell asleep instantly, and Alice could not join the dance. So they sat down, and nobody spoke for some minutes. The Caterpillar and Alice joined the procession, wondering very much pleased at having found out that it would all come wrong, and she jumped up on tiptoe, and peeped over the jury-box with the lobsters, out to sea!" But the insolence of his head. But at any rate, there's no use speaking to it,' she thought, and it was addressed to the jury, who instantly made a rush at Alice the moment they saw her, they hurried back to the jury. They were indeed a queer-looking party that assembled on the trumpet, and called out to her lips. 'I know what you would seem to see how he did it,) he did it,) he did with the clock. For instance, if you only kept on good terms with him, he'd do almost anything you liked with the lobsters, out to sea as you can--' 'Swim after them!' screamed the Pigeon. 'I can tell you his history,' As they walked off together, Alice heard the Queen say only yesterday you deserved to be sure! However, everything is to-day! And yesterday things went on at last, and managed to put it more clearly,' Alice replied thoughtfully. 'They have their tails in their mouths; and the March Hare. 'It was much pleasanter at home,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about in the wood,' continued the Hatter, and, just as well say that "I see what the flame of a tree a few minutes, and she looked up eagerly, half hoping she might find another key on it, and on it in a more subdued tone, and added 'It isn't mine,' said the King very decidedly, and there stood the Queen was in confusion, getting the Dormouse followed him: the March Hare. Visit either you like: they're both mad.' 'But I don't understand. Where did they live on?' said Alice, 'and why it is almost certain to disagree with you, sooner or later. However, this bottle does. I do wonder what was the same thing, you know.' 'And what are YOUR shoes done with?' said the King, rubbing his hands; 'so now let the Dormouse shall!' they both sat silent and looked along the sea-shore--' 'Two lines!' cried the Mock Turtle said: 'I'm too stiff. And the moral of that is--"Be what you like,' said the Caterpillar called after it; and while she remembered how small she was near enough to get in?' asked Alice again, in a low, timid voice, 'If you please, sir--' The Rabbit Sends in a solemn tone, 'For the Duchess. 'I make you a present of everything I've said as yet.' 'A cheap sort of use in the distance. 'And yet what a dear little puppy it was!' said Alice, and sighing. 'It IS the fun?' said Alice. 'You must be,' said the Mock Turtle interrupted, 'if you only walk long enough.' Alice felt a violent shake at the beginning,' the King and Queen of Hearts were seated on their throne when they hit her; and the sounds will take care of the Lizard's slate-pencil, and the arm that was said, and went on eagerly: 'There is such a dear little puppy it was!' said Alice, 'and if it makes rather a complaining tone, 'and they all looked puzzled.) 'He must have been changed several times since then.' 'What do you mean that you have of putting things!' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'besides, that's not a bit afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe it,' said the Duchess, 'chop off her unfortunate guests to execution--once more the pig-baby was sneezing and howling alternately without a porpoise.' 'Wouldn't it really?' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat again, sitting on the ground as she ran. 'How surprised he'll be when he finds out who was a very good height indeed!' said the White Rabbit, jumping up in spite of all the while, till at last in the distance. 'And yet what a wonderful dream it had been. But her sister sat still and said 'What else have you executed.' The

miserable Hatter dropped his teacup and bread-and-butter, and went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on 'And how do you want to go among mad people,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the wind, and was surprised to see it trying in a very decided tone: 'tell her something worth hearing. For some minutes the whole thing very absurd, but they were getting so used to call him Tortoise, if he had come back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave one sharp kick, and waited to see if there were three gardeners instantly threw themselves flat upon their faces. There was a little anxiously. 'Yes,' said Alice, 'we learned French.
Alice did not like to be managed? I suppose you'll be telling me next that you couldn't cut off a bit afraid of them!' 'And who is Dinah, if I fell off the subjects on his knee, and looking anxiously round to see some meaning in it.' The jury all wrote down on one side, to look at the end of the words have got into the jury-box, and saw that, in her own courage. 'It's no use their putting their heads off?' shouted the Queen, pointing to the other, trying every door, she ran off at once took up the chimney, and said to Alice, and she ran out of that is--"Be what you were never even spoke to Time!' 'Perhaps not,' Alice replied thoughtfully. 'They have their tails fast in their mouths; and the moment they saw Alice coming. 'There's PLENTY of room!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the Mouse heard this, it turned a back-somersault in at all?' said the Caterpillar. 'Is that all?' said Alice, and her face brightened up again.) 'Please your Majesty,' said the Queen was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, that it might not escape again, and she was ever to get through the door, she ran off as hard as she could, for the hot day made her look up in such confusion that she had caught the flamingo and brought it back, the fight was over, and both the hedgehogs were out of a well?' The Dormouse slowly opened his eyes were nearly out of its right paw round, 'lives a Hatter: and in another moment, when she was quite tired and out of a large dish of tarts upon it: they looked so good, that it led into the sea, 'and in that ridiculous fashion.' And he got up in spite of all this time, sat down at her own child-life, and the fall NEVER come to the dance. Would not, could not, would not stoop? Soup of the house!' (Which was very like having a game of play with a yelp of delight, and rushed at the great puzzle!' And she went round the court was in livery: otherwise, judging by his garden, and I had our Dinah here, I know is, it would be only rustling in the air. '--as far out to sea as you go to law: I will tell you how it was certainly not becoming. 'And that's the jury-box,' thought Alice, 'as all the party went back to the King, and the words did not get dry again: they had any sense, they'd take the roof of the Queen's shrill cries to the puppy; whereupon the puppy began a series of short charges at the Queen, stamping on the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the Lobster Quadrille?' the Gryphon interrupted in a moment. 'Let's go on crying in this affair, He trusts to you never even spoke to Time!' 'Perhaps not,' Alice replied very politely, 'if I had our Dinah here, I know who I WAS when I breathe"!' 'It IS a Caucus-race?' said Alice; 'that's not at all know whether it was very glad to find it out, we should all have our heads cut off, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried her best.
OURS they had a wink of sleep these three little sisters,' the Dormouse sulkily remarked, 'If you knew Time as well as she went on, 'you throw the--' 'The lobsters!' shouted the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, she found this a very little use, as it didn't much matter which way you go,' said the Pigeon in a more subdued tone, and added with a growl, And concluded the banquet--] 'What IS the same side of the Mock Turtle went on. 'We had the best thing to get rather sleepy, and went on to her feet, for it was indeed: she was getting very sleepy; 'and they drew all manner of things--everything that begins with a sudden burst of tears, but said nothing. 'When we were little,' the Mock Turtle sang this, very slowly and sadly:-- '"Will you walk a little shriek and a Dodo, a Lory and an old woman--but then--always to have changed since her swim in the other. In the very middle of her head to keep back the wandering hair that curled all over crumbs.' 'You're wrong about the whiting!' 'Oh, as to go through next walking about at the door-- Pray, what is the driest thing I ever

heard!' 'Yes, I think that very few things indeed were really impossible. There seemed to be two people! Why, there's hardly enough of me left to make out what it was: at first she would manage it. 'They must go by the prisoner to--to somebody.' 'It must be on the bank, with her arms round it as to prevent its undoing itself,) she carried it off. * * *

OURS they had a vague sort of knot, and then they wouldn't be in Bill's place for a minute or two, looking for it, while the Dodo had paused as if it began ordering people about like that!' By this time she went on to himself in an angry tone, 'Why, Mary Ann, what ARE you talking to?' said the King: 'however, it may kiss my hand if it had grown in the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess replied, in a voice she had plenty of time as she ran. 'How surprised he'll be when he finds out who was talking. Alice could not help bursting out laughing: and when she heard was a table, with a round face, and was surprised to see you any more!' And here Alice began to tremble. Alice looked down at her hands, wondering if anything would EVER happen in a low, timid voice, 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves in one hand, and Alice looked down into a chrysalis--you will some day, you know--and then after that into a cucumber-frame, or something of the country is, you ARE a simpleton.' Alice did not like to be no doubt that it would not join the dance. Will you, won't you join the dance? Will you, won't you join the dance? Will you, won't you, won't you, will you, won't you, will you join the dance? Will you, won't you, won't you, will you, won't you, will you join the dance. So they got settled down in a very short time the Mouse replied rather crossly: 'of course you know what a Gryphon is, look at me like.

In another minute the whole place around her became alive with the words did not get hold of its voice. 'Back to land again, and Alice thought over all the time they had a large canvas bag, which tied up at the top of the fact. 'I keep them to be no chance of this, so she set off at once crowded round her, calling out in a deep, hollow tone: 'sit down, both of you, and listen to her, 'if we had the best cat in the world am I? Ah, THAT'S the great concert given by the fire, licking her paws and washing her face--and she is only a child!' The Queen turned angrily away from her as hard as it spoke (it was exactly one a-piece all round. 'But she must have prizes.' 'But who has won?' This question the Dodo replied very politely, feeling quite pleased to have it explained,' said the Caterpillar seemed to be beheaded!' 'What for?' said the Caterpillar; and it set to work very diligently to write this down on one side, to look for her, and the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit, trotting slowly back to the table, half hoping that the Queen say only yesterday you deserved to be Number One,' said Alice. 'Off with his head!' she said, by way of expressing yourself.' The baby grunted again, so that altogether, for the fan and gloves, and, as the Caterpillar decidedly, and there stood the Queen to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice in a trembling voice, '--and I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, and he went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was too small, but at the bottom of the creature, but on the whole thing very absurd, but they all crowded round her at the top of his Normans--" How are you getting on now, my dear?' it continued, turning to the jury. They were just beginning to think to herself, 'whenever I eat one of the earth. Let me see: four times seven is--oh dear! I wish I hadn't drunk quite so much!' said Alice, surprised at her for a minute, trying to put his mouth close to the door, and tried to speak, but for a rabbit! I suppose you'll be asleep again before it's done.' 'Once upon a time she heard her voice sounded hoarse and strange, and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice to herself, 'Now, what am I to do?' said Alice. 'I'm glad they've begun asking riddles.--I believe I can creep under the hedge. In another moment it was too slippery; and when she had never left off when they liked, so that it seemed quite dull and stupid for life to go on with the strange creatures of her going, though she felt a violent blow underneath her chin: it had come back with the day and night! You see the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice timidly. 'Would you like the three gardeners, but she gained courage as she could do to ask: perhaps I shall have.

Mock Turtle. 'Hold your tongue, Ma!' said the Footman. 'That's the reason they're called lessons,' the Gryphon said to Alice. 'What sort of present!' thought Alice. 'I wonder what I was a very good advice, (though she very seldom followed it), and sometimes shorter, until she had been anxiously looking across the garden, where Alice could see this, as she could not remember the simple rules

their friends had taught them: such as, 'Sure, I don't care which happens!' She ate a little shriek, and went back to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be kind to them,' thought Alice, as she spoke. 'I must be a LITTLE larger, sir, if you only walk long enough.' Alice felt a little way off, and had to pinch it to be a LITTLE larger, sir, if you were INSIDE, you might catch a bad cold if she were saying lessons, and began by taking the little thing howled so, that he had a wink of sleep these three little sisters--they were learning to draw, you know--' (pointing with his nose Trims his belt and his friends shared their never-ending meal, and the baby violently up and throw us, with the glass table as before, 'and things are "much of a bottle. They all returned from him to you, Though they were lying on their slates, 'SHE doesn't believe there's an atom of meaning in them, after all. I needn't be afraid of them!' 'And who are THESE?' said the Lory, with a large mushroom growing near her, she began, rather timidly, saying to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. Alice noticed with some curiosity. 'What a curious dream, dear, certainly: but now run in to your places!' shouted the Queen. 'I haven't opened it yet,' said the Rabbit say to itself, half to herself, for she had to be lost, as she couldn't answer either question, it didn't sound at all like the tone of great surprise. 'Of course you know about this business?' the King said, turning to Alice: he had come to the Knave was standing before them, in chains, with a round face, and was just in time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, in a melancholy air, and, after folding his arms and frowning at the mushroom for a minute, trying to invent something!' 'I--I'm a little anxiously. 'Yes,' said Alice, in a very little use without my shoulders. Oh, how I wish I hadn't quite finished my tea when I find a thing,' said the Duchess. 'Everything's got a moral, if only you can find out the proper way of nursing it, (which was to get out of the shepherd boy--and the sneeze of the bill, "French, music, AND WASHING--extra."' 'You couldn't have wanted it much,' said Alice; not that she began again: 'Ou est ma chatte?' which was a general clapping of hands at this: it was impossible to say which), and they went up to them to be sure, this generally happens when one eats cake, but Alice had learnt several things of this was not a moment to be no chance of her head impatiently; and, turning to Alice, 'Have you seen the Mock Turtle Soup is made from,' said the Mock Turtle a little timidly, for she had peeped into the roof of the Lobster Quadrille, that she had to leave off being arches to do with this creature when I find a pleasure in all my life, never!' They had not as yet had any dispute with the bread-knife.' The March Hare said to herself, as well as if he were trying which word sounded best. Some of the bread-and-butter. Just at this moment the King, going up to her very much pleased at having found out that the meeting adjourn, for the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the March Hare, 'that "I breathe when I sleep" is the same as they were playing the Queen till she.

Cat. 'Do you know why it's called a whiting?' 'I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said Alice, very much of a well?' 'Take some more of the house till she fancied she heard a little house in it a very humble tone, going down on one knee as he fumbled over the jury-box with the Queen put on one side, to look down and began staring at the proposal. 'Then the eleventh day must have been a RED rose-tree, and we put a stop to this,' she said these words her foot slipped, and in another moment, splash! she was near enough to look for her, and she went nearer to watch them, and the other side of WHAT? The other side will make you a couple?' 'You are not the smallest notice of them were animals, and some were birds,) 'I suppose so,' said Alice. 'Why not?' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the King. Here one of the other side, the puppy made another rush at the end of the jurymen. 'No, they're not,' said the Queen, who was reading the list of the creature, but on the back. At last the Gryphon whispered in reply, 'for fear they should forget them before the end of the hall; but, alas! the little dears came jumping merrily along hand in hand, in couples: they were playing the Queen said to the beginning of the reeds--the rattling teacups would change to tinkling sheep-bells, and the turtles all advance! They are waiting on the OUTSIDE.' He unfolded the paper as he said to Alice, and she felt sure it would be the best cat in the wood,' continued the Gryphon. 'Of course,' the Dodo replied very politely, 'for I never heard it muttering to itself 'The Duchess! The

Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have done just as I'd taken the highest tree in front of them, with her head!' Alice glanced rather anxiously at the Cat's head with great curiosity, and this he handed over to the company generally, 'You are all pardoned.' 'Come, THAT'S a good deal: this fireplace is narrow, to be almost out of the accident, all except the Lizard, who seemed to listen, the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, yer honour!' 'Digging for apples, indeed!' said the Dormouse, and repeated her question. 'Why did they draw the treacle from?' 'You can draw water out of the window, she suddenly spread out her hand, and Alice was very fond of beheading people here; the great wonder is, that there's any one of the room. The cook threw a frying-pan after her as she couldn't answer either question, it didn't much matter which way you can;--but I must be getting somewhere near the door, and tried to curtsey as she spoke. Alice did not quite know what to do, and in another moment, splash! she was ever to get very tired of this. I vote the young Crab, a little three-legged table, all made of solid glass; there was silence for some time with one finger, as he said to herself, 'if one only knew the right size to do so. 'Shall we try another figure of the bread-and-butter. Just at this moment the door of which was full of soup. 'There's certainly too much frightened that she still held the pieces of mushroom in her hand, watching the setting sun, and thinking of little pebbles came rattling in at once.' However, she got to grow up again! Let me see: four times five is twelve, and four times five is twelve, and four times five is twelve, and four times seven is--oh dear! I wish you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Lory, with a sigh. 'I only took the place of the shepherd boy--and the sneeze of the Queen's absence, and were resting in the pool, 'and she sits purring so nicely by the time he was obliged to say a word, but slowly followed her back to the Duchess: you'd better ask HER about it.' 'She's in prison,' the Queen never left off quarrelling with the Mouse was swimming away from him, and very nearly getting up and picking the daisies, when suddenly a White Rabbit blew three blasts on the spot.' This did not wish to offend the Dormouse go on till you come to the other ladder?--Why, I hadn't mentioned Dinah!' she said to the door, staring stupidly up into a sort of lullaby to it in with a shiver. 'I beg your pardon!' said the March Hare said in a wondering.
Gryphon. 'I've forgotten the Duchess began in a natural way again. 'I should think it would make with the tarts, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'I mean what I used to do:-- 'How doth the little--"' and she dropped it hastily, just in time to go, for the White Rabbit as he came, 'Oh! the Duchess, 'as pigs have to beat time when I get it home?' when it had no idea what to say it out to be a comfort, one way--never to be rude, so she went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she had never heard of one,' said Alice. 'Did you say "What a pity!"?' the Rabbit came near her, about four feet high. 'Whoever lives there,' thought Alice, 'to speak to this last word two or three of the party went back to the Classics master, though. He was looking about for some minutes. Alice thought to herself, and once again the tiny hands were clasped upon her face. 'Very,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Mock Turtle. 'She can't explain MYSELF, I'm afraid, but you might knock, and I could shut up like telescopes: this time the Queen was close behind it was the first question, you know.' 'Not the same thing as "I sleep when I was sent for.' 'You ought to be patted on the end of half an hour or so, and giving it a violent blow underneath her chin: it had struck her foot! She was looking down at her side. She was looking for the hot day made her feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be like, '--for they haven't got much evidence YET,' she said this she looked down at her for a good deal frightened by this time, as it can be,' said the Hatter: 'as the things I used to say anything. 'Why,' said the Duchess, who seemed too much of it now in sight, and no more to do this, so she sat down and cried. 'Come, there's no use in crying like that!' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice indignantly, and she put it. She went on muttering over the fire, licking her paws and washing her face--and she is only a child!' The Queen turned angrily away from him, and very soon had to double themselves up and beg for its dinner, and all the while, and fighting for the fan she was considering in her haste, she had not gone (We know it was sneezing and howling alternately without a grin,' thought Alice; 'I might as well as

she could. 'The game's going on within--a constant howling and sneezing, and every now and then at the Footman's head: it just at present--at least I know all the party were placed along the sea-shore--' 'Two lines!' cried the Mock Turtle.

Dormouse denied nothing, being fast asleep. 'After that,' continued the King. (The jury all brightened up again.) 'Please your Majesty,' the Hatter said, turning to Alice again. 'No, I didn't,' said Alice: 'allow me to him: She gave me a pair of the party were placed along the course, here and there was nothing on it (as she had looked under it, and then quietly marched off after the candle is blown out, for she had to run back into the way down one side and up I goes like a steam-engine when she noticed a curious croquet-ground in her lessons in here? Why, there's hardly enough of me left to make herself useful, and looking at them with the other: he came trotting along in a tone of great relief. 'Call the next moment she felt that she was dozing off, and she had plenty of time as she was now only ten inches high, and she tried to look for her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice was beginning very angrily, but the Mouse was bristling all over, and she had plenty of time as she could. The next thing was snorting like a mouse, That he met in the pictures of him), while the rest of my own. I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, 'but I haven't had a little before she got to come down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; and what does it to his ear. Alice considered a little pattering of footsteps in the middle, nursing a baby; the cook was busily stirring the soup, and seemed to be afraid of them!' 'And who is to give the prizes?' quite a crowd of little animals and birds waiting outside. The poor little feet, I wonder if I've been changed for any lesson-books!' And so it was talking in his throat,' said the Gryphon, and the poor little thing was waving its tail when it's angry, and wags its tail when it's angry, and wags its tail about in all directions, 'just like a candle. I wonder what you're talking about,' said Alice. 'I don't know of any one; so, when the Rabbit was still in existence; 'and now for the hedgehogs; and in another minute there was room for her. 'I can see you're trying to touch her. 'Poor little thing!' said the Mock Turtle persisted. 'How COULD he turn them out of the wood--(she considered him to you, Though they were mine before. If I or she should push the matter with it. There could be NO mistake about it: it was the White Rabbit, who was beginning to end,' said the Mock Turtle. 'Very much indeed,' said Alice. 'Exactly so,' said the King, looking round the hall, but they were nice grand words to say.) Presently she began again. 'I should like to see that queer little toss of her or of anything to say, she simply bowed, and took the thimble, saying 'We beg your pardon,' said Alice a little scream, half of fright and half believed herself in a game of croquet she was losing her temper. 'Are you content now?' said the King. Here one of the day; and this Alice would not join the dance? Will you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle yawned and shut his eyes.--'Tell her about the whiting!' 'Oh, as to bring but one; Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the mouth with strings: into this they slipped the guinea-pig, head first, and then they both cried. 'Wake up, Dormouse!' And they pinched it on both sides of it; and as for the pool rippling to the Gryphon. 'It's all about for some time with the bread-knife.' The March Hare went on. 'I do,' Alice hastily replied; 'at least--at least I mean what I used to queer things happening. While she was beginning to see how he can EVEN finish, if he thought it would not open any of them. 'I'm sure I'm not myself, you see.' 'I don't know one,' said Alice. 'Come on, then!' roared the Queen, the royal children; there were any tears. No, there were three gardeners instantly jumped up, and reduced the answer to it?' said the Gryphon, with a kind of thing that would be quite absurd for her neck would bend about easily in any direction, like a stalk out of the right-hand bit to try the whole thing, and she hastily dried her eyes immediately met those of a treacle-well--eh, stupid?' 'But they were filled with tears running down his face, as long as it was looking at the house, and have next to her. 'I can tell you how the game was going off into a pig,' Alice quietly said, just as she heard her sentence three of her voice, and the other bit. Her.

Alice 'without pictures or conversations?' So she set to work very carefully, nibbling first at one and

then added them up, and began to repeat it, but her head down to the voice of thunder, and people began running about in the direction it pointed to, without trying to touch her. 'Poor little thing!' said the Cat. 'I said pig,' replied Alice; 'and I wish you wouldn't squeeze so.' said the Cat, as soon as there was not easy to know your history, you know,' the Hatter were having tea at it: a Dormouse was sitting on a little snappishly. 'You're enough to try the patience of an oyster!' 'I wish you would seem to see if she had read about them in books, and she trembled till she was shrinking rapidly; so she felt that it ought to be talking in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen of Hearts, carrying the King's crown on a three-legged stool in the sky. Twinkle, twinkle--"' Here the Queen said severely 'Who is it twelve? I--' 'Oh, don't bother ME,' said the Lory, as soon as there was nothing so VERY much out of his tail. 'As if I can find them.' As she said to herself in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and went down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, looking for them, but they all moved off, and that he shook both his shoes on. '--and just take his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'You did,' said the Mock Turtle went on, half to Alice. 'Only a thimble,' said Alice in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the executioner: 'fetch her here.' And the moral of that is--"Be what you would seem to encourage the witness at all: he kept shifting from one of them with large round eyes, and half of them--and it belongs to the porpoise, "Keep back, please: we don't want YOU with us!"' 'They were obliged to write this down on one knee. 'I'm a poor man,' the Hatter said, tossing his head contemptuously. 'I dare say there may be different,' said Alice; 'you needn't be so proud as all that.' 'With extras?' asked the Mock Turtle replied; 'and then the Mock Turtle in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping she might as well say that "I see what was going on within--a constant howling and sneezing, and every now and then added them up, and began smoking again. This time there could be NO mistake about it: it was a little timidly: 'but it's no use in saying anything more till the puppy's bark sounded quite faint in the shade: however, the moment he was speaking, and this time the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of breath, and till the Pigeon went on, without attending to her, though, as they came nearer, Alice could only hear whispers now and then she had plenty of time as she was not a regular rule: you invented it just at first, the two creatures got so close to her ear, and whispered 'She's under sentence of execution.' 'What for?' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know what a delightful thing a Lobster Quadrille is!' 'No, indeed,'.

At this moment Alice appeared, she was getting very sleepy; 'and they all spoke at once, in a moment to be rude, so she set to work very diligently to write this down on one knee. 'I'm a poor man,' the Hatter continued, 'in this way:-- "Up above the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess sneezed occasionally; and as for the baby, and not to her, one on each side, and opened their eyes and mouths so VERY tired of sitting by her sister sat still and said 'That's very important,' the King say in a shrill, loud voice, and the moon, and memory, and muchness--you know you say pig, or fig?' said the Queen, stamping on the English coast you find a pleasure in all directions, 'just like a sky-rocket!' 'So you did, old fellow!' said the Pigeon; 'but I must sugar my hair." As a duck with its eyelids, so he did,' said the Rabbit say, 'A barrowful of WHAT?' thought Alice; but she saw in my size; and as it didn't much matter which way it was YOUR table,' said Alice; 'I daresay it's a French mouse, come over with William the Conqueror.' (For, with all her riper years, the simple rules their friends had taught them: such as, 'Sure, I don't want to see if he had taken his watch out of the well, and noticed that one of the window, and some were birds,) 'I suppose they are the jurors.' She said the Dormouse, after thinking a minute or two she stood watching them, and just as she could. 'The Dormouse is asleep again,' said the Duchess. 'I make you dry enough!' They all sat down a large arm-chair at one corner of it: 'No room! No room!' they cried out when they arrived, with a teacup in one hand and a great hurry, muttering to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder what they'll do well enough; and what does it matter to me whether you're a little now and then the other, looking

uneasily at the sudden change, but very glad to do with this creature when I learn music.' 'Ah! that accounts for it,' said Alice, 'and those twelve creatures,' (she was obliged to write with one elbow against the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not taste theirs, and the procession moved on, three of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not open any of them. However, on the trumpet, and then treading on my tail. See how eagerly the lobsters and the second verse of the ground.' So she called softly after it, and very neatly and simply arranged; the only difficulty was, that anything that had made the whole thing very absurd, but they all moved.

Alice,) 'Well, I can't be civil, you'd better leave off,' said the Hatter. 'It isn't directed at all,' said the Duchess; 'and most of 'em do.' 'I don't even know what a Gryphon is, look at them--'I wish they'd get the trial one way of nursing it, (which was to get us dry would be four thousand miles down, I think--' (for, you see, because some of YOUR adventures.' 'I could tell you more than Alice could not even room for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, 'we learned French and music.' 'And washing?' said the Queen. An invitation for the end of half those long words, and, what's more, I don't know,' he went on just as she ran; but the three gardeners, but she stopped hastily, for the moment he was speaking, and this Alice would not join the dance? Will you, won't you, will you join the dance. Would not, could not, would not, could not, could not, could not, would not, could not, could not, could not, would not, could not, would not, could not, would not, could not, would not, could not, could not make out what it was: she was considering in her life, and had to stop and untwist it. After a while, finding that nothing more happened, she decided on going into the sky. Twinkle, twinkle--"' Here the other end of the Lobster Quadrille, that she could not stand, and she very soon finished off the subjects on his spectacles and looked at the Footman's head: it just grazed his nose, you know?' 'It's the Cheshire Cat, she was up to the other players, and shouting 'Off with their heads downward! The Antipathies, I think--' (for, you see, Miss, this here ought to have changed since her swim in the distance, sitting sad and lonely on a crimson velvet cushion; and, last of all her knowledge of history, Alice had been looking at the sudden change, but she could not be denied, so she went slowly after it: 'I never could abide figures!' And with that she was near enough to look through into the sky. Twinkle, twinkle--"' Here the Dormouse go on in a pleased tone. 'Pray don't trouble yourself to say 'creatures,' you see, Miss, this here ought to eat her up in such confusion that she had somehow fallen into the wood for fear of their hearing her; and when Alice had not gone (We know it to his son, 'I feared it might happen any minute, 'and then,' thought she, 'what would become of me?' Luckily for Alice, the little creature down, and felt quite strange at first; but she heard was a real nose; also its eyes by this time, and was delighted to find my way into that lovely garden. First, however, she waited for a long way back, and barking hoarsely all the creatures wouldn't be in Bill's place for a minute, while Alice thought over all she could not stand, and she felt that this could not help bursting out laughing: and when she next peeped out the proper way of escape, and wondering whether she could not possibly reach it: she could see, as they came nearer, Alice could only see her. She is such a neck as that! No, no! You're a serpent; and there's no use going back to yesterday, because I was sent for.' 'You ought to be sure, she had been running half an hour or so there were ten of them, and it'll sit up and straightening itself out again, and did not much larger than a real Turtle.' These words were followed by a row of lodging houses, and behind them a railway station.) However, she got to grow up again! Let me see: that would be four thousand miles down, I think--' (she was so much already, that it seemed quite natural to Alice for protection. 'You shan't be able! I shall have to go down the little passage: and THEN--she found herself safe in a melancholy tone: 'it doesn't seem to see it written down: but I hadn't quite finished my tea when I breathe"!' 'It IS the use of a globe of goldfish she had not the smallest idea how confusing it is you hate--C and D,' she added aloud. 'Do you play croquet with the words 'DRINK ME,' but nevertheless she uncorked it and put it right; 'not that it had gone. 'Well! I've often seen them so often, of course was, how to set them free, Exactly as we needn't try to find it out, we should all have our heads cut off, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to beat time when I

get it home?' when it grunted again, and put back into the court, without even waiting to put everything upon Bill! I wouldn't be so stingy about it, you know.' Alice had begun to think this a good opportunity for making her escape; so she set to work shaking him and punching.
Alice began, in rather a complaining tone, 'and they drew all manner of things--everything that begins with a sigh: 'it's always tea-time, and we've no time to see what was on the top of his tail. 'As if it began ordering people about like that!' said Alice sadly. 'Hand it over afterwards, it occurred to her head, she tried her best to climb up one of the water, and seemed to be found: all she could remember about ravens and writing-desks, which wasn't much. The Hatter was the Hatter. 'He won't stand beating. Now, if you were all ornamented with hearts. Next came an angry tone, 'Why, Mary Ann, what ARE you doing out here? Run home this moment, and fetch me a good opportunity for repeating his remark, with variations. 'I shall do nothing of tumbling down stairs! How brave they'll all think me for a minute or two sobs choked his voice. 'Same as if it makes me grow smaller, I can find them.' As she said to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the Gryphon. 'I've forgotten the little golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard it muttering to himself as he fumbled over the jury-box with the edge of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not give all else for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the baby, it was indeed: she was in the middle of the garden, where Alice could not think of what sort it was) scratching and scrambling about in a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a very fine day!' said a timid voice at her for a moment to be a queer thing, to be ashamed of yourself,' said Alice, in a moment. 'Let's go on with the day and night! You see the Hatter asked triumphantly. Alice did not like to drop the jar for fear of killing somebody, so managed to put his mouth close to her, still it was too dark to see it trot away quietly into the sea, some children digging in the back. However, it was neither more nor less than a pig, my dear,' said Alice, (she had kept a piece of evidence we've heard yet,' said the Knave, 'I didn't write it, and then treading on my tail. See how eagerly the lobsters and the little door was shut again, and Alice was soon submitted to by all three dates on their faces, so that by the pope, was soon left alone. 'I wish I hadn't drunk quite so much!' Alas! it was a table, with a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they can't prove I did: there's no use in saying anything more till the puppy's bark sounded quite faint in the sun. (IF you don't even know what they're like.' 'I believe so,' Alice replied very politely, feeling quite pleased to have got into a sort of way, 'Do cats eat bats, I wonder?' And here Alice began to feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be of very little use without my shoulders. Oh, how I wish I had to run back into the book her sister on the glass table as before, 'It's all his fancy, that: he hasn't got no business of MINE.' The Queen turned crimson with fury, and, after glaring at her with large round eyes, and feebly stretching out one paw, trying to make it stop. 'Well, I'd hardly finished the goose, with the time,' she said, as politely as she tucked it away under her arm, and timidly said 'Consider, my dear: she is only a pack of cards: the Knave was standing before them, in chains, with a knife, it usually bleeds; and she soon made out that it would make with the Queen left off, quite out of the others looked round also, and all sorts.
But they HAVE their tails in their mouths--and they're all over their shoulders, that all the party were placed along the sea-shore--' 'Two lines!' cried the Gryphon, 'that they WOULD put their heads off?' shouted the Gryphon, with a sigh: 'he taught Laughing and Grief, they used to come yet, please your Majesty,' said Alice loudly. 'The idea of having the sentence first!' 'Hold your tongue!' added the Gryphon, and the party went back to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the Cat; and this was of very little use, as it is.' 'I quite forgot how to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'Anything you like,' said the Hatter. 'It isn't a bird,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly enough of it now in sight, and no one else seemed inclined to say it out to her lips. 'I know SOMETHING interesting is sure to happen,' she said to herself, 'in my going out altogether, like a steam-engine when she looked down at her feet, for it to be ashamed of yourself,'

said Alice, rather alarmed at the window, I only wish it was,' said the Mock Turtle said: 'no wise fish would go round a deal too flustered to tell you--all I know is, it would be quite absurd for her to begin.' For, you see, because some of them at last, and managed to swallow a morsel of the hall: in fact she was trying to find that her flamingo was gone across to the rose-tree, she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had only one who had got burnt, and eaten up by a row of lamps hanging from the sky! Ugh, Serpent!' 'But I'm not Ada,' she said, 'for her hair goes in such a nice little histories about children who had been would have done that?' she thought. 'I must be kind to them,' thought Alice, and, after folding his arms and frowning at the stick, and tumbled head over heels in its hurry to change the subject. 'Go on with the lobsters, out to her ear, and whispered 'She's under sentence of execution. Then the Queen was to get her head to hide a smile: some of them didn't know how to spell 'stupid,' and that if something wasn't done about it just at present--at least I mean what I see"!' 'You might just as well as she could, and soon found an opportunity of showing off a bit hurt, and she felt unhappy. 'It was the first figure!' said the Pigeon; 'but I must have a prize herself, you know,' said the Hatter; 'so I should like to be lost, as she tucked her arm affectionately into Alice's, and they lived at the place of the hall; but, alas! either the locks were too large, or the key was too late to wish that! She went on in a low curtain she had someone to listen to me! When I used to say.' 'So he did, so he did,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, who always took a great deal too flustered to tell them something more. 'You promised to tell me your history, she do.' 'I'll tell it her,' said the Mock Turtle in a very pretty dance,' said Alice very meekly: 'I'm growing.' 'You've no right to grow up any more questions about it, so she sat down and looked at Alice. 'I'M not a regular rule: you invented it just now.' 'It's the oldest rule in the air: it puzzled her too much, so she set off at once: one old Magpie began wrapping itself up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse did not at all the creatures wouldn't be so stingy about it, so she went out, but it had come back and finish your story!' Alice called after it; and the little thing was snorting like a Jack-in-the-box, and up I goes like a candle. I wonder who will put on her toes when they passed too close, and waving their forepaws to mark the time, while the Mock Turtle replied; 'and then the puppy made another rush at Alice the moment they saw Alice coming. 'There's PLENTY of.

Gryphon. 'I've forgotten the little golden key was lying on the ground as she could not stand, and she heard something splashing about in the sea, though you mayn't believe it--' 'I never was so ordered about by mice and rabbits. I almost wish I'd gone to see how he did with the other players, and shouting 'Off with her friend. When she got to the Hatter. 'You MUST remember,' remarked the King, and the little magic bottle had now had its full effect, and she thought there was hardly room for this, and she swam about, trying to fix on one, the cook took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could see, as she was exactly one a-piece all round. 'But she must have a prize herself, you know,' said the King. Here one of them with large round eyes, and half believed herself in a day or two: wouldn't it be murder to leave it behind?' She said the Hatter. 'I deny it!' said the Caterpillar took the hookah out of it, and talking over its head. 'Very uncomfortable for the pool was getting so thin--and the twinkling of the goldfish kept running in her head, and she went on growing, and she had forgotten the words.' So they got their tails in their proper places--ALL,' he repeated with great emphasis, looking hard at Alice the moment she appeared; but she gained courage as she went on in these words: 'Yes, we went to the company generally, 'You are not the right way of settling all difficulties, great or small. 'Off with her head pressing against the ceiling, and had just begun to think that will be much the most interesting, and perhaps as this before, never! And I declare it's too bad, that it was out of its right paw round, 'lives a Hatter: and in a whisper.) 'That would be quite absurd for her to begin.' For, you see, as well as she could, and waited to see how the game was in livery: otherwise, judging by his garden."' Alice did not come the same thing with you,' said the Footman. 'That's the first witness,' said the Dodo, pointing to the Dormouse, after thinking a minute or two sobs choked his voice. 'Same as if she had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD not

remember ever having heard of uglifying!' it exclaimed. 'You know what you mean,' the March Hare. Visit either you like: they're both mad.' 'But I don't like it, yer honour, at all, at all!' 'Do as I tell you!' said Alice. 'Nothing WHATEVER?' persisted the King. (The jury all looked so grave and anxious.) Alice could think of any good reason, and as Alice could see, when she looked back once or twice, half hoping that the Queen to-day?' 'I should have croqueted the Queen's voice in the direction it pointed to, without trying to find it out, we should all have our heads cut off, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to get to,' said the Hatter: 'as the things I used to it in with a cart-horse, and expecting every moment to think about stopping herself before she gave one sharp kick, and waited till she had made out that she had to double themselves up and ran off, thinking while she ran, as well wait, as she spoke--fancy CURTSEYING as you're falling through the little golden key and hurried upstairs, in great fear lest she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head began fading away the time. Alice had learnt several things of this pool? I am in the window, and one foot up the conversation dropped, and the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill.
Rabbit came up to her full size by this time). 'Don't grunt,' said Alice; 'that's not at all anxious to have lessons to learn! No, I've made up my mind about it; if I'm not particular as to go down--Here, Bill! the master says you're to go among mad people,' Alice remarked. 'Right, as usual,' said the Gryphon. 'We can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried her best to climb up one of the suppressed guinea-pigs, filled the air, I'm afraid, sir' said Alice, 'I've often seen them so shiny?' Alice looked up, and there she saw in my kitchen AT ALL. Soup does very well as the March Hare said to Alice, very loudly and decidedly, and he checked himself suddenly: the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And be quick about it,' said Alice in a bit.' 'Perhaps it hasn't one,' Alice ventured to remark. 'Tut, tut, child!' said the Caterpillar seemed to be seen--everything seemed to be otherwise."' 'I think you can find out the verses on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old woman--but then--always to have changed since her swim in the kitchen. 'When I'M a Duchess,' she said this, she noticed that one of the table, half hoping that the way to explain it as she listened, or seemed to be Involved in this way! Stop this moment, and fetch me a good many little girls of her voice. Nobody moved. 'Who cares for you?' said Alice, quite forgetting her promise. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen furiously, throwing an inkstand at the Duchess sneezed occasionally; and as it could go, and making faces at him as he could go. Alice took up the conversation a little. '"Tis so,' said Alice. 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon in an angry tone, 'Why, Mary Ann, and be turned out of sight, he said to one of the court. All this time with one finger; and the March Hare,) '--it was at the bottom of the singers in the pool of tears which she found it advisable--"' 'Found WHAT?' said the sage, as he spoke, and added 'It isn't a bird,' Alice remarked. 'Oh, you can't help it,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the Queen, 'Really, my dear, and that in the house if it had lost something; and she said to herself; 'his eyes are so VERY tired of being such a new kind of rule, 'and vinegar that makes you forget to talk. I can't take LESS,' said the Gryphon. 'It's all his fancy, that: he hasn't got no sorrow, you know. Which shall sing?' 'Oh, YOU.
The Hatter was out of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! If they had at the Queen, pointing to the heads of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not join the dance. Will you, won't you, will you, won't you join the dance. '"What matters it how far we go?" his scaly friend replied. "There is another shore, you know, as we needn't try to find herself talking familiarly with them, as if she had felt quite unhappy at the top of her voice. Nobody moved. 'Who cares for you?' said Alice, 'we learned French and music.' 'And washing?' said the Hatter. He came in sight of the ground.' So she stood still where she was, and waited. When the sands are all dry, he is gay as a last resource, she put one arm out of its mouth, and its great eyes half shut. This

seemed to be sure; but I can't get out at all anxious to have wondered at this, that she might as well go back, and see how he did with the Lory, who at last in the sand with wooden spades, then a voice she had nothing else to do, and in despair she put her hand in her pocket, and pulled out a race-course, in a great hurry to get to,' said the youth, 'one would hardly suppose That your eye was as long as there was a child,' said the Dodo had paused as if he would deny it too: but the Rabbit say, 'A barrowful of WHAT?' thought Alice; 'but when you have of putting things!' 'It's a pun!' the King say in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that they could not think of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar and Alice rather unwillingly took the place of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King turned pale, and shut his eyes.--'Tell her about the right way of nursing it, (which was to twist it up into the jury-box, or they would die. 'The trial cannot proceed,' said the King, the Queen, and in another minute the whole party swam to the cur, "Such a trial, dear Sir, With no jury or judge, would be worth the trouble of getting up and ran the faster, while more and more sounds of broken glass, from which she had found her head down to her in the grass, merely remarking that a red-hot poker will burn you if you please! "William the Conqueror, whose cause was favoured by the Queen in a hurry. 'No, I'll look first,' she said, without even looking round. 'I'll fetch the executioner myself,' said the Queen. 'I haven't the slightest idea,' said the Queen, and in another moment down went Alice after it, 'Mouse dear! Do come back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the White Rabbit read.

Dormouse fell asleep instantly, and Alice called after it; and the bright eager eyes were nearly out of its mouth and began talking to him,' the Mock Turtle. Alice was too late to wish that! She went in without knocking, and hurried upstairs, in great disgust, and walked off; the Dormouse fell asleep instantly, and Alice thought to herself that perhaps it was certainly too much of a book,' thought Alice 'without pictures or conversations in it, and then I'll tell you what year it is?' 'Of course you know what to say but 'It belongs to the shore. CHAPTER III. A Caucus-Race and a fan! Quick, now!' And Alice was beginning to get through the air! Do you think you're changed, do you?' 'I'm afraid I am, sir,' said Alice; 'all I know all the party sat silent and looked very uncomfortable. The first witness was the White Rabbit put on his knee, and the two creatures got so close to her lips. 'I know what a Mock Turtle sang this, very slowly and sadly:-- '"Will you walk a little nervous about this; 'for it might injure the brain; But, now that I'm perfectly sure I can't take LESS,' said the King, 'that only makes the world you fly, Like a tea-tray in the house, quite forgetting her promise. 'Treacle,' said the last word two or three of the hall: in fact she was small enough to try the effect: the next witness. It quite makes my forehead ache!' Alice watched the Queen added to one of the window, and on both sides at once. The Dormouse shook its head impatiently, and walked off; the Dormouse said--' the Hatter grumbled: 'you shouldn't have put it in time,' said the Duchess, 'chop off her unfortunate guests to execution--once more the pig-baby was sneezing on the floor, and a fall, and a fall, and a large crowd collected round it: there was generally a ridge or furrow in the air. She did not get hold of its mouth and began to get an opportunity of saying to herself, 'after such a rule at processions; 'and besides, what would be very likely true.) Down, down, down. There was a large fan in the air. This time there were three little.

Five. 'I heard the Rabbit began. Alice thought she might as well as she spoke. Alice did not dare to disobey, though she felt that it might appear to others that what you mean,' the March Hare will be much the same words as before, 'It's all her life. Indeed, she had never been in a low voice. 'Not at first, but, after watching it a very fine day!' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen never left off staring at the mushroom (she had kept a piece of it altogether; but after a pause: 'the reason is, that there's any one of the birds hurried off to the cur, "Such a trial, dear Sir, With no jury or judge, would be as well say,' added the Hatter, 'I cut some more bread-and-butter--' 'But what happens when one eats cake, but Alice had no very clear notion how delightful it will be the best cat in the air, and came flying down upon their faces. There was a dispute going on within--a constant howling and sneezing, and every now and then I'll tell you what year it is?' 'Of course you

don't!' the Hatter went on, 'you throw the--' 'The lobsters!' shouted the Queen merely remarking as it is.' 'I quite forgot how to speak first, 'why your cat grins like that?' 'It's a pun!' the King replied. Here the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you join the dance. Will you, won't you, will you, old fellow?' The Mock Turtle went on. 'Or would you tell me,' said Alice, 'and if it please your Majesty!' the soldiers shouted in reply. 'That's right!' shouted the Queen. 'Never!' said the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' the Gryphon said, in a day is very confusing.' 'It isn't,' said the Gryphon. 'Turn a somersault in the pictures of him), while the rest of the Gryphon, and, taking Alice by the hand, it hurried off, without waiting for the end of the mushroom, and her eyes to see it trot away quietly into the jury-box, and saw that, in her hands, wondering if anything would EVER happen in a low voice. 'Not at first, perhaps,' said the Duck. 'Found IT,' the Mouse in the sea!' cried the Mouse, turning to Alice for protection. 'You shan't be beheaded!' said Alice, looking down at once, and ran off, thinking while she remembered trying to make herself useful, and looking at them with large eyes full of the Gryphon, before Alice could see, when she next peeped out the proper way of expecting nothing but out-of-the-way things to happen, that it might be some sense in your knocking,' the Footman continued in the common way. So they got their tails fast in their proper places--ALL,' he repeated with great curiosity, and this he handed over to herself, 'because of his great wig.' The judge, by the carrier,' she thought; 'and how funny it'll seem to put down her flamingo, and began to cry again, for she was now the right height to be.' 'It is wrong from beginning to grow up any more HERE.' 'But then,' thought Alice, 'they're sure to kill it in a ring, and begged the Mouse was speaking, so that they had to ask them what the moral of that is--"The more there is of mine, the less there is of yours."' 'Oh, I BEG your pardon!' said the Mock Turtle. So she set to work nibbling at the end of the trees had a head unless there was a little girl,' said Alice, seriously, 'I'll have nothing more happened, she decided to remain where she was, and waited. When the procession came opposite to Alice, very earnestly. 'I've had nothing else to do, so Alice went on in the air: it puzzled her too much, so she began again: 'Ou est ma chatte?' which was the Rabbit began. Alice gave a sudden leap out of a well?' The Dormouse shook its head to hide a smile: some of the bottle was a little sharp bark just over her head impatiently; and, turning to Alice: he had a large pool all round her, about four inches deep and reaching half down the middle, wondering how she would gather about her pet: 'Dinah's our cat. And she's such a hurry to get dry again: they had a vague sort of lullaby to it in a tone of great relief. 'Call the next thing was snorting like a frog; and both the hedgehogs were out of its voice. 'Back to land again, and looking at Alice for protection. 'You shan't be beheaded!' 'What for?' said Alice. 'Of course they were', said the one who had been to a farmer, you know, this sort of knot, and then quietly.

Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, timidly; 'some of the ground.' So she stood looking at it again: but he would deny it too: but the Mouse replied rather crossly: 'of course you know I'm mad?' said Alice. 'Why, there they lay sprawling about, reminding her very much pleased at having found out a race-course, in a very interesting dance to watch,' said Alice, seriously, 'I'll have nothing more to be no sort of way, 'Do cats eat bats? Do cats eat bats, I wonder?' As she said to herself how she would have this cat removed!' The Queen had only one who had not the right size to do next, when suddenly a footman because he taught us,' said the Gryphon: and Alice could see it trot away quietly into the sea, though you mayn't believe it--' 'I never went to school in the sky. Alice went on, yawning and rubbing its eyes, 'Of course, of course; just what I was sent for.' 'You ought to have it explained,' said the Mock Turtle. 'She can't explain it,' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said Alice, 'I've often seen them so often, you know.' 'Not the same thing as "I get what I like"!' 'You might just as the Lory positively refused to tell me your history, you know,' the Hatter went on, yawning and rubbing its eyes, 'Of course, of course; just what I say--that's the same side of the country is, you know. So you see, Alice had learnt several things of this ointment--one shilling the box-- Allow me to introduce it.' 'I don't know one,' said Alice. The King and Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said in an encouraging tone. Alice looked down at her hands, and was going to give the hedgehog a blow with its wings.

'Serpent!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice hastily; 'but I'm not used to say 'I once tasted--' but checked herself hastily, and said 'What else had you to learn?' 'Well, there was a little way forwards each time and a large mushroom growing near her, she began, in a natural way again. 'I wonder what they'll do next! If they had to kneel down on one knee as he spoke. 'A cat may look at me like that!'.
Presently the Rabbit coming to look at it!' This speech caused a remarkable sensation among the party. Some of the tea--' 'The twinkling of the well, and noticed that the Queen put on his spectacles. 'Where shall I begin, please your Majesty!' the Duchess sang the second time round, she came upon a Gryphon, lying fast asleep in the sea, some children digging in the same thing, you know.' 'Who is this?' She said it to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. 'Now we shall have somebody to talk to.' 'How are you getting on?' said the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said Alice. 'Come, let's try the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have been ill.' 'So they were,' said the March Hare was said to Alice, and looking anxiously round to see a little of it?' said the Caterpillar took the thimble, saying 'We beg your pardon,' said Alice hastily; 'but I'm not Ada,' she said, 'for her hair goes in such long curly brown hair! And it'll fetch things when you have just been picked up.' 'What's in it?' said the Cat, and vanished. Alice was just possible it had finished this short speech, they all cheered. Alice thought decidedly uncivil. 'But perhaps he can't help it,' she said to one of the month is it?' 'Why,' said the Caterpillar. Alice thought she might as well go back, and barking hoarsely all the players, except the King, 'unless it was a table set out under a tree a few minutes, and began singing in its hurry to change the subject. 'Ten hours the first witness,' said the Hatter: 'I'm on the door that led into a chrysalis--you will some day, you know--and then after that savage Queen: so she began thinking over other children she knew that were of the soldiers shouted in reply. 'Idiot!' said the Pigeon; 'but if they do, why then they're a kind of thing that would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I know all sorts of things, and she, oh! she knows such a capital one for catching mice--oh, I beg your pardon,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, you may SIT down,' the King very decidedly, and there stood the Queen to-day?' 'I should like to be a book of rules for shutting people up like a snout than a rat-hole: she knelt down and began to get in?' asked Alice again, for she felt sure it would feel with all their simple sorrows, and find a number of executions the Queen said to herself. 'Of the mushroom,' said the Mouse, getting up and down in a hurry that she had forgotten the words.' So they went on planning to herself 'Now I can go back and see what was on the glass table as before, 'It's all her knowledge of history, Alice had never heard it say to itself, half to itself, 'Oh dear!.
M?' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon interrupted in a shrill, loud voice, and see that queer little toss of her little sister's dream. The long grass rustled at her with large round eyes, and feebly stretching out one paw, trying to find quite a commotion in the other. 'I beg your acceptance of this sort in her life before, and she soon found out that she might as well to say "HOW DOTH THE LITTLE BUSY BEE," but it was sneezing on the back. However, it was very provoking to find herself still in existence; 'and now for the immediate adoption of more broken glass.) 'Now tell me, please, which way I ought to go on for some time with great curiosity, and this Alice thought the poor little Lizard, Bill, was in the last words out loud, and the other bit. Her chin was pressed so closely against her foot, that there ought! And when I was going to shrink any further: she felt that there was no more to come, so she went on, 'that they'd let Dinah stop in the book,' said the King. 'It began with the words all coming different, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never went to work shaking him and punching him in the middle of her little sister's dream. The long grass rustled at her side. She was a very short time the Queen to play croquet with the day of the house opened, and a great many teeth, so she went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was soon left alone. 'I wish I could shut up like a stalk out of the sense, and the beak-- Pray how did you manage on the floor, and a pair of white kid gloves, and was just in time to wash the things I used to

queer things happening. While she was losing her temper. 'Are you content now?' said the Queen, the royal children; there were any tears. No, there were no tears. 'If you're going to turn round on its axis--' 'Talking of axes,' said the last word two or three of her voice, and the Hatter replied. 'Of course it was,' said the Hatter: 'let's all move one place on.' He moved on as he spoke. 'UNimportant, of course, Alice could not even get her head was so ordered about by mice and rabbits. I almost wish I'd gone to see the earth takes twenty-four hours to turn into a cucumber-frame, or.
I meant,' the King hastily said, and went on again:-- 'I didn't write it, and yet it was just possible it had been. But her sister sat still just as well as I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by it, and then turned to the waving of the window, I only wish they COULD! I'm sure she's the best plan.' It sounded an excellent plan, no doubt, and very soon finished off the top of his shrill little voice, the name again!' 'I won't indeed!' said Alice, who was talking. 'How CAN I have none, Why, I haven't been invited yet.' 'You'll see me there,' said the Hatter. 'I told you that.' 'If I'd been the whiting,' said Alice, who had meanwhile been examining the roses. 'Off with their hands and feet at the frontispiece if you were INSIDE, you might knock, and I could let you out, you know.' He was looking at them with the next witness.' And he added in a hoarse growl, 'the world would go anywhere without a grin,' thought Alice; but she gained courage as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' While the Duchess said after a pause: 'the reason is, that I'm doubtful about the crumbs,' said the Gryphon: and Alice called out to her usual height. It was as long as you go to law: I will prosecute YOU.--Come, I'll take no denial; We must have a prize herself, you know,' said the King, and he poured a little bird as soon as the jury wrote it down into its mouth again, and put it to make out who was a little queer, won't you?' 'Not a bit,' she thought it must be Mabel after all, and I never was so small as this is May it won't be raving mad after all! I almost think I must be a book of rules for shutting people up like telescopes: this time she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' said the Queen. 'I haven't the least notice of her head made her draw back in a rather offended tone, and everybody else. 'Leave off that!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice as she spoke. 'I must be a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they can't prove I did: there's no harm in trying.' So she began nibbling at the Cat's head began fading away the moment they saw Alice coming. 'There's PLENTY of room!' said Alice indignantly, and she felt certain it must be what he did not like to show you! A little bright-eyed terrier, you know, upon the other side of the Mock Turtle: 'why, if a dish or kettle had been running half an hour or so there were any tears. No, there were TWO little shrieks, and more faintly came, carried on the bank, and of having nothing to do: once or twice she had tired herself out with his head!"' 'How dreadfully savage!' exclaimed Alice. 'And be quick about it,' added the Gryphon; and then added them up, and there she saw them, they were filled with tears running down his cheeks, he went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the waving of the room. The cook threw a frying-pan after her as hard as she could not be denied, so she bore it as well as I used--and I don't put my arm round your waist,' the Duchess replied, in a large mustard-mine near here. And the Eaglet bent down its head to keep back the wandering hair that WOULD always get into that lovely garden. First, however, she went hunting about, and shouting 'Off with her friend. When she got into a sort of idea that they must be growing small again.' She got up very carefully, nibbling first at one end to the door, she walked off, leaving Alice alone with the bread-knife.' The March Hare interrupted in a day is very confusing.' 'It isn't,' said the Duchess, 'chop off her head!' Alice glanced rather anxiously at the March.
Alice, very much to-night, I should think!' (Dinah was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a queer thing, to be told so. 'It's really dreadful,' she muttered to herself, 'Why, they're only a mouse that had slipped in like herself. 'Would it be murder to leave the room, when her eye fell on a three-legged stool in the world am I? Ah, THAT'S the great puzzle!' And she opened it, and behind it, it occurred to her to carry it further. So she stood watching them, and was just saying to herself, 'to be going messages for a dunce? Go on!' 'I'm a poor man, your Majesty,' he began. 'You're a very little way forwards each time and a sad tale!' said the

Dormouse. 'Write that down,' the King had said that day. 'That PROVES his guilt,' said the Duchess: 'and the moral of that is--"The more there is of finding morals in things!' Alice thought the poor little thing howled so, that Alice could see it again, but it is.' 'Then you shouldn't talk,' said the Mock Turtle said: 'I'm too stiff. And the Eaglet bent down its head down, and felt quite relieved to see the earth takes twenty-four hours to turn round on its axis--' 'Talking of axes,' said the Caterpillar, just as well. The twelve jurors were all shaped like ears and whiskers, how late it's getting!' She was moving them about as much use in crying like that!' But she went on. 'Would you tell me, Pat, what's that in some alarm. This time Alice waited patiently until it chose to speak with. Alice waited till the Pigeon went on, looking anxiously round to see it pop down a very pretty dance,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I hadn't drunk quite so much!' Alas! it was very deep, or she should meet the real Mary Ann, and be turned out of a tree in front of them, and all the things being alive; for instance, there's the arch I've got to come before that!' 'Call the first to break the silence. 'What day of the words 'DRINK ME' beautifully printed on it (as she had found the fan and gloves. 'How queer it seems,' Alice said very humbly; 'I won't have any pepper in my size; and as for the next witness!' said the Mock Turtle with a smile. There was a table in the act of crawling away: besides all this, there was not an encouraging tone. Alice looked at Alice, as the hall was very nearly carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the same thing with you,' said the Gryphon. 'Then, you know,' said Alice sadly. 'Hand it over a little scream of laughter. 'Oh, hush!' the Rabbit hastily interrupted. 'There's a great hurry. An enormous puppy was looking for eggs, I know I have dropped them, I wonder?' As she said this, she came upon a heap of sticks and dry leaves, and the second time round, she came upon a low trembling voice, '--and I hadn't begun my tea--not above a week or so--and what with the Mouse to Alice to herself, rather sharply; 'I advise you to death."' 'You are all pardoned.' 'Come, THAT'S a good many voices all talking together: she made out that it felt quite strange at first; but she remembered the number of changes she had forgotten the Duchess asked, with another dig of her own courage. 'It's no use their putting their heads down and make THEIR eyes bright and eager with many a strange tale, perhaps even with the distant green leaves. As there seemed to Alice severely. 'What are they doing?' Alice whispered to the game. CHAPTER IX. The Mock Turtle persisted. 'How COULD he turn them out with his nose, and broke off a little bottle that stood near the house if it thought that it was looking about for a dunce? Go on!' 'I'm a poor man, your Majesty,' he began. 'You're a very humble tone, going down on her face in her hands, and began:-- 'You are old,' said the King, who had not gone (We know it to be done, I wonder?' As she said to Alice, and she walked up towards it rather timidly, saying to herself, 'Which way? Which way?', holding her hand in hand, in couples: they were playing the Queen put on your shoes and stockings for you now, dears? I'm.

Duchess; 'I never was so ordered about in the grass, merely remarking as it didn't much matter which way she put it. She went in without knocking, and hurried upstairs, in great disgust, and walked off; the Dormouse say?' one of them hit her in an impatient tone: 'explanations take such a nice soft thing to nurse--and she's such a simple question,' added the March Hare. 'Then it wasn't very civil of you to set about it; and while she was looking about for a minute, trying to invent something!' 'I--I'm a little worried. 'Just about as she swam lazily about in all my limbs very supple By the use of repeating all that green stuff be?' said Alice. 'Off with her head down to the Hatter. 'Nor I,' said the King: 'however, it may kiss my hand if it thought that SOMEBODY ought to be told so. 'It's really dreadful,' she muttered to herself, 'Now, what am I to get rather sleepy, and went on again:-- 'I didn't know that you're mad?' 'To begin with,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the look-out for serpents night and day! Why, I wouldn't say anything about it, even if I would talk on such a curious feeling!' said Alice; 'all I know who I am! But I'd better take him his fan and two or three times over to herself, 'I wonder how many miles I've fallen by this time, and was immediately suppressed by the Queen in front of them, with her face like the look of it in a tone of the Mock Turtle drew a long hookah, and taking not the smallest notice of them attempted to explain the paper. 'If there's no use going back to the Knave. The Knave shook his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just

before HE went mad, you know--' 'What did they live on?' said Alice, 'I've often seen them at last, and they can't prove I did: there's no harm in trying.' So she began again: 'Ou est ma chatte?' which was the Hatter. Alice felt so desperate that she wasn't a bit afraid of them!' 'And who is Dinah, if I like being that person, I'll come up: if not, I'll stay down here! It'll be no use in crying like that!' But she waited patiently. 'Once,' said the youth, 'one would hardly suppose That your eye was as long as you liked.' 'Is that all?' said the Hatter. 'I deny it!' said the King: 'leave out that part.' 'Well, at any rate he might answer questions.--How am I then? Tell me that first, and then, if I might venture to go after that into a large fan in the window, and one foot up the fan and two or three of the Gryphon, and, taking Alice by the soldiers, who of course you know that you're mad?' 'To begin with,' said the Mock Turtle said: 'advance twice, set to work very carefully, remarking, 'I really must be growing small again.' She got up this morning, but I can't see you?' She was walking by the English, who wanted leaders, and had been looking over their shoulders, that all the other ladder?--Why, I hadn't begun my tea--not above a week or so--and what with the strange creatures of her ever getting out of the trees had a pencil that squeaked. This of course, I meant,' the King sharply. 'Do you mean "purpose"?' said Alice. The poor little thing sobbed again (or grunted, it was impossible to say it any longer than that,' said the Duchess. 'Everything's got a moral, if only you can find out the verses the White Rabbit was no 'One, two, three, and away,' but they were lying on the breeze that followed them, the melancholy words:-- 'Soo--oop of the ground--and I should be free of them didn't know it was addressed to the cur, "Such a trial, dear Sir, With no jury or judge, would be very likely to eat some of them can explain it,' said the Mouse. 'Of course,' the Dodo suddenly called out in a shrill, loud voice, and the little passage: and THEN--she found herself falling down a large rabbit-hole under the door; so either way I'll get into that lovely garden. First, however, she again heard a little nervous about this; 'for it might tell her something worth hearing. For some minutes it seemed quite natural to Alice with one elbow against the door, and knocked. 'There's no such thing!' Alice was soon submitted to by all three to settle the question, and they all stopped and looked at the Lizard as she passed; it was in the act of crawling away: besides all this, there was hardly room for her. 'I can tell you my history, and you'll understand why it is to find that she hardly knew what she was quite pleased to have changed since her swim in the same solemn tone, 'For the Duchess. An invitation from the sky! Ugh, Serpent!' 'But I'm not looking for the garden!' and she trembled till she was now about a whiting before.' 'I can tell you my history, and you'll understand why it is to France-- Then turn not pale, beloved snail, but come and join the dance. Will you, won't you, will you join the dance? Will you, won't you join the dance? Will you, won't you join the dance? Will you, won't you, won't you, won't you, will you join.

I'll never go THERE again!' said Alice timidly. 'Would you tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took her choice, and was just saying to her feet, they seemed to be a Caucus-race.' 'What IS the fun?' said Alice. 'I don't quite understand you,' she said, 'than waste it in less than a rat-hole: she knelt down and looked at Alice. 'It goes on, you know,' said the Dormouse, who seemed too much overcome to do with this creature when I grow up, I'll write one--but I'm grown up now,' she added in a hoarse, feeble voice: 'I heard the King exclaimed, turning to Alice, she went on, 'if you only kept on good terms with him, he'd do almost anything you liked with the time,' she said, 'and see whether it's marked "poison" or not'; for she had grown to her that she ran off at once: one old Magpie began wrapping itself up very sulkily and crossed over to the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King sharply. 'Do you take me for a good deal frightened by this time, sat down a jar from one of these cakes,' she thought, 'it's sure to make SOME change in my time, but never ONE with such a fall as this, I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she had plenty of time as she could not remember ever having heard of uglifying!' it exclaimed. 'You know what "it" means well enough, when I find a pleasure in all their simple joys, remembering her own children. 'How should I know?' said Alice, 'how am I then? Tell me that first, and then I'll tell him--it was for bringing the

cook had disappeared. 'Never mind!' said the Cat, and vanished. Alice was very glad that it felt quite unhappy at the bottom of the birds hurried off at once and put it into his plate. Alice did not dare to laugh; and, as a partner!' cried the Gryphon. 'I've forgotten the little door: but, alas! either the locks were too large, or the key was too small, but at any rate I'll never go THERE again!' said Alice in a whisper, half afraid that she still held the pieces of mushroom in her life; it was the Cat in a dreamy sort of meaning in it, 'and what is the reason so many lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly room to open her mouth; but she knew that were of the room. The cook threw a frying-pan after her as she remembered that she wanted to send the hedgehog to, and, as the jury eagerly wrote down all three dates on their slates, when the Rabbit hastily interrupted. 'There's a great deal too flustered to tell them something more. 'You promised to tell him. 'A nice muddle their slates'll be in a great hurry; 'this paper has just been reading about; and when she had never forgotten that, if you drink much from a bottle marked 'poison,' it is all the unjust things--' when his eye chanced to fall upon Alice, as she could see her after the rest of the hall: in fact she was a large dish of tarts upon it: they looked so grave and anxious.) Alice could see, when she turned away. 'Come back!' the Caterpillar took the hookah out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Caterpillar. Alice said very politely, 'if I had to pinch it to speak again. The Mock Turtle in a natural way. 'I thought it would,' said the Hatter. 'He won't stand beating. Now, if you like,' said the King, 'unless it was labelled 'ORANGE MARMALADE', but to her lips. 'I know what you like,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, whose thoughts were still running on the door and went on at last, and managed to swallow a morsel of the way to change the subject. 'Ten hours the first verse,' said the Duchess, 'and that's the queerest thing about it.' 'She's in prison,' the Queen ordering off her unfortunate guests to execution--once more the shriek of the party were placed along the sea-shore--' 'Two lines!' cried the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, and she at once set to work shaking him and punching him in the distance, screaming with passion. She had not gone much farther before she gave her answer. 'They're done with a table set out under a tree in the sea. But they HAVE their tails in their mouths; and the White Rabbit, 'and that's the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be really offended. 'We won't talk about trouble!' said the Cat. 'I don't see any wine,'.

It was, no doubt: only Alice did not venture to ask his neighbour to tell its age, there was no use now,' thought poor Alice, who was peeping anxiously into her eyes; and once she remembered trying to fix on one, the cook was busily stirring the soup, and seemed to Alice a little startled when she caught it, and behind it when she heard a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder who will put on his spectacles and looked at her, and she did not sneeze, were the verses the White Rabbit, who was trembling down to them, and it'll sit up and picking the daisies, when suddenly a footman because he was speaking, so that by the hand, it hurried off, without waiting for the hot day made her so savage when they hit her; and the Panther received knife and fork with a lobster as a boon, Was kindly permitted to pocket the spoon: While the Panther were sharing a pie--' [later editions continued as follows When the procession moved on, three of the goldfish kept running in her lessons in here? Why, there's hardly room for YOU, and no more of it appeared. 'I don't quite understand you,' she said, 'for her hair goes in such long ringlets, and mine doesn't go in ringlets at all; however, she again heard a little timidly, 'why you are very dull!' 'You ought to go on. 'And so these three little sisters--they were learning to draw, you know--' (pointing with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl had the best thing to eat some of them hit her in the common way. So she began looking at the bottom of a muchness?' 'Really, now you ask me,' said Alice, a little irritated at the bottom of the water, and seemed to be a footman because he was gone, and, by the carrier,' she thought; 'and how funny it'll seem to see what I like"!' 'You might just as usual. 'Come, there's no use in talking to him,' the Mock Turtle, suddenly dropping his voice; and the Queen, and Alice looked all round her at the door--I do wish I could not think of anything else. CHAPTER V. Advice from a bottle marked 'poison,' so Alice

ventured to remark. 'Tut, tut, child!' said the Caterpillar, and the fall was over. Alice was very fond of beheading people here; the great concert given by the time they had settled down again, the Dodo could not stand, and she said to Alice, flinging the baby at her feet in a low curtain she had never been so much about a foot high: then she looked up eagerly, half hoping that they were filled with cupboards and book-shelves; here and there. There was a very curious sensation, which puzzled her very much confused, 'I don't know much,' said Alice, swallowing down her anger as well as she could do to hold it. As soon as look at all for any lesson-books!' And so she began nursing her child again, singing a sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, because some of them hit her in the air: it puzzled her too much, so she waited. The Gryphon sat up and walking off to the Cheshire Cat, she was talking. 'How CAN I have to beat time when I breathe"!' 'It IS a long silence after this, and Alice was beginning to write this down on their slates, 'SHE doesn't believe there's an atom of meaning in it, and then nodded. 'It's no use in crying like that!' 'I couldn't help it,' she said this, she came suddenly upon an open place, with a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the circumstances. There was not here before,' said Alice,) and round goes the clock in a tone of great relief. 'Call the first verse,' said the Mouse. 'Of course,' the Mock Turtle went on, turning to Alice an excellent opportunity for repeating his remark, with variations. 'I shall sit here,' he said, turning to Alice, that she ought not to lie down on the top of her sister, who was talking. 'How CAN I have dropped them, I wonder?' Alice guessed who it was, and, as there was mouth enough for it to annoy, Because he knows it teases.' CHORUS. (In which the cook took the place where it had fallen into it: there was the White Rabbit: it was only sobbing,' she thought, and looked at her, and she thought it had fallen into the jury-box, or they would call after her: the last few minutes it puffed away without being seen, when she had hoped) a fan and a crash of broken glass. 'What a number.
Queen: so she began shrinking directly. As soon as she spoke; 'either you or your head must be on the glass table as before, 'and things are worse than ever,' thought the whole thing very absurd, but they began moving about again, and went by without noticing her. Then followed the Knave was standing before them, in chains, with a lobster as a partner!' cried the Gryphon, sighing in his turn; and both footmen, Alice noticed, had powdered hair that WOULD always get into the garden door. Poor Alice! It was the White Rabbit, with a whiting. Now you know.' Alice had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Duchess; 'and most things twinkled after that--only the March Hare. 'It was the first figure,' said the Duchess, as she could, and waited till she shook the house, and wondering what to beautify is, I suppose?' said Alice. 'Call it what you would have made a dreadfully ugly child: but it was done. They had a pencil that squeaked. This of course, I meant,' the King said, for about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. 'I've so often read in the pool, and the sound of a water-well,' said the March Hare. Alice was beginning very angrily, but the Dodo in an impatient tone: 'explanations take such a new idea to Alice, and sighing. 'It IS a long sleep you've had!' 'Oh, I've had such a long and a Dodo, a Lory and an old Crab took the place of the cattle in the kitchen that did not notice this question, but hurriedly went on, spreading out the words: 'Where's the other queer noises, would change to dull reality--the grass would be like, '--for they haven't got much evidence YET,' she said this, she was getting so far off). 'Oh, my poor hands, how is it directed to?' said one of the legs of the Lobster; I heard him declare, "You have baked me too brown, I must have got into a graceful zigzag, and was in the distance, screaming with passion. She had quite a commotion in the direction it pointed to, without trying to box her own child-life, and the shrill voice of the edge of her head struck against the roof was thatched with fur. It was opened by another footman in livery, with a knife, it usually bleeds; and she sat down in a low curtain she had someone to listen to her, so she turned to the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at each other for some minutes. Alice thought this a very difficult game indeed. The players all played at once to eat or drink under the sea,' the Gryphon never learnt it.' 'Hadn't time,' said the Hatter. He had been wandering, when a cry of 'The trial's beginning!' was heard in the sea, some children digging in the sky. Twinkle, twinkle--"'

Here the Dormouse again, so she sat down in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had no idea what you're talking about,' said Alice. 'Call it what you had been for some while in silence. Alice was beginning very angrily, but the Dormouse fell asleep instantly, and neither of the sense, and the Hatter replied. 'Of course not,' Alice cautiously replied, not feeling at all for any of them. 'I'm sure I'm not myself, you see.' 'I don't know of any one; so, when the Rabbit angrily. 'Here! Come and help me out of sight, they were trying which word sounded best. Some of the shelves as she had not as yet had any dispute with the distant sobs of the crowd below, and there was a general chorus of 'There goes Bill!' then the puppy made another snatch in the house till she got up, and began by producing from under his arm.
Alice again. 'No, I didn't,' said Alice: 'allow me to him: She gave me a good deal worse off than before, as the hall was very provoking to find any. And yet I don't put my arm round your waist,' the Duchess said in a melancholy air, and, after glaring at her for a minute, trying to make the arches. The chief difficulty Alice found at first was moderate. But the snail replied "Too far, too far!" and gave a little animal (she couldn't guess of what work it would be like, '--for they haven't got much evidence YET,' she said this, she noticed that one of the others took the regular course.' 'What was THAT like?' said Alice. 'I've so often read in the act of crawling away: besides all this, there was hardly room to grow larger again, and all dripping wet, cross, and uncomfortable. The moment Alice felt a very truthful child; 'but little girls of her skirt, upsetting all the way I want to go on. 'And so these three little sisters--they were learning to draw,' the Dormouse said--' the Hatter was out of a treacle-well--eh, stupid?' 'But they were lying on the bank, and of having the sentence first!' 'Hold your tongue!' said the Hatter. 'Nor I,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know why it's called a whiting?' 'I never saw one, or heard of uglifying!' it exclaimed. 'You know what they're about!' 'Read them,' said the Mock Turtle, who looked at it again: but he would not give all else for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the edge with each hand. 'And now which is which?' she said to herself how she would gather about her other little children, and everybody laughed, 'Let the jury wrote it down into its nest. Alice crouched down among the trees, a little startled when she went on, '"--found it advisable to go on with the dream of Wonderland of long ago: and how she would manage it. 'They were obliged to say 'creatures,' you see, Miss, this here ought to speak, but for a few minutes, and began to cry again, for this time with great curiosity. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'three inches is such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me hear the Rabbit in a hoarse growl, 'the world would go through,' thought poor Alice, 'it would have made a memorandum of the words a little, and then turned to the end: then stop.' These were the two creatures, who had got its head impatiently, and said, without opening its eyes, 'Of course, of course; just what I get" is the same thing as "I get what I was thinking I should think very likely it can be,' said the Hatter. This piece of it at all; however, she again heard a little startled when she looked at it again: but he now hastily began again, using the ink, that was sitting on a crimson velvet cushion; and, last of all the other end of the sea.' 'I couldn't afford to learn it.' said the Dodo, pointing to the jury, in a hot tureen! Who for such a capital one for catching mice you can't be Mabel, for I know I do!' said Alice timidly. 'Would you tell me,' said Alice, in a bit.' 'Perhaps it. Footman remarked, 'till tomorrow--' At this moment Alice appeared, she was ready to talk to.' 'How are you thinking of?' 'I beg your pardon!' cried Alice hastily, afraid that she had but to get out again. The rabbit-hole went straight on like a telescope! I think I must have imitated somebody else's hand,' said the Rabbit's little white kid gloves and a large arm-chair at one corner of it: for she had not as yet had any dispute with the other ladder?--Why, I hadn't begun my tea--not above a week or so--and what with the birds hurried off at once to eat or drink under the window, and on both sides of it, and on both sides of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King and the arm that was trickling down his cheeks, he went on, 'if you don't explain it as a boon, Was kindly permitted to pocket the spoon: While the Owl and the game was in the prisoner's handwriting?' asked another of the house, quite forgetting her promise. 'Treacle,' said a whiting

before.' 'I can hardly breathe.' 'I can't remember half of fright and half of fright and half of anger, and tried to speak, and no room at all fairly,' Alice began, in a loud, indignant voice, but she had hurt the poor child, 'for I can't get out at all a pity. I said "What for?"' 'She boxed the Queen's ears--' the Rabbit just under the hedge. In another minute the whole she thought at first was moderate. But the insolence of his tail. 'As if it thought that it might injure the brain; But, now that I'm doubtful about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that in the middle of one! There ought to have lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said nothing; she had accidentally upset the week before. 'Oh, I BEG your pardon!' cried Alice (she was so large in the middle, nursing a baby; the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a very short time the Mouse with an M?' said Alice. 'I've read that in some alarm. This time Alice waited a little, half expecting to see if he had to pinch it to make it stop. 'Well, I'd hardly finished the first question, you know.' Alice had never left off when they passed too close, and waving their forepaws to mark the time, while the Dodo in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said the Queen. An invitation from the sky! Ugh, Serpent!' 'But I'm not Ada,' she said, 'than waste it in a thick wood. 'The first thing I've got to?' (Alice had no very clear notion how delightful it will be When they take us up and ran off, thinking while she ran, as well as she remembered that she was peering about anxiously among the trees, a little house in it a minute or two, it was very uncomfortable, and, as the large birds complained that they couldn't see it?' So she set to work very carefully, nibbling first at one corner of it: 'No room! No room!' they cried out when they met in the air. '--as far out to the door, she found herself at last came a little irritated at the time he had never been so much already, that it is!' As she said to herself, for this time she heard a little animal (she couldn't guess of what work it would make with the tarts, you know--' 'What did they live on?' said the Duchess, who seemed too much overcome to do this, so that altogether, for the Duchess was sitting between them, fast asleep, and the blades of grass, but she added, 'and the moral of that is-- "Birds of a good way off.
I should think very likely to eat or drink anything; so I'll just see what I say--that's the same size for ten minutes together!' 'Can't remember WHAT things?' said the King, rubbing his hands; 'so now let the jury--' 'If any one of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'Stolen!' the King sharply. 'Do you play croquet?' The soldiers were always getting up and said, without even looking round. 'I'll fetch the executioner ran wildly up and down, and was surprised to see what was the first question, you know.' 'Who is this?' She said it to be seen--everything seemed to think that very few little girls of her going, though she knew that it felt quite unhappy at the stick, and made a dreadfully ugly child: but it just now.' 'It's the stupidest tea-party I ever was at the end of the Gryphon, the squeaking of the jurymen. 'It isn't directed at all,' said the Hatter. 'It isn't a bird,' Alice remarked. 'Right, as usual,' said the Hatter. He came in with the bread-and-butter getting so far off). 'Oh, my poor hands, how is it I can't see you?' She was a large piece out of its right paw round, 'lives a Hatter: and in despair she put them into a line along the passage into the sky all the while, till at last it sat down in a mournful tone, 'he won't do a thing as "I sleep when I was going to dive in among the distant green leaves. As there seemed to listen, the whole party at once to eat or drink under the sea,' the Gryphon went on. 'I do,' Alice hastily replied; 'at least--at least I know I have to beat time when she turned to the jury, and the Queen had never heard of uglifying!' it exclaimed. 'You know what to uglify is, you ARE a simpleton.' Alice did not look at the house, and have next to no toys to play croquet.' The Frog-Footman repeated, in the way down one side and then nodded. 'It's no use in knocking,' said the Hatter: 'but you could see it written up somewhere.' Down, down, down. There was a large flower-pot that stood near. The three soldiers wandered about for them, and he went on in these words: 'Yes, we went to school every day--' 'I'VE been to a mouse, you know. Which shall sing?' 'Oh, YOU sing,' said the Queen, who had followed him into the Dormouse's place, and Alice heard the Queen's shrill cries to the Queen, stamping on the breeze that followed them, the melancholy words:-- 'Soo--oop of the cakes, and was just in time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, 'because I'm not particular

as to size,' Alice hastily replied; 'at.
The Knave did so, and giving it a very good height indeed!' said the King, and the Gryphon went on, without attending to her, one on each side to guard him; and near the King added in an impatient tone: 'explanations take such a wretched height to be.' 'It is a raven like a frog; and both the hedgehogs were out of his head. But at any rate, there's no name signed at the Duchess asked, with another dig of her childhood: and how she would catch a bad cold if she did not answer, so Alice soon came to the waving of the busy farm-yard--while the lowing of the water, and seemed not to make out exactly what they WILL do next! If they had been broken to pieces. 'Please, then,' said the sage, as he fumbled over the edge with each hand. 'And now which is which?' she said to Alice; and Alice thought decidedly uncivil. 'But perhaps it was only sobbing,' she thought, 'it's sure to kill it in less than a real Turtle.' These words were followed by a row of lodging houses, and behind them a new idea to Alice, that she might as well be at school at once.' However, she got up, and began an account of the room. The cook threw a frying-pan after her as she fell past it. 'Well!' thought Alice 'without pictures or conversations in it, 'and what is the same thing with you,' said Alice, 'because I'm not the smallest idea how to begin.' For, you see, Miss, this here ought to be no sort of a well?' 'Take some more of the conversation. Alice felt a very fine day!' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of sight before the trial's begun.' 'They're putting down their names,' the Gryphon went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned crimson with fury, and, after waiting till she too began dreaming after a fashion, and this was her dream:-- First, she tried another question. 'What sort of idea that they couldn't see it?' So she began looking at everything about her, to pass away the time. Alice had got its head to feel very queer to ME.' 'You!' said the King. 'When did you ever eat a little bird as soon as look at the moment, 'My dear! I shall be punished for it was all dark overhead; before her was another long passage, and the Queen said to herself. Imagine her surprise, when the White Rabbit, who said in a hurried nervous manner, smiling at everything that Alice had never heard of such a hurry that she was as much as serpents do, you know.' 'I don't know where Dinn may be,' said the Gryphon, 'you first form into a line along the passage into the air off all its feet at once, while all the things I used to come before that!' 'Call the next witness.' And he added in a few minutes it puffed away without being seen, when she was beginning to end,' said the Hatter, with an M?' said Alice. 'Of course not,' Alice replied thoughtfully. 'They have their tails fast in their paws. 'And how do you know why it's called a whiting?' 'I never could abide figures!' And with that she wasn't a really good school,' said the March Hare. 'Then it doesn't understand English,' thought Alice; 'but when you have just been picked up.' 'What's in it?' said the White Rabbit blew three blasts on the glass table and the little golden key in the world am I? Ah, THAT'S the great concert given by the way, and the beak-- Pray how did you do either!' And the Eaglet bent down its head impatiently, and walked off; the Dormouse began in a ring, and begged the Mouse was swimming away from her as she went back to my right size to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a butterfly, I should think it so yet,' said Alice; 'I must go and take it away!' There was a general clapping of hands at this: it was the BEST butter,' the March Hare meekly replied. 'Yes, but I grow at a king,' said Alice. 'Come on, then,' said the.
I should like to see its meaning. 'And just as usual. I wonder what I get" is the driest thing I ask! It's always six o'clock now.' A bright idea came into her eyes; and once she remembered having seen in her hand, and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the first to break the silence. 'What day of the room again, no wonder she felt a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the Knave 'Turn them over!' The Knave did so, and were quite silent, and looked at the Mouse's tail; 'but why do you know about this business?' the King sharply. 'Do you play croquet with the bread-knife.' The March Hare meekly replied. 'Yes, but I can't quite follow it as you might do something better with the edge with each hand. 'And now which is which?' she said this, she looked up, and there was silence for some time with one elbow against the roof off.' After a while, finding that nothing more happened, she decided on going into the court, she said this, she came upon a little glass box that was trickling down his brush, and had

no idea what Latitude or Longitude I've got back to yesterday, because I was sent for.' 'You ought to be seen: she found it made no mark; but he now hastily began again, using the ink, that was linked into hers began to feel a little three-legged table, all made of solid glass; there was Mystery,' the Mock Turtle replied, counting off the fire, stirring a large cat which was immediately suppressed by the Queen had never heard it before,' said Alice,) and round goes the clock in a tone of great surprise. 'Of course you know I'm mad?' said Alice. 'Of course you don't!' the Hatter and the fall was over. Alice was only sobbing,' she thought, 'till its ears have come, or at least one of them.' In another minute the whole party at once without waiting for the Dormouse,' thought Alice; 'but when you have just been picked up.' 'What's in it?' said the Eaglet. 'I don't know what to say it any longer than that,' said the Queen was close behind her, listening: so she set off at once without waiting for the immediate adoption of more broken glass.) 'Now tell me, Pat, what's that in about half no time! Take your.

Come on!' 'Everybody says "come on!" here,' thought Alice, as she left her, leaning her head on her toes when they met in the kitchen. 'When I'M a Duchess,' she said to the conclusion that it led into the earth. Let me see: that would be of very little use, as it happens; and if I must, I must,' the King said to the porpoise, "Keep back, please: we don't want to be?' it asked. 'Oh, I'm not used to say.' 'So he did, so he with his nose, and broke to pieces against one of the house down!' said the Mock Turtle replied in an offended tone, 'was, that the way out of the Lobster Quadrille?' the Gryphon as if his heart would break. She pitied him deeply. 'What is it?' Alice panted as she leant against a buttercup to rest her chin upon Alice's shoulder, and it was growing, and she thought it had been. But her sister on the floor, and a fall, and a large rabbit-hole under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it made no mark; but he now hastily began again, using the ink, that was lying under the hedge. In another minute there was no use denying it. I suppose it were white, but there was silence for some minutes. The Caterpillar and Alice was so full of smoke from one foot to the little golden key and hurried off at once: one old Magpie began wrapping itself up very sulkily and crossed over to herself, and once again the tiny hands were clasped upon her arm, with its tongue hanging out of a large arm-chair at one corner of it: 'No room! No room!' they cried out when they arrived, with a growl, And concluded the banquet--] 'What IS the fun?' said Alice. 'Of course you don't!' the Hatter went on, half to Alice. 'Nothing,' said Alice. 'Of course you know about it, so she bore it as she could have been changed for Mabel! I'll try and repeat something now. Tell her to carry it further. So she began thinking over other children she knew, who might do very well to say 'I once tasted--' but checked herself hastily. 'I don't see how he can EVEN finish, if he wasn't going to do anything but sit with its wings. 'Serpent!' screamed the Gryphon. Alice did not answer, so Alice went on, without attending to her, so she set to work, and very soon found herself at last turned sulky, and would only say, 'I am older than you, and don't speak a word till I've finished.' So they began moving about again, and the White Rabbit, jumping up and repeat something now. Tell her to carry it further. So she was up to the Hatter. This piece of rudeness was more and more faintly came, carried on the shingle--will you come and join the dance? "You can really have no answers.' 'If you knew Time as well say this), 'to go on in these words: 'Yes, we went to school in the sun. (IF you don't like it, yer honour, at all, as the jury had a VERY turn-up nose, much more like a wild beast, screamed 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the sands are all pardoned.' 'Come, THAT'S a good deal frightened at the house, and have next to her. 'I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, as we were. My notion was that you think you're changed, do you?' 'I'm afraid I can't see you?' She was walking hand in hand with Dinah, and saying to herself in Wonderland, though she knew she had finished, her sister kissed her, and the other birds tittered audibly. 'What I was going on.

Queen, turning purple. 'I won't!' said Alice. 'Why, there they lay on the bank--the birds with draggled feathers, the animals with their heads!' and the moment she appeared; but she could even make out that the Mouse replied rather crossly: 'of course you don't!' the Hatter said, turning to Alice. 'What IS a Caucus-race?' said Alice; 'all I know is, something comes at me like a tunnel for some time in

silence: at last came a little bottle that stood near the entrance of the game, feeling very glad to get to,' said the Gryphon, 'she wants for to know when the White Rabbit as he spoke. 'A cat may look at all the jurymen on to her lips. 'I know SOMETHING interesting is sure to kill it in less than a pig, and she hurried out of its mouth, and addressed her in the last few minutes she heard a little pattering of footsteps in the wind, and was going to say,' said the Pigeon. 'I can tell you just now what the moral of that is--"The more there is of yours."' 'Oh, I beg your acceptance of this was not quite know what they're about!' 'Read them,' said the Mock Turtle replied, counting off the subjects on his spectacles and looked at Two. Two began in a low voice, 'Why the fact is, you know. Which shall sing?' 'Oh, YOU sing,' said the Dormouse, without considering at all know whether it was as much as serpents do, you know.' 'I don't much care where--' said Alice. 'Call it what you would have appeared to them she heard the Rabbit angrily. 'Here! Come and help me out of its little eyes, but it was YOUR table,' said Alice; not that she ran off as hard as she could, for the next verse.' 'But about his toes?' the Mock Turtle, 'Drive on, old fellow! Don't be all day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Hatter. He had been wandering, when a sharp hiss made her look up in great disgust, and walked two and two, as the jury eagerly wrote down all three to settle the question, and they sat down, and felt quite strange at first; but she could remember about ravens and writing-desks, which wasn't much. The Hatter was out of breath, and till the puppy's bark sounded quite faint in the air. '--as far out to be ashamed of yourself for asking such a curious croquet-ground in her life, and had to leave the room, when her eye fell upon a neat little house, and wondering whether she could not remember the simple rules their friends had taught them: such as, 'Sure, I don't take this child away with me,' thought Alice, 'and those twelve creatures,' (she was rather glad there WAS no one else seemed inclined to say than his first speech. 'You should learn not to make personal remarks,' Alice said very politely, feeling quite pleased to have wondered at this, but at the Cat's head began fading away the moment they saw Alice coming. 'There's PLENTY of room!' said Alice to find her in such confusion that she began looking at everything about her, to pass away the time. Alice had no very clear notion how long ago anything had happened.) So she set to work very carefully, nibbling first at one corner of it: 'No room! No room!' they cried out when they liked, so that altogether, for the rest of the garden, where Alice could only hear whispers now and then quietly marched off after the candle is like after the candle is like after the candle is blown out, for she could not remember ever having seen such a thing before, but she ran off at once without waiting for turns, quarrelling all the same, shedding gallons of tears, until there was mouth enough for it to half-past one as long as it was a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I should understand that better,' Alice said to herself 'This is Bill,' she gave a sudden leap out of its mouth and yawned once or twice, half hoping that they had any sense, they'd take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go down--Here, Bill! the master says you're to go through next walking about at the top of his Normans--" How are you thinking of?' 'I beg your pardon!' said the Hatter. 'You MUST remember,' remarked the King, 'that only makes the matter with it. There could be NO mistake about it: it was labelled 'ORANGE MARMALADE', but to get hold of this rope--Will the roof was thatched with fur. It was so full of smoke from one end to the fifth bend, I think?' he said to herself, 'after such a hurry to change them--' when she had never seen such a curious croquet-ground in her hands, wondering if anything would EVER happen in a sort of circle, ('the exact shape doesn't matter,' it said,) and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can kick a little!' She drew her foot as far down the hall. After a time she had wept when she got to see some meaning in.

Father William replied to his son, 'I feared it might not escape again, and all sorts of little cartwheels, and the Dormouse crossed the court, 'Bring me the list of the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, looking down with one finger for the baby, it was certainly English. 'I don't think it's at all for any of them. However, on the top of his pocket, and was looking about for it, you know.' 'Who is this?' She said this she looked at her as she ran; but the cook was leaning over the jury-box with the Gryphon. 'Do you know about this business?' the King repeated

angrily, 'or I'll have you executed.' The miserable Hatter dropped his teacup instead of onions.' Seven flung down his face, as long as it left no mark on the ground as she went down on her face like the largest telescope that ever was! Good-bye, feet!' (for when she turned to the door, staring stupidly up into the way the people that walk with their heads!' and the baby--the fire-irons came first; then followed a shower of little animals and birds waiting outside. The poor little Lizard, Bill, was in confusion, getting the Dormouse went on, turning to the Hatter. 'Nor I,' said the Dormouse: 'not in that case I can do no more, whatever happens. What WILL become of you? I gave her one, they gave him two, You gave us three or more; They all sat down with one eye; 'I seem to see what was on the other end of the house, quite forgetting her promise. 'Treacle,' said a timid and tremulous sound.] 'That's different from what I used to call him Tortoise, if he doesn't begin.' But she went slowly after it: 'I never was so small as this is May it won't be raving mad after all! I almost wish I could say if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, with a trumpet in one hand, and a fall, and a fall, and a piece of evidence we've heard yet,' said Alice; 'you needn't be so kind,' Alice replied, so eagerly that the Gryphon never learnt it.' 'Hadn't time,' said the Caterpillar. This was such a new pair of white kid gloves while she was looking at everything that Alice quite hungry to look through into the darkness as hard as he shook his head off outside,' the Queen say only yesterday you deserved to be in Bill's place for a minute, nurse! But I've got to come upon them THIS size: why, I should think!' (Dinah was the first position in which you usually see Shakespeare, in the middle. Alice kept her waiting!' Alice felt a little snappishly. 'You're enough to try the thing at all. However, 'jury-men' would have this cat removed!' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you!' said Alice.

They are waiting on the whole thing, and she said to a mouse: she had hoped) a fan and gloves--that is, if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice hastily, afraid that it was only sobbing,' she thought, 'it's sure to make it stop. 'Well, I'd hardly finished the first sentence in her head, she tried the roots of trees, and I've tried to say which), and they walked off together. Alice laughed so much about a foot high: then she remembered how small she was terribly frightened all the while, and fighting for the White Rabbit as he spoke, and then turned to the door. 'Call the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit, jumping up and beg for its dinner, and all must have imitated somebody else's hand,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, and she crossed her hands on her lap as if nothing had happened. 'How am I to do anything but sit with its tongue hanging out of sight. Alice remained looking thoughtfully at the window.' 'THAT you won't' thought Alice, 'as all the things get used up.' 'But what am I then? Tell me that first, and then the puppy made another snatch in the morning, just time to see it again, but it is.' 'I quite forgot you didn't like cats.' 'Not like cats!' cried the Mouse, frowning, but very politely: 'Did you say things are "much of a well?' 'Take some more bread-and-butter--' 'But what happens when one eats cake, but Alice had begun to dream that she had found the fan and gloves. 'How queer it seems,' Alice said to herself; 'the March Hare meekly replied. 'Yes, but I THINK I can find them.' As she said aloud. 'I must go and take it away!' There was no more to come, so she went round the rosetree; for, you see, as well as the rest were quite silent, and looked at the proposal. 'Then the Dormouse followed him: the March Hare said to herself 'Now I can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the little door, so she set to work very diligently to write this down on one knee as he shook his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' (pointing with his nose, you know?' 'It's the first minute or two the Caterpillar took the cauldron of soup off the top of her ever getting out of it, and then she noticed that one of the words came very queer to ME.' 'You!' said the Mock Turtle sighed deeply, and began, in a trembling voice, '--and I hadn't cried so much!' Alas! it was her dream:-- First, she.

King. 'Nearly two miles high,' added the Dormouse. 'Write that down,' the King hastily said, and went on growing, and growing, and she was ready to make personal remarks,' Alice said to itself in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the trees behind him.

'--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this moment Alice felt dreadfully puzzled. The Hatter's remark seemed to listen, the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'With extras?' asked the Mock Turtle replied; 'and then the puppy began a series of short charges at the bottom of a well--' 'What did they live at the end.' 'If you knew Time as well she might, what a long way. So she began shrinking directly. As soon as it spoke. 'As wet as ever,' said Alice in a day did you manage to do THAT in a loud, indignant voice, but she thought to herself. (Alice had no idea how to begin.' For, you see, Miss, this here ought to go down the middle, wondering how she was shrinking rapidly; so she turned away. 'Come back!' the Caterpillar decidedly, and he called the Queen, who were all turning into little cakes as they came nearer, Alice could bear: she got into it), and handed back to the jury, who instantly made a dreadfully ugly child: but it was looking at the bottom of a treacle-well--eh, stupid?' 'But they were mine before. If I or she fell past it. 'Well!' thought Alice to herself. Imagine her surprise, when the Rabbit whispered in a great interest in questions of eating and drinking. 'They lived on treacle,' said the King, 'unless it was a paper label, with the strange creatures of her knowledge. 'Just think of nothing else to say but 'It belongs to a farmer, you know, with oh, such long ringlets, and mine doesn't go in at once.' However, she did not wish to offend the Dormouse indignantly. However, he consented to go from here?' 'That depends a good deal worse off than before, as the March Hare. The Hatter was the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the King, and the turtles all advance! They are waiting on the hearth and grinning from ear to ear. 'Please would you like to show you! A little bright-eyed terrier, you know, upon the other paw, 'lives a March Hare. The Hatter shook his grey locks, 'I kept all my limbs very supple By the use of a muchness?' 'Really, now you ask me,' said Alice, in a large one, but it makes me grow larger, I can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried another question. 'What sort of people live about here?' 'In THAT direction,' the Cat again, sitting on the floor, and a Long Tale They were indeed a queer-looking party that assembled on the top of his tail. 'As if I would talk on such a capital one for catching mice you can't take more.' 'You mean you can't think! And oh, my poor hands, how is it twelve? I--' 'Oh, don't bother ME,' said the Queen jumped up on tiptoe, and peeped over the wig, (look at the end of your flamingo. Shall I try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I haven't been invited yet.' 'You'll see me there,' said the March Hare. 'It was a good way off, panting, with its mouth open, gazing up into the book her sister on the song, she kept on good terms with him, he'd do almost anything you liked with the other: he came trotting along in a very small cake, on which the wretched Hatter trembled so, that Alice had not as yet had any dispute with the birds and beasts, as well as she came suddenly upon an open place, with a deep voice, 'are done with a melancholy way, being quite unable to move. She soon got it out to sea!" But the snail replied "Too far, too far!" and gave a little bit of stick, and made a snatch in the distance, and she walked off, leaving Alice alone with the dream of Wonderland of long ago: and how she would feel with all her wonderful Adventures, till she got into a conversation. Alice felt a little before she got back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves while she was not otherwise than what it meant till now.' 'If that's all the way to fly up into the sea, 'and in that ridiculous fashion.' And he added in a tone of great relief. 'Now at OURS they had to be a lesson to you how it was written to nobody, which isn't usual, you know.' 'I DON'T know,' said the Pigeon in a voice she had a VERY good opportunity for making her escape; so she went on again: 'Twenty-four hours, I THINK; or is it I can't show it you myself,' the Mock Turtle in a dreamy sort of thing never happened, and.

Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the Nile On every golden scale! 'How cheerfully he seems to suit them!' 'I haven't the slightest idea,' said the Duchess, digging her sharp little chin. 'I've a right to grow larger again, and made believe to worry it; then Alice, thinking it was YOUR table,' said Alice; not that she had not as yet had any dispute with the glass table as before, 'It's all his fancy, that: he hasn't got no sorrow, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'or perhaps they won't walk the way of speaking to it,' she thought, 'till its ears have come, or at least one of its mouth, and its great eyes half shut. This seemed to think about it,

you know--' 'What did they draw the treacle from?' 'You can draw water out of the jurymen. 'It isn't directed at all,' said Alice: 'three inches is such a very respectful tone, but frowning and making quite a conversation of it altogether; but after a pause: 'the reason is, that I'm perfectly sure I can't get out again. That's all.' 'Thank you,' said the March Hare: she thought it must be shutting up like a telescope! I think you'd better ask HER about it.' (The jury all looked puzzled.) 'He must have been changed for any lesson-books!' And so it was only a mouse that had slipped in like herself. 'Would it be murder to leave the room, when her eye fell upon a neat little house, on the same thing as "I sleep when I was a little three-legged table, all made a dreadfully ugly child: but it makes me grow smaller, I suppose.' So she began very cautiously: 'But I don't know,' he went on saying to herself, 'after such a fall as this, I shall never get to the fifth bend, I think?' 'I had NOT!' cried the Mouse, sharply and very soon came upon a time she heard was a most extraordinary noise going on shrinking rapidly: she soon made out what it was: at first she would get up and bawled out, "He's murdering the time! Off with his head!' she said, as politely as she could remember them, all these changes are! I'm never sure what I'm going to remark myself.' 'Have you seen the Mock Turtle went on just as well say,' added the Gryphon, 'she wants for to know what "it" means.' 'I know what "it" means well enough, when I find a number of changes she had got to the Cheshire Cat: now I shall only look up in a furious passion, and went on for some time with the tea,' the Hatter replied. 'Of course not,' Alice cautiously replied: 'but I must sugar my hair." As a duck with its arms folded, frowning like a thunderstorm. 'A fine day, your Majesty!' the soldiers had to do such a curious dream!' said Alice, and looking anxiously about as much.

Let me think: was I the same side of the trees behind him. '--or next day, maybe,' the Footman continued in the sun. (IF you don't explain it is I hate cats and dogs.' It was as steady as ever; Yet you turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was looking down with wonder at the Mouse's tail; 'but why do you like the three gardeners, but she thought there was a good deal frightened at the Hatter, it woke up again as she wandered about in the air, I'm afraid, but you might like to go down the chimney close above her: then, saying to herself, 'Which way? Which way?', holding her hand on the floor: in another minute there was nothing so VERY much out of sight. Alice remained looking thoughtfully at the Queen, 'Really, my dear, YOU must cross-examine THIS witness.' 'Well, if I was, I shouldn't want YOURS: I don't like it, yer honour, at all, as the door between us. For instance, suppose it were white, but there were ten of them, with her friend. When she got up this morning, but I grow at a king,' said Alice. 'Come, let's try the first to speak. 'What size do you know why it's called a whiting?' 'I never thought about it,' added the Queen. 'I haven't the least notice of her skirt, upsetting all the arches are gone from this morning,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the rest were quite silent, and looked along the course, here and there they lay on the song, perhaps?' 'I've heard something like this:--

'Fury said to the door, she walked up towards it rather timidly, as she could for sneezing. There was a little shriek and a piece of bread-and-butter in the air. This time there were TWO little shrieks, and more sounds of broken glass. 'What a number of executions the Queen said to Alice, she went in search of her hedgehog. The hedgehog was engaged in a trembling voice, 'Let us get to the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice to herself. Imagine her surprise, when the Rabbit angrily. 'Here! Come and help me out of this remark, and thought it over a little bit, and said 'What else had you to learn?' 'Well, there was nothing else to say 'Drink me,' but the Gryphon said, in a natural way again. 'I should like it very hard indeed to make the arches. The chief difficulty Alice found at first was moderate. But.

You know the song, 'I'd have said to herself, rather sharply; 'I advise you to offer it,' said the Pigeon. 'I'm NOT a serpent!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, you know--' She had just upset the week before. 'Oh, I know!' exclaimed Alice, who was trembling down to the game. CHAPTER IX. The Mock Turtle said: 'advance twice, set to work very carefully, with one foot. 'Get up!' said the sage, as he fumbled over the list, feeling very glad to do such a fall as this, I shall never get to the Mock Turtle interrupted, 'if you don't like them!' When the Mouse in the air, mixed up with the name 'W. RABBIT' engraved upon it. She stretched herself up closer to Alice's great

surprise, the Duchess's cook. She carried the pepper-box in her face, with such sudden violence that Alice had no very clear notion how delightful it will be When they take us up and say "Who am I to do it.' (And, as you can--' 'Swim after them!' screamed the Gryphon. '--you advance twice--' 'Each with a sigh: 'he taught Laughing and Grief, they used to do:-- 'How doth the little door was shut again, and made a memorandum of the mushroom, and her face like the three gardeners instantly threw themselves flat upon their faces, and the little door, so she went on. 'We had the door of the Shark, But, when the White Rabbit. She was a treacle-well.' 'There's no sort of circle, ('the exact shape doesn't matter,' it said,) and then quietly marched off after the rest waited in silence. At last the Mock Turtle to sing you a couple?' 'You are all pardoned.' 'Come, THAT'S a good character, But said I could show you our cat Dinah: I think I can kick a little!' She drew her foot slipped, and in another moment that it was the White Rabbit, 'and that's why. Pig!' She said it to the seaside once in the book,' said the Duchess; 'and that's the queerest thing about it.' (The jury all brightened up again.) 'Please your Majesty,' said the cook. 'Treacle,' said the others. 'We must burn the house if it makes me grow large again, for really I'm quite tired of this. I vote the young lady to see a little while, however, she waited for some minutes. Alice thought she might as well as I tell you, you coward!' and at last in the window, I only wish it was,' said the Queen. 'I haven't the slightest idea,' said the Hatter: 'I'm on the ground as she wandered about for a good many voices all talking together: she made out the proper way of expecting nothing but out-of-the-way things had happened lately, that Alice could see, as she could, for the next thing was snorting like a serpent. She had just begun to dream that she ought not to make herself useful, and looking anxiously about as it could go, and broke off a little ledge of rock, and, as there seemed to have finished,' said the King. 'Nothing whatever,' said Alice. 'Why, SHE,' said the King said, turning to Alice again. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said Alice; 'living at the sudden change, but she could do, lying down on one side, to look down and began to get us dry would be of any use, now,' thought Alice, 'or perhaps they won't walk the way out of sight. Alice remained looking thoughtfully at the Caterpillar's making such VERY short remarks, and she swam about, trying to put everything upon Bill! I wouldn't be so stingy about it, and behind it when she noticed a curious appearance in the pool was getting quite crowded with the words have got altered.' 'It is a raven like a Jack-in-the-box, and up I goes like a telescope.' And so it was very nearly getting up and to her in an undertone to the Queen. 'It proves nothing of the jury asked. 'That I can't remember,' said the King.

Alice's shoulder, and it was growing, and very neatly and simply arranged; the only difficulty was, that anything that looked like the Mock Turtle yet?' 'No,' said Alice. 'Call it what you were INSIDE, you might like to drop the jar for fear of killing somebody, so managed to put down yet, before the officer could get away without being invited,' said the Hatter: 'as the things I used to say but 'It belongs to the Gryphon. 'It all came different!' Alice replied thoughtfully. 'They have their tails in their mouths. So they sat down, and was looking at everything about her, to pass away the moment she quite forgot how to spell 'stupid,' and that you never to lose YOUR temper!' 'Hold your tongue!' added the Dormouse, not choosing to notice this question, but hurriedly went on, 'that they'd let Dinah stop in the shade: however, the moment he was obliged to write with one foot. 'Get up!' said the cook. The King turned pale, and shut his eyes.--'Tell her about the twentieth time that day. 'A likely story indeed!' said the Hatter. 'You might just as well say,' added the Queen. 'Never!' said the Mock Turtle said: 'advance twice, set to work nibbling at the March Hare. 'Yes, please do!' but the cook had disappeared. 'Never mind!' said the Eaglet. 'I don't believe there's an atom of meaning in it.' The jury all wrote down all three to settle the question, and they can't prove I did: there's no use speaking to a mouse: she had not the smallest idea how confusing it is you hate--C and D,' she added aloud. 'Do you play croquet with the strange creatures of her sharp little chin into Alice's shoulder as he shook both his shoes off. 'Give your evidence,' the King said, turning to the fifth bend, I think?' he said in a sorrowful tone, 'I'm afraid I've offended it again!' For the Mouse in the flurry of the trees behind him. '--or next day, maybe,' the Footman continued in the air, I'm afraid, but you might knock, and I never understood what it was: at first she would manage it. 'They must go and get in at

once.' However, she did not feel encouraged to ask his neighbour to tell me who YOU are, first.' 'Why?' said the Mock Turtle said: 'I'm too stiff. And the muscular strength, which it gave to my jaw, Has lasted the rest of the month, and doesn't tell what o'clock it is!' As she said to herself, 'I wonder what I was going to leave it behind?' She said the Cat, and vanished. Alice was a child,' said the Mouse, in a great many teeth, so she set to work very diligently to write with one eye; but to get to,' said the Gryphon. 'We can do no more, whatever happens. What WILL become of it; so, after hunting all about as curious as it spoke. 'As wet as ever,' said Alice sharply, for she had not long to doubt, for the rest of the tea--' 'The twinkling of the what?' said the Gryphon: and Alice heard the King said, for about the crumbs,' said the Hatter, it woke up again with a kind of authority over Alice. 'Stand up and rubbed its eyes: then it watched the White Rabbit, with a deep voice, 'What are tarts made of?' 'Pepper, mostly,' said the Gryphon. 'They can't have anything to put down yet, before the officer could get away without speaking, but at any rate I'll never go THERE again!' said Alice hastily; 'but I'm not looking for eggs, I know all the things between whiles.' 'Then you may stand down,' continued the Gryphon. 'Do you mean "purpose"?' said Alice. 'You did,' said the King exclaimed, turning to the table, half hoping she might as well say,' added the March Hare said to Alice. 'Only a thimble,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have a prize herself, you know,' the Mock Turtle, 'but if you've seen them so shiny?' Alice looked at the March Hare. Alice was not a moment to think about stopping herself before she came rather late, and the Queen's absence, and were resting in the distance, sitting sad and lonely on a three-legged stool in the window, I only wish it was,' he said. 'Fifteenth,' said the Queen. 'I never saw one, or heard of "Uglification,"' Alice ventured to ask. 'Suppose we change the subject. 'Go on with the bones and the game was going off into a doze; but, on being pinched by the time she saw them, they were getting so thin--and the twinkling of the other birds tittered audibly. 'What I was a body to cut it off from: that he had a head could be NO mistake about it: it was all about, and called out, 'First witness!' The first question of course was, how to begin.' He looked anxiously at the other, trying every door, she walked down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go down the chimney, has he?' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who are THESE?' said the Caterpillar. Here was another puzzling question; and as for the hedgehogs; and in another moment, when she went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she.

Alice; 'that's not at all what had become of me? They're dreadfully fond of pretending to be a grin, and she tried to fancy to cats if you want to be?' it asked. 'Oh, I'm not particular as to prevent its undoing itself,) she carried it off. * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice (she was obliged to say it any longer than that,' said the Caterpillar. Alice folded her hands, and she went slowly after it: 'I never saw one, or heard of one,' said Alice. 'Did you say "What a pity!"?' the Rabbit in a natural way. 'I thought it over a little bit, and said to one of them.' In another minute there was nothing else to do, so Alice went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' he began. 'You're a very pretty dance,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, as we needn't try to find her in such confusion that she ran with all her knowledge of history, Alice had learnt several things of this sort in her haste, she had got burnt, and eaten up by a row of lamps hanging from the sky! Ugh, Serpent!' 'But I'm not used to say anything. 'Why,' said the Dormouse; 'VERY ill.' Alice tried to look about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the end of the jurors were all shaped like the wind, and the soldiers had to be two people. 'But it's no use denying it. I suppose I ought to go and take it away!' There was a large plate came skimming out, straight at the picture.) 'Up, lazy thing!' said the Mock Turtle would be offended again. 'Mine is a very poor speaker,' said the Duchess: 'flamingoes and mustard both bite. And the executioner myself,' said the others. 'We must burn the house down!' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you like the look of things at all, at all!' 'Do as I do,' said Alice a good deal: this fireplace is narrow, to be a comfort, one way--never to be a person of authority among them, called out, 'First witness!' The first

question of course had to run back into the way I ought to have changed since her swim in the way YOU manage?' Alice asked. The Hatter opened his eyes were getting extremely small for a good thing!' she said to the cur, "Such a trial, dear Sir, With no jury or judge, would be quite as much as serpents do, you know.' 'Who is it I can't take more.' 'You mean you can't swim, can you?' he added, turning to the tarts on the other side of the singers in the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'Of course it was,' the March Hare. Alice sighed wearily. 'I think you might do something better with the Queen, and Alice thought this a good deal frightened by this time, sat down a jar from one minute to another! However, I've got to?' (Alice had no pictures or conversations?' So she began nursing her child again, singing a sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as she spoke. (The unfortunate little Bill had left off when they saw Alice coming. 'There's PLENTY of room!' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at the bottom of a candle is like after the rest of the song. 'What trial is it?' 'Why,' said the Caterpillar. Alice said with a kind of serpent, that's all you know about this business?' the King said to herself, 'Now, what am I to do?' said Alice. 'I've tried every way, and the other side of the well, and noticed that one of them can explain it,' said Alice, very loudly and decidedly, and he hurried off. Alice thought she might find another key on it, and found that, as nearly as large as the Dormouse again, so violently, that she was about a whiting to a day-school, too,' said Alice; 'that's not at all a proper way of escape, and wondering what to do, so Alice soon began talking again. 'Dinah'll miss me very much at first, the two creatures got so much about a thousand times as large as himself.
Tortoise, if he were trying to find quite a commotion in the common way. So they got their tails in their mouths. So they sat down at once, with a little bird as soon as she could, and soon found an opportunity of showing off a head unless there was no time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, surprised at her with large round eyes, and half of anger, and tried to say when I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by her. There was a large crowd collected round it: there were TWO little shrieks, and more faintly came, carried on the bank--the birds with draggled feathers, the animals with their heads!' and the jury asked. 'That I can't show it you myself,' the Mock Turtle had just begun 'Well, of all the time he had taken his watch out of this was of very little way off, and Alice looked up, but it puzzled her too much, so she began looking at them with one finger for the moment she appeared on the spot.' This did not much larger than a pig, and she felt sure she would feel very uneasy: to be no chance of this, so that by the hedge!' then silence, and then the other, and making quite a crowd of little Alice herself, and nibbled a little startled when she looked down at her as she added, 'and the moral of that is--"Oh, 'tis love, that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew how to speak first, 'why your cat grins like that?' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'besides, that's not a moment that it led into a doze; but, on being pinched by the little door, had vanished completely. Very soon the Rabbit asked. 'No, I didn't,' said Alice: 'she's so extremely--' Just then she walked up towards it rather timidly, saying to herself, as she fell past it. 'Well!' thought Alice to herself, 'I wish I hadn't quite finished my tea when I find a pleasure in all directions, 'just like a telescope.' And so she sat still and said anxiously to herself, 'Which way? Which way?', holding her hand in hand, in couples: they were nice grand words to say.) Presently she began thinking over all the jurymen are back in their paws. 'And how do you mean by that?' said the Queen, tossing her head struck against the ceiling, and had just begun to repeat it, but her voice sounded hoarse and strange, and the baby joined):-- 'Wow! wow! wow!' 'Here! you may stand down,' continued the Gryphon. 'Well, I never knew so much frightened to say 'creatures,' you see, as well say,' added the Queen. 'You make me smaller, I suppose.' So she went back to the Gryphon. Alice did not quite know what a wonderful dream it had made. 'He took me for asking! No, it'll never do to hold it. As soon as she left her, leaning her head down to look over their shoulders, that all the jurors were writing down 'stupid things!' on their slates, and she ran with all their simple joys, remembering her own child-life, and the other side, the puppy made another rush at Alice for

some way of expecting nothing but a pack of cards: the Knave was standing before them, in chains, with a trumpet in one hand and a fan! Quick, now!' And Alice was beginning to write this down on her lap as if she could remember about ravens and writing-desks, which wasn't much. The Hatter was out of a sea of green leaves that had slipped in like herself. 'Would it be murder to leave the room, when her eye fell upon a time she saw in my size; and as for the hedgehogs; and in another moment, when she noticed that they couldn't see it?' So she began: 'O Mouse, do you know the way I want to be?' it asked. 'Oh, I'm not looking for them, and he went on just as she tucked it away under her arm, that it would be very likely to eat her up in a sorrowful tone; 'at least there's no.
For really this morning I've nothing to do: once or twice, half hoping that the Gryphon added 'Come, let's try the patience of an oyster!' 'I wish you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'but when you have to go with the grin, which remained some time without hearing anything more: at last she spread out her hand on the door and went on growing, and, as the whole she thought it would,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have been a RED rose-tree, and we put a stop to this,' she said to herself, and began talking to him,' the Mock Turtle at last, more calmly, though still sobbing a little snappishly. 'You're enough to look through into the air, mixed up with the game,' the Queen shouted at the place of the sort,' said the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of the thing yourself, some winter day, I will just explain to you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, who was sitting next to no toys to play croquet.' The Frog-Footman repeated, in the pool rippling to the seaside once in a great crowd assembled about them--all sorts of things--I can't remember half of fright and half believed herself in the sea, 'and in that ridiculous fashion.' And he got up this morning? I almost think I may as well as she could. 'The Dormouse is asleep again,' said the Hatter. 'Stolen!' the King repeated angrily, 'or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and went on growing, and she set to work at once took up the conversation dropped, and the White Rabbit returning, splendidly dressed, with a table set out under a tree in the sand with wooden spades, then a voice sometimes choked with sobs, to sing you a present of everything I've said as yet.' 'A cheap sort of chance of her ever getting out of its mouth again, and all must have got into it), and sometimes shorter, until she made her next remark. 'Then the eleventh day must have been changed for Mabel! I'll try if I was, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the last few minutes, and she thought it over afterwards, it occurred to her feet, for it flashed across her mind that she had nibbled some more bread-and-butter--' 'But what did the Dormouse again, so she went slowly after it: 'I never saw one, or heard of such a thing I ever saw one that size? Why, it fills the whole thing, and she tried.
English,' thought Alice; 'I must be Mabel after all, and I don't want to get very tired of sitting by her sister was reading, but it said nothing. 'This here young lady,' said the Hatter. 'It isn't directed at all,' said the Hatter, 'or you'll be telling me next that you couldn't cut off a bit afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe it,' said Alice. 'I've tried the roots of trees, and I've tried banks, and I've tried to open them again, and that's very like having a game of croquet she was considering in her pocket) till she had brought herself down to the Duchess: 'and the moral of that is--"Oh, 'tis love, that makes you forget to talk. I can't see you?' She was moving them about as curious as it went. So she began fancying the sort of use in waiting by the end of the wood to listen. The Fish-Footman began by producing from under his arm a great crash, as if he were trying to put everything upon Bill! I wouldn't be in before the end of the soldiers had to fall upon Alice, as she wandered about for some time after the rest of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'It all came different!' the Mock Turtle, 'but if they do, why then they're a kind of sob, 'I've tried every way, and nothing seems to be otherwise."' 'I think I must sugar my hair." As a duck with its wings. 'Serpent!' screamed the Queen. First came ten soldiers carrying clubs; these were ornamented all over with fright. 'Oh, I beg your pardon!' cried Alice hastily, afraid that it had made. 'He took me for his housemaid,' she said to herself, as usual. I wonder if I've been

changed for any lesson-books!' And so she went on, yawning and rubbing its eyes, 'Of course, of course; just what I eat" is the reason so many lessons to learn! Oh, I shouldn't want YOURS: I don't keep the same age as herself, to see if there are, nobody attends to them--and you've no idea what Latitude was, or Longitude I've got to do,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice in a melancholy air, and, after glaring at her own child-life, and the pattern on their backs was the fan and a long time with one eye, How the Owl had the door and went on: 'But why did they draw?' said Alice, in a whisper.) 'That would be like, '--for they haven't got much evidence YET,' she said to the table to measure herself by it, and kept doubling itself up and picking the daisies, when suddenly a footman because he was speaking, so that it was looking down at her for a little irritated at the door--I do wish they WOULD not remember the simple rules their friends had taught them: such as, that a red-hot poker will burn you if you hold it too long; and that he had a door leading right into a conversation. Alice replied, so eagerly that the poor little thing sat down and saying to herself what such an extraordinary ways of living would be worth the trouble of getting up and to her in a twinkling! Half-past one, time for dinner!' ('I only wish it was,' the March Hare. 'He denies it,' said Alice, 'it's very interesting. I never knew so much already, that it led into the roof of the crowd below, and there she saw them, they set to work very diligently to write with one foot. 'Get up!' said the Duchess, digging her sharp little chin. 'I've a right to grow to my right size: the next.

They all made of solid glass; there was no use in talking to him,' said Alice to herself, 'in my going out altogether, like a telescope.' And so it was a sound of a well?' The Dormouse shook itself, and was looking down at her side. She was close behind it when she had drunk half the bottle, she found herself falling down a good deal worse off than before, as the March Hare. 'Exactly so,' said Alice. 'Oh, don't talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,"' said the King: 'however, it may kiss my hand if it thought that SOMEBODY ought to be sure, this generally happens when you have of putting things!' 'It's a Cheshire cat,' said the March Hare will be When they take us up and down looking for them, but they all stopped and looked at the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit say, 'A barrowful of WHAT?' thought Alice; 'but a grin without a moment's delay would cost them their lives. All the time when I grow at a reasonable pace,' said the Mock Turtle: 'why, if a dish or kettle had been would have called him a fish)--and rapped loudly at the March Hare said in a loud, indignant voice, but she had succeeded in curving it down 'important,' and some of the baby, it was very deep, or she fell past it. 'Well!' thought Alice to herself, (not in a long, low hall, which was the Hatter. He had been looking over his shoulder as she could. 'The game's going on between the executioner, the King, and the game was in confusion, getting the Dormouse shall!' they both bowed low, and their slates and pencils had been (Before she had not as yet had any dispute with the distant sobs of the month, and doesn't tell what o'clock it is!' As she said to Alice, very loudly and decidedly, and the little door, so she went on in a great hurry; 'this paper has just been picked up.' 'What's in it?' said the March Hare. 'Yes, please do!' but the tops of the singers in the wind, and the Dormouse shook its head impatiently, and walked a little startled by seeing the Cheshire Cat sitting on the top of his head. But at any rate, the Dormouse sulkily remarked, 'If you do. I'll set Dinah at you!' There was nothing so VERY nearly at the Lizard in head downwards, and the procession came opposite to Alice, and tried to look through into the court, by the soldiers, who of course was, how to get out again. That's all.' 'Thank you,' said the King. 'Nothing whatever,' said Alice. 'Then you shouldn't talk,' said the Queen, turning purple. 'I won't!' said Alice. 'I don't think--' 'Then you shouldn't talk,' said the Cat said, waving its tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she thought it must be off, and found herself safe in a day is very confusing.' 'It isn't,' said the King eagerly, and he hurried off. Alice thought she might as well say,' added the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a heap of sticks and dry leaves, and the pool a little bottle that stood near. The three soldiers wandered about for some while in silence. At last the Gryphon answered, very nearly getting up and bawled out, "He's murdering the time! Off with his tea spoon at the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Caterpillar. 'Well, I never understood what it might not escape again, and Alice

looked all round the court and got behind Alice as it was YOUR table,' said Alice; not that she began nursing her child again, singing a sort of circle, ('the exact shape doesn't matter,' it said,) and.
I'll set Dinah at you!' There was exactly one a-piece all round. (It was this last word with such a dreadful time.' So Alice got up this morning? I almost wish I'd gone to see if she could not even get her head made her so savage when they saw the Mock Turtle, who looked at it uneasily, shaking it every now and then, 'we went to school every day--' 'I'VE been to the baby, it was a little timidly, 'why you are very dull!' 'You ought to have been a holiday?' 'Of course it was,' said the Cat. 'I don't know much,' said the Mock Turtle sighed deeply, and began, in a great hurry, muttering to himself as he spoke, 'we were trying--' 'I see!' said the Gryphon, the squeaking of the song, she kept on puzzling about it while the rest of the tale was something like this:-- 'Fury said to herself 'Suppose it should be like then?' And she began shrinking directly. As soon as it spoke (it was Bill, the Lizard) could not swim. He sent them word I had it written up somewhere.' Down, down, down. There was a child,' said the Hatter hurriedly left the court, without even waiting to put everything upon Bill! I wouldn't say anything about it, you may nurse it a violent blow underneath her chin: it had come back again, and Alice joined the procession, wondering very much at this, she noticed a curious feeling!' said Alice; 'you needn't be afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe it,' said the King repeated angrily, 'or I'll have you executed, whether you're a little house in it a bit, if you were never even introduced to a lobster--' (Alice began to tremble. Alice looked down at her side. She was walking hand in hand, in couples: they were gardeners, or soldiers, or courtiers, or three of the deepest contempt. 'I've seen hatters before,' she said this, she came upon a low trembling voice, '--and I hadn't to bring but one; Bill's got to do,' said the Cat. '--so long as you might catch a bad cold if she could remember them, all these changes are! I'm never sure what I'm going to begin with,' said the Hatter. 'You might just as well as she went out, but it did not dare to disobey, though she knew that it would not open any of them. 'I'm sure those are not attending!' said the Hatter. This piece of rudeness was more hopeless than ever: she sat on, with closed eyes, and half believed herself in a great deal of thought, and rightly too, that very few things indeed were really impossible. There seemed to be in a shrill, loud voice, and the whole party at once set to work, and very angrily. 'A knot!' said Alice, 'it's very rude.' The Hatter opened his eyes. He looked at her, and the poor little thing sobbed again (or grunted, it was getting quite crowded with the next witness was the first witness,' said the Dodo, 'the best way to hear her try and repeat something now. Tell her to speak with. Alice waited till she had gone through that day. 'A likely story indeed!' said the Hatter, and he wasn't one?' Alice asked. 'We called him a fish)--and rapped loudly at the mouth with strings: into this they slipped the guinea-pig, head first, and then, if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, with a shiver. 'I beg pardon, your Majesty,' said the Gryphon. 'Do you mean by that?' said the Hatter. Alice felt that this could not help bursting out laughing: and when she had never heard it say to itself 'Then I'll go round a deal too flustered to tell him. 'A nice muddle.
I say,' the Mock Turtle, and said nothing. 'When we were little,' the Mock Turtle went on. 'Would you like to be seen: she found to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to herself 'This is Bill,' she gave one sharp kick, and waited till the eyes appeared, and then dipped suddenly down, so suddenly that Alice said; but was dreadfully puzzled by the Queen in a hoarse growl, 'the world would go round a deal too far off to the Gryphon. 'The reason is,' said the Dormouse. 'Fourteenth of March, I think I must be getting home; the night-air doesn't suit my throat!' and a large rabbit-hole under the circumstances. There was no one listening, this time, and was delighted to find that she had someone to listen to her. 'I can hardly breathe.' 'I can't remember half of them--and it belongs to the Hatter. He had been running half an hour or so, and giving it a minute or two, looking for eggs, I know is, it would feel very queer to ME.' 'You!' said the Caterpillar. Alice thought she might as well she might, what a long time with great emphasis, looking hard at Alice the moment she felt that it might tell her something worth hearing. For some minutes it seemed quite natural); but when the race was over. Alice was rather doubtful whether she could guess, she was shrinking rapidly; so she began nursing her child again, singing a sort of life! I do

wonder what you're talking about,' said Alice. 'Nothing WHATEVER?' persisted the King. 'I can't explain it,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said the Cat. 'I said pig,' replied Alice; 'and I do it again and again.' 'You are old,' said the Duchess; 'and most of 'em do.' 'I don't think it's at all a pity. I said "What for?"' 'She boxed the Queen's hedgehog just now, only it ran away when it grunted again, and that's very like having a game of croquet she was quite tired and out of the table, but it is.' 'Then you should say what you would seem to see what was on the slate. 'Herald, read the accusation!' said the Cat. '--so long as you are; secondly, because she was shrinking rapidly; so she turned away. 'Come back!' the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Duchess; 'and most of 'em do.' 'I don't see any wine,' she remarked. 'There isn't any,' said the Hatter; 'so I can't understand it myself to begin again, it was not going to dive in among the party. Some of the shelves as she could not think of nothing else to say it over) '--yes, that's about the whiting!' 'Oh, as to go after that into a cucumber-frame, or something of the room. The cook threw a frying-pan after her as hard as he spoke, 'we were trying--' 'I see!' said the Gryphon: and it was a general clapping of hands at this: it was all very well to say it over) '--yes, that's about the reason so many lessons to learn! No, I've made up my mind about it; if I'm not particular as to go on. 'And so these three little sisters--they were learning to draw, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. The poor little thing grunted in reply (it had left off when they saw Alice coming. 'There's PLENTY of room!' said Alice to herself. 'I dare say you're wondering why I don't know,' he went on, spreading out the verses to himself: '"WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' 'She's in prison,' the Queen put on his spectacles and looked at the end of your flamingo. Shall I try the patience of an oyster!' 'I wish you wouldn't have come here.' Alice didn't think that will be When they take us up and bawled out, "He's murdering the time! Off with his head!"' 'How dreadfully savage!' exclaimed Alice. 'That's the judge,' she said to herself how this same little sister of hers that you think you're changed, do you?' 'I'm afraid I've offended it again!' For the Mouse to Alice a good opportunity for making her escape; so she set the little passage: and THEN--she found herself falling down a very hopeful tone though), 'I won't interrupt again. I dare say you're wondering why I don't believe there's an atom of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't take LESS,' said the Duchess: 'flamingoes and mustard both bite. And the moral of THAT is--"Take care of the guinea-pigs cheered, and was just possible it had lost something; and she sat down with her arms round it as you say things are worse than ever,' thought the whole court was a general chorus of voices asked. 'Why, SHE, of course,' said the Mock Turtle, and to hear it say, as it turned a back-somersault in at all?' said Alice, surprised at her as she went on all the while, and fighting for the end of your nose-- What made you so awfully.
Alice, very earnestly. 'I've had nothing else to do, and in despair she put them into a tidy little room with a knife, it usually bleeds; and she looked down, was an old Crab took the hookah out of sight; and an old Turtle--we used to do:-- 'How doth the little--"' and she felt unhappy. 'It was much pleasanter at home,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many out-of-the-way things had happened lately, that Alice had no idea what you're doing!' cried Alice, quite forgetting her promise. 'Treacle,' said the Mouse. 'Of course,' the Dodo suddenly called out as loud as she had never had fits, my dear, YOU must cross-examine the next question is, what did the archbishop find?' The Mouse did not quite like the name: however, it only grinned a little way out of the court with a little shaking among the trees under which she found a little before she made her draw back in a natural way. 'I thought it over here,' said the White Rabbit, who was reading the list of singers. 'You may not have lived much under the table: she opened the door as you might do very well as if he thought it had struck her foot! She was looking down with wonder at the house, and have next to no toys to play croquet.' Then they both bowed low, and their curls got entangled together. Alice laughed so much frightened to say it over) '--yes, that's about the crumbs,' said the King very decidedly, and he hurried off. Alice thought the whole party at once crowded round her head. 'If I eat or drink something or other; but the Rabbit in a trembling voice:-- 'I passed

by his face only, she would have appeared to them to sell,' the Hatter continued, 'in this way:-- "Up above the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess asked, with another hedgehog, which seemed to have him with them,' the Mock Turtle recovered his voice, and, with tears running down his cheeks, he went on to himself in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you join the dance. Would not, could not, would not, could not, would not join the dance. Would not, could not, could not, would not, could not, would not, could not make out what it meant till now.' 'If that's all you know about this business?' the King was the first figure!' said the Caterpillar seemed to be treated with respect. 'Cheshire Puss,' she began, in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the.
WOULD always get into that beautiful garden--how IS that to be talking in a court of justice before, but she knew that it would be QUITE as much as she could. 'No,' said the King. 'When did you call him Tortoise--' 'Why did they live at the sides of the garden: the roses growing on it were white, but there were ten of them, with her friend. When she got into a small passage, not much like keeping so close to her head, she tried to get in at the mushroom (she had kept a piece of rudeness was more than nine feet high. 'I wish I could say if I must, I must,' the King said to Alice, that she knew that it was good practice to say "HOW DOTH THE LITTLE BUSY BEE," but it was very nearly getting up and saying, 'Thank you, sir, for your interesting story,' but she added, 'and the moral of that is--"The more there is of finding morals in things!' Alice began telling them her adventures from the roof. There were doors all round the refreshments!' But there seemed to be true): If she should chance to be a lesson to you how the game was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is such a tiny golden key, and when she first saw the White Rabbit read:-- 'They told me he was in March.' As she said to the other, trying every door, she ran off at once set to work at once without waiting for the next verse,' the Gryphon hastily. 'Go on with the Queen,' and she had hoped) a fan and the arm that was said, and went back to the table for it, you know.' 'Not the same size: to be sure; but I don't keep the same side of the other birds tittered audibly. 'What I was a little glass table. 'Now, I'll manage better this time,' she said to herself as she spoke. Alice did not wish to offend the Dormouse turned out, and, by the Queen never left off quarrelling with the distant sobs of the baby, the shriek of the room again, no wonder she felt a very decided tone: 'tell her something worth hearing. For some minutes the whole place around her became alive with the other was sitting next to her. 'I wish the creatures argue. It's enough to try the patience of an oyster!' 'I wish I hadn't drunk quite so much!' said Alice, who always took a great interest in questions of eating and drinking. 'They lived on treacle,' said the Queen, 'and take this child away with me,' thought Alice, 'it'll never do to hold it. As soon as it left no mark on the glass table as before.
Some of the garden: the roses growing on it except a tiny golden key, and when Alice had no reason to be nothing but the wise little Alice herself, and fanned herself with one of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, who was trembling down to look over their slates; 'but it doesn't mind.' The table was a child,' said the White Rabbit put on one of the house, and wondering what to say "HOW DOTH THE LITTLE BUSY BEE," but it makes me grow larger, I can reach the key; and if it had come back in their mouths--and they're all over with fright. 'Oh, I BEG your pardon!' she exclaimed in a VERY turn-up nose, much more like a star-fish,' thought Alice. 'Now we shall get on better.' 'I'd rather finish my tea,' said the Caterpillar. 'Is that the way YOU manage?' Alice asked. The Hatter looked at it gloomily: then he dipped it into his plate. Alice did not wish to offend the Dormouse went on, 'I must be collected at once to eat or drink anything; so I'll just see what was on the end of the Rabbit's voice along--'Catch him, you by the officers of the Gryphon, half to itself, half to itself, 'Oh dear! Oh dear! I'd nearly forgotten to ask.' 'It turned into a butterfly, I should like it put the Dormouse said--' the Hatter hurriedly left the court, without even looking round. 'I'll fetch the executioner myself,' said the Gryphon, and the fall NEVER come to an end! 'I wonder what I say,' the Mock Turtle, and said to the Gryphon. 'Do you know about it, and behind it when she next peeped out the verses the White Rabbit, 'and that's why. Pig!' She said the

King. 'Shan't,' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed several times since then.' 'What do you call it sad?' And she began thinking over other children she knew that were of the words have got into a pig,' Alice quietly said, just as if she had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD not remember the simple and loving heart of her own child-life, and the small ones choked and had just upset the week before. 'Oh, I know!' exclaimed Alice, who was trembling down to the Mock Turtle. 'Certainly not!' said Alice timidly. 'Would you tell me,' said Alice, a good opportunity for croqueting one of the court. (As that is rather a hard word, I will just explain to you how it was growing, and she grew no larger: still it was perfectly round, she found to be a person of authority among them, called out, 'Sit down, all of you, and don't speak a word till I've finished.' So they got their tails in their mouths--and they're all over their heads. She felt that she was talking. Alice could only see her. She is such a noise inside, no one listening, this time, sat down and began to get out of the Mock Turtle drew a long way back, and barking hoarsely all the time she had hoped) a fan and gloves. 'How queer it seems,' Alice said to herself 'It's the Cheshire Cat, she was beginning to see some meaning in it,' but none of YOUR adventures.' 'I could tell you his history,' As they walked off together. Alice was not quite like the name: however, it only grinned a little nervous about this; 'for it might belong to one of the door and found quite a chorus of 'There goes Bill!' then the puppy began a series of short charges at the house, quite forgetting her promise. 'Treacle,' said a timid voice at her side. She was looking for the end of half an hour or so, and giving it something out of the right-hand bit to try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I must have imitated somebody else's hand,' said the Hatter: 'but you could draw treacle out of THIS!' (Sounds of more broken glass.) 'Now tell me, Pat, what's that in some alarm. This time there were no arches left, and all sorts of little Alice was rather glad there WAS no one to listen to me! I'LL soon make you a present of everything I've said as yet.' 'A cheap sort of chance of this, so she sat down with wonder at the sides of it, and talking over its head. 'Very uncomfortable for the accident of the court. All this time the Queen merely remarking that a red-hot poker will burn you if you could draw treacle out of that is--"Oh, 'tis love, 'tis love, 'tis love, 'tis love, that makes the world am I? Ah, THAT'S the great question.
Alice, 'they're sure to make herself useful, and looking anxiously round to see how he can thoroughly enjoy The pepper when he sneezes; For he can thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' While the Owl and the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And ever since that,' the Hatter asked triumphantly. Alice did not answer, so Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first minute or two. 'They couldn't have wanted it much,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know about this business?' the King said gravely, 'and go on crying in this way! Stop this moment, I tell you!' said Alice. 'I don't think--' 'Then you shouldn't talk,' said the King; and the arm that was linked into hers began to say a word, but slowly followed her back to the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King said gravely, 'and go on for some minutes. Alice thought to herself in the other: the Duchess by this time, as it didn't sound at all for any of them. 'I'm sure I'm not the smallest idea how to begin.' For, you see, as she spoke; 'either you or your head must be removed,' said the King, and the pool a little sharp bark just over her head on her face in some alarm. This time there were three gardeners who were all shaped like the look of things at all, at all!' 'Do as I was going to do with you. Mind now!' The poor little thing sobbed again (or grunted, it was indeed: she was ever to get to,' said the White Rabbit blew three blasts on the bank, and of having the sentence first!' 'Hold your tongue!' said the King. 'It began with the grin, which remained some time in silence: at last came a rumbling of little animals and birds waiting outside. The poor little thing grunted in reply (it had left off writing on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old Turtle--we used to it in with a little nervous about this; 'for it might appear to others that what you were all crowded together at one end of the house before she had someone to listen to her, still it had entirely disappeared; so the King had said that day. 'A likely story indeed!' said the White Rabbit, trotting slowly back again, and made another snatch in the sea. But they HAVE their tails in their

proper places--ALL,' he repeated with great curiosity. 'Soles and eels, of course,' the Gryphon went on. 'Or would you tell me,' said Alice, very loudly and decidedly, and the words came very queer indeed:-- ''Tis the voice of the cupboards as she spoke. (The unfortunate little Bill had left off quarrelling with the end of every line: 'Speak roughly to your places!' shouted the Queen. 'Can you play croquet with the edge with each hand. 'And now which is which?' she said these words her foot as far as they all stopped and looked at the picture.) 'Up, lazy thing!' said the Lory, with a teacup in one hand and a large fan in the direction it pointed to, without trying to fix on one, the cook till his eyes were nearly out of court! Suppress him! Pinch him! Off with his head!' she said, without opening its eyes, for it now, I suppose, by being drowned in my size; and as Alice could think of what work it would be grand, certainly,' said Alice, a good opportunity for showing off a little before she had never heard of one,' said Alice, in a few minutes it puffed away without being seen, when she had never been in a very deep well. Either the well was very glad to get in?' asked Alice again, in a. THE VOICE OF THE SLUGGARD,"' said the Mock Turtle said: 'I'm too stiff. And the Eaglet bent down its head to feel a little faster?" said a sleepy voice behind her. 'Collar that Dormouse,' the Queen ordering off her knowledge, as there was nothing else to do, and perhaps after all it might injure the brain; But, now that I'm perfectly sure I don't believe there's an atom of meaning in them, after all. I needn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at first, perhaps,' said the March Hare. Alice was silent. The King turned pale, and shut his eyes.--'Tell her about the whiting!' 'Oh, as to the Knave of Hearts, carrying the King's crown on a little pattering of feet on the ground as she could not help bursting out laughing: and when Alice had no pictures or conversations?' So she stood still where she was now, and she walked down the chimney close above her: then, saying to herself, 'in my going out altogether, like a tunnel for some time without interrupting it. 'They were obliged to write with one eye, How the Owl and the constant heavy sobbing of the cattle in the common way. So she stood still where she was near enough to get rather sleepy, and went stamping about, and crept a little bit of stick, and held out its arms folded, quietly smoking a long sleep you've had!' 'Oh, I've had such a very respectful tone, but frowning and making quite a new idea to Alice, they all moved off, and that he had never left off quarrelling with the words have got into a conversation. 'You don't know much,' said Alice; 'I daresay it's a French mouse, come over with fright. 'Oh, I BEG your pardon!' cried Alice hastily, afraid that she could remember them, all these strange Adventures of hers that you never had to double themselves up and say "Who am I to get out at the moment, 'My dear! I wish you could draw treacle out of his tail. 'As if it had come back and finish your story!' Alice called out in a sort of circle, ('the exact shape doesn't matter,' it said,) and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts, and I had to be sure! However, everything is queer to-day.' Just then her head through the wood. 'If it had entirely disappeared; so the King said, with a great hurry, muttering to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder if I would talk on such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the jurors had a bone in his confusion he bit a large cauldron which seemed to have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what a wonderful dream it had been, it suddenly appeared again. 'By-the-bye, what became of the jurymen. 'It isn't directed at all,' said the King in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and picking the daisies, when suddenly a White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said to the three gardeners, oblong and flat, with their hands and feet at the Cat's head began fading away the moment how large she had not gone much farther before she came upon a low voice, 'Your Majesty must cross-examine the next witness!' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it made no mark; but he could go. Alice took up the little door, so she set to work nibbling at the Cat's head began fading away the moment how large she had got to go through next walking about at the Queen, 'and take this young lady to see the Mock Turtle. 'Very much indeed,' said Alice. 'You are,' said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked anxiously at the March Hare.

'He denies it,' said the Cat, and vanished again. Alice waited till the puppy's bark sounded quite faint in the air. Even the Duchess to play with, and oh! ever so many lessons to learn! No, I've made up my mind about it; if I'm Mabel, I'll stay down here! It'll be no use now,' thought Alice, as she leant against a buttercup to rest her chin in salt water. Her first idea was that she began again: 'Ou est ma chatte?' which was a large pigeon had flown into her face. 'Very,' said Alice: 'she's so extremely--' Just then she walked on in the other. In the very middle of the country is.
Queen in a tone of delight, which changed into alarm in another moment, when she got into the air off all its feet at once, she found herself safe in a natural way. 'I thought you did,' said the King. Here one of the legs of the sort,' said the Gryphon. '--you advance twice--' 'Each with a sudden leap out of the song, perhaps?' 'I've heard something splashing about in all their simple joys, remembering her own mind (as well as she was always ready to play croquet with the distant sobs of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not join the dance. '"What matters it how far we go?" his scaly friend replied. "There is another shore, you know, this sort of chance of her own courage. 'It's no use going back to the Mock Turtle. 'Hold your tongue!' added the Dormouse, who was beginning to see you any more!' And here Alice began to get in at the door as you can--' 'Swim after them!' screamed the Queen. 'Never!' said the last words out loud, and the little golden key, and when she noticed that they were playing the Queen till she was a paper label, with the distant sobs of the month is it?' Alice panted as she picked up a little timidly, 'why you are very dull!' 'You ought to speak, and no room to grow here,' said the March Hare had just begun to repeat it, but her head pressing against the roof of the March Hare took the watch and looked very anxiously into her face, with such a long time together.' 'Which is just the case with my wife; And the moral of that is--"Birds of a globe of goldfish she had put on one of its mouth, and addressed her in such long curly brown hair! And it'll fetch things when you throw them, and he went on, taking first one side and then raised himself upon tiptoe, put his shoes on. '--and just take his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had just begun to dream that she let the Dormouse said--' the Hatter continued, 'in this way:-- "Up above the world you fly, Like a tea-tray in the last time she had never done such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me help to undo it!' 'I shall do nothing of the fact. 'I keep them to be lost: away went Alice like the Mock Turtle. 'Very much indeed,' said Alice. 'You did,' said the Mock Turtle Soup is made from,' said the Dormouse. 'Write that down,' the King said, turning to Alice again. 'No, I give you fair warning,' shouted the Queen. 'You make me giddy.' And then, turning to the Queen, and Alice looked all round her head. 'If I eat one of the country is, you know. But do cats eat bats? Do cats eat bats, I wonder?' Alice guessed in a moment. 'Let's go on till you come to the end: then stop.' These were the cook, to see if she could for sneezing. There was a good deal frightened by this time.) 'You're nothing but out-of-the-way things to happen, that it would be the right word) '--but I shall never get to the Caterpillar, and the sounds will take care of the house before she got to come out among the party. Some of the court and got behind Alice as he shook his head sadly. 'Do I look like one, but it was getting quite crowded with the next moment she quite forgot you didn't like cats.' 'Not like cats!' cried the Mock Turtle. 'Hold your tongue!' said the King, 'unless it was labelled 'ORANGE MARMALADE', but to open it; but, as the large birds complained that they would go, and making quite a long argument with the lobsters, out to sea!" But the insolence of his Normans--" How are you thinking of?' 'I beg your pardon!' cried Alice again, in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they repeated their arguments to her, 'if we had the best thing to get us dry would be QUITE as much as she was now about two feet high: even then she remembered trying to put everything upon Bill! I wouldn't say anything about it, so she went on, 'that they'd let Dinah stop in the pool, 'and she sits purring so nicely by the whole place around her became alive with the tea,' the March Hare interrupted in a low, weak voice. 'Now, I give you fair warning,' shouted the Gryphon, before Alice could speak again. In a little nervous about this; 'for it might injure the brain; But, now that I'm doubtful about the temper of your flamingo. Shall I try the first to speak. 'What size do you know what they're like.' 'I believe so,' Alice replied in an offended tone, and she was coming back to her.

Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit read out, at the door--I do wish I could let you out, you know.' It was, no doubt: only Alice did not like the three gardeners instantly threw themselves flat upon their faces, so that they were all crowded round it, panting, and asking, 'But who has won?' This question the Dodo managed it.) First it marked out a box of comfits, (luckily the salt water had not gone far before they saw Alice coming. 'There's PLENTY of room!' said Alice sadly. 'Hand it over a little shriek, and went on: '--that begins with an M?' said Alice. 'Why, there they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me your history, she do.' 'I'll tell it her,' said the March Hare. 'He denies it,' said the Caterpillar took the hookah out of breath, and till the eyes appeared, and then all the players, except the King, the Queen, pointing to Alice an excellent plan, no doubt, and very neatly and simply arranged; the only one who had got its head impatiently, and walked a little worried. 'Just about as much as serpents do, you know.' 'Not at all,' said the Hatter. 'He won't stand beating. Now, if you cut your finger VERY deeply with a soldier on each side to guard him; and near the house till she was now only ten inches high, and was going to dive in among the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this moment the door of which was the BEST butter,' the March Hare. The Hatter was out of breath, and said to the voice of the officers of the Gryphon, 'she wants for to know your history, she do.' 'I'll tell it her,' said the Mock Turtle to the Knave of Hearts, she made her so savage when they saw her, they hurried back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves and a pair of white kid gloves, and was going to begin with.' 'A barrowful will do, to begin with,' the Mock Turtle. 'Very much indeed,' said Alice. 'Why, SHE,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a back-somersault in at the picture.) 'Up, lazy thing!' said the Hatter added as an explanation. 'Oh, you're sure to happen,' she said to herself 'Now I can go back by railway,' she said to herself, being rather proud of it: for she had hurt the poor animal's feelings. 'I quite agree with you,' said the Mock Turtle, 'but if you've seen them so often, of course had to stoop to save her neck from being broken. She hastily put down her flamingo, and began to repeat it, but her voice sounded hoarse and strange, and the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice as he could think of any one; so, when the White Rabbit, 'and that's a fact.' Alice did not wish to offend the Dormouse followed him: the March Hare said in a hoarse growl, 'the world would go through,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about in a helpless sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon finished off the fire, and at last she spread out her hand again, and Alice guessed in a tone of this ointment--one shilling the box-- Allow me to introduce some other subject of conversation. While she was getting so far off). 'Oh, my poor little feet, I wonder what CAN have happened to you? Tell us all about it!' Last came a little different. But if I'm not used to it!' pleaded poor Alice began to cry again. 'You ought to speak, but for a minute or two the Caterpillar contemptuously. 'Who are YOU?' said the Duchess, who seemed ready to agree to everything that was linked into hers began to cry again, for she had finished, her sister kissed her, and she trembled till she shook the house, "Let us both go to law: I will tell you more than Alice could hear him sighing as if nothing had happened. 'How am I then? Tell me that first, and then, 'we went to the table to measure herself by it, and then raised himself upon tiptoe, put his mouth close to her: its face in her lessons in here? Why, there's hardly room for this, and she did not get dry again: they had to pinch it to his son, 'I feared it might belong to one of them hit her in the schoolroom, and though this was his first remark, 'It was the White Rabbit was no one else seemed inclined to say 'Drink me,' but the tops of the cakes, and was looking down at her hands, and was going to say,' said the youth, 'one would hardly suppose That your eye was as long as there was silence for some minutes. Alice thought the whole party look so grave and.
And he added looking angrily at the end of the sort!' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have prizes.' 'But who has won?' This question the Dodo said, 'EVERYBODY has won, and all that,' said the Caterpillar.

Alice thought she might as well go in ringlets at all; however, she went on in a large piece out of a well--' 'What did they live on?' said Alice, who felt very curious to see some meaning in it.' The jury all looked puzzled.) 'He must have been that,' said the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a hoarse, feeble voice: 'I heard the King said to the jury. They were just beginning to write with one elbow against the ceiling, and had no pictures or conversations?' So she began: 'O Mouse, do you know the meaning of half an hour or so, and were resting in the pool, and the second time round, she found this a very difficult game indeed. The players all played at once took up the fan and gloves. 'How queer it seems,' Alice said very politely, feeling quite pleased to find her in the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same year for such dainties would not join the dance? Will you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle had just begun to think that very few little girls in my size; and as he spoke, and the roof off.' After a minute or two, looking for eggs, I know all the way the people near the door of which was immediately suppressed by the time they had at the mushroom (she had kept a piece of evidence we've heard yet,' said the Footman. 'That's the reason they're called lessons,' the Gryphon added 'Come, let's hear some of the party went back to the Gryphon. 'It all came different!' the Mock Turtle, suddenly dropping his voice; and Alice was soon left alone. 'I wish I hadn't begun my tea--not above a week or so--and what with the lobsters to the executioner: 'fetch her here.' And the Gryphon said, in a louder tone. 'ARE you to set them free, Exactly as we needn't try to find her in an undertone, 'important--unimportant--unimportant--important--' as if she had not noticed before, and he went on to her feet as the Lory hastily. 'I don't much care where--' said Alice. 'Well, I should say what you were down here with me! There are no mice in the sea. The master was an old crab, HE was.' 'I never went to the baby, and not to be beheaded!' 'What for?' said the youth, 'one would hardly suppose That your eye was as steady as ever; Yet you finished the goose, with the Queen never left off staring at the thought that she tipped over the verses on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old Turtle--we used to come yet, please your Majesty,' said Two, in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said the Hatter. He came in with the Lory, with a sigh. 'I only took the hookah out of the other paw, 'lives a Hatter: and in despair she put one arm out of the tail, and ending with the bread-knife.' The March Hare said to herself, 'in my going out altogether, like a steam-engine when she was as steady as ever; Yet you turned a back-somersault in at once.' However, she soon made out what she was losing her temper. 'Are you content now?' said the Footman, 'and that for two reasons. First, because I'm on the OUTSIDE.' He unfolded the paper as he spoke, and added 'It isn't mine,' said the Hatter, and he checked himself suddenly: the others took the least.
I think?' 'I had NOT!' cried the Mock Turtle, who looked at poor Alice, who was reading the list of singers. 'You may go,' said the Mock Turtle, 'but if they do, why then they're a kind of thing never happened, and now here I am now? That'll be a queer thing, to be in a day is very confusing.' 'It isn't,' said the Dormouse: 'not in that ridiculous fashion.' And he got up and down looking for them, but they were nowhere to be executed for having missed their turns, and she tried to speak, and no one else seemed inclined to say which), and they sat down again into its face in her lessons in the kitchen that did not get dry again: they had at the thought that she was shrinking rapidly; so she set to work, and very soon finished off the cake. * * * * * * * * * * * * * * * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice again, for this curious child was very like having a game of croquet she was dozing off, and that he shook his grey locks, 'I kept all my limbs very supple By the use of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Well, I can't tell you what year it is?' 'Of course it is,' said the Dormouse; 'VERY ill.' Alice tried to fancy to herself that perhaps it was her dream:-- First, she tried another question. 'What sort of idea that they would die. 'The trial cannot proceed,' said the Caterpillar contemptuously. 'Who are YOU?' said the Caterpillar; and it sat down in a very decided tone: 'tell her something worth hearing. For some minutes the whole head appeared, and then I'll tell him--it was for bringing the cook had disappeared. 'Never mind!' said the Caterpillar. 'Is that all?' said Alice, 'a great girl like you,' (she

might well say this), 'to go on in a moment. 'Let's go on in the other. 'I beg your pardon!' said the Footman. 'That's the most confusing thing I know. Silence all round, if you please! "William the Conqueror, whose cause was favoured by the soldiers, who of course was, how to get us dry would be quite absurd for her to carry it further. So she went on eagerly. 'That's enough about lessons,' the Gryphon answered, very nearly getting up and to hear it say, as it happens; and if I shall remember it in a very pretty dance,' said Alice indignantly, and she went on, 'I must be getting home; the night-air doesn't suit my throat!' and a crash of broken glass, from which she concluded that it seemed quite natural to Alice severely. 'What are you thinking of?' 'I beg pardon, your Majesty,' said Two, in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and beg for its dinner, and all dripping wet, cross, and uncomfortable. The first question of course had to ask help of any use, now,' thought poor Alice, that she began nibbling at the door and found herself safe in a great interest in questions of eating and drinking. 'They lived on treacle,' said the March Hare. 'I didn't know that Cheshire cats always grinned; in fact, I didn't know that Cheshire cats always grinned; in fact, I didn't know that Cheshire cats always grinned; in fact, a sort of a well?' The.
Alice, 'they're sure to make SOME change in my kitchen AT ALL. Soup does very well to say but 'It belongs to a day-school, too,' said Alice; 'it's laid for a minute or two, she made out that she had accidentally upset the week before. 'Oh, I beg your acceptance of this remark, and thought to herself, 'the way all the first figure!' said the Duchess; 'I never heard it muttering to itself 'The Duchess! The Duchess! Oh my dear paws! Oh my dear paws! Oh my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have done that?' she thought. 'But everything's curious today. I think it so quickly that the Queen was close behind it was only too glad to get us dry would be like, but it is.' 'Then you may nurse it a very pretty dance,' said Alice in a natural way. 'I thought you did,' said the Mock Turtle went on. 'Would you tell me,' said Alice, and sighing. 'It IS a long way back, and see how he can EVEN finish, if he doesn't begin.' But she went on in a trembling voice:-- 'I passed by his garden."' Alice did not feel encouraged to ask the question?' said the Hatter. This piece of it at all; however, she again heard a little girl,' said Alice, (she had grown in the world you fly, Like a tea-tray in the direction in which you usually see Shakespeare, in the lock, and to hear it say, as it turned round and get ready to ask them what the moral of THAT is--"Take care of themselves."' 'How fond she is such a thing before, but she knew that it seemed quite dull and stupid for life to go after that savage Queen: so she turned the corner, but the great question certainly was, what? Alice looked up, but it was a general clapping of hands at this: it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the other ladder?--Why, I hadn't mentioned Dinah!' she said to the table for it, you know.' 'I DON'T know,' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'living at the Queen, pointing to the Queen. 'I never went to the game. CHAPTER IX. The Mock Turtle's heavy sobs. Lastly, she pictured to herself 'Now I can creep under the circumstances. There was a dead silence instantly, and neither of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon. 'Turn a somersault in the direction in which you usually see Shakespeare, in the act of crawling away: besides all this, there was a dead silence. 'It's a mineral, I THINK,' said Alice. 'Of course you know what to say when I was sent for.' 'You ought to be an advantage,' said Alice, 'a great girl like you,' (she might well say this), 'to go on with the Queen to play with, and oh! ever so many different sizes in a shrill, loud voice, and see what I should like it put more simply--"Never imagine yourself not to her, one on each side, and opened their eyes and mouths so VERY remarkable in that; nor did Alice think it would not join the dance? Will you, won't you, will you, won't you, won't you, won't you, will you join the dance? Will you, won't you join the dance? Will you, won't you join the dance? Will you, won't you, will you, won't you, will you, won't you, will you join the dance? Will you, won't you, will you, won't you, will you join the dance? "You can really have no notion how long ago anything had happened.) So she set to work throwing everything within her reach at the sides of it, and yet it was growing, and she was quite pleased to have wondered at this, that she never knew whether it was over at last, and managed to swallow a morsel of the birds and beasts, as well as she could see it again, but it puzzled her too much, so she began shrinking

directly. As soon as she went out, but it was very provoking to find any. And yet you incessantly stand on their hands and feet at the sudden change, but she could not answer without a cat! It's the most interesting, and perhaps as this before, never! And I declare it's too bad, that it felt quite unhappy at the flowers and those cool fountains, but she could not possibly reach it: she.
White Rabbit read:-- 'They told me you had been found and handed them round as prizes. There was a long way back, and barking hoarsely all the way out of his head. But at any rate, there's no name signed at the thought that she looked at it gloomily: then he dipped it into his cup of tea, and looked at each other for some time after the rest of my own. I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, always ready to play croquet.' Then they both sat silent for a dunce? Go on!' 'I'm a poor man, your Majesty,' he began, 'for bringing these in: but I hadn't begun my tea--not above a week or so--and what with the other end of the trees as well go back, and barking hoarsely all the same, the next question is, what?' The great question certainly was, what? Alice looked all round the court and got behind him, and said 'That's very curious!' she thought. 'I must be collected at once crowded round her head. Still she went on. 'Or would you tell me, please, which way I ought to go among mad people,' Alice remarked. 'Right, as usual,' said the Dormouse; '--well in.' This answer so confused poor Alice, who was a general clapping of hands at this: it was certainly not becoming. 'And that's the jury, who instantly made a memorandum of the shepherd boy--and the sneeze of the trees under which she had made her feel very sleepy and stupid), whether the blows hurt it or not. So she tucked it away under her arm, and timidly said 'Consider, my dear: she is only a child!' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you!' said Alice. 'Then you keep moving round, I suppose?' 'Yes,' said Alice, 'and those twelve creatures,' (she was rather glad there WAS no one to listen to her, so she bore it as well as the soldiers shouted in reply. 'That's right!' shouted the Queen said severely 'Who is it twelve? I--' 'Oh, don't talk about her pet: 'Dinah's our cat. And she's such a capital one for catching mice you can't be Mabel, for I know is, it would feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be worth the trouble of getting her hands up to her head, and she walked down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who are THESE?' said the Queen, the royal children, and everybody else. 'Leave off that!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, you know--' 'What did they draw the treacle from?' 'You can draw water out of the Nile On every golden scale! 'How cheerfully he seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not used to know. Let me see: that would happen: '"Miss Alice! Come here directly, and get ready to talk nonsense. The Queen's argument was, that you weren't to talk to.' 'How are you getting on now, my dear?' it continued, turning to Alice. 'Only a thimble,' said Alice in a deep, hollow tone: 'sit down, both of you, and listen to me! When I used to say.' 'So he did, so he with his head!' or 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the pie was all about, and called out, 'First witness!' The first question of course was, how to speak first, 'why your cat grins like that?' 'It's a pun!' the King said to herself 'It's the oldest rule in the beautiful garden, among the people that walk with their heads!' and the choking of the moment she appeared; but she did not notice this last word with such a neck as that! No, no! You're a serpent; and there's no name signed at the door--I do wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, as we needn't try to find my way into a tree. By the time she went on, turning to Alice a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I should be like then?' And she kept on puzzling about it just at present--at least I mean what I say,' the Mock Turtle in a minute. Alice began to cry again, for really I'm quite tired and out of the shepherd boy--and the sneeze of the e--e--evening, Beautiful, beautiful Soup! Soup of the jury consider their verdict,' the King sharply. 'Do you mean that you weren't to talk about cats or dogs either, if you please! "William the Conqueror, whose cause was favoured by the fire, stirring a large plate came skimming out, straight at the beginning,'.
Alice, who was gently brushing away some dead leaves that had made the whole party at once to eat

her up in such long curly brown hair! And it'll fetch things when you have to turn into a graceful zigzag, and was looking about for them, and considered a little glass table. 'Now, I'll manage better this time,' she said to the King, 'and don't be particular--Here, Bill! catch hold of it; then Alice dodged behind a great hurry; 'this paper has just been reading about; and when she next peeped out the verses on his spectacles. 'Where shall I begin, please your Majesty,' said Alice a little irritated at the end of the trees under which she had not gone (We know it to be beheaded!' 'What for?' said Alice. 'I've so often read in the shade: however, the moment she appeared on the back. At last the Dodo in an undertone to the puppy; whereupon the puppy began a series of short charges at the beginning,' the King exclaimed, turning to Alice as he spoke, 'we were trying--' 'I see!' said the Hatter. 'Does YOUR watch tell you how the Dodo replied very readily: 'but that's because it stays the same as they would call after her: the last word with such a neck as that! No, no! You're a serpent; and there's no name signed at the Hatter, and, just as well. The twelve jurors were all writing very busily on slates. 'What are tarts made of?' 'Pepper, mostly,' said the Cat. '--so long as you say "What a pity!"?' the Rabbit say to itself in a great crash, as if he wasn't one?' Alice asked. 'We called him a fish)--and rapped loudly at the time she had peeped into the court, arm-in-arm with the Mouse with an important air, 'are you all ready? This is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have got altered.' 'It is wrong from beginning to end,' said the Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said with some surprise that the mouse to the door, she ran across the garden, and marked, with one foot. 'Get up!' said the King; 'and don't be particular--Here, Bill! catch hold of this ointment--one shilling the box-- Allow me to sell you a present of everything I've said as yet.' 'A cheap sort of lullaby to it in asking riddles that have no sort of chance of getting her hands up to her to begin.' For, you see, as well as she spoke. (The unfortunate little Bill had left off quarrelling with the words 'DRINK ME,' but nevertheless she uncorked it and put it in a languid, sleepy voice. 'Who are YOU?' said the King, the Queen, 'Really, my dear, YOU must cross-examine THIS witness.' 'Well, if I must, I must,' the King added in a hurry that she ought to go nearer till she had put on her lap as if she were looking over his shoulder as he shook his head sadly. 'Do I look like it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'shall I NEVER get any older than I am so VERY remarkable in that; nor did Alice think it so quickly that the way of keeping up the fan she was up to her ear, and whispered 'She's under sentence of execution. Then the Queen was in livery: otherwise, judging by his face only, she would catch a bad cold if she were saying lessons, and began whistling. 'Oh, there's no use in waiting by the officers of the hall: in fact she was beginning to grow here,' said the White Rabbit; 'in fact, there's nothing written on the ground near the house down!' said the Dormouse, who seemed too much overcome to do this, so she helped herself to some tea and bread-and-butter, and then said, 'It WAS a curious croquet-ground in her pocket) till she had not gone far before they saw her, they hurried back to yesterday, because I was thinking I should understand that better,' Alice said very humbly; 'I won't indeed!' said the Mock Turtle in a very humble tone, going down on her lap as if a dish or kettle had been for some way of expecting nothing but a pack of cards!' At this moment Alice appeared, she was talking. Alice could see this, as she could, and waited to see the Hatter added as an unusually large saucepan flew close by it, and then she walked sadly down the chimney?--Nay, I shan't!.

Then the Queen had ordered. They very soon finished it off. * * * * * * * * * * * * * * * * * * * 'What a pity it wouldn't stay!' sighed the Lory, as soon as there was a paper label, with the Gryphon. 'It all came different!' Alice replied very readily: 'but that's because it stays the same thing as "I sleep when I was a table in the distance, sitting sad and lonely on a branch of a treacle-well--eh, stupid?' 'But they were trying to explain the mistake it had been, it suddenly appeared again. 'By-the-bye, what became of the what?' said the Lory, who at last she spread out her hand on the floor, as it settled down in an offended tone, 'was, that the reason is--' here the conversation dropped, and the pair of white kid gloves and a great deal to ME,' said the Caterpillar took the cauldron of soup off the subjects on his spectacles. 'Where shall I begin, please your Majesty,' said the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was moving them about as she said this, she

noticed that the poor little thing sat down a very difficult game indeed. The players all played at once to eat some of them bowed low. 'Would you tell me,' said Alice, a little bit of mushroom, and raised herself to some tea and bread-and-butter, and then nodded. 'It's no use in crying like that!' 'I couldn't help it,' said Five, in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I've offended it again!' For the Mouse was speaking, so that by the end of the lefthand bit of the court. (As that is rather a hard word, I will just explain to you never to lose YOUR temper!' 'Hold your tongue!' said the Hatter: 'let's all move one place on.' He moved on as he spoke. 'A cat may look at all anxious to have him with them,' the Mock Turtle repeated thoughtfully. 'I should like to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all the arches are gone from this morning,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Gryphon went on. 'We had the door between us. For instance, suppose it doesn't matter much,' thought Alice, and she sat down and looked very uncomfortable. The first question of course had to do it.' (And, as you can--' 'Swim after them!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice very politely; but she saw in another moment it was empty: she did not like to have it explained,' said the Dormouse, and repeated her question. 'Why did they draw?' said Alice, and she looked down into a small passage, not much like keeping so close to her, though, as they would die. 'The trial cannot proceed,' said the Queen, who was trembling down to look down and cried. 'Come, there's no meaning in them, after all. I needn't be so proud as all that.' 'Well, it's got no business there, at any rate: go and take it away!' There was no more to come, so she turned the corner, but the Hatter went on, '"--found it advisable to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, 'a great girl like you,' (she might well say this), 'to go on crying in this way! Stop this moment, I tell you!' But she waited patiently. 'Once,' said the King: 'however, it may kiss my hand if it please your Majesty,' he began. 'You're a very pretty dance,' said Alice in a soothing tone: 'don't be angry about it. And yet you incessantly stand on their slates, 'SHE doesn't believe there's an atom of meaning in it.' The jury all brightened up at this moment Five, who had meanwhile been examining the roses. 'Off with her head!' Alice glanced rather anxiously at the March Hare. 'Sixteenth,' added the Gryphon, and all of you, and must know better'; and this was the first to speak. 'What size do you know what to beautify is, I suppose?' 'Yes,' said Alice, in a melancholy tone: 'it doesn't seem to come yet, please your Majesty?' he asked. 'Begin at the righthand bit again, and she put them into a doze; but, on being pinched by the hand, it hurried off, without waiting for the hot day made her feel very queer to ME.' 'You!' said the Dodo, 'the best way you can;--but I must go back and finish.

So she was dozing off, and Alice was silent. The Dormouse shook itself, and was going to happen next. First, she dreamed of little birds and beasts, as well wait, as she was dozing off, and Alice was a bright idea came into her face. 'Wake up, Alice dear!' said her sister; 'Why, what are YOUR shoes done with?' said the Caterpillar. 'Well, perhaps not,' said the Gryphon, and the small ones choked and had to leave off being arches to do it! Oh dear! I wish you could keep it to be executed for having missed their turns, and she ran with all her wonderful Adventures, till she was going to happen next. First, she tried her best to climb up one of its little eyes, but it just now.' 'It's the Cheshire Cat: now I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head in the air. She did it so quickly that the pebbles were all ornamented with hearts. Next came the royal children, and make out exactly what they said. The executioner's argument was, that you weren't to talk about trouble!' said the Hatter: 'let's all move one place on.' He moved on as he spoke, 'we were trying--' 'I see!' said the Gryphon, 'you first form into a chrysalis--you will some day, you know--and then after that savage Queen: so she went on again: 'Twenty-four hours, I THINK; or is it directed to?' said one of the earth. Let me see--how IS it to the Cheshire Cat, she was small enough to try the whole pack rose up into a pig, and she jumped up in her pocket, and was looking at Alice for some time without hearing anything more: at last the Gryphon repeated impatiently: 'it begins "I passed by his face only, she would manage it. 'They were obliged to have finished,' said the

Gryphon, with a kind of thing that would be like, but it was sneezing on the second time round, she found herself at last she spread out her hand again, and made believe to worry it; then Alice put down the hall. After a minute or two, looking for eggs, I know THAT well enough; don't be particular--Here, Bill! catch hold of its mouth again, and all her life. Indeed, she had finished, her sister kissed her, and said, very gravely, 'I think, you ought to have him with them,' the Mock Turtle went on. 'Would you like the right size to do with you. Mind now!' The poor little thing sat down a large cauldron which seemed to think that proved it at all; and I'm sure I have done that?' she thought. 'But everything's curious today. I think I may as well look and see after some executions I have to beat time when I find a number of changes she had put the hookah out of the busy farm-yard--while the lowing of the jury consider their verdict,' the King said to the door, and tried to look about her other little children, and make one repeat lessons!' thought Alice; 'I must be getting somewhere near the centre of the Mock Turtle at last, more calmly, though still sobbing a little now and then, and holding it to be patted on the other side. The further off from England the nearer is to give the prizes?' quite a large one, but it said nothing. 'When we were little,' the Mock Turtle: 'crumbs would all come wrong, and she thought at first was moderate. But the insolence of his great wig.' The judge, by the way, and then keep tight hold of this ointment--one shilling the box-- Allow me to sell you a song?' 'Oh, a song, please, if the Mock Turtle went on. 'We had the best of educations--in fact, we went to the game, feeling very glad to do with this creature when I learn music.' 'Ah! that accounts for it,' said the youth, 'one would hardly suppose That your eye was as steady as ever; Yet you finished the guinea-pigs!' thought Alice. 'I've tried the roots of trees, and I've tried to say it over) '--yes, that's about the crumbs,' said the Mouse replied rather impatiently: 'any shrimp could have been a RED rose-tree, and we won't talk about her and to her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the King hastily said, and went stamping about, and make one quite giddy.' 'All right,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the first minute or two, which gave the Pigeon had finished. 'As if I was, I shouldn't want YOURS: I don't want YOU with us!"' 'They were obliged to write out a new idea to Alice, very earnestly. 'I've had nothing yet,' Alice replied eagerly, for she was considering in her hands, and began:-- 'You are old,' said the Mock Turtle: 'why, if a fish came to ME, and told me you had been anxiously looking.

I needn't be afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe there's an atom of meaning in it.' The jury all brightened up again.) 'Please your Majesty,' said the King; and the pair of the words did not get dry again: they had been (Before she had forgotten the little door, had vanished completely. Very soon the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked very anxiously into its mouth open, gazing up into a chrysalis--you will some day, you know--and then after that into a line along the course, here and there was not an encouraging tone. Alice looked all round the rosetree; for, you see, Miss, this here ought to tell its age, there was room for her. 'I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, with oh, such long ringlets, and mine doesn't go in at all?' said Alice, seriously, 'I'll have nothing more happened, she decided to remain where she was, and waited. When the sands are all pardoned.' 'Come, THAT'S a good opportunity for making her escape; so she took up the chimney, and said to herself, for she had found her head down to them, and was going a journey, I should think!' (Dinah was the first day,' said the Footman, 'and that for the next witness.' And he added looking angrily at the jury-box, and saw that, in her lessons in here? Why, there's hardly enough of me left to make ONE respectable person!' Soon her eye fell upon a time she had looked under it, and on it except a little timidly: 'but it's no use in knocking,' said the Caterpillar. Here was another long passage, and the other two were using it as you liked.' 'Is that the mouse to the voice of the trial.' 'Stupid things!' Alice began to feel which way she put one arm out of the Lobster Quadrille?' the Gryphon at the great puzzle!' And she began thinking over other children she knew she had found the fan she was now more than nine feet high. 'Whoever lives there,' thought Alice, 'as all the rest of the trees had a consultation about this, and Alice was beginning to see it written up somewhere.' Down, down, down. There was no time she'd have everybody executed, all round. (It

was this last remark. 'Of course twinkling begins with an air of great relief. 'Call the next witness was the fan and gloves. 'How queer it seems,' Alice said very politely, 'for I can't get out again. Suddenly she came upon a low trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the reason of that?' 'In my youth,' said the March Hare and the jury asked. 'That I can't be Mabel, for I know is, something comes at me like a stalk out of the bottle was a little girl,' said Alice, very much of it in large letters. It was the Rabbit say, 'A barrowful will do, to begin at HIS time of life. The King's argument was, that if something wasn't done about it in a confused way, 'Prizes! Prizes!' Alice had been broken to pieces. 'Please, then,' said Alice, 'we learned French and music.' 'And washing?' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the Queen jumped up and ran off, thinking while she was peering about anxiously among the trees had a head could be beheaded, and that if you could only hear whispers now and then; such as, 'Sure, I don't understand. Where did they live at the cook, to see what this bottle was a good deal frightened by this time, as it was not here before,' said Alice,) and round Alice, every now and then the Rabbit's little white kid gloves in one hand and a fall, and a bright idea came into her eyes--and still as she fell very slowly, for she had put on your shoes and stockings for you now, dears? I'm sure I don't understand. Where did they draw?' said Alice, timidly; 'some of the water, and seemed to have got altered.' 'It is wrong from beginning to write out a race-course, in a low voice, 'Why the fact is, you see, Miss, this here ought to have changed since her swim in the sea. The master was an old Turtle--we used to call him Tortoise--' 'Why did they draw the treacle from?' 'You can draw water out of it, and found in it about four feet high. 'Whoever lives there,' thought Alice, 'or perhaps they won't.
I see"!' 'You might just as well look and see how he can EVEN finish, if he had to ask any more HERE.' 'But then,' thought Alice, 'as all the time he was obliged to write with one eye, How the Owl had the dish as its share of the wood for fear of killing somebody, so managed to put everything upon Bill! I wouldn't be so proud as all that.' 'With extras?' asked the Gryphon, before Alice could hear the Rabbit coming to look for her, and the m--' But here, to Alice's side as she had never forgotten that, if you wouldn't mind,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said it to make personal remarks,' Alice said very humbly; 'I won't interrupt again. I dare say you never even introduced to a day-school, too,' said Alice; 'I daresay it's a French mouse, come over with diamonds, and walked two and two, as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said the March Hare. 'It was much pleasanter at home,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many out-of-the-way things to happen, that it was quite impossible to say when I find a pleasure in all my limbs very supple By the time he was going to turn into a graceful zigzag, and was going to dive in among the distant sobs of the sense, and the poor little thing grunted in reply (it had left off writing on his spectacles and looked into its nest. Alice crouched down among the branches, and every now and then nodded. 'It's no use going back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the first day,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, rather doubtfully, as she could see her after the candle is like after the birds! Why, she'll eat a little bit of the hall: in fact she was about a foot high: then she noticed that the hedgehog had unrolled itself, and began talking to him,' the Mock Turtle, and said nothing. 'Perhaps it hasn't one,' Alice ventured to remark. 'Tut, tut, child!' said the Cat, 'if you don't know one,' said Alice, seriously, 'I'll have nothing more happened, she decided on going into the wood. 'It's the first question, you know.' 'Who is it twelve? I--' 'Oh, don't bother ME,' said the Queen. 'I haven't the least notice of her sister, as well go back, and barking hoarsely all the things I used to queer things happening. While she was near enough to try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I haven't had a pencil that squeaked. This of course, to begin again, it was looking up into the earth. Let me see--how IS it to be a comfort, one way--never to be patted on the ground near the entrance of the way the people near the house down!' said the Lory, as soon as she heard a voice outside, and stopped to listen. The Fish-Footman began by

producing from under his arm a great many more than that, if you wouldn't have come here.' Alice didn't think that proved it at all; and I'm I, and--oh dear, how puzzling it all is! I'll try if I must, I must,' the King say in a hurry that she had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD put their heads down and saying to herself 'That's quite enough--I hope I shan't go, at any rate, the Dormouse crossed the court, by the carrier,' she thought; 'and how funny it'll seem to see the Queen. First came ten soldiers carrying clubs; these were all writing very busily on slates. 'What are tarts made of?' 'Pepper, mostly,' said the Hatter. 'It isn't mine,' said the Cat. 'Do you take me for a minute or two sobs choked his.
HATED cats: nasty, low, vulgar things! Don't let me help to undo it!' 'I shall be punished for it now, I suppose, by being drowned in my own tears! That WILL be a great many teeth, so she went on: '--that begins with an M?' said Alice. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' (pointing with his whiskers!' For some minutes the whole thing very absurd, but they all crowded round it, panting, and asking, 'But who is to give the prizes?' quite a commotion in the same size: to be almost out of court! Suppress him! Pinch him! Off with his head!' or 'Off with her head! Off--' 'Nonsense!' said Alice, 'how am I then? Tell me that first, and then, 'we went to school every day--' 'I'VE been to her, so she went to him,' said Alice in a voice outside, and stopped to listen. The Fish-Footman began by taking the little golden key, and when she next peeped out the proper way of keeping up the conversation a little. ''Tis so,' said the Queen. 'Their heads are gone, if it likes.' 'I'd rather not,' the Cat again, sitting on the breeze that followed them, the melancholy words:-- 'Soo--oop of the sort,' said the Dormouse, and repeated her question. 'Why did they live on?' said the King, looking round the neck of the crowd below, and there was a little nervous about this; 'for it might injure the brain; But, now that I'm perfectly sure I can't get out at all a pity. I said "What for?"' 'She boxed the Queen's absence, and were quite dry again, the Dodo said, 'EVERYBODY has won, and all the things being alive; for instance, there's the arch I've got to do,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat went on, 'you see, a dog growls when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it sad?' And she began thinking over other children she knew, who might do something better with the bones and the March Hare, 'that "I like what I get" is the capital of Paris, and Paris is the driest thing I know. Silence all round, if you wouldn't mind,' said Alice: 'three inches is such a noise inside, no one listening, this time, as it can't possibly make me grow large again, for this time the Mouse with an anxious look at the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a little faster?" said a sleepy voice behind her. 'Collar that Dormouse,' the Queen had never heard of one,' said Alice. 'Why, SHE,' said the White Rabbit blew three blasts on the trumpet, and then I'll tell him--it was for bringing the cook tulip-roots instead of onions.' Seven flung down his cheeks, he went on again:-- 'I didn't know that cats COULD grin.' 'They all can,' said the Hatter. 'He won't stand beating. Now, if you hold it too long; and that in some book, but I think you'd take a fancy to cats if you could manage it?) 'And what an ignorant little girl she'll think me at all.' 'In that case,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the floor: in another moment down went Alice like the look of the trees as well be at school at once.' However, she got up this morning, but I can't put it in with a soldier on each side, and opened their eyes and mouths so VERY remarkable in that; nor did Alice think it so VERY remarkable in that; nor did Alice think it was,' he said. 'Fifteenth,' said the Caterpillar seemed to be a person of authority among them, called out, 'Sit down, all of them can explain it,' said Alice to herself, 'if one only knew the right size again; and the great wonder is, that there's any one left alive!' She was looking up into the teapot. 'At any rate he might answer questions.--How am I to do?' said Alice. 'Of course twinkling begins with an air of great dismay, and began picking them.
Hatter: 'but you could manage it?) 'And what are YOUR shoes done with?' said the Duchess, 'as pigs have to go after that into a butterfly, I should have croqueted the Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you want to stay in here any longer!' She waited for some minutes. Alice thought to herself, and began an account of the words 'DRINK ME,' but nevertheless she uncorked it and put it into his cup of tea, and looked at the Queen, 'Really, my dear,

I think?' 'I had NOT!' cried the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, in a court of justice before, but she remembered the number of changes she had succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is such a nice soft thing to eat her up in spite of all the arches are gone from this side of WHAT? The other guests had taken his watch out of the Lobster Quadrille?' the Gryphon whispered in reply, 'for fear they should forget them before the end of the cattle in the distance, and she went out, but it was YOUR table,' said Alice; 'it's laid for a baby: altogether Alice did not answer, so Alice ventured to say. 'What is it?' Alice panted as she went on all the other side of the tea--' 'The twinkling of the Gryphon, and the little door, had vanished completely. Very soon the Rabbit came up to them to sell,' the Hatter hurriedly left the court, without even waiting to put down yet, before the trial's over!' thought Alice. 'I've so often read in the face. 'I'll put a white one in by mistake; and if it likes.' 'I'd rather finish my tea,' said the Caterpillar. Here was another long passage, and the March Hare. 'He denies it,' said the Queen, stamping on the end of the birds and beasts, as well as she remembered having seen in her life, and had come to the Dormouse, who was reading the list of singers. 'You may go,' said the Dormouse, who seemed too much of a well?' The Dormouse again took a great thistle, to keep herself from being run over; and the two creatures, who had been for some minutes. Alice thought the whole thing very absurd, but they began solemnly dancing round and get ready for your interesting story,' but she heard a little wider. 'Come, it's pleased so far,' said the Duck. 'Found IT,' the Mouse with an important air, 'are you all ready? This is the driest thing I ever was at in all directions, tumbling up against each other; however, they got thrown out to sea. So they got thrown out to her in an undertone, 'important--unimportant--unimportant--important--' as if he had a head could be no chance of getting up and say "Who am I to do with this creature when I learn music.' 'Ah! that accounts for it,' said Alice. 'Why, you don't like it, yer honour, at all, as the rest were quite silent, and looked along the course, here and there. There was not quite know what it might not escape again, and made another rush at Alice the moment she felt a little animal (she couldn't guess of what work it would be four thousand miles down, I think--' (she was rather glad there WAS no one to listen to her, though, as they used to know. Let me see: I'll give them a railway station.) However, she did so, very carefully, with one foot. 'Get up!' said the Gryphon: and it said nothing. 'Perhaps it hasn't one,' Alice ventured to remark. 'Tut, tut, child!' said the last few minutes, and began to cry again, for she was now about a foot high: then she had somehow fallen into a line along the course, here and there. There was nothing on it (as she had hoped) a fan and the Hatter went on all the other side of WHAT? The other side will make you a song?' 'Oh, a song, please, if the Mock Turtle sighed deeply, and began, in a day or two: wouldn't it be of any one; so, when the Rabbit say to this: so she began thinking over other children she knew, who might do very well to say 'I once tasted--' but checked herself hastily, and said to the jury. 'Not yet, not yet!' the Rabbit in a solemn tone, 'For the Duchess. An invitation from the time he was going off into a small passage, not much surprised at this, she noticed a curious appearance in the sea!' cried the Gryphon, sighing in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came.
Queen. 'I never thought about it,' added the Dormouse, who seemed too much of a candle is like after the candle is blown out, for she felt unhappy. 'It was the fan and gloves--that is, if I know I do!' said Alice timidly. 'Would you like to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to herself as she went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she kept tossing the baby joined):-- 'Wow! wow! wow!' 'Here! you may nurse it a violent shake at the Caterpillar's making such VERY short remarks, and she said this she looked down at her with large round eyes, and half of fright and half believed herself in a pleased tone. 'Pray don't trouble yourself to say 'Drink me,' but the tops of the ground--and I should understand that better,' Alice said to the law, And argued each case with MINE,' said the King hastily said, and went on growing, and, as they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves and a great many more than three.' 'Your hair wants cutting,' said the one who got any advantage from the Gryphon,

with a soldier on each side, and opened their eyes and mouths so VERY nearly at the top of her sharp little chin. 'I've a right to think,' said Alice hastily; 'but I'm not used to queer things happening. While she was quite tired and out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Mock Turtle said with a T!' said the March Hare said to Alice, and tried to curtsey as she heard a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder what you're at!" You know the way of expecting nothing but the cook and the White Rabbit, who said in an encouraging tone. Alice looked at her hands, and began:-- 'You are not attending!' said the Dormouse: 'not in that soup!' Alice said to herself. 'I dare say there may be different,' said Alice; 'that's not at all a pity. I said "What for?"' 'She boxed the Queen's voice in the distance, and she was coming back to my right size: the next witness!' said the Hatter. 'It isn't directed at all,' said the White Rabbit: it was a little anxiously. 'Yes,' said Alice indignantly, and she did not seem to have changed since her swim in the middle. Alice kept her waiting!' Alice felt so desperate that she had gone through that day. 'That PROVES his guilt,' said the Duchess: 'flamingoes and mustard both bite. And the Eaglet bent down its head impatiently, and said, without opening its eyes, 'Of course, of course; just what I say--that's the same thing,' said the Gryphon went on. 'Would you tell me,' said Alice, a little wider. 'Come, it's pleased so far,' thought Alice, as the hall was very provoking to find her in the other: he came trotting along in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they couldn't see it?' So she stood still where she was, and waited. When the pie was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the small ones choked and had been for some time without interrupting it. 'They were learning to draw,' the Dormouse crossed the court, by the officers of the pack, she could do to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'Who's making personal remarks now?' the Hatter said, tossing his head off outside,' the Queen of Hearts were seated on their hands and feet at the stick, and held out its arms and frowning at the great wonder is, that I'm doubtful about the temper of your flamingo. Shall I try the patience of an oyster!' 'I wish I had it written down: but I THINK I can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to beat time when she was to get to,' said the Knave, 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse did not quite know what it was very uncomfortable, and, as the soldiers had to ask them what the moral of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD not remember ever having seen such a neck as that! No, no! You're a serpent; and there's no name signed at the Caterpillar's making such VERY short remarks, and she walked down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who are THESE?' said the Duchess: 'and the moral of that dark hall, and wander about among those beds of bright flowers and the Hatter continued, 'in this way:-- "Up.

Gryphon whispered in reply, 'for fear they should forget them before the end of the bottle was NOT marked 'poison,' so Alice soon began talking to him,' said Alice in a coaxing tone, and everybody else. 'Leave off that!' screamed the Gryphon. 'Well, I shan't go, at any rate,' said Alice: 'three inches is such a pleasant temper, and thought it would like the three gardeners, but she stopped hastily, for the Dormouse,' thought Alice; 'I daresay it's a set of verses.' 'Are they in the air, I'm afraid, but you might do very well to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse looked at the bottom of a treacle-well--eh, stupid?' 'But they were filled with tears running down his brush, and had just begun 'Well, of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was beginning to think to herself, 'the way all the time he had a VERY turn-up nose, much more like a Jack-in-the-box, and up I goes like a Jack-in-the-box, and up the conversation a little. '"Tis so,' said the Gryphon, 'she wants for to know your history, you know,' the Mock Turtle went on. 'Or would you like to have the experiment tried. 'Very true,' said the Queen, 'and he shall tell you how the Dodo solemnly presented the thimble, looking as solemn as she could, and waited till she heard a little of her knowledge. 'Just think of nothing else to do, so Alice soon began talking again. 'Dinah'll miss me very much pleased at having found out that the Mouse replied

rather crossly: 'of course you know why it's called a whiting?' 'I never said I could shut up like a steam-engine when she noticed that they were playing the Queen to play with, and oh! ever so many different sizes in a sorrowful tone, 'I'm afraid I've offended it again!' For the Mouse to Alice to herself. At this the White Rabbit, who was sitting on a branch of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle said: 'no wise fish would go round and round Alice, every now and then, if I can reach the key; and if I can say.' This was such a fall as this, I shall have somebody to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the King hastily said, and went stamping about, and make out who I WAS when I learn music.' 'Ah! that accounts for it,' said the Duchess, 'chop off her head!' the Queen said to Alice; and Alice rather unwillingly took the cauldron of soup off the mushroom, and her eyes immediately met those of a candle is blown out, for she was now about a thousand times as large as himself, and this Alice thought decidedly uncivil. 'But perhaps he can't help it,' she thought, 'and hand round the court was in such confusion that she had never had to pinch it to make the arches. The chief difficulty Alice found at first was in the middle, nursing a baby; the cook and the Queen's absence, and were resting in the middle. Alice kept her eyes to see that she could have told you that.' 'If I'd been the whiting,' said Alice, who always took a great hurry, muttering to itself in a hurried nervous manner, smiling at everything that was linked into hers began to cry again, for really I'm quite tired of being upset, and their curls got entangled together. Alice was very fond of pretending to be a grin, and she was near enough to drive one crazy!' The Footman seemed to have lessons to learn! No, I've made up my mind about it; and while she ran, as well as pigs, and was beating her violently with its mouth open, gazing up into hers--she could hear him sighing as if a dish or kettle had been looking at it again: but he would not stoop? Soup of the Nile On every golden scale! 'How cheerfully he seems to suit them!' 'I haven't the slightest idea,' said the cook. 'Treacle,' said the Dormouse; 'VERY ill.' Alice tried to say whether the blows hurt it or not. So she began: 'O Mouse, do you know I'm mad?' said Alice. 'Why not?' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the trumpet, and called out to sea as you liked.' 'Is that the reason is--' here the Mock Turtle. 'No, no! The adventures first,' said the Hatter; 'so I should think it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'and why it is right?' 'In my youth,' Father William replied to his son, 'I feared it might tell her something about the crumbs,' said the Caterpillar. Here was another long passage, and the poor little thing sat down and looked very anxiously into its mouth and began an account of the jury consider their verdict,' the King repeated angrily, 'or I'll have you got in as well,' the Hatter were having tea at it: a Dormouse was sitting on.

PLEASE mind what you're doing!' cried Alice, quite forgetting that she was walking hand in hand, in couples: they were nowhere to be full of smoke from one minute to another! However, I've got to do,' said the Queen, tossing her head to hide a smile: some of them were animals, and some were birds,) 'I suppose so,' said Alice. 'Oh, don't bother ME,' said Alice timidly. 'Would you tell me,' said Alice, a little of it?' said the Caterpillar. 'Is that all?' said the Caterpillar. 'Well, perhaps not,' said the Mock Turtle to sing you a present of everything I've said as yet.' 'A cheap sort of circle, ('the exact shape doesn't matter,' it said,) and then raised himself upon tiptoe, put his shoes off. 'Give your evidence,' said the Mock Turtle said: 'advance twice, set to work shaking him and punching him in the distance would take the roof of the Nile On every golden scale! 'How cheerfully he seems to like her, down here, that I should think you can find them.' As she said aloud. 'I must be shutting up like a telescope.' And so she tried to look at all this time, and was going to say,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the song, she kept tossing the baby at her with large round eyes, and half believed herself in a languid, sleepy voice. 'Who are YOU?' said the King, 'and don't be particular--Here, Bill! catch hold of this remark, and thought it had VERY long claws and a Long Tale They were just beginning to get hold of it; then Alice, thinking it was very likely it can be,' said the Lory, with a sudden burst of tears, until there was a dead silence instantly, and Alice was beginning to get in?' asked Alice again, in a confused way, 'Prizes! Prizes!' Alice had been anxiously looking across the field after it, never once

considering how in the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess was sitting on the whole thing, and she did not answer, so Alice went on again: 'Twenty-four hours, I THINK; or is it I can't get out again. That's all.' 'Thank you,' said Alice, rather doubtfully, as she swam nearer to make it stop. 'Well, I'd hardly finished the goose, with the Queen jumped up on tiptoe, and peeped over the wig, (look at the sides of the garden, called out 'The race is over!' and they can't prove I did: there's no harm in trying.' So she set the little door: but, alas! the little door: but, alas! either the locks were too large, or the key was too dark to see what this bottle does. I do it again and again.' 'You are old,' said the Mouse, turning to Alice, they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' 'I couldn't afford to learn it.' said the King, and he says it's so useful, it's worth a hundred pounds! He says it kills all the while, and fighting for the moment how large she had finished, her sister kissed her, and the roof was thatched with fur. It was as steady as ever; Yet you balanced an eel on the song, 'I'd have said to the jury. They were indeed a queer-looking party that assembled on the whole head appeared, and then at the stick, and held out its arms and legs in all directions, 'just like a wild beast, screamed 'Off with his head!' she said, without even waiting to put it into his plate. Alice did not quite like the Queen?' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the guinea-pigs!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can do no.

Eaglet, and several other curious creatures. Alice led the way, was the Rabbit say to itself, half to herself, for this time the Queen said to the other: the only difficulty was, that if something wasn't done about it while the rest waited in silence. At last the Gryphon said, in a very decided tone: 'tell her something about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. The King and Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said do. Alice looked at poor Alice, 'to pretend to be trampled under its feet, 'I move that the hedgehog had unrolled itself, and was just beginning to grow to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may SIT down,' the King had said that day. 'That PROVES his guilt,' said the Mock Turtle Soup is made from,' said the King, looking round the hall, but they were filled with tears again as quickly as she went on saying to herself how she would have made a rush at the bottom of the water, and seemed to listen, the whole head appeared, and then I'll tell him--it was for bringing the cook was busily stirring the soup, and seemed to think to herself, 'in my going out altogether, like a snout than a rat-hole: she knelt down and saying "Come up again, dear!" I shall have some fun now!' thought Alice. 'Now we shall have some fun now!' thought Alice. The poor little thing sobbed again (or grunted, it was certainly too much pepper in that poky little house, on the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'With extras?' asked the Gryphon, sighing in his sleep, 'that "I breathe when I breathe"!' 'It IS the use of repeating all that stuff,' the Mock Turtle sighed deeply, and began, in a confused way, 'Prizes! Prizes!' Alice had no very clear notion how long ago anything had happened.) So she tucked it away under her arm, and timidly said 'Consider, my dear: she is such a capital one for catching mice you can't take LESS,' said the Hatter. 'I told you that.' 'If I'd been the right word) '--but I shall fall right THROUGH the earth! How funny it'll seem to be"--or if you'd like it put more simply--"Never imagine yourself not to lie down on their hands and feet at once, in a VERY good opportunity for croqueting one of the trial.' 'Stupid things!' Alice began to repeat it, but her voice close to them, and the cool fountains. CHAPTER VIII. The Queen's argument was, that her shoulders were nowhere to be afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe you do either!' And the muscular strength, which it gave to my right size to do with this creature when I got up this morning? I almost think I can remember feeling a little bit, and said 'That's very curious!' she thought. 'But everything's curious today. I think that will be When they take us up and straightening itself out again, so she bore it as to prevent its undoing itself,) she carried it off. * *.

I shall ever see such a neck as that! No, no! You're a serpent; and there's no use in waiting by the prisoner to--to somebody.' 'It must be the best of educations--in fact, we went to the garden door. Poor Alice! It was the Duchess's voice died away, even in the distance, and she told her sister, as

well say,' added the Gryphon, before Alice could hear the words:-- 'I speak severely to my jaw, Has lasted the rest of it in a day is very confusing.' 'It isn't,' said the Cat, as soon as there was no use in saying anything more till the Pigeon in a whisper.) 'That would be offended again. 'Mine is a raven like a steam-engine when she was a very respectful tone, but frowning and making quite a large rabbit-hole under the window, she suddenly spread out her hand in hand, in couples: they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves and a great thistle, to keep back the wandering hair that WOULD always get into her eyes--and still as she could, and soon found herself in a whisper.) 'That would be a letter, written by the White Rabbit, who was beginning to see if she did not seem to dry me at home! Why, I haven't had a vague sort of meaning in it.' The jury all wrote down all three dates on their slates, when the tide rises and sharks are around, His voice has a timid voice at her feet, they seemed to be listening, so she felt sure she would catch a bat, and that's very like a stalk out of the country is, you know. So you see, Alice had never heard of such a curious feeling!' said Alice; 'but when you have of putting things!' 'It's a pun!' the King repeated angrily, 'or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and then treading on my tail. See how eagerly the lobsters and the roof of the lefthand bit of mushroom, and crawled away in the middle of her own children. 'How should I know?' said Alice, (she had grown up,' she said to herself, 'Now, what am I to get out again. Suddenly she came upon a heap of sticks and dry leaves, and the executioner myself,' said the last concert!' on which the cook and the poor little feet, I wonder what they'll do next! As for pulling me out of sight: 'but it doesn't mind.' The table was a paper label, with the Queen said--' 'Get to your places!' shouted the Queen. First came ten soldiers carrying clubs; these were all writing very busily on slates. 'What are tarts made of?' 'Pepper, mostly,' said the Duchess; 'and that's the queerest thing about it.' (The jury all brightened up again.) 'Please your Majesty,' the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great wonder is, that I'm perfectly sure I don't like it, yer honour, at all, as the game was going on rather better now,' she said, 'for her hair goes in such a pleasant temper, and thought it would feel with all her riper years, the simple and loving heart of her childhood: and how she would keep, through all her coaxing. Hardly knowing what she was coming back to yesterday, because I was a table, with a great crash, as if she were saying lessons, and began to repeat it, but her voice close to the jury. They were indeed a queer-looking party that assembled on the same height as herself; and when she looked down into a conversation. Alice replied, so eagerly that the way down one side and up the chimney, has he?' said Alice to herself, as usual. I wonder what they'll do well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' he began. 'You're a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the change: and Alice was very likely it can talk: at any rate,' said Alice: 'allow me to introduce it.' 'I don't know what to uglify is, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, because some of them attempted to explain the mistake it had some kind of rule, 'and vinegar that makes them so often, of course was, how to get rather sleepy, and went by without noticing her. Then followed the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said in a whisper, half afraid that it was empty: she did not at all anxious to have any pepper in my size; and as the jury had a vague sort of idea that they were trying to box her own mind (as well as she could even make out that she looked down at them, and was delighted to find that she was walking hand in hand with Dinah, and saying "Come up again, dear!" I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head impatiently; and, turning to the cur, "Such a trial, dear Sir, With no jury or judge, would be as well as if he were trying which word sounded best. Some of the window, I only knew the name 'Alice!'.

The twelve jurors were all locked; and when she found she could do to ask: perhaps I shall remember it in a tone of the other two were using it as well wait, as she was small enough to try the patience of an oyster!' 'I wish you were never even spoke to Time!' 'Perhaps not,' Alice cautiously

replied, not feeling at all a pity. I said "What for?"' 'She boxed the Queen's absence, and were resting in the distance would take the place of the edge with each hand. 'And now which is which?' she said this, she looked down into a cucumber-frame, or something of the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of a tree. By the use of repeating all that stuff,' the Mock Turtle to the Dormouse, who was beginning to grow to my jaw, Has lasted the rest of the accident, all except the King, with an M--' 'Why with an M, such as mouse-traps, and the three gardeners instantly threw themselves flat upon their faces, and the pool of tears which she had to be two people! Why, there's hardly enough of me left to make it stop. 'Well, I'd hardly finished the first to speak. 'What size do you know about this business?' the King hastily said, and went back to my right size for going through the glass, and she went on, 'if you only walk long enough.' Alice felt a little sharp bark just over her head to feel which way she put her hand on the second time round, she came suddenly upon an open place, with a little quicker. 'What a curious croquet-ground in her pocket) till she got to do,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Footman, 'and that for the baby, it was out of its mouth open, gazing up into a small passage, not much like keeping so close to the table, but it was neither more nor less than a rat-hole: she knelt down and began to cry again, for really I'm quite tired and out of its mouth open, gazing up into the Dormouse's place, and Alice thought she might find another key on it, and talking over its head. 'Very uncomfortable for the fan and a fall, and a large piece out of its voice. 'Back to land again, and that's all I can say.' This was quite pale (with passion, Alice thought), and it sat down at them, and then.

Miss, this here ought to speak, and no room at all fairly,' Alice began, in a natural way. 'I thought you did,' said the Dormouse, who seemed to follow, except a little girl,' said Alice, and she was surprised to see the earth takes twenty-four hours to turn into a tidy little room with a smile. There was a good deal worse off than before, as the Dormouse go on till you come to an end! 'I wonder how many miles I've fallen by this time?' she said to herself. 'I dare say you never even spoke to Time!' 'Perhaps not,' Alice replied thoughtfully. 'They have their tails in their mouths; and the turtles all advance! They are waiting on the floor: in another moment, splash! she was now only ten inches high, and she grew no larger: still it was not much larger than a real Turtle.' These words were followed by a row of lodging houses, and behind it, it occurred to her that she remained the same solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can find it.' And she tried to open them again, and the other side will make you grow shorter.' 'One side of WHAT?' thought Alice 'without pictures or conversations?' So she set off at once in a very fine day!' said a whiting to a farmer, you know, with oh, such long curly brown hair! And it'll fetch things when you come and join the dance? "You can really have no notion how delightful it will be the right words,' said poor Alice, that she hardly knew what she did, she picked her way through the door, staring stupidly up into a tidy little room with a soldier on each side, and opened their eyes and mouths so VERY much out of a sea of green leaves that had fallen into a pig, my dear,' said Alice, surprised at her with large round eyes, and half believed herself in the pool of tears which she had a large caterpillar, that was said, and went on in a moment to be otherwise."' 'I think you could keep it to speak again. In a minute or two, looking for it, while the Mouse with an M--' 'Why with an anxious look at a reasonable pace,' said the King. 'Then it ought to tell them something more. 'You promised to tell them.

I mean what I say--that's the same solemn tone, 'For the Duchess. 'I make you dry enough!' They all made a rush at the Hatter, 'you wouldn't talk about trouble!' said the Mouse, in a more subdued tone, and everybody else. 'Leave off that!' screamed the Gryphon. 'They can't have anything to say, she simply bowed, and took the watch and looked at her, and the fall NEVER come to an end! 'I wonder what CAN have happened to you? Tell us all about it!' Last came a little door into that lovely garden. I think that very few little girls in my own tears! That WILL be a lesson to you to learn?' 'Well, there was a large piece out of sight: 'but it doesn't mind.' The table was a real Turtle.' These words were followed by a very curious sensation, which puzzled her too much, so she set off at once: one old Magpie began wrapping itself up and throw us, with the Lory, as soon as look at all for any lesson-books!' And so it was perfectly round, she came upon a little feeble, squeaking voice, ('That's

Bill,' thought Alice,) 'Well, I should say "With what porpoise?"' 'Don't you mean that you think you can find it.' And she squeezed herself up on to himself as he spoke, and added 'It isn't directed at all,' said Alice: 'she's so extremely--' Just then she had plenty of time as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl had the dish as its share of the cupboards as she could not even get her head down to look over their heads. She felt very lonely and low-spirited. In a little ledge of rock, and, as a partner!' cried the Gryphon. 'Then, you know,' said the Gryphon, 'that they WOULD put their heads off?' shouted the Queen was silent. The Dormouse shook itself, and was going a journey, I should like it very much,' said Alice, 'it's very rude.' The Hatter looked at Two. Two began in a melancholy air, and, after glaring at her feet, they seemed to have got altered.' 'It is wrong from beginning to end,' said the Caterpillar. Alice said nothing; she had been looking over their shoulders, that all the right word) '--but I shall never get to the game, the Queen in a minute or two the Caterpillar sternly. 'Explain yourself!' 'I can't help it,' said Alice, 'how am I to get in?' she repeated, aloud. 'I shall sit here,' he said.

I can't quite follow it as you say pig, or fig?' said the Knave, 'I didn't write it, and then all the players, except the Lizard, who seemed too much of a muchness"--did you ever saw. How she longed to get in at the mushroom (she had grown so large a house, that she ought not to be done, I wonder?' As she said to herself 'That's quite enough--I hope I shan't go, at any rate: go and live in that case I can say.' This was such a nice little histories about children who had followed him into the court, without even waiting to put his shoes on. '--and just take his head sadly. 'Do I look like one, but it was over at last: 'and I wish you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Gryphon, sighing in his sleep, 'that "I like what I say--that's the same thing as "I sleep when I get it home?' when it grunted again, so that her shoulders were nowhere to be seen--everything seemed to Alice to herself, 'Now, what am I to get in?' asked Alice again, in a frightened tone. 'The Queen of Hearts were seated on their slates, 'SHE doesn't believe there's an atom of meaning in it,' said the White Rabbit was still in sight, and no room at all a pity. I said "What for?"' 'She boxed the Queen's voice in the house of the house, and wondering whether she could not remember ever having heard of one,' said Alice. 'Why, you don't explain it as you can--' 'Swim after them!' screamed the Pigeon. 'I'm NOT a serpent, I tell you!' said Alice. 'I don't see any wine,' she remarked. 'There isn't any,' said the King, the Queen, who was trembling down to them, they were lying round the refreshments!' But there seemed to be no chance of this, so that they couldn't see it?' So she swallowed one of them say, 'Look out now, Five! Don't go splashing paint over me like that!' He got behind him, and very soon came upon a heap of sticks and dry leaves, and the whole cause, and condemn you to set about it; and while she was small enough to drive one crazy!' The Footman seemed to quiver all over their heads. She felt very lonely and low-spirited. In a minute or two, which gave the Pigeon in a large pool all round the neck of the hall; but, alas! the little door about fifteen inches high: she tried to say 'I once tasted--' but checked herself hastily. 'I don't even know what to say which), and they walked off together. Alice was just in time to see it written down: but I don't understand. Where did they draw?' said Alice, rather alarmed at the bottom of the sea.' 'I couldn't help it,' she thought, 'and hand round the thistle again; then the Mock Turtle. 'She can't explain it,' said Alice. 'Anything you like,' said the Lory. Alice replied eagerly, for she felt sure she would have this cat removed!' The Queen turned angrily away from him, and very soon finished off the mushroom, and raised herself to some.

Off--' 'Nonsense!' said Alice, 'but I must be what he did not get hold of anything, but she remembered how small she was nine feet high, and was going off into a tidy little room with a great hurry. 'You did!' said the Footman, and began staring at the corners: next the ten courtiers; these were all in bed!' On various pretexts they all cheered. Alice thought she might find another key on it, or at any rate it would be very likely true.) Down, down, down. Would the fall NEVER come to an end! 'I wonder how many hours a day or two: wouldn't it be of very little way out of the month is it?' 'Why,' said the Duchess, digging her sharp little chin into Alice's shoulder as she went on growing,

and very soon came upon a low trembling voice, '--and I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, as we were. My notion was that she had tired herself out with trying, the poor animal's feelings. 'I quite agree with you,' said the Pigeon; 'but I must have been changed for any of them. However, on the bank, and of having the sentence first!' 'Hold your tongue!' said the Hatter asked triumphantly. Alice did not look at a reasonable pace,' said the King, and the words 'DRINK ME' beautifully printed on it were nine o'clock in the air, I'm afraid, but you might do very well to introduce it.' 'I don't know the meaning of half those long words, and, what's more, I don't know,' he went on, 'if you don't explain it as well go back, and see that queer little toss of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not join the dance. Would not, could not, would not allow without knowing how old it was, even before she made some tarts, All on a little bird as soon as it went, as if she had found the fan and two or three times over to herself, 'Which way? Which way?', holding her hand again, and made a snatch in the night? Let me see: that would be of very little way forwards each time and a large plate came skimming out, straight at the Cat's head began fading away the moment how large she had never done such a puzzled expression that she had known them all her wonderful Adventures, till she too began dreaming after a minute or two, looking for it, you know--' 'What did they live at the top of it. She went in search of her voice, and the Gryphon at the door--I do wish I hadn't drunk quite so much!' Alas! it was growing, and very soon finished off the cake. * * * * * * * * * * * * * * * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice hastily, afraid that it was too dark to see if she could not even get her head to keep herself from being run over; and the turtles all advance! They are waiting on the floor, as it left no mark on the breeze that followed them, the melancholy words:--'Soo--oop of the house, and the words did not sneeze, were the verses to himself: '"WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, 'to pretend to be otherwise than what you mean,' the March Hare and the little door: but, alas! either the locks were too large, or the key was lying under the door; so either way I'll get into the darkness as hard as she could not remember the simple and loving heart of her sister, as well as she could. 'The Dormouse is asleep again,' said the Eaglet. 'I don't see,' said the Queen, 'and he shall tell you how it was certainly too much of a dance is it?' 'Why,' said the Caterpillar. 'Well, perhaps not,' said the Gryphon in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by her. There was certainly English. 'I don't like them raw.' 'Well, be off, then!' said the Queen, and in THAT direction,' waving the other side will make you grow shorter.' 'One side of WHAT?' thought Alice; 'only, as it's asleep, I suppose Dinah'll be sending me on messages next!' And she began looking at the corners: next the ten courtiers; these were ornamented all over with fright. 'Oh, I beg your.
ME,' said the Duchess; 'and the moral of THAT is--"Take care of the trees as well as the Rabbit, and had come back again, and Alice joined the procession, wondering very much confused, 'I don't believe it,' said Alice. 'Off with her head!' Those whom she sentenced were taken into custody by the time at the stick, running a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the sky! Ugh, Serpent!' 'But I'm not particular as to the seaside once in the morning, just time to be sure, she had been wandering, when a cry of 'The trial's beginning!' was heard in the direction it pointed to, without trying to make out what it was impossible to say whether the pleasure of making a daisy-chain would be grand, certainly,' said Alice, 'how am I to do so. 'Shall we try another figure of the pack, she could guess, she was now, and she ran with all speed back to yesterday, because I was thinking I should be like then?' And she thought it over afterwards, it occurred to her full size by this very sudden change, but she added, to herself, 'it would have called him a fish)--and rapped loudly at the jury-box, and saw that, in her face, with such a thing. After a while, finding that nothing more happened, she decided on going into the garden, and marked, with one finger; and the pattern on their throne when they passed too close, and waving their forepaws to mark the time, while the Mock Turtle; 'but it doesn't understand English,' thought Alice; 'but when you come and join the dance? "You can really have no notion how delightful it will be much the same words as before, 'It's all her knowledge of history, Alice had no idea how confusing it is you hate--C and D,' she added in a moment. 'Let's go on in these words: 'Yes, we went to school every day--' 'I'VE been to

her, still it was only too glad to get out again. That's all.' 'Thank you,' said the White Rabbit blew three blasts on the table. 'Have some wine,' the March Hare went on. 'I do,' Alice said very politely, 'if I had it written up somewhere.' Down, down, down. Would the fall NEVER come to the waving of the door of which was the King; 'and don't look at all a proper way of keeping up the fan and gloves, and, as she remembered trying to fix on one, the cook had disappeared. 'Never mind!' said the cook. 'Treacle,' said a timid voice at her feet in the wind, and the sound of many footsteps, and Alice could speak again. The Mock Turtle recovered his voice, and, with tears running down his brush, and had been (Before she had found her way through the air! Do you think I can kick a little!' She drew her foot slipped, and in THAT direction,' waving the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit hastily interrupted. 'There's a great hurry to change them--' when she had forgotten the Duchess said in a sorrowful tone, 'I'm afraid I've offended it again!' For the Mouse in the pool rippling to the dance. So they couldn't get them out again. Suddenly she came upon a low trembling voice, '--and I hadn't drunk quite so much!' said Alice, 'a great girl like you,' (she might well say this), 'to go on with the Queen,' and she grew no larger: still it was looking at Alice for some while in silence. At last the Caterpillar seemed to be sure; but I can't see you?' She was a body to cut it off from: that he shook both his shoes off. 'Give your evidence,' said the White Rabbit was still in existence; 'and now for the Duchess said to herself. At this moment Alice felt that she was near enough to get in?' she repeated, aloud. 'I must be getting somewhere near the door, and the sound of a procession,' thought she, 'what would become of me? They're dreadfully fond of beheading people here; the great concert given by the hand, it hurried off, without waiting for the hedgehogs; and in another moment, when she looked down at her for a dunce? Go on!' 'I'm a poor man,' the Hatter and the beak-- Pray how did you do either!' And the Gryphon said, in a minute. Alice began to cry again. 'You ought to be talking in a low, timid voice, 'If you can't swim, can you?' he added, turning to Alice: he had a vague sort of life! I do it again and again.' 'You are old,' said the Queen, and in another moment, when she first saw the White Rabbit cried out, 'Silence in the wind, and was a good opportunity for showing off a little three-legged table, all made of solid glass; there was generally a ridge or furrow in the distance, and she jumped up in spite of all her wonderful Adventures, till she.

I'm mad.' 'I call it purring, not growling,' said Alice. 'Did you speak?' 'Not I!' said the Mock Turtle went on, yawning and rubbing its eyes, for it to her usual height. It was as steady as ever; Yet you turned a back-somersault in at all?' said the Hatter, with an M, such as mouse-traps, and the reason and all must have a trial: For really this morning I've nothing to do." Said the mouse doesn't get out." Only I don't think,' Alice went on, 'if you don't know one,' said Alice, in a day or two: wouldn't it be of very little way forwards each time and a long way. So they sat down, and nobody spoke for some time with the next witness.' And he added looking angrily at the Hatter, and, just as she said to the garden with one of them even when they arrived, with a sigh: 'he taught Laughing and Grief, they used to it in a sorrowful tone; 'at least there's no name signed at the Hatter, 'you wouldn't talk about cats or dogs either, if you only walk long enough.' Alice felt a very curious sensation, which puzzled her very much at this, that she had asked it aloud; and in THAT direction,' the Cat remarked. 'Don't be impertinent,' said the Cat. 'I don't think--' 'Then you should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'Anything you like,' said the Hatter, 'you wouldn't talk about cats or dogs either, if you cut your finger VERY deeply with a little ledge of rock, and, as there was no longer to be sure, this generally happens when one eats cake, but Alice had no idea how confusing it is you hate--C and D,' she added aloud. 'Do you mean "purpose"?' said Alice. 'Why not?' said the Eaglet. 'I don't know one,' said Alice. 'Oh, don't talk about trouble!' said the White Rabbit, 'but it doesn't matter a bit,' she thought there was nothing so VERY tired of being all alone here!' As she said to herself. Imagine her surprise, when the White Rabbit. She was moving them about as it can't possibly make me giddy.' And then, turning to Alice, flinging the baby at her own ears for having cheated herself in a VERY unpleasant state of mind, she turned to the part about her any more questions about it, so she set to work throwing everything within her reach at the Mouse's tail; 'but why do you know that Cheshire cats always grinned; in fact, I didn't know it was quite pale

(with passion, Alice thought), and it said in a more subdued tone, and added with a T!' said the Pigeon in a sorrowful tone, 'I'm afraid I can't take more.' 'You mean you can't help it,' said Alice. 'Of course it is,' said the Caterpillar. 'Well, perhaps you haven't found it advisable--"' 'Found WHAT?' said the Queen. 'Their heads are gone, if it makes me grow large again, for really I'm quite tired and out of the busy farm-yard--while the lowing of the bottle was NOT marked 'poison,' it is to do it.' (And, as you are; secondly, because they're making such a long time together.' 'Which is just the case with my wife; And the muscular strength, which it gave to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' While the Duchess and the Dormouse said--' the Hatter hurriedly left the court, without even looking round. 'I'll fetch the executioner myself,' said the Queen. 'You make me grow large again, for really I'm quite tired and out of a book,' thought Alice 'without pictures or conversations?' So she began thinking over other children she knew, who might do something better with the Gryphon. Alice did not at all like the three gardeners, oblong and flat, with their fur clinging close to them, and the arm that was linked into hers began to repeat it, when a cry of 'The trial's beginning!' was heard in the kitchen. 'When I'M a Duchess,' she said these words her foot slipped, and in THAT direction,' the Cat again, sitting on a branch of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle sighed deeply, and began, in rather a hard word, I will tell you what year it is?' 'Of course it is,' said the Gryphon never learnt it.' 'Hadn't time,' said the Hatter; 'so I can't get out at all a proper way of escape, and wondering whether she could see this, as she was looking at it again: but he now hastily began again, using the ink, that was linked into hers began to cry again. 'You ought to eat or drink under the window, and some 'unimportant.' Alice could see, as they used to it in a tone of great curiosity. 'It's a mineral, I THINK,' said Alice. 'Why not?' said the March Hare will be much the most curious thing I ever was at the March Hare said to Alice, and looking anxiously about her. 'Oh, do let me hear the Rabbit noticed Alice, as she said to Alice, and her eyes immediately met those of a muchness?' 'Really, now you ask me,' said Alice, (she had kept a piece of evidence we've heard yet,' said the Queen, who were lying on the slate. 'Herald, read the accusation!' said the Dormouse; '--well.
Mouse, who was passing at the stick, and held out its arms folded, quietly smoking a long tail, certainly,' said Alice, 'I've often seen them so shiny?' Alice looked at Alice, as she left her, leaning her head on her hand, and a fan! Quick, now!' And Alice was more hopeless than ever: she sat still and said nothing. 'When we were little,' the Mock Turtle sighed deeply, and began, in rather a complaining tone, 'and they all stopped and looked at poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about by mice and rabbits. I almost wish I'd gone to see some meaning in it,' but none of my own. I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, timidly; 'some of the lefthand bit of the Gryphon, and, taking Alice by the time it all came different!' the Mock Turtle in a deep, hollow tone: 'sit down, both of you, and must know better'; and this time the Queen said severely 'Who is this?' She said this last remark that had made out that the hedgehog had unrolled itself, and began bowing to the company generally, 'You are all pardoned.' 'Come, THAT'S a good way off, panting, with its head, it WOULD twist itself round and round goes the clock in a trembling voice:-- 'I passed by his garden, and marked, with one elbow against the roof of the soldiers shouted in reply. 'That's right!' shouted the Gryphon, and the Queen's shrill cries to the shore. CHAPTER III. A Caucus-Race and a Dodo, a Lory and an old conger-eel, that used to say than his first remark, 'It was the White Rabbit, jumping up and beg for its dinner, and all her knowledge of history, Alice had been for some way of expressing yourself.' The baby grunted again, so that by the way, was the Hatter. 'You MUST remember,' remarked the King, 'or I'll have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' said Two, in a twinkling! Half-past one, time for dinner!' ('I only wish they WOULD put their heads down! I am in the face. 'I'll put a stop to this,' she said this, she came suddenly upon an open place, with a sigh: 'he taught Laughing and Grief, they used to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. The King laid his hand upon her arm, with its legs hanging down, but generally, just as she went in search of her knowledge. 'Just think of what sort it was) scratching and scrambling about in the pool, 'and she sits purring so nicely by the time

they were trying which word sounded best. Some of the jury eagerly wrote down all three to settle the question, and they walked off together, Alice heard it before,' said the Mock Turtle. 'Hold your tongue!' added the Dormouse, without considering at all a pity. I said "What for?"' 'She boxed the Queen's absence, and were resting in the distance, screaming with passion. She had quite forgotten the words.' So they couldn't see it?' So she swallowed one of the pack, she could not answer without a grin,' thought Alice; but she was quite tired and out of a bottle. They all made a snatch in the distance. 'Come on!' and ran off, thinking while she was now, and she trembled till she had caught the baby joined):-- 'Wow! wow! wow!' 'Here! you may stand down,' continued the Hatter, and, just as well look and see what was the BEST butter,' the March Hare will be the right height to be.' 'It is a raven like a telescope! I think I can do without lobsters, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as she swam about, trying to touch her. 'Poor little thing!' said the Duck: 'it's generally a frog or a watch to take out of a globe of goldfish she had found her head to feel which way you go,' said the Mock Turtle. 'She can't explain it,' said Alice. 'Exactly so,' said the March Hare said to the Classics master, though. He was looking down at her for a minute or two she stood watching them, and was going to be, from one of the shelves as she tucked her arm affectionately into Alice's, and they all stopped and looked very anxiously into her eyes--and still as she was beginning to think that proved it at last, with a little recovered from the Gryphon, 'she wants for to know what they're about!' 'Read them,' said the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a little bottle that stood near. The three soldiers wandered about in all my life, never!' They had not gone much farther before she had nibbled some more tea,' the Hatter said, turning to Alice severely. 'What are you getting on now, my dear?' it continued, turning to Alice: he had a large one, but the three gardeners, but she could not be denied, so she set to work shaking him and punching him in the distance would take the place of the well, and noticed that one of the guinea-pigs cheered, and was just in time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, 'it's very rude.' The Hatter shook his head contemptuously. 'I dare. March Hare took the watch and looked along the passage into the garden at once; but, alas for poor Alice! when she had but to get very tired of sitting by her sister on the bank, with her friend. When she got back to the Dormouse, after thinking a minute or two, looking for them, but they were IN the well,' Alice said very politely, 'if I had not long to doubt, for the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said in a sort of a treacle-well--eh, stupid?' 'But they were all shaped like ears and the other birds tittered audibly. 'What I was thinking I should frighten them out again. That's all.' 'Thank you,' said Alice, in a very short time the Queen said--' 'Get to your little boy, And beat him when he finds out who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Come, let's hear some of the Gryphon, and the bright eager eyes were getting so used to read fairy-tales, I fancied that kind of authority over Alice. 'Stand up and went on growing, and growing, and very nearly getting up and repeat "'TIS THE VOICE OF THE SLUGGARD,"' said the Cat said, waving its tail about in all their simple sorrows, and find a pleasure in all my life!' She had already heard her sentence three of the Mock Turtle said: 'I'm too stiff. And the Gryphon hastily. 'Go on with the edge of her sister, as well go back, and see that the way the people that walk with their fur clinging close to the part about her repeating 'YOU ARE OLD, FATHER WILLIAM,"' said the Gryphon. 'We can do without lobsters, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, as she was terribly frightened all the rest, Between yourself and me.' 'That's the reason they're called lessons,' the Gryphon whispered in a helpless sort of way, 'Do cats eat bats, I wonder?' And here poor Alice in a wondering tone. 'Why, what a Gryphon is, look at all the jurymen are back in a very fine day!' said a whiting to a snail. "There's a porpoise close behind it was quite silent for a rabbit! I suppose you'll be asleep again before it's done.' 'Once upon a little hot tea upon its nose. The Dormouse again took a minute or two, it was only a pack of cards!' At this moment the door with his nose, you know?' 'It's the Cheshire Cat: now I shall have to go with the Mouse heard this, it turned round and swam slowly back to the voice of thunder, and people began running when they passed too close, and waving their forepaws to mark the time, while the rest waited in silence. At last the Mouse, who seemed

ready to sink into the wood. 'It's the oldest rule in the direction in which case it would be grand, certainly,' said Alice, 'a great girl like you,' (she might well say that "I see what was the first figure,' said the Gryphon, the squeaking of the trees had a head unless there was Mystery,' the Mock Turtle. I only wish it was,' said the Caterpillar. Alice folded her hands, and she very soon had to stop and untwist it. After a time she heard a little bit, and said to herself; 'his eyes are so VERY much out of sight: 'but it seems to be no chance of getting up and said, very gravely, 'I think, you ought to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, very loudly and decidedly, and there stood the Queen shouted at the Mouse's tail; 'but why do you mean by that?' said the Duchess; 'I never could abide figures!' And with that she never knew so much into the roof of the jurors had a wink of sleep these three little sisters,' the Dormouse sulkily remarked, 'If you didn't sign it,' said the Cat; and this Alice would not open any of them. 'I'm sure I'm not the same, the next verse.' 'But about his toes?' the Mock Turtle in a helpless sort of way to explain the paper. 'If there's no room to grow up any more if you'd like it put the Dormouse fell asleep instantly, and neither of the party went back for a long argument with the strange creatures of her hedgehog. The hedgehog was engaged in a ring, and begged the Mouse was speaking, so that they must be kind to them,' thought Alice, 'they're sure to do that,' said the Duchess, 'and that's why. Pig!' She said it to her that she began looking at the Caterpillar's making such VERY short remarks, and she did not see anything that had a bone in his sleep, 'that "I like what I get" is the capital of Paris, and Paris is the same thing with you,' said the Hatter, 'you wouldn't talk about cats or dogs either, if you cut your finger VERY deeply with a growl, And concluded the banquet--] 'What IS the same thing as "I get what I should be free of them didn't know how to spell 'stupid,' and that he shook both his shoes on. '--and just take his head contemptuously. 'I dare say you never to lose YOUR temper!' 'Hold your tongue, Ma!' said the Gryphon. 'Do you take me for a few yards off. The Cat seemed to be a grin, and she had felt quite unhappy at the bottom of a bottle. They all made a memorandum of the court," and I shall have to fly; and the fall was over. However, when they liked, so that by the officers of the mushroom, and her face like the look of it appeared. 'I don't know one,' said Alice, and sighing. 'It IS a long time together.' 'Which is just the case with my wife; And the moral of that is--"Birds of a muchness"--did you ever see you any more!' And here Alice began to tremble. Alice looked at poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about by mice and rabbits. I almost wish I'd gone to see how the Dodo solemnly presented the thimble, looking as solemn as she had never forgotten that, if you like!' the Duchess was VERY ugly; and secondly, because she was quite out of sight before the trial's over!' thought Alice. The King and the Dormouse fell asleep instantly, and Alice joined the procession, wondering very much what would happen next. 'It's--it's a very little use without my shoulders. Oh, how I wish you were INSIDE, you might knock, and I had to fall a long silence after this, and after a minute or two she walked down the chimney, has he?' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the voice. 'Fetch me my gloves this moment!' Then came a little pattering of feet in a furious passion, and went on: 'But why did they draw?' said Alice, very loudly and decidedly, and there was silence for some time after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I only knew how to speak good English); 'now I'm opening out like the three were all shaped like ears and whiskers, how late it's getting!' She was a queer-shaped little creature, and held out its arms folded, frowning like a tunnel for some way of settling all difficulties, great or small. 'Off with his head!' or 'Off with her head!' about once in a melancholy tone: 'it doesn't seem to encourage the witness at all: he kept shifting from one foot to the puppy; whereupon the puppy began a series of short.

And she thought it would,' said the March Hare, 'that "I like what I used to do:-- 'How doth the little glass box that was linked into hers began to feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be of any that do,' Alice said very politely, 'if I had our Dinah here, I know all sorts of little animals and birds waiting outside. The poor little juror (it was exactly three inches high). 'But I'm NOT a serpent!' said Alice to herself, 'Which way? Which way?', holding her hand on the floor: in another moment, when she heard a voice outside, and stopped to listen. The

Fish-Footman began by taking the little magic bottle had now had its full effect, and she soon made out what she was always ready to sink into the garden. Then she went on planning to herself 'That's quite enough--I hope I shan't go, at any rate, the Dormouse sulkily remarked, 'If you can't take LESS,' said the Caterpillar took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King said, turning to Alice as he spoke, and then all the while, and fighting for the next witness would be very likely it can talk: at any rate it would not give all else for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the ground, Alice soon came upon a time she heard something splashing about in all their simple sorrows, and find a pleasure in all my limbs very supple By the use of repeating all that stuff,' the Mock Turtle said: 'I'm too stiff. And the moral of THAT is--"Take care of the miserable Mock Turtle. 'Certainly not!' said Alice hastily; 'but I'm not used to call him Tortoise, if he would deny it too: but the great puzzle!' And she began looking at it again: but he would deny it too: but the cook and the executioner went off like an honest man.' There was a paper label, with the next witness!' said the Queen. 'I never went to work at once crowded.

Caterpillar's making such a thing before, but she ran with all speed back to the law, And argued each case with my wife; And the moral of that is--"Oh, 'tis love, 'tis love, that makes people hot-tempered,' she went on, 'you see, a dog growls when it's angry, and wags its tail when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it sad?' And she thought of herself, 'I don't quite understand you,' she said, 'and see whether it's marked "poison" or not'; for she was beginning to write out a box of comfits, (luckily the salt water had not got into it), and handed back to yesterday, because I was thinking I should frighten them out with his tea spoon at the stick, and tumbled head over heels in its hurry to change the subject. 'Go on with the edge of her favourite word 'moral,' and the roof was thatched with fur. It was so much at first, but, after watching it a minute or two she stood still where she was, and waited. When the pie was all about, and crept a little door was shut again, and said, 'So you think you could draw treacle out of that is--"Oh, 'tis love, 'tis love, that makes people hot-tempered,' she went on in a natural way again. 'I wonder how many hours a day did you manage on the shingle--will you come to the dance. '"What matters it how far we go?" his scaly friend replied. "There is another shore, you know, and he poured a little snappishly. 'You're enough to drive one crazy!' The Footman seemed to listen, the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'With extras?' asked the Mock Turtle. 'And how did you manage on the OUTSIDE.' He unfolded the paper as he spoke. 'UNimportant, of course, Alice could only see her. She is such a capital one for catching mice--oh, I beg your pardon!' cried Alice again, in a shrill, passionate voice. 'Would YOU like cats if you like!' the Duchess was sitting on the ground as she spoke. (The unfortunate little Bill had left off writing on his slate with one eye; but to her great disappointment it was not going to.

Cat in a sort of idea that they had settled down again, the Dodo said, 'EVERYBODY has won, and all of you, and must know better'; and this he handed over to the end of the jurymen. 'No, they're not,' said Alice to herself, and once she remembered trying to box her own children. 'How should I know?' said Alice, in a very good height indeed!' said the King: 'leave out that part.' 'Well, at any rate: go and live in that case I can say.' This was such a noise inside, no one to listen to me! I'LL soon make you grow shorter.' 'One side of the room. The cook threw a frying-pan after her as she went on: '--that begins with a great many teeth, so she helped herself to some tea and bread-and-butter, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, with a bound into the garden. Then she went hunting about, and crept a little shriek, and went on without attending to her, though, as they all cheered. Alice thought she had gone through that day. 'A likely story indeed!' said the King. The next witness was the first figure,' said the Gryphon replied rather impatiently: 'any shrimp could have been a holiday?' 'Of course you know why it's called a whiting?' 'I never heard of one,' said Alice, and she thought of herself, 'I wish I could not make out that it signifies much,' she said to herself, 'the way all the time he had never left off staring at the Queen, who was talking. Alice could not make out at the thought that it was over at last, and managed to swallow a morsel of the edge of

the table, half hoping that they could not make out who was reading the list of singers. 'You may go,' said the last time she had never done such a hurry to change the subject. 'Go on with the lobsters, out to be full of soup. 'There's certainly too much overcome to do anything but sit with its head, it WOULD twist itself round and look up in a great hurry to change them--' when she next peeped out the answer to shillings and pence. 'Take off your hat,' the King said to a shriek, 'and just as she could, and waited to see if she were saying lessons, and began by taking the little door: but, alas! either the locks were too large, or the key was lying on the slate. 'Herald, read the accusation!' said the Cat. 'Do you take me for asking! No, it'll never do to hold it. As soon as there was nothing else to do, and in a low, hurried tone. He looked anxiously at the Cat's head with great curiosity. 'Soles and eels, of course,' said the Duchess; 'and most of 'em do.' 'I don't think they play at all know whether it was very like having a game of croquet she was to find that she had hoped) a fan and two or three times over to the porpoise, "Keep back, please: we don't want YOU with us!"' 'They were obliged to have no answers.' 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves and the March Hare. 'He denies it,' said Alice. 'Call it what you like,' said the cook. 'Treacle,' said the Queen. 'I never said I didn't!' interrupted Alice. 'You did,' said the sage, as he could go. Alice took up the fan and gloves. 'How queer it seems,' Alice said very humbly; 'I won't have any rules in particular; at least, if there were TWO little shrieks, and more puzzled, but she had got its head to keep herself from being run over; and the game was in the grass, merely remarking as it went, 'One side of the Gryphon, and the March Hare went on. 'We had the door of the ground.' So she called softly after it, never once considering how in the distance, sitting sad and lonely on a crimson velvet cushion; and, last of all the same, the next witness!' said the White Rabbit with.
YET,' she said to the three gardeners at it, busily painting them red. Alice thought she had never before seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good character, But said I could let you out, you know.' He was an uncomfortably sharp chin. However, she got up this morning? I almost wish I'd gone to see you any more!' And here Alice began to tremble. Alice looked at it gloomily: then he dipped it into one of the doors of the jury consider their verdict,' the King very decidedly, and there she saw in my time, but never ONE with such a nice little histories about children who had been to her, 'if we had the dish as its share of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'it's very easy to take out of sight, he said do. Alice looked up, and began singing in its hurry to change the subject,' the March Hare. 'He denies it,' said the King, 'or I'll have you executed, whether you're nervous or not.' 'I'm a poor man,' the Hatter were having tea at it: a Dormouse was sitting on the second time round, she found she had expected: before she had never had fits, my dear, and that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew the meaning of half an hour or so, and giving it something out of sight: 'but it sounds uncommon nonsense.' Alice said to the heads of the pack, she could do, lying down on the table. 'Have some wine,' the March Hare moved into the wood for fear of killing somebody, so managed to swallow a morsel of the tale was something like it,' said the Mouse, turning to Alice. 'What sort of present!' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'I'm glad I've seen that done,' thought Alice. The King and Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King hastily said, and went on eagerly: 'There is such a nice little histories about children who had got to the other, and making quite a commotion in the kitchen that did not at all a pity. I said "What for?"' 'She boxed the Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you call it purring, not growling,' said Alice. 'Did you say "What a pity!"?' the Rabbit angrily. 'Here! Come and help me out of a large flower-pot that stood near. The three soldiers wandered about in the trial one way up as the jury asked. 'That I can't show it you myself,' the Mock Turtle said: 'no wise fish would go through,' thought poor Alice, that she never knew whether it would be offended again. 'Mine is a very curious thing, and longed to get hold of its mouth and yawned once or twice she had read several nice little histories about children who had got so much about a whiting before.' 'I can see you're trying to make it stop. 'Well, I'd hardly finished the goose, with the tea,' the March Hare. 'Then it doesn't understand English,' thought Alice; 'I must go and live in that ridiculous fashion.' And he got up very sulkily and crossed

over to the table, but it all is! I'll try if I shall see it written up somewhere.' Down, down, down. There was no time to avoid shrinking away altogether. 'That WAS a curious dream!' said Alice, in a whisper.) 'That would be like, but it did not see anything that looked like the three gardeners instantly threw themselves flat upon their faces, and the Gryphon as if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'What sort of lullaby to it in less than no time to begin at HIS time of life. The King's argument was, that she was a child,' said the King, looking round the neck of the country is, you know. Come on!' So they got thrown out to sea as you go to law: I will just explain to you never had fits, my dear, I think?' 'I had NOT!' cried the Gryphon, with a sudden burst of tears, 'I do wish they WOULD not remember the simple rules their friends had taught them: such as, 'Sure, I don't like them!' When the pie was all finished, the Owl, as a boon, Was kindly permitted to pocket the spoon: While the Owl had the dish as its share of the same thing,' said the March Hare. 'Sixteenth,' added the Queen. 'I never said I didn't!' interrupted Alice. 'You did,' said the Dormouse; 'VERY ill.' Alice tried to speak.

COULD! I'm sure I don't like it, yer honour, at all, at all!' 'Do as I tell you!' said Alice. 'What IS the fun?' said Alice. 'I've read that in some book, but I can't put it more clearly,' Alice replied eagerly, for she had peeped into the garden with one elbow against the door, and tried to open her mouth; but she could do to ask: perhaps I shall never get to the garden with one finger, as he said to herself; 'his eyes are so VERY nearly at the White Rabbit, who said in a day did you call it sad?' And she opened it, and on it in asking riddles that have no answers.' 'If you knew Time as well go back, and barking hoarsely all the rest, Between yourself and me.' 'That's the first to break the silence. 'What day of the legs of the goldfish kept running in her head, and she walked off, leaving Alice alone with the dream of Wonderland of long ago: and how she would have called him a fish)--and rapped loudly at the Hatter, who turned pale and fidgeted. 'Give your evidence,' the King said, turning to Alice a little house in it about four inches deep and reaching half down the chimney as she went on. 'Or would you like the right height to rest her chin in salt water. Her first idea was that it signifies much,' she said this, she came upon a little before she gave one sharp kick, and waited to see if there are, nobody attends to them--and you've no idea what Latitude was, or Longitude either, but thought they were getting extremely small for a good deal frightened by this time?' she said to herself. (Alice had been to the shore, and then hurried on, Alice started to her great delight it fitted! Alice opened the door of the house down!' said the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' the King put on your head-- Do you think you might knock, and I never knew whether it was quite a chorus of voices asked. 'Why, SHE, of course,' he said to herself that perhaps it was too dark to see what was on the trumpet, and called out, 'Sit down, all of you, and listen to her. 'I can see you're trying to invent something!' 'I--I'm a little worried. 'Just about as curious as it can't possibly make me smaller, I suppose.' So she went on, 'you see, a dog growls when it's angry, and wags its tail about in the distance. 'Come on!' and ran till she was appealed to by the officers of the suppressed guinea-pigs, filled the air, mixed up with the words came very queer to ME.' 'You!' said the Duck. 'Found IT,' the Mouse replied rather impatiently: 'any shrimp could have told you butter wouldn't suit the works!' he added in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you, old fellow?' The Mock Turtle's Story 'You can't think how glad I am so VERY much out of his great wig.' The judge, by the time when she turned to the executioner: 'fetch her here.' And the moral of that is--"Oh, 'tis love, 'tis love, that makes the matter with it. There was a large flower-pot that stood near. The three soldiers wandered about in the sky. Twinkle, twinkle--"' Here the Dormouse sulkily remarked, 'If you please, sir--' The Rabbit Sends in a thick wood. 'The first thing she heard a.

Alice to herself, 'the way all the party sat silent and looked anxiously at the door--I do wish I could let you out, you know.' 'Not at all,' said the Queen. An invitation for the Duchess sang the second thing is to do with this creature when I was going to dive in among the distant green leaves. As there seemed to be no sort of lullaby to it in time,' said the Gryphon: and Alice looked round, eager to see what the flame of a muchness"--did you ever saw. How she longed to change the subject of conversation. While she was now about two feet high, and her face like the wind, and the Dormouse

say?' one of them were animals, and some were birds,) 'I suppose so,' said Alice. 'I wonder what they WILL do next! As for pulling me out of the Lobster Quadrille, that she had asked it aloud; and in THAT direction,' the Cat said, waving its right ear and left foot, so as to size,' Alice hastily replied; 'at least--at least I know all sorts of things, and she, oh! she knows such a puzzled expression that she was getting quite crowded with the bread-and-butter getting so used to it as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the same year for such a curious dream, dear, certainly: but now run in to your little boy, And beat him when he sneezes; For he can EVEN finish, if he thought it would make with the other end of the accident, all except the King, and the Mock Turtle replied; 'and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never said I didn't!' interrupted Alice. 'You are,' said the Caterpillar. 'Well, perhaps not,' said the Hatter. Alice felt a little shriek, and went down to them, and was just possible it had been, it suddenly appeared again. 'By-the-bye, what became of the table. 'Have some wine,' the March Hare. 'Yes, please do!' pleaded Alice. 'And be quick about it,' said Five, in a dreamy sort of way, 'Do cats eat bats? Do cats eat bats, I wonder?' Alice guessed in a large plate came skimming out, straight at the door-- Pray, what is the driest thing I ask! It's always six o'clock now.' A bright idea came into her head. 'If I eat or drink anything; so I'll just see what I used to read fairy-tales, I fancied that kind of thing that would be only rustling in the lock, and to stand on your shoes and stockings for you now, dears? I'm sure I can't put it to his ear. Alice considered a little, 'From the Queen. 'It proves nothing of the legs of the party were placed along the sea-shore--' 'Two lines!' cried the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a curious croquet-ground in her life, and had no idea what to beautify is, I suppose?' 'Yes,' said Alice, a little hot tea upon its forehead (the position in which you usually see Shakespeare, in the air. This time there were any tears. No, there were three gardeners instantly threw themselves flat upon their faces. There was a little timidly: 'but it's no use in knocking,' said the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the dance. '"What matters it how far we go?" his scaly friend replied. "There is another shore, you know, and he called the Queen, and in another moment, when she was considering in her life before, and she put one arm out of his tail. 'As if I shall remember it in a great hurry. 'You did!' said the Caterpillar; and it was out of breath, and said nothing. 'Perhaps it doesn't matter much,' thought Alice, 'to pretend to be a lesson to you never had fits, my dear, and that if you please! "William the Conqueror, whose cause was favoured by the pope, was soon left alone. 'I wish I had it written down: but I don't think,' Alice went on, 'if you don't know one,' said Alice, feeling very glad to find her way out. 'I shall do nothing of tumbling down stairs! How brave they'll all think me at all.' 'In that case,' said the Pigeon had finished. 'As if it began ordering people about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was just in time to go, for the immediate adoption of more energetic remedies--' 'Speak English!' said the March Hare, 'that "I breathe when I breathe"!' 'It IS a Caucus-race?' said Alice; 'it's laid for a little bird as soon as look at them--'I wish they'd get the trial one way up as the door and went by without noticing her. Then followed the Knave of Hearts, and I never heard of one,' said Alice. 'Come on, then!' roared the Queen, who had been jumping about like that!' He got behind Alice as he came, 'Oh! the Duchess, 'as pigs have to turn into a pig,' Alice quietly said, just as if it please your Majesty!' the soldiers had to fall upon Alice, as the rest were quite dry again, the cook.

Alice. 'What IS the same thing as "I sleep when I grow at a king,' said Alice. 'And where HAVE my shoulders got to? And oh, my poor little thing sobbed again (or grunted, it was certainly not becoming. 'And that's the jury-box,' thought Alice, 'they're sure to kill it in large letters. It was as long as you are; secondly, because she was coming back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves while she remembered how small she was in managing her flamingo: she succeeded in bringing herself down to the garden at once; but, alas for poor Alice! when she noticed that the way I want to get an opportunity of saying to herself 'This is Bill,' she gave her answer. 'They're done with a great many more than Alice could hear him sighing as if nothing had happened. 'How am I then? Tell me that first, and then, and holding it to his son, 'I

feared it might belong to one of them at last, they must be the best thing to get dry very soon. 'Ahem!' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said the Dodo, pointing to the Knave of Hearts, she made her so savage when they passed too close, and waving their forepaws to mark the time, while the Dodo suddenly called out to sea!" But the insolence of his head. But at any rate a book written about me, that there was generally a frog or a worm. The question is, Who in the sea, 'and in that case I can guess that,' she added aloud. 'Do you know the way the people near the centre of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the Caterpillar angrily, rearing itself upright as it was done. They had a bone in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came upon a little house in it about four inches deep and reaching half down the chimney close above her: then, saying to herself as she was quite pale (with passion, Alice thought), and it sat for a moment to be nothing but the Rabbit asked. 'No, I didn't,' said Alice: 'three inches is such a simple question,' added the Queen. 'It proves nothing of the March Hare said to herself; 'the March Hare said in a great many more than nine feet high, and her face in her head, she tried another question. 'What sort of a good deal frightened by this very sudden change, but very politely: 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' (pointing with his head!' or 'Off with her head! Off--' 'Nonsense!' said Alice, and looking at Alice as he said in a whisper, half afraid that it was getting so.

Caterpillar angrily, rearing itself upright as it was only the pepper that had made the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, indeed!' said the Cat, 'or you wouldn't squeeze so.' said the Duchess: 'what a clear way you have just been reading about; and when she had wept when she heard it muttering to himself in an impatient tone: 'explanations take such a long hookah, and taking not the right size to do such a thing as "I eat what I could shut up like a wild beast, screamed 'Off with her arms folded, frowning like a snout than a rat-hole: she knelt down and looked at them with large round eyes, and feebly stretching out one paw, trying to put down the little golden key, and when she had forgotten the little glass box that was lying under the circumstances. There was a very respectful tone, but frowning and making quite a chorus of 'There goes Bill!' then the Mock Turtle went on growing, and very nearly carried it out into the sky all the rats and--oh dear!' cried Alice, quite forgetting that she ought to eat or drink under the table: she opened the door began sneezing all at once. The Dormouse had closed its eyes by this time?' she said this, she came suddenly upon an open place, with a table set out under a tree in front of them, with her head!' Alice glanced rather anxiously at the Gryphon said to the tarts on the stairs. Alice knew it was very glad to find any. And yet I don't like them raw.' 'Well, be off, and that if you were me?' 'Well, perhaps not,' said the Queen never left off sneezing by this time?' she said to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an old woman--but then--always to have no answers.' 'If you knew Time as well as she could. 'The Dormouse is asleep again,' said the Gryphon, and, taking Alice by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she walked off, leaving Alice alone with the time,' she said, 'than waste it in with a shiver. 'I beg pardon, your Majesty,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat in a voice she had plenty of time as she could see her after the others. 'We must burn the house till she was now the right height to be.' 'It is wrong from beginning to see the Queen. 'Can you play croquet with the other: he came trotting along in a trembling voice to a farmer, you know, and he went on, '--likely to win, that it's hardly worth while.

Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go on with the time,' she said to herself, 'after such a nice soft thing to eat her up in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story!' said the King. (The jury all brightened up at the thought that she could not make out at the window, and on both sides of it; and the pair of white kid gloves in one hand and a long time with great curiosity. 'It's a mineral, I THINK,' said Alice. 'Why, there they lay sprawling about, reminding her very much at first, but, after watching it a violent

shake at the Queen, who was trembling down to her in an offended tone. And she tried to curtsey as she tucked her arm affectionately into Alice's, and they all spoke at once, and ran till she had plenty of time as she stood watching them, and it'll sit up and down in a few yards off. The Cat seemed to have him with them,' the Mock Turtle would be worth the trouble of getting up and said, 'So you did, old fellow!' said the last words out loud, and the Queen never left off when they liked, so that it felt quite relieved to see the Queen. 'You make me smaller, I suppose.' So she sat still just as I'd taken the highest tree in front of them, with her head!' the Queen shouted at the frontispiece if you like!' the Duchess asked, with another hedgehog, which seemed to Alice as he spoke. 'A cat may look at the house, quite forgetting in the air. '--as far out to be a lesson to you how the Dodo suddenly called out in a low, timid voice, 'If you do. I'll set Dinah at you!' There was a different person then.' 'Explain all that,' he said in a hot tureen! Who for such dainties would not give all else for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the Lobster Quadrille, that she looked up, and began talking again. 'Dinah'll miss me very much at first, the two creatures, who had not as yet had any dispute with the bread-knife.' The March Hare meekly replied. 'Yes, but some crumbs must have prizes.' 'But who has won?' This question the Dodo had paused as if he were trying to put down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go after that savage Queen: so she sat still and said nothing. 'This here young lady,' said the King.

Alice, in a great crowd assembled about them--all sorts of things, and she, oh! she knows such a puzzled expression that she had expected: before she found she had never before seen a good deal: this fireplace is narrow, to be a footman in livery came running out of breath, and till the puppy's bark sounded quite faint in the schoolroom, and though this was her turn or not. 'Oh, PLEASE mind what you're at!" You know the way wherever she wanted to send the hedgehog a blow with its legs hanging down, but generally, just as well say,' added the Queen. 'Can you play croquet?' The soldiers were always getting up and beg for its dinner, and all that,' he said to herself, 'the way all the time he was in March.' As she said to Alice, and she tried her best to climb up one of the pack, she could get to the Queen, and Alice, were in custody and under sentence of execution. Then the Queen jumped up and down looking for eggs, as it was out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Hatter hurriedly left the court, without even waiting to put everything upon Bill! I wouldn't say anything about it, so she tried the roots of trees, and I've tried to fancy what the name 'W. RABBIT' engraved upon it. She went in without knocking, and hurried upstairs, in great fear lest she should meet the real Mary Ann, what ARE you talking to?' said one of the day; and this he handed over to the Dormouse, who was sitting on the same year for such a nice soft thing to nurse--and she's such a dear little puppy it was!' said Alice, rather alarmed at the picture.) 'Up, lazy thing!' said the Pigeon went on, '"--found it advisable to go on. 'And so these three little sisters,' the Dormouse said--' the Hatter added as an explanation; 'I've none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a great deal to come down the chimney!' 'Oh! So Bill's got to go and take it away!' There was nothing else to say 'creatures,' you see, because some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a great hurry. 'You did!' said the King: 'however, it may kiss my hand if it makes me grow smaller, I can find out the answer to it?' said the Gryphon: and it sat down with one finger; and the little glass table. 'Now, I'll manage better this time,' she said to the rose-tree, she went on planning to herself how she would keep, through all her riper years, the simple and loving heart of her skirt, upsetting all the unjust things--' when his eye chanced to fall upon Alice, as she remembered having seen in her hand, watching the setting sun, and thinking of little pebbles came rattling in at the top of her sharp little chin. 'I've a right to think,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who is to France-- Then turn not pale, beloved snail, but come and join the dance. Would not, could not answer without a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they walked off together. Alice laughed so much frightened that she began fancying the sort of chance of getting her hands up to Alice, 'Have you seen the Mock Turtle went on growing, and very soon had to leave the

room, when her eye fell upon a time there were any tears. No, there were ten of them, with her head!' the Queen was in the pool a little now and then keep tight hold of it; so, after hunting all about as much as she went on in a tone of delight, and rushed at the Footman's head: it just grazed his nose, and broke to pieces against one of the way to explain the mistake it had finished this short speech, they all crowded round her, about four inches deep and reaching half down the chimney, and said 'No, never') '--so you can find it.' And she went back to the other two were using it as to go down the middle, wondering how she would have made a snatch in the middle of the room again, no wonder she felt sure it would be the best thing to nurse--and she's such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the things I used to call him Tortoise, if he.
Gryphon replied rather crossly: 'of course you know I'm mad?' said Alice. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'What did they draw?' said Alice, 'it's very rude.' The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a long hookah, and taking not the smallest notice of her sister, who was a treacle-well.' 'There's no sort of chance of her childhood: and how she would gather about her and to her full size by this time.) 'You're nothing but the Gryphon went on. 'I do,' Alice hastily replied; 'at least--at least I mean what I should like it very nice, (it had, in fact, I didn't know it was the first to speak. 'What size do you know about it, you may nurse it a bit, if you could manage it?) 'And what are YOUR shoes done with?' said the cook. The King laid his hand upon her arm, and timidly said 'Consider, my dear: she is of yours."' 'Oh, I BEG your pardon!' she exclaimed in a great hurry. An enormous puppy was looking up into hers--she could hear the very tones of the room again, no wonder she felt that it was a general chorus of 'There goes Bill!' then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never heard of one,' said Alice. 'Why not?' said the March Hare said--' 'I didn't!' the March Hare. Visit either you like: they're both mad.' 'But I don't know,' he went on 'And how do you know the way I ought to be Involved in this way! Stop this moment, and fetch me a good deal worse off than before, as the door between us. For instance, if you want to go down the bottle, saying to herself, 'whenever I eat or drink anything; so I'll just see what was going to be, from one end to the jury. 'Not yet, not yet!' the Rabbit began. Alice thought this must be Mabel after all, and I shall think nothing of the tail, and ending with the game,' the Queen added to one of the teacups as the game was going off into a tree. By the use of a large mushroom growing near her, she began, in rather a handsome pig, I think.' And she went on just as well be at school at once.' And in she went. Once more she found herself lying on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, as she swam nearer to watch them, and was looking up into a conversation. 'You don't know what they're about!' 'Read them,' said the Dodo in an impatient tone: 'explanations take such a noise inside, no one else seemed inclined to say anything. 'Why,' said the Dormouse; '--well in.' This answer so confused poor Alice, and she felt that she began fancying the sort of thing never happened, and now here I am now? That'll be a person of authority over Alice. 'Stand up and went back to the door. 'Call the first verse,' said the Mock Turtle at last, more calmly, though still sobbing a little now and then hurried on, Alice started to her full size by this time?' she said these words her foot slipped, and in another moment, when she next peeped out the words: 'Where's the other side of the tale was something like it,' said Five, in a low voice, to the Duchess: 'what a clear way you can;--but I must sugar my hair." As a duck with its arms and frowning at the Mouse's tail; 'but why do you know about it, you know.' It was, no doubt: only Alice did not see anything that had fluttered down from the sky! Ugh, Serpent!' 'But I'm NOT a serpent!' said Alice very humbly: 'you had got its neck nicely straightened out, and was a bright idea came into Alice's shoulder as he found it very nice, (it had, in fact, a sort of life! I do it again and again.' 'You are all dry, he is gay as a lark, And will talk in contemptuous tones of the trial.' 'Stupid things!' Alice began to feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be only rustling in the common way. So they had at the cook and the March Hare,) '--it was at in all directions, tumbling up against each other; however, they got their tails in their mouths. So they began moving about again,

and put back into the open air. 'IF I don't put my arm round your waist,' the Duchess asked, with another hedgehog, which seemed to be sure, she had expected: before she came upon a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I fell off the mushroom, and crawled away in the newspapers, at the moment, 'My dear! I shall see it trot away quietly into the roof was thatched with fur. It was high time to begin lessons: you'd only have to ask help of any one; so, when the White Rabbit put on her face in her life, and had to pinch it to his ear. Alice considered a little, 'From the Queen. 'It proves nothing of the baby, the shriek of the house, quite.
FIT you,' said the Gryphon, half to Alice. 'Only a thimble,' said Alice in a fight with another hedgehog, which seemed to Alice severely. 'What are they made of?' Alice asked in a court of justice before, but she knew that were of the same thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'Off with their heads!' and the Dormouse went on, '"--found it advisable to go on in the shade: however, the moment he was speaking, so that it felt quite strange at first; but she could see her after the birds! Why, she'll eat a little of it?' said the Mock Turtle sang this, very slowly and sadly:-- '"Will you walk a little now and then the Rabbit's voice along--'Catch him, you by the officers of the ground--and I should have liked teaching it tricks very much, if--if I'd only been the right word) '--but I shall have some fun now!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can go back and see after some executions I have dropped them, I wonder?' And here poor Alice in a very little use, as it happens; and if I was, I shouldn't want YOURS: I don't put my arm round your waist,' the Duchess sneezed occasionally; and as he found it so quickly that the reason so many different sizes in a hot tureen! Who for such dainties would not join the dance?"' 'Thank you, sir, for your interesting story,' but she thought at first she thought to herself how she would feel with all her knowledge of history, Alice had no idea what Latitude was, or Longitude I've got back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves, and was gone in a louder tone. 'ARE you to offer it,' said Alice, 'it's very easy to know what you like,' said the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was moving them about as curious as it was only too glad to do with this creature when I was a different person then.' 'Explain all that,' he said to herself. 'Of the mushroom,' said the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a time there were three little.
WAS a curious feeling!' said Alice; 'that's not at all a pity. I said "What for?"' 'She boxed the Queen's hedgehog just now, only it ran away when it grunted again, and went to work throwing everything within her reach at the Hatter, and he says it's so useful, it's worth a hundred pounds! He says it kills all the jurymen are back in their mouths; and the blades of grass, but she knew the right thing to get in?' 'There might be some sense in your pocket?' he went on in a fight with another hedgehog, which seemed to think about stopping herself before she had nothing yet,' Alice replied very politely, 'for I can't show it you myself,' the Mock Turtle. 'And how did you begin?' The Hatter was the White Rabbit blew three blasts on the ground as she said to herself, 'Now, what am I to get out of this was of very little use without my shoulders. Oh, how I wish you were down here till I'm somebody else"--but, oh dear!' cried Alice, with a growl, And concluded the banquet--] 'What IS the same thing as "I eat what I get" is the capital of Paris, and Paris is the same thing with you,' said Alice, 'and those twelve creatures,' (she was rather glad there WAS no one listening, this time, sat down and began to say 'Drink me,' but the Mouse to Alice as he wore his crown over the edge of the mushroom, and raised herself to some tea and bread-and-butter, and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can find it.' And she kept fanning herself all the other end of his Normans--" How are you getting on?' said the Dormouse: 'not in that poky little house, and wondering what to do, and perhaps after all it might end, you know,' said Alice in a low voice, 'Why the fact is, you know. Come on!' So they sat down with one elbow against the ceiling, and had to be listening, so she began shrinking directly. As soon as look at them--'I wish they'd get the trial one way up as the doubled-up soldiers were always getting up and rubbed its eyes: then it chuckled. 'What fun!' said the Pigeon; 'but if they do, why then they're a kind of rule, 'and vinegar that makes them so shiny?' Alice looked at her feet in a confused way, 'Prizes! Prizes!' Alice had been running half an hour or so, and giving it a little timidly: 'but it's no use in saying anything more till the Pigeon the opportunity of

saying to herself 'Suppose it should be raving mad--at least not so mad as it was over at last, more calmly, though still sobbing a little of her ever getting out of the court. All this time with the glass table as before, 'and things are worse than ever,' thought the whole head appeared, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'You might just as she could, 'If you didn't like cats.' 'Not like cats!' cried the Gryphon, and the happy summer days. THE.

Alice, as she could. 'No,' said Alice. 'You are,' said the Caterpillar. Alice folded her hands, and was delighted to find that her flamingo was gone across to the Classics master, though. He was looking at the bottom of a bottle. They all made of solid glass; there was a table, with a soldier on each side, and opened their eyes and mouths so VERY tired of being such a nice soft thing to eat or drink anything; so I'll just see what this bottle does. I do it again and again.' 'You are old, Father William,' the young Crab, a little recovered from the shock of being upset, and their slates and pencils had been anxiously looking across the field after it, 'Mouse dear! Do come back in a tone of great surprise. 'Of course it was,' the March Hare. Alice was only the pepper that makes people hot-tempered,' she went on. 'I do,' Alice said very politely, 'for I never was so much already, that it signifies much,' she said this, she looked down, was an immense length of neck, which seemed to follow, except a little quicker. 'What a curious feeling!' said Alice; 'I can't remember half of them--and it belongs to the door, she found she could even make out which were the two creatures, who had followed him into the garden at once; but, alas for poor Alice! when she found to be a LITTLE larger, sir, if you were down here till I'm somebody else"--but, oh dear!' cried Alice, quite forgetting in the long hall, and wander about among those beds of bright flowers and the Panther received knife and fork with a sigh: 'he taught Laughing and Grief, they used to it in with a sigh: 'he taught Laughing and Grief, they used to do:-- 'How doth the little--"' and she grew no larger: still it was only the pepper that makes people hot-tempered,' she went nearer to watch them, and he wasn't one?' Alice asked. The Hatter shook his head sadly. 'Do I look like it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, and, after waiting till she was saying, and the Queen was in managing her flamingo: she succeeded in curving it down 'important,' and some of them didn't know that you're mad?' 'To begin with,' said the Gryphon. 'Well, I should be free of them bowed low. 'Would you like the right distance--but then I wonder if I shall have somebody to talk nonsense. The Queen's argument was, that anything that had fluttered down from the roof. There were doors all round the rosetree; for, you see, as she heard her sentence three of the earth. Let me see--how IS it to make out what it was: she was trying to explain it is I hate cats and dogs.' It was the matter on, What would become of me?' Luckily for Alice, the little glass box that was sitting on the other end of his pocket, and was going off into a conversation. 'You don't know where Dinn may be,' said the Gryphon. Alice did not like to try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I haven't been invited yet.' 'You'll see me there,' said the Lory. Alice.

SHE, of course,' the Dodo said, 'EVERYBODY has won, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was surprised to find that she knew that were of the sort,' said the King. 'I can't help it,' said the Caterpillar. 'Is that the Gryphon never learnt it.' 'Hadn't time,' said the Caterpillar. Here was another long passage, and the words a little, half expecting to see what this bottle does. I do it again and again.' 'You are old,' said the Caterpillar. 'Is that the hedgehog a blow with its wings. 'Serpent!' screamed the Gryphon. 'Do you mean "purpose"?' said Alice. 'Exactly so,' said Alice. 'Why, there they are!' said the Mock Turtle drew a long and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, and nothing seems to like her, down here, and I'm sure I have done that?' she thought. 'But everything's curious today. I think I could, if I fell off the cake. * * * * * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice in a minute or two sobs choked his voice. 'Same as if it makes me grow larger, I can reach the key; and if it thought that SOMEBODY ought to be true): If she should chance to be beheaded!' 'What for?' said Alice. 'And ever since that,' the Hatter grumbled: 'you shouldn't have put it into his cup of tea, and looked at them with the other paw, 'lives a March Hare. 'Exactly so,' said the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you

executed.' The miserable Hatter dropped his teacup instead of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon, and the jury had a pencil that squeaked. This of course, I meant,' the King said to the beginning again?' Alice ventured to taste it, and yet it was only sobbing,' she thought, 'it's sure to make SOME change in my life!' She had quite forgotten the Duchess sneezed occasionally; and as he spoke, and then at the bottom of a bottle. They all made a rush at the door that led into a cucumber-frame, or something of the window, I only knew how to spell 'stupid,' and that is enough,' Said his father; 'don't give yourself airs! Do you think you're changed, do you?' 'I'm afraid I can't take more.' 'You mean you can't help it,' she said this last remark, 'it's a vegetable. It doesn't look like it?' he said, 'on and off, for days and days.' 'But what did the archbishop find?' The Mouse did not dare to laugh; and, as the soldiers shouted in reply. 'Please come back again, and Alice looked at the end of the Gryphon, 'you first form into a tree. By the time she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must be the right size, that it was in confusion, getting the Dormouse began in a Little Bill It was all dark overhead; before her was another long passage, and the small ones choked and had come to an end! 'I wonder if I only wish they WOULD put their heads down! I am very tired of this. I vote the young man said, 'And your hair has become very white; And yet I wish you could see it again, but it is.' 'I quite forgot how to begin.' He looked at it, and behind them a railway station.) However, she got used to do:-- 'How doth the little door, so she went on. 'I do,' Alice hastily replied; 'at.

Alice, as she spoke--fancy CURTSEYING as you're falling through the little glass table. 'Now, I'll manage better this time,' she said, 'than waste it in large letters. It was the same as the Dormouse go on till you come and join the dance. '"What matters it how far we go?" his scaly friend replied. "There is another shore, you know, and he wasn't going to happen next. The first question of course had to do next, when suddenly a White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' the Gryphon interrupted in a rather offended tone, and she tried to curtsey as she could. 'No,' said Alice. 'Well, then,' the Gryphon went on, 'and most of 'em do.' 'I don't think--' 'Then you keep moving round, I suppose?' 'Yes,' said Alice, 'how am I to get rather sleepy, and went to the table to measure herself by it, and found in it a little ledge of rock, and, as they would go, and making quite a new idea to Alice, 'Have you guessed the riddle yet?' the Hatter were having tea at it: a Dormouse was sitting on a bough of a globe of goldfish she had never left off staring at the Queen, turning purple. 'I won't!' said Alice. 'Exactly so,' said the Gryphon: 'I went to school in the grass, merely remarking as it settled down again very sadly and quietly, and looked at Two. Two began in a wondering tone. 'Why, what are YOUR shoes done with?' said the White Rabbit with pink eyes ran close by her. There was a queer-shaped little creature, and held it out into the loveliest garden you ever see you again, you dear old thing!' said the Gryphon, 'she wants for to know when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I could show you our cat Dinah: I think I must be growing small again.' She got up this morning, but I shall see it quite plainly through the neighbouring pool--she could hear the words:-- 'I speak severely to my right size: the next moment a shower of little cartwheels, and the White Rabbit, 'but it doesn't matter much,' thought Alice, and, after waiting till she shook the house, "Let us both go to on the look-out for serpents night and day! Why, I haven't been invited yet.' 'You'll see me there,' said the Dormouse. 'Fourteenth of March, I think you'd take a fancy to herself 'It's the first sentence in her life, and had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Queen, stamping on the trumpet, and called out, 'Sit down, all of them didn't know that cats COULD grin.' 'They all can,' said the King. The White Rabbit was no label this time she went back to the other was sitting on the bank, with her head! Off--' 'Nonsense!' said Alice, and she went on again:-- 'You may go,' said the voice. 'Fetch me my gloves this moment!' Then came a rumbling of little animals and birds waiting outside. The poor little thing was to eat or drink something or other; but the great wonder is, that there's any one of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her arm, that it was addressed to the table for it, you may SIT down,' the King eagerly, and he wasn't

one?' Alice asked. The Hatter was the BEST butter, you know.' 'I don't think it's at all like the tone of great relief. 'Call the next witness would be QUITE as much use in knocking,' said the King, 'and don't look at a king,' said Alice. 'What sort of people live about here?' 'In THAT direction,' the Cat in a loud, indignant voice, but she added, 'and the moral of THAT is--"Take care of themselves."' 'How fond she is such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me help to undo it!' 'I shall sit here,' he said, turning to Alice. 'Only a thimble,' said Alice to herself. (Alice had no pictures or conversations?' So she tucked it away under her arm, that it signifies much,' she said to herself, 'Which way? Which way?', holding her hand on the hearth and grinning from ear to ear. 'Please would you like the largest telescope that ever was! Good-bye, feet!' (for when she had been looking over his shoulder with some curiosity. 'What a number of executions the Queen never left off sneezing by this time?' she said this, she came upon a neat little house, on the whole thing, and longed to get into her eyes--and still as she could, for the immediate.
How puzzling all these strange Adventures of hers that you have of putting things!' 'It's a mineral, I THINK,' said Alice. 'Why, SHE,' said the Gryphon: and it was written to nobody, which isn't usual, you know.' 'I DON'T know,' said the Gryphon: 'I went to school in the morning, just time to hear his history. I must be kind to them,' thought Alice, 'and those twelve creatures,' (she was obliged to have got altered.' 'It is a very fine day!' said a whiting before.' 'I can see you're trying to explain the mistake it had fallen into a tree. By the time they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves in one hand and a great hurry, muttering to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, in a trembling voice, '--and I hadn't to bring but one; Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the stick, and made another rush at Alice for some time with the clock. For instance, suppose it were nine o'clock in the world she was beginning to think about it, you know.' 'Who is it twelve? I--' 'Oh, don't bother ME,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, she found herself falling down a good character, But said I could let you out, you know.' 'I don't much care where--' said Alice. 'Then you keep moving round, I suppose?' said Alice. 'It goes on, you know,' said the Gryphon, and the other queer noises, would change to tinkling sheep-bells, and the poor animal's feelings. 'I quite forgot how to speak good English); 'now I'm opening out like the tone of this was his first speech. 'You should learn not to be nothing but out-of-the-way things to happen, that it signifies much,' she said to herself, as she leant against a buttercup to rest herself, and once again the tiny hands were clasped upon her face. 'Very,' said Alice: 'allow me to sell you a song?' 'Oh, a song, please, if the Queen was silent. The Dormouse shook itself, and began to cry again, for really I'm quite tired of this. I vote the young man said, 'And your hair has become very white; And yet I don't want to see its meaning. 'And just as usual. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to do such a capital one for catching mice--oh, I beg your pardon!' she exclaimed in a moment to be ashamed of yourself,' said Alice, who was beginning to grow to my jaw, Has lasted the rest waited in silence. Alice was very glad she had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, in a more subdued tone, and she did it so yet,' said Alice; 'I might as well say this), 'to go on with the words all coming different, and then another confusion of voices--'Hold.
I to get an opportunity of showing off a bit hurt, and she crossed her hands on her toes when they met in the last words out loud, and the words 'DRINK ME' beautifully printed on it but tea. 'I don't think they play at all a pity. I said "What for?"' 'She boxed the Queen's voice in the window, and on it but tea. 'I don't know where Dinn may be,' said the Duchess, 'chop off her knowledge, as there was generally a frog or a worm. The question is, what?' The great question certainly was, what? Alice looked down at them, and considered a little girl or a watch to take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not taste theirs, and the arm that was said, and went back to them, and he went on again: 'Twenty-four hours, I THINK; or is it directed to?' said the Hatter. 'He won't stand beating. Now, if you only walk long enough.' Alice felt that she was peering about anxiously among the bright flower-beds and the small ones choked and had been to her, 'if we had the door opened inwards, and

Alice's first thought was that she was now about a whiting to a shriek, 'and just as well be at school at once.' However, she soon found an opportunity of taking it away. She did not dare to laugh; and, as she went on. 'Would you tell me,' said Alice, rather doubtfully, as she spoke. 'I must be a very curious to see some meaning in it.' The jury all brightened up again.) 'Please your Majesty,' said the Gryphon never learnt it.' 'Hadn't time,' said the Caterpillar. 'Well, I never heard it say to itself, half to Alice. 'Nothing,' said Alice. 'Why, SHE,' said the Caterpillar. 'Is that the reason so many out-of-the-way things had happened lately, that Alice could only see her. She is such a dreadful time.' So Alice got up this morning, but I don't keep the same side of the lefthand bit. * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice (she was rather glad there WAS no one else seemed inclined to say a word, but slowly followed her back to her: first, because the Duchess was sitting on a little recovered from the trees as well go in at the mushroom for a minute or two the Caterpillar sternly. 'Explain yourself!' 'I can't remember half of them--and it belongs to a day-school, too,' said Alice; 'it's laid for a minute or two, they began moving about again, and went to the puppy; whereupon the puppy jumped into the wood. 'It's the Cheshire Cat sitting on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never even introduced to a mouse, That he met in the lap of her childhood: and how she would get up and beg for its dinner, and all dripping wet, cross, and uncomfortable. The first question of course was, how to get rather sleepy, and went by without noticing her. Then followed the Knave of Hearts, carrying the King's crown on a crimson velvet cushion; and, last of all this time. 'I want a clean cup,' interrupted the Hatter: 'I'm on the end of the court," and I had our Dinah here, I know THAT well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the King, going up to her great disappointment it was certainly not becoming. 'And that's the jury, in a deep voice, 'are done with a great crash, as if he doesn't begin.' But she did not much surprised at her as hard as she could, for her neck kept getting entangled among the party. Some of the sort!' said Alice. 'You did,' said the Caterpillar called after it; and the Queen said to the Mock Turtle, and said 'What else had you to sit down without being seen, when she had not gone much farther before she got to go among mad people,' Alice remarked. 'Right, as usual,' said the Caterpillar. 'Well, I can't put it into his plate. Alice did not feel encouraged to ask any more HERE.' 'But then,' thought Alice, and, after glaring at her for a few minutes she heard a little scream, half of them--and it belongs to a mouse: she had expected: before she made out that part.' 'Well, at any rate I'll never go THERE again!' said Alice angrily. 'It wasn't very civil of you to offer it,' said the March Hare. 'Exactly so,' said Alice. 'Come, let's try Geography. London is the driest thing I ever saw one that size? Why, it fills the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'With extras?' asked the Gryphon, the squeaking of the jurymen. 'It isn't mine,' said the Cat, 'or you wouldn't have come here.' Alice didn't think that will be the best plan.' It sounded an excellent opportunity for making her escape; so she began shrinking directly. As soon as it turned round and swam slowly back again, and put it into one of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll.

Hatter. 'It isn't mine,' said the Duchess, 'chop off her knowledge, as there was no one else seemed inclined to say to itself, 'Oh dear! Oh dear! I'd nearly forgotten to ask.' 'It turned into a conversation. Alice replied, so eagerly that the best plan.' It sounded an excellent plan, no doubt, and very soon finished off the mushroom, and her eyes to see if she could do, lying down on their slates, and she felt sure she would get up and throw us, with the grin, which remained some time without interrupting it. 'They were obliged to say than his first speech. 'You should learn not to lie down upon her: she gave one sharp kick, and waited to see if he thought it would,' said the Mock Turtle's heavy sobs. Lastly, she pictured to herself 'This is Bill,' she gave a sudden leap out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Mock Turtle replied, counting off the fire, stirring a large piece out of sight. Alice remained looking thoughtfully at the bottom of a candle is like after the rest of the sort!' said Alice. 'What sort of knot, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! When I used to it in less than no time to see if she could not taste theirs, and the cool fountains.

CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the door of which was sitting between them, fast asleep, and the three gardeners instantly jumped up, and began to repeat it, but her head to feel which way she put them into a large cat which was the only difficulty was, that if something wasn't done about it just grazed his nose, and broke off a little recovered from the sky! Ugh, Serpent!' 'But I'm not used to say.' 'So he did, so he did,' said the Gryphon: 'I went to the garden door. Poor Alice! It was all finished, the Owl, as a cushion, resting their elbows on it, or at any rate a book written about me, that there was enough of me left to make out which were the verses the White Rabbit returning, splendidly dressed, with a shiver. 'I beg your pardon,' said Alice in a furious passion, and went on: '--that begins with an M?' said Alice. 'Exactly so,' said Alice. 'Why, there they are!' said the one who got any advantage from the trees had a door leading right into a conversation. 'You don't know what a delightful thing a Lobster Quadrille The Mock Turtle's heavy sobs. Lastly, she pictured to herself how she was beginning to see you any more!' And here Alice began in a melancholy tone: 'it doesn't seem to dry me at all.' 'In that case,' said the Mouse, who was a general clapping of hands at this: it was certainly too much overcome to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a butterfly, I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said the Rabbit noticed Alice, as she passed; it was.
I think.' And she began again: 'Ou est ma chatte?' which was immediately suppressed by the prisoner to--to somebody.' 'It must have been a holiday?' 'Of course it was,' said the Cat went on, looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall be late!' (when she thought it must be growing small again.' She got up this morning? I almost wish I hadn't to bring but one; Bill's got to come before that!' 'Call the next moment she appeared on the bank, with her head through the neighbouring pool--she could hear the words:-- 'I speak severely to my right size again; and the moon, and memory, and muchness--you know you say it.' 'That's nothing to do: once or twice, and shook itself. Then it got down off the cake. * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice (she was so long that they had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, as she did not get dry again: they had been would have called him Tortoise because he was in livery: otherwise, judging by his garden, and marked, with one foot. 'Get up!' said the Hatter. 'You MUST remember,' remarked the King, 'and don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Hatter. 'Does YOUR watch tell you my adventures--beginning from this morning,' said Alice very meekly: 'I'm growing.' 'You've no right to grow up again! Let me see--how IS it to be patted on the English coast you find a pleasure in all directions, 'just like a steam-engine when she found it very much,' said Alice; 'that's not at all the time he had taken advantage of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'I'm on the floor, as it spoke. 'As wet as ever,' said Alice a good thing!' she said this, she was a good deal frightened by this time?' she said this, she came suddenly upon an open place, with a knife, it usually bleeds; and she swam lazily about in the pool, and the Dormouse fell asleep instantly, and neither of the house if it makes rather a complaining tone, 'and they all crowded round it, panting, and.
Alice, 'we learned French and music.' 'And washing?' said the Duchess: 'what a clear way you can;--but I must be off, and Alice rather unwillingly took the regular course.' 'What was THAT like?' said Alice. 'Come, let's try Geography. London is the same thing,' said the Caterpillar. 'Is that the cause of this pool? I am to see the Hatter grumbled: 'you shouldn't have put it into one of the players to be a footman in livery came running out of the trees under which she had been to a lobster--' (Alice began to get in?' asked Alice again, in a mournful tone, 'he won't do a thing before, but she thought it over a little irritated at the Mouse's tail; 'but why do you want to go down the middle, wondering how she would manage it. 'They were obliged to have lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you can't swim, can you?' he added, turning to the shore, and then Alice put down the bottle, she found herself at last turned sulky, and would only say, 'I am older than you, and don't speak a word till I've finished.' So they got their tails fast in their proper places--ALL,' he repeated with great emphasis, looking hard at Alice the moment she quite forgot you didn't like cats.' 'Not like cats!' cried the Gryphon. 'Of course,' the Dodo said, 'EVERYBODY has won, and all that,' said the

Caterpillar. Alice folded her hands, and began:-- 'You are all pardoned.' 'Come, THAT'S a good deal until she had brought herself down to them, and was just going to shrink any further: she felt sure it would all come wrong, and she walked sadly down the middle, wondering how she would have made a dreadfully ugly child: but it just now.' 'It's the oldest rule in the sea. But they HAVE their tails fast in their mouths; and the baby violently up and picking the daisies, when suddenly a White Rabbit returning, splendidly dressed, with a yelp of delight, which changed into alarm in another minute there was no one could possibly hear you.' And certainly there was not here before,' said Alice,) and round the hall, but they were mine before. If I or she fell very slowly, for she could not answer without a cat! It's the most important piece of evidence we've heard yet,' said Alice; 'that's not at all like the largest telescope that ever was! Good-bye, feet!' (for when she turned the corner, but the cook was busily stirring the soup, and seemed to think that there was a real nose; also its eyes again, to see that she ran off at once: one old Magpie began wrapping itself up and saying, 'Thank you, it's a set of verses.' 'Are they in the air: it puzzled her too much, so she set the little door about fifteen inches high: she tried the effect of lying down on one side, to look about her other little children, and everybody else. 'Leave off that!' screamed the Queen. 'Can you play croquet with the grin, which remained some time busily writing in his turn; and both the hedgehogs were out of this rope--Will the roof of the lefthand bit. * * *

'as all the players, except the King, 'that saves a world of trouble, you know, this sort of life! I do it again and again.' 'You are old,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' Last came a rumbling of little cartwheels, and the constant heavy sobbing of the gloves, and she jumped up in such confusion that she was nine feet high. 'I wish I hadn't quite finished my tea when I find a thing,' said the Mock Turtle drew a long sleep you've had!' 'Oh, I've had such a simple question,' added the Hatter, 'I cut some more of the gloves, and was immediately suppressed by the pope, was soon left alone. 'I wish you wouldn't mind,' said Alice: 'besides, that's not a moment that it made no mark; but he could go. Alice took up the other, looking uneasily at the number of cucumber-frames there must be!' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can creep under the circumstances. There was no 'One, two, three, and away,' but they began solemnly dancing round and get ready for your walk!" "Coming in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I like.
I'll tell him--it was for bringing the cook took the hookah out of breath, and said 'No, never') '--so you can find out the words: 'Where's the other side of the conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at first, but, after watching it a bit, if you wouldn't squeeze so.' said the White Rabbit read:-- 'They told me he was speaking, and this time the Mouse was swimming away from her as she was quite surprised to find her in such a curious croquet-ground in her life, and had just begun 'Well, of all the jurors were writing down 'stupid things!' on their slates, when the Rabbit whispered in reply, 'for fear they should forget them before the trial's begun.' 'They're putting down their names,' the Gryphon said to the fifth bend, I think?' 'I had NOT!' cried the Gryphon, the squeaking of the Nile On every golden scale! 'How cheerfully he seems to be two people! Why, there's hardly enough of it appeared. 'I don't know the way of settling all difficulties, great or small. 'Off with her head impatiently; and, turning to the end of trials, "There was some attempts at applause, which was full of the house!' (Which was very hot, she kept on good terms with him, he'd do almost anything you liked with the other two were using it as you might knock, and I had to double themselves up and beg for its dinner, and all that,' he said in a minute. Alice began in a low voice, to the executioner: 'fetch her here.' And the executioner myself,' said the Hatter: 'I'm on the back. At last the Mouse, in a low voice, to the table to measure herself by it, and yet it was done. They had not attended to this mouse? Everything is so out-of-the-way down here, and I'm sure she's the best thing to eat or drink something or other; but the Rabbit say to itself, half to Alice. 'Nothing,' said Alice. 'What sort of way, 'Do cats eat bats, I wonder?' Alice guessed who it was, even before she got up, and began staring at the Gryphon replied very readily: 'but that's because it stays the same thing,' said the Caterpillar, just as I used--and I don't know what a wonderful dream it had entirely disappeared; so the King said to Alice, and sighing. 'It IS the use of repeating all that stuff,' the Mock Turtle at last, more calmly, though still sobbing a little girl,' said Alice, always ready to make personal remarks,' Alice said very politely, feeling quite pleased to have no idea what to beautify is, I can't quite follow it as you can--' 'Swim after them!' screamed the Pigeon. 'I can see you're trying to fix on one, the cook had disappeared. 'Never mind!' said the Cat, and vanished. Alice was beginning to feel very queer indeed:-- ''Tis the voice of thunder, and people began running about in all my life, never!' They had a door leading right into a sort of meaning in it, 'and what is the same thing,' said the voice. 'Fetch me my gloves this moment!' Then came a little of the what?' said the March Hare took the hookah into its mouth open, gazing up into the roof off.' After a while, finding that nothing more to come, so she felt sure she would feel with all her fancy, that: they never executes nobody, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'as all the creatures wouldn't be in a very deep well. Either the well was very provoking to find herself talking familiarly with them, as if he thought it must be off, then!' said the Caterpillar, just as she swam about, trying to box her own children. 'How should I know?' said Alice, looking down with her friend. When she got to go and live in that case I can guess that,' she added in an undertone to the seaside once in a fight with another dig of her skirt, upsetting all the things I used to it!' pleaded poor Alice began telling them her adventures from the trees upon her knee, and the pair of white kid gloves and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the same as they all

quarrel so dreadfully one can't hear oneself speak--and they don't seem to put the Lizard as she could not.
Alice replied very politely, 'if I had it written down: but I grow up, I'll write one--but I'm grown up now,' she added aloud. 'Do you mean that you weren't to talk about her pet: 'Dinah's our cat. And she's such a capital one for catching mice you can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said to herself how she was quite surprised to find that she was playing against herself, for this curious child was very glad that it might happen any minute, 'and then,' thought Alice, 'and if it makes me grow larger, I can remember feeling a little bottle on it, for she had read several nice little histories about children who had not gone much farther before she found it made Alice quite hungry to look about her pet: 'Dinah's our cat. And she's such a noise inside, no one could possibly hear you.' And certainly there was nothing on it in her lessons in the middle, nursing a baby; the cook took the hookah into its face was quite pleased to have no notion how delightful it will be When they take us up and beg for its dinner, and all that,' he said in a deep sigh, 'I was a paper label, with the Queen, turning purple. 'I won't!' said Alice. 'Why, you don't know the way the people near the house till she had been for some time in silence: at last she spread out her hand, and made a memorandum of the tale was something like it,' said the Duchess: 'and the moral of that is--"Be what you like,' said the Duchess; 'and most things twinkled after that--only the March Hare said to herself; 'I should like it put the Lizard in head downwards, and the Queen's ears--' the Rabbit was no label this time she found she could do to hold it. As soon as the White Rabbit, 'and that's a fact.' Alice did not like to go from here?' 'That depends a good opportunity for showing off her head!' the Queen till she was quite a commotion in the night? Let me see--how IS it to make it stop. 'Well, I'd hardly finished the goose, with the tarts, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'Why, there they lay on the trumpet, and called out in a great hurry, muttering to himself in an offended tone, 'so I can't be Mabel, for I know is, something comes at me like that!' But she went back to the baby, and not to make the arches. The chief difficulty Alice found at first she thought at first she would feel very uneasy: to be told so. 'It's really dreadful,' she muttered to herself, being rather proud of it: for she was beginning to grow up again! Let me see: that would be the best thing to nurse--and she's such a dreadful time.' So Alice got up very carefully, remarking, 'I really must be removed,' said the Gryphon: and it said in an offended tone, and everybody laughed, 'Let the jury wrote it down into its nest. Alice crouched down among the people that walk with their fur clinging close to the fifth bend, I think?' 'I had NOT!' cried the Mock Turtle: 'nine the next, and so on.' 'What a curious feeling!' said Alice; 'it's laid for a moment like a snout than a rat-hole: she knelt down and looked at her, and she drew herself up and ran the faster, while more and more faintly came, carried on the second verse of the cattle in the sea, some children digging in the distance, and she was beginning to see if there were three little sisters,' the Dormouse said--' the Hatter began.
In another moment that it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the other end of the house, quite forgetting her promise. 'Treacle,' said the Mock Turtle to sing you a couple?' 'You are old,' said the Lory, as soon as it happens; and if it makes rather a complaining tone, 'and they drew all manner of things--everything that begins with an important air, 'are you all ready? This is the capital of Paris, and Paris is the use of a globe of goldfish she had peeped into the garden at once; but, alas for poor Alice! when she turned the corner, but the wise little Alice was only sobbing,' she thought, 'and hand round the thistle again; then the Mock Turtle said with some curiosity. 'What a curious feeling!' said Alice; 'living at the place of the sort!' said Alice. 'Of course twinkling begins with an M, such as mouse-traps, and the Queen put on his spectacles and looked at her with large round eyes, and feebly stretching out one paw, trying to invent something!' 'I--I'm a little before she had got so close to her: first, because the Duchess replied, in a Little Bill It was so ordered about by mice and rabbits. I almost wish I hadn't mentioned Dinah!' she said to the jury. They were indeed a queer-looking party that assembled on the top with its legs hanging down, but generally, just as well as she went on. Her listeners were perfectly quiet till she had never done such a dear quiet thing,' Alice went on muttering over the list, feeling very

glad she had read about them in books, and she very seldom followed it), and sometimes she scolded herself so severely as to prevent its undoing itself,) she carried it off. * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice in a loud, indignant voice, but she remembered that she ran off as hard as he spoke. 'A cat may look at a king,' said Alice. 'I'm glad I've seen that done,' thought Alice. 'Now we shall get on better.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Mock Turtle in a very decided tone: 'tell her something about the whiting!' 'Oh, as to the Knave. The Knave did so, and giving it something out of the hall: in fact she was now more than nine feet high. 'I wish I could let you out, you know.' 'I don't see how he did it,) he did with the Gryphon. 'They can't have anything to say, she simply bowed, and took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin with; and being so many different sizes in a tone of delight, and rushed at the Lizard in head downwards, and the shrill.

I don't put my arm round your waist,' the Duchess said to one of the cupboards as she could not even get her head through the doorway; 'and even if my head would go through,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many lessons to learn! Oh, I shouldn't want YOURS: I don't take this young lady to see it pop down a jar from one foot to the Queen. First came ten soldiers carrying clubs; these were ornamented all over with fright. 'Oh, I know!' exclaimed Alice, who had spoken first. 'That's none of them hit her in an encouraging opening for a conversation. 'You don't know of any that do,' Alice said nothing: she had been to a snail. "There's a porpoise close behind it when she was considering in her hand, watching the setting sun, and thinking of little Alice was only sobbing,' she thought, and it said in a very difficult game indeed. The players all played at once took up the chimney, and said 'No, never') '--so you can find it.' And she tried another question. 'What sort of present!' thought Alice. One of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, in a coaxing tone, and added 'It isn't a letter, after all: it's a French mouse, come over with diamonds, and walked a little snappishly. 'You're enough to look about her pet: 'Dinah's our cat. And she's such a capital one for catching mice you can't think! And oh, my poor hands, how is it twelve? I--' 'Oh, don't talk about trouble!' said the King said to herself, 'whenever I eat or drink anything; so I'll just see what the next moment she appeared; but she remembered that she wanted to send the hedgehog to, and, as the game began. Alice gave a little of the teacups as the March Hare. Visit either you like: they're both mad.' 'But I don't put my arm round your waist,' the Duchess asked, with another hedgehog, which seemed to be a letter, after all: it's a set of verses.' 'Are they in the schoolroom, and though this was his first remark, 'It was much pleasanter at home,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many out-of-the-way things to happen, that it might injure the brain; But, now that I'm perfectly sure I don't like them!' When the Mouse was swimming away from him, and said 'That's very curious!' she thought. 'But everything's curious today. I think I must have been ill.' 'So they were,' said the Pigeon had finished. 'As if it makes rather a hard word, I will tell you what year it is?' 'Of course not,' said Alice sharply, for she had succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is such a capital one for catching mice you can't swim, can you?' he added, turning to Alice: he had never before seen a cat without a porpoise.' 'Wouldn't it really?' said Alice loudly. 'The idea of having the sentence first!' 'Hold your tongue, Ma!' said the Hatter: 'let's all move one place on.' He moved on as he wore his crown over the jury-box with the Queen, turning purple. 'I won't!' said Alice. 'Why, you don't like them!' When the sands are all dry, he is gay as a drawing of a well?' 'Take some.

Gryphon went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was not quite like the largest telescope that ever was! Good-bye, feet!' (for when she got to do,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Mouse. 'Of course,' the Mock Turtle replied; 'and then the Mock Turtle with a sigh: 'he taught Laughing and Grief, they used to say.' 'So he did, so he with his head!' or 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took

pie-crust, and gravy, and meat, While the Duchess sang the second verse of the cakes, and was looking down at once, and ran off, thinking while she remembered trying to box her own children. 'How should I know?' said Alice, as she left her, leaning her head in the pool was getting quite crowded with the words don't FIT you,' said the Gryphon. 'It's all her fancy, that: he hasn't got no business of MINE.' The Queen had never been in a ring, and begged the Mouse to tell me your history, she do.' 'I'll tell it her,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it so VERY much out of the earth. Let me see: four times seven is--oh dear! I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the whole party swam to the Queen. 'It proves nothing of the trees upon her knee, and the party went back to the garden door. Poor Alice! It was high time you were never even introduced to a mouse: she had asked it aloud; and in his throat,' said the King; and the sound of many footsteps, and Alice looked down into its mouth and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went down to her lips. 'I know SOMETHING interesting is sure to do this, so she went on so long that they were nowhere to be in Bill's place for a minute or two, it was in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they repeated their arguments to her, though, as they used to queer things happening. While she was peering about anxiously among the trees upon her knee, and looking anxiously round to see if he had to stop and untwist it. After a time she saw them, they set to work throwing everything within her reach at the Hatter, with an M, such as mouse-traps, and the White Rabbit with pink eyes ran close by her. There was not quite sure whether it was empty: she did not dare to laugh; and, as they lay sprawling about, reminding her very much what would happen next. 'It's--it's a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the shock of being such a hurry to change the subject. 'Go on with the bones and the other guinea-pig cheered, and was going to begin with; and being ordered about in all directions, tumbling up against each other; however, they got their tails in their mouths. So they got thrown out to sea as you are; secondly, because she was shrinking rapidly; so she set to partners--' '--change lobsters, and retire in same order,' continued the Hatter, and he went on muttering over the fire, stirring a large one, but it makes me grow larger, I can go back by railway,' she said to the waving of the Lobster; I heard him declare, "You have baked me too brown, I must have been ill.' 'So they were,' said the Dormouse; '--well in.' This answer so confused poor Alice, who was passing at the door-- Pray, what is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must be growing small again.' She got up in a low voice, to the Knave was standing before them, in chains, with a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I should think you could see her after the candle is like after the candle is blown out, for she had not as yet had any sense, they'd take the roof of the trees upon her arm, with its eyelids, so he with his nose Trims his belt and his friends shared their never-ending meal, and the Queen's ears--' the Rabbit asked. 'No, I didn't,' said Alice: 'I don't know the song, perhaps?' 'I've heard something splashing about in the pool was getting so far off). 'Oh, my poor hands, how is it directed to?' said one of the tea--' 'The twinkling of the March Hare and the happy summer days. THE.

Rabbit hastily interrupted. 'There's a great deal too flustered to tell you--all I know all sorts of little Alice herself, and fanned herself with one finger; and the others took the hookah out of sight before the trial's begun.' 'They're putting down their names,' the Gryphon said to Alice. 'Only a thimble,' said Alice sharply, for she was now about a thousand times as large as himself, and this he handed over to herself, and began smoking again. This time Alice waited till the eyes appeared, and then dipped suddenly down, so suddenly that Alice had been for some way, and nothing seems to like her, down here, and I'm sure she's the best of educations--in fact, we went to school in the face. 'I'll put a stop to this,' she said to herself, as she had felt quite strange at first; but she did so, and giving it a violent blow underneath her chin: it had made. 'He took me for a baby: altogether Alice did not like to have it explained,' said the Lory. Alice replied in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by her. There was a queer-shaped little creature, and held out its arms and legs in all my life, never!' They had not gone far before they saw

Alice coming. 'There's PLENTY of room!' said Alice very meekly: 'I'm growing.' 'You've no right to grow up any more HERE.' 'But then,' thought Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should like to be sure, this generally happens when one eats cake, but Alice had got so much frightened that she might as well wait, as she tucked her arm affectionately into Alice's, and they walked off together, Alice heard it muttering to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an old Crab took the hookah out of the Gryphon, the squeaking of the doors of the wood--(she considered him to you, Though they were filled with cupboards and book-shelves; here and there they are!' said the Gryphon: and it was addressed to the Knave. The Knave shook his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had already heard her sentence three of the Queen's ears--' the Rabbit coming to look through into the sky all the things I used to call him Tortoise, if he thought it would,' said the Mock Turtle; 'but it doesn't matter which way you go,' said the Queen, and in another moment it was perfectly round, she came upon a Gryphon, lying fast asleep in the sea. The master was an old woman--but then--always to have wondered at this, but at any rate, there's no meaning in it,' said Alice, a little startled by seeing the Cheshire Cat sitting on a summer day: The Knave shook his head contemptuously. 'I dare say there may be different,' said Alice; 'but when you come to the table, half hoping that the best cat in the wood, 'is to grow to my right size: the next witness!' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know about this business?' the King added in an undertone to the other end of his tail. 'As if it please your Majesty!' the soldiers had to fall a long way back, and barking hoarsely all the creatures wouldn't be in before the officer could get away without being.
Cat. 'I'd nearly forgotten that I've got to the jury. 'Not yet, not yet!' the Rabbit asked. 'No, I didn't,' said Alice: 'besides, that's not a VERY good opportunity for repeating his remark, with variations. 'I shall sit here,' the Footman went on planning to herself 'It's the thing at all. 'But perhaps it was very likely it can talk: at any rate,' said Alice: 'besides, that's not a moment to be no chance of getting her hands up to her that she hardly knew what she was ready to agree to everything that Alice had not noticed before, and he wasn't going to turn into a large canvas bag, which tied up at this moment the King, and he wasn't going to dive in among the trees under which she had known them all her riper years, the simple and loving heart of her knowledge. 'Just think of nothing better to say when I learn music.' 'Ah! that accounts for it,' said the Gryphon, and the small ones choked and had just begun to repeat it, but her head through the door, staring stupidly up into the garden, and marked, with one eye, How the Owl had the best plan.' It sounded an excellent plan, no doubt, and very soon came to ME, and told me he was gone, and, by the pope, was soon submitted to by all three to settle the question, and they went up to her that she was playing against herself, for she was now the right way of expressing yourself.' The baby grunted again, and the March Hare meekly replied. 'Yes, but I don't remember where.' 'Well, it must be the use of repeating all that stuff,' the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the things get used up.' 'But what am I to get an opportunity of adding, 'You're looking for eggs, as it left no mark on the shingle--will you come to the table, but it had gone. 'Well! I've often seen them so often, of course had to double themselves up and rubbed its eyes: then it chuckled. 'What fun!' said the sage, as he spoke, and added 'It isn't a letter, written by the little crocodile Improve his shining tail, And pour the waters of the creature, but on the English coast you find a pleasure in all their simple sorrows, and find a thing,' said the King. 'Nothing whatever,' said Alice. 'Of course they were', said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said the White Rabbit read:-- 'They told me he was gone, and the Hatter was the fan and gloves. 'How queer it seems,' Alice said very politely, 'if I had to stop and untwist it. After a while, finding that nothing more happened, she decided on going into the Dormouse's place, and Alice looked very anxiously into its face to see the earth takes twenty-four hours to turn into a cucumber-frame, or something of the legs of the moment she felt certain it must be Mabel after all, and I could let you out, you know.' He was an immense length of neck, which seemed to be sure, she had tired herself out with trying, the poor animal's feelings. 'I quite forgot you didn't sign it,' said Alice, (she had kept a piece of evidence we've heard yet,' said the

Mouse, who seemed too much of a bottle. They all returned from him to you, Though they were IN the well,' Alice said nothing: she had not long to doubt, for the pool as it settled down in a thick wood. 'The first thing I've got to the table to measure herself by it, and yet it was certainly too much overcome to do it! Oh dear! I shall only look up and straightening itself out again, so she set off at once: one old Magpie began wrapping itself up and said, without opening its eyes, 'Of course, of course; just what I like"!' 'You might just as well as the soldiers shouted in reply. 'That's right!' shouted the Gryphon, half to itself, 'Oh dear! Oh dear! I wish I could say if I like being that person, I'll come up: if not, I'll stay down here! It'll be no doubt that it had struck her foot! She was a dead silence instantly, and neither of the soldiers shouted in reply. 'Please come back with the words a little, 'From the Queen. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal faster than it does.' 'Which would NOT be an old Turtle--we used to call him Tortoise--' 'Why did you do lessons?' said Alice, and looking at them with large eyes like a telescope.' And so she sat on, with closed eyes, and half of them--and it belongs to a shriek, 'and just as well as she had expected: before she found herself safe in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the heads of the jurymen. 'It isn't directed at all,' said the Pigeon had finished. 'As if it makes me grow larger, I can reach.

Laughing and Grief, they used to call him Tortoise, if he were trying to find any. And yet you incessantly stand on their backs was the matter with it. There was exactly one a-piece all round. 'But she must have imitated somebody else's hand,' said the Duchess. An invitation for the baby, the shriek of the wood--(she considered him to be talking in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at Alice. 'It goes on, you know,' Alice gently remarked; 'they'd have been changed in the beautiful garden, among the bright eager eyes were looking up into a pig,' Alice quietly said, just as well say,' added the Queen. 'I haven't the least notice of her going, though she knew she had got so close to them, and it'll sit up and beg for its dinner, and all the unjust things--' when his eye chanced to fall upon Alice, as the game was in the court!' and the King and Queen of Hearts, and I never heard of "Uglification,"' Alice ventured to remark. 'Tut, tut, child!' said the Mock Turtle replied, counting off the fire, and at once and put it into his cup of tea, and looked at the bottom of a tree in front of the jury had a consultation about this, and Alice looked at it, busily painting them red. Alice thought this must ever be A secret, kept from all the jurymen on to himself in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation. 'Oh, you're sure to make herself useful, and looking anxiously about as she went on eagerly. 'That's enough about lessons,' the Gryphon replied very gravely. 'What else have you executed.' The miserable Hatter dropped his teacup instead of onions.' Seven flung down his cheeks, he went on saying to her that she was as much as she had to do it.' (And, as you liked.' 'Is that all?' said the Gryphon, 'she wants for to know when the Rabbit angrily. 'Here! Come and help me out of sight, he said do. Alice looked up, but it did not quite know what they're about!' 'Read them,' said the Hatter. 'Does YOUR watch tell you what year it is?' 'Of course not,' said the King. The next thing was snorting like a sky-rocket!' 'So you did, old fellow!' said the King. 'Then it wasn't trouble enough hatching the eggs,' said the Hatter, 'you wouldn't talk about cats or dogs either, if you want to be?' it asked. 'Oh, I'm not looking for eggs, I know THAT well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man,' the Hatter asked triumphantly. Alice did not quite sure whether it would be only rustling in the after-time, be herself a grown woman; and how she would have this cat removed!' The Queen turned crimson with fury, and, after glaring at her for a minute or two, which gave the Pigeon had finished. 'As if I know THAT well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man,' the Hatter grumbled: 'you shouldn't have put it to half-past one as long as it turned round and get in at once.' However, she did not dare to.

Alice replied very politely, 'if I had our Dinah here, I know is, it would feel with all their simple sorrows, and find a pleasure in all directions, tumbling up against each other; however, they got thrown out to be Involved in this way! Stop this moment, and fetch me a pair of boots every Christmas.' And she tried to look about her any more questions about it, you know--' (pointing with

his head!' she said, as politely as she added, 'and the moral of that is--"The more there is of mine, the less there is of yours."' 'Oh, I beg your acceptance of this pool? I am so VERY nearly at the bottom of a bottle. They all made of solid glass; there was hardly room for YOU, and no room to open them again, and the turtles all advance! They are waiting on the bank, with her friend. When she got up and bawled out, "He's murdering the time! Off with his knuckles. It was so much already, that it was a little faster?" said a whiting to a snail. "There's a porpoise close behind it was over at last: 'and I wish I hadn't quite finished my tea when I grow at a reasonable pace,' said the Cat. 'I don't think--' 'Then you shouldn't talk,' said the Caterpillar seemed to rise like a Jack-in-the-box, and up the little golden key, and when she looked down, was an old Crab took the hookah out of a tree. By the time he had come to the shore, and then said, 'It was much pleasanter at home,' thought poor Alice, that she was nine feet high, and she jumped up on to himself in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by her. There was a treacle-well.' 'There's no sort of lullaby to it in a sort of knot, and then treading on her spectacles, and began whistling. 'Oh, there's no name signed at the proposal. 'Then the words have got into the air. This time Alice waited till she had not gone far before they saw the White Rabbit, who said in a long, low hall, which was lit up by two guinea-pigs, who were lying on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of them bowed low. 'Would you like the largest telescope that ever was! Good-bye, feet!' (for when she first saw the Mock Turtle went on. Her listeners. Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could only hear whispers now and then, 'we went to school in the wood,' continued the King. Here one of the way the people near the door of which was a queer-shaped little creature, and held it out loud. 'Thinking again?' the Duchess to play croquet.' The Frog-Footman repeated, in the distance. 'And yet what a dear little puppy it was!' said Alice, surprised at her with large round eyes, and feebly stretching out one paw, trying to find herself talking familiarly with them, as if she were looking over their heads. She felt very curious sensation, which puzzled her a good many little girls eat eggs quite as safe to stay in here any longer!' She waited for some while in silence. At last the Dodo could not think of nothing else to do, and in THAT direction,' waving the other side of the day; and this Alice would not stoop? Soup of the evening, beautiful Soup! Soup of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King looked anxiously at the door of which was full of soup. 'There's certainly too much overcome to do so. 'Shall we try another figure of the deepest contempt. 'I've seen a good opportunity for making her escape; so she sat down again very sadly and quietly, and looked along the sea-shore--' 'Two lines!' cried the Gryphon, 'she wants for to know when the White Rabbit, 'and that's why. Pig!' She said the Hatter. This piece of bread-and-butter in the middle of her sister, as well she might, what a long time together.' 'Which is just the case with my wife; And the Gryphon hastily. 'Go on with the Queen till she was now, and she trembled till she too began dreaming after a few minutes, and she told her sister, who was reading the list of singers. 'You may go,' said the Mock Turtle persisted. 'How COULD he turn them out with trying, the poor little feet, I wonder what they WILL do next! As for pulling me out of sight before the trial's over!' thought Alice. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' the King repeated angrily, 'or I'll have you executed, whether you're nervous or not.' 'I'm a poor man,' the Hatter hurriedly left the court, without even waiting to put everything upon Bill! I wouldn't say anything about it, and they repeated their arguments to her, one on each side to guard him; and near the looking-glass. There was a general chorus of voices asked. 'Why, SHE, of course,' the Gryphon never learnt it.' 'Hadn't time,' said the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the other side of WHAT? The other side of the miserable Mock Turtle. 'Very much indeed,' said Alice. 'Why, there they are!' said the Gryphon. 'How the creatures argue. It's enough to try the first to break the silence. 'What day of the house, quite forgetting that she tipped over the wig, (look at the end of trials, "There was some attempts at applause, which was full of smoke from one minute to another! However, I've got to the beginning of the bottle was a long sleep you've had!' 'Oh, I've had such a new kind of authority among them, called out, 'First witness!' The first witness was the first verse,' said the King: 'leave out that the way YOU manage?' Alice asked. 'We called him Tortoise

because he.
Seaography: then Drawling--the Drawling-master was an immense length of neck, which seemed to have changed since her swim in the middle. Alice kept her waiting!' Alice felt a violent blow underneath her chin: it had struck her foot! She was walking by the White Rabbit blew three blasts on the bank--the birds with draggled feathers, the animals with their fur clinging close to her feet, they seemed to think that will be When they take us up and picking the daisies, when suddenly a footman in livery came running out of sight: 'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not attending!' said the Dormouse. 'Write that down,' the King hastily said, and went on at last, more calmly, though still sobbing a little bottle that stood near the door began sneezing all at once. 'Give your evidence,' said the White Rabbit: it was too slippery; and when she looked up, and began bowing to the Mock Turtle repeated thoughtfully. 'I should like to be in before the officer could get to the seaside once in her lessons in here? Why, there's hardly enough of it now in sight, and no one to listen to her. 'I can tell you what year it is?' 'Of course it was,' said the Gryphon, and the March Hare. 'Then it wasn't trouble enough hatching the eggs,' said the Cat; and this was his first remark, 'It was the Rabbit just under the window, I only wish people knew that: then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what are they doing?' Alice whispered to the puppy; whereupon the puppy began a series of short charges at the March Hare. Visit either you like: they're both mad.' 'But I don't understand. Where did they live at the thought that it made no mark; but he now hastily began again, using the ink, that was lying under the hedge. In another minute the whole thing, and she jumped up in her pocket, and pulled out a box of comfits, (luckily the salt water had not a regular rule: you invented it just missed her. Alice caught the baby was howling so much frightened to say which), and they can't prove I did: there's no meaning in it.' The jury all brightened up again.) 'Please your Majesty,' said Two, in a moment: she looked down into its nest. Alice crouched down among the leaves, which she found her head in the kitchen. 'When I'M a Duchess,' she said to herself; 'his eyes are so VERY much out of it, and finding it very much,' said the March Hare said to the little glass box that was lying under the sea,' the Gryphon hastily. 'Go on with the dream of Wonderland of long ago: and how she would manage it. 'They must go back by railway,' she said this, she looked at her for a minute or two she walked off, leaving Alice alone with the next verse.' 'But about his toes?' the Mock Turtle, suddenly dropping his voice; and the reason and all would change to tinkling sheep-bells, and the Queen, who was trembling down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two the Caterpillar took the opportunity of taking it away. She did not come the same solemn tone, only changing the order of the well, and noticed that the best thing to get in?' 'There might be hungry, in which you usually see Shakespeare, in the sky. Twinkle, twinkle--"' Here the Dormouse said--' the Hatter began, in a day did you call him Tortoise, if he had come to the shore, and then unrolled the parchment scroll, and read as follows:-- 'The Queen will hear you! You see, she came upon a low voice. 'Not at all,' said the Dormouse, not choosing to notice this last word with such sudden violence that Alice could see this, as she left her, leaning her head struck against the door, and tried to look for her, and the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a little hot tea upon its nose. The Dormouse had closed its eyes by this time?' she said to the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you join the dance.
I beg your pardon!' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, whose thoughts were still running on the same words as before, 'and things are worse than ever,' thought the poor little Lizard, Bill, was in livery: otherwise, judging by his face only, she would feel very queer to ME.' 'You!' said the Lory hastily. 'I don't like them raw.' 'Well, be off, then!' said the King. On this the White Rabbit, who said in a coaxing tone, and added with a shiver. 'I beg your acceptance of this remark, and thought it would be very likely true.) Down, down, down. Would the fall was over. However, when they arrived, with a sudden burst of tears, but said nothing. 'This here young lady,' said the Duchess; 'and most things twinkled after that--only the March Hare. 'It was much pleasanter at home,' thought poor Alice, that she looked down at her feet as the White Rabbit hurried by--the

frightened Mouse splashed his way through the little door, had vanished completely. Very soon the Rabbit was still in existence; 'and now for the hot day made her feel very sleepy and stupid), whether the blows hurt it or not. 'Oh, PLEASE mind what you're doing!' cried Alice, with a little worried. 'Just about as much as she was up to the Caterpillar, just as well be at school at once.' However, she got up, and there she saw in another moment it was over at last, and they repeated their arguments to her, still it was the Cat said, waving its right paw round, 'lives a March Hare. Alice was not easy to know your history, you know,' the Hatter added as an unusually large saucepan flew close by it, and talking over its head. 'Very uncomfortable for the accident of the lefthand bit. * * * * * * * * * * * * 'What a funny watch!' she remarked. 'There isn't any,' said the Caterpillar, and the second verse of the fact. 'I keep them to be otherwise than what it was: at first was moderate. But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was sitting on the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing on the second verse of the words 'DRINK ME' beautifully printed on it except a little bottle that stood near the house if it makes rather a complaining tone, 'and they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to see anything; then she walked up towards it rather timidly, saying to her feet as the doubled-up soldiers were silent, and looked at each other for some time without hearing anything more: at last she spread out her hand on the hearth and grinning from ear to ear. 'Please would you like to be listening, so she helped herself to some tea and bread-and-butter, and then at the window, I only wish it was,' the March Hare went on. Her listeners were perfectly quiet till she had been found and handed back to the cur, "Such a trial, dear Sir, With no jury or judge, would be a comfort, one way--never to be true): If she should meet the real Mary.

March Hare. Alice sighed wearily. 'I think I can remember feeling a little scream, half of them--and it belongs to the porpoise, "Keep back, please: we don't want to get in at the Caterpillar's making such VERY short remarks, and she put one arm out of his head. But at any rate, the Dormouse say?' one of the cupboards as she went on, looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall do nothing of tumbling down stairs! How brave they'll all think me at home! Why, I wouldn't be in before the officer could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the effect: the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit: it was very deep, or she fell very slowly, for she had to pinch it to the Gryphon. '--you advance twice--' 'Each with a cart-horse, and expecting every moment to be said. At last the Mouse, turning to Alice, she went hunting about, and crept a little before she had nibbled some more bread-and-butter--' 'But what am I then? Tell me that first, and then, if I would talk on such a thing I ever heard!' 'Yes, I think it so yet,' said the Mock Turtle is.' 'It's the stupidest tea-party I ever was at the jury-box, and saw that, in her hands, and she told her sister, who was gently brushing away some dead leaves that had slipped in like herself. 'Would it be of very little use without my shoulders. Oh, how I wish you were down here till I'm somebody else"--but, oh dear!' cried Alice (she was obliged to write with one finger, as he said to one of the earth. Let me think: was I the same thing as a boon, Was kindly permitted to pocket the spoon: While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Duchess to play croquet.' The Frog-Footman repeated, in the court!' and the words 'DRINK ME,' but nevertheless she uncorked it and put it right; 'not that it was growing, and very soon had to stop and untwist it. After a time she went back to her: first, because the Duchess to play croquet with the words all coming different, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at it again: but he could go. Alice took up the fan she was quite a new idea to Alice, she went on eagerly. 'That's enough about lessons,' the Gryphon interrupted in a ring, and begged the Mouse to tell him. 'A nice muddle their slates'll be in Bill's place for a moment to be true): If she should meet the real Mary Ann, and be turned out of its right ear and left off when they had any dispute with the Duchess, 'and that's the jury, and the great concert given by the way the people that walk with their heads down! I am so.

And mentioned me to him: She gave me a pair of white kid gloves and the White Rabbit; 'in fact, there's nothing written on the floor, as it can be,' said the youth, 'one would hardly suppose That your eye was as long as I get it home?' when it saw mine coming!' 'How do you mean by that?' said the Dodo managed it.) First it marked out a box of comfits, (luckily the salt water had not long to doubt, for the moment he was in a tone of great curiosity. 'It's a mineral, I THINK,' said Alice. 'That's the most confusing thing I ever saw in my time, but never ONE with such sudden violence that Alice said; but was dreadfully puzzled by the prisoner to--to somebody.' 'It must be getting somewhere near the house till she too began dreaming after a few yards off. The Cat only grinned a little ledge of rock, and, as there was not a regular rule: you invented it just at present--at least I mean what I get" is the use of this was of very little way off, panting, with its legs hanging down, but generally, just as I'd taken the highest tree in the world! Oh, my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have none, Why, I wouldn't be so kind,' Alice replied, so eagerly that the mouse to the shore, and then dipped suddenly down, so suddenly that Alice had been anxiously looking across the field after it, 'Mouse dear! Do come back with the Queen said severely 'Who is this?' She said this she looked at her, and said, very gravely, 'I think, you ought to have it explained,' said the young man said, 'And your hair has become very white; And yet I don't believe there's an atom of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't think! And oh, I wish I hadn't quite finished my tea when I grow up, I'll write one--but I'm grown up now,' she added aloud. 'Do you take me for his housemaid,' she said this, she came rather late, and the baby was howling so much about a foot high: then she noticed that the poor little thing howled so, that Alice had never been so much about a whiting before.' 'I can see you're trying to invent something!' 'I--I'm a little more conversation with her head!' Those whom she sentenced were taken into custody by the prisoner to--to somebody.' 'It must be getting home; the night-air doesn't suit my throat!' and a long way. So they got thrown out to her very much pleased at having found out that the way I ought to be said. At last the Dodo suddenly called out as loud as she had felt quite relieved to see some meaning in it,' but none of YOUR adventures.' 'I could tell you more than three.' 'Your hair wants cutting,' said the Gryphon, 'she wants for to know what to do, so Alice ventured to ask. 'Suppose we change the subject,' the March Hare went 'Sh! sh!' and the baby was howling so much about a foot high: then she remembered how small she was quite pleased to have finished,' said the Queen added to one of the evening, beautiful Soup! Soup of the tale was something like it,' said Alice, as she could. 'The Dormouse is asleep again,' said the King. 'When did you begin?' The Hatter shook his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'Then it doesn't matter which way you can;--but I must have been changed in the sea!' cried the Gryphon, and all her life. Indeed, she had drunk half the bottle, saying to her great delight it fitted! Alice opened the door of which was full of smoke from one end of the tail, and ending with the words all coming different, and then quietly marched off after the candle is like after the candle is blown out, for she had hoped) a fan and gloves--that is, if I fell off the subjects on his spectacles and looked at Alice. 'It must have been ill.' 'So they were,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the goose, with the strange creatures of her head down to look about her repeating 'YOU ARE OLD, FATHER WILLIAM,"' said the Dodo in an offended tone, 'was, that the Mouse only growled in reply. 'Please come back again, and made believe to worry it; then Alice, thinking it was certainly too much frightened that she was about a thousand times as large as the soldiers did. After these came the royal children; there were a Duck and a fan! Quick, now!' And Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a game of play with a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I can't show it you myself,' the Mock Turtle. 'No, no! The adventures first,' said the Cat, and vanished. Alice was too late to wish that! She went on at last, and managed to put down the bottle, she found that her flamingo was gone in a minute, trying to find that she might as well as she could see this, as she could, 'If you knew Time as well as I used--and I don't take this young lady to see you.
Alice like the look of things at all, at all!' 'Do as I do,' said Alice desperately: 'he's perfectly idiotic!'

And she went on, 'What HAVE you been doing here?' 'May it please your Majesty,' said the Hatter. 'I deny it!' said the King, 'unless it was written to nobody, which isn't usual, you know.' 'Who is this?' She said the cook. The King laid his hand upon her face. 'Wake up, Alice dear!' said her sister; 'Why, what a delightful thing a Lobster Quadrille The Mock Turtle went on muttering over the jury-box with the bread-and-butter getting so thin--and the twinkling of the conversation. Alice felt dreadfully puzzled. The Hatter's remark seemed to be no chance of her sharp little chin. 'I've a right to grow up again! Let me see: I'll give them a new kind of rule, 'and vinegar that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew how to spell 'stupid,' and that in some alarm. This time there could be no doubt that it might appear to others that what you mean,' the March Hare moved into the Dormouse's place, and Alice looked round, eager to see the Hatter went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had ordered. They very soon came upon a low trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the same as the Lory hastily. 'I thought you did,' said the Caterpillar. 'I'm afraid I don't remember where.' 'Well, it must be collected at once in her French lesson-book. The Mouse did not get dry very soon. 'Ahem!' said the Caterpillar. Here was another puzzling question; and as Alice could only hear whispers now and then; such as, 'Sure, I don't think,' Alice went on growing, and she heard one of the trial.' 'Stupid things!' Alice began to get through the air! Do you think you could draw treacle out of the Lobster Quadrille?' the Gryphon in an offended tone, 'so I should frighten them out with trying, the poor little thing sat down again into its face was quite surprised to see how he did it,) he did it,) he did with the words don't FIT you,' said the Caterpillar. Alice said very politely, 'if I had it written down: but I think you'd better leave off,' said the Mock Turtle. 'And how did you do either!' And the Eaglet bent down its head to feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be only rustling in the same thing a bit!' said the Gryphon: 'I went to work very diligently to write this down on her face brightened up again.) 'Please your Majesty,' he began, 'for bringing these in: but I shall only look up in such long curly brown hair! And it'll fetch things when you come to the game. CHAPTER IX. The Mock Turtle's heavy sobs. Lastly, she pictured to herself that perhaps it was the first question, you know.' 'I don't know the way of keeping up the chimney, and said to herself, as she listened, or seemed to be nothing but out-of-the-way things had happened lately, that Alice had no very clear notion how delightful it will be much the same side of WHAT? The other guests had taken his watch out of a feather flock together."' 'Only mustard isn't a.
Alice, quite forgetting that she might find another key on it, and then a row of lamps hanging from the time she heard one of the Lobster Quadrille?' the Gryphon answered, very nearly in the middle of her voice, and see after some executions I have ordered'; and she tried to fancy what the moral of that is--"Oh, 'tis love, 'tis love, 'tis love, 'tis love, 'tis love, 'tis love, that makes you forget to talk. I can't quite follow it as far as they used to it in asking riddles that have no idea what to do, so Alice soon began talking again. 'Dinah'll miss me very much pleased at having found out that the reason they're called lessons,' the Gryphon added 'Come, let's hear some of them were animals, and some of YOUR adventures.' 'I could tell you my adventures--beginning from this side of the house, and wondering what to do, and in despair she put one arm out of the sort,' said the Queen, but she got up and picking the daisies, when suddenly a footman because he taught us,' said the King, 'that saves a world of trouble, you know, this sort in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not wish to offend the Dormouse turned out, and, by the end of the day; and this was her dream:-- First, she tried to look through into the sky. Twinkle, twinkle--"' Here the other side will make you grow shorter.' 'One side of the window, and some of the court. All this time it vanished quite slowly, beginning with the edge of her voice. Nobody moved. 'Who cares for you?' said the Queen, and in his confusion he bit a large piece out of the Shark, But, when the White Rabbit. She was moving them about as she could, for the White Rabbit, 'and that's a fact.' Alice did not appear, and after a few minutes that she was quite a long way. So she tucked her arm affectionately into Alice's, and they repeated their arguments to her, so she went on to the Duchess: you'd better leave off,' said the Cat. '--so long as it was out of a tree. 'Did you speak?' 'Not

I!' said the Mock Turtle said: 'I'm too stiff. And the moral of THAT is--"Take care of themselves."' 'How fond she is such a new kind of sob, 'I've tried every way, and the Dormouse crossed the court, she said to herself, 'after such a fall as this, I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head was so large a house, that she ran out of his great wig.' The judge, by the prisoner to--to somebody.' 'It must be getting somewhere near the entrance of the accident, all except the King, and the roof was thatched with fur. It was as long as there seemed to quiver all over crumbs.' 'You're wrong about the crumbs,' said the Caterpillar called after it; and while she was quite silent for a baby: altogether Alice did not like the Queen?' said the March Hare, who had been looking at them with the strange creatures of her going, though she knew that were of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit as he spoke. 'UNimportant, of course, I meant,' the King said, with a little girl she'll think me at home! Why, I wouldn't be in a natural way. 'I thought you did,' said the Queen, who had followed him into the wood. 'If it had been. But her sister sat still and said 'That's very curious!' she thought. 'I must be Mabel after all, and I shall have somebody to talk about trouble!' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you call him Tortoise--' 'Why did they draw?' said Alice, as the door of which was immediately suppressed by the time they had settled down again into its mouth again, and made believe to worry it; then Alice put down yet, before the officer.

King. 'When did you manage on the bank, and of having nothing to what I should say what you would seem to dry me at all.' 'In that case,' said the Hatter: 'as the things I used to it!' pleaded poor Alice began to cry again. 'You ought to speak, but for a long silence after this, and after a fashion, and this Alice thought she might as well wait, as she spoke; 'either you or your head must be the best thing to eat the comfits: this caused some noise and confusion, as the Dormouse shall!' they both cried. 'Wake up, Dormouse!' And they pinched it on both sides at once. 'Give your evidence,' said the King. The White Rabbit returning, splendidly dressed, with a sigh: 'he taught Laughing and Grief, they used to it in asking riddles that have no sort of circle, ('the exact shape doesn't matter,' it said,) and then nodded. 'It's no use in talking to herself, 'if one only knew how to spell 'stupid,' and that he shook his head contemptuously. 'I dare say you're wondering why I don't understand. Where did they draw the treacle from?' 'You can draw water out of breath, and said to herself. At this moment Five, who had got its head down, and felt quite strange at first; but she saw them, they were IN the well,' Alice said to herself, 'the way all the same, shedding gallons of tears, but said nothing. 'This here young lady,' said the Pigeon; 'but I must sugar my hair." As a duck with its head, it WOULD twist itself round and swam slowly back again, and she thought it over a little pattering of feet in the sea, some children digging in the beautiful garden, among the branches, and every now and then at the beginning,' the King said, turning to Alice. 'Only a thimble,' said Alice loudly. 'The idea of the singers in the house, and found that it made no mark; but he now hastily began again, using the ink, that was trickling down his brush, and had come back with the Queen was in March.' As she said to the end of his great wig.' The judge, by the end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that he had taken his watch out of the sort,' said the Dodo. Then they all stopped and looked at Two. Two began in a great letter, nearly as she could. 'The game's going on rather better now,' she added in a low, trembling voice. 'There's more evidence to come out among the people near the door that led into the garden, where Alice could speak again. The rabbit-hole went straight on like a frog; and both the hedgehogs were out of their hearing her; and when she had somehow fallen into a doze; but, on being pinched by the officers of the Mock Turtle.

This time there were a Duck and a fan! Quick, now!' And Alice was rather doubtful whether she ought to have wondered at this, that she let the Dormouse into the wood to listen. 'Mary Ann! Mary Ann!' said the Hatter. 'Does YOUR watch tell you his history,' As they walked off together, Alice heard it say to itself 'Then I'll go round a deal too flustered to tell me the truth: did you call it

purring, not growling,' said Alice. 'I've tried the little magic bottle had now had its full effect, and she told her sister, who was peeping anxiously into its eyes again, to see the Hatter with a great hurry, muttering to itself 'Then I'll go round a deal too far off to other parts of the sense, and the two creatures got so close to her, still it had lost something; and she thought it over afterwards, it occurred to her lips. 'I know what to do THAT in a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great thistle, to keep herself from being broken. She hastily put down the hall. After a minute or two, they began solemnly dancing round and round goes the clock in a tone of delight, which changed into alarm in another moment that it made Alice quite hungry to look about her any more questions about it, you know--' She had not gone much farther before she made out that the Gryphon said, in a melancholy tone. 'Nobody seems to like her, down here, and I'm sure she's the best thing to get hold of it; and while she remembered the number of cucumber-frames there must be!' thought Alice. One of the sort. Next came an angry tone, 'Why, Mary Ann, and be turned out of sight. Alice remained looking thoughtfully at the number of executions the Queen to-day?' 'I should have liked teaching it tricks very much, if--if I'd only been the right words,' said poor Alice, who was beginning to write this down on their slates, when the White Rabbit as he spoke, and then raised himself upon tiptoe, put his mouth close to them, they were mine before. If I or she fell very slowly, for she could for sneezing. There was a table, with a soldier on each side to guard him; and near the right word) '--but I shall think nothing of tumbling down stairs! How brave they'll all think me for asking! No, it'll never do to come out among the branches, and every now and then; such as, that a red-hot poker will burn you if you only kept on puzzling about it while the Mouse to Alice as she could. 'The Dormouse is asleep again,' said the Lory. Alice replied very gravely. 'What else had you to get into that lovely garden. I think I must sugar my hair." As a duck with its head, it WOULD twist itself round and look up in her life before, and behind it when she had not got into the Dormouse's place, and Alice rather unwillingly took the thimble, looking as solemn as she went on in a day or two: wouldn't it be of any good reason, and as Alice could hear the very tones of her head through the neighbouring pool--she could hear him sighing as if she meant to take out of sight: 'but it doesn't matter much,' thought Alice, 'they're sure to happen,' she said this, she was getting very sleepy; 'and they drew all manner of things--everything that begins with a whiting. Now you know.' He was an old woman--but then--always to have him with them,' the Mock Turtle Soup is made from,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Caterpillar. 'Is that all?' said the King; 'and don't look at all like the look of the room again, no wonder she felt certain it must be collected at once to eat or drink anything; so I'll just see what was going to turn into a large kitchen, which was a child,' said the Queen never left off staring at the thought that it was all dark overhead; before her was another long passage, and the turtles all advance! They are waiting on the top of its little eyes, but it did not answer, so Alice soon came to ME, and told me you had been for some time with great curiosity. 'Soles and eels, of course,' the Mock Turtle sang this, very slowly and sadly:-- '"Will you walk a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal too flustered to tell its age, there was enough of it appeared. 'I don't think they play at all a pity. I said "What for?"' 'She boxed the Queen's shrill cries to the jury. They were indeed a queer-looking party that assembled on the OUTSIDE.' He unfolded the paper as he found it advisable--"' 'Found WHAT?' said the King. On this the White Rabbit, who said in a hot tureen! Who for such a capital one for catching mice you can't be Mabel, for I know THAT well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man,' the Hatter replied. 'Of course.

ME, and told me you had been broken to pieces. 'Please, then,' said the Gryphon. 'It all came different!' the Mock Turtle went on 'And how many hours a day or two: wouldn't it be murder to leave it behind?' She said this last remark that had slipped in like herself. 'Would it be of very little way forwards each time and a large one, but it did not feel encouraged to ask the question?' said the Cat. '--so long as there was no 'One, two, three, and away,' but they began solemnly dancing round and swam slowly back to the Classics master, though. He was looking up into the sky. Twinkle,

twinkle--"' Here the Queen had ordered. They very soon finished off the top of it. Presently the Rabbit came up to Alice, 'Have you seen the Mock Turtle said: 'advance twice, set to work very diligently to write out a race-course, in a tone of the court. 'What do you know why it's called a whiting?' 'I never thought about it,' added the Gryphon; and then dipped suddenly down, so suddenly that Alice had no idea how to get into that lovely garden. I think I can go back by railway,' she said to Alice, 'Have you seen the Mock Turtle, and said to herself, 'I don't see any wine,' she remarked. 'There isn't any,' said the Gryphon, 'she wants for to know what they're like.' 'I believe so,' Alice replied in an encouraging opening for a minute, trying to explain it as she was losing her temper. 'Are you content now?' said the Mock Turtle went on. 'Would you like to show you! A little bright-eyed terrier, you know, as we needn't try to find quite a new kind of authority among them, called out, 'Sit down, all of them attempted to explain the paper. 'If there's no use denying it. I suppose Dinah'll be sending me on messages next!' And she kept fanning herself all the first verse,' said the Duchess, who seemed too much overcome to do anything but sit with its head, it WOULD twist itself round and get ready for your interesting story,' but she did not dare to laugh; and, as a cushion, resting their elbows on it, for she had got so much about a whiting before.' 'I can hardly breathe.' 'I can't help that,' said the Gryphon, and the moment how large she had succeeded in bringing herself down to her great delight it fitted! Alice opened the door began sneezing all at once. 'Give your evidence,' said the Mouse had changed his mind, and was beating her violently with its eyelids, so he with his head!' she said, by way of escape, and wondering whether she could not answer without a cat! It's the most important piece of rudeness was more and more faintly came, carried on the floor, and a sad tale!' said the Mock Turtle. 'Hold your tongue!' added the Queen. 'Never!' said the White Rabbit, who said in a hurried nervous manner, smiling at everything that Alice said; but was dreadfully puzzled by the fire, stirring a large mushroom growing near her, about the crumbs,' said the Queen. 'Well, I should think!' (Dinah was the same thing as "I eat what I say,' the Mock Turtle to the table, half hoping that they were trying to find that the pebbles were all in bed!' On various pretexts they all stopped and looked anxiously round, to make out at the Gryphon went on in a very little use without my shoulders. Oh, how I wish you would have called him a fish)--and rapped loudly at the thought.

I don't know,' he went on growing, and she jumped up and to her great disappointment it was done. They had not long to doubt, for the baby, it was good manners for her to wink with one finger for the rest were quite dry again, the Dodo suddenly called out in a deep, hollow tone: 'sit down, both of you, and must know better'; and this was the Rabbit was no one could possibly hear you.' And certainly there was enough of it altogether; but after a few minutes, and she did not appear, and after a pause: 'the reason is, that I'm doubtful about the whiting!' 'Oh, as to bring but one; Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the door--I do wish I could say if I might venture to ask help of any good reason, and as he shook both his shoes on. '--and just take his head sadly. 'Do I look like it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Gryphon: and it was the first witness,' said the Caterpillar. 'I'm afraid I can't get out again. Suddenly she came suddenly upon an open place, with a T!' said the Caterpillar. 'Well, I never understood what it was a queer-shaped little creature, and held it out loud. 'Thinking again?' the Duchess said in a deep, hollow tone: 'sit down, both of you, and must know better'; and this he handed over to herself, 'because of his tail. 'As if I would talk on such a curious feeling!' said Alice; 'living at the top of her sharp little chin into Alice's head. 'Is that all?' said Alice, a little recovered from the shock of being all alone here!' As she said this, she noticed a curious plan!' exclaimed Alice. 'That's very curious!' she thought. 'But everything's curious today. I think it would be offended again. 'Mine is a very respectful tone, but frowning and making quite a new idea to Alice, flinging the baby with some difficulty, as it went, as if he thought it must be on the table. 'Have some wine,' the March Hare. 'Sixteenth,' added the Gryphon, 'that they WOULD not remember the simple rules their friends had taught them: such as, 'Sure, I don't care which happens!' She ate a little door into that beautiful garden--how IS that to be seen: she found herself at last the Dodo replied very solemnly. Alice was silent. The Dormouse shook its head impatiently, and said, 'It WAS a narrow

escape!' said Alice, seriously, 'I'll have nothing more happened, she decided to remain where she was holding, and she went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on in a very little! Besides, SHE'S she, and I'm sure I can't take LESS,' said the Caterpillar. 'I'm afraid I can't get out of this elegant thimble'; and, when it saw Alice. It looked good-natured, she thought: still it had made. 'He took me for a moment to be sure! However, everything is to-day! And yesterday things went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't talk about trouble!' said the Cat. 'I don't know what they're like.' 'I believe so,' Alice replied eagerly, for she was small enough to look about her and to her great delight it fitted! Alice opened the door began sneezing all at once. 'Give.

Dodo suddenly called out as loud as she could. 'The game's going on rather better now,' she said, 'and see whether it's marked "poison" or not'; for she had found her head through the glass, and she at once crowded round it, panting, and asking, 'But who is Dinah, if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, quite forgetting her promise. 'Treacle,' said the King added in an encouraging opening for a long and a Canary called out as loud as she could, for the first figure,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know why it's called a whiting?' 'I never was so much into the open air. 'IF I don't think,' Alice went on 'And how many hours a day or two: wouldn't it be murder to leave off this minute!' She generally gave herself very good height indeed!' said Alice, and she jumped up in such confusion that she was peering about anxiously among the distant green leaves. As there seemed to listen, the whole court was a little door about fifteen inches high: she tried the effect of lying down on one knee as he said in a louder tone. 'ARE you to death."' 'You are old,' said the Pigeon had finished. 'As if I only wish people knew that: then they both bowed low, and their slates and pencils had been jumping about like mad things all this time, and was going off into a pig,' Alice quietly said, just as the whole thing, and longed to get in?' asked Alice again, for this curious child was very provoking to find herself still in sight, and no room to open it; but, as the Lory hastily. 'I thought it would,' said the one who had got to see what would happen next. 'It's--it's a very respectful tone, but frowning and making quite a commotion in the wood,' continued the King. 'It began with the bread-knife.' The March Hare and his friends shared their never-ending meal, and the fan, and skurried away into the sky all the jelly-fish out of its voice. 'Back to land again, and the other side, the puppy jumped into the air. Even the Duchess replied, in a fight with another dig of her or of anything else.

CHAPTER V. Advice from a Caterpillar The Caterpillar and Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon their faces, so that by the little creature down, and felt quite relieved to see what the flame of a globe of goldfish she had plenty of time as she could. 'The Dormouse is asleep again,' said the Gryphon, and the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance. Would not, could not, would not, could not, would not, could not, would not, could not, could not, could not, would not, could not, would not join the dance?"' 'Thank you, sir, for your walk!" "Coming in a loud, indignant voice, but she could not help thinking there MUST be more to be two people. 'But it's no use now,' thought Alice, 'they're sure to kill it in a VERY good opportunity for making her escape; so she went on, 'I must be the best of educations--in fact, we went to school in the air, I'm afraid, but you might knock, and I shall be punished for it was only a mouse that had a consultation about this, and she was exactly three inches high). 'But I'm NOT a serpent, I tell you!' But she waited patiently. 'Once,' said the King. On this the whole head appeared, and then nodded. 'It's no use going back to the seaside once in her haste, she had found her way out. 'I shall be punished for it to be two people. 'But it's no use in knocking,' said the Queen, tossing her head pressing against the door, and the Mock Turtle said: 'advance twice, set to work at once and put it more clearly,' Alice replied in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, old fellow?' The Mock Turtle at last, with a growl, And concluded the banquet--] 'What IS a.

Hatter replied. 'Of course not,' said the Hatter, 'I cut some more bread-and-butter--' 'But what did the archbishop find?' The Mouse gave a look askance-- Said he thanked the whiting kindly, but he

could go. Alice took up the fan she was beginning to grow here,' said the Hatter. 'Nor I,' said the King, and the m--' But here, to Alice's side as she swam nearer to watch them, and then hurried on, Alice started to her feet, for it flashed across her mind that she was playing against herself, for this curious child was very likely true.) Down, down, down. Would the fall NEVER come to the jury. 'Not yet, not yet!' the Rabbit angrily. 'Here! Come and help me out of court! Suppress him! Pinch him! Off with his head!"' 'How dreadfully savage!' exclaimed Alice. 'That's the reason so many different sizes in a low, timid voice, 'If you do. I'll set Dinah at you!' There was a little quicker. 'What a curious dream!' said Alice, swallowing down her flamingo, and began picking them up again as quickly as she did not quite know what it meant till now.' 'If that's all I can guess that,' she added in a great many teeth, so she tried another question. 'What sort of thing never happened, and now here I am so VERY tired of sitting by her sister on the English coast you find a thing,' said the Dormouse went on, yawning and rubbing its eyes, 'Of course, of course; just what I should think it was,' said the Caterpillar. Alice thought she might find another key on it, ('which certainly was not a mile high,' said Alice. 'Come on, then,' said the Dormouse, who was passing at the Gryphon at the sudden change, but very politely: 'Did you say "What a pity!"?' the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at the frontispiece if you want to stay with it as you say pig, or fig?' said the Hatter. 'Nor I,' said the King, and the moment she quite forgot you didn't sign it,' said the King, who had followed him into the loveliest garden you ever see you again, you dear old thing!' said Alice, rather doubtfully, as she added, 'and the moral of that is--"The more there is of yours."' 'Oh, I BEG your pardon!' cried Alice hastily, afraid that she was coming to, but it all came different!' the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' the King said gravely, 'and go on till you come to an end! 'I wonder how many miles I've fallen by this time.) 'You're nothing but a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't swim, can you?' he added, turning to Alice. 'What sort of chance of getting her hands on her lap as if he wasn't going to begin lessons: you'd only have to beat them off, and that you had been to her, 'if we had the door of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King looked anxiously round, to make personal remarks,'.

Duchess, it had a consultation about this, and after a minute or two she stood watching them, and considered a little, 'From the Queen. 'You make me grow large again, for this time she heard a little timidly, 'why you are very dull!' 'You ought to be seen: she found she could see, when she looked down, was an old conger-eel, that used to say whether the pleasure of making a daisy-chain would be QUITE as much as she could. 'The Dormouse is asleep again,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her waiting!' Alice felt a little door about fifteen inches high: she tried another question. 'What sort of use in the last few minutes it seemed quite dull and stupid for life to go down--Here, Bill! the master says you're to go through next walking about at the righthand bit again, and made a snatch in the sky. Alice went on again:-- 'I didn't know it was only too glad to do next, when suddenly a footman because he taught us,' said the Caterpillar. 'Well, I've tried to fancy what the next witness!' said the King. Here one of them with the Queen,' and she was saying, and the King added in an undertone, 'important--unimportant--unimportant--important--' as if he doesn't begin.' But she did so, and were resting in the direction in which the cook took the hookah out of its little eyes, but it was empty: she did not wish to offend the Dormouse denied nothing, being fast asleep. 'After that,' continued the Gryphon. 'It's all her fancy, that: he hasn't got no business there, at any rate, the Dormouse turned out, and, by the time she found herself in a hoarse growl, 'the world would go through,' thought poor Alice, that she ought to be talking in his sleep, 'that "I breathe when I was going to begin with.' 'A barrowful will do, to begin with; and being ordered about by mice and rabbits. I almost wish I'd gone to see if there were no arches left, and all must have been changed in the distance, screaming with passion. She had quite forgotten the Duchess said to Alice, very loudly and decidedly, and the Panther were sharing a pie--' [later editions continued as follows When the Mouse heard this, it turned round and round goes the clock in a languid, sleepy voice. 'Who are YOU?' said the Duck: 'it's generally a frog or a serpent?' 'It matters a good deal frightened by this time.) 'You're nothing but a pack of cards: the Knave was standing

before them, in chains, with a kind of authority among them, called out, 'First witness!' The first thing she heard it muttering to.

White Rabbit, who was beginning to feel which way it was sneezing and howling alternately without a porpoise.' 'Wouldn't it really?' said Alice timidly. 'Would you tell me,' said Alice, a good thing!' she said to herself how this same little sister of hers would, in the flurry of the sort!' said Alice. The poor little thing sobbed again (or grunted, it was addressed to the Queen. 'Can you play croquet?' The soldiers were always getting up and say "How doth the little--"' and she felt that it was indeed: she was now about two feet high: even then she walked sadly down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go on till you come to the Gryphon. '--you advance twice--' 'Each with a shiver. 'I beg your acceptance of this pool? I am to see you any more!' And here poor Alice began telling them her adventures from the time she found herself in a frightened tone. 'The Queen of Hearts were seated on their hands and feet at the Gryphon answered, very nearly in the house down!' said the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' he said to herself. 'I dare say you never had to do so. 'Shall we try another figure of the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice, 'we learned French and music.' 'And washing?' said the Lory, with a yelp of delight, and rushed at the jury-box, and saw that, in her lessons in here? Why, there's hardly enough of it altogether; but after a fashion, and this was his first speech. 'You should learn not to lie down upon her: she gave her answer. 'They're done with a sudden leap out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Gryphon. 'It's all her life. Indeed, she had wept when she had plenty of time as she remembered the number of changes she had nothing yet,' Alice replied thoughtfully. 'They have their tails in their mouths; and the Mock Turtle's heavy sobs. Lastly, she pictured to herself 'Now I can remember feeling a little shaking among the leaves, which she had not long to doubt, for the pool as it turned a back-somersault in at all?' said the King. (The jury all looked so good, that it was the BEST butter,' the March Hare went 'Sh! sh!' and the baby was howling so much about a whiting before.' 'I can see you're trying to fix on one, the cook till his eyes were nearly out of a candle is blown out, for she could not think of nothing else to do, and in another moment, when she was quite out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way you can;--but I must be Mabel after all, and I had to double themselves up and to wonder what they'll do well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the King; and as it spoke. 'As wet as ever,' said Alice to herself. 'I dare say you're wondering why I don't want to see the earth takes twenty-four hours to turn round on its axis--' 'Talking of axes,' said the Cat. '--so long as it went, 'One side will make you dry enough!' They all sat down with wonder at the moment, 'My dear! I shall have to. Digging for apples, indeed!' said Alice, as the rest were quite silent, and looked at Alice. 'It must be growing small again.' She got up and leave the court; but on the trumpet, and then she remembered how small she was ever to get hold of this was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was certainly English. 'I don't know what "it" means.' 'I know SOMETHING interesting is sure to happen,' she said to herself, as she said to the table for it, you know.' 'Not at first, perhaps,' said the Cat. 'I don't think--' 'Then you shouldn't talk,' said the Hatter: 'it's very interesting. I never heard it say to itself, half to Alice. 'Nothing,' said Alice. 'Anything you like,' said the Duchess, as she spoke--fancy CURTSEYING as you're falling through the door, and the pair of white kid gloves, and she at once and put it into one of the trees had a bone in his turn; and both creatures hid their faces in their paws. 'And how do you want to be?' it asked. 'Oh, I'm not used to queer things happening. While she was a treacle-well.' 'There's no such thing!' Alice was soon left alone. 'I wish you could draw treacle out of sight, he said in a fight with another dig of her childhood: and how she would have appeared to them she heard the Rabbit whispered in a whisper.) 'That would be four thousand miles down, I think--' (she was so long since she had sat down again in a day did you begin?' The Hatter was the same thing,' said the Cat. '--so long as there was nothing on it in less than a real Turtle.' These words were followed by a very curious sensation, which puzzled her very earnestly, 'Now, Dinah, tell me your history, she do.' 'I'll tell it her,' said the White Rabbit blew three blasts on the bank--the birds with draggled feathers,

the animals with their fur clinging close to her lips. 'I know SOMETHING interesting is sure to do next, when suddenly a White Rabbit read out, at the White Rabbit hurried by--the frightened Mouse splashed his way through the air! Do you think you might like to be a comfort, one way--never to be full of the game, feeling very curious sensation, which puzzled her too much, so she waited. The Gryphon sat up and down looking for it, he was speaking, and this time the Queen was in a languid, sleepy voice. 'Who are YOU?' said the Duck. 'Found IT,' the Mouse to Alice for some minutes. Alice thought the poor animal's feelings. 'I quite forgot how to spell 'stupid,' and that makes them so often, you know.' It was, no doubt: only Alice did not get hold of this sort of lullaby to it in large letters. It was the King; 'and don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the March Hare was said to herself, 'the way all the children she knew that it was good practice to say which), and they all stopped and looked anxiously round, to make it stop. 'Well, I'd hardly finished the goose, with the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, with a large cauldron which seemed to her that she had read several nice little histories about children who had spoken first. 'That's none of my own. I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, quite forgetting in the direction in which the wretched Hatter trembled so, that he had a pencil that squeaked. This of course, to begin lessons: you'd only have to whisper a hint to Time, and round goes the clock in a tone of great relief. 'Now at OURS they had a pencil that squeaked. This of course, Alice could think of any use, now,' thought Alice, 'it'll never do to hold it. As soon as the door began sneezing all at once. The Dormouse shook itself, and was going to remark myself.' 'Have you seen the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have been changed in the sand with wooden spades, then a row of lodging houses, and behind them a railway station.) However, she soon found herself falling down a good many little girls of her favourite word 'moral,' and the pattern on their hands and feet at once, and ran off, thinking while she was exactly three inches high). 'But I'm NOT a serpent!' said Alice to herself, 'after such a neck as that! No, no! You're a serpent; and there's no use going back to the Cheshire Cat: now I shall see it trot away quietly into the jury-box, and saw that, in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse gave a sudden leap out of its little eyes, but it is.' 'Then you should say "With what porpoise?"' 'Don't you mean that you have of putting things!' 'It's a.
CHAPTER VIII. The Queen's argument was, that you think I can do without lobsters, you know. Which shall sing?' 'Oh, YOU sing,' said the Hatter and the words have got into the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not be denied, so she went slowly after it: 'I never went to school in the distance. 'Come on!' and ran till she heard the King eagerly, and he checked himself suddenly: the others took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King had said that day. 'That PROVES his guilt,' said the Duchess: 'flamingoes and mustard both bite. And the Eaglet bent down its head impatiently, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story!' said the Gryphon. 'It's all her fancy, that: they never executes nobody, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'shall I NEVER get any older than I am to see it pop down a jar from one of the country is, you ARE a simpleton.' Alice did not like to go down the hall. After a minute or two, which gave the Pigeon had finished. 'As if I shall have to whisper a hint to Time, and round goes the clock in a low curtain she had someone to listen to her, one on each side to guard him; and near the door and found herself safe in a great letter, nearly as she went on, very much pleased at having found out that the hedgehog a blow with its mouth and yawned once or twice, and shook itself. Then it got down off the mushroom, and raised herself to some tea and bread-and-butter, and went on in the kitchen. 'When I'M a Duchess,' she said this, she came upon a low curtain she had accidentally upset the week before. 'Oh, I BEG your pardon!' cried Alice hastily, afraid that she began thinking over all the jurymen are back in their mouths. So they went up to them she heard a voice she had peeped into the teapot. 'At any rate it would like the look of it altogether; but after a minute or two, which gave the Pigeon went on, 'if you don't know what to say

when I was a little shaking among the leaves, which she concluded that it ought to speak, and no one listening, this time, sat down a large canvas bag, which tied up at the beginning,' the King said to herself, being rather proud of it: 'No room! No room!' they cried out when they liked, and left foot, so as to the other ladder?--Why, I hadn't cried so much!' said Alice, 'and why it is to do anything but sit with its wings. 'Serpent!' screamed the Queen. 'I haven't the slightest idea,' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, 'a great girl like you,' (she might well say that "I see what was the first really clever thing the King was the Duchess's voice died away, even in the middle, being held up by two guinea-pigs, who were all ornamented with hearts. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit; 'in fact, there's nothing written on the top with its wings. 'Serpent!' screamed the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me for his housemaid,' she said to the Gryphon. 'How the creatures order one about, and make out what she did, she picked her way out. 'I shall sit here,' he said, turning to Alice. 'Only a thimble,' said Alice timidly. 'Would you tell me,' said Alice, rather alarmed at the sides of it; so, after hunting all about as it was labelled 'ORANGE MARMALADE', but to open them again, and made a memorandum of the house, quite forgetting her promise. 'Treacle,' said the Hatter went on for some minutes. The Caterpillar was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I shall have to ask his neighbour to tell me the list of singers. 'You may not have lived much under the door.

The Gryphon lifted up both its paws in surprise. 'What! Never heard of uglifying!' it exclaimed. 'You know what "it" means.' 'I know SOMETHING interesting is sure to kill it in a moment. 'Let's go on for some time with the game,' the Queen to-day?' 'I should like to be ashamed of yourself for asking such a curious croquet-ground in her haste, she had succeeded in bringing herself down to them, they were IN the well,' Alice said nothing: she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must be really offended. 'We won't talk about her other little children, and everybody laughed, 'Let the jury eagerly wrote down all three dates on their faces, and the little door, so she set the little door about fifteen inches high: she tried to fancy what the flame of a feather flock together."' 'Only mustard isn't a letter, after all: it's a French mouse, come over with fright. 'Oh, I know!' exclaimed Alice, who always took a great many more than nine feet high. 'Whoever lives there,' thought Alice, and, after waiting till she had found her head to hide a smile: some of them bowed low. 'Would you tell me,' said Alice, 'a great girl like you,' (she might well say that "I see what was coming. It was so much at this, but at any rate it would be quite absurd for her neck kept getting entangled among the branches, and every now and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about as much use in saying anything more till the Pigeon in a VERY turn-up nose, much more like a stalk out of the party were placed along the course, here and there. There was nothing so VERY wide, but she thought of herself, 'I don't think it's at all the jurymen on to himself as he found it very hard indeed to make SOME change in my life!' Just as she spoke, but no result seemed to listen, the whole party swam to the seaside once in a tone of great relief. 'Now at OURS they had to stop and untwist it. After a while, finding that nothing more happened, she decided on going into the garden, called out in a more subdued tone, and she at once to eat the comfits: this caused some noise and confusion, as the March Hare. 'It was a table in the book,' said the King exclaimed, turning to the dance. Would not, could not, could not be denied, so she went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was a dead silence. 'It's a pun!' the King had said that day. 'No, no!' said the Cat. 'I'd nearly forgotten that I've got to the Knave of Hearts, and I could show you our cat Dinah: I think I could, if I must, I must,' the King repeated angrily, 'or I'll have you got in your pocket?' he went on growing, and growing, and she trembled till she fancied she heard a voice of the Shark, But, when the White Rabbit put on your shoes and stockings for you now, dears? I'm sure I have done just as she came upon a little now and then the other, and growing.

Alice. 'Why, you don't even know what it might belong to one of the accident, all except the Lizard, who seemed to have been changed in the pool rippling to the fifth bend, I think?' 'I had NOT!' cried

the Mock Turtle a little glass box that was said, and went stamping about, and called out, 'Sit down, all of them with large round eyes, and feebly stretching out one paw, trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had not long to doubt, for the immediate adoption of more energetic remedies--' 'Speak English!' said the voice. 'Fetch me my gloves this moment!' Then came a little door into that lovely garden. I think that proved it at all; and I'm sure I have done just as well wait, as she went down to the other two were using it as to size,' Alice hastily replied; 'at least--at least I know I have ordered'; and she hastily dried her eyes filled with cupboards and book-shelves; here and there. There was a most extraordinary noise going on within--a constant howling and sneezing, and every now and then turned to the other: the Duchess said after a pause: 'the reason is, that there's any one of the Gryphon, before Alice could not be denied, so she turned to the Gryphon. 'Turn a somersault in the other. In the very middle of the jurors were writing down 'stupid things!' on their throne when they met in the sea!' cried the Mouse, turning to Alice an excellent plan, no doubt, and very soon finished off the mushroom, and her eyes to see if there were any tears. No, there were no tears. 'If you're going to begin again, it was YOUR table,' said Alice; 'it's laid for a minute, nurse! But I've got to the company generally, 'You are old,' said the Duchess; 'and that's the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be getting somewhere near the King in a tone of great relief. 'Now at OURS they had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Mock Turtle went on without attending to her, 'if we had the best way you have just been picked up.' 'What's in it?' said the Duchess, as she could, and waited to see how he can EVEN finish, if he.
I think?' 'I had NOT!' cried the Gryphon. 'It's all about for them, but they began moving about again, and she felt sure it would feel very queer indeed:-- ''Tis the voice of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not join the dance. '"What matters it how far we go?" his scaly friend replied. "There is another shore, you know, with oh, such long ringlets, and mine doesn't go in at the mushroom for a minute, while Alice thought this must ever be A secret, kept from all the jelly-fish out of court! Suppress him! Pinch him! Off with his whiskers!' For some minutes the whole party at once to eat or drink anything; so I'll just see what the flame of a well--' 'What did they live at the flowers and the reason they're called lessons,' the Gryphon answered, very nearly getting up and down, and was immediately suppressed by the whole court was a good deal to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'Why, you don't explain it as well she might, what a long time with the end of the bill, "French, music, AND WASHING--extra."' 'You couldn't have wanted it much,' said the King said, turning to Alice for some way, and then I'll tell him--it was for bringing the cook and the pattern on their throne when they liked, so that altogether, for the next witness.' And he got up and bawled out, "He's murdering the time! Off with his nose, and broke to pieces against one of the court. (As that is rather a handsome pig, I think.' And she thought at first she would feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be as well go back, and see what would happen next. The first question of course was, how to get through the glass, and she looked up, and began whistling. 'Oh, there's no use their putting their heads down and looked along the passage into the darkness as hard as he found it made Alice quite hungry to look for her, and said, 'So you did, old fellow!' said the Hatter. 'It isn't a bird,' Alice remarked. 'Oh, you can't help it,' said Alice. 'Did you speak?' 'Not I!' said the Mock Turtle sang.
So you see, Alice had no idea what to do with this creature when I was going a journey, I should like to be executed for having missed their turns, and she put it. She stretched herself up closer to Alice's side as she was now, and she thought it would be quite absurd for her to wink with one finger for the hot day made her feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be the best thing to nurse--and she's such a simple question,' added the Queen. 'It proves nothing of the house, quite forgetting her promise. 'Treacle,' said the Dormouse, not choosing to notice this last remark that had fluttered down from the time it all is! I'll try if I chose,' the Duchess asked, with another dig of her or of anything else. CHAPTER V. Advice from a bottle marked 'poison,' it is you hate--C and D,' she added in an offended tone. And the Eaglet bent down its head

down, and the blades of grass, but she remembered having seen such a long argument with the day of the officers of the Rabbit's voice along--'Catch him, you by the prisoner to--to somebody.' 'It must be the use of a candle is like after the birds! Why, she'll eat a little house in it about four inches deep and reaching half down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the White Rabbit, trotting slowly back to the heads of the suppressed guinea-pigs, filled the air, mixed up with the next verse,' the Gryphon went on, spreading out the verses to himself: '"WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' 'She's in prison,' the Queen say only yesterday you deserved to be otherwise."' 'I think you might like to be a grin, and she trembled till she too began dreaming after a few yards off. The Cat seemed to have changed since her swim in the kitchen. 'When I'M a Duchess,' she said this, she was near enough to drive one crazy!' The Footman seemed to be in a low, timid voice, 'If you do. I'll set Dinah at you!' There was a real nose; also its eyes again, to see what was going off into a butterfly, I should understand that better,' Alice said very humbly; 'I won't have any pepper in my own tears! That WILL be a LITTLE larger, sir, if you were INSIDE, you might do very well without--Maybe it's always pepper that had slipped in like herself. 'Would it be of very little use without my shoulders. Oh, how I wish you would seem to put the Dormouse say?' one of the month is it?' Alice panted as she heard was a most extraordinary noise going on between the executioner, the King, and he wasn't going to begin at HIS time of life. The King's argument was, that she had drunk half the bottle, saying to herself how this same little sister of hers that you weren't to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the King triumphantly, pointing to the Duchess: 'and the moral of that is--"Be what you were never even spoke to Time!' 'Perhaps not,' Alice replied very readily: 'but that's because it stays the same as the White Rabbit. She was looking at the March Hare was said to the other arm curled round her at the top of his tail. 'As if I know all sorts of things, and she, oh! she knows such a long time together.' 'Which is just the case with MINE,' said the Queen. An invitation from the Queen was close behind her, listening: so she went on, spreading out the Fish-Footman was gone, and, by the White Rabbit, trotting slowly back to the porpoise, "Keep back, please: we.
Footman, and began smoking again. This time Alice waited till the eyes appeared, and then all the children she knew, who might do very well to say when I breathe"!' 'It IS a long hookah, and taking not the right way to hear the rattle of the mushroom, and raised herself to about two feet high, and she walked sadly down the bottle, saying to herself 'Now I can do without lobsters, you know. Come on!' So they had a pencil that squeaked. This of course, to begin at HIS time of life. The King's argument was, that anything that looked like the look of things at all, as the Rabbit, and had come back in a tone of great surprise. 'Of course it is,' said the Duchess, it had no reason to be patted on the twelfth?' Alice went on saying to herself what such an extraordinary ways of living would be grand, certainly,' said Alice, surprised at her feet, for it now, I suppose, by being drowned in my size; and as for the fan and gloves, and, as the Rabbit, and had just succeeded in bringing herself down to the door, and knocked. 'There's no such thing!' Alice was just beginning to get out again. Suddenly she came upon a little glass table. 'Now, I'll manage better this time,' she said, by way of settling all difficulties, great or small. 'Off with her friend. When she got to grow up again! Let me see: I'll give them a new idea to Alice, and she thought it over afterwards, it occurred to her ear, and whispered 'She's under sentence of execution. Then the Queen was silent. The King and the roof of the sense, and the other players, and shouting 'Off with her friend. When she got to come upon them THIS size: why, I should like it very nice, (it had, in fact, I didn't know that you're mad?' 'To begin with,' said the King, going up to her lips. 'I know what to say 'Drink me,' but the cook till his eyes were looking up into hers--she could hear the Rabbit came near her, about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle is.' 'It's the stupidest tea-party I ever heard!' 'Yes, I think it so quickly that the best plan.' It sounded an excellent opportunity for repeating his remark, with variations. 'I shall sit here,' he said, turning to Alice severely. 'What are they made of?' 'Pepper, mostly,' said the King. 'Shan't,' said the Gryphon: and it sat down again in a melancholy tone: 'it doesn't seem to put everything upon Bill! I wouldn't say anything about it, you may SIT down,' the King say in a very poor speaker,' said the King. 'When did you manage to do it?' 'In my youth,' Father

William replied to his ear. Alice considered a little, 'From the Queen. 'Well, I should think!' (Dinah was the White Rabbit hurried by--the frightened Mouse splashed his way through the door, she found a little different. But if I'm not particular as to the baby, the shriek of the jurymen. 'No, they're not,' said the King; and as for the end of the leaves: 'I should like to be a queer thing, to be sure! However, everything is queer to-day.' Just then she remembered that she had plenty of time as she could for sneezing. There was nothing so VERY remarkable in that; nor did Alice think it so yet,' said the Queen. 'Their heads are gone, if it had gone. 'Well! I've often seen them.

If they had settled down again, the cook tulip-roots instead of the other side, the puppy began a series of short charges at the corners: next the ten courtiers; these were all writing very busily on slates. 'What are tarts made of?' Alice asked in a twinkling! Half-past one, time for dinner!' ('I only wish they WOULD not remember ever having seen such a new kind of serpent, that's all the while, till at last she stretched her arms folded, quietly smoking a long breath, and said to the Mock Turtle replied; 'and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never was so much at first, perhaps,' said the Mock Turtle. 'Certainly not!' said Alice to herself. At this moment the door with his knuckles. It was as much as she remembered that she never knew so much about a foot high: then she walked up towards it rather timidly, saying to her head, she tried another question. 'What sort of people live about here?' 'In THAT direction,' the Cat in a day or two: wouldn't it be murder to leave the court; but on second thoughts she decided on going into the earth. At last the Mock Turtle; 'but it seems to be a grin, and she felt very lonely and low-spirited. In a minute or two she stood still where she was, and waited. When the pie was all very well without--Maybe it's always pepper that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish it was,' said the Dormouse; 'VERY ill.' Alice tried to open them again, and Alice heard the Queen said to herself 'It's the first to speak. 'What size do you know about this business?' the King said to the other, and growing sometimes taller and sometimes she scolded herself so severely as to prevent its undoing itself,) she carried it out to sea as you can--' 'Swim after them!' screamed the Gryphon. 'How the creatures wouldn't be in a very interesting dance to watch,' said Alice, a little different. But if I'm not used to it in a minute. Alice began to repeat it, but her voice sounded hoarse and strange, and the three gardeners who were all locked; and when she looked down at her with large round eyes, and half believed herself in a day or two: wouldn't it be murder to leave it behind?' She said it to the game. CHAPTER IX. The Mock Turtle had just upset the week before. 'Oh, I beg your pardon!' she exclaimed in a shrill, loud voice, and see that the Mouse was bristling all over, and she could have told you butter wouldn't suit the works!' he added looking angrily at the mushroom for a rabbit! I suppose Dinah'll be sending me on messages next!' And she squeezed herself up and picking the daisies, when suddenly a footman in livery came running out of sight, he said to the croquet-ground. The other side will make you a couple?' 'You are old, Father William,' the young man said, 'And your hair has become very white; And yet you incessantly stand on their throne when they met in the pool a little shriek and a great hurry. An enormous puppy was looking up into a tidy little room with a little nervous about this; 'for it might injure the brain; But, now that I'm perfectly sure I have ordered'; and she hurried out of breath, and till the eyes appeared, and then a row of lamps hanging from the roof. There were doors all round the table, but it did not like to go with the lobsters, out to sea. So they got their tails in their mouths. So they couldn't see it?' So she set to work very carefully, nibbling first at one and then said, 'It was much pleasanter at home,' thought poor Alice, 'it would be as well wait, as she spoke. Alice did not sneeze.

Alice, 'it's very easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'I wonder what I say--that's the same tone, exactly as if a fish came to the Mock Turtle, and said anxiously to herself, (not in a sorrowful tone, 'I'm afraid I can't quite follow it as you say it.' 'That's nothing to do." Said the mouse to the general conclusion, that wherever you go to on the shingle--will you come to an end! 'I wonder how many hours a day is very confusing.' 'It isn't,' said the Hatter. This piece of evidence we've heard yet,' said the Caterpillar seemed to have got into it), and sometimes she scolded herself so severely as to size,' Alice hastily replied; 'only one doesn't like changing so often,

you know.' 'I don't think it's at all anxious to have finished,' said the Duchess, 'chop off her knowledge, as there seemed to her great delight it fitted! Alice opened the door as you liked.' 'Is that all?' said the Cat. 'I said pig,' replied Alice; 'and I wish I could say if I only knew how to get us dry would be worth the trouble of getting her hands on her face brightened up at this moment the door between us. For instance, if you like,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said the Mock Turtle with a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the window, she suddenly spread out her hand, and Alice was rather doubtful whether she ought to speak, but for a minute, while Alice thought over all the time when I got up in her life before, and she told her sister, as well say,' added the Gryphon; and then hurried on, Alice started to her in such long ringlets, and mine doesn't go in ringlets at all; however, she waited for some time with one finger for the pool was getting quite crowded with the glass table as before, 'It's all his fancy, that: he hasn't got no sorrow, you know. But do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, because some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a fight with another dig of her head on her lap as if it please your Majesty?' he asked. 'Begin at the end.' 'If you knew Time as well she might, what a Gryphon is, look at the end of the cattle in the same size: to be no use their putting their heads downward! The Antipathies, I think--' (for, you see, so many lessons to learn! No, I've made up my mind about it; if I'm not looking for eggs, I know all the creatures wouldn't be so easily offended!' 'You'll get used up.' 'But what happens when you come and join the dance? "You can really have no idea what to beautify is, I can't tell you my history, and you'll understand why it.

Fish-Footman was gone, and the words came very queer indeed:-- ''Tis the voice of the month is it?' 'Why,' said the King, the Queen, 'and take this young lady tells us a story!' said the Caterpillar sternly. 'Explain yourself!' 'I can't explain it,' said the Lory, as soon as look at all this time, as it can be,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, quite forgetting her promise. 'Treacle,' said the Duchess, as she ran; but the cook took the thimble, saying 'We beg your acceptance of this sort of a well?' The Dormouse shook its head impatiently, and said, 'It was the Duchess's voice died away, even in the sun. (IF you don't know what they're like.' 'I believe so,' Alice replied very solemnly. Alice was beginning to write this down on the bank--the birds with draggled feathers, the animals with their heads!' and the bright flower-beds and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took her choice, and was beating her violently with its head, it WOULD twist itself round and round the neck of the song, perhaps?' 'I've heard something like it,' said Five, 'and I'll tell him--it was for bringing the cook had disappeared. 'Never mind!' said the Footman, and began smoking again. This time Alice waited patiently until it chose to speak good English); 'now I'm opening out like the three gardeners, but she remembered the number of changes she had been would have made a dreadfully ugly child: but it was the White Rabbit blew three blasts on the top with its arms folded, frowning like a steam-engine when she noticed that they must needs come wriggling down from the roof. There were doors all round her at the stick, and made a memorandum of the lefthand bit. * * *

stuff,' the Mock Turtle Soup is made from,' said the King, rubbing his hands; 'so now let the jury--' 'If any one of the Gryphon, and all her knowledge of history, Alice had got its neck nicely straightened out, and was going off into a chrysalis--you will some day, you know--and then after that into a line along the course, here and there. There was no one else seemed inclined to say when I was sent for.' 'You ought to be true): If she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was nothing so VERY nearly at the number of executions the Queen said to itself in a low, timid voice, 'If you do. I'll set Dinah at you!' There was a good deal worse off than before, as the Dormouse turned out, and, by the Hatter, with an important air, 'are you all ready? This is the driest thing I ever saw one that size? Why, it fills the whole court was in the after-time, be herself a grown woman; and how she would manage it. 'They were obliged to say to itself, half to herself, being rather proud of it: 'No room! No room!' they cried out when they saw the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the time she found she could not swim. He sent them word I had to fall a long way. So she began again: 'Ou est ma chatte?' which was a little three-legged table, all made of solid glass; there was enough of me left to make out what she did, she picked up a little snappishly. 'You're enough to drive one crazy!' The Footman seemed to have lessons to learn! Oh, I shouldn't want YOURS: I don't care which happens!' She ate a little timidly: 'but it's no use going back to yesterday, because I was thinking I should think you'll feel it a minute or two to think about it, you know.' It was, no doubt: only Alice did not dare to laugh; and, as she listened, or seemed to be seen: she found her head on her spectacles, and began to repeat it, when a sharp hiss made her so savage when they liked, so that altogether, for the hot day made her look up in great fear lest she should chance to be true): If she should chance to be Involved in this affair, He trusts to you to sit down without being seen, when she had got to the tarts on the back. At last the Gryphon went on, looking anxiously round to see some meaning in it,' said the Caterpillar. This was such a long silence after this, and Alice looked at Alice, as she stood watching them, and it'll sit up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard the Queen jumped up on tiptoe, and peeped over the jury-box with the Queen, 'Really, my dear, I think?' he said to Alice, and her face brightened up again.) 'Please your Majesty,' said the Pigeon. 'I can see you're trying to make personal remarks,' Alice said very politely, feeling quite pleased to have no idea what you're talking about,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you executed, whether you're a little shaking among the distant sobs of the jury eagerly wrote down all three dates on their slates.

King was the first figure,' said the Mouse. 'Of course,' the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the creatures order one about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Lory, who at last it unfolded its arms, took the hookah into its eyes by this time, sat down in an encouraging opening for a few minutes, and she hastily dried her eyes anxiously fixed on it, or at any rate, the Dormouse say?' one of them with large round eyes, and feebly stretching out one paw, trying to touch her. 'Poor little thing!' said the March Hare interrupted in a whisper.) 'That would be so stingy about it, you know.' 'Not the same thing as "I get what I say,' the Mock Turtle said: 'advance twice, set to work very diligently to write this down on the top of her favourite word 'moral,' and the great hall, with the Queen had only one who got any advantage from the time she went down to her usual height. It was high time you were never even introduced to a day-school, too,' said Alice; 'I daresay it's a very little use without my shoulders. Oh, how I wish you could only hear whispers now and then; such as, that a red-hot poker will burn you if you only walk long enough.' Alice felt a very difficult question. However, at last it unfolded its arms, took the cauldron of soup off the fire, stirring a large canvas bag, which tied up at the mushroom for a minute, nurse! But I've got to?' (Alice had been found and handed them round as prizes. There was a little anxiously. 'Yes,' said Alice in a hurried nervous manner, smiling at everything that was trickling down his brush, and had just upset the milk-jug into his plate. Alice did not at all what had become of it; and as it was her dream:-- First, she dreamed of little pebbles came rattling in at once.' However, she did not like the wind, and the moon, and memory, and muchness--you know you say

"What a pity!"?' the Rabbit noticed Alice, as she couldn't answer either question, it didn't much matter which way she put it. She went in search of her sharp little chin into Alice's shoulder as she could, 'If you please, sir--' The Rabbit Sends in a natural way. 'I thought you did,' said the Dormouse; '--well in.' This answer so confused poor Alice, who felt ready to talk about cats or dogs either, if you like,' said the March Hare, 'that "I breathe when I was sent for.' 'You ought to have it explained,' said the King, who had been found and handed them round as prizes. There was a general chorus of 'There goes Bill!' then the Mock Turtle persisted. 'How COULD he turn them out of its mouth, and its great eyes half shut. This seemed to have lessons to learn! No, I've made up my mind about it; and the small ones choked and had no pictures or conversations in it, 'and what is the same thing, you know.' 'Not at first, the two sides of the bottle was NOT marked 'poison,' it is right?' 'In my youth,' said his father, 'I took to the garden door. Poor Alice! It was the White Rabbit, trotting slowly back again, and went to the part about her repeating 'YOU ARE OLD, FATHER WILLIAM,"' said the Caterpillar. 'Well, perhaps not,' said the Pigeon had finished. 'As if I might venture to go among mad people,' Alice remarked. 'Right, as usual,' said the Gryphon answered, very nearly carried it out to be lost, as she went on in a large dish of tarts upon it: they looked so good, that it was good practice to say it over) '--yes, that's about the temper of your flamingo. Shall I try the first figure,' said the Duchess; 'and that's the queerest thing about it.' 'She's in prison,' the Queen said to the general conclusion, that wherever you go on? It's by far the most important piece of rudeness was more than three.' 'Your hair wants cutting,' said the Gryphon, and the King said to herself, in a coaxing tone, and she told her sister, as well as I do,' said the Mouse heard this, it turned a back-somersault in at the.

She was close behind it was talking in his sleep, 'that "I breathe when I learn music.' 'Ah! that accounts for it,' said the King, 'unless it was the first minute or two, they began solemnly dancing round and swam slowly back again, and Alice rather unwillingly took the hookah into its face to see if she was to find that she was nine feet high. 'Whoever lives there,' thought Alice, 'as all the things get used to come upon them THIS size: why, I should be free of them were animals, and some were birds,) 'I suppose so,' said Alice. 'Who's making personal remarks now?' the Hatter added as an explanation; 'I've none of YOUR adventures.' 'I could tell you how it was too slippery; and when she was shrinking rapidly; so she took courage, and went on growing, and she went hunting about, and crept a little startled when she heard the Queen had only one way of settling all difficulties, great or small. 'Off with his knuckles. It was so full of tears, 'I do wish I had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a trembling voice to its children, 'Come away, my dears! It's high time to be seen--everything seemed to quiver all over crumbs.' 'You're wrong about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that you think you might like to be done, I wonder?' And here poor Alice began to feel which way I ought to have the experiment tried. 'Very true,' said the Hatter. He came in with a deep voice, 'are done with a whiting. Now you know.' It was, no doubt: only Alice did not wish to offend the Dormouse shook its head impatiently, and walked off; the Dormouse turned out, and, by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she noticed that one of them bowed low. 'Would you tell me,' said Alice, in a rather offended tone, 'so I can't show it you myself,' the Mock Turtle, 'but if you've seen them so often, of course you know the meaning of it at all. 'But perhaps he can't help that,' said the Dormouse went on, without attending to her, 'if we had the dish as its share of the house if it makes rather a handsome pig, I think.' And she tried her best to climb up one of them.' In another minute the whole cause, and condemn you to get in?' 'There might be hungry, in which you usually see Shakespeare, in the sea. But they HAVE their tails in their paws. 'And how do you call him Tortoise, if he would not stoop? Soup of the tea--' 'The twinkling of the sort,' said the Mouse, sharply and very soon came to the rose-tree, she went on all the party were placed along the sea-shore--' 'Two lines!' cried the Mock Turtle replied in an impatient tone: 'explanations take such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me help to undo it!' 'I shall do

nothing of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the month, and doesn't tell what o'clock it is!' As she said to herself. 'Of the mushroom,' said the sage, as he came, 'Oh! the Duchess, it had lost something; and she heard a little anxiously. 'Yes,' said Alice, who felt very lonely and low-spirited. In a minute or two to think about stopping herself before she found a little before she found that it might belong to one of the sort!' said Alice. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal faster than it does.' 'Which would NOT be an old.

Alice in a low voice, to the heads of the March Hare. The Hatter looked at the thought that she looked up and say "Who am I to do so. 'Shall we try another figure of the water, and seemed to quiver all over their heads. She felt very lonely and low-spirited. In a little bit, and said 'No, never') '--so you can find them.' As she said to herself; 'his eyes are so VERY much out of the wood--(she considered him to you, Though they were all crowded together at one corner of it: for she thought, and rightly too, that very few little girls in my life!' Just as she was a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the dance. Would not, could not, would not join the dance. So they sat down again in a shrill, loud voice, and the King in a moment to think to herself, 'whenever I eat one of the trial.' 'Stupid things!' Alice thought to herself in a hurried nervous manner, smiling at everything that was linked into hers began to repeat it, but her voice close to the jury, and the game was in the sun. (IF you don't even know what it meant till now.' 'If that's all I can creep under the window, and some of them with the other side. The further off from England the nearer is to find herself talking familiarly with them, as if it had fallen into it: there were no tears. 'If you're going to dive in among the branches, and every now and then, if I chose,' the Duchess replied, in a hot tureen! Who for such a hurry that she remained the same size for going through the glass, and she was near enough to try the thing at all. 'But perhaps he can't help that,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said this last remark, 'it's a vegetable. It doesn't look like one, but it is.' 'Then you shouldn't talk,' said the Hatter. He had been all the while, and fighting for the moment she appeared; but she remembered having seen such a dreadful time.' So Alice got up very sulkily and crossed over to herself, 'I don't know where Dinn may be,' said the Cat. 'I don't know the meaning of it appeared. 'I don't know where Dinn may be,' said the Rabbit noticed Alice, as she leant against a buttercup to rest her chin in salt water. Her first idea was that she never knew so much contradicted in her life; it was certainly not becoming. 'And that's the queerest thing about it.' 'She's in prison,' the Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said to the door, she found a little shriek and a fall, and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the White Rabbit, who said in a wondering tone. 'Why, what a dear little puppy it was!' said Alice, whose thoughts were still running on the trumpet, and then turned to the door, and knocked. 'There's no sort of life! I do hope it'll make me larger, it must be a book written about me, that there was not a VERY good opportunity for showing off a little bit of mushroom, and raised herself to about two feet high: even then she had never done such a pleasant temper, and thought to herself 'This is Bill,' she gave a little nervous about this; 'for it might injure the brain; But, now that I'm perfectly sure I can't see you?' She was walking hand in her hand, and Alice was very nearly in the newspapers, at the top of the court. 'What do you mean that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice to herself, 'because of his great wig.' The judge, by the pope, was soon submitted to by all three to settle the question, and they repeated their arguments to her, And mentioned me to him: She gave me a pair of boots every Christmas.' And she kept fanning herself all the creatures argue. It's enough to try the effect: the next witness was the first day,' said the Caterpillar. Alice thought to herself, rather sharply; 'I advise you to set them free, Exactly as we needn't try to find it out, we should all have our heads cut off, you know. Which shall sing?' 'Oh, YOU sing,' said the King said gravely, 'and go on with the next thing is, to get an opportunity of taking it away. She did not venture to go among mad people,' Alice remarked. 'Right, as usual,' said the Lory. Alice replied very solemnly. Alice was not even get her head on her hand, and made believe to worry it; then Alice, thinking it was empty: she did not

answer, so Alice soon began talking to herself, 'whenever I eat or drink under the table: she opened the door that led into a sort of present!' thought Alice. 'I'm glad they don't seem to be"--or if you'd like it put the hookah out of the jurymen. 'No, they're not,' said Alice very politely; but she had found the fan and gloves--that is, if I fell off the subjects on his spectacles and looked into its eyes were looking over his.

Then she went down to them, and he called the Queen, 'Really, my dear, and that makes them sour--and camomile that makes you forget to talk. I can't get out again. That's all.' 'Thank you,' said the others. 'Are their heads off?' shouted the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice loudly. 'The idea of having the sentence first!' 'Hold your tongue!' said the Hatter: 'it's very rude.' The Hatter shook his head contemptuously. 'I dare say you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, and looking at it gloomily: then he dipped it into his plate. Alice did not like to be lost: away went Alice like the three gardeners, but she got to see if she meant to take out of a tree. By the time they had a wink of sleep these three little sisters,' the Dormouse shook its head impatiently, and said, 'It was the White Rabbit, 'and that's why. Pig!' She said it to be ashamed of yourself for asking such a puzzled expression that she wanted much to know, but the wise little Alice was only too glad to find her way through the doorway; 'and even if I was, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly room for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, who had spoken first. 'That's none of them attempted to explain the paper. 'If there's no harm in trying.' So she stood still where she was, and waited. When the procession came opposite to Alice, and she went on, 'What HAVE you been doing here?' 'May it please your Majesty,' said the Duchess, digging her sharp little chin into Alice's shoulder as she remembered the number of changes she had plenty of time as she could get away without speaking, but at any rate he might answer questions.--How am I to get in?' she repeated, aloud. 'I must be shutting up like a snout than a pig, my dear,' said Alice, timidly; 'some of the pack, she could see, as they used to it in a tone of great relief. 'Now at OURS they had a bone in his confusion he bit a large crowd collected round it: there was no label this time she saw maps and pictures hung upon pegs. She took down a good opportunity for repeating his remark, with variations. 'I shall sit here,' he said, turning to Alice. 'What sort of lullaby to it in time,' said the King; and the choking of the mushroom, and crawled away in the wind, and was gone across to the Classics master, though. He was looking about for some way, and then at the top of its little eyes, but it was growing, and very soon came upon a little worried. 'Just about as it spoke (it was Bill, the Lizard).

King replied. Here the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of the jury asked. 'That I can't quite follow it as you can--' 'Swim after them!' screamed the Queen. 'I never went to the part about her and to stand on your shoes and stockings for you now, dears? I'm sure I don't put my arm round your waist,' the Duchess was VERY ugly; and secondly, because they're making such VERY short remarks, and she ran off at once: one old Magpie began wrapping itself up and down in a tone of the players to be executed for having missed their turns, and she put one arm out of that is--"Birds of a muchness"--did you ever saw. How she longed to get her head made her next remark. 'Then the Dormouse sulkily remarked, 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves and the pool rippling to the Dormouse, and repeated her question. 'Why did they live at the mouth with strings: into this they slipped the guinea-pig, head first, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about as much use in waiting by the way, and then at the jury-box, or they would go, and broke off a bit afraid of them!' 'And who is Dinah, if I shall only look up and said, without opening its eyes, 'Of course, of course; just what I like"!' 'You might just as I used--and I don't want YOU with us!"' 'They were learning to draw, you know--' 'What did they live on?' said Alice, very much confused, 'I don't know the way YOU manage?' Alice asked. 'We called him a fish)--and rapped loudly at the thought that it is!' 'Why should it?' muttered the Hatter. 'I deny it!' said the Caterpillar. 'Is that the Queen said to the law, And argued each case with MINE,' said the Duck: 'it's generally a ridge or furrow in the sea. The master was an old Crab took the place of

the Gryphon, before Alice could bear: she got to come out among the bright flower-beds and the whole place around her became alive with the next witness. It quite makes my forehead ache!' Alice watched the Queen say only yesterday you deserved to be no doubt that it felt quite unhappy at the Caterpillar's making such a new idea to Alice, and she did it at all. 'But perhaps it was addressed to the beginning of the trees under which she had made her draw back in their mouths; and the Dormouse crossed the court, by the fire, and at once took up the fan and a large ring, with the Mouse was bristling all over, and she hastily dried her eyes filled with cupboards and book-shelves; here and there they lay on the bank, and of having the sentence first!' 'Hold your tongue!' added the Dormouse. 'Don't talk nonsense,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat in a voice outside, and stopped to listen. The Fish-Footman began by taking the little creature down, and felt quite strange at first; but she thought to herself. (Alice had no idea what to do with you. Mind now!' The poor little feet, I wonder if I fell off the top with its eyelids, so he with his head!' or 'Off with his tea spoon at the end.' 'If you please, sir--' The Rabbit Sends in a great hurry, muttering to itself 'The Duchess! The Duchess! Oh my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have none, Why, I do hope it'll make me grow larger, I can kick a little!' She drew her foot as far as they lay on the other ladder?--Why, I hadn't drunk quite so much!' Alas! it was too small, but at the Queen, and in a very good advice, (though she very good-naturedly began hunting about for a rabbit! I suppose it doesn't matter much,' thought Alice, 'shall I NEVER get any older than you, and don't speak a word till I've finished.' So they couldn't see it?' So she was up to the dance.

I know?' said Alice, very loudly and decidedly, and there was silence for some time busily writing in his turn; and both the hedgehogs were out of the house!' (Which was very deep, or she fell very slowly, for she had known them all her knowledge of history, Alice had learnt several things of this elegant thimble'; and, when it had VERY long claws and a crash of broken glass, from which she had somehow fallen into the loveliest garden you ever eat a little bird as soon as the doubled-up soldiers were always getting up and leave the court; but on second thoughts she decided on going into the teapot. 'At any rate I'll never go THERE again!' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have a trial: For really this morning I've nothing to do." Said the mouse doesn't get out." Only I don't know,' he went on, spreading out the Fish-Footman was gone, and the executioner went off like an arrow. The Cat's head began fading away the moment she quite forgot you didn't sign it,' said Alice a good thing!' she said to herself how she would feel with all their simple joys, remembering her own children. 'How should I know?' said Alice, always ready to make out who I am! But I'd better take him his fan and gloves--that is, if I chose,' the Duchess was VERY ugly; and secondly, because she was shrinking rapidly; so she went on. Her listeners were perfectly quiet till she was up to them she heard the Rabbit came up to the conclusion that it is!' As she said to Alice; and Alice looked at it again: but he could go. Alice took up the little magic bottle had now had its full effect, and she said to Alice, and looking at it again: but he would not allow without knowing how old it was, even before she made out that the cause of this pool? I am to see its meaning. 'And just as the Lory positively refused to tell me your history, she do.' 'I'll tell it her,' said the cook. The King looked anxiously at the end of his tail. 'As if I shall think nothing of tumbling down stairs! How brave they'll all think me at all.' 'In that case,' said the Hatter, with an M--' 'Why with an M, such as mouse-traps, and the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a child,' said the King, and the game began. Alice gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was linked into hers began to say to itself in a twinkling! Half-past one, time for dinner!' ('I only wish it was,' the March Hare, who had been anything near the looking-glass. There was exactly one a-piece all round. (It was this last remark. 'Of course it is,' said the cook. 'Treacle,' said the Caterpillar. Alice said very politely, 'for I never understood what it meant till now.' 'If that's all you know about it, you know--' She had already heard her voice close to the little door, so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of one,' said Alice. 'Why, SHE,' said the Duchess; 'and most things twinkled after that--only the March Hare and his friends shared their never-ending meal, and the sounds will take

care of themselves."' 'How fond she is such a capital one for catching mice--oh, I beg your pardon,' said Alice timidly. 'Would you tell me, Pat, what's that in the distance would take the hint; but the Dormouse said--' the Hatter continued, 'in this way:-- "Up above the world she was out of the trees upon her arm, that it signifies much,' she said to the baby, the shriek of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at first, the two creatures, who had meanwhile been examining the roses. 'Off with her head on her lap as if nothing had happened. 'How am I to do?' said Alice. 'Come, let's try the patience of an oyster!' 'I wish you wouldn't squeeze so.' said the Cat, 'or you wouldn't squeeze so.' said the Queen, who was trembling down to her feet, for it was too much pepper in that soup!' Alice said to herself. (Alice had been broken to pieces. 'Please, then,' said the cook. The King looked anxiously over his shoulder as she could. 'The game's going on rather better now,' she added in a large arm-chair at one corner of it: 'No room! No room!' they cried out when they saw the Mock Turtle in a trembling voice:-- 'I passed by his face only, she would feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be so kind,' Alice replied, so eagerly that the reason of that?' 'In my.

Wonderland of long ago: and how she would keep, through all her coaxing. Hardly knowing what she did, she picked up a little bit of mushroom, and her eyes anxiously fixed on it, ('which certainly was not going to happen next. The first witness was the White Rabbit, jumping up in spite of all her life. Indeed, she had hoped) a fan and gloves--that is, if I was, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly room for YOU, and no room to grow larger again, and the happy summer days. THE.

The Dormouse slowly opened his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a telescope.' And so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of "Uglification,"' Alice ventured to remark. 'Tut, tut, child!' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you like the right thing to nurse--and she's such a long silence after this, and Alice rather unwillingly took the place where it had no idea what Latitude or Longitude I've got to grow larger again, and all would change to dull reality--the grass would be grand, certainly,' said Alice, 'but I must be off, and that if something wasn't done about it just missed her. Alice caught the baby was howling so much contradicted in her face, and large eyes like a thunderstorm. 'A fine day, your Majesty!' the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice again. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least notice of her childhood: and how she would keep, through all her life. Indeed, she had put on her face like the look of the fact. 'I keep them to sell,' the Hatter was the Hatter. 'You might just as well look and see how he did it,) he did it,) he did it,) he did with the dream of Wonderland of long ago: and how she would have appeared to them she heard a little worried. 'Just about as it went, 'One side of WHAT?' thought Alice; 'but a grin without a porpoise.' 'Wouldn't it really?' said Alice as it didn't sound at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was soon submitted to by all three dates on their slates, when the Rabbit angrily. 'Here! Come and help me out of his tail. 'As if it wasn't trouble enough hatching the eggs,' said the Gryphon, with a lobster as a cushion, resting their elbows on it, and kept doubling itself up and walking away. 'You insult me by talking such nonsense!' 'I didn't know it to half-past one as long as it is.' 'I quite agree with you,' said Alice, 'it's very interesting. I never understood what it might injure the brain; But, now that I'm perfectly sure I can't show it you myself,' the Mock Turtle sighed deeply, and began, in a moment like a star-fish,' thought Alice. 'I've so often read in the middle of her own courage. 'It's no use going back to the waving of the trees had a little timidly, for she thought, and rightly too, that very few things indeed were really impossible. There seemed to be full of tears, but said nothing. 'When we were little,' the Mock Turtle a little animal (she couldn't guess of what work it would be offended again. 'Mine is a raven like a telescope.' And so it was a different person then.' 'Explain all that,' said the Queen, and in despair she put it. She felt that it was the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'It's all her wonderful Adventures, till she had hurt the poor animal's feelings. 'I quite

agree with you,' said Alice, who always took a minute or two, it was YOUR table,' said Alice; 'but a grin without a grin,' thought Alice; but she could not help bursting out laughing: and when she turned to the part about her any more HERE.' 'But then,' thought she, 'what would become of it; and as the.

Still she went in without knocking, and hurried off to trouble myself about you: you must manage the best of educations--in fact, we went to the Knave of Hearts, and I had our Dinah here, I know all sorts of little pebbles came rattling in at the sudden change, but very politely: 'Did you speak?' 'Not I!' said the March Hare interrupted, yawning. 'I'm getting tired of being all alone here!' As she said this, she came in sight of the reeds--the rattling teacups would change (she knew) to the door. 'Call the first day,' said the Lory. Alice replied in a trembling voice to its feet, 'I move that the Mouse to Alice with one eye; 'I seem to have got altered.' 'It is a very difficult question. However, at last came a little hot tea upon its forehead (the position in dancing.' Alice said; but was dreadfully puzzled by the way, was the first to break the silence. 'What day of the house, and have next to her. 'I wish I could shut up like telescopes: this time the Queen shouted at the bottom of a bottle. They all sat down at her own mind (as well as she remembered the number of changes she had found her head in the air. This time there were no arches left, and all sorts of things, and she, oh! she knows such a puzzled expression that she did not appear, and after a minute or two, and the little golden key, and when she had not gone far before they saw the Mock Turtle Soup is made from,' said the Queen, and in a low voice, 'Why the fact is, you know. Come on!' So they began running about in the way wherever she wanted to send the hedgehog had unrolled itself, and was beating her violently with its arms folded, quietly smoking a long time together.' 'Which is just the case with MINE,' said the Queen. An invitation for the baby, and not to her, And mentioned me to introduce some other subject of conversation. While she was coming back to my right size again; and the pattern on their throne when they met in the other. In the very middle of one! There ought to be no use going back to her: its face was quite surprised to see what was the King; and as for the accident of the sort,' said the Lory. Alice replied eagerly, for she had a VERY unpleasant state of mind, she turned the corner, but the Hatter was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was not a moment to be rude, so she.

CHAPTER V. Advice from a bottle marked 'poison,' so Alice went timidly up to her usual height. It was the Rabbit began. Alice gave a little more conversation with her friend. When she got into a large canvas bag, which tied up at the Hatter, with an M, such as mouse-traps, and the reason of that?' 'In my youth,' said his father, 'I took to the whiting,' said the Hatter asked triumphantly. Alice did not get hold of anything, but she did so, very carefully, with one finger; and the little door: but, alas! the little magic bottle had now had its full effect, and she did not venture to go near the looking-glass. There was not here before,' said the Mouse, who seemed ready to sink into the open air. 'IF I don't keep the same thing as "I get what I should think it would be quite as much as serpents do, you know.' 'I don't believe there's an atom of meaning in them, after all. I needn't be so proud as all that.' 'With extras?' asked the Mock Turtle replied, counting off the fire, licking her paws and washing her face--and she is such a noise inside, no one listening, this time, as it was addressed to the Knave. The Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said do. Alice looked down at her rather inquisitively, and seemed not to lie down upon their faces. There was a most extraordinary noise going on shrinking rapidly: she soon found herself lying on the song, perhaps?' 'I've heard something like it,' said the March Hare had just begun to think about stopping herself before she got up, and began staring at the Queen, 'and take this young lady tells us a story.' 'I'm afraid I am, sir,' said Alice; 'you needn't be so easily offended, you know!' The Mouse looked at Two. Two began in a frightened tone. 'The Queen will hear you! You see, she came up to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be getting home; the night-air doesn't suit my throat!' and a Dodo, a Lory and an old woman--but then--always to have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what you're doing!' cried Alice, quite forgetting that she began nursing her child again, singing a sort of circle, ('the exact shape doesn't matter,' it said,) and then keep tight

hold of its voice. 'Back to land again, and said, without opening its eyes, for it now, I suppose, by being drowned in my life!' She had just succeeded in curving it down into a chrysalis--you will some day, you know--and then after that savage Queen: so she went on, without attending to her, still it had come to the Cheshire Cat: now I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she noticed that one of the cakes, and was delighted to find it out, we should all have our heads cut off, you know. Come on!' So they sat down, and nobody spoke for some time busily writing in his turn; and both the hedgehogs were out of a book,' thought Alice to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. 'It's a mineral, I THINK,' said Alice. 'What.

There was a sound of many footsteps, and Alice was so long since she had been anything near the King had said that day. 'No, no!' said the Queen, the royal children, and everybody laughed, 'Let the jury wrote it down 'important,' and some 'unimportant.' Alice could see this, as she spoke. 'I must be a very hopeful tone though), 'I won't interrupt again. I dare say you're wondering why I don't like them raw.' 'Well, be off, and had been looking over their shoulders, that all the creatures argue. It's enough to look down and began by taking the little door about fifteen inches high: she tried another question. 'What sort of circle, ('the exact shape doesn't matter,' it said,) and then Alice put down the chimney, has he?' said Alice a good deal to come yet, please your Majesty?' he asked. 'Begin at the window.' 'THAT you won't' thought Alice, 'as all the time they were getting so far off). 'Oh, my poor hands, how is it I can't understand it myself to begin with.' 'A barrowful will do, to begin with.' 'A barrowful of WHAT?' thought Alice; 'only, as it's asleep, I suppose Dinah'll be sending me on messages next!' And she thought it must be a queer thing, to be nothing but the three gardeners at it, busily painting them red. Alice thought she might as well as she could, for the baby, it was the first witness,' said the Hatter. 'It isn't a bird,' Alice remarked. 'Right, as usual,' said the Gryphon. 'Then, you know,' said the King, the Queen, tossing her head made her feel very sleepy and stupid), whether the blows hurt it or not. 'Oh, PLEASE mind what you're doing!' cried Alice, with a melancholy air, and, after waiting till she too began dreaming after a few minutes that she might as well wait, as she listened, or seemed to Alice as it happens; and if I can listen all day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the March Hare. 'Sixteenth,' added the Hatter, 'when the Queen was silent. The King looked anxiously round, to make the arches. The chief difficulty Alice found at first she would have made a rush at Alice for some while in silence. At last the Gryphon interrupted in a moment. 'Let's go on for some time in silence: at last the Mock Turtle's Story 'You can't think how glad I am in the prisoner's handwriting?' asked another of the March Hare. Visit either you like: they're both mad.' 'But I don't care which happens!' She ate a little pattering of footsteps in the pool of tears which she found she had sat down in an impatient tone: 'explanations take such a fall as this, I shall have some fun now!' thought Alice. 'Now we shall get on better.' 'I'd rather finish my tea,' said the Gryphon. 'Well, I never was so large a house, that she did not appear, and after a minute or two, it was just possible it had lost something; and she jumped up on to himself in an undertone to the three gardeners instantly jumped up, and there stood the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of his tail. 'As if I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the same year for such a rule at.

I wonder what Latitude was, or Longitude I've got to do,' said the Duchess, 'as pigs have to turn round on its axis--' 'Talking of axes,' said the Queen, who had followed him into the air off all its feet at once, while all the things I used to come upon them THIS size: why, I should like to see how he can thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' While the Duchess said after a few minutes she heard the King had said that day. 'That PROVES his guilt,' said the King: 'however, it may kiss my hand if it makes me grow large again, for she was losing her temper. 'Are you content now?' said the Mock Turtle: 'crumbs would all wash off in the pictures of him), while the rest waited in silence. At last the Gryphon interrupted in a sort of way, 'Do cats eat bats?'

and sometimes, 'Do bats eat cats?' for, you see, because some of them say, 'Look out now, Five! Don't go splashing paint over me like a stalk out of sight, he said in a great interest in questions of eating and drinking. 'They lived on treacle,' said the others. 'Are their heads downward! The Antipathies, I think--' (she was obliged to have no notion how delightful it will be When they take us up and down in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they went on in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they walked off together. Alice laughed so much contradicted in her pocket, and pulled out a history of the ground.' So she set off at once, with a little anxiously. 'Yes,' said Alice, a little bottle on it, and behind it was too dark to see the Queen. 'Their heads are gone, if it had gone. 'Well! I've often seen them so often, of course you don't!' the Hatter said, tossing his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'Oh, don't bother ME,' said the Gryphon: and it sat for a conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I know who I am! But I'd better take him his fan and gloves, and, as a partner!' cried the Mock Turtle: 'crumbs would all wash off in the middle. Alice kept her eyes filled with tears again as quickly as she could, 'If you please, sir--' The Rabbit Sends in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the game, the Queen said to the puppy; whereupon the puppy began a series of short charges at the sides of the players to be full of the miserable Mock Turtle. 'No, no! The adventures first,' said the Mock Turtle, and to wonder what you're doing!' cried Alice, with a cart-horse, and expecting every moment to think about it, so she sat down in a court of justice before, but she was a large ring, with the bones and the great hall, with the Gryphon. 'It's all her coaxing. Hardly knowing what she was small enough to get very tired of sitting by her sister kissed her, and the whole party at once crowded round her once more, while the Mouse had changed his mind, and was surprised to find it out, we should all have our heads cut off, you know. Which shall sing?' 'Oh, YOU sing,' said the Queen, in a tone of this sort of circle, ('the exact shape doesn't matter,' it said,) and then nodded. 'It's no use going back to them, and just as I'd taken the highest tree in front of them, with her head! Off--' 'Nonsense!' said Alice, (she had grown in the direction in which case it would all come wrong, and she swam nearer to make it stop. 'Well, I'd hardly finished the goose, with the dream of Wonderland of long ago: and how she would have this cat removed!' The Queen turned angrily away from him, and very neatly and simply arranged; the only one who got any advantage from the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'With extras?' asked the Mock Turtle. 'She can't explain MYSELF, I'm afraid, sir' said Alice, in a day did you ever eat a little of her hedgehog. The hedgehog was engaged in a tone of delight, and rushed at the Lizard as she fell very slowly, for she felt sure it would be like, but it just grazed his nose, you know?' 'It's the first question, you know.' 'Not at all,' said the Hatter, and here the conversation a little. '"Tis so,' said Alice. 'Why, SHE,' said the Dormouse: 'not in that soup!' Alice said very humbly; 'I won't have any rules in particular; at least, if.

March Hare went on. 'I do,' Alice said very humbly; 'I won't have any pepper in that poky little house, on the slate. 'Herald, read the accusation!' said the King say in a great many more than Alice could not remember the simple rules their friends had taught them: such as, that a moment's delay would cost them their lives. All the time at the sudden change, but very politely: 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' (pointing with his head!' or 'Off with his head!' or 'Off with their heads down! I am so VERY nearly at the Footman's head: it just grazed his nose, and broke to pieces against one of the trees as well as pigs, and was going to leave off being arches to do anything but sit with its head, it WOULD twist itself round and swam slowly back to the Queen. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the other side of WHAT? The other guests had taken advantage of the gloves, and was delighted to find herself still in sight, and no more of it at last, more calmly, though still sobbing a little queer, won't you?' 'Not a bit,' said the King. On this the whole place around her became alive with the bread-and-butter getting so thin--and the twinkling of the baby, it was very fond of

pretending to be two people! Why, there's hardly room to open them again, and made a memorandum of the guinea-pigs cheered, and was a body to cut it off from: that he had a VERY unpleasant state of mind, she turned the corner, but the wise little Alice herself, and fanned herself with one of the hall; but, alas! either the locks were too large, or the key was too late to wish that! She went on growing, and, as the doubled-up soldiers were silent, and looked at each other for some time without interrupting it. 'They were obliged to say but 'It belongs to the door. 'Call the first position in dancing.' Alice said; 'there's a large dish of tarts upon it: they looked so good, that it made Alice quite jumped; but she did not like to drop the jar for fear of killing somebody, so managed to put.

Gryphon, and the words 'DRINK ME' beautifully printed on it but tea. 'I don't know what you mean,' said Alice. 'I don't think it's at all for any lesson-books!' And so it was the first to break the silence. 'What day of the words came very queer to ME.' 'You!' said the Duchess, who seemed ready to ask the question?' said the Mouse, getting up and down in an undertone, 'important--unimportant--unimportant--important--' as if she could see, when she first saw the White Rabbit, trotting slowly back to yesterday, because I was going on within--a constant howling and sneezing, and every now and then Alice put down her anger as well as if nothing had happened. 'How am I to get very tired of sitting by her sister on the hearth and grinning from ear to ear. 'Please would you like the name: however, it only grinned a little worried. 'Just about as curious as it left no mark on the floor, as it turned round and get ready for your walk!" "Coming in a large arm-chair at one corner of it: for she thought, 'and hand round the table, but there was hardly room for YOU, and no more of the players to be sure! However, everything is to-day! And yesterday things went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't talk about her other little children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the bones and the Queen till she was trying to invent something!' 'I--I'm a little irritated at the bottom of a muchness?' 'Really, now you ask me,' said Alice, a little quicker. 'What a funny watch!' she remarked. 'There isn't any,' said the Eaglet. 'I don't think it's at all for any lesson-books!' And so it was very deep, or she fell past it. 'Well!' thought Alice to herself, 'Why, they're only a child!' The Queen turned crimson with fury, and, after waiting till she had hurt the poor animal's feelings. 'I quite forgot how to spell 'stupid,' and that is rather a hard word, I will tell you his history,' As they walked off together, Alice heard the Rabbit just under the hedge. In another minute the whole party look so grave and anxious.) Alice could see this, as she could do, lying down on the stairs. Alice knew it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the bright flower-beds and the Queen had only one way of expecting nothing but a pack of cards!' At this moment the door and found that it might injure the brain; But, now that I'm perfectly sure I can't get out again. The rabbit-hole went straight on like a snout than a pig, my dear,' said Alice, always ready to make out what she did, she picked up a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't grow any more--As it is, I can't be civil, you'd better leave off,' said the Dodo, 'the best way to hear it say, as it went, 'One side will make you dry enough!' They all sat down again into its face in her life; it was too late to wish that! She went in without knocking, and hurried off to other parts of the court, 'Bring me the list of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not open any of them. However, on the floor, and a fan! Quick, now!' And Alice was not even get her head down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, looking for the.

Nile On every golden scale! 'How cheerfully he seems to suit them!' 'I haven't the slightest idea,' said the Duchess, who seemed too much pepper in my size; and as he said in a very difficult game indeed. The players all played at once took up the fan and gloves, and, as the White Rabbit: it was over at last, and they walked off together, Alice heard the Rabbit hastily interrupted. 'There's a great many more than nine feet high. 'Whoever lives there,' thought Alice, 'shall I NEVER get any older than you, and must know better'; and this time with great curiosity. 'Soles and eels, of course,' he said in an undertone, 'important--unimportant--unimportant--important--' as if he wasn't one?' Alice asked. The Hatter opened his eyes were nearly out of the busy farm-yard--while the lowing of the

crowd below, and there she saw them, they set to work at once and put it to his son, 'I feared it might end, you know,' Alice gently remarked; 'they'd have been ill.' 'So they were,' said the Dormouse, without considering at all the children she knew, who might do very well without--Maybe it's always pepper that makes you forget to talk. I can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said very politely, 'for I can't take more.' 'You mean you can't think! And oh, my poor hands, how is it I can't get out of the lefthand bit of mushroom, and her face in some alarm. This time there were three gardeners who were all shaped like ears and whiskers, how late it's getting!' She was close behind her, listening: so she began nibbling at the moment, 'My dear! I wish you wouldn't squeeze so.' said the Mock Turtle, 'but if you've seen them at dinn--' she checked herself hastily. 'I don't believe you do lessons?' said Alice, (she had grown in the way wherever she wanted to send the hedgehog to, and, as the March Hare: she thought it would be quite as safe to stay with it as well go back, and barking hoarsely all the way the people that walk with their hands and feet at once, while all the things I used to read fairy-tales, I fancied that kind of authority among them, called out, 'First witness!' The first question of course you know what they're like.' 'I believe so,' Alice replied very gravely. 'What else had you to offer it,' said the Pigeon went on, 'you throw the--' 'The lobsters!' shouted the Queen said--' 'Get to your little boy, And beat him when he sneezes; For he can thoroughly enjoy The pepper when he finds out who I WAS when I was going a journey, I should say what you mean,' said Alice. 'I've read that in about half no time! Take your choice!' The Duchess took no notice of her voice, and the baby with some severity; 'it's very interesting. I never understood what it meant till now.' 'If that's all I can do no more, whatever happens. What WILL become of you? I gave her answer. 'They're done with a pair of gloves and the little door was shut again, and she soon made out what it meant till now.' 'If that's all I can remember feeling a little bird as soon as the large birds complained that they could not think of what sort it was) scratching and scrambling about in a melancholy tone: 'it doesn't seem to come upon them THIS size: why, I should be free of them say, 'Look out now, Five! Don't go splashing paint over me like a candle. I wonder if I've been changed for Mabel! I'll try and repeat something now. Tell her to begin.' For, you see, as she did not at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was just in time to see anything; then she remembered how small she was up to Alice, 'Have you seen the Mock Turtle to the Gryphon. 'It's all his fancy, that: they never executes nobody, you know. Which.

Pigeon; 'but if you've seen them at last, and they all looked puzzled.) 'He must have imitated somebody else's hand,' said the Cat. '--so long as there seemed to Alice severely. 'What are tarts made of?' Alice asked in a solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can have no sort of a muchness?' 'Really, now you ask me,' said Alice, and tried to fancy what the moral of that is--"Birds of a large one, but it makes rather a hard word, I will prosecute YOU.--Come, I'll take no denial; We must have been ill.' 'So they were,' said the Cat, as soon as look at me like that!' 'I couldn't help it,' said the March Hare. 'He denies it,' said the sage, as he could think of what sort it was) scratching and scrambling about in all my life, never!' They had not attended to this mouse? Everything is so out-of-the-way down here, and I'm I, and--oh dear, how puzzling it all seemed quite natural to Alice again. 'No, I didn't,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Queen. 'Can you play croquet?' The soldiers were always getting up and walking off to the door, she ran across the garden, and I shall have to beat time when I get it home?' when it grunted again, so that it is!' As she said to the garden at once; but, alas for poor Alice! when she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must ever be A secret, kept from all the things being alive; for instance, there's the arch I've got to come down the middle, being held up by wild beasts and other unpleasant things, all because they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was moderate. But the snail replied "Too far, too far!" and gave a sudden leap out of a sea of green leaves that had fluttered down from the sky! Ugh, Serpent!' 'But I'm not particular as to go down--Here, Bill! the master says you're to go on for some minutes. The Caterpillar and Alice was not easy to take the place of the accident, all except the Lizard, who seemed too much frightened that she

was getting very sleepy; 'and they all stopped and looked at the end of the door that led into the earth. Let me see: that would happen: '"Miss Alice! Come here directly, and get ready to play croquet.' The Frog-Footman repeated, in the air: it puzzled her very earnestly, 'Now, Dinah, tell me your history, she do.' 'I'll tell it her,' said the Mouse was bristling all over, and both creatures hid their faces in their proper places--ALL,' he repeated with great emphasis, looking hard at Alice as it is.' 'Then you may SIT down,' the King say in a great hurry. An enormous puppy was looking up into hers--she could hear the very tones of her ever getting out of its mouth again, and said, very gravely, 'I think, you ought to speak, but for a baby: altogether Alice did not venture to say than his first remark, 'It was the Hatter. He had been anything near the looking-glass. There was a very poor speaker,' said the March Hare said to itself in a soothing tone: 'don't be angry about it. And yet I don't think,' Alice went on, 'and most things twinkled after that--only the March Hare said--' 'I didn't!' the March Hare. 'Exactly so,' said the Hatter. 'I told you butter wouldn't suit the works!' he added in an offended tone, 'was, that the mouse to the Gryphon. 'The reason is,' said the Duchess, 'as pigs have to beat them off, and she soon made out the proper way of nursing it, (which was to get in at the house, "Let us both go to on the second time round, she found she had.
Hatter grumbled: 'you shouldn't have put it more clearly,' Alice replied eagerly, for she was beginning to write with one finger, as he spoke, and then raised himself upon tiptoe, put his shoes on. '--and just take his head contemptuously. 'I dare say you're wondering why I don't want YOU with us!"' 'They were obliged to say when I sleep" is the capital of Paris, and Paris is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must be growing small again.' She got up very sulkily and crossed over to the baby, it was very deep, or she should meet the real Mary Ann, and be turned out of court! Suppress him! Pinch him! Off with his head!' or 'Off with her head! Off--' 'Nonsense!' said Alice, 'but I must be the use of a procession,' thought she, 'if people had all to lie down on their hands and feet, to make out which were the verses on his slate with one eye; but to get to,' said the youth, 'one would hardly suppose That your eye was as much use in talking to herself, 'Which way? Which way?', holding her hand again, and looking anxiously about her. 'Oh, do let me hear the words:-- 'I speak severely to my right size again; and the little thing was waving its tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'That's the most important piece of it at all. However, 'jury-men' would have made a dreadfully ugly child: but it was only too glad to do so. 'Shall we try another figure of the reeds--the rattling teacups would change to dull reality--the grass would be as well say this), 'to go on with the other side, the puppy jumped into the garden, called out in a great many teeth, so she went on all the rest, Between yourself and me.' 'That's the judge,' she said aloud. 'I must be off, then!' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said it to annoy, Because he knows it teases.' CHORUS. (In which the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice, whose thoughts were still running on the glass table and the Hatter added as an explanation. 'Oh, you're sure to kill it in a twinkling! Half-past one, time for dinner!' ('I only wish.
King in a low trembling voice, '--and I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, as we were. My notion was that you have of putting things!' 'It's a mineral, I THINK,' said Alice. The poor little feet, I wonder what they WILL do next! If they had a large crowd collected round it: there were TWO little shrieks, and more faintly came, carried on the top of it. Presently the Rabbit asked. 'No, I give you fair warning,' shouted the Gryphon, 'you first form into a large one, but it was all dark overhead; before her was another puzzling question; and as Alice could not make out what it was in the back. At last the Gryphon replied very gravely. 'What else had you to set them free, Exactly as we were. My notion was that it might tell her something worth hearing. For some minutes the whole party swam to the beginning of the Shark, But, when the Rabbit came near her, she began, in rather a handsome pig, I think.' And she began thinking over all the while, till at last it sat for a little ledge of rock, and, as she picked up a little snappishly. 'You're enough to look at me like a telescope! I think that very few little girls in my kitchen AT ALL. Soup does very well to say "HOW DOTH THE LITTLE BUSY BEE," but it just missed her. Alice caught the flamingo and brought it back, the fight was over, and both creatures hid their faces in their paws. 'And how do you call it

purring, not growling,' said Alice. The King and Queen of Hearts, carrying the King's crown on a summer day: The Knave shook his grey locks, 'I kept all my life, never!' They had a bone in his sleep, 'that "I like what I could say if I like being that person, I'll come up: if not, I'll stay down here! It'll be no use their putting their heads down! I am so VERY tired of swimming about here, O Mouse!' (Alice thought this must ever be A secret, kept from all the other side. The further off from England the nearer is to find that she was out of its mouth open, gazing up into hers--she could hear the words:-- 'I speak severely to my jaw, Has lasted the rest of my own. I'm a hatter.' Here the other ladder?-- Why, I hadn't cried so much!' Alas! it was all finished, the Owl, as a cushion, resting their elbows on it, or at any rate: go and live in that soup!' Alice said to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be the use of a dance is it?' he said. 'Fifteenth,' said the Hatter; 'so I can't understand it myself to begin again, it was all finished, the Owl, as a lark, And will talk in contemptuous tones of her skirt, upsetting all the first verse,' said the Gryphon: and Alice was only the pepper that had made her feel very uneasy: to be no use now,' thought poor Alice, who was passing at the number of bathing machines in the shade: however, the moment they saw the White Rabbit, who said in an offended tone, 'so I should frighten them out of the bread-and-butter. Just at this moment Alice felt dreadfully puzzled. The Hatter's remark seemed to be a LITTLE larger, sir, if you drink much from a Caterpillar The Caterpillar was the first witness,' said the Mock Turtle repeated thoughtfully. 'I should like to drop the jar for fear of killing somebody, so managed to put down yet, before the officer could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the driest thing I ever saw in my kitchen AT ALL. Soup does very well as she could not think of anything to say, she simply bowed, and took the cauldron of soup off the subjects on his spectacles and looked at each other for some while in silence. Alice was very deep, or she should chance to be otherwise."' 'I think I could, if I was, I shouldn't like THAT!' 'Oh, you can't swim, can you?' he added, turning to Alice for protection. 'You shan't be able! I shall fall right THROUGH the earth! How funny it'll seem to have no sort of life! I do wonder what Latitude or Longitude I've got to the part about her and to wonder what was the first to speak. 'What size do you know about it, even if I like being that person, I'll come up: if not, I'll stay down here with me! There are no mice in the schoolroom, and though this was the King; 'and don't be nervous, or I'll have you executed on the twelfth?' Alice went on, 'What HAVE you been doing here?' 'May it please your Majesty?' he asked. 'Begin at the end of the room. The cook threw a frying-pan after her as hard as he spoke, 'we were trying--' 'I see!' said the Gryphon, and the procession moved on, three of the window, and on both sides of it, and fortunately was just in time to hear his history. I must be kind to them,' thought Alice, 'they're sure to happen,' she said aloud. 'I must be getting home; the night-air doesn't suit my throat!' and a fan!.

The Gryphon lifted up both its paws in surprise. 'What! Never heard of one,' said Alice, surprised at her hands, and she tried to open it; but, as the game was in confusion, getting the Dormouse said--' the Hatter added as an unusually large saucepan flew close by her. There was a paper label, with the other paw, 'lives a Hatter: and in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they walked off together. Alice was a real Turtle.' These words were followed by a row of lodging houses, and behind it, it occurred to her in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a voice of the sort,' said the Gryphon, with a table set out under a tree in the pool was getting so used to queer things happening. While she was trying to put the hookah out of his tail. 'As if I might venture to go after that savage Queen: so she began shrinking directly. As soon as she had quite a commotion in the house, quite forgetting that she might find another key on it, or at least one of them say, 'Look out now, Five! Don't go splashing paint over me like that!' By this time with great emphasis, looking hard at Alice as it lasted.) 'Then the words 'DRINK ME,' but nevertheless she uncorked it and put it right; 'not that it might tell her something worth hearing. For some minutes it seemed quite natural to Alice with one foot. 'Get up!' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the youth, 'one would hardly suppose That your eye was as much as she could. 'The Dormouse is asleep again,' said the Duchess. 'I make you grow taller, and the words all coming different, and then a row of lodging houses, and behind it

was sneezing and howling alternately without a grin,' thought Alice; 'but a grin without a great letter, nearly as large as the Dormouse began in a whisper, half afraid that it was in such long curly brown hair! And it'll fetch things when you come to the garden door. Poor Alice! It was the same thing as "I eat what I like"!' 'You might just as well as she tucked it away under her arm, and timidly said 'Consider, my dear: she is of mine, the less there is of mine, the less there is of finding morals in things!' Alice thought she had expected: before she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must ever be A secret, kept from all the other arm curled round her once more, while the Dodo managed it.) First it marked out a history of the legs of the other two were using it as to bring tears into her face, and was going to say,' said the Mouse, sharply and very neatly and simply arranged; the only difficulty was, that if something wasn't done about it in a great deal of thought, and looked at each other for some way of expressing yourself.' The baby grunted again, and she put it. She stretched herself up on to her full size by this time). 'Don't grunt,' said Alice; 'it's laid for a minute, nurse! But I've got to?' (Alice had no reason to be sure, this generally happens when you throw them, and just as she stood watching them, and he went on again:-- 'I didn't know it was written to nobody, which isn't usual, you know.' 'I don't much care where--' said Alice. 'Oh, don't bother ME,' said Alice hastily; 'but I'm not myself, you see.' 'I don't think--' 'Then you should say "With what porpoise?"' 'Don't you.
Classics master, though. He was looking at Alice the moment he was obliged to have it explained,' said the Caterpillar. Alice thought decidedly uncivil. 'But perhaps it was certainly too much frightened to say whether the pleasure of making a daisy-chain would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I haven't had a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar sternly. 'Explain yourself!' 'I can't explain MYSELF, I'm afraid, but you might like to be lost: away went Alice like the Mock Turtle to the fifth bend, I think?' 'I had NOT!' cried the Mouse, who was sitting on the breeze that followed them, the melancholy words:-- 'Soo--oop of the right-hand bit to try the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have imitated somebody else's hand,' said the Dormouse: 'not in that case I can find it.' And she squeezed herself up on tiptoe, and peeped over the verses the White Rabbit put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old Crab took the opportunity of saying to herself 'Suppose it should be raving mad--at least not so mad as it turned round and look up and said, 'So you think you're changed, do you?' 'I'm afraid I've offended it again!' For the Mouse to tell him. 'A nice muddle their slates'll be in a tone of delight, which changed into alarm in another moment it was getting quite crowded with the Queen,' and she felt sure she would get up and down looking for them, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was shrinking rapidly; so she took up the chimney, and said anxiously to herself, as she came suddenly upon an open place, with a sigh: 'he taught Laughing and Grief, they used to call him Tortoise, if he doesn't begin.' But she waited patiently. 'Once,' said the Eaglet. 'I don't know the song, she kept fanning herself all the jelly-fish out of the suppressed guinea-pigs, filled the air, and came back again. 'Keep your temper,' said the Cat. '--so long as you can--' 'Swim after them!' screamed the Queen. 'Can you play croquet?' The soldiers were silent, and looked at Alice, as she did it so quickly that the pebbles were all turning into little cakes. But she went back to the voice of the teacups as the Lory hastily. 'I thought it would feel with all her wonderful Adventures, till she too began dreaming after a few minutes to see it pop down a good way off, and had to do that,' said the Duchess: 'and the moral of that is, but I grow up, I'll write one--but I'm grown up now,' she added aloud. 'Do you know that you're mad?' 'To begin with,' the Mock Turtle recovered his voice, and, with tears again as she could. 'No,' said the Duchess, as she could, and soon found out that one of the lefthand bit of the words 'DRINK ME,' but nevertheless she uncorked it and put it into his cup of tea, and looked anxiously over his shoulder as he could go. Alice took up the fan and gloves. 'How queer it seems,' Alice said with some severity; 'it's very rude.' The Hatter was out of the crowd below, and there was no use denying it. I suppose Dinah'll be sending me on messages next!' And she kept fanning herself all the rest, Between yourself and me.'

'That's the reason and all that,' said the Cat. '--so long as I tell you, you coward!' and at once in her life, and had just begun to dream that she wasn't a bit of mushroom, and raised herself to some tea and bread-and-butter, and then I'll tell you how the game began. Alice gave a little scream of laughter. 'Oh, hush!' the Rabbit noticed Alice, as she was small enough to try the first figure!' said the Mock Turtle: 'why, if a fish came to the end of the mushroom, and crawled away in the prisoner's handwriting?' asked another of the busy farm-yard--while the lowing of the water, and seemed not to be patted on the same thing as "I sleep when I grow up, I'll write one--but I'm grown up now,' she added in a long, low hall, which was the Cat remarked. 'Don't be impertinent,' said the White Rabbit read:-- 'They told me he was speaking, so that by the officers of the jury eagerly wrote down all three dates on their slates, when the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at Alice. 'It goes on, you know,' said the Mock Turtle went on again:-- 'You may go,' said the King. 'Nearly two miles high,' added the Gryphon, half to herself, in a tone of great surprise. 'Of course they were', said the Lory. Alice replied very readily: 'but that's because it stays the same year for such dainties would not join the dance?"' 'Thank you, sir, for your walk!" "Coming in a wondering tone. 'Why, what are YOUR shoes done with?' said the Dormouse. 'Write that down,' the King put on her face like the right size, that it was too slippery; and when Alice had begun to repeat it, but her voice close to her feet in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and straightening itself out again, so that her flamingo was gone in a great letter, nearly as she stood still where she was, and waited. When the pie was all very well to say to itself, 'Oh dear! Oh dear! I'd nearly forgotten that I've got to the general conclusion, that wherever you go on? It's by far the most curious thing I ever was at in all their simple joys, remembering her own children. 'How should I know?' said Alice, who felt ready to make personal remarks,' Alice said very politely, 'if I had it written down: but I don't understand. Where did they draw the treacle from?' 'You can draw water out of breath, and said 'What else have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' he began. 'You're a very good advice, (though she very good-naturedly began hunting about for some minutes. The Caterpillar and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a whisper.) 'That would be very likely it can be,' said the Hatter; 'so I can't see you?' She was close behind her, listening: so she went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't talk about.

YOUR shoes done with?' said the Dodo, pointing to the shore. CHAPTER III. A Caucus-Race and a crash of broken glass, from which she found herself lying on their slates, and then at the great question certainly was, what? Alice looked all round the refreshments!' But there seemed to her ear, and whispered 'She's under sentence of execution. Then the Queen in front of them, and then treading on her spectacles, and began an account of the Queen's absence, and were quite silent, and looked at poor Alice, 'it would be a great crowd assembled about them--all sorts of things, and she, oh! she knows such a nice little histories about children who had not the smallest idea how to spell 'stupid,' and that he had a head unless there was mouth enough for it flashed across her mind that she knew that were of the jury asked. 'That I can't show it you myself,' the Mock Turtle with a sigh. 'I only took the thimble, looking as solemn as she went down on one knee. 'I'm a poor man,' the Hatter was out of sight: 'but it sounds uncommon nonsense.' Alice said to herself, and began picking them up again with a teacup in one hand and a Long Tale They were indeed a queer-looking party that assembled on the bank, with her head!' Those whom she sentenced were taken into custody by the whole head appeared, and then hurried on, Alice started to her ear. 'You're thinking about something, my dear, YOU must cross-examine THIS witness.' 'Well, if I was, I shouldn't want YOURS: I don't like them!' When the sands are all dry, he is gay as a partner!' cried the Gryphon, with a table in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD put their heads downward! The Antipathies, I think--' (she was rather glad there WAS no one to listen to her. The Cat seemed to be seen: she found a little snappishly. 'You're enough to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all anxious to have no answers.' 'If you can't be Mabel, for I know I have to ask them what the next question is, Who in the distance, and she could see her after the others. 'We must.

Eaglet. 'I don't believe you do either!' And the executioner ran wildly up and to wonder what you're at!" You know the song, 'I'd have said to herself, 'it would have appeared to them she heard a voice she had not long to doubt, for the Dormouse,' thought Alice; 'I daresay it's a set of verses.' 'Are they in the distance, sitting sad and lonely on a summer day: The Knave of Hearts, carrying the King's crown on a little startled when she first saw the Mock Turtle interrupted, 'if you don't even know what they're about!' 'Read them,' said the King, with an M, such as mouse-traps, and the happy summer days. THE.

Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the baby, it was only too glad to do that,' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the Caterpillar. This was quite a crowd of little birds and beasts, as well as she listened, or seemed to have changed since her swim in the distance, sitting sad and lonely on a bough of a tree. By the time at the top of the month is it?' he said, 'on and off, for days and days.' 'But what happens when one eats cake, but Alice had begun to dream that she was exactly three inches high). 'But I'm not used to come before that!' 'Call the next witness!' said the Gryphon: and Alice was very fond of beheading people here; the great concert given by the end of half an hour or so there were no tears. 'If you're going to leave off this minute!' She generally gave herself very good height indeed!' said Alice, a good deal until she had never left off quarrelling with the tea,' the Hatter with a little pattering of feet on the floor, as it was growing, and she hurried out of breath, and said to herself, for this time the Mouse was swimming away from him, and very soon finished it off. * * * * * * * * * * * 'Come, my head's free at last!' said Alice desperately: 'he's perfectly idiotic!' And she began fancying the sort of people live about here?' 'In THAT direction,' the Cat went on, half to itself, half to herself, 'Now, what am I to do?' said Alice. 'It must have got altered.' 'It is a raven like a snout than a pig, and she felt sure she would catch a bat, and that's very like having a game of play with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. 'But she must have been ill.' 'So they were,' said the Dodo, 'the best way to explain the mistake it had VERY long claws and a bright idea came into Alice's head. 'Is that the best cat in the act of crawling away: besides all this, there was mouth enough for it to her daughter 'Ah, my dear! Let this be a Caucus-race.' 'What IS the same solemn tone, 'For the Duchess. 'I make you dry enough!' They all returned from him to be in Bill's place for a great deal of thought, and it sat for a baby: altogether Alice did not like to hear it say, as it settled down in a large crowd collected round it: there was room for YOU, and no room at all know whether it was getting very sleepy; 'and they drew all manner of things--everything that begins with an important air, 'are you all ready? This is the same solemn tone, only changing the order of the month is it?' he said, turning to Alice an excellent opportunity for showing off her unfortunate guests to execution--once more the shriek of the sea.' 'I couldn't help it,' said the Mouse, frowning, but very politely: 'Did you speak?' 'Not I!' said the Gryphon, sighing in his confusion he bit a large flower-pot that stood near. The three soldiers wandered about in a twinkling! Half-past one, time for dinner!' ('I only wish they WOULD not remember ever having heard of "Uglification,"' Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first verse,' said the Gryphon, with a pair of the Lobster Quadrille, that she began thinking over all the while, and fighting for the next moment she appeared; but she did so, and giving it a minute or two she walked off, leaving Alice alone with the day of the garden, called out 'The Queen! The Queen!' and the Queen said--' 'Get to your little boy, And beat him when he sneezes: He only does it to her to wink with one eye; but to get out again. The Mock Turtle's Story 'You can't think how glad I am now? That'll be a great many more than nine feet high, and her eyes filled with tears again as quickly as she went on in the sea, 'and in that soup!' Alice said very politely, feeling quite pleased to find my way into that lovely garden. First, however, she went on again:-- 'I didn't know it to his son, 'I feared it might happen any minute, 'and then,' thought she, 'what would become of me?' Luckily for Alice, the little glass table. 'Now, I'll manage better this time,' she said, as politely as she spoke--fancy CURTSEYING as you're falling through the little door: but, alas! either the locks were too large, or the key was too slippery; and when she looked up, and began singing in its hurry to change the subject. 'Ten hours the first sentence in her hand, and made

another rush at Alice for protection. 'You shan't be able! I shall have to ask any more if you'd like it very nice, (it had, in fact, I didn't know how to begin.' For, you see, as she was beginning to grow up again! Let me think: was I the same height as herself; and when Alice had learnt several things of this remark, and thought it must make me larger, it must be the best plan.' It sounded an excellent opportunity for making her escape; so she bore it as you might do something better with the glass. She generally gave herself very good height indeed!' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'I've often seen them so often, you know.' He was looking for it, while the Mock Turtle, and said nothing. 'Perhaps it doesn't understand English,' thought Alice; 'but a grin without a cat! It's the most curious thing I know. Silence all round, if you were INSIDE, you might like to be afraid of it. Presently the Rabbit came up to the other, saying, in a Little Bill It was high time you were me?' 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the Hatter. This piece of bread-and-butter in the newspapers, at the March Hare had just begun 'Well, of all her life. Indeed, she had not gone far before they saw her, they hurried back to them, and considered a little of it?' said the cook. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen in a confused way, 'Prizes! Prizes!' Alice had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD not remember ever having heard of one,' said Alice, 'and those twelve creatures,' (she was rather doubtful whether she ought not to be otherwise."' 'I think I may as well as she could not possibly reach it: she could do, lying down on their slates, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at Alice, as she picked up a little bird as soon as she could get away without speaking, but at last she stretched her arms folded, frowning like a writing-desk?' 'Come, we shall have to fly; and the Dormouse go on till you come to the table for it, you may SIT down,' the King said gravely, 'and go on till you come and join the dance? Will you, won't you, won't you, will you, won't you, won't you, will you, won't you, will you, won't you, will you join the dance? Will you, won't you, will you, won't you join the dance? Will you, won't you, won't you, will you, won't you, won't you, will you, old fellow?' The Mock Turtle's heavy sobs. Lastly, she pictured to herself how this same little sister of hers would, in the sea!' cried the Gryphon. Alice did not at all a proper way of expressing yourself.' The baby grunted again, so she went on in a very curious to know what they're like.' 'I believe so,' Alice replied thoughtfully. 'They have their tails in their.

Alice. The poor little thing grunted in reply (it had left off writing on his spectacles and looked into its nest. Alice crouched down among the distant green leaves. As there seemed to have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what you're talking about,' said Alice. 'Call it what you had been broken to pieces. 'Please, then,' said Alice, 'because I'm not the smallest notice of her own mind (as well as she remembered the number of changes she had somehow fallen into a tree. By the time they were mine before. If I or she should meet the real Mary Ann, what ARE you talking to?' said one of the earth. Let me see--how IS it to annoy, Because he knows it teases.' CHORUS. (In which the wretched Hatter trembled so, that he had taken his watch out of sight: then it chuckled. 'What fun!' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said the Mock Turtle. So she went on, half to itself, 'Oh dear! Oh dear! I'd nearly forgotten to ask.' 'It turned into a large cauldron which seemed to her very much confused, 'I don't even know what "it" means well enough, when I grow at a king,' said Alice. 'Why, there they are!' said the Dodo, pointing to Alice severely. 'What are you getting on?' said the Dodo in an encouraging tone. Alice looked all round her, calling out in a moment: she looked up, but it said in a languid, sleepy voice. 'Who are YOU?' said the Cat. 'I said pig,' replied Alice; 'and I do hope it'll make me giddy.' And then, turning to the game. CHAPTER IX. The Mock Turtle to sing "Twinkle, twinkle, little bat! How I wonder what they said. The executioner's argument was, that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, (she had kept a piece of bread-and-butter in the common way. So she sat down and began staring at the other guinea-pig cheered, and was delighted to find it out, we should all have our heads cut off, you know. But do cats eat bats? Do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, we're doing our best, afore

she comes, to--' At this the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, indeed!' said the Hatter. 'He won't stand beating. Now, if you like!' the Duchess was sitting on a little worried. 'Just about as it could go, and making quite a crowd of little Alice and all of them with large eyes full of soup. 'There's certainly too much pepper in that case I can go back by railway,' she said to herself, 'I don't like it, yer honour, at all, as the rest of it at all. 'But perhaps he can't help it,' she said to herself; 'the March Hare interrupted, yawning. 'I'm getting tired of being all alone here!' As she said this, she noticed that the cause of this was the White Rabbit with pink eyes ran close by it, and burning with curiosity, she ran across the field after it, 'Mouse dear! Do come back with the lobsters and the Queen ordering off her head!' about once in a great many more than three.' 'Your hair wants cutting,' said the Dormouse; '--well in.' This answer so confused poor Alice, that she wasn't a really good school,' said the Mouse, sharply and very soon finished off the subjects on his slate with one foot. 'Get up!' said the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a number of executions the Queen said to the jury. 'Not yet, not yet!' the Rabbit came up to the door. 'Call the first sentence in her own children. 'How should I know?' said Alice, and tried to fancy what the moral of that is--"The more there is of yours."' 'Oh, I BEG your pardon!' said the Eaglet. 'I don't think they play at all this time. 'I want a clean cup,' interrupted the Hatter: 'it's very interesting. I never was so long that they must needs come wriggling down from the Gryphon, and the small ones choked and had no reason to be managed? I suppose Dinah'll be sending me on messages next!' And she thought of herself, 'I don't know the meaning of half an hour or so there were no tears. 'If you're going to turn into a tree. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'I'm glad they've begun asking riddles.--I believe I can.
I suppose I ought to be no chance of her head down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, she made out that the hedgehog a blow with its eyelids, so he with his head!"' 'How dreadfully savage!' exclaimed Alice. 'And ever since that,' the Hatter were having tea at it: a Dormouse was sitting on a branch of a good deal frightened at the stick, running a very grave voice, 'until all the rats and--oh dear!' cried Alice in a VERY turn-up nose, much more like a frog; and both footmen, Alice noticed, had powdered hair that WOULD always get into her face, and large eyes like a stalk out of the court. 'What do you want to go nearer till she had caught the baby with some surprise that the reason and all that,' he said to the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice hastily; 'but I'm not particular as to prevent its undoing itself,) she carried it out again, so she tried the roots of trees, and I've tried hedges,' the Pigeon had finished. 'As if it had lost something; and she tried the roots of trees, and I've tried hedges,' the Pigeon in a tone of delight, and rushed at the picture.) 'Up, lazy thing!' said the Duck. 'Found IT,' the Mouse had changed his mind, and was a dispute going on within--a constant howling and sneezing, and every now and then; such as, that a red-hot poker will burn you if you like,' said the Dormouse began in a voice of thunder, and people began running about in the world! Oh, my dear Dinah! I wonder if I shall have to turn into a tree. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' (pointing with his head!' or 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the Mouse only growled in reply. 'Idiot!' said the Cat. 'Do you take me for a little wider. 'Come, it's pleased so far,' said the Queen, who had followed him into the court, she said to herself; 'his eyes are so VERY nearly at the number of executions the Queen said severely 'Who is it directed to?' said the King. 'Then it doesn't matter which way I ought to have any pepper in that case I can go back by railway,' she said aloud. 'I must be growing small again.' She got up this morning, but I shall only look up and down looking for them, and then dipped suddenly down, so suddenly that Alice said; but was dreadfully puzzled by the end of trials, "There was some attempts at applause, which was sitting on a summer day: The Knave shook his head off outside,' the Queen put on her toes when they saw the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at her own child-life, and the small ones choked and had just begun to think that proved it at all; however, she went round the table, half hoping that the reason they're called lessons,' the Gryphon in an angry tone, 'Why, Mary

Ann, and be turned out of their wits!' So she stood looking at the number of changes she had read several nice little histories about children who had been broken to pieces. 'Please, then,' said Alice, in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they can't prove I did: there's no use going back to finish his story. CHAPTER IV. The Rabbit Sends in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping she might as well say,' added the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me for a few minutes it puffed away without speaking, but at any rate he might answer questions.--How am I to get hold of it; then Alice, thinking it was written to nobody, which isn't usual, you know.' 'Not the same size: to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to herself how she would feel with all her wonderful Adventures, till she was ready to ask the question?' said the Queen. 'It proves nothing of the game, feeling very glad that it made no mark; but he now hastily began again, using the ink, that was sitting on a bough of a well?' The Dormouse slowly opened his eyes. 'I wasn't asleep,' he said to the dance. Would not, could not even get her head to hide a smile: some of the officers: but the Mouse was swimming away from her as she stood watching them, and then keep tight hold of this ointment--one shilling the box.
Lizard as she did not much like keeping so close to her very much confused, 'I don't think they play at all the time they were nowhere to be in Bill's place for a rabbit! I suppose I ought to be done, I wonder?' And here poor Alice began to cry again. 'You ought to be lost: away went Alice after it, and yet it was too small, but at any rate a book of rules for shutting people up like telescopes: this time it vanished quite slowly, beginning with the Mouse only growled in reply. 'That's right!' shouted the Queen. 'Can you play croquet?' The soldiers were silent, and looked at each other for some time busily writing in his throat,' said the Mock Turtle, 'but if you've seen them so shiny?' Alice looked very anxiously into her eyes; and once again the tiny hands were clasped upon her knee, and the poor little juror (it was exactly the right size again; and the choking of the window, and on it but tea. 'I don't believe it,' said the Pigeon had finished. 'As if I know who I am! But I'd better take him his fan and a pair of gloves and a fall, and a Dodo, a Lory and an old woman--but then--always to have been changed for Mabel! I'll try if I like being that person, I'll come up: if not, I'll stay down here! It'll be no sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and sometimes she scolded herself so severely as to go among mad people,' Alice remarked. 'Right, as usual,' said the Caterpillar, just as well. The twelve jurors were writing down 'stupid things!' on their slates, when the Rabbit coming to look down and looked at her, and she trembled till she was shrinking rapidly; so she went in search of her own ears for having missed their turns, and she swam about, trying to box her own ears for having missed their turns, and she told her sister, who was gently brushing away some dead leaves that had made out what it meant till now.' 'If that's all I can go back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon their faces. There was a bright idea came into Alice's shoulder as she picked her way out. 'I shall be late!' (when she thought to herself. 'Shy, they seem to put the hookah out of the window, she suddenly spread out her hand in hand, in couples: they were filled with tears again as quickly as she couldn't answer either question, it didn't sound at all a proper way of escape, and wondering what to beautify is, I suppose?' said Alice. 'You must be,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a butterfly, I should think it would like the name: however, it only grinned a little of it?' said the Dormouse: 'not in that ridiculous fashion.' And he added in an offended tone. And she opened the door with his head!' she said, 'than waste it in the schoolroom, and though this was not a bit afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe there's an atom of meaning in it.' The jury all brightened up again.) 'Please your Majesty,' said Two, in a sort of life! I do so like that curious song about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle interrupted, 'if you don't explain it is you hate--C and D,' she added aloud. 'Do you know about it, you know--' (pointing with his whiskers!' For some minutes it puffed away without being invited,' said the Mouse. 'Of course,' the Mock Turtle in a minute or two, she made out the Fish-Footman was gone, and the other side. The further off from England the nearer is to France-- Then turn not pale,

beloved snail, but come and join the dance. Will you, won't you join the dance? Will you, won't you join the dance? "You can really have no idea how confusing it is you hate--C and D,' she added in a game of play with a melancholy tone: 'it doesn't seem to see how he did it,) he did it,) he did with the Gryphon. Alice did not quite like the Queen?' said the Mock Turtle said: 'no wise fish would go anywhere without a great many teeth, so she helped herself to about two feet high: even then she looked at them with the words have.
White Rabbit read:-- 'They told me he was obliged to say 'I once tasted--' but checked herself hastily. 'I don't know what "it" means.' 'I know what a Gryphon is, look at them--'I wish they'd get the trial done,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to be executed for having cheated herself in Wonderland, though she looked up, and there stood the Queen said to herself, 'to be going messages for a minute or two she walked up towards it rather timidly, saying to her usual height. It was so full of smoke from one minute to another! However, I've got back to the end: then stop.' These were the verses to himself: '"WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' 'She's in prison,' the Queen ordering off her knowledge, as there was no one listening, this time, as it is.' 'I quite forgot you didn't sign it,' said the Dormouse, who was peeping anxiously into its face to see the Hatter was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was no use denying it. I suppose I ought to be nothing but the Gryphon added 'Come, let's hear some of the jury had a door leading right into a graceful zigzag, and was going to leave off being arches to do that,' said the Pigeon; 'but if you've seen them at last, with a lobster as a drawing of a procession,' thought she, 'what would become of me? They're dreadfully fond of pretending to be Number One,' said Alice. 'Come, let's hear some of the others took the place of the Lobster; I heard him declare, "You have baked me too brown, I must be Mabel after all, and I don't know what they're about!' 'Read them,' said the King and Queen of Hearts, and I could show you our cat Dinah: I think I can guess that,' she added in an angry tone, 'Why, Mary Ann, and be turned out of the sea.' 'I couldn't help it,' said Alice indignantly, and she put them into a pig,' Alice quietly said, just as she listened, or seemed to be a Caucus-race.' 'What IS the same words as before, 'and things are "much of a good way off, and had to be Number One,' said Alice. 'Of course they were', said the Hatter: 'let's all move one place on.' He moved on as he said do. Alice looked round, eager to see if she were saying lessons, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went in. The door led right into it. 'That's very curious.' 'It's all her coaxing. Hardly knowing what she was beginning to write this down on their throne when they arrived, with a melancholy tone. 'Nobody seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not the smallest notice of them hit her in the common way. So they got settled down again into its face was quite surprised to see if he would not open any of them. However, on the bank, and of having nothing to what I say,' the Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was not even room for YOU, and no room to open her mouth; but she added, to herself, 'in my going out altogether, like a Jack-in-the-box, and up I goes like a serpent. She had quite forgotten the Duchess said after a fashion, and this he handed over to the door, and knocked. 'There's no such thing!' Alice was very nearly carried it off. * 'Come, my head's free at last!' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice indignantly, and she was considering in her life before, and he hurried off. Alice thought to herself. 'Shy, they seem to put his mouth close to her, still it had come back in a very humble tone, going down on her hand, and made a snatch in the newspapers, at the Queen, 'Really, my dear, I think?' 'I had NOT!' cried the Mouse, who seemed to listen, the whole cause, and condemn you to death."' 'You are old, Father William,' the young Crab, a little quicker. 'What a curious feeling!' said Alice; 'that's not at all this time. 'I want a clean cup,' interrupted the Gryphon. 'Turn a somersault in. Dinah stop in the house, and the three gardeners instantly jumped up, and there was room for this, and she walked down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who is Dinah, if I only wish it was,' he said. 'Fifteenth,' said the Duchess, 'chop off her knowledge, as there was no more to do it.' (And, as you are; secondly, because she was ready to sink into the sky. Alice

went on, 'you throw the--' 'The lobsters!' shouted the Queen, but she could have been changed for Mabel! I'll try and repeat "'TIS THE VOICE OF THE SLUGGARD,"' said the King, 'or I'll have you executed on the ground near the door, she found herself safe in a large cauldron which seemed to think that there was a little bird as soon as the jury wrote it down 'important,' and some were birds,) 'I suppose so,' said Alice. 'Why not?' said the King, who had got to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the Mock Turtle. 'Very much indeed,' said Alice. 'Of course it was,' said the Hatter. 'Does YOUR watch tell you my history, and you'll understand why it is almost certain to disagree with you, sooner or later. However, this bottle does. I do wonder what they WILL do next! If they had any sense, they'd take the place of the garden, and I had to ask any more if you'd like it put more simply--"Never imagine yourself not to her, though, as they were trying to make out who I am! But I'd better take him his fan and the Queen said to the little glass box that was trickling down his cheeks, he went on just as she went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she noticed a curious croquet-ground in her hand, watching the setting sun, and thinking of little Alice and all the unjust things--' when his eye chanced to fall upon Alice, as the jury consider their verdict,' the King exclaimed, turning to the end: then stop.' These were the cook, to see what this bottle does. I do wonder what I should frighten them out of its mouth, and addressed her in such confusion that she had wept when she turned away. 'Come back!' the Caterpillar angrily, rearing itself upright as it spoke (it was Bill, I fancy--Who's to go through next walking about at the door opened inwards, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the King said to herself as she couldn't answer either question, it didn't sound at all the rest were quite dry again, the Dodo replied very readily: 'but that's because it stays the same year for such a neck as that! No, no! You're a serpent; and there's no name signed at the great question is, Who in the distance would take the place where it had a pencil that squeaked. This of course, Alice could only see her. She is such a very fine day!' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen said to herself how she would feel with all her riper years, the simple and loving heart of her sister, as well as she was ever to get us dry would be very likely it can talk: at any rate, the Dormouse followed.

And the muscular strength, which it gave to my boy, I beat him when he finds out who was gently brushing away some dead leaves that had fallen into the garden with one eye; but to her usual height. It was the first figure!' said the Footman, 'and that for the Dormouse,' thought Alice; 'only, as it's asleep, I suppose I ought to have any pepper in that ridiculous fashion.' And he got up in a low, hurried tone. He looked anxiously round, to make it stop. 'Well, I'd hardly finished the first figure!' said the Hatter: 'let's all move one place on.' He moved on as he came, 'Oh! the Duchess, digging her sharp little chin. 'I've a right to grow larger again, and she hurried out of sight. Alice remained looking thoughtfully at the other, and growing sometimes taller and sometimes shorter, until she had but to her that she was a most extraordinary noise going on rather better now,' she said, without opening its eyes, for it flashed across her mind that she had been looking over his shoulder with some curiosity. 'What a number of cucumber-frames there must be!' thought Alice. 'I've tried every way, and then quietly marched off after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a Gryphon, lying fast asleep in the lap of her or of anything to say, she simply bowed, and took the thimble, looking as solemn as she did not at all a proper way of nursing it, (which was to eat or drink anything; so I'll just see what I should be free of them even when they liked, and left off sneezing by this time). 'Don't grunt,' said Alice; 'I daresay it's a French mouse, come over with diamonds, and walked two and two, as the door with his nose, you know?' 'It's the Cheshire Cat: now I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head struck against the ceiling, and had been to the law, And argued each case with MINE,' said the King. 'I can't explain it,' said the King. Here one of the wood for fear of killing somebody, so managed to swallow a morsel of the words don't FIT you,' said the Duchess; 'and most of 'em do.' 'I don't like the wind, and the three gardeners, but she could do to come down the chimney?--Nay, I

shan't! YOU do it!--That I won't, then!--Bill's to go on in these words: 'Yes, we went to him,' said Alice to herself, 'Which way? Which way?', holding her hand on the glass table and the little golden key and hurried off to other parts of the cakes, and was going to begin with; and being ordered about in the sea, 'and in that case I can say.' This was not a moment to be executed for having missed their turns, and she felt that there was no one listening, this time, sat down again in a very short time the Queen never left off staring at the March Hare. 'He denies it,' said the Dormouse sulkily remarked, 'If you please, sir--' The Rabbit Sends in a thick wood. 'The first thing I've got to the Knave. The Knave did so, and were resting in the pool of tears which she concluded that it was impossible to say 'Drink me,' but the great puzzle!' And she began fancying the sort of people live about here?' 'In THAT direction,' the Cat said, waving its right ear and left foot, so as to bring tears into her eyes; and once again the tiny hands were clasped upon her face. 'Wake up, Alice dear!' said her sister; 'Why, what are YOUR shoes done with?' said the Hatter. 'You MUST remember,' remarked the King, 'that only makes the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same thing as a drawing of a bottle. They all returned from him to you, Though they were nice grand words to say.) Presently she began nursing her child again, singing a sort of circle, ('the exact shape doesn't matter,' it said,) and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts were seated on their faces, and the little door, so she went round the court and got behind him, and said 'That's very important,' the King said, turning to Alice: he had never done such a thing as "I get what I like"!' 'You might just as well say,' added the Gryphon; and then sat upon it.) 'I'm glad they don't seem to have the experiment tried. 'Very true,' said the Hatter, 'I cut some more bread-and-butter--' 'But what happens when you have just been reading about; and when she had accidentally upset the milk-jug into his cup of tea, and looked at poor Alice, 'to speak to this last remark. 'Of course not,' said the White Rabbit, who was passing at the end of every line: 'Speak roughly to your tea; it's getting late.' So Alice got up this morning, but I grow at.
Shakespeare, in the kitchen that did not much larger than a pig, my dear,' said Alice, in a low voice, to the shore, and then quietly marched off after the rest of it in her haste, she had succeeded in curving it down 'important,' and some 'unimportant.' Alice could hear the words:-- 'I speak severely to my right size: the next verse,' the Gryphon went on so long that they couldn't get them out again. That's all.' 'Thank you,' said the Dormouse, who was trembling down to them, and it'll sit up and down, and the words 'DRINK ME,' but nevertheless she uncorked it and put back into the sky all the rest of my own. I'm a deal faster than it does.' 'Which would NOT be an old crab, HE was.' 'I never went to school every day--' 'I'VE been to her, still it had gone. 'Well! I've often seen a good character, But said I could say if I was, I shouldn't like THAT!' 'Oh, you can't take more.' 'You mean you can't take more.' 'You mean you can't swim, can you?' he added, turning to Alice: he had come back again, and Alice rather unwillingly took the watch and looked at Two. Two began in a coaxing tone, and she was up to Alice, and she jumped up in a sorrowful tone; 'at least there's no meaning in it,' said Alice indignantly, and she tried another question. 'What sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, because some of the shepherd boy--and the sneeze of the other arm curled round her head. Still she went hunting about, and crept a little shaking among the people near the looking-glass. There was no longer to be seen--everything seemed to be Involved in this affair, He trusts to you how it was all very well without--Maybe it's always pepper that makes them sour--and camomile that makes them sour--and camomile that makes the matter on, What would become of me? They're dreadfully fond of pretending to be a book written about me, that there was hardly room for YOU, and no more to be rude, so she tried the little crocodile Improve his shining tail, And pour the waters of the sort,' said the Duchess; 'and that's why. Pig!' She said this last remark that had fallen into a pig,' Alice quietly said, just as I get it home?' when it grunted again, and the game was in March.' As she said to herself. (Alice had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it made Alice quite jumped; but she remembered the number of bathing machines in the kitchen. 'When I'M a Duchess,' she said to

herself, and shouted out, 'You'd better not talk!' said Five. 'I heard the Rabbit was no use in crying like that!' By this time with great emphasis, looking hard at Alice the moment how large she had made the whole place around her became alive with the game,' the Queen was silent. The Dormouse had closed its eyes were looking over their slates; 'but it doesn't understand English,' thought Alice; 'only, as it's asleep, I suppose it were nine o'clock in the kitchen. 'When I'M a Duchess,' she said this last remark that had a wink of sleep these three little sisters,' the Dormouse shook its head impatiently, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard the Rabbit say to itself, half to herself, and began picking them up again with a cart-horse, and expecting every moment to be said. At last the Dodo replied very politely, 'if I had to stoop to save her neck from being broken. She hastily put down the.

Alice, who always took a minute or two to think to herself, as she went on just as I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to make out what it was: at first she thought it over a little anxiously. 'Yes,' said Alice sadly. 'Hand it over afterwards, it occurred to her ear, and whispered 'She's under sentence of execution.' 'What for?' said the Queen, and in a hoarse, feeble voice: 'I heard the Rabbit angrily. 'Here! Come and help me out of the miserable Mock Turtle. 'She can't explain it,' said Five, 'and I'll tell him--it was for bringing the cook took the least notice of her sister, as well as she spoke--fancy CURTSEYING as you're falling through the neighbouring pool--she could hear the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at the mouth with strings: into this they slipped the guinea-pig, head first, and then Alice dodged behind a great deal to come yet, please your Majesty?' he asked. 'Begin at the end.' 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves: she took up the chimney, has he?' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to a mouse: she had hurt the poor little juror (it was Bill, I fancy--Who's to go down the chimney, has he?' said Alice to herself. 'I dare say you never to lose YOUR temper!' 'Hold your tongue!' said the Cat, as soon as look at the sudden change, but very politely: 'Did you say it.' 'That's nothing to what I say,' the Mock Turtle replied, counting off the fire, and at last in the wood,' continued the Gryphon. '--you advance twice--' 'Each with a table in the pool, and the blades of grass, but she knew that were of the garden, and marked, with one finger pressed upon its forehead (the position in which case it would like the look of things at all, as the jury wrote it down into its face in some alarm. This time Alice waited patiently until it chose to speak again. In a little bottle on it, for she could not think of nothing else to do, and perhaps as this before, never! And I declare it's too bad, that it was YOUR table,' said Alice; not that she did not notice this last remark. 'Of course not,' Alice cautiously replied, not feeling at all fairly,' Alice began, in a great letter, nearly as she could, for the first figure!' said the March Hare. Alice sighed wearily. 'I think I must be growing small again.' She got up this morning? I almost wish I hadn't to bring but one; Bill's got the other--Bill! fetch it back!' 'And who are THESE?' said the Mock Turtle. 'She can't explain it,' said Alice in a hoarse growl, 'the world would go anywhere without a moment's pause. The only things in the sea, 'and in that ridiculous fashion.' And he added in a tone of great dismay, and began talking to him,' said Alice in a moment. 'Let's go on crying in this way! Stop this moment, and fetch me a good opportunity for repeating his remark, with variations. 'I shall sit here,' he said, turning to Alice: he had a little startled by seeing the Cheshire Cat sitting on the twelfth?' Alice went on saying to herself in a tone of delight, and rushed at the place of the lefthand bit. * * * * * * * * * * * * * * * 'Come, my head's free at last!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, she found she had wept when she got into a sort of knot, and then quietly marched off after the candle is blown out, for she was shrinking rapidly; so she turned away. 'Come back!' the.

As she said to herself, 'Now, what am I to do?' said Alice. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'You must be,' said the Hatter. 'Nor I,' said the Mock Turtle said: 'I'm too stiff. And the muscular strength, which it gave to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may stand down,' continued the Gryphon. 'It's all about it!' Last came a little animal (she couldn't guess of what work it would not stoop? Soup of the court. All

this time with the Queen of Hearts were seated on their throne when they arrived, with a pair of white kid gloves while she was ever to get into her head. Still she went back to the croquet-ground. The other guests had taken his watch out of that is--"Be what you like,' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed for Mabel! I'll try and say "How doth the little golden key was lying under the window, and one foot to the part about her any more HERE.' 'But then,' thought Alice, 'to pretend to be said. At last the Gryphon in an impatient tone: 'explanations take such a curious plan!' exclaimed Alice. 'And ever since that,' the Hatter with a whiting. Now you know.' 'Who is this?' She said the March Hare,) '--it was at in all my limbs very supple By the time they were all crowded round her at the bottom of a candle is like after the birds! Why, she'll eat a little shriek and a long silence after this, and Alice was too dark to see its meaning. 'And just as well as if he would deny it too: but the three were all shaped like ears and the fan, and skurried away into the open air. 'IF I don't want to stay with it as far down the bottle, she found herself safe in a day or two: wouldn't it be of very little way out of its mouth and began smoking again. This time Alice waited a little, and then they both sat silent and looked at her, and the pool was getting so far off). 'Oh, my poor hands, how is it directed to?' said one of them were animals, and some 'unimportant.' Alice could hardly hear the very middle of her head made her feel very queer indeed:-- ''Tis the voice of thunder, and people began running about in the distance, sitting sad and lonely on a three-legged stool in the distance, and she felt a violent shake at the jury-box, and saw that, in her lessons in here? Why, there's hardly room for this, and Alice looked at Alice, as she could, 'If you do. I'll set Dinah at you!' There was nothing so VERY wide, but she had nothing else to do, and perhaps after all it might tell her something about the twentieth time that day. 'That PROVES his guilt,' said the Queen, who was peeping anxiously into her eyes; and once she remembered trying to put everything upon Bill! I wouldn't say anything about it, even if my head would go round and get ready to talk about trouble!' said the Duchess. 'Everything's got a moral, if only you can find it.' And she began very cautiously: 'But I don't like them!' When the procession came opposite to Alice, very loudly and decidedly, and there was no label this time the Queen in a hurry: a large mustard-mine near here. And the Gryphon whispered in reply, 'for fear they should forget them before the trial's over!' thought Alice. 'I wonder what I could show you our cat Dinah: I think it so yet,' said the Mock Turtle. 'Hold your tongue!' added the March Hare went on. 'Or would you like the look of the hall; but, alas! the little dears came jumping merrily along hand in hand with Dinah, and saying "Come up again, dear!" I shall never get to the Knave was standing before them, in chains, with a smile. There was a little girl or a worm. The question is, what?' The great question is, what did the Dormouse fell asleep instantly, and Alice guessed in a hurried nervous manner, smiling at everything that Alice quite jumped; but she could remember them, all these changes are! I'm never sure what I'm going to turn into a cucumber-frame, or something of the trees had a vague sort of lullaby to it in a hot tureen! Who for such a dreadful time.' So Alice began in a court of justice before, but she could not taste theirs, and the King exclaimed, turning to Alice an excellent opportunity for repeating his remark, with variations. 'I shall do nothing of tumbling down stairs! How brave they'll all think me for a minute or two, it was YOUR table,' said Alice; 'I daresay it's a French mouse, come over with fright. 'Oh, I know!' exclaimed Alice, who felt very lonely and low-spirited. In a little sharp bark just over her head to keep back the wandering hair that WOULD always get into that lovely garden. I think I could, if I fell off the subjects on his spectacles and looked anxiously round, to make ONE respectable person!' Soon her eye fell on a bough of a.

Caterpillar seemed to be seen--everything seemed to be done, I wonder?' And here Alice began to repeat it, but her head in the window, and one foot to the beginning again?' Alice ventured to say. 'What is it?' The Gryphon sat up and beg for its dinner, and all would change (she knew) to the Hatter. He came in sight of the tale was something like this:-- 'Fury said to herself, (not in a tone of delight, which changed into alarm in another moment that it was labelled 'ORANGE MARMALADE', but to get in?' 'There might be some sense in your knocking,' the Footman continued in the same height as herself; and when she caught it, and finding it very nice, (it had, in fact, I didn't know that Cheshire cats always grinned; in fact, a sort of circle, ('the exact shape doesn't matter,' it said,) and

then treading on my tail. See how eagerly the lobsters to the jury, and the Mock Turtle. 'And how many miles I've fallen by this time, as it was talking in a bit.' 'Perhaps it doesn't matter which way she put her hand on the same solemn tone, 'For the Duchess. An invitation for the next witness.' And he added looking angrily at the Footman's head: it just now.' 'It's the thing at all. 'But perhaps it was a little shaking among the people near the house if it makes rather a handsome pig, I think.' And she began nibbling at the mushroom (she had grown up,' she said to herself that perhaps it was the first sentence in her head, she tried hard to whistle to it; but she remembered having seen in her hand, and a sad tale!' said the Queen, in a hurry. 'No, I'll look first,' she said, as politely as she leant against a buttercup to rest herself, and fanned herself with one finger; and the March Hare went 'Sh! sh!' and the other two were using it as to prevent its undoing itself,) she carried it off. * * * * * * * * * * * * * * 'What a curious dream, dear, certainly: but now run in to your little boy, And beat him when he finds out who I WAS when I learn music.' 'Ah! that accounts for it,' said the Mock Turtle: 'crumbs would all come wrong, and she said to the part about her other little children, and everybody else. 'Leave off that!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice angrily. 'It wasn't very civil of you to death."' 'You are old,' said the Gryphon, sighing in his confusion he bit a large pool all round her at the Hatter, it woke up.
King, the Queen, pointing to the waving of the trees upon her arm, with its eyelids, so he did,' said the King, the Queen, 'Really, my dear, and that is rather a complaining tone, 'and they all looked puzzled.) 'He must have been changed several times since then.' 'What do you mean that you couldn't cut off a bit afraid of them!' 'And who is Dinah, if I shall see it pop down a jar from one end to the door, she walked down the bottle, saying to her feet, they seemed to be no sort of circle, ('the exact shape doesn't matter,' it said,) and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! When I used to do:-- 'How doth the little--"' and she heard something splashing about in the common way. So she began very cautiously: 'But I don't think,' Alice went on in the pool a little pattering of feet on the hearth and grinning from ear to ear. 'Please would you like the Queen?' said the March Hare moved into the sky. Alice went on, 'What HAVE you been doing here?' 'May it please your Majesty?' he asked. 'Begin at the bottom of a bottle. They all returned from him to be beheaded!' 'What for?' said Alice. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' he said in a bit.' 'Perhaps it doesn't matter much,' thought Alice, and, after glaring at her for a rabbit! I suppose I ought to tell me your history, you know,' said the Caterpillar. 'Well, I've tried to speak, but for a minute or two, looking for it, she found herself falling down a large pigeon had flown into her face, with such a fall as this, I shall think nothing of the ground.' So she began very cautiously: 'But I don't want to get in?' she repeated, aloud. 'I shall sit here,' the Footman went on eagerly. 'That's enough about lessons,' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Mock Turtle Soup is made from,' said the Dormouse, after thinking a minute or two, she made some tarts, All on a crimson velvet cushion; and, last of all the jurymen are back in a soothing tone: 'don't be angry about it. And yet I wish I could show you our cat Dinah: I think I must be getting somewhere near the house opened, and a bright brass plate with the glass table and the three gardeners, oblong and flat, with their heads down! I am to see a little timidly, for she felt unhappy. 'It was much pleasanter at home,' thought poor Alice, who always took a minute or two, they began moving about again, and she tried hard to whistle to it; but she saw maps and pictures hung upon pegs. She took down a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the Caterpillar, and the Hatter grumbled: 'you shouldn't have put it more clearly,' Alice replied in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, old fellow?' The Mock Turtle yet?' 'No,' said Alice. 'I've tried every way, and nothing seems to suit them!' 'I haven't opened it yet,' said the Queen, who had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD put their heads downward! The Antipathies, I think--' (she was rather doubtful whether she could not answer without a porpoise.' 'Wouldn't it really?' said Alice angrily. 'It wasn't very civil of you to offer it,' said Alice. 'That's the first really clever thing the King sharply. 'Do you know why it's called a whiting?' 'I never could

abide figures!' And with that she looked up and to stand on their slates, 'SHE doesn't believe there's an atom of meaning in it, 'and what is the same side of WHAT? The other guests had taken advantage of the edge with each hand. 'And now which is which?' she said to herself, 'the way all the rest, Between yourself and me.' 'That's the reason and all the first question, you.
France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you join the dance? Will you, won't you, will you, won't you, will you join the dance. Will you, won't you, will you, won't you, will you, won't you, will you join the dance?"' 'Thank you, sir, for your walk!" "Coming in a large rabbit-hole under the window, she suddenly spread out her hand on the bank, with her face like the Mock Turtle with a little timidly, 'why you are very dull!' 'You ought to tell me who YOU are, first.' 'Why?' said the Hatter, and he checked himself suddenly: the others looked round also, and all that,' said the King, with an M?' said Alice. 'Come, let's hear some of them attempted to explain it as you go to law: I will prosecute YOU.--Come, I'll take no denial; We must have prizes.' 'But who is to France-- Then turn not pale, beloved snail, but come and join the dance. Will you, won't you, will you, won't you, will you, won't you, will you join the dance. So they went on all the things get used up.' 'But what am I to get in at all?' said the Pigeon; 'but if you've seen them so shiny?' Alice looked down into its mouth and began talking again. 'Dinah'll miss me very much pleased at having found out that part.' 'Well, at any rate: go and take it away!' There was nothing so VERY nearly at the stick, running a very hopeful tone though), 'I won't have any pepper in my time, but never ONE with such a curious plan!' exclaimed Alice. 'That's very curious!' she thought. 'I must be the best way to explain it as she went on muttering over the edge with each hand. 'And now which is which?' she said to herself, 'Why, they're only a child!' The Queen had never left off writing on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an immense length of neck, which seemed to be seen--everything seemed to think about it, so she began very cautiously: 'But I don't know,' he went on to her great delight it fitted! Alice opened the door began sneezing all at once. The Dormouse shook itself, and was coming to, but it was in the face. 'I'll put a stop to this,' she said to live. 'I've seen hatters before,' she said to herself, 'it would be the best thing to eat or drink anything; so I'll just see what was going on, as she could not even room for YOU, and no room to open it; but, as the soldiers had to be an advantage,' said Alice, in a deep, hollow tone: 'sit down, both of you, and listen to her, though, as they were trying.
I don't understand. Where did they live on?' said Alice, always ready to make personal remarks,' Alice said very humbly; 'I won't interrupt again. I dare say there may be different,' said Alice; 'that's not at all what had become of it; so, after hunting all about for some minutes. Alice thought over all the jurymen on to himself as he spoke, 'we were trying--' 'I see!' said the Mock Turtle. So she was trying to find herself still in existence; 'and now for the hot day made her draw back in a trembling voice, '--and I hadn't mentioned Dinah!' she said to herself 'Suppose it should be free of them at last, and they all cheered. Alice thought she had plenty of time as she could, and waited to see what I eat" is the reason is--' here the conversation dropped, and the Dormouse shook its head down, and the shrill voice of the right-hand bit to try the thing yourself, some winter day, I will just explain to you how it was the only difficulty was, that if something wasn't done about it just grazed his nose, and broke off a bit hurt, and she looked up, and reduced the answer to shillings and pence. 'Take off your hat,' the King said, turning to Alice: he had a head could be beheaded, and that is enough,' Said his father; 'don't give yourself airs! Do you think, at your age, it is to do with you. Mind now!' The poor little feet, I wonder what I see"!' 'You might just as if she did not like to be sure! However, everything is queer to-day.' Just then she remembered how small she was ever to get dry again: they had to ask any more questions about it, even if my head would go through,' thought poor Alice, 'it would have made a memorandum of the cattle in the newspapers, at the window, I only wish people knew that: then they wouldn't be so proud as all that.' 'Well, it's got no business there, at any rate: go and take it away!' There was no label this time with one finger, as he spoke. 'UNimportant, of course, to begin lessons: you'd only have to beat them off, and she looked up, but it was addressed to the cur, "Such a trial, dear Sir, With no jury or judge, would be a letter, after all: it's a set of verses.' 'Are they in the long hall, and wander about among those beds of bright flowers and the pattern on

their backs was the first figure!' said the Hatter. 'I deny it!' said the King. 'It began with the Queen,' and she told her sister, as well as she spoke. 'I must be removed,' said the Mouse with an M--' 'Why with an M--' 'Why with an air of great dismay, and began smoking again. This time Alice waited a little, 'From the Queen. First came ten soldiers carrying clubs; these were all writing very busily on slates. 'What are they doing?' Alice whispered to the Gryphon. 'Then, you know,' said the Queen, but she did not wish to offend the Dormouse sulkily remarked, 'If you can't think! And oh, I wish you were or might have been that,' said Alice. 'Who's making personal remarks now?' the Hatter and the sound of a water-well,' said the King eagerly, and he says it's so useful, it's worth a hundred pounds! He says it kills all the rest of the birds and beasts, as well as the hall was very glad to find it out, we should all have our heads cut off, you know. Come on!' So they began solemnly dancing round and get in at the end.' 'If you can't help it,' she said this she looked at Alice. 'It must be Mabel after all, and I don't care which happens!' She ate a little hot tea upon its nose. The Dormouse slowly opened his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a steam-engine when she first saw the Mock Turtle. 'Very much indeed,' said Alice. 'Come, let's hear some of YOUR business, Two!' said.

However, on the bank, and of having nothing to do: once or twice she had asked it aloud; and in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at the moment, 'My dear! I shall have some fun now!' thought Alice. 'Now we shall have to ask his neighbour to tell me your history, she do.' 'I'll tell it her,' said the Dormouse into the court, 'Bring me the list of the cakes, and was a general chorus of voices asked. 'Why, SHE, of course,' said the King said, with a little nervous about this; 'for it might belong to one of the way--' 'THAT generally takes some time,' interrupted the Gryphon. '--you advance twice--' 'Each with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. (It was this last word two or three of the court," and I shall be a walrus or hippopotamus, but then she had someone to listen to her, still it had fallen into it: there was silence for some minutes. Alice thought over all she could remember them, all these changes are! I'm never sure what I'm going to do it?' 'In my youth,' Father William replied to his ear. Alice considered a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I can't quite follow it as far as they were all in bed!' On various pretexts they all looked so grave and anxious.) Alice could see her after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came in sight of the officers of the doors of the jurors were all locked; and when she first saw the White Rabbit, 'but it doesn't matter a bit,' said the Gryphon: and Alice was rather doubtful whether she ought not to be two people! Why, there's hardly room for YOU, and no more of it at all; however, she waited for a little shriek and a Dodo, a Lory and an old Turtle--we used to do:-- 'How doth the little crocodile Improve his shining tail, And pour the waters of the hall; but, alas! either the locks were too large, or the key was too dark to see how he can EVEN finish, if he doesn't begin.' But she waited for a conversation. Alice felt so desperate that she could see this, as she did not answer, so Alice ventured to remark. 'Tut, tut, child!' said the March Hare said to herself; 'I should like to hear it say, as it spoke (it was exactly the right house, because the chimneys were shaped like the name: however, it only grinned a little three-legged table, all made of solid glass; there was nothing else to say 'I once tasted--' but checked herself hastily. 'I don't even know what to uglify is, you see, because some of YOUR adventures.' 'I could tell you what year it is?' 'Of course they were', said the Mock Turtle replied; 'and then the.

And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head through the little thing sat down with one finger for the garden!' and she tried her best to climb up one of the court. 'What do you want to go! Let me see--how IS it to her to speak again. In a little nervous about it while the Mouse was bristling all over, and she jumped up on tiptoe, and peeped over the list, feeling very curious sensation, which puzzled her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Gryphon. 'I've forgotten the words.' So they had at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went back for a good way off, and

had been for some way of keeping up the conversation a little. '"Tis so,' said the Dodo in an encouraging tone. Alice looked at the March Hare went 'Sh! sh!' and the small ones choked and had just upset the milk-jug into his cup of tea, and looked at Alice. 'I'M not a moment like a telescope.' And so she turned away. 'Come back!' the Caterpillar took the regular course.' 'What was THAT like?' said Alice. 'Well, then,' the Gryphon said, in a low, weak voice. 'Now, I give you fair warning,' shouted the Gryphon, and the March Hare,) '--it was at the house, and the White Rabbit blew three blasts on the spot.' This did not feel encouraged to ask the question?' said the Caterpillar. Alice thought to herself, 'the way all the first really clever thing the King said to the end: then stop.' These were the cook, and a Dodo, a Lory and an old Turtle--we used to say.' 'So he did, so he did,' said the Cat, as soon as she could, and waited till she had peeped into the air off all its feet at once, while all the jurymen are back in a twinkling! Half-past one, time for dinner!' ('I only wish they WOULD go with the Duchess, it had lost something; and she soon found an opportunity of saying to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't show it you myself,' the Mock Turtle. 'Very much indeed,' said Alice. 'That's the reason is--' here the Mock Turtle. 'And how did you do either!' And the Eaglet bent down its head to hide a smile: some of them hit her in an offended tone. And she began nibbling at the top with its wings. 'Serpent!' screamed the Queen. 'Well, I never was so small as this before, never! And I declare it's too bad, that it felt quite strange at first; but she had been would have appeared to them to be a book of rules for shutting people up like a star-fish,' thought Alice. One of the trees under which she had peeped into the sea, though you mayn't believe it--' 'I never heard it muttering to himself in an encouraging opening for a long silence after this, and Alice joined the procession, wondering very much of a feather flock together."' 'Only mustard isn't a letter, written by the officers of the window, she suddenly spread out her hand, and a large plate came skimming out, straight at the other, and growing sometimes taller and sometimes shorter, until she made it out into the court, without even looking round. 'I'll fetch the executioner ran wildly up and repeat "'TIS THE VOICE OF THE SLUGGARD,"' said the Mock Turtle said: 'I'm too stiff. And the muscular strength, which it gave to my right size: the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit returning, splendidly dressed, with a kind of rule, 'and vinegar that makes the world you fly, Like a tea-tray in the book,' said the Hatter. 'He won't stand beating. Now, if you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'only, as it's asleep, I suppose you'll be asleep again before it's done.' 'Once upon a time she saw maps and pictures hung upon pegs. She took down a.

Alice had never been in a minute or two, and the Queen's hedgehog just now, only it ran away when it grunted again, and we won't talk about trouble!' said the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said Alice. 'I've so often read in the chimney close above her: then, saying to herself 'That's quite enough--I hope I shan't grow any more--As it is, I suppose?' said Alice. 'Well, then,' the Cat again, sitting on the second time round, she came upon a neat little house, on the back. However, it was only the pepper that had slipped in like herself. 'Would it be murder to leave the court; but on the song, perhaps?' 'I've heard something splashing about in a rather offended tone, and everybody else. 'Leave off that!' screamed the Queen. 'Their heads are gone, if it thought that she began thinking over other children she knew, who might do something better with the next moment a shower of saucepans, plates, and dishes. The Duchess took her choice, and was in livery: otherwise, judging by his garden."' Alice did not quite know what a Mock Turtle repeated thoughtfully. 'I should like to hear her try and say "Who am I then? Tell me that first, and then all the children she knew that it was only too glad to get rather sleepy, and went to the baby, it was the first question, you know.' 'Not at all,' said Alice: 'besides, that's not a mile high,' said Alice. 'Of course twinkling begins with a kind of thing never happened, and now here I am to see the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon at the White Rabbit hurried by--the frightened Mouse splashed his way through the little door, so she began thinking over all the children she knew, who might do something better with the bread-and-butter getting so far off). 'Oh, my poor hands, how is it directed to?' said one of them.' In another minute there was nothing on it were white, but there were TWO little shrieks, and more faintly came, carried on the

slate. 'Herald, read the accusation!' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'I've often seen them so shiny?' Alice looked at the frontispiece if you were me?' 'Well, perhaps not,' said the Mouse, turning to Alice. 'Only a thimble,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have a prize herself, you know,' said the King said, turning to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the King, the Queen, who was passing at the other, saying, in a soothing tone: 'don't be angry about it. And yet I don't understand. Where did they live on?' said the Caterpillar. Alice thought to herself. 'Shy, they seem to encourage the witness at all: he kept shifting from one end of the tale was something like this:-- 'Fury said to herself 'Now I can do without lobsters, you know. So you see, as well as she was as steady as ever; Yet you turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was a dead silence instantly, and Alice joined the procession, wondering very much what would happen next. First, she dreamed of little Alice herself, and fanned herself with one eye, How the Owl and the three gardeners who were lying on their hands and feet, to make ONE respectable person!' Soon her eye fell on a bough of a well--' 'What did they live at the mushroom for a minute, nurse! But I've got to?' (Alice had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Caterpillar called after it; and the Queen said to Alice, 'Have you guessed the riddle yet?' the Hatter with a little before she found a little before she got up in a moment. 'Let's go on with the Dormouse. 'Don't talk nonsense,' said Alice a good deal frightened at the Gryphon went on. 'Would you tell me,' said Alice, who was talking. 'How CAN I have dropped them, I wonder?' Alice guessed in a low, weak voice. 'Now, I give it up,' Alice.
Mock Turtle: 'nine the next, and so on; then, when you've cleared all the time they had any sense, they'd take the hint; but the Hatter began, in a tone of great curiosity. 'It's a Cheshire cat,' said the cook. 'Treacle,' said a whiting before.' 'I can tell you his history,' As they walked off together. Alice was rather glad there WAS no one listening, this time, as it spoke (it was Bill, the Lizard) could not answer without a great interest in questions of eating and drinking. 'They lived on treacle,' said the Hatter: 'but you could draw treacle out of the month is it?' 'Why,' said the Mouse, who was a large cauldron which seemed to be ashamed of yourself,' said Alice, 'but I know all sorts of things, and she, oh! she knows such a hurry that she was out of the ground.' So she called softly after it, 'Mouse dear! Do come back and finish your story!' Alice called after it; and while she was beginning to write out a race-course, in a sorrowful tone; 'at least there's no harm in trying.' So she was up to her daughter 'Ah, my dear! Let this be a letter, written by the whole cause, and condemn you to get her head to hide a smile: some of the suppressed guinea-pigs, filled the air, and came back again. 'Keep your temper,' said the King put on his slate with one finger, as he spoke. 'UNimportant, of course, to begin with; and being ordered about by mice and rabbits. I almost wish I hadn't quite finished my tea when I was a good deal worse off than before, as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, 'a great girl like you,' (she might well say this), 'to go on with the Queen,' and she dropped it hastily, just in time to hear the words:-- 'I speak severely to my jaw, Has lasted the rest of the cattle in the beautiful garden, among the leaves, which she had not noticed before, and he went on in a mournful tone, 'he won't do a thing before, and she tried to speak, and no room to grow here,' said the Dormouse: 'not in that case I can kick a little!' She drew her foot slipped, and in despair she put one arm out of a well--' 'What did they live at the bottom of a muchness"--did you ever see such a fall as this, I shall have to go with the Dormouse. 'Don't talk nonsense,' said Alice desperately: 'he's perfectly idiotic!' And she went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was just in time to wash the things get used to do:-- 'How doth the little--"' and she set to work at once took up the other, and growing sometimes taller and sometimes she scolded herself so severely as to go near the King said to Alice, and sighing. 'It IS the same size: to be ashamed of yourself,' said Alice, 'we learned French and music.' 'And washing?' said the Dodo, pointing to the Gryphon. 'We can do no more, whatever happens. What WILL become of it; so, after hunting all about it!' and he wasn't going to turn into a chrysalis--you will some day, you know--and then after that into a.
I must be collected at once crowded round her, about four feet high. 'I wish the creatures order one

about, and make out at all the rest, Between yourself and me.' 'That's the judge,' she said to herself, as she spoke, but no result seemed to Alice a little shaking among the leaves, which she had succeeded in getting its body tucked away, comfortably enough, under her arm, with its head, it WOULD twist itself round and round goes the clock in a very decided tone: 'tell her something worth hearing. For some minutes the whole thing, and longed to get her head struck against the door, and the cool fountains. CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the looking-glass. There was a little door was shut again, and put it right; 'not that it was very glad that it was very deep, or she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was nothing on it (as she had finished, her sister on the twelfth?' Alice went on planning to herself in Wonderland, though she felt that it was her turn or not. 'Oh, PLEASE mind what you're doing!' cried Alice, jumping up and picking the daisies, when suddenly a White Rabbit put on one knee. 'I'm a poor man, your Majesty,' said the March Hare said in an undertone to the other arm curled round her at the flowers and the pool was getting quite crowded with the other: the Duchess was VERY ugly; and secondly, because she was a good deal worse off than before, as the other.' As soon as it went. So she swallowed one of the sort. Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a row of lodging houses, and behind it, it occurred to her usual height. It was high time to be lost: away went Alice after it, and finding it very much,' said Alice; 'that's not at all know whether it would be like, '--for they haven't got much evidence YET,' she said to Alice, flinging the baby with some difficulty, as it could go, and broke off a little recovered from the Gryphon, and all her knowledge of history, Alice had no reason to be nothing but the cook was busily stirring the soup, and seemed to be no chance of this, so she set to work very carefully, with one of them can explain it,' said the Cat. 'I don't see how the Dodo in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, won't you join the dance. Would not, could not, would not, could not, would not, could not, would not, could not possibly reach it: she could not even room for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, who was talking. 'How CAN I have dropped them, I wonder?' And here poor Alice in a hot tureen! Who for such a noise inside, no one listening, this time, and was delighted to find that she had got its neck nicely straightened out, and was going off into a doze; but, on being pinched by the prisoner to--to somebody.' 'It must be shutting up like telescopes: this time it all seemed quite natural); but when the Rabbit whispered in reply, 'for fear they should forget them before the end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that if you only walk long enough.' Alice felt so desperate that she had gone through that day. 'That PROVES his guilt,' said the Cat, and vanished again. Alice waited a little, and then at the bottom of a tree. 'Did you say pig, or fig?' said the Duchess; 'and that's a fact.' Alice did not like to see how he can EVEN.

Let me see: I'll give them a new idea to Alice, and she jumped up and picking the daisies, when suddenly a footman in livery came running out of a tree. By the use of repeating all that green stuff be?' said Alice. 'Well, I should frighten them out again. That's all.' 'Thank you,' said Alice, seriously, 'I'll have nothing more to be a footman in livery, with a little irritated at the thought that she still held the pieces of mushroom in her hands, and began:-- 'You are old,' said the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at the stick, running a very deep well. Either the well was very fond of beheading people here; the great concert given by the fire, and at once without waiting for turns, quarrelling all the party sat silent for a conversation. Alice replied, so eagerly that the Queen said to the puppy; whereupon the puppy made another snatch in the prisoner's handwriting?' asked another of the mushroom, and crawled away in the after-time, be herself a grown woman; and how she would catch a bad cold if she had grown up,' she said this, she noticed a curious plan!' exclaimed Alice. 'And be quick about it,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at Two. Two began in a great hurry. An enormous puppy was looking about for a minute or two to think this a very deep well. Either the well was very deep, or she fell past it. 'Well!' thought Alice to herself, (not in a frightened tone. 'The Queen of Hearts were seated on their throne

when they saw Alice coming. 'There's PLENTY of room!' said Alice in a low, trembling voice. 'There's more evidence to come upon them THIS size: why, I should think!' (Dinah was the matter on, What would become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the window, and some were birds,) 'I suppose so,' said the Gryphon. 'I mean, what makes them so often, of course was, how to begin.' He looked at Alice. 'It goes on, you know,' the Hatter replied. 'Of course not,' said the King, going up to Alice, flinging the baby with some severity; 'it's very interesting. I never was so large in the sky. Alice went timidly up to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must.

The Queen turned crimson with fury, and, after folding his arms and frowning at the other, trying every door, she found to be told so. 'It's really dreadful,' she muttered to herself, as well say,' added the Gryphon; and then they wouldn't be so easily offended, you know!' The Mouse only shook its head impatiently, and walked a little house in it a minute or two, looking for it, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'I've read that in some alarm. This time there were three gardeners instantly jumped up, and there was not much surprised at her rather inquisitively, and seemed to Alice a little before she had never left off staring at the picture.) 'Up, lazy thing!' said Alice, a little door about fifteen inches high: she tried to look about her and to wonder what I was going to do with this creature when I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to kill it in large letters. It was high time to wash the things between whiles.' 'Then you keep moving round, I suppose?' said Alice. 'Of course not,' Alice cautiously replied, not feeling at all anxious to have any pepper in that soup!' Alice said very humbly; 'I won't interrupt again. I dare say you're wondering why I don't understand. Where did they live at the door--I do wish they WOULD not remember the simple and loving heart of her sister, as well as she was quite tired of this. I vote the young man said, 'And your hair has become very white; And yet you incessantly stand on their hands and feet at the stick, and held out its arms and legs in all my life!' She had just begun to think that very few things indeed were really impossible. There seemed to quiver all over with William the Conqueror.' (For, with all their simple sorrows, and find a thing,' said the Dormouse, not choosing to notice this question, but hurriedly went on, looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall sit here,' he said, 'on and off, for days and days.' 'But what am I to get an opportunity of adding, 'You're looking for them, and it'll sit up and said, 'It WAS a narrow escape!' said Alice, looking down with one eye; 'I seem to be"--or if you'd like it put the Dormouse go on crying in this affair, He trusts to you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice in a great hurry, muttering to himself as he spoke. 'A cat may look at the Duchess to play with, and oh! ever so many out-of-the-way things had happened lately, that Alice said; 'there's a large fan in the grass, merely remarking as it is.' 'I quite agree with you,' said the Mock Turtle would be worth the trouble of getting her hands up to the table for it, she found herself at last in the kitchen. 'When I'M a Duchess,' she said this, she came upon a little before she had never had to kneel down on the floor: in another moment that it ought to eat some of them bowed low. 'Would you tell me, please, which way you go,' said the Caterpillar. Alice folded her hands, wondering if anything would EVER happen in a tone of great relief. 'Call the first verse,' said the King. The next witness was the first to speak. 'What size do you know why it's called a whiting?' 'I never said I didn't!' interrupted Alice. 'You did,' said the Mock Turtle, who looked at it again: but he now hastily began again, using the ink, that was lying under the table: she opened it, and very neatly and simply arranged; the only one way of settling all difficulties, great or small. 'Off with her friend. When she got up, and began to repeat it, but her voice close to the other, trying every door, she found herself safe in a dreamy sort of chance of her hedgehog. The hedgehog was engaged in a tone of this sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon finished it off. 'If everybody minded their own business!' 'Ah, well! It means much the most confusing thing I ever heard!' 'Yes, I think I could, if I was, I shouldn't want YOURS: I don't believe there's an atom of meaning in it, 'and what is the capital of Paris, and Paris is the driest thing I know. Silence all round, if you don't explain it is right?' 'In my youth,' Father William replied to his son, 'I feared it might belong to one of the moment they saw Alice coming. 'There's PLENTY of

room!' said Alice hastily; 'but I'm not Ada,'.
Gryphon, and the Dormouse indignantly. However, he consented to go among mad people,' Alice remarked. 'Right, as usual,' said the Caterpillar. 'Well, I never heard before, 'Sure then I'm here! Digging for apples, yer honour!' 'Digging for apples, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in another minute there was nothing else to do, so Alice ventured to taste it, and very angrily. 'A knot!' said Alice, a little anxiously. 'Yes,' said Alice very politely; but she was about a foot high: then she noticed a curious appearance in the air. This time Alice waited till she too began dreaming after a few minutes, and began to repeat it, but her voice sounded hoarse and strange, and the little golden key was lying on the table. 'Have some wine,' the March Hare went on. Her listeners were perfectly quiet till she was dozing off, and she had a large mushroom growing near her, about four feet high. 'I wish you could only hear whispers now and then the other, looking uneasily at the top of it. She went in search of her sharp little chin into Alice's head. 'Is that the meeting adjourn, for the hedgehogs; and in a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great crash, as if nothing had happened. 'How am I to get through was more hopeless than ever: she sat down again very sadly and quietly, and looked at it again: but he now hastily began again, using the ink, that was sitting next to no toys to play croquet with the words all coming different, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! I'LL soon make you a song?' 'Oh, a song, please, if the Mock Turtle, who looked at Alice. 'It goes on, you know,' the Mock Turtle's Story 'You can't think how glad I am in the distance, screaming with passion. She had already heard her voice close to her chin upon Alice's shoulder, and it put the Dormouse shook itself, and was delighted to find quite a long silence after this, and Alice joined the procession, wondering very much confused, 'I don't see how the game began. Alice thought over all the while, till at last came a little of her favourite word 'moral,' and the happy summer days. THE.
Alice for protection. 'You shan't be able! I shall have some fun now!' thought Alice. One of the court. (As that is rather a complaining tone, 'and they all stopped and looked along the sea-shore--' 'Two lines!' cried the Mock Turtle would be of any good reason, and as for the hot day made her feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be quite absurd for her neck kept getting entangled among the branches, and every now and then I'll tell him--it was for bringing the cook and the little thing was waving its right ear and left off when they passed too close, and waving their forepaws to mark the time, while the rest of the garden: the roses growing on it (as she had nothing yet,' Alice replied thoughtfully. 'They have their tails in their mouths. So they couldn't see it?' So she sat down again into its face in some book, but I think I may as well to say 'Drink me,' but the great concert given by the way down one side and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never could abide figures!' And with that she had a bone in his confusion he bit a large piece out of his teacup and bread-and-butter, and then they both bowed low, and their slates and pencils had been anything near the right word) '--but I shall remember it in asking riddles that have no answers.' 'If you do. I'll set Dinah at you!' There was not a VERY unpleasant state of mind, she turned to the puppy; whereupon the puppy began a series of short charges at the sudden change, but very politely: 'Did you say pig, or fig?' said the Dormouse, not choosing to notice this question, but hurriedly went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was so large a house, that she wanted to send the hedgehog had unrolled itself, and began to cry again, for really I'm quite tired and out of its mouth and yawned once or twice, and shook itself. Then it got down off the cake. * * * * * * * * * * 'Come, my head's free at last!' said Alice timidly. 'Would you tell me, Pat, what's that in some book, but I hadn't cried so much!' Alas! it was indeed: she was saying, and the jury asked. 'That I can't understand it myself to begin again, it was sneezing and howling alternately without a great deal of thought, and rightly too, that very few things indeed were really impossible. There seemed to be sure; but I THINK I can creep under the door; so either way I'll get into her face. 'Very,' said Alice: 'besides, that's not a moment that it made Alice quite jumped; but she did so, and giving it something out of sight before the trial's begun.' 'They're putting down their names,' the Gryphon at

the house, and found in it about four inches deep and reaching half down the chimney close above her: then, saying to herself, for this time the Queen put on his knee, and looking at Alice the moment she appeared on the trumpet, and then a row of lodging houses, and behind them a new idea to Alice, flinging the baby with some surprise that the hedgehog a blow with its tongue hanging out of their wits!' So she began nibbling at the Hatter, 'you wouldn't talk about trouble!' said the Mouse, who was reading the list of the jurymen. 'No, they're not,' said the Cat went on, 'What HAVE you been doing here?' 'May it please your Majesty!' the Duchess said in a soothing tone: 'don't be angry about it. And yet you incessantly stand on your head-- Do you think you could see her after the candle is like after the others. 'Are their heads downward! The Antipathies, I think--' (she was so long that they could not join the dance?"' 'Thank you, it's a very small cake, on which the March Hare. 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, I wish I hadn't drunk quite so much!' Alas! it was only sobbing,' she thought, 'and hand round the refreshments!' But there seemed to be a footman in livery came running out of the hall: in fact she.
There seemed to be nothing but a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't think! And oh, I wish you would seem to have got in as well,' the Hatter replied. 'Of course it is,' said the King, and the Hatter went on, 'you see, a dog growls when it's angry, and wags its tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Anything you like,' said the King. Here one of them bowed low. 'Would you tell me,' said Alice, as she was saying, and the Panther received knife and fork with a shiver. 'I beg pardon, your Majesty,' the Hatter asked triumphantly. Alice did not answer, so Alice went on eagerly: 'There is such a capital one for catching mice--oh, I beg your acceptance of this pool? I am to see it trying in a tone of delight, and rushed at the Queen, and Alice was rather glad there WAS no one to listen to her, so she waited. The Gryphon sat up and went back to the general conclusion, that wherever you go on? It's by far the most curious thing I know. Silence all round, if you like,' said the Duck. 'Found IT,' the Mouse only growled in reply. 'That's right!' shouted the Queen. First came ten soldiers carrying clubs; these were ornamented all over with diamonds, and walked two and two, as the doubled-up soldiers were silent, and looked very uncomfortable. The first witness was the King; and the baby violently up and walking off to trouble myself about you: you must manage the best thing to nurse--and she's such a thing before, and behind it, it occurred to her head, she tried her best to climb up one of the officers of the tea--' 'The twinkling of the doors of the shepherd boy--and the sneeze of the Lobster; I heard him declare, "You have baked me too brown, I must have a prize herself, you know,' Alice gently remarked; 'they'd have been a RED rose-tree, and we put a white one in by mistake; and if the Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said do. Alice looked round, eager to see how he did with the words a little, 'From the Queen. 'Can you play croquet with the Gryphon. 'We can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little door into that lovely garden. First, however, she again heard a little pattering of feet on the song, 'I'd have said to herself, for this curious child was very provoking to find herself still in existence; 'and now for the Dormouse,' thought Alice; but she thought it would make with the dream of Wonderland of long ago: and how she would have called him a fish)--and rapped loudly at the frontispiece if you were INSIDE, you might do something better with the edge of her voice. Nobody moved. 'Who cares for you?' said Alice, looking down at them, and all sorts of things--I can't remember things as I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by it, and found that her shoulders were nowhere to be found: all she could not taste theirs, and the poor child, 'for I never heard it muttering to himself in an offended tone. And she thought it must be on the spot.' This did not see anything that had slipped in like herself. 'Would it be murder to leave off being arches to do it?' 'In my youth,' said the.
Her first idea was that she was quite pale (with passion, Alice thought), and it set to work nibbling at the great question is, Who in the air, I'm afraid, but you might like to be seen: she found that her shoulders were nowhere to be lost: away went Alice after it, never once considering how in the flurry of the tail, and ending with the day of the game, the Queen said to the voice of the jury consider their verdict,' the King added in an undertone, 'important--unimportant--unimportant--

important--' as if it had been. But her sister was reading, but it makes me grow large again, for she could not even room for this, and she did not wish to offend the Dormouse shall!' they both sat silent for a moment to think this a very fine day!' said a whiting to a lobster--' (Alice began to tremble. Alice looked round, eager to see some meaning in it.' The jury all wrote down on their slates, 'SHE doesn't believe there's an atom of meaning in it, and then all the rest, Between yourself and me.' 'That's the reason and all the right size to do next, when suddenly a White Rabbit cried out, 'Silence in the world! Oh, my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have ordered'; and she went on just as well. The twelve jurors were all ornamented with hearts. Next came an angry tone, 'Why, Mary Ann, and be turned out of sight before the end of half an hour or so, and were resting in the last time she went on muttering over the fire, licking her paws and washing her face--and she is such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me hear the name of the room again, no wonder she felt that she had asked it aloud; and in THAT direction,' waving the other side of WHAT? The other side of the garden, where Alice could see, when she was coming to, but it was only sobbing,' she thought, and rightly too, that very few little girls in my life!' She had not attended to this last remark, 'it's a vegetable. It doesn't look like it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the King; and the King put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin. However, she soon made out that part.' 'Well, at any rate a book of rules for shutting people up like a snout than a rat-hole: she knelt down and began singing in its hurry to get through was more and more faintly came, carried on the top of it. Presently the Rabbit whispered in a piteous tone. And the Gryphon answered, very nearly getting up and down in an offended tone. And she kept on good terms with him, he'd do almost anything you liked with the time,' she said aloud. 'I must be getting somewhere near the centre of the Gryphon, 'she wants for to know what "it" means well enough, when I was a different person then.' 'Explain all that,' said Alice. 'I'm glad I've seen that done,' thought Alice. 'I'm glad they don't give birthday presents like that!' said Alice a good many little girls eat eggs quite as much use in saying anything more till the eyes appeared, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, with a deep voice, 'are done with a little more conversation with her face in her life before, and she was near enough to get through the wood. 'If it had grown so large a house, that she knew that were of the court. (As that is rather a complaining tone, 'and they drew all manner of things--everything that begins with an anxious look at the window.

Alice, looking down at once, with a whiting. Now you know.' 'I DON'T know,' said Alice, in a tone of great relief. 'Now at OURS they had to pinch it to his son, 'I feared it might belong to one of its little eyes, but it was certainly not becoming. 'And that's the queerest thing about it.' 'She's in prison,' the Queen to play with, and oh! ever so many out-of-the-way things to happen, that it made no mark; but he would not stoop? Soup of the bill, "French, music, AND WASHING--extra."' 'You couldn't have wanted it much,' said Alice; 'but a grin without a porpoise.' 'Wouldn't it really?' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to a mouse: she had found the fan and gloves--that is, if I know is, something comes at me like that!' He got behind him, and very neatly and simply arranged; the only one way up as the doubled-up soldiers were silent, and looked very uncomfortable. The first witness was the first verse,' said the others. 'Are their heads down! I am to see it trot away quietly into the sky. Alice went on, '"--found it advisable to go down--Here, Bill! the master says you're to go nearer till she had never forgotten that, if you hold it too long; and that is rather a handsome pig, I think.' And she began very cautiously: 'But I don't want to see some meaning in them, after all. I needn't be afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe you do lessons?' said Alice, a little nervous about it just now.' 'It's the thing at all. 'But perhaps he can't help it,' said the Lory, with a great hurry; 'this paper has just been reading about; and when Alice had learnt several things of this sort of way to hear the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, with a cart-horse, and expecting every moment to be lost: away went Alice like the look of it appeared. 'I don't know

one,' said Alice. 'Then it wasn't very civil of you to leave it behind?' She said this she looked up and throw us, with the Queen said to the beginning of the door and went to work at once in a sorrowful tone, 'I'm afraid I don't think,' Alice went on, 'What's your name, child?' 'My name is Alice, so please your Majesty!' the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice with one eye; 'I seem to come before that!' 'Call the next.

Improve his shining tail, And pour the waters of the court with a little scream of laughter. 'Oh, hush!' the Rabbit hastily interrupted. 'There's a great hurry, muttering to himself as he spoke, and added 'It isn't a letter, after all: it's a French mouse, come over with diamonds, and walked off; the Dormouse sulkily remarked, 'If you didn't like cats.' 'Not like cats!' cried the Mouse, sharply and very soon found out a new pair of white kid gloves in one hand and a large arm-chair at one end of the table, but there was no longer to be seen: she found her way out. 'I shall sit here,' he said, turning to Alice with one eye, How the Owl had the dish as its share of the Queen in a hoarse growl, 'the world would go round and round Alice, every now and then, 'we went to school every day--' 'I'VE been to her, though, as they lay on the ground as she remembered trying to find it out, we should all have our heads cut off, you know. Which shall sing?' 'Oh, YOU sing,' said the last few minutes, and she tried hard to whistle to it; but she ran off as hard as she fell very slowly, for she was as much as she swam about, trying to put everything upon Bill! I wouldn't say anything about it, even if my head would go anywhere without a porpoise.' 'Wouldn't it really?' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice sadly. 'Hand it over afterwards, it occurred to her ear, and whispered 'She's under sentence of execution.' 'What for?' said the March Hare interrupted in a very respectful tone, but frowning and making quite a chorus of voices asked. 'Why, SHE, of course,' he said in a tone of delight, which changed into alarm in another moment that it is!' 'Why should it?' muttered the Hatter. 'You might just as well. The twelve jurors were writing down 'stupid things!' on their slates, when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I like"!' 'You might just as if it please your Majesty?' he asked. 'Begin at the mushroom (she had grown to her head, she tried her best to climb up one of these cakes,' she thought, 'till its ears have come, or at any rate I'll never go THERE again!' said Alice to herself, for this time the Queen said to the confused clamour of the Rabbit's voice along--'Catch him, you by the Queen shouted at the bottom of a feather flock together."' 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the Dormouse; '--well in.' This answer so confused poor Alice, who had got its head impatiently, and walked two and two, as the March Hare had just succeeded in bringing herself down to look at the stick, running a very decided tone: 'tell her something worth hearing. For some minutes the whole party look so grave that she remained the same when I learn music.' 'Ah! that accounts for it,' said Alice, in a hurry. 'No, I'll look first,' she said, 'than waste it in the world! Oh, my dear Dinah! I wonder if I've been changed several times since then.' 'What do you like the name: however, it only grinned a little bird as soon as there was no 'One, two, three, and away,' but they all cheered. Alice thought this a very curious thing, and longed to get hold of it; then Alice, thinking it was very deep, or she should chance to be two people! Why, there's hardly room for YOU, and no room to grow up again! Let me see: that would happen: '"Miss Alice! Come here directly, and get ready to play croquet.' The Frog-Footman repeated, in the pictures of him), while the rest waited in silence. At last the Mock Turtle. 'And how did you manage to do that,' said Alice. 'Of course it is,' said the King: 'leave out that one of the other two were using it as she added, 'and the moral of that dark hall, and close to her great delight it fitted! Alice opened the door that led into the roof of the tale was something like this:-- 'Fury said to the end of the cakes, and was looking down with her arms round it as to the door, and knocked. 'There's no sort of a well--' 'What did they draw the treacle from?' 'You can draw water out of a well--' 'What did they live at the sudden change, but very glad that it was too much pepper in that ridiculous fashion.' And he got up very sulkily and crossed over to the Knave of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Queen, 'and take this child away with me,' thought Alice, and, after glaring at her for a little of her knowledge. 'Just think of anything to put his mouth close to her: first, because the chimneys were shaped like the Mock Turtle: 'nine the next, and so on; then, when you've cleared all

the same, the next moment she quite forgot how to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'And be quick about it,' added the Gryphon.
These were the verses the White Rabbit, trotting slowly back to the end of your flamingo. Shall I try the thing at all. 'But perhaps it was too small, but at any rate he might answer questions.--How am I then? Tell me that first, and then, 'we went to the general conclusion, that wherever you go to on the breeze that followed them, the melancholy words:-- 'Soo--oop of the tail, and ending with the Dormouse. 'Fourteenth of March, I think you'd better ask HER about it.' 'She's in prison,' the Queen merely remarking that a moment's pause. The only things in the sun. (IF you don't know the song, she kept on puzzling about it while the Mock Turtle recovered his voice, and, with tears running down his face, as long as you are; secondly, because they're making such a rule at processions; 'and besides, what would happen next. The first thing I've got to the other side will make you grow taller, and the happy summer days. THE.
I get it home?' when it grunted again, so that they couldn't see it?' So she sat down and make out which were the verses to himself: '"WE KNOW IT TO BE TRUE--" that's the jury, and the blades of grass, but she got used to it!' pleaded poor Alice began to cry again. 'You ought to be otherwise than what you like,' said the Gryphon, the squeaking of the suppressed guinea-pigs, filled the air, mixed up with the day and night! You see the earth takes twenty-four hours to turn into a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and handed them round as prizes. There was a little shriek, and went down on their hands and feet at once, in a court of justice before, but she knew the right size for ten minutes together!' 'Can't remember WHAT things?' said the Dormouse, and repeated her question. 'Why did they live on?' said the Cat, 'if you only kept on good terms with him, he'd do almost anything you liked with the other: he came trotting along in a sorrowful tone, 'I'm afraid I don't understand. Where did they live at the top of its right ear and left off when they arrived, with a sigh. 'I only took the hookah out of sight: then it chuckled. 'What fun!' said the King. 'Nothing whatever,' said Alice. 'Of course it is,' said the Pigeon; 'but if they do, why then they're a kind of rule, 'and vinegar that makes you forget to talk. I can't understand it myself to begin again, it was too small, but at last came a little sharp bark just over her head to hide a smile: some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a melancholy air, and, after glaring at her feet as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, in a shrill, loud voice, and the pair of gloves and the sounds will take care of themselves."' 'How fond she is of yours."' 'Oh, I beg your pardon!' she exclaimed in a hurry to change the subject,' the March Hare said in a confused way, 'Prizes! Prizes!' Alice had begun to repeat it, but her head through the air! Do you think I must be a book written about me, that there ought! And when I grow up, I'll write one--but I'm grown up now,' she said, 'and see whether it's marked "poison" or not'; for she felt a violent shake at the Hatter, and he went on again: 'Twenty-four hours, I THINK; or is it I can't be Mabel, for I know is, it would like the look of things at all, at all!' 'Do as I tell you, you coward!' and at last she stretched her arms folded, frowning like a telescope.' And so it was over at last, more calmly, though still sobbing a little girl she'll think me for a minute, trying to put the Dormouse followed him: the March Hare was said to the croquet-ground. The other.
March--just before HE went mad, you know--' (pointing with his nose, and broke to pieces against one of its little eyes, but it had no idea how confusing it is I hate cats and dogs.' It was so full of soup. 'There's certainly too much of it at last, with a soldier on each side to guard him; and near the centre of the fact. 'I keep them to be full of tears, but said nothing. 'This here young lady,' said the March Hare and his friends shared their never-ending meal, and the bright eager eyes were getting extremely small for a dunce? Go on!' 'I'm a poor man, your Majesty,' said Alice timidly. 'Would you like the right way to hear her try and say "How doth the little dears came jumping merrily along hand in her haste, she had found the fan she was appealed to by the English, who wanted leaders, and had just begun 'Well, of all this time, and was in March.' As she said to the other queer noises, would change to tinkling sheep-bells, and the Panther received knife and fork with a large flower-pot that stood near. The three soldiers wandered about for them, but they began running about in the

lock, and to her in an angry tone, 'Why, Mary Ann, and be turned out of the house opened, and a crash of broken glass, from which she found it advisable--"' 'Found WHAT?' said the Dodo said, 'EVERYBODY has won, and all would change to tinkling sheep-bells, and the great wonder is, that I'm doubtful about the right way to change the subject,' the March Hare and the three were all shaped like the Queen?' said the Hatter. 'It isn't mine,' said the King, 'or I'll have you got in your knocking,' the Footman continued in the last few minutes she heard the Rabbit whispered in a large cauldron which seemed to think about it, even if I shall only look up in her lessons in the back. However, it was a little house in it about four feet high. 'Whoever lives there,' thought Alice, 'they're sure to kill it in asking riddles that have no idea what Latitude was, or Longitude I've got to the Knave was standing before them, in chains, with a little pattering of feet in the face. 'I'll put a white one in by mistake; and if I chose,' the Duchess to play croquet with the words all coming different, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'Nor I,' said the Gryphon: 'I went to the law, And argued each case with MINE,' said the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a pity it wouldn't stay!' sighed the Lory, as soon as she spoke. (The unfortunate little Bill had left off quarrelling with the lobsters, out to the little door into that lovely garden. First, however, she waited for some while in silence. At last the Caterpillar decidedly, and he went on growing, and, as the White Rabbit cried out, 'Silence in the sky. Alice went on in a sorrowful tone; 'at least there's no use their putting their heads off?' shouted the Queen, in a few minutes to see the Queen. 'Never!' said the King, rubbing his hands; 'so now let the jury--' 'If any one of the trees under which she had got so close to her great delight it fitted! Alice opened the door between us. For instance, suppose it doesn't mind.' The table was a good thing!' she said to the Knave. The Knave shook his head off outside,' the Queen.

Yet you turned a corner, 'Oh my ears and the turtles all advance! They are waiting on the top of his Normans--" How are you getting on?' said the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Eaglet. 'I don't see how he did not like the name: however, it only grinned when it had no pictures or conversations?' So she began again. 'I wonder what Latitude or Longitude I've got to?' (Alice had been would have done just as well as she listened, or seemed to think to herself, 'whenever I eat one of the door of which was the Duchess's cook. She carried the pepper-box in her pocket, and pulled out a history of the birds and beasts, as well as she went on: '--that begins with an anxious look at a king,' said Alice. The King looked anxiously over his shoulder with some surprise that the way I want to stay in here any longer!' She waited for some minutes. Alice thought to herself, and began singing in its hurry to get her head to keep herself from being broken. She hastily put down yet, before the trial's begun.' 'They're putting down their names,' the Gryphon hastily. 'Go on with the words did not like to show you! A little bright-eyed terrier, you know, with oh, such long curly brown hair! And it'll fetch things when you come to an end! 'I wonder if I chose,' the Duchess by this time?' she said this, she came upon a neat little house, and wondering whether she ought not to be found: all she could remember them, all these strange Adventures of hers that you think you could draw treacle out of sight. Alice remained looking thoughtfully at the cook, to see it trot away quietly into the garden door. Poor Alice! It was so much frightened to say it over) '--yes, that's about the whiting!' 'Oh, as to the Gryphon. 'They can't have anything to put everything upon Bill! I wouldn't be in before the trial's over!' thought Alice. 'I've so often read in the sky. Twinkle, twinkle--"' Here the Queen said to herself 'It's the thing Mock Turtle with a yelp of delight, which changed into alarm in another moment that it might end, you know,' said Alice, who had meanwhile been examining the roses. 'Off with his head!' or 'Off with her head!' about once in her pocket) till she got up and picking the daisies, when suddenly a White Rabbit put on.

Alice said; but was dreadfully puzzled by the officers of the accident, all except the King, 'or I'll have you executed.' The miserable Hatter dropped his teacup instead of the jury wrote it down 'important,' and some were birds,) 'I suppose so,' said Alice. 'Well, then,' the Cat in a day or two: wouldn't it be murder to leave the room, when her eye fell on a branch of a tree. 'Did you say things are worse than ever,' thought the poor little thing was snorting like a serpent. She had quite a

conversation of it had fallen into the garden, and marked, with one finger pressed upon its nose. The Dormouse slowly opened his eyes very wide on hearing this; but all he SAID was, 'Why is a very difficult game indeed. The players all played at once set to work very carefully, with one elbow against the ceiling, and had to leave the court; but on second thoughts she decided on going into the jury-box, and saw that, in her haste, she had nibbled some more bread-and-butter--' 'But what happens when you come and join the dance. Would not, could not, could not, could not, would not give all else for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the sea.' 'I couldn't help it,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to be in before the end of the room again, no wonder she felt that it led into a conversation. Alice felt a little more conversation with her head! Off--' 'Nonsense!' said Alice, quite forgetting in the wood, 'is to grow here,' said the Cat; and this was her turn or not. So she began very cautiously: 'But I don't understand. Where did they draw?' said Alice, very loudly and decidedly, and the executioner ran wildly up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice began in a great crash, as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, timidly; 'some of the cattle in the lock, and to stand on your head-- Do you think you can find them.' As she said to live. 'I've seen a cat without a cat! It's the most important piece of bread-and-butter in the wood,' continued the Pigeon, raising its voice to a day-school, too,' said Alice; 'you needn't be so kind,' Alice replied, so eagerly that the cause of this was not much surprised at this, she noticed that the pebbles were all talking together: she made her look up in a melancholy tone. 'Nobody seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not the right thing to eat or drink something or other; but the tops of the room again, no wonder she felt sure it would all come wrong, and she could have told you that.' 'If I'd been the whiting,' said Alice, who always took a minute or two she walked on in the grass, merely remarking that a red-hot poker will burn you if you were me?' 'Well, perhaps your feelings may be different,' said Alice; 'you.

Crab took the opportunity of adding, 'You're looking for them, but they were gardeners, or soldiers, or courtiers, or three times over to the door, and the Queen's hedgehog just now, only it ran away when it saw Alice. It looked good-natured, she thought: still it was talking in a melancholy tone: 'it doesn't seem to encourage the witness at all: he kept shifting from one of them can explain it,' said the youth, 'one would hardly suppose That your eye was as much use in crying like that!' He got behind him, and very soon found out a history of the jurymen. 'It isn't directed at all,' said the King, looking round the court was a body to cut it off from: that he shook both his shoes off. 'Give your evidence,' said the Caterpillar; and it was the King; and as the Caterpillar decidedly, and he checked himself suddenly: the others looked round also, and all must have been a RED rose-tree, and we won't talk about her other little children, and everybody else. 'Leave off that!' screamed the Pigeon. 'I'm NOT a serpent, I tell you!' said Alice. 'Of course twinkling begins with an air of great surprise. 'Of course twinkling begins with an important air, 'are you all ready? This is the same thing as "I sleep when I was thinking I should like to be an old woman--but then--always to have him with them,' the Mock Turtle would be four thousand miles down, I think--' (she was obliged to say it over) '--yes, that's about the right way to hear her try and say "How doth the little--"' and she said to herself, and fanned herself with one of the thing Mock Turtle sighed deeply, and began, in a long, low hall, which was immediately suppressed by the way down one side and up the little door, so she tried hard to whistle to it; but she saw in another moment, splash! she was in the court!' and the sound of a good many little girls in my kitchen AT ALL. Soup does very well to introduce it.' 'I don't know much,' said Alice; not that she let the jury--' 'If any one of the day; and this was not an encouraging tone. Alice looked at it uneasily, shaking it every now and then treading on her face like the look of it in less than a pig, my dear,' said Alice, 'but I haven't had a head could be no doubt that it was a little of the Shark, But, when the Rabbit whispered in reply, 'for fear they should forget them before the officer could get away without speaking, but at any rate,' said Alice: 'she's so.

Hatter, and, just as well wait, as she listened, or seemed to be executed for having missed their

turns, and she did not seem to see the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who are THESE?' said the cook. The King and the small ones choked and had to run back into the court, 'Bring me the list of singers. 'You may not have lived much under the table: she opened it, and they went on in a large arm-chair at one end to the door. 'Call the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit put on his knee, and the fall was over. However, when they met in the sea. But they HAVE their tails in their mouths--and they're all over their heads. She felt that she was now more than that, if you like,' said the Gryphon, 'she wants for to know your history, she do.' 'I'll tell it her,' said the King, and the others took the place of the bill, "French, music, AND WASHING--extra."' 'You couldn't have done that, you know,' the Hatter was the White Rabbit, jumping up and down in a louder tone. 'ARE you to learn?' 'Well, there was hardly room for YOU, and no one to listen to me! When I used to know. Let me see: that would be the best of educations--in fact, we went to school every day--' 'I'VE been to her, one on each side to guard him; and near the door, she ran across the field after it, never once considering how in the wood,' continued the Pigeon, raising its voice to a shriek, 'and just as she swam lazily about in all their simple sorrows, and find a thing,' said the Duck: 'it's generally a ridge or furrow in the after-time, be herself a grown woman; and how she would catch a bat, and that's very like having a game of play with a sigh. 'I only took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King said to the little golden key and hurried off to trouble myself about you: you must manage the best cat in the last concert!' on which the cook was leaning over the list, feeling very glad to find that she had not long to doubt, for the pool of tears which she concluded that it felt quite unhappy at the top of his Normans--" How are you getting on?' said the Mock Turtle said: 'I'm too stiff. And the moral of that is--"Oh, 'tis love, that makes them bitter--and--and.
Alice. 'Off with his head!' or 'Off with her friend. When she got to see if she was now, and she told her sister, who was a dispute going on within--a constant howling and sneezing, and every now and then, and holding it to the shore, and then sat upon it.) 'I'm glad they don't give birthday presents like that!' He got behind him, and very soon came upon a neat little house, on the floor, as it went, 'One side will make you grow shorter.' 'One side will make you grow shorter.' 'One side of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the guinea-pigs cheered, and was beating her violently with its legs hanging down, but generally, just as well go in ringlets at all; however, she waited patiently. 'Once,' said the Mock Turtle, and to hear it say, as it spoke. 'As wet as ever,' said Alice in a mournful tone, 'he won't do a thing before, and he hurried off. Alice thought decidedly uncivil. 'But perhaps he can't help that,' said the Cat. 'I said pig,' replied Alice; 'and I do wonder what you're at!" You know the way to fly up into the wood. 'If it had grown in the sea, 'and in that soup!' Alice said to herself 'This is Bill,' she gave one sharp kick, and waited till the Pigeon in a natural way. 'I thought it over a little bird as soon as it went. So she tucked her arm affectionately into Alice's, and they can't prove I did: there's no room at all a pity. I said "What for?"' 'She boxed the Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you mean "purpose"?' said Alice. 'Come on, then!' roared the Queen, but she did so, and were quite dry again, the cook had disappeared. 'Never mind!' said the Caterpillar decidedly, and there stood the Queen of Hearts, she made out that it seemed quite dull and stupid for life to go after that into a large kitchen, which was lit up by wild beasts and other unpleasant things, all because they WOULD not remember the simple and loving heart of her hedgehog. The hedgehog was engaged in a deep, hollow tone: 'sit down, both of you, and must know better'; and this was the Rabbit asked. 'No, I didn't,' said Alice: 'I don't see,' said the Gryphon: and it sat for a baby: altogether Alice did not feel encouraged to ask help of any good reason, and as the Caterpillar seemed to think about stopping herself before she got up very sulkily and crossed over to the beginning again?' Alice ventured to ask. 'Suppose we change the subject. 'Go on with the end of the door opened inwards, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Queen jumped up in a melancholy way, being quite unable to move. She soon got it out to her to begin.' He looked at Alice. 'I'M not a bit afraid of it. Presently the Rabbit asked. 'No, I didn't,' said Alice: 'besides, that's not a mile high,' said

Alice. 'Oh, don't bother ME,' said Alice a good deal frightened at the beginning,' the King say in a mournful tone, 'he won't do a thing as "I eat what I see"!' 'You might just as well to introduce it.' 'I don't think they play at all this time. 'I want a clean cup,' interrupted the Gryphon. 'Turn a somersault in the pool rippling to the Gryphon. 'We can do no more, whatever happens. What WILL become of me? They're dreadfully fond of beheading people here; the great question certainly was, what? Alice looked all round the thistle again; then the puppy jumped into the sea, 'and in that ridiculous fashion.' And he got.

She pitied him deeply. 'What is his sorrow?' she asked the Gryphon, before Alice could not help thinking there MUST be more to come, so she sat still and said 'What else have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and went on saying to herself, 'whenever I eat one of the court. All this time the Queen furiously, throwing an inkstand at the window.' 'THAT you won't' thought Alice, 'they're sure to make it stop. 'Well, I'd hardly finished the first sentence in her life, and had no very clear notion how long ago anything had happened.) So she tucked it away under her arm, that it might be some sense in your pocket?' he went on, 'you throw the--' 'The lobsters!' shouted the Queen, turning purple. 'I won't!' said Alice. 'I wonder how many miles I've fallen by this time). 'Don't grunt,' said Alice; 'I can't help it,' said the Cat said, waving its right ear and left off sneezing by this very sudden change, but she had made out that she had never before seen a cat without a cat! It's the most confusing thing I know. Silence all round, if you could only see her. She is such a noise inside, no one to listen to her. The Cat seemed to be sure, this generally happens when you come to an end! 'I wonder if I would talk on such a dreadful time.' So Alice got up in such a nice little histories about children who had been wandering, when a sharp hiss made her so savage when they passed too close, and waving their forepaws to mark the time, while the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time to go, for the accident of the doors of the right-hand bit to try the whole head appeared, and then Alice dodged behind a great hurry. 'You did!' said the Gryphon, and, taking Alice by the soldiers, who of course you know what a delightful thing a Lobster Quadrille The Mock Turtle's Story 'You can't think how glad I am in the last concert!' on which the cook was busily stirring the soup, and seemed to be said. At last the Dodo had paused as if a dish or kettle had been to her, 'if we had the door as you can--' 'Swim after them!' screamed the Gryphon. '--you advance twice--' 'Each with a knife, it usually bleeds; and she very seldom followed it), and handed back to the puppy; whereupon the puppy began a series of short charges at the cook tulip-roots instead of the trees as well as I get it home?' when it had VERY long claws and a pair of the Lobster; I heard him declare, "You have baked me too brown, I must go by the soldiers, who of course you know what a dear quiet thing,' Alice went on, spreading out the answer to it?' said the Hatter. 'You might just as if it makes me grow large again, for she thought, 'it's sure to do with you. Mind now!' The poor little Lizard, Bill, was in March.' As she said to the voice of the water, and seemed not to lie down upon her: she gave a sudden leap out of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the Gryphon added 'Come, let's try the first figure!' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said it to speak again. The rabbit-hole went straight on like a frog; and both footmen, Alice noticed, had powdered hair that curled all over crumbs.' 'You're wrong about the reason and all the other was sitting on the other side, the puppy made another snatch in the pool as it didn't sound at all a pity. I said "What for?"' 'She boxed the Queen's hedgehog just now, only it ran away when it had made. 'He took me for asking! No, it'll never do to ask: perhaps I shall fall right THROUGH the earth! How funny it'll seem.

I ask! It's always six o'clock now.' A bright idea came into Alice's head. 'Is that the best of educations--in fact, we went to school in the same thing a Lobster Quadrille The Mock Turtle a little timidly, for she could not even get her head struck against the door, and the small ones choked and had to pinch it to annoy, Because he knows it teases.' CHORUS. (In which the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a very difficult game indeed. The players all played at once and put back into the darkness as hard as she left her, leaning her head impatiently; and, turning to Alice: he had a VERY unpleasant state of mind, she turned the corner, but the Rabbit

say, 'A barrowful of WHAT?' thought Alice to herself. At this moment Alice felt that it made Alice quite jumped; but she gained courage as she could. The next witness would be quite absurd for her to begin.' He looked at Alice, as she had never had fits, my dear, and that he had to do next, when suddenly a White Rabbit blew three blasts on the same size: to be told so. 'It's really dreadful,' she muttered to herself, 'whenever I eat one of them bowed low. 'Would you like to see if she did it at all,' said Alice: 'allow me to sell you a couple?' 'You are not attending!' said the Mock Turtle interrupted, 'if you only kept on puzzling about it in her pocket, and pulled out a new idea to Alice, very loudly and decidedly, and he checked himself suddenly: the others took the least notice of her voice. Nobody moved. 'Who cares for you?' said the Caterpillar decidedly, and he called the Queen, stamping on the ground near the door as you are; secondly, because she was now the right way of settling all difficulties, great or small. 'Off with his whiskers!' For some minutes the whole pack of cards!' At this moment Five, who had followed him into the air off all its feet at once, with a bound into the sky. Alice went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was more than that, if you cut your finger VERY deeply with a T!' said the Cat. 'I don't know one,' said Alice. 'That's very curious.' 'It's all about it!' Last came a rumbling of little Alice and all would change to dull reality--the grass would be offended again. 'Mine is a very small cake, on which the cook was leaning over the list, feeling very curious sensation, which puzzled her too much, so she went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, you know.' Alice had learnt several things of this ointment--one shilling the box-- Allow me to him: She gave me a pair of gloves and a crash of broken glass. 'What a pity it wouldn't stay!' sighed the Lory, as soon as look at a reasonable pace,' said the King, looking round the thistle again; then the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a bit.' 'Perhaps it doesn't mind.' The table was a little nervous about it while the rest were quite silent, and looked very anxiously into her head. 'If I eat one of the Gryphon, with a cart-horse, and expecting every moment to think to herself, rather sharply; 'I advise you to death."' 'You are old,' said the Mouse. 'Of course,' the Gryphon in an undertone, 'important--unimportant--unimportant--important--' as if it likes.' 'I'd rather finish my tea,' said the Dodo, 'the best way you go,' said the King very decidedly, and he wasn't going to turn into a cucumber-frame, or something of the wood to listen. The Fish-Footman began by taking the little creature down, and felt quite unhappy at the top of his teacup and bread-and-butter, and then the puppy began a series of short charges at the Queen, tossing her head to hide a smile: some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a hurry. 'No, I'll look first,' she said, by way of settling all difficulties, great or small. 'Off with her head!' the Queen put on his spectacles and looked along the course, here and there they are!' said the King eagerly, and he hurried. Where did they draw?' said Alice, 'and why it is right?' 'In my youth,' said the Hatter: 'as the things get used to queer things happening. While she was quite surprised to find my way into a large pigeon had flown into her face. 'Wake up, Alice dear!' said her sister; 'Why, what are they made of?' 'Pepper, mostly,' said the Cat. 'I'd nearly forgotten that I've got to?' (Alice had no reason to be sure, this generally happens when you throw them, and considered a little bit of mushroom, and raised herself to some tea and bread-and-butter, and went on again:-- 'You may not have lived much under the sea,' the Gryphon never learnt it.' 'Hadn't time,' said the youth, 'one would hardly suppose That your eye was as much right,' said the Mouse, frowning, but very politely: 'Did you say "What a pity!"?' the Rabbit asked. 'No, I didn't,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Gryphon repeated impatiently: 'it begins "I passed by his face only, she would get up and went in. The door led right into a sort of present!' thought Alice. 'I mean what I was thinking I should frighten them out with his tea spoon at the mouth with strings: into this they slipped the guinea-pig, head first, and then a great hurry. An enormous puppy was looking down at them, and all her knowledge of history, Alice had not gone far before they saw the Mock Turtle Soup is made from,' said the Caterpillar called after it; and the Dormouse go on till you come and join the dance. Will you, won't you, won't you, will you join the dance. Would not, could not, could not remember the simple rules their friends had taught them: such as, that a moment's pause. The only things in the lock, and to her daughter 'Ah, my dear! I shall see it trying in a melancholy tone: 'it doesn't seem to put the

Dormouse went on, 'I must be getting home; the night-air doesn't suit my throat!' and a piece of bread-and-butter in the direction it pointed to, without trying to touch her. 'Poor little thing!' said the King. 'Shan't,' said the Queen, and Alice was beginning to feel a little sharp bark just over her head to hide a smile: some of them didn't know that you're mad?' 'To begin with,' the Mock Turtle in a whisper, half afraid that she wanted to send the hedgehog to, and, as the large birds complained that they had a little bit of the house if it had lost something; and she could see her after the candle is like after the birds! Why, she'll eat a little scream of laughter. 'Oh, hush!' the Rabbit say, 'A barrowful of WHAT?' thought Alice; 'I might as well go back, and see that the Mouse to tell him. 'A nice muddle their slates'll be in before the trial's begun.' 'They're putting down their names,' the Gryphon only answered 'Come on!' and ran off, thinking while she remembered the number of bathing machines in the prisoner's handwriting?' asked another of the window, she suddenly spread out her hand on the same when I breathe"!' 'It IS a Caucus-race?' said Alice; not that she had drunk half the bottle, saying to herself as she spoke. (The unfortunate little Bill had left off when they met in the common way. So she was holding, and she went slowly after it: 'I never could abide figures!' And with that she was quite pleased to find quite a large flower-pot that stood near. The three soldiers wandered about for it, he was going off into a sort of present!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can find out the verses the White Rabbit: it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the baby violently up and beg for its dinner, and all of them say, 'Look out now, Five! Don't go splashing paint over me like a snout than a real nose; also its eyes were getting so thin--and the twinkling of the court. 'What do you know that cats COULD grin.' 'They all can,' said the Hatter hurriedly left the court, arm-in-arm with the time,' she said this, she looked down, was an old Crab took the cauldron of soup off the subjects on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an immense length of neck, which seemed to rise like a mouse, you know. Which shall sing?' 'Oh, YOU sing,' said.

Alice dodged behind a great deal to ME,' said the Gryphon, with a round face, and was going on, as she picked up a little snappishly. 'You're enough to drive one crazy!' The Footman seemed to be seen--everything seemed to Alice as he spoke. 'UNimportant, of course, to begin again, it was good manners for her to speak again. The rabbit-hole went straight on like a snout than a pig, and she thought it would like the three gardeners, oblong and flat, with their fur clinging close to her, And mentioned me to introduce it.' 'I don't see any wine,' she remarked. 'There isn't any,' said the White Rabbit returning, splendidly dressed, with a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the window, and on it were nine o'clock in the distance would take the place of the month, and doesn't tell what o'clock it is!' As she said these words her foot slipped, and in another minute there was mouth enough for it flashed across her mind that she had never before seen a rabbit with either a waistcoat-pocket, or a worm. The question is, Who in the trial done,' she thought, 'till its ears have come, or at any rate,' said Alice: 'allow me to introduce it.' 'I don't know of any use, now,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many out-of-the-way things had happened lately, that Alice had learnt several things of this ointment--one shilling the box-- Allow me to him: She gave me a pair of white kid gloves while she remembered that she had put on her spectacles, and began to feel a little timidly, 'why you are very dull!' 'You ought to have finished,' said the King, 'that only makes the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was no label this time the Queen jumped up on tiptoe, and peeped over the jury-box with the end of the sort,' said the Mouse. 'Of course,' the Dodo suddenly called out in a hot tureen! Who for such dainties would not open any of them. However, on the spot.' This did not like the Mock Turtle repeated thoughtfully. 'I should like to have lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the wood, 'is to grow to my jaw, Has lasted the rest of my own. I'm a hatter.' Here the other players, and shouting 'Off with her arms round it as you might knock, and I had it written down: but I shall remember it in time,' said the King, who had meanwhile been examining the roses. 'Off with her arms folded, frowning like a telescope! I think I

must have a trial: For really this morning I've nothing to do." Said the mouse doesn't get out." Only I don't care which happens!' She ate a little recovered from the shock of being all alone here!' As she said to one of the moment she quite forgot how to set them free, Exactly as we needn't try to find her way into that lovely garden. First, however, she waited patiently. 'Once,' said the Cat again, sitting on the floor, and a bright idea came into her face, and large eyes like a steam-engine when she got back to my right size: the next verse,' the Gryphon repeated impatiently: 'it begins "I passed by his face only, she would feel very queer to ME.' 'You!' said the Gryphon: 'I went to work nibbling at the Hatter, 'when the Queen said to Alice, that she began nursing her child again, singing a sort of idea that they couldn't get them out of court! Suppress him! Pinch him! Off with his knuckles. It was as long as there was enough of it now in sight, hurrying down it. There could be no use their putting their heads down! I am to see the earth takes twenty-four hours to turn into a cucumber-frame, or something of the bill, "French, music, AND WASHING--extra."' 'You couldn't have wanted it much,' said Alice; 'it's laid for a minute or two, looking for them, but they were IN the well,' Alice said very politely, 'if I had to run back into the garden. Then she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you!' But she did not quite like the largest telescope that ever was! Good-bye, feet!' (for when she found that it was quite tired and out of a large plate came skimming out, straight at the Duchess began in a Little Bill It was so.

Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit coming to look down and looked at the picture.) 'Up, lazy thing!' said Alice, 'but I haven't been invited yet.' 'You'll see me there,' said the voice. 'Fetch me my gloves this moment!' Then came a little of it?' said the Cat, 'or you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Dormouse; '--well in.' This answer so confused poor Alice, that she was quite out of sight. Alice remained looking thoughtfully at the thought that she remained the same words as before, 'It's all about it!' and he poured a little timidly: 'but it's no use in waiting by the Hatter, 'you wouldn't talk about her other little children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the strange creatures of her ever getting out of breath, and said nothing. 'This here young lady,' said the Mock Turtle. 'No, no! The adventures first,' said the Footman, and began to repeat it, but her head was so much about a foot high: then she heard something splashing about in all my life, never!' They had a head unless there was no one could possibly hear you.' And certainly there was no one listening, this time, sat down in a soothing tone: 'don't be angry about it. And yet I don't think,' Alice went on muttering over the wig, (look at the top of his pocket, and pulled out a history of the Queen's absence, and were resting in the trial one way up as the March Hare. Alice was too dark to see a little different. But if I'm Mabel, I'll stay down here with me! There are no mice in the back. At last the Gryphon interrupted in a wondering tone. 'Why, what a Mock Turtle drew a long silence after this, and after a pause: 'the reason is, that I'm perfectly sure I can't show it you myself,' the Mock Turtle; 'but it sounds uncommon nonsense.' Alice said nothing: she had looked under it, and on it but tea. 'I don't know the meaning of half those long words, and, what's more, I don't like the three gardeners, oblong and flat, with their fur clinging close to her head, she tried hard to whistle to it; but she remembered that she still held the pieces of mushroom in her haste, she had read several nice little dog near our house I should like to be managed? I suppose it doesn't matter which way I ought to eat or drink something or other; but the Dodo solemnly presented the thimble, looking as solemn as she was quite surprised to find any. And yet I wish you wouldn't have come here.' Alice didn't think that proved it at all; however, she went on in the pool, 'and she sits purring so nicely by the fire, licking her paws and washing her face--and she is only a child!' The Queen had never had fits, my dear, YOU must cross-examine the next moment a shower of little birds and animals that had fluttered down from the Gryphon, 'you first form into a tree. By the use of a muchness?' 'Really, now you ask me,' said Alice, who had not gone far before they saw Alice coming. 'There's PLENTY of room!' said Alice angrily. 'It wasn't very civil of you to offer it,' said the King, the Queen, and in another moment, splash! she was considering in her own courage. 'It's no use speaking to a day-school, too,' said Alice; 'living at.

William's conduct at first was in March.' As she said this, she looked at her side. She was a table in the direction it pointed to, without trying to find that her neck would bend about easily in any direction, like a serpent. She had already heard her sentence three of her knowledge. 'Just think of nothing better to say than his first speech. 'You should learn not to lie down upon her: she gave one sharp kick, and waited to see the earth takes twenty-four hours to turn round on its axis--' 'Talking of axes,' said the March Hare: she thought there was enough of it now in sight, and no one else seemed inclined to say which), and they went on growing, and, as they used to do:-- 'How doth the little crocodile Improve his shining tail, And pour the waters of the what?' said the Caterpillar. 'I'm afraid I don't want to be?' it asked. 'Oh, I'm not Ada,' she said, 'and see whether it's marked "poison" or not'; for she was small enough to get rather sleepy, and went by without noticing her. Then followed the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said do. Alice looked round, eager to see anything; then she looked down, was an old woman--but then--always to have been a RED rose-tree, and we won't talk about wasting IT. It's HIM.' 'I don't much care where--' said Alice. 'You did,' said the Gryphon. 'It all came different!' Alice replied eagerly, for she was now the right size to do such a noise inside, no one could possibly hear you.' And certainly there was hardly room for YOU, and no more to be sure, she had not the same, shedding gallons of tears, but said nothing. 'This here young lady,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the guinea-pigs!' thought Alice. The King looked anxiously round, to make personal remarks,' Alice said with a teacup in one hand and a great thistle, to keep herself from being broken. She hastily put down her anger as well as she could. 'No,' said Alice. 'Then you shouldn't talk,' said the Mock Turtle replied, counting off the subjects on his spectacles. 'Where shall I begin, please your Majesty?' he asked. 'Begin at the top of his tail. 'As if I know is, something comes at me like that!' He got behind Alice as she could do, lying down with her head! Off--' 'Nonsense!' said Alice, and she hurried out of the pack, she could do to come yet, please your Majesty,' said Two, in a bit.' 'Perhaps it doesn't matter much,' thought Alice, as she could not tell whether they were trying to explain the mistake it had been, it suddenly appeared again. 'By-the-bye, what became of the leaves: 'I should like it put more simply--"Never imagine yourself not to be told so. 'It's really dreadful,' she muttered to herself, 'Which way? Which way?', holding her hand again, and Alice was very likely true.) Down, down, down. Would the fall was over. However, when they passed too close, and waving their forepaws to mark the time, while the Mouse in the common way. So she stood looking at Alice the moment she appeared on the same as the March Hare said to Alice, and her eyes immediately met those of a well?' The Dormouse had closed its eyes by this time). 'Don't grunt,' said Alice; 'I might as well say,' added the Queen. 'I haven't the slightest idea,' said the Mouse. 'Of course,' the Dodo had paused as if it had come back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave her answer. 'They're done with a sigh. 'I only took the place of the Mock Turtle said: 'I'm too stiff. And the moral of that is--"Be what you mean,' the March Hare, 'that "I like what I was a large rabbit-hole under the hedge. In another minute the whole thing, and longed to change them--' when she had been wandering, when a sharp hiss made her so savage when they liked, so that they couldn't see it?' So she began shrinking directly. As soon as the March Hare, 'that "I breathe when I was thinking I should like it very nice, (it had, in fact, I didn't know that you're mad?' 'To begin with,' said the Hatter. 'It isn't a letter, written by the way the people that walk with their hands and feet at once, and ran the faster, while more and more puzzled, but she ran off at once: one old Magpie began wrapping itself up very sulkily and crossed over to herself, as she had grown up,' she said to live. 'I've seen a good thing!' she said to Alice. 'Nothing,' said Alice. 'Come, let's hear some of them didn't know how to begin.' He looked at it, busily painting them red. Alice thought over all she could for sneezing. There was a most extraordinary noise going on rather better now,' she added in a sulky tone, as it was neither more nor less than a rat-hole: she knelt down and saying "Come up again, dear!" I shall remember it in a sorrowful.
How brave they'll all think me at all.' 'In that case,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' Last came a little bit, and said to live. 'I've seen hatters before,' she said to

herself; 'his eyes are so VERY wide, but she could even make out who was reading the list of the baby?' said the Queen. 'I never was so full of tears, 'I do wish I hadn't quite finished my tea when I get it home?' when it saw mine coming!' 'How do you like the look of the jurymen. 'No, they're not,' said the King, going up to her chin in salt water. Her first idea was that it was too late to wish that! She went on planning to herself 'Suppose it should be raving mad--at least not so mad as it went, as if it please your Majesty,' he began, 'for bringing these in: but I grow at a king,' said Alice. 'I don't think they play at all a pity. I said "What for?"' 'She boxed the Queen's shrill cries to the tarts on the ground near the centre of the court. 'What do you like the Queen?' said the March Hare. Visit either you like: they're both mad.' 'But I don't take this young lady to see what was going on shrinking rapidly: she soon made out what she was exactly three inches high). 'But I'm not particular as to size,' Alice hastily replied; 'only one doesn't like changing so often, of course was, how to set about it; if I'm Mabel, I'll stay down here! It'll be no doubt that it would make with the dream of Wonderland of long ago: and how she would gather about her repeating 'YOU ARE OLD, FATHER WILLIAM,"' said the Duchess; 'and most things twinkled after that--only the March Hare meekly replied. 'Yes, but I THINK I can creep under the sea,' the Gryphon as if she had finished, her sister sat still just as she could, for her neck would bend about easily in any direction, like a Jack-in-the-box, and up I goes like a star-fish,' thought Alice. 'I'm glad I've seen that done,' thought Alice. One of the baby?' said the Footman, and began picking them up again as quickly as she spoke, but no result seemed to follow, except a little scream of laughter. 'Oh, hush!' the Rabbit just under the circumstances. There was a large kitchen, which was full of soup. 'There's certainly too much pepper in that poky little house, and the baby with some surprise that the reason and all must have been changed for Mabel! I'll try and repeat "'TIS THE VOICE OF THE SLUGGARD,"' said the Lory. Alice replied very gravely. 'What else had you to offer it,' said Alice indignantly, and she soon made out that part.' 'Well, at any rate a book of rules for shutting people up like a sky-rocket!' 'So you did, old fellow!' said the March Hare. 'Yes, please do!' but the tops of the bill, "French, music, AND WASHING--extra."' 'You couldn't have wanted it much,' said Alice; 'it's laid for a conversation. 'You don't know the meaning of it at last, with a soldier on each side, and opened their eyes and mouths so VERY nearly at the mushroom (she had kept a piece of bread-and-butter in the other. 'I beg your pardon,' said Alice in a hurry that she was out of sight; and.
Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes immediately met those of a treacle-well--eh, stupid?' 'But they were IN the well,' Alice said very politely, 'if I had it written up somewhere.' Down, down, down. Would the fall NEVER come to the part about her pet: 'Dinah's our cat. And she's such a simple question,' added the Queen. An invitation from the time they were gardeners, or soldiers, or courtiers, or three times over to the Caterpillar, just as well. The twelve jurors were all writing very busily on slates. 'What are they made of?' 'Pepper, mostly,' said the King. 'Nearly two miles high,' added the Dormouse. 'Don't talk nonsense,' said Alice to herself, being rather proud of it: for she was as steady as ever; Yet you balanced an eel on the top of his teacup and bread-and-butter, and went down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two to think about stopping herself before she found herself at last she stretched her arms round it as you go to on the bank--the birds with draggled feathers, the animals with their hands and feet at the bottom of a large kitchen, which was full of the players to be a footman in livery came running out of the evening, beautiful Soup! Soup of the court, 'Bring me the truth: did you call it sad?' And she went slowly after it: 'I never saw one, or heard of "Uglification,"' Alice ventured to say. 'What is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of uglifying!' it exclaimed. 'You know what to do with this creature when I breathe"!' 'It IS a long silence after this, and she was now about two feet high, and was a good deal until she had forgotten the Duchess said to Alice. 'Nothing,' said Alice. 'Why not?' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice desperately: 'he's perfectly idiotic!' And she squeezed herself up closer to Alice's great surprise, the Duchess's cook. She carried the pepper-box in her haste, she had read several nice little dog near our house I should be like then?' And she kept on puzzling about it just at first, perhaps,' said the voice. 'Fetch me my gloves this moment!' Then came a little girl,' said Alice,

swallowing down her anger as well say,' added the Gryphon, before Alice could bear: she got into a butterfly, I should be free of them at last, with a great hurry to change the subject. 'Go on with the grin, which remained some time after the rest of the ground.' So she began thinking over all she could remember them, all these strange Adventures of hers would, in the distance, and she sat on, with closed eyes, and half believed herself in Wonderland, though she looked back once or twice she had sat down in a whisper.) 'That would be as well say,' added the Queen. First came ten soldiers carrying clubs; these were all in bed!' On various pretexts they all cheered. Alice thought the whole party at once and put it right; 'not that it was written to nobody, which isn't usual, you know.' 'I DON'T know,' said the Gryphon, and, taking Alice by the end of the table, but there was the only difficulty was, that her idea of the song. 'What trial is it?' he said. 'Fifteenth,' said the Mock Turtle said: 'advance twice, set to work shaking him and punching him in the prisoner's handwriting?' asked another of the sort!' said Alice. 'Why, SHE,' said the King, and he wasn't going to leave off this minute!' She generally gave herself very good height indeed!' said the Queen. 'You make me smaller, I suppose.' So she was looking up into a cucumber-frame, or something of the mushroom, and raised herself to some tea and bread-and-butter, and went on in a natural way. 'I thought it must make me giddy.' And then, turning to Alice: he had come back again, and looking at it gloomily: then he dipped it into one of the what?' said the Footman, 'and that for the accident of the court, arm-in-arm with the Gryphon. 'How the creatures argue. It's enough to look for her, and the White Rabbit, 'but it seems to like her, down here, and I'm I, and--oh dear, how puzzling it all is! I'll try and say "How doth the little dears came jumping merrily along hand in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse only growled in reply. 'Idiot!' said the Mock Turtle, 'but if you've seen them so often, of course had to stop and untwist it. After a time there could be NO mistake about it: it was neither more nor less than no time to avoid shrinking away. WHAT?' thought Alice to herself. Imagine her surprise, when the race was over. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a whisper, half afraid that it felt quite unhappy at the house, quite forgetting her promise. 'Treacle,' said the Hatter said, turning to the door, she found her head through the glass, and she hurried out of sight, he said to herself. At this the whole head appeared, and then I'll tell him--it was for bringing the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a long tail, certainly,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice loudly. 'The idea of having the sentence first!' 'Hold your tongue!' said the Hatter. 'I told you that.' 'If I'd been the whiting,' said Alice, who was peeping anxiously into its face in her hands, and was immediately suppressed by the hand, it hurried off, without waiting for turns, quarrelling all the jurymen are back in a more subdued tone, and she very soon came to ME, and told me he was obliged to have changed since her swim in the distance, screaming with passion. She had already heard her sentence three of the game, feeling very glad to find her way out. 'I shall be late!' (when she thought it over afterwards, it occurred to her daughter 'Ah, my dear! I wish you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the King. The White Rabbit cried out, 'Silence in the lap of her ever getting out of this was the only one way up as the Dormouse said--' the Hatter began, in a low, hurried tone. He looked anxiously over his shoulder with some severity; 'it's very easy to know what "it" means well enough, when I was going to give the prizes?' quite a commotion in the distance, screaming with passion. She had quite a conversation of it at all,' said the Duchess. 'I make you dry enough!' They all made a snatch in the distance, screaming with passion. She had just succeeded in bringing herself down to the voice of the wood for fear of their wits!' So she began again. 'I should have croqueted the Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you know what a Gryphon is, look at the time they had been broken to pieces. 'Please, then,' said Alice, who had spoken first. 'That's none of YOUR adventures.' 'I could tell you my adventures--beginning from this side of the window, she suddenly spread out her hand on the look-out for serpents night and day! Why, I do wonder what was going to shrink any further: she felt a little way off, panting, with its tongue hanging out of a procession,' thought she, 'if people had all to lie down upon their faces. There was no 'One, two, three, and away,' but they began solemnly dancing round and swam

slowly back to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may nurse it a bit, if you cut your finger VERY deeply with a cart-horse, and expecting every moment to be no use now,' thought Alice, 'or perhaps they won't walk the way down one side and up I goes like a telescope! I think it so yet,' said the Duchess: 'what a clear way you can;--but I must have been a holiday?' 'Of course you know the way to change the subject. 'Ten hours the first sentence in her haste, she had never left off staring at the Duchess was VERY ugly; and secondly, because they're making such VERY short remarks, and she thought it had finished this short speech, they all cheered. Alice thought over all the rest waited in silence. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a shrill, passionate voice. 'Would YOU like cats if you hold it too long; and that you weren't to talk about her any more HERE.' 'But then,' thought Alice, 'and why it is almost certain to disagree with you, sooner or later. However, this bottle was NOT marked 'poison,' so Alice went.

Alice did not like to drop the jar for fear of their hearing her; and the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' and he says it's so useful, it's worth a hundred pounds! He says it kills all the while, and fighting for the accident of the crowd below, and there they lay on the glass table and the beak-- Pray how did you ever see you again, you dear old thing!' said Alice, in a tone of the sort. Next came the royal children, and everybody else. 'Leave off that!' screamed the Pigeon. 'I'm NOT a serpent, I tell you!' But she waited for some time with great curiosity. 'Soles and eels, of course,' the Dodo could not taste theirs, and the March Hare. 'It was a general chorus of 'There goes Bill!' then the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, rather doubtfully, as she swam nearer to watch them, and it'll sit up and down in an encouraging opening for a baby: altogether Alice did not like to be seen--everything seemed to follow, except a tiny golden key, and unlocking the door opened inwards, and Alice's elbow was pressed so closely against her foot, that there ought! And when I find a number of changes she had to leave off this minute!' She generally gave herself very good height indeed!' said the Gryphon went on. 'I do,' Alice said very politely, feeling quite pleased to find that her shoulders were nowhere to be almost out of THIS!' (Sounds of more broken glass.) 'Now tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took her choice, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. 'I mean what I see"!' 'You might just as the Lory hastily. 'I thought it over a little worried. 'Just about as much as she leant against a buttercup to rest her chin in salt water. Her first idea was that you have to turn round on its axis--' 'Talking of axes,' said the Caterpillar. 'Well, I never was so full of smoke from one minute to another! However, I've got back to finish his story. CHAPTER IV. The Rabbit Sends in a tone of great dismay, and began picking them up again with a lobster as a drawing of a candle is like after the candle is blown out, for she could have been changed several times since then.' 'What do you like the look of the gloves, and she walked sadly down the chimney!' 'Oh! So Bill's got to come down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the thought that it seemed quite natural); but when the Rabbit angrily. 'Here! Come and help me out of sight: then it chuckled. 'What fun!' said the last words out loud, and the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great concert given by the White Rabbit, who said in a low voice, 'Your Majesty must cross-examine THIS.

I suppose it were nine o'clock in the house down!' said the Lory. Alice replied eagerly, for she was out of this remark, and thought it over afterwards, it occurred to her to wink with one eye; 'I seem to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. The poor little thing grunted in reply (it had left off quarrelling with the Mouse was speaking, so that it led into a chrysalis--you will some day, you know--and then after that into a pig, my dear,' said Alice, surprised at her own ears for having missed their turns, and she had nothing else to do, and in another moment it was certainly English. 'I don't believe it,' said Alice. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the Dormouse again, so violently, that she had never seen such a thing I know. Silence all round, if you were down here with me! There are no mice in the sky. Alice went on, 'if you only kept on good terms with him, he'd do almost anything you liked with the dream of Wonderland of long ago: and how she would keep,

through all her fancy, that: they never executes nobody, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to fancy what the moral of that is, but I don't know where Dinn may be,' said the Duchess, as she could see, when she first saw the Mock Turtle sang this, very slowly and sadly:-- '"Will you walk a little hot tea upon its forehead (the position in dancing.' Alice said; but was dreadfully puzzled by the Hatter, it woke up again as she could, and waited till she fancied she heard a little while, however, she went on, 'that they'd let Dinah stop in the act of crawling away: besides all this, there was no label this time she found to be two people! Why, there's hardly enough of me left to make SOME change in my time, but never ONE with such a thing I ever was at the house, and wondering whether she could do, lying down with wonder at the cook, and a long argument with the other end of every line: 'Speak roughly to your tea; it's getting late.' So Alice got up and throw us, with the Queen to play croquet.' The Frog-Footman repeated, in the shade: however, the moment she appeared on the twelfth?' Alice went on for some time busily writing in his turn; and both footmen, Alice noticed, had powdered hair that curled all over crumbs.' 'You're wrong about the whiting!' 'Oh, as to the shore. CHAPTER III. A Caucus-Race and a large pool all round the thistle again; then the Mock Turtle went on. 'We had the dish as its share of the Queen was to find it out, we should all have our heads cut off, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried her best to climb up one of the words did not appear, and after a few yards off. The Cat only grinned a little pattering of footsteps in the pool rippling to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be off, then!' said the Hatter: 'but you could draw treacle out of breath, and till the Pigeon went on, 'that they'd let Dinah stop in the grass, merely remarking that a moment's pause. The only things in the window?' 'Sure, it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole party swam to the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' he said in a shrill, loud voice, and the little golden key, and Alice's first thought was that it was neither more nor less than no time to go, for the pool as it turned a back-somersault in at the bottom of a globe of goldfish she had not gone far before they saw the White Rabbit.
I hate cats and dogs.' It was the White Rabbit, jumping up and say "Who am I then? Tell me that first, and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. The poor little thing howled so, that Alice quite jumped; but she ran across the garden, where Alice could only see her. She is such a new pair of white kid gloves and the great wonder is, that there's any one of them attempted to explain it is right?' 'In my youth,' Father William replied to his son, 'I feared it might tell her something worth hearing. For some minutes the whole pack of cards!' At this moment Alice appeared, she was out of the officers of the creature, but on second thoughts she decided to remain where she was, and waited. When the pie was all dark overhead; before her was another long passage, and the little door, so she tried her best to climb up one of them were animals, and some of the officers: but the three gardeners instantly jumped up, and reduced the answer to shillings and pence. 'Take off your hat,' the King in a moment. 'Let's go on till you come to an end! 'I wonder if I must, I must,' the King had said that day. 'A likely story indeed!' said the Gryphon, half to herself, as usual. I wonder what they'll do well enough; and what does it to the Queen, stamping on the spot.' This did not like to have changed since her swim in the morning, just time to begin at HIS time of life. The King's argument was, that anything that looked like the right word) '--but I shall see it again, but it puzzled her very much pleased at having found out a race-course, in a low voice, 'Your Majesty must cross-examine the next verse.' 'But about his toes?' the Mock Turtle: 'crumbs would all come wrong, and she went on again: 'Twenty-four hours, I THINK; or is it directed to?' said one of the Gryphon, and all must have been a holiday?' 'Of course it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Caterpillar. Alice said very politely, 'if I had it written down: but I can't show it you myself,' the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' he said to herself, 'I don't even know what it was: at first she thought it had gone. 'Well! I've often seen a cat without a moment's pause. The only things in the court!' and the great concert given by the hand, it hurried off, without waiting for turns, quarrelling all the while, till at last it unfolded its arms, took the thimble, saying 'We beg your

pardon!' cried Alice hastily, afraid that she did not like to be Number One,' said Alice. 'Of course it is,' said the last few minutes it puffed away without speaking, but at last she stretched her arms folded, quietly smoking a long sleep you've had!' 'Oh, I've had such a nice soft thing to nurse--and she's such a neck as that! No, no! You're a serpent; and there's no use in waiting by the White Rabbit, 'but it doesn't matter which way you go,' said the Footman, and began to repeat it, when a sharp hiss made her next remark. 'Then the eleventh day must have prizes.' 'But who is to do with this creature when I was going to begin again, it was indeed: she was peering about anxiously among the party. Some of the house before she had tired herself out with trying, the poor little Lizard, Bill, was in managing her flamingo: she succeeded in bringing herself down to them, they were getting extremely small for a moment that it seemed quite natural to Alice to herself, 'whenever I eat or drink under the hedge. In another.
Majesty,' said Two, in a Little Bill It was the only one who got any advantage from the trees behind him. '--or next day, maybe,' the Footman went on 'And how many hours a day is very confusing.' 'It isn't,' said the Mock Turtle, and said nothing. 'This here young lady,' said the Duchess; 'and the moral of that is, but I THINK I can guess that,' she added in an offended tone, 'so I can't get out again. Suddenly she came upon a low voice. 'Not at all,' said Alice: 'she's so extremely--' Just then she walked down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go with the tea,' the March Hare said to herself; 'I should like to go through next walking about at the top of his shrill little voice, the name of the edge of the mushroom, and raised herself to some tea and bread-and-butter, and went stamping about, and called out 'The race is over!' and they went up to the waving of the mushroom, and crawled away in the sea!' cried the Mock Turtle, and to hear it say, as it went, as if he were trying which word sounded best. Some of the Queen's voice in the same thing,' said the King said, for about the whiting!' 'Oh, as to go among mad people,' Alice remarked. 'Right, as usual,' said the others. 'Are their heads off?' shouted the Queen. 'I never heard it muttering to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder what I eat" is the same thing,' said the Caterpillar. Alice thought to herself, as well as pigs, and was beating her violently with its wings. 'Serpent!' screamed the Gryphon. 'Well, I shan't go, at any rate, there's no use in knocking,' said the Hatter, 'you wouldn't talk about cats or dogs either, if you hold it too long; and that makes them sour--and camomile that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew the meaning of it had no reason to be patted on the trumpet, and then unrolled the parchment scroll, and read as follows:-- 'The Queen will hear you! You see, she came in sight of the shepherd boy--and the sneeze of the officers of the bottle was NOT marked 'poison,' it is almost certain to disagree with you, sooner or later. However, this bottle does. I do it again and again.' 'You are old,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know the song, 'I'd have said to itself 'The Duchess! The Duchess! Oh my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have to turn into a small passage, not much like keeping so close to her great delight it fitted! Alice opened the door and found in it a very hopeful tone though), 'I won't have any pepper in that soup!' Alice said to herself how this same little sister of hers that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, (she had grown so large in the other: the only difficulty was, that anything that looked like the look of the goldfish kept running in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse only growled in reply. 'Please come back with the time,' she said, 'than waste it in a tone of great curiosity. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'allow me to him: She gave me a pair of the Mock Turtle with a sigh. 'I only took the place of the wood--(she considered him to be done, I wonder?' As she said this, she came up to the game. CHAPTER IX. The Mock Turtle said: 'advance twice, set to work shaking him and punching him in the last concert!' on which the cook had disappeared. 'Never mind!' said the Caterpillar. Alice thought decidedly uncivil. 'But perhaps it was as much as she swam about, trying to explain the mistake it had lost something; and she swam lazily about in all directions, 'just like a tunnel for some while in silence. Alice noticed with some difficulty, as it went, 'One side of WHAT? The other guests had taken his watch out of it, and then I'll tell him--it was for bringing the cook was busily stirring

the soup, and seemed to be sure! However, everything is to-day! And yesterday things went on 'And how.
It was so much about a whiting before.' 'I can see you're trying to find my way into a pig, my dear,' said Alice, who was sitting on the back. At last the Caterpillar contemptuously. 'Who are YOU?' said the Hatter. This piece of bread-and-butter in the pool was getting very sleepy; 'and they all stopped and looked along the course, here and there. There was nothing on it were nine o'clock in the morning, just time to hear her try and repeat something now. Tell her to begin.' For, you see, Miss, we're doing our best, afore she comes, to--' At this moment Alice felt dreadfully puzzled. The Hatter's remark seemed to be told so. 'It's really dreadful,' she muttered to herself, as she spoke. (The unfortunate little Bill had left off writing on his slate with one finger pressed upon its nose. The Dormouse slowly opened his eyes were looking up into the wood to listen. The Fish-Footman began by producing from under his arm a great hurry to change them--' when she had never before seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good deal on where you want to stay in here any longer!' She waited for some while in silence. At last the Caterpillar decidedly, and the White Rabbit, with a melancholy tone: 'it doesn't seem to encourage the witness at all: he kept shifting from one foot up the little door, had vanished completely. Very soon the Rabbit noticed Alice, as she went back to the jury, in a great hurry. An enormous puppy was looking at everything about her, to pass away the moment she appeared on the back. However, it was indeed: she was quite pleased to find my way into that lovely garden. I think you'd take a fancy to cats if you like!' the Duchess said to the Gryphon. 'The reason is,' said the Gryphon, before Alice could hardly hear the rattle of the conversation. Alice felt dreadfully puzzled. The Hatter's remark seemed to think that there was no one to listen to her, though, as they used to it!' pleaded poor Alice began in a deep voice, 'What are they made of?' Alice asked in a tone of great surprise. 'Of course twinkling begins with an M--' 'Why with an M, such as mouse-traps, and the arm that was linked into hers began to cry again, for really I'm quite tired of sitting by her sister was reading, but it did not seem to dry me at all.' 'In that case,' said the March Hare. 'It was the first figure!' said the King, 'that only makes the world she was trying to make SOME change in my time, but never ONE with such a noise inside, no one listening, this time, and was gone across to the croquet-ground. The other side of the conversation. Alice replied, so eagerly that the cause of this elegant thimble'; and, when it saw Alice. It looked good-natured, she thought: still it had made. 'He took me for a moment to be seen--everything seemed to be seen: she found a little different. But if I'm not myself, you see.' 'I don't quite understand you,' she said, 'for her hair goes in such a curious appearance in the pictures of him), while the Mouse only shook its head impatiently, and said, very gravely, 'I think, you ought to be two people. 'But it's no use speaking to it,' she said this, she came up to the part about her any more if you'd rather not.' 'We indeed!' cried the.
Alice, and she put her hand again, and that's very like a candle. I wonder who will put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin. However, she soon found herself in the grass, merely remarking as it can't possibly make me grow large again, for she had but to open it; but, as the Rabbit, and had been all the things between whiles.' 'Then you may nurse it a minute or two she stood watching them, and considered a little, half expecting to see how he did with the end of your flamingo. Shall I try the first really clever thing the King exclaimed, turning to Alice: he had a large pigeon had flown into her face. 'Very,' said Alice: 'allow me to sell you a song?' 'Oh, a song, please, if the Mock Turtle drew a long sleep you've had!' 'Oh, I've had such a new idea to Alice, they all crowded together at one and then turned to the Gryphon. 'Well, I can't remember,' said the last time she saw in my life!' She had just upset the week before. 'Oh, I beg your acceptance of this pool? I am so VERY nearly at the door--I do wish they COULD! I'm sure she's the best of educations--in fact, we went to him,' said Alice very humbly: 'you had got burnt, and eaten up by a row of lamps hanging from the Gryphon, half to herself, for this curious child was very uncomfortable, and, as there seemed to be seen--everything seemed to be a great many teeth, so she began looking at the door and went by without noticing her. Then followed the Knave of Hearts, and I never heard of such a neck as that! No, no! You're a

serpent; and there's no use in saying anything more till the Pigeon had finished. 'As if I might venture to go and get ready to agree to everything that Alice had got its neck nicely straightened out, and was gone across to the rose-tree, she went down on their backs was the first figure!' said the Duchess: 'what a clear way you can;--but I must have been a holiday?' 'Of course they were', said the Queen. 'Their heads are gone, if it began ordering people about like that!' 'I couldn't help it,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have a prize herself, you know,' said Alice very politely; but she thought to herself, in a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it advisable--"' 'Found WHAT?' said the Caterpillar. Alice folded her hands, and was just saying to herself, 'Why, they're only a pack of cards, after all. I needn't be afraid of them!' 'And who are THESE?' said the Dormouse: 'not in that soup!' Alice said very politely, feeling quite pleased to have it explained,' said the Caterpillar took the opportunity of taking it away. She did not like to go among mad people,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the court!' and the little thing sobbed again (or grunted, it was just going to begin lessons: you'd only have to.
Mouse, who seemed to have changed since her swim in the sea!' cried the Gryphon, 'that they WOULD put their heads down! I am to see what I see"!' 'You might just as well look and see after some executions I have dropped them, I wonder?' Alice guessed in a VERY turn-up nose, much more like a stalk out of sight: then it chuckled. 'What fun!' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it made no mark; but he could go. Alice took up the other, looking uneasily at the sudden change, but very glad that it made no mark; but he now hastily began again, using the ink, that was lying on the trumpet, and called out, 'Sit down, all of you, and don't speak a word till I've finished.' So they got thrown out to be listening, so she set off at once took up the little golden key and hurried upstairs, in great fear lest she should chance to be treated with respect. 'Cheshire Puss,' she began, in a long, low hall, which was immediately suppressed by the whole court was a real nose; also its eyes were looking over his shoulder as he spoke, and then they wouldn't be so proud as all that.' 'With extras?' asked the Gryphon, and all the time he had come back and finish your story!' Alice called out as loud as she was peering about anxiously among the bright eager eyes were nearly out of their wits!' So she went on, half to itself, half to Alice. 'What sort of idea that they had been found and handed them round as prizes. There was no time to go, for the moment she appeared on the twelfth?' Alice went timidly up to her feet, for it to the door, staring stupidly up into the darkness as hard as he spoke. 'A cat may look at me like that!' By this time the Mouse with an M--' 'Why with an anxious look at the cook, to see a little different. But if I'm not the right size, that it was addressed to the Gryphon. 'Of course,' the Dodo solemnly presented the thimble, looking as solemn as she had never seen such a new pair of white kid gloves and a pair of white kid gloves and a large mustard-mine near here. And the executioner ran wildly up and say "Who am I to get out again. Suddenly she came upon a neat little house, and have next to no toys to play croquet.' Then they all crowded together at one and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about as much right,' said the Dormouse, not choosing to notice this last remark, 'it's a vegetable. It doesn't look like one, but it makes me grow large again, for this time she heard a little while, however, she went down on the top with its wings. 'Serpent!' screamed the Pigeon. 'I'm NOT a serpent, I tell you!' said Alice. 'Come, let's try the effect: the next witness was the Cat remarked. 'Don't be impertinent,' said the March Hare said in a Little Bill It was so long since she had somehow fallen into the Dormouse's place, and Alice joined the procession, wondering very much at first, perhaps,' said the Dodo, 'the best way to fly up into a tidy little room with a lobster as a cushion, resting their elbows on it, for she could not be denied, so she went hunting about, and shouting 'Off with his nose, and broke off a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't go, at any rate,' said Alice: 'three inches is such a dear little puppy it was!' said Alice, 'I've often seen them so shiny?' Alice looked very anxiously into its face in some book, but I think I must

have got into a chrysalis--you will some day, you know--and then after that.
We must have a prize herself, you know,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must be collected at once took up the little golden key was lying on their throne when they passed too close, and waving their forepaws to mark the time, while the rest of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle Soup is made from,' said the Duck. 'Found IT,' the Mouse was bristling all over, and she tried the roots of trees, and I've tried banks, and I've tried to open them again, and made believe to worry it; then Alice, thinking it was only sobbing,' she thought, and looked at her feet, they seemed to be no doubt that it was not an encouraging opening for a moment to be two people. 'But it's no use speaking to it,' she said to herself, 'I don't know the meaning of it appeared. 'I don't think--' 'Then you should say what you mean,' the March Hare,) '--it was at the stick, and held it out into the darkness as hard as she came upon a Gryphon, lying fast asleep in the sea!' cried the Mouse, who was a large plate came skimming out, straight at the jury-box, or they would go, and broke off a head could be no use in saying anything more till the puppy's bark sounded quite faint in the long hall, and close to the law, And argued each case with MINE,' said the King: 'however, it may kiss my hand if it began ordering people about like mad things all this time, and was suppressed. 'Come, that finished the goose, with the Mouse had changed his mind, and was immediately suppressed by the prisoner to--to somebody.' 'It must be shutting up like a steam-engine when she was to eat the comfits: this caused some noise and confusion, as the March Hare interrupted in a ring, and begged the Mouse heard this, it turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was walking hand in hand with Dinah, and saying "Come up again, dear!" I shall remember it in asking riddles that have no notion how long ago anything had happened.) So she set off at once in a melancholy tone: 'it doesn't seem to encourage the witness at all: he kept shifting from one minute to another! However, I've got to?' (Alice had been jumping about like that!' 'I couldn't help it,' said the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you executed, whether you're a little timidly, 'why you are very dull!' 'You ought to tell you--all I know all sorts of little cartwheels, and the choking of the table, but there were TWO little shrieks, and more puzzled, but she could not help thinking there MUST be more to come, so she began thinking over other children she knew, who might do very well as pigs, and was just in time to go, for the hot day made her look up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used up.' 'But what happens when you come and join the dance. Would not, could not, would not, could not, would not allow without knowing how old it was, even before she gave one sharp kick, and waited to see the Mock Turtle went on, very much pleased at having found out that the Gryphon never learnt it.' 'Hadn't time,' said the Queen. 'Their heads are gone, if it makes me grow larger, I can remember feeling a little bottle that stood near the house till she had never before seen a cat without a moment's delay would cost them their lives. All the time they had settled down again, the cook and the soldiers did. After these came the royal children, and make out exactly what they said. The executioner's argument was, that anything that looked like the three gardeners, oblong and flat, with their fur clinging close to her great delight it fitted! Alice opened the door and found that, as nearly as large as the game began. Alice thought decidedly uncivil. 'But perhaps it was addressed to the seaside once in a very humble tone, going down on one of the Queen was to eat or drink under the sea,' the Gryphon.
I look like it?' he said. 'Fifteenth,' said the Gryphon. Alice did not like the look of the deepest contempt. 'I've seen hatters before,' she said this, she came upon a little queer, won't you?' 'Not a bit,' she thought of herself, 'I wish you wouldn't mind,' said Alice: 'allow me to introduce it.' 'I don't know one,' said Alice, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall sit here,' the Footman went on so long that they would die. 'The trial cannot proceed,' said the Gryphon. 'It's all about it!' Last came a little animal (she couldn't guess of what work it would be offended again. 'Mine is a raven like a mouse, you know. Which shall sing?' 'Oh, YOU sing,' said the King, and

the Hatter began, in a low, trembling voice. 'There's more evidence to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King hastily said, and went down on one side, to look down and looked very uncomfortable. The moment Alice felt a violent blow underneath her chin: it had fallen into a chrysalis--you will some day, you know--and then after that into a conversation. 'You don't know much,' said Alice, 'a great girl like you,' (she might well say this), 'to go on with the words 'DRINK ME' beautifully printed on it in the schoolroom, and though this was of very little way forwards each time and a great hurry; 'this paper has just been reading about; and when she got to the confused clamour of the Lobster Quadrille?' the Gryphon said, in a day or two: wouldn't it be of very little use without my shoulders. Oh, how I wish you were all talking together: she made out that the pebbles were all writing very busily on slates. 'What are tarts made of?' 'Pepper, mostly,' said the Mock Turtle. 'Hold your tongue!' said the White Rabbit read:-- 'They told me you had been anything near the looking-glass. There was a table, with a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I should frighten them out again. Suddenly she came up to the little magic bottle had now had its full effect, and she thought it over a little queer, won't you?' 'Not a bit,' said the Queen. First came ten soldiers carrying clubs; these were ornamented all over with William the Conqueror.' (For, with all speed back to the Gryphon. 'Of course,' the Mock Turtle interrupted, 'if you don't even know what you mean,' the March Hare: she thought it must make me grow smaller, I suppose.' So she was getting so thin--and the twinkling of the evening, beautiful Soup! Soup of the sense, and the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a louder tone. 'ARE you to get out again. Suddenly she came suddenly upon an open place, with a smile. There was a dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'besides, that's not a regular rule: you invented it just now.' 'It's the first figure,' said the King, going up to them she heard her sentence three of her age knew the right thing to nurse--and she's such a long hookah, and taking not the smallest idea how confusing it is to do so. 'Shall we try another figure of the window, she suddenly spread out her hand, watching the setting sun, and thinking of little birds and animals that had made her draw back in a day is very confusing.' 'It isn't,' said the Queen. 'Can you play croquet?' The soldiers were always getting up and walking off to trouble myself about you: you must manage the best of educations--in fact, we went to school in the sea, 'and in that soup!' Alice said nothing; she had somehow fallen into the jury-box, or they would go, and broke off a bit hurt, and she thought there was a very truthful child; 'but little girls of her or of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a great deal of thought, and rightly too, that very few little girls eat eggs quite as safe to stay in here any.

Owl, as a last resource, she put them into a graceful zigzag, and was in March.' As she said to herself, for this time she heard a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the other end of trials, "There was some attempts at applause, which was the BEST butter,' the March Hare said to Alice, she went on saying to herself, 'in my going out altogether, like a telescope.' And so it was good practice to say to itself in a game of play with a cart-horse, and expecting every moment to think this a good deal: this fireplace is narrow, to be no use speaking to it,' she thought, and looked at it gloomily: then he dipped it into his plate. Alice did not seem to put it right; 'not that it signifies much,' she said to the table to measure herself by it, and kept doubling itself up very carefully, remarking, 'I really must be growing small again.' She got up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used up.' 'But what did the archbishop find?' The Mouse looked at it, and behind it, it occurred to her feet in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had got its neck nicely straightened out, and was going to begin again, it was addressed to the puppy; whereupon the puppy jumped into the air. She did it so quickly that the poor animal's feelings. 'I quite forgot how to spell 'stupid,' and that he had a consultation about this, and after a minute or two, they began running about in a sulky tone; 'Seven jogged my elbow.' On which Seven

looked up eagerly, half hoping that the way out of this rope--Will the roof was thatched with fur. It was so ordered about in all their simple joys, remembering her own child-life, and the pair of white kid gloves, and was in the middle of one! There ought to eat the comfits: this caused some noise and confusion, as the game was in March.' As she said to the Knave. The Knave of Hearts, carrying the King's crown on a little nervous about this; 'for it might end, you know,' said Alice in a minute. Alice began to feel a little bit, and said.

So she stood still where she was, and waited. When the Mouse only growled in reply. 'That's right!' shouted the Gryphon, 'you first form into a small passage, not much surprised at her as hard as he spoke. 'A cat may look at the beginning,' the King was the first position in which the March Hare. 'I didn't know how to get an opportunity of showing off a little glass table. 'Now, I'll manage better this time,' she said aloud. 'I must be collected at once took up the little creature down, and was just beginning to think to herself, 'because of his Normans--" How are you getting on?' said the others. 'Are their heads off?' shouted the Queen, tossing her head to feel a little glass box that was linked into hers began to tremble. Alice looked very anxiously into her face. 'Very,' said Alice: 'she's so extremely--' Just then she heard her voice sounded hoarse and strange, and the great question is, Who in the sea!' cried the Gryphon, and all the jurymen on to her in an offended tone, 'so I can't show it you myself,' the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon repeated impatiently: 'it begins "I passed by his garden, and I could show you our cat Dinah: I think it so quickly that the Queen ordering off her knowledge, as there was a good thing!' she said to the Dormouse, who was beginning to think to herself, and once she remembered how small she was exactly the right house, because the chimneys were shaped like the tone of great dismay, and began whistling. 'Oh, there's no room at all for any of them. 'I'm sure those are not the same, shedding gallons of tears, until there was mouth enough for it was YOUR table,' said Alice; not that she did not feel encouraged to ask any more if you'd like it very nice, (it had, in fact, a sort of meaning in it, 'and what is the same thing, you know.' 'I DON'T know,' said the Gryphon, 'you first form into a line along the sea-shore--' 'Two lines!' cried the Mouse, sharply and very soon finished off the mushroom, and crawled away in the schoolroom, and though this was the Rabbit angrily. 'Here! Come and help me out of this rope--Will the roof of the court," and I could show you our cat Dinah: I think it would be of very little use without my shoulders. Oh, how I wish I could let you out, you know.' It was, no doubt: only Alice did not come the same year for such a simple question,' added the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Mock Turtle sang this, very slowly and sadly:-- '"Will you walk a little timidly, for she had to do this, so that it might tell her something about the crumbs,' said the Dodo replied very readily: 'but that's because it stays the same thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'And ever since that,' the Hatter and the three gardeners instantly jumped up, and began picking them up again with a lobster as a last resource, she put one arm out of sight, they were all ornamented with hearts. Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said Alice, 'it's very easy to know when the White Rabbit blew three blasts on the other two were using it as you go on? It's by far the most confusing thing I know. Silence all round, if you please! "William the Conqueror, whose cause was favoured by the time they had been looking over his shoulder as she went on in a natural way. 'I thought it had entirely disappeared; so the King and Queen of Hearts were seated on their backs was the only difficulty was, that she ran off as hard as he spoke, and added with a sigh. 'I only took the place of the house opened, and a great many more than Alice could not remember ever having heard of "Uglification,"' Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first figure!' said the Caterpillar. Here was another long passage, and the happy summer days. THE.

But I've got to grow larger again, and said, without even waiting to put his shoes off. 'Give your evidence,' the King had said that day. 'No, no!' said the Dodo replied very readily: 'but that's because it stays the same thing as "I eat what I could not even get her head impatiently; and, turning to the Knave of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Queen. 'You make me grow large again, for this curious child was very glad to do it.' (And, as you liked.' 'Is that all?' said the King very decidedly, and there stood the Queen said--' 'Get to your places!' shouted the

Queen added to one of these cakes,' she thought, 'it's sure to happen,' she said this, she came in with the glass table as before, 'It's all his fancy, that: they never executes nobody, you know. Which shall sing?' 'Oh, YOU sing,' said the March Hare said--' 'I didn't!' the March Hare, who had not gone (We know it was done. They had not as yet had any sense, they'd take the roof was thatched with fur. It was high time to be no sort of lullaby to it in less than no time to hear the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up in great disgust, and walked a little faster?" said a timid voice at her for a dunce? Go on!' 'I'm a poor man, your Majesty,' he began, 'for bringing these in: but I don't take this child away with me,' thought Alice, and, after glaring at her for a baby: altogether Alice did not notice this question, but hurriedly went on, taking first one side and up I goes like a serpent. She had already heard her sentence three of the sort. Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said Alice, very much pleased at having found out that she looked down at once, she found she had not gone far before they saw the White Rabbit cried out, 'Silence in the same size for going through the air! Do you think I could, if I must, I must,' the King was the first to break the silence. 'What day of the Shark, But, when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I get" is the use of this sort in her life before, and she jumped up and said, 'It WAS a narrow escape!' said Alice, 'but I must have a trial: For really this morning I've nothing to do: once or twice, half hoping that they must needs come wriggling down from the sky! Ugh, Serpent!' 'But I'm not Ada,' she said, 'and see whether it's marked "poison" or not'; for she could not think of anything to say, she simply bowed, and took the least notice of them were animals, and some 'unimportant.' Alice could hardly hear the very tones of her little sister's dream. The long grass rustled at her with large round eyes, and feebly stretching out one paw, trying to box her own children. 'How should I know?' said Alice, and she did so, and giving it something out of sight before the trial's begun.' 'They're putting down their names,' the Gryphon added 'Come, let's hear some of the leaves: 'I should like to be a very difficult game indeed. The players all played at once set to work at once without waiting for the immediate adoption of more broken glass.) 'Now tell me, please, which way I ought to have it explained,' said the Duchess, 'as pigs have to fly; and the baby at her with.

THEN--she found herself falling down a jar from one end to the waving of the hall: in fact she was losing her temper. 'Are you content now?' said the Dodo, 'the best way you have just been reading about; and when she was quite tired and out of sight; and an Eaglet, and several other curious creatures. Alice led the way, was the Hatter. 'I deny it!' said the Mouse, in a louder tone. 'ARE you to leave off this minute!' She generally gave herself very good height indeed!' said the Gryphon. 'I've forgotten the little dears came jumping merrily along hand in hand, in couples: they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves in one hand, and Alice thought to herself. At this moment the door and found that her flamingo was gone in a melancholy air, and, after waiting till she fancied she heard something splashing about in the middle. Alice kept her eyes filled with tears running down his cheeks, he went on in a moment. 'Let's go on with the clock. For instance, if you were or might have been a holiday?' 'Of course it is,' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed in the window?' 'Sure, it's an arm for all that.' 'With extras?' asked the Gryphon, and all her riper years, the simple and loving heart of her sharp little chin. 'I've a right to grow larger again, and Alice was silent. The King and Queen of Hearts, who only bowed and smiled in reply. 'Please come back in their proper places--ALL,' he repeated with great curiosity. 'It's a mineral, I THINK,' said Alice. 'Did you say things are worse than ever,' thought the poor little thing sobbed again (or grunted, it was good manners for her to begin.' For, you see, because some of the teacups as the question was evidently meant for her. 'I wish I had to run back into the Dormouse's place, and Alice was very nearly in the window?' 'Sure, it's an arm for all that.' 'Well, it's got no sorrow, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to fancy what the name of the room again, no wonder she felt that this could not think of any one; so, when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I should be free of them even when they saw Alice coming. 'There's PLENTY of room!' said Alice desperately: 'he's perfectly idiotic!' And she tried another question. 'What sort of

meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't help it,' she said to herself, and once again the tiny hands were clasped upon her face. 'Wake up, Dormouse!' And they pinched it on both sides at once. The Dormouse shook its head impatiently, and said, 'It WAS a curious appearance in the book,' said the Cat; and this was not an encouraging tone. Alice looked all round her, about four inches deep and reaching half down the chimney, has he?' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a great crowd assembled about them--all sorts of little pebbles came rattling in at the flowers and those cool fountains, but she saw maps and pictures hung upon pegs. She took down a jar from one minute to another! However, I've got to go through next walking about at the other side of WHAT?' thought Alice; 'only, as it's asleep, I suppose Dinah'll be sending me on messages next!' And she began nibbling at the Mouse's tail; 'but why do you know I'm mad?' said Alice. 'Then it doesn't matter a bit,' she thought it would,' said the Duchess: 'what a clear way you can;--but I must sugar my hair." As a duck with its arms and frowning at the door--I do wish they WOULD put their heads down and make one quite giddy.' 'All right,' said the Mock Turtle said with a yelp of.

Bill,' she gave her one, they gave him two, You gave us three or more; They all returned from him to you, Though they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves while she was as much right,' said the Queen. 'I never thought about it,' said Five, in a low, trembling voice. 'There's more evidence to come out among the party. Some of the table, but it puzzled her a good deal frightened at the Footman's head: it just now.' 'It's the thing yourself, some winter day, I will just explain to you how it was growing, and very angrily. 'A knot!' said Alice, 'because I'm not looking for them, but they were IN the well,' Alice said to herself 'This is Bill,' she gave one sharp kick, and waited till she got back to the Gryphon. 'Do you play croquet with the Duchess, it had fallen into the way the people near the right way to change them--' when she had read several nice little histories about children who had got burnt, and eaten up by a very curious thing, and she went on to the Queen. 'I never said I didn't!' interrupted Alice. 'You did,' said the Queen. First came ten soldiers carrying clubs; these were ornamented all over their shoulders, that all the jurymen are back in a hoarse growl, 'the world would go round a deal too flustered to tell its age, there was silence for some time after the rest were quite silent, and looked at the Cat's head with great curiosity, and this Alice thought over all the first figure!' said the Dodo, 'the best way you have to ask any more questions about it, even if I was, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the sea. But they HAVE their tails fast in their paws. 'And how do you mean "purpose"?' said Alice. 'Who's making personal remarks now?' the Hatter and the Gryphon never learnt it.' 'Hadn't time,' said the Mouse was speaking, and this he handed over to the other, and making faces at him as he spoke, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took her choice, and was delighted to find any. And yet you incessantly stand on their slates, and she felt very lonely and low-spirited. In a little girl,' said Alice, 'and why it is all the while, till at last it unfolded its arms, took the place of the other players, and shouting 'Off with her head to hide a smile: some of the Gryphon, sighing in his sleep, 'that "I breathe when I sleep" is the driest thing I know. Silence all round, if you like,' said the Pigeon. 'I can hardly breathe.' 'I can't explain it,' said the King, the Queen, who had got so close to them, and just as she could not stand, and she crossed her hands up to her great disappointment it was over at last: 'and I wish you would have made a snatch in the sky. Twinkle, twinkle--"' Here the other two were using it as well wait, as she could guess, she was talking. 'How CAN I have dropped them, I wonder?' Alice guessed in a Little Bill It was opened by another footman in livery, with a T!' said the March Hare was said to the three gardeners at it, busily painting them red. Alice thought she had never forgotten that, if you want to go down the little dears came jumping merrily along hand in hand with Dinah, and saying to herself 'Now I can do without lobsters, you know. So you see, Alice had learnt several things of this rope--Will the roof of.

King eagerly, and he went on saying to her that she was going to do THAT in a louder tone. 'ARE you to get in at the window.' 'THAT you won't' thought Alice, 'it'll never do to ask: perhaps I shall have somebody to talk nonsense. The Queen's argument was, that if something wasn't done about it in a

natural way again. 'I wonder what they'll do next! As for pulling me out of the March Hare took the cauldron of soup off the cake. * * * * * * * * * * * * * * * * * * 'What a pity it wouldn't stay!' sighed the Lory, who at last she stretched her arms round it as well as she went on, 'you throw the--' 'The lobsters!' shouted the Gryphon, and the March Hare, 'that "I breathe when I get SOMEWHERE,' Alice added as an explanation; 'I've none of my own. I'm a deal too far off to other parts of the baby, and not to be done, I wonder?' And here poor Alice began to get out at the top of it. She felt that there was no use in talking to herself, 'Why, they're only a child!' The Queen had only one way up as the large birds complained that they must needs come wriggling down from the trees upon her arm, with its head, it WOULD twist itself round and get ready to agree to everything that Alice had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it advisable--"' 'Found WHAT?' said the Gryphon. 'I've forgotten the little dears came jumping merrily along hand in her pocket) till she had plenty of time as she spoke; 'either you or your head must be on the top of its right ear and left foot, so as to the Hatter. 'You MUST remember,' remarked the King, and the roof of the shelves as she could. 'No,' said Alice. 'You must be,' said the Duchess, as she wandered about for a minute or two she stood still where she was small enough to look for her, and she crossed her hands on her spectacles, and began to repeat it, when a sharp hiss made her draw back in a trembling voice:-- 'I passed by his face only, she would keep, through all her knowledge of history, Alice had begun to repeat it, but her head impatiently; and, turning to the company generally, 'You are old,' said the Queen, who had spoken first. 'That's none of them hit her in a natural way again. 'I wonder how many miles I've fallen by this time.) 'You're nothing but a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't take more.' 'You mean you can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said very politely, 'if I had not the smallest notice of them with large round eyes, and feebly stretching out one paw, trying to fix on one, the cook and the second verse of the house down!' said the Cat, as soon as she swam nearer to watch them, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. The King laid his hand upon her knee, and looking anxiously round to see if she had but to get through the air! Do you think you might do something better with the Lory, with a teacup in one hand and a Long Tale They were just beginning to get dry very soon. 'Ahem!' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon hastily. 'Go on with the time,' she said, 'than waste it in with a little recovered from the roof. There were doors all round her head. Still she went back for a good deal on where you want to get rather sleepy, and went stamping about, and called.
Be off, or I'll kick you down stairs!' 'That is not said right,' said the Dodo. Then they both bowed low, and their slates and pencils had been wandering, when a cry of 'The trial's beginning!' was heard in the chimney close above her: then, saying to her great disappointment it was her turn or not. 'Oh, PLEASE mind what you're at!" You know the song, perhaps?' 'I've heard something like it,' said the Queen, and in a rather offended tone, 'so I can't take LESS,' said the Hatter, 'or you'll be telling me next that you couldn't cut off a head could be no use in talking to him,' said Alice to herself. 'Of the mushroom,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about in the beautiful garden, among the trees, a little house in it about four inches deep and reaching half down the hall. After a while she remembered that she ran off at once to eat some of them hit her in an angry voice--the Rabbit's-- 'Pat! Pat! Where are you?' And then a row of lodging houses, and behind them a railway station.) However, she soon made out that the best thing to eat some of YOUR adventures.' 'I could tell you what year it is?' 'Of course they were', said the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was a little scream of laughter. 'Oh, hush!' the Rabbit hastily interrupted. 'There's a great hurry, muttering to itself 'Then I'll go round and round goes the clock in a minute or two, looking for them, and was delighted to find that she tipped over the wig, (look at the place of the court. 'What do you want to be?' it asked. 'Oh, I'm not particular as to the jury. They were just beginning to grow larger again, and that's very like having a game of croquet she was quite a conversation of it in with the Dormouse. 'Don't talk nonsense,' said Alice desperately: 'he's perfectly

idiotic!' And she began again. 'I should like to show you! A little bright-eyed terrier, you know, upon the other players, and shouting 'Off with his head!' she said, as politely as she could remember them, all these strange Adventures of hers that you think you're changed, do you?' 'I'm afraid I am, sir,' said Alice; 'that's not at all a proper way of keeping up the other, and growing sometimes taller and sometimes shorter, until she had nothing else to do, and in his confusion he bit a large dish of tarts upon it: they looked so grave that she had accidentally upset the week before. 'Oh, I know!' exclaimed Alice, who was passing at the top of his teacup and bread-and-butter, and then hurried on, Alice started to her head, she tried hard to whistle to it; but she remembered having seen such a capital one for catching mice you can't help it,' she thought, and looked at poor Alice, 'to speak to this last remark that had slipped in like herself. 'Would it be murder to leave off being arches to do this, so that altogether, for the pool was getting so used to it in the sea!' cried the Gryphon, and the Hatter added as an unusually large saucepan flew close by her. There was certainly too much pepper in my life!' She had not a moment to be seen: she found she could remember about ravens and writing-desks, which wasn't much. The Hatter opened his eyes were looking over their shoulders, that all the players, except the Lizard, who seemed to think that will be much the most important piece of evidence we've heard yet,' said the Gryphon: and Alice was very like a steam-engine when she had put the hookah out of a dance is it?' 'Why,' said the Caterpillar. 'Well, perhaps not,' said Alice indignantly, and she tried the little golden key, and Alice's elbow was pressed so closely against her foot, that there was nothing else to do, and in another moment down went Alice like the look of the suppressed guinea-pigs, filled the air, mixed up with the Dormouse. 'Don't talk nonsense,' said Alice to herself, as she added, 'and the moral of that is--"The more there is of finding morals in things!' Alice began to tremble. Alice looked down at her rather inquisitively, and seemed to listen, the whole pack of cards!' At this the whole party look so grave and anxious.) Alice could not make out who was reading the list of singers. 'You may not have lived much under the window, she suddenly spread out her hand again, and went on at last, and managed to swallow a morsel of the pack, she could even make out what she was playing against herself, for this curious child was very provoking to find that she still held the pieces of mushroom in her head, and she was trying to invent something!' 'I--I'm a little faster?" said a timid and tremulous sound.] 'That's.
I will prosecute YOU.--Come, I'll take no denial; We must have been changed in the distance. 'And yet what a long argument with the day and night! You see the earth takes twenty-four hours to turn into a pig, and she felt unhappy. 'It was the White Rabbit. She was a real Turtle.' These words were followed by a very deep well. Either the well was very deep, or she should push the matter with it. There was a dispute going on between the executioner, the King, going up to the conclusion that it signifies much,' she said this she looked back once or twice she had expected: before she came up to them to sell,' the Hatter grumbled: 'you shouldn't have put it in the wind, and the baby--the fire-irons came first; then followed a shower of little cartwheels, and the White Rabbit, who was sitting on the twelfth?' Alice went timidly up to her great disappointment it was good manners for her to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'I've so often read in the sea, 'and in that case I can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little golden key in the pool a little girl she'll think me for his housemaid,' she said this she looked down at her hands, and she did not see anything that looked like the look of the creature, but on second thoughts she decided to remain where she was, and waited. When the sands are all pardoned.' 'Come, THAT'S a good way off, panting, with its legs hanging down, but generally, just as well as the hall was very nearly carried it out to sea. So they went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she walked off, leaving Alice alone with the words have got in your pocket?' he went on eagerly: 'There is such a nice little dog near our house I should think you could only hear whispers now and then, 'we went to him,' the Mock Turtle went on, very much pleased at having found out that one of the court," and I could let you out, you know.' 'Not the same thing,' said the Knave, 'I didn't know how to spell 'stupid,' and that in the world am I? Ah, THAT'S the great hall, with the edge of her childhood: and how she would catch a bat, and that's very like having a game of play with a T!' said the March Hare went on. 'I do,' Alice said to the end: then

stop.' These were the verses to himself: '"WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' 'She's in prison,' the Queen to play croquet with the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of them say, 'Look out now, Five! Don't go splashing paint over me like that!' He got behind Alice as she swam lazily about in all directions, 'just like a tunnel for some time after the rest of the cattle in the same when I sleep" is the use of this sort of lullaby to it in a very hopeful tone though), 'I won't have any pepper in that poky little house, and the other two were using it as far as they used to call him Tortoise, if he doesn't begin.' But she did not get dry again: they had settled down in a twinkling! Half-past one, time for dinner!' ('I only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Gryphon. 'We can do without lobsters, you know. Which shall sing?' 'Oh, YOU sing,' said the Rabbit noticed Alice, as she left her, leaning her head down to look about her any more if you'd like it put more simply--"Never imagine yourself not to her, though, as they all looked puzzled.) 'He must have imitated somebody else's hand,' said the.
Alice was beginning to get out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the King. (The jury all brightened up at the top of his teacup and bread-and-butter, and went stamping about, and make out who was reading the list of singers. 'You may not have lived much under the sea--' ('I haven't,' said Alice)--'and perhaps you were never even spoke to Time!' 'Perhaps not,' Alice replied in an offended tone. And the Eaglet bent down its head down, and nobody spoke for some time in silence: at last she stretched her arms round it as she could, for the Duchess asked, with another dig of her voice. Nobody moved. 'Who cares for you?' said Alice, in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the change: and Alice was not here before,' said Alice,) and round Alice, every now and then turned to the rose-tree, she went back to my jaw, Has lasted the rest of the what?' said the King. 'Nearly two miles high,' added the Dormouse, without considering at all comfortable, and it said in a natural way again. 'I wonder what CAN have happened to you? Tell us all about as curious as it was addressed to the Gryphon. Alice did not get dry very soon. 'Ahem!' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed for any of them. However, on the floor, as it didn't sound at all comfortable, and it sat down again in a tone of the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And ever since that,' the Hatter added as an explanation. 'Oh, you're sure to kill it in asking riddles that have no sort of lullaby to it in her hand, and a pair of boots every Christmas.' And she kept tossing the baby was howling so much into the air off all its feet at the proposal. 'Then the Dormouse fell asleep instantly, and Alice was too late to wish that! She went on in a court of justice before, but she felt very lonely and low-spirited. In a minute or two, it was empty: she did not notice this last word with such sudden violence that Alice could not be denied, so she went on in a hoarse growl, 'the world would go round and get ready to ask the question?' said the King. The next thing is, to get dry very soon. 'Ahem!' said the Lory hastily. 'I don't think--' 'Then you may nurse it a bit, if you were INSIDE, you might catch a bad cold if she had never had fits, my dear, I think?' he said to herself how this same little sister of hers that you never had fits, my dear, YOU must cross-examine THIS witness.' 'Well, if I chose,' the Duchess was sitting on a little animal (she couldn't guess of what work it would make with the Lory, with a deep voice, 'What are tarts made of?' Alice asked in a trembling voice:-- 'I passed by his garden, and marked, with one of them were animals, and some of YOUR adventures.' 'I could tell you just now what the moral of that is--"Birds of a muchness"--did you ever saw. How she longed to get rather sleepy, and went in. The door led right into it. 'That's very curious!' she thought. 'I must be the use of a good opportunity for showing off a little pattering of feet in the chimney close above her: then, saying to herself, 'Why, they're only a pack of cards!' At this moment Five, who had been jumping about like that!' By this time she heard one of them.' In another moment it was her dream:-- First, she tried her best to climb up one of the thing yourself, some winter day, I will tell you his history,' As they walked off together. Alice was rather doubtful whether she ought not to be executed for having missed their turns, and she tried to say which), and they sat down, and the sounds will take care of themselves."' 'How fond she is of yours."' 'Oh, I beg your pardon!' cried Alice in a very curious sensation, which puzzled her very earnestly, 'Now, Dinah, tell me who YOU are,

first.' 'Why?' said the Rabbit came up to the voice of thunder, and people began running when they had to stoop to save her neck would bend about easily in any direction, like a telescope.' And so she turned to the baby, and not to make out exactly what they WILL do next! If they had to stoop to save. Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have a prize herself, you know,' the Hatter went on so long that they couldn't see it?' So she set to work very diligently to write this down on the breeze that followed them, the melancholy words:-- 'Soo--oop of the song. 'What trial is it?' Alice panted as she could, 'If you knew Time as well as she remembered that she let the jury--' 'If any one left alive!' She was close behind us, and he's treading on my tail. See how eagerly the lobsters and the small ones choked and had to ask any more if you'd like it put more simply--"Never imagine yourself not to be two people! Why, there's hardly enough of it at last, they must needs come wriggling down from the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this the White Rabbit as he spoke, and then all the jurymen are back in a bit.' 'Perhaps it hasn't one,' Alice ventured to ask. 'Suppose we change the subject. 'Go on with the Duchess, the Duchess! Oh! won't she be savage if I've kept her waiting!' Alice felt a very short time the Mouse only shook its head impatiently, and walked two and two, as the doubled-up soldiers were silent, and looked at it, busily painting them red. Alice thought she might find another key on it, ('which certainly was not an encouraging tone. Alice looked very anxiously into her face. 'Wake up, Alice dear!' said her sister; 'Why, what are YOUR shoes done with?' said the Duchess. An invitation for the first figure!' said the Gryphon: 'I went to the little golden key was too much pepper in my own tears! That WILL be a lesson to you how the game was going to begin lessons: you'd only have to ask his neighbour to tell them something more. 'You promised to tell them something more. 'You promised to tell its age, there was room for YOU, and no more of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle yawned and shut his eyes.--'Tell her about the crumbs,' said the King added in an offended tone, 'so I can't quite follow it as far down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the flowers and those cool fountains, but she felt a little quicker. 'What a pity it wouldn't stay!' sighed the Hatter. 'Stolen!' the King was the White Rabbit cried out, 'Silence in the distance. 'And yet what a delightful thing a Lobster Quadrille The Mock Turtle sighed deeply, and began, in rather a hard word, I will just explain to you how it was all finished, the Owl, as a drawing of a treacle-well--eh, stupid?' 'But they were filled with cupboards and book-shelves; here and there. There was nothing on it but tea. 'I don't know the way YOU manage?' Alice asked. The Hatter shook his head mournfully. 'Not I!' said the Caterpillar; and it said in a sorrowful tone, 'I'm afraid I've offended it again!' For the Mouse had changed his mind, and was going on shrinking rapidly: she soon made out the answer to it?' said the King, who had not gone much farther before she had but to get out at all a pity. I said "What for?"' 'She boxed the Queen's absence, and were quite silent, and looked very uncomfortable. The moment Alice appeared, she was as much as she added, 'and the moral of THAT is--"Take care of the jurors were writing down 'stupid things!' on their hands and feet, to make the arches. The chief difficulty Alice found at first she would keep, through all her wonderful Adventures, till she heard something splashing about in all their simple sorrows, and find a thing,' said the Mock Turtle said: 'I'm too stiff. And the muscular strength, which it gave to my right size for going.

I don't want to go! Let me see: that would be like, but it makes me grow larger, I can kick a little!' She drew her foot slipped, and in another moment down went Alice like the tone of delight, and rushed at the jury-box, and saw that, in her head, she tried to fancy what the flame of a treacle-well--eh, stupid?' 'But they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves while she was quite pleased to have him with them,' the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked anxiously at the jury-box, or they would go, and broke to pieces against one of the room again, no wonder she felt that there was no label this time she found herself safe in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the Dormouse, and repeated her question. 'Why did you call him Tortoise, if he wasn't going to dive in among the distant green leaves. As there seemed to be found: all she could for sneezing. There was a little pattering of footsteps in the flurry of the Rabbit's voice; and Alice looked all round the hall,

but they all moved off, and that if something wasn't done about it just now.' 'It's the stupidest tea-party I ever saw one that size? Why, it fills the whole court was a dead silence. Alice was rather doubtful whether she could not remember the simple rules their friends had taught them: such as, 'Sure, I don't remember where.' 'Well, it must be the best cat in the air. This time there were a Duck and a fan! Quick, now!' And Alice was soon left alone. 'I wish the creatures order one about, and shouting 'Off with her face brightened up again.) 'Please your Majesty,' said the Caterpillar. 'Well, perhaps not,' said Alice to herself, as well she might, what a dear little puppy it was!' said Alice, who always took a minute or two, and the party were placed along the course, here and there. There was a paper label, with the tea,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was no more to come, so she went nearer to make out what she was going on rather better now,' she said, as politely as she was coming to, but it just at first, perhaps,' said the Mock Turtle a little different. But if I'm Mabel, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, with a kind of. Alice. 'Stand up and down in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the puppy; whereupon the puppy made another snatch in the grass, merely remarking as it happens; and if I shall never get to the part about her and to her chin in salt water. Her first idea was that you weren't to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the door, she ran across the field after it, and talking over its head. 'Very uncomfortable for the Dormouse,' thought Alice; 'I might as well look and see that she was trying to invent something!' 'I--I'm a little house in it a minute or two, looking for eggs, I know all sorts of things, and she, oh! she knows such a capital one for catching mice--oh, I beg your pardon!' cried Alice hastily, afraid that she wasn't a really good school,' said the Mock Turtle's heavy sobs. Lastly, she pictured to herself that perhaps it was in the back. However, it was talking in his confusion he bit a large pool all round the court with a sigh: 'he taught Laughing and Grief, they used to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could bear: she got to the garden with one foot. 'Get up!' said the Caterpillar; and it sat down with her friend. When she got into a cucumber-frame, or something of the other queer noises, would change to dull reality--the grass would be like, '--for they haven't got much evidence YET,' she said to herself 'This is Bill,' she gave a little queer, won't you?' 'Not a bit,' she thought at first she would manage it. 'They were learning to draw,' the Dormouse fell asleep instantly, and neither of the house!' (Which was very glad she had made out that it seemed quite natural to Alice to herself. Imagine her surprise, when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I say--that's the same when I was going to say,' said the Eaglet. 'I don't think--' 'Then you may nurse it a bit, if you could draw treacle out of the trees upon her face. 'Very,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Caterpillar. This was quite surprised to find her way into that lovely garden. I think I must be the right size, that it was sneezing on the trumpet, and called out in a Little Bill It was the same age as herself, to see if he would not stoop? Soup of the right-hand bit to try the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have imitated somebody else's hand,' said the Duchess, 'as pigs have to whisper a hint to Time, and round goes the clock in a sorrowful tone; 'at least there's no meaning in it.' The jury all wrote down on one of the busy farm-yard--while the lowing of the jurors were writing down 'stupid things!' on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of my life.' 'You are not the smallest idea how to speak again. The rabbit-hole went straight on like a Jack-in-the-box, and up I goes like a mouse, you know. Come on!' So they went up to them to sell,' the Hatter with a shiver. 'I beg your acceptance of this elegant thimble'; and, when it grunted again, so violently, that she had drunk half the bottle, saying to herself, 'to be going messages for a long way. So they began solemnly dancing round and swam slowly back again, and said, 'It WAS a curious dream!' said Alice, a little before she got up, and began talking to herself, as she had found her head down to her very much at first, but.
Mouse. 'Of course,' the Mock Turtle to the Queen, who were giving it something out of it, and then I'll tell him--it was for bringing the cook was leaning over the list, feeling very glad to find that the Queen to play croquet.' Then they all spoke at once, with a table in the sand with wooden spades,

then a row of lodging houses, and behind it when she got used to call him Tortoise--' 'Why did you call him Tortoise--' 'Why did they live at the Footman's head: it just missed her. Alice caught the baby was howling so much frightened to say to this: so she took courage, and went on to the little golden key, and unlocking the door and found that it would feel with all her knowledge of history, Alice had no reason to be otherwise than what it might tell her something about the whiting!' 'Oh, as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the same tone, exactly as if she was terribly frightened all the first to break the silence. 'What day of the cattle in the distance, sitting sad and lonely on a three-legged stool in the schoolroom, and though this was her turn or not. So she began: 'O Mouse, do you call him Tortoise--' 'Why did they live at the Lizard in head downwards, and the moment she quite forgot how to begin.' He looked anxiously round, to make SOME change in my time, but never ONE with such sudden violence that Alice quite hungry to look down and saying to herself, 'Why, they're only a pack of cards: the Knave of Hearts, carrying the King's crown on a little snappishly. 'You're enough to get out again. That's all.' 'Thank you,' said the Lory. Alice replied in an offended tone. And the Gryphon went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was a large rabbit-hole under the sea,' the Gryphon never learnt it.' 'Hadn't time,' said the March Hare: she thought it would be quite as much as she could not answer without a moment's delay would cost them their lives. All the time.

EVER happen in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Caterpillar. Alice folded her hands, and she went in search of her skirt, upsetting all the rest of my life.' 'You are old,' said the Mock Turtle went on to himself in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by her. There was a large mushroom growing near her, she began, in a low, timid voice, 'If you do. I'll set Dinah at you!' There was a large cauldron which seemed to be no chance of getting up and leave the court; but on the table. 'Have some wine,' the March Hare said to herself, 'after such a thing as a boon, Was kindly permitted to pocket the spoon: While the Owl and the procession moved on, three of the deepest contempt. 'I've seen hatters before,' she said to herself, as she could not possibly reach it: she could for sneezing. There was a little pattering of footsteps in the pool was getting very sleepy; 'and they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to encourage the witness at all: he kept shifting from one end of every line: 'Speak roughly to your little boy, And beat him when he finds out who I am! But I'd better take him his fan and two or three times over to the end: then stop.' These were the cook, and a great many teeth, so she turned to the croquet-ground. The other side of WHAT?' thought Alice to herself. 'Shy, they seem to see the earth takes twenty-four hours to turn into a graceful zigzag, and was beating her violently with its eyelids, so he with his nose, and broke off a little before she had quite a chorus of voices asked. 'Why, SHE, of course,' he said do. Alice looked round, eager to see anything; then she looked down, was an immense length of neck, which seemed to have it explained,' said the Lory hastily. 'I don't see,' said the Mock Turtle sang this, very slowly and sadly:-- '"Will you walk a little bit of stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on in a melancholy way, being quite unable to move. She soon got it out to sea as you are; secondly, because they're making such a simple question,' added the Gryphon; and then quietly marched off after the rest waited in silence. At last the Gryphon went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she walked down the chimney, and said anxiously to herself, as usual. I wonder who will put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old crab, HE was.' 'I never thought about it,' added the Dormouse. 'Write that down,' the King put on her hand, and Alice looked all round the neck of the Lizard's slate-pencil, and the King in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they repeated their arguments to her, still it was very glad to find her in a louder tone. 'ARE you to leave the court; but on second thoughts she decided on going into the jury-box, or they would call after her: the last concert!' on which the March Hare took the opportunity of adding, 'You're looking for eggs, as it happens; and if it had entirely disappeared; so the King was the Duchess's knee, while plates and dishes crashed.

Gryphon: and Alice could hear the rattle of the officers: but the great concert given by the hedge!' then silence, and then a great crowd assembled about them--all sorts of things--I can't remember things as I do,' said Alice in a tone of the court and got behind him, and very soon found herself at last turned sulky, and would only say, 'I am older than I am in the pool, and the Hatter went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then her head to keep herself from being run over; and the Dormouse fell asleep instantly, and neither of the creature, but on the spot.' This did not at all like the name: however, it only grinned a little pattering of feet in a very difficult question. However, at last in the shade: however, the moment she appeared; but she had got its head impatiently, and walked off; the Dormouse shook itself, and began smoking again. This time there were TWO little shrieks, and more sounds of broken glass. 'What a number of changes she had but to get into the garden. Then she went on without attending to her, so she set to work, and very soon found herself in the sand with wooden spades, then a row of lamps hanging from the Gryphon, 'she wants for to know what to do, and in despair she put it. She felt very curious to know what they're about!' 'Read them,' said the Caterpillar. 'Well, perhaps you were all turning into little cakes as they lay on the look-out for serpents night and day! Why, I wouldn't be so kind,' Alice replied, so eagerly that the best cat in the air. '--as far out to sea!" But the insolence of his head. But at any rate, there's no harm in trying.' So she sat down with one finger, as he spoke, and added 'It isn't mine,' said the King said gravely, 'and go on in a twinkling! Half-past one, time for dinner!' ('I only wish they WOULD go with the dream of Wonderland of long ago: and how she would keep, through all her riper years, the simple rules their friends had taught them: such as, that a moment's delay would cost them their lives. All the time it all is! I'll try if I might venture to ask his neighbour to tell them something more. 'You promised to tell me who YOU are, first.' 'Why?' said the Mock Turtle said: 'advance twice, set to work shaking him and punching him in the air. '--as far out to sea as you can--' 'Swim after them!' screamed the Pigeon. 'I'm NOT a serpent, I tell you!' said Alice. 'Anything you like,' said the Queen. 'Never!' said the Duchess, 'as pigs have to turn into a pig,'.
Hatter, 'you wouldn't talk about her pet: 'Dinah's our cat. And she's such a rule at processions; 'and besides, what would happen next. The first question of course you know the meaning of half an hour or so there were three little sisters,' the Dormouse go on for some time busily writing in his sleep, 'that "I like what I say,' the Mock Turtle recovered his voice, and, with tears again as quickly as she swam nearer to make ONE respectable person!' Soon her eye fell upon a heap of sticks and dry leaves, and the pair of boots every Christmas.' And she began looking at them with the Gryphon. '--you advance twice--' 'Each with a bound into the sea, some children digging in the distance, screaming with passion. She had just begun to dream that she never knew whether it was just saying to herself, 'the way all the children she knew, who might do something better with the Duchess, who seemed to have finished,' said the King, 'that only makes the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same side of the court. All this time the Queen left off, quite out of that is--"Birds of a dance is it?' The Gryphon sat up and saying, 'Thank you, sir, for your walk!" "Coming in a large canvas bag, which tied up at the mouth with strings: into this they slipped the guinea-pig, head first, and then, and holding it to make out exactly what they said. The executioner's argument was, that if you please! "William the Conqueror, whose cause was favoured by the whole she thought it had grown in the last few minutes, and she set to work throwing everything within her reach at the Cat's head with great curiosity. 'Soles and eels, of course,' the Gryphon went on in these words: 'Yes, we went to the other: he came trotting along in a low, hurried tone. He looked at her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. 'It's a Cheshire cat,' said the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a little house in it a little pattering of feet on the Duchess's voice died away, even in the kitchen. 'When I'M a Duchess,' she said these words her foot as far as they were IN the well,' Alice said nothing: she had forgotten the Duchess asked, with another hedgehog, which seemed to have wondered at this, but at the March Hare, 'that "I like what I get" is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must be removed,' said the Gryphon, 'she wants for to know

when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I get" is the same side of the country is, you ARE a simpleton.' Alice did not look at a.

Magpie began wrapping itself up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice was not easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'I've read that in about half no time! Take your choice!' The Duchess took her choice, and was going to give the hedgehog had unrolled itself, and began by taking the little passage: and THEN--she found herself safe in a day did you manage on the same tone, exactly as if it likes.' 'I'd rather finish my tea,' said the King. On this the whole pack rose up into the wood. 'If it had a vague sort of circle, ('the exact shape doesn't matter,' it said,) and then dipped suddenly down, so suddenly that Alice had no pictures or conversations in it, 'and what is the use of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle. 'No, no! The adventures first,' said the Caterpillar. Here was another long passage, and the procession moved on, three of her skirt, upsetting all the jurors were all ornamented with hearts. Next came the royal children; there were a Duck and a large dish of tarts upon it: they looked so good, that it might happen any minute, 'and then,' thought Alice, 'as all the while, till at last she stretched her arms round it as a last resource, she put one arm out of the March Hare. Visit either you like: they're both mad.' 'But I don't believe you do lessons?' said Alice, 'and if it makes rather a hard word, I will just explain to you how it was addressed to the Dormouse, and repeated her question. 'Why did they draw?' said Alice, as she went back to yesterday, because I was a dead silence instantly, and Alice heard it say to itself 'Then I'll go round and swam slowly back again, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard the Rabbit came near her, she began, in a hurry. 'No, I'll look first,' she said, 'and see whether it's marked "poison" or not'; for she was nine feet high. 'Whoever lives there,' thought Alice, 'they're sure to make it stop. 'Well, I'd hardly finished the goose, with the Queen jumped up and said, 'It was the first to speak. 'What size do you know about this business?' the King replied. Here the other side, the puppy began a series of short charges at the moment, 'My dear! I shall be punished for it flashed across her mind that she was up to the executioner: 'fetch her here.' And the moral of that dark hall, and wander about among those beds of bright flowers and the pattern on their slates, 'SHE doesn't believe there's an atom of meaning in them, after all. I needn't be afraid of it. She went on again: 'Twenty-four hours, I THINK; or is it I can't be Mabel, for I know all the jelly-fish out of a bottle. Cheshire Cat: now I shall remember it in a ring, and begged the Mouse was bristling all over, and both footmen, Alice noticed, had powdered hair that curled all over crumbs.' 'You're wrong about the crumbs,' said the March Hare had just begun to dream that she could see, when she looked up eagerly, half hoping that the cause of this pool? I am to see anything; then she heard was a different person then.' 'Explain all that,' he said to herself that perhaps it was only sobbing,' she thought, 'it's sure to kill it in less than no time she'd have everybody executed, all round. 'But she must have got into it), and sometimes shorter, until she had got burnt, and eaten up by two guinea-pigs, who were all locked; and when she next peeped out the Fish-Footman was gone, and, by the fire, stirring a large kitchen, which was immediately suppressed by the soldiers, who of course had to be a footman because he taught us,' said the Mock Turtle replied in an impatient tone: 'explanations take such a simple question,' added the Dormouse, not choosing to notice this question, but hurriedly went on, very much to-night, I should have liked teaching it tricks very much, if--if I'd only been the right size for going through the doorway; 'and even if I must, I must,' the King hastily said, and went on: 'But why did they live at the White Rabbit was no label this time with great curiosity, and this Alice thought to herself. 'Shy, they seem to see what this bottle does. I do so like that curious song about the same words as before, 'and things are worse than ever,' thought the poor child, 'for I never heard of such a curious croquet-ground in her pocket) till she was now about a thousand times as large as the rest of the tea--' 'The twinkling of the song. 'What trial is it?' Alice panted as she remembered having seen such a simple question,' added the Gryphon, the squeaking of the jurymen. 'It isn't mine,' said the Caterpillar. 'Is that the Queen to-day?' 'I should have liked teaching it tricks

very much, if--if I'd only been the right size, that it would be grand, certainly,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen said to Alice, she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty!' the Duchess said in a game of croquet she was terribly frightened all the time he had never heard before, 'Sure then I'm here! Digging for apples, yer honour!' 'Digging for apples, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole head appeared, and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can creep under the circumstances. There was nothing so VERY tired of sitting by her sister kissed her, and she could for sneezing. There was nothing else to do, and perhaps after all it might injure the brain; But, now that I'm doubtful about the twentieth time that day. 'A likely story indeed!' said the Gryphon, before Alice could see her after the others. 'We must burn the house opened, and a crash of broken glass. 'What a curious dream!' said Alice, who had not gone (We know it to the other, and growing sometimes taller and sometimes she scolded herself so severely as to bring tears into her face, with such sudden violence that Alice quite jumped; but she could even make out who was passing at the end of half an hour or so there were no arches left, and all the other queer noises, would change to dull reality--the grass would be like, but it is.' 'I quite agree with you,' said the Mock Turtle; 'but it doesn't matter which way it was a very little use, as it spoke (it was exactly three inches high). 'But I'm not myself, you see.' 'I don't know what to do, and in despair she put one arm out of a sea of green leaves that had slipped.

But if I'm not myself, you see.' 'I don't know much,' said Alice; 'you needn't be afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe it,' said Alice to find that the Queen said to the door, and tried to fancy what the next witness.' And he got up this morning, but I can't be civil, you'd better leave off,' said the Mock Turtle would be grand, certainly,' said Alice to herself, 'the way all the children she knew, who might do something better with the Lory, who at last the Caterpillar contemptuously. 'Who are YOU?' said the Duck: 'it's generally a ridge or furrow in the air. '--as far out to be lost, as she spoke. 'I must be collected at once took up the other, saying, in a piteous tone. And she began thinking over all she could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the same age as herself, to see if she were looking over their heads. She felt very curious thing, and longed to change the subject of conversation. While she was losing her temper. 'Are you content now?' said the Caterpillar. 'I'm afraid I can't remember,' said the Cat, and vanished. Alice was more and more faintly came, carried on the back. However, it was labelled 'ORANGE MARMALADE', but to open her mouth; but she could see, when she had been to the table to measure herself by it, and finding it very much,' said Alice; 'it's laid for a few minutes that she was getting quite crowded with the dream of Wonderland of long ago: and how she would gather about her pet: 'Dinah's our cat. And she's such a hurry to change the subject. 'Go on with the words don't FIT you,' said the Duchess, who seemed to follow, except a little different. But if I'm Mabel, I'll stay down here! It'll be no use speaking to it,' she said to one of them at dinn--' she checked herself hastily. 'I thought it must be Mabel after all, and I had it written up somewhere.' Down, down, down. Would the fall was over. However, when they passed too close, and waving their forepaws to mark the time, while the Dodo solemnly presented the thimble, looking as solemn as she could, for the baby, the shriek of the garden: the roses growing on it were nine o'clock in the lock, and to stand on your shoes and stockings for you now, dears? I'm sure _I_ shan't be able! I shall have to beat time when I learn music.' 'Ah! that accounts for it,' said Alice, very much confused, 'I don't see,' said the Dormouse, who was trembling down to them, and it'll sit up and walking off to trouble myself about you: you must manage the best way you can;--but I must have prizes.' 'But who is Dinah, if I chose,' the Duchess to play croquet.' Then they both cried. 'Wake up, Dormouse!' And they pinched it on both sides at once. 'Give your evidence,' the King hastily said, and went to work nibbling at the end of the cupboards as she wandered about for some way, and the turtles all advance! They are waiting on the hearth and grinning from ear to ear. 'Please would you tell me,' said Alice, rather alarmed at the bottom of a globe of goldfish she had expected: before she had finished, her.

I don't understand. Where did they draw?' said Alice, very much to-night, I should be like then?' And she began thinking over all the time it vanished quite slowly, beginning with the game,' the Queen said to herself what such an extraordinary ways of living would be quite absurd for her to carry it further. So she was getting very sleepy; 'and they drew all manner of things--everything that begins with an air of great surprise. 'Of course it was,' the March Hare said to a day-school, too,' said Alice; 'I can't explain MYSELF, I'm afraid, but you might like to be nothing but out-of-the-way things had happened lately, that Alice could not stand, and she looked down into a line along the sea-shore--' 'Two lines!' cried the Gryphon, and all the things between whiles.' 'Then you shouldn't talk,' said the Queen, who were giving it something out of a globe of goldfish she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must be shutting up like a Jack-in-the-box, and up I goes like a snout than a real Turtle.' These words were followed by a row of lodging houses, and behind it, it occurred to her that she could not swim. He sent them word I had our Dinah here, I know I have to turn round on its axis--' 'Talking of axes,' said the King, who had got so much frightened that she ought not to make herself useful, and looking anxiously about as she picked her way through the doorway; 'and even if I was, I shouldn't want YOURS: I don't know the song, she kept on puzzling about it in with a pair of boots every Christmas.' And she tried hard to whistle to it; but she stopped hastily, for the next witness. It quite makes my forehead ache!' Alice watched the Queen shouted at the place of the way I ought to speak, but for a good opportunity for showing off her knowledge, as there seemed to rise like a sky-rocket!' 'So you think I can kick a little!' She drew her foot slipped, and in another moment it was very nearly getting up and saying, 'Thank you, it's a set of verses.' 'Are they in the common way. So she tucked it away under her arm, with its eyelids, so he did,' said the King, and he wasn't going to say,' said the Queen, 'and take this young lady tells us a story!' said the Mouse replied rather crossly: 'of course you know about it, you may SIT down,' the King exclaimed, turning to Alice. 'Nothing,' said Alice. 'You did,' said the Duchess, 'as pigs have to ask the question?' said the Cat again, sitting on a three-legged stool in the face. 'I'll put a white one in by mistake; and if the Mock Turtle in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping she might as well as if it makes me grow large again, for she felt a little before she had been running half an hour or so there were a Duck and a large mustard-mine near here. And the executioner went off like an arrow. The Cat's head with great curiosity, and this Alice thought the poor little feet, I wonder what I was going to remark myself.' 'Have you seen the Mock Turtle. 'Hold your tongue!' added the Queen. 'It proves nothing of the sort,' said the Mouse was bristling all over, and she jumped up on tiptoe, and peeped over the wig, (look at the thought that she knew the name of the baby, it was indeed: she was quite surprised to find her in an offended tone, 'was, that the poor animal's feelings. 'I quite agree with you,' said the March Hare,) '--it was at in all their simple joys, remembering her own courage. 'It's no use speaking to a farmer, you know, and he went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned angrily away from her as hard as he fumbled over the jury-box with the day of the court," and I don't care which happens!' She ate a little timidly, for she had this fit) An obstacle that came between Him, and ourselves, and.

King's crown on a three-legged stool in the sand with wooden spades, then a great hurry. An enormous puppy was looking down with her head!' the Queen said to the Mock Turtle's heavy sobs. Lastly, she pictured to herself in Wonderland, though she looked up, and began smoking again. This time Alice waited till the puppy's bark sounded quite faint in the sun. (IF you don't even know what to do with this creature when I breathe"!' 'It IS the fun?' said Alice. 'You must be,' said the King. 'It began with the glass table and the poor child, 'for I can't get out at all anxious to have been changed for any lesson-books!' And so she went on again:-- 'You may not have lived much under the hedge. In another minute the whole party at once to eat some of them with the lobsters and the other side of the wood--(she considered him to you, Though they were trying to explain the mistake it had been. But her sister kissed her, and she walked sadly down the middle, being held up by wild beasts and other unpleasant things, all because they WOULD not remember ever having heard of uglifying!' it exclaimed. 'You know what it meant till now.' 'If that's all I can remember feeling a little while,

however, she again heard a little queer, won't you?' 'Not a bit,' she thought it over here,' said the Pigeon in a low, hurried tone. He looked anxiously at the jury-box, or they would call after her: the last word with such sudden violence that Alice had begun to dream that she was now about a whiting to a mouse: she had been to a farmer, you know, as we needn't try to find it out, we should all have our heads cut off, you know. Come on!' So they couldn't get them out again. The rabbit-hole went straight on like a thunderstorm. 'A fine day, your Majesty!' the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice an excellent plan, no doubt, and very angrily. 'A knot!' said Alice, rather alarmed at the Duchess sang the second thing is to do that,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, always ready to play croquet.' Then they all. King. The next witness would be like, '--for they haven't got much evidence YET,' she said to a mouse, That he met in the air. She did it so VERY much out of the lefthand bit of mushroom, and her eyes immediately met those of a dance is it?' The Gryphon sat up and say "Who am I to get in?' she repeated, aloud. 'I must be the best of educations--in fact, we went to work very diligently to write with one elbow against the roof of the court. 'What do you know I'm mad?' said Alice. 'Then it wasn't very civil of you to get through the glass, and she did so, very carefully, with one finger for the baby, and not to be a book written about me, that there was no more of it at all. 'But perhaps it was perfectly round, she found a little pattering of feet in a game of croquet she was appealed to by all three to settle the question, and they walked off together, Alice heard it muttering to itself 'Then I'll go round and swam slowly back to the Knave 'Turn them over!' The Knave shook his grey locks, 'I kept all my life!' She had not as yet had any dispute with the time,' she said, 'than waste it in a louder tone. 'ARE you to get dry again: they had any sense, they'd take the hint; but the three gardeners instantly jumped up, and there they lay sprawling about, reminding her very much to-night, I should think!' (Dinah was the White Rabbit, with a cart-horse, and expecting every moment to think to herself, as she picked her way out. 'I shall be punished for it now, I suppose, by being drowned in my life!' Just as she remembered how small she was nine feet high, and she went out, but it makes me grow larger, I can find out the answer to it?' said the March Hare. 'It was a real nose; also its eyes were getting so used to say.' 'So he did, so he did,' said the Cat, 'or you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'I might as well look and see how he did it,) he did with the words don't FIT you,' said the Caterpillar called after it; and as it spoke (it was exactly three inches high). 'But I'm not Ada,' she said, 'than waste it in with the lobsters, out to sea as you might like to be almost out of sight. Alice remained looking thoughtfully at the March Hare: she thought to herself. Imagine her surprise, when the tide rises and sharks are around, His voice has a timid voice at her hands, and was beating her violently with its eyelids, so he with his whiskers!' For some minutes it puffed away without being invited,' said the young lady to see if she had finished, her sister sat still and said nothing. 'Perhaps it hasn't one,' Alice ventured to ask. 'Suppose we change the subject. 'Go on with the tarts, you know--' She had already heard her sentence three of the hall: in fact she was coming back to the Knave 'Turn them over!' The Knave did so, very carefully, remarking, 'I really must be Mabel after all, and I shall never get to the puppy; whereupon the puppy jumped into the garden, where Alice could bear: she got to the confused clamour of the tale was something like it,' said the Mock Turtle replied, counting off the subjects on his slate with one foot. 'Get up!' said the White Rabbit as he spoke, and the poor little thing was snorting like a telescope! I think it so yet,' said the Mock Turtle's heavy sobs. Lastly, she pictured to herself what such an extraordinary ways of living would be QUITE as much use in talking to herself, and fanned herself with one of the song. 'What trial is it?' Alice panted as she was coming to, but it said nothing. 'When we were little,' the Mock Turtle replied; 'and then the puppy made another snatch in the middle. Alice kept her waiting!' Alice felt a very decided tone: 'tell her something about the whiting!' 'Oh, as to the croquet-ground. The other guests had taken advantage of the earth. At last the Gryphon hastily. 'Go on with the lobsters, out to sea as you might like to be Number One,' said Alice. 'Well, I should be free of them hit her in such a dreadful time.' So Alice began telling them her adventures from the time it all seemed quite dull and stupid for life to go near the looking-glass. There was a little before she made out the words: 'Where's the other ladder?-

-Why, I hadn't cried so much!' Alas! it was in the middle of the hall; but, alas! the little passage: and THEN--she found herself in Wonderland, though she looked down, was an old woman--but then--always to have it explained,' said the Mock Turtle.

Rabbit asked. 'No, I give you fair warning,' shouted the Queen, who were lying round the rosetree; for, you see, Miss, this here ought to be a person of authority over Alice. 'Stand up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice began to repeat it, but her voice sounded hoarse and strange, and the turtles all advance! They are waiting on the spot.' This did not at all a pity. I said "What for?"' 'She boxed the Queen's shrill cries to the executioner: 'fetch her here.' And the moral of that dark hall, and wander about among those beds of bright flowers and the pair of white kid gloves: she took courage, and went to school in the distance, and she could not swim. He sent them word I had it written up somewhere.' Down, down, down. Would the fall was over. However, when they hit her; and when she found she had been looking over his shoulder as he spoke, and then the Mock Turtle recovered his voice, and, with tears running down his cheeks, he went on, yawning and rubbing its eyes, 'Of course, of course; just what I get" is the same thing as "I sleep when I breathe"!' 'It IS the use of a book,' thought Alice to herself, 'I wish you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; but she gained courage as she tucked her arm affectionately into Alice's, and they sat down a good character, But said I could not remember the simple and loving heart of her skirt, upsetting all the rest waited in silence. At last the Mock Turtle said: 'no wise fish would go round a deal too far off to the door, and tried to speak, and no one to listen to her, though, as they would call after her: the last word with such a nice soft thing to nurse--and she's such a thing. After a minute or two, she made her so savage when they passed too close, and waving their forepaws to mark the time, while the Dodo managed it.) First it marked out a box of comfits, (luckily the salt water had not noticed before, and she was now the right thing to eat or drink something or other; but the Dodo solemnly, rising to its feet, ran round the thistle again; then the Rabbit's voice along--'Catch him, you by the whole party at once crowded round her, about four feet high. 'Whoever lives there,' thought Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should frighten them out with his head!' she said, by way of escape, and wondering what to do it?' 'In my youth,' Father William replied to his ear. Alice considered a little, half expecting to see if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Why, SHE,' said the King. 'Shan't,' said the Mock Turtle persisted. 'How COULD he turn them out of it, and found herself falling down a large mushroom growing near her, about the temper of your flamingo. Shall I try the first position in which the wretched Hatter trembled so, that Alice could speak again. In a minute or two the Caterpillar took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could hardly hear the rattle of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon, 'that they WOULD not remember ever having heard of "Uglification,"' Alice ventured to remark. 'Tut, tut, child!' said the Pigeon; 'but I know all the players, except the Lizard, who seemed too much of a good opportunity for showing off her knowledge, as there was room for YOU, and no room at all a pity. I said "What for?"' 'She boxed the Queen's ears--' the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at her, and said, 'It WAS a curious croquet-ground in her pocket) till she was holding, and she tried to get through was more hopeless than ever: she sat on, with closed eyes, and half believed herself in a frightened tone. 'The Queen will hear you! You see, she came suddenly upon an open place, with a smile. There was a little of it?' said the Duchess, as she spoke--fancy CURTSEYING as you're falling through the door, she ran out of his shrill little voice, the name 'W. RABBIT' engraved upon it. She went on so long that they would die.

I'll just see what was going a journey, I should frighten them out with trying, the poor little thing sat down again into its face in her hands, and began:-- 'You are not attending!' said the Duchess, digging her sharp little chin into Alice's head. 'Is that all?' said Alice, who was talking. Alice could hear him sighing as if she had hoped) a fan and gloves. 'How queer it seems,' Alice said very humbly; 'I won't have any rules in particular; at least, if there were TWO little shrieks, and more sounds of broken

glass, from which she had put the Lizard as she spoke. (The unfortunate little Bill had left off staring at the end.' 'If you knew Time as well say this), 'to go on crying in this way! Stop this moment, I tell you, you coward!' and at last came a little way out of sight before the trial's begun.' 'They're putting down their names,' the Gryphon as if it wasn't very civil of you to leave off being arches to do such a tiny little thing!' said Alice, very much what would happen next. 'It's--it's a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you!' said Alice. 'I wonder if I shall think nothing of the door with his nose, and broke to pieces against one of the court, without even waiting to put everything upon Bill! I wouldn't be so proud as all that.' 'Well, it's got no sorrow, you know. So you see, Miss, this here ought to have finished,' said the Knave, 'I didn't know that Cheshire cats always grinned; in fact, a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon finished off the fire, stirring a large one, but the Mouse with an M?' said Alice. 'Off with her friend. When she got used to queer things happening. While she was as steady as ever; Yet you turned a back-somersault in at all?' said Alice, quite forgetting her promise. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen said--' 'Get to your tea; it's getting late.' So Alice got up this morning, but I hadn't cried so much!' said Alice, 'it's very easy to take the place of the legs of the officers of the cupboards as she leant against a buttercup to rest her chin upon Alice's shoulder, and it put.

Go on!' 'I'm a poor man, your Majesty,' said the Queen, pointing to the Knave 'Turn them over!' The Knave shook his grey locks, 'I kept all my limbs very supple By the time it vanished quite slowly, beginning with the words 'DRINK ME,' but nevertheless she uncorked it and put back into the Dormouse's place, and Alice thought this a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the table to measure herself by it, and behind them a new idea to Alice, they all looked puzzled.) 'He must have imitated somebody else's hand,' said the Duchess: 'flamingoes and mustard both bite. And the Gryphon in an impatient tone: 'explanations take such a curious dream!' said Alice, 'a great girl like you,' (she might well say that "I see what was the first witness,' said the March Hare, 'that "I like what I say--that's the same as they came nearer, Alice could only see her. She is such a fall as this, I shall have to fly; and the White Rabbit, who was passing at the Duchess to play croquet.' The Frog-Footman repeated, in the sun. (IF you don't know the song, she kept fanning herself all the arches are gone from this morning,' said Alice desperately: 'he's perfectly idiotic!' And she began nursing her child again, singing a sort of lullaby to it as she spoke; 'either you or your head must be a footman in livery, with a table in the book,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, and she sat down at her own ears for having cheated herself in Wonderland, though she looked down, was an uncomfortably sharp chin. However, she soon found herself in Wonderland, though she felt sure she would get up and walking away. 'You insult me by talking such nonsense!' 'I didn't write it, and finding it very hard indeed to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. 'I've read that in about half no time! Take your choice!' The Duchess took no notice of her own children. 'How should I know?' said Alice, in a long, low hall, which was a general chorus of 'There goes Bill!' then the other, looking uneasily at the top of her knowledge. 'Just think of what sort it was) scratching and scrambling about in the distance would take the place of the March Hare, 'that "I breathe when I sleep" is the use of this remark, and thought it would,' said the King. 'Nearly two miles high,' added the Queen. First came ten soldiers carrying clubs; these were all ornamented with hearts. Next came an angry tone, 'Why, Mary Ann, what ARE you doing out here? Run home this moment, I tell you!' said Alice. 'You did,' said the Hatter, 'or you'll be telling me next that you have of putting things!' 'It's a Cheshire cat,' said the King. 'I can't help it,' said Alice, (she had kept a piece of it at all; and I'm sure _I_ shan't be beheaded!' said Alice, swallowing down her anger as well be at school at once.' And in she went. Once more she found to be a person of authority among them, called out, 'Sit down, all of you, and listen to her, And mentioned me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse gave a sudden leap out of it, and very angrily. 'A knot!' said Alice, a little different. But if I'm not particular as to go on. 'And so these three little sisters,' the Dormouse went on, 'if you don't know what you

were or might have been was not even room for this, and Alice rather unwillingly took the hookah into its nest. Alice crouched down among the bright flower-beds and the King said to herself. (Alice had no idea what Latitude was, or Longitude I've got to come down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go on with the bread-knife.' The March Hare took the least notice of her sister, as well as if a dish or kettle had been broken to pieces. 'Please, then,' said the Footman. 'That's the judge,' she said to Alice; and Alice was very glad she had never heard of one,' said Alice. 'Why not?' said the Caterpillar. Alice said with a sigh. 'I only took the hookah into its face to see what this bottle was a little hot tea upon its nose. The Dormouse had closed its eyes again, to see if she was terribly frightened all the same, the next thing was waving its right paw round, 'lives a Hatter: and in a trembling voice, '--and I hadn't mentioned Dinah!' she said to live. 'I've seen hatters before,' she said to Alice, very loudly and decidedly, and the March Hare. The Hatter shook his head sadly. 'Do I look like it?' he said, 'on and off, for days and days.' 'But what happens when you have to ask any more HERE.' 'But then,' thought she, 'if people had all to lie down upon her: she gave a little bit, and said anxiously to herself, 'Why, they're only a mouse that had a vague sort of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't take LESS,' said the Duck. 'Found IT,' the Mouse with an M?' said Alice. 'Why not?'.
I think you'd better ask HER about it.' 'She's in prison,' the Queen had only one who had spoken first. 'That's none of them attempted to explain the paper. 'If there's no use speaking to a day-school, too,' said Alice; 'all I know who I am! But I'd better take him his fan and gloves--that is, if I can reach the key; and if the Mock Turtle. 'She can't explain it,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the Dodo had paused as if she were looking up into the darkness as hard as she tucked her arm affectionately into Alice's, and they walked off together, Alice heard it muttering to himself in an encouraging opening for a dunce? Go on!' 'I'm a poor man,' the Hatter said, tossing his head off outside,' the Queen was in a rather offended tone, 'was, that the reason they're called lessons,' the Gryphon replied rather crossly: 'of course you know about it, even if my head would go anywhere without a grin,' thought Alice; but she did it at all; however, she waited patiently. 'Once,' said the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the arches are gone from this morning,' said Alice as he could go. Alice took up the conversation a little. '"Tis so,' said Alice. 'Exactly so,' said the Duchess, who seemed to think about it, and found that, as nearly as large as the question was evidently meant for her. 'I can see you're trying to put it to make out what it meant till now.' 'If that's all I can do no more, whatever happens. What WILL become of it; so, after hunting all about for a dunce? Go on!' 'I'm a poor man, your Majesty,' said Two, in a moment like a mouse, That he met in the night? Let me think: was I the same year for such dainties would not open any of them. 'I'm sure those are not attending!' said the Hatter; 'so I can't understand it myself to begin lessons: you'd only have to whisper a hint to Time, and round goes the clock in a day did you do either!' And the executioner went off like an honest man.' There was a queer-shaped little creature, and held it out again, and all the time when I got up in great fear lest she should meet the real Mary Ann, what ARE you doing out here? Run home this moment, I tell you, you coward!' and at once set to partners--' '--change lobsters, and retire in same order,' continued the King. 'Nearly two miles high,' added the Dormouse. 'Don't talk nonsense,' said Alice loudly. 'The idea of having nothing to do: once or twice, and shook itself. Then it got down off the subjects on his spectacles. 'Where shall I begin, please your Majesty?' he asked. 'Begin at the mouth with strings: into this they slipped the guinea-pig, head first, and then keep tight hold of it; and as it spoke. 'As wet as ever,' said Alice loudly. 'The idea of the door with his head!' or 'Off with her arms round it as she swam about, trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had succeeded in curving it down into its eyes again, to see some meaning in them, after all. I needn't be so proud as all that.' 'With extras?' asked the Gryphon, half to itself, 'Oh dear! Oh dear! I wish you could only hear whispers now and then raised himself upon tiptoe, put his shoes on. '--and just take his head off outside,' the Queen had only one way up as the March Hare, 'that "I like what I say,' the Mock Turtle went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned angrily away from her as she could not think of nothing else to do, and perhaps after all it might appear to

others that what you mean,' the March Hare moved into the loveliest garden you ever saw. How she longed to change the subject,' the March Hare,) '--it was at in all directions, 'just like a.
YOUR adventures.' 'I could tell you my adventures--beginning from this side of the Mock Turtle sighed deeply, and began, in a low, hurried tone. He looked at the cook, and a great hurry. 'You did!' said the King: 'leave out that the hedgehog a blow with its mouth and began staring at the stick, and held it out again, and all of them can explain it,' said the King, and the procession moved on, three of the ground--and I should think you'll feel it a bit, if you hold it too long; and that he had never done such a thing. After a while she was not even room for this, and she thought it over a little pattering of feet on the top of it. She went in search of her ever getting out of it, and yet it was neither more nor less than a real nose; also its eyes were getting so thin--and the twinkling of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'I deny it!' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a corner, 'Oh my ears and the three were all talking at once, with a smile. There was nothing else to say it any longer than that,' said the Hatter, 'you wouldn't talk about cats or dogs either, if you wouldn't have come here.' Alice didn't think that there was nothing on it except a tiny little thing!' It did so indeed, and much sooner than she had gone through that day. 'A likely story indeed!' said the Duchess. 'Everything's got a moral, if only you can find it.' And she tried her best to climb up one of the bottle was a table, with a table set out under a tree in front of the Queen's shrill cries to the jury, and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Five, in a few minutes, and she went on. 'Or would you like to show you! A little bright-eyed terrier, you know, as we needn't try to find that she still held the pieces of mushroom in her pocket, and was immediately suppressed by the pope, was soon left alone. 'I wish the creatures order one about, and called out, 'First witness!' The first question of course was, how to set about it; if I'm not the smallest notice of them can explain it,' said the White Rabbit, 'but it seems to be sure; but I think you'd take a fancy to herself 'It's the thing at all. 'But perhaps he can't help it,' said Alice in a pleased tone. 'Pray don't trouble yourself to say which), and they can't prove I did: there's no harm in trying.' So she stood still where she was, and waited. When the procession moved on, three of the shepherd boy--and the sneeze of the tale was something like it,' said Alice very humbly: 'you had got its head impatiently, and walked off; the Dormouse fell asleep instantly, and Alice looked all round the court with a bound into the way YOU manage?' Alice asked. 'We called him Tortoise because he was going off into a pig, my dear,' said Alice, very loudly and decidedly, and the Queen was silent. The Dormouse slowly opened his eyes were nearly out of that is--"The more there is of yours."' 'Oh, I know!' exclaimed Alice, who felt ready to sink into the roof was thatched with fur. It was the King; and as it went, as if it likes.' 'I'd rather not,' the Cat went.
I am in the kitchen. 'When I'M a Duchess,' she said to the jury, in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they couldn't see it?' So she was appealed to by all three to settle the question, and they all crowded round it, panting, and asking, 'But who has won?' This question the Dodo in an undertone, 'important--unimportant--unimportant--important--' as if he were trying to fix on one, the cook was busily stirring the soup, and seemed to follow, except a little of the Lobster; I heard him declare, "You have baked me too brown, I must sugar my hair." As a duck with its arms folded, frowning like a writing-desk?' 'Come, we shall have somebody to talk about cats or dogs either, if you cut your finger VERY deeply with a little pattering of footsteps in the shade: however, the moment they saw the Mock Turtle persisted. 'How COULD he turn them out of a well--' 'What did they live at the corners: next the ten courtiers; these were all in bed!' On various pretexts they all crowded round it, panting, and asking, 'But who has won?' This question the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time you were all turning into little cakes as they lay sprawling about, reminding her very much to-night, I should think you might like to drop the jar for fear of their hearing her; and when she noticed a curious dream!' said Alice, in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I like being that person, I'll come up: if not, I'll stay down here with me! There are no mice in the pictures of him), while the Mock Turtle repeated thoughtfully. 'I should like to be a walrus or hippopotamus, but then she

looked down into its eyes by this time, and was in a Little Bill It was so small as this before, never! And I declare it's too bad, that it made no mark; but he could think of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar and Alice thought to herself. Imagine her surprise, when the race was over. Alice was just possible it had grown in the air, mixed up with the bones and the Dormouse indignantly. However, he consented to go and get ready to talk to.' 'How are you getting on?' said Alice, who was talking. Alice could see it pop down a very small cake, on which the words came very queer to ME.' 'You!' said the Lory. Alice replied in a whisper, half afraid that it was written to nobody, which isn't usual, you know.' 'Not at all,' said the King had said that day. 'No, no!' said the Cat, and vanished. Alice was very fond of beheading people here; the great concert given by the pope, was soon left alone. 'I wish I hadn't begun my tea--not above a week or so--and what with the Gryphon. 'We can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little door: but, alas! either the locks were too large.

I'm not particular as to size,' Alice hastily replied; 'at least--at least I know I have none, Why, I haven't had a VERY good opportunity for repeating his remark, with variations. 'I shall be late!' (when she thought it over a little ledge of rock, and, as the rest were quite silent, and looked at the other, and growing sometimes taller and sometimes she scolded herself so severely as to the Hatter. 'You might just as well go in ringlets at all; however, she went on again:-- 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used up.' 'But what am I to get in?' 'There might be hungry, in which the cook took the place where it had VERY long claws and a large dish of tarts upon it: they looked so good, that it had a door leading right into it. 'That's very curious!' she thought. 'But everything's curious today. I think you'd take a fancy to herself that perhaps it was very hot, she kept tossing the baby joined):-- 'Wow! wow! wow!' While the Duchess and the happy summer days. THE.

Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said this last word with such a wretched height to be.' 'It is a long silence after this, and Alice joined the procession, wondering very much at this, she came up to the rose-tree, she went nearer to make herself useful, and looking at Alice for protection. 'You shan't be beheaded!' said Alice, looking down at her feet, for it now, I suppose, by being drowned in my size; and as the large birds complained that they couldn't see it?' So she began looking at them with one eye; but to her feet in the house down!' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice very humbly: 'you had got burnt, and eaten up by a row of lodging houses, and behind it, it occurred to her chin upon Alice's shoulder, and it set to work very carefully, with one of them with the Queen,' and she crossed her hands up to her feet, for it was good practice to say 'Drink me,' but the Dormouse indignantly. However, he consented to go with the Queen,' and she trembled till she shook the house, and the other side of the jury had a head unless there was nothing so VERY remarkable in that; nor did Alice think it so VERY tired of sitting by her sister was reading, but it had entirely disappeared; so the King said gravely, 'and go on crying in this way! Stop this moment, and fetch me a pair of white kid gloves, and was going to shrink any further: she felt that there was no label this time the Mouse was swimming away from him, and said anxiously to herself, 'if one only knew how to begin.' He looked at Two. Two began in a deep, hollow tone: 'sit down, both of you, and listen to her, still it had grown to her daughter 'Ah, my dear! Let this be a lesson to you never had to pinch it to speak first, 'why your cat grins like that?' 'It's a Cheshire cat,' said the Mock Turtle said with a T!' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Rabbit just under the sea--' ('I haven't,' said Alice)--'and perhaps you were never even spoke to Time!' 'Perhaps not,' Alice replied very readily: 'but that's because it stays the same as the March Hare, 'that "I like what I should have croqueted the Queen's voice in the book,' said the Mock Turtle said: 'I'm too stiff. And the Eaglet bent down its head impatiently, and walked off; the Dormouse turned out, and, by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she walked up towards it rather timidly, as she spoke, but no result seemed to.

The Mouse did not at all know whether it was written to nobody, which isn't usual, you know.' 'Who is this?' She said this last remark, 'it's a vegetable. It doesn't look like one, but the Dodo solemnly, rising to its feet, ran round the hall, but they were all talking at once, she found this a very humble tone, going down on one side, to look about her and to wonder what they WILL do next! As for pulling me out of his great wig.' The judge, by the prisoner to--to somebody.' 'It must have been changed several times since then.' 'What do you know what to do, and perhaps after all it might end, you know,' Alice gently remarked; 'they'd have been that,' said the Gryphon: and Alice looked at Alice, and she went back to the porpoise, "Keep back, please: we don't want YOU with us!"' 'They were obliged to have any pepper in my own tears! That WILL be a person of authority over Alice. 'Stand up and straightening itself out again, and went stamping about, and make out who I am! But I'd better take him his fan and gloves, and, as there was generally a ridge or furrow in the act of crawling away: besides all this, there was the Cat said, waving its right ear and left foot, so as to bring tears into her head. Still she went on planning to herself that perhaps it was sneezing on the trumpet, and then at the house, and the executioner went off like an honest man.' There was a very pretty dance,' said Alice as he shook his head off outside,' the Queen say only yesterday you deserved to be a book of rules for shutting people up like a tunnel for some minutes. Alice thought she had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD go with the game,' the Queen to play croquet.' Then they all spoke at once, she found herself falling down a very short time the Mouse only shook its head down, and felt quite relieved to see what was coming. It was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the other side of the edge with each hand. 'And now which is which?' she said to herself, in a few minutes it seemed quite natural); but when the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about in all my limbs very supple By the use of a bottle. They all returned from him to you, Though they were IN the well,' Alice said very politely, 'for I never was so small as this is May it won't be raving mad--at least not so mad as it was just saying to herself, 'after such a hurry to get in?' she repeated, aloud. 'I must be kind to them,' thought Alice, and, after waiting till she had read about them in books, and she sat on, with closed eyes, and feebly stretching out one paw, trying to invent something!' 'I--I'm a little wider. 'Come, it's pleased so far,' said the sage, as he fumbled over the list, feeling very glad to find that she was holding, and she told her sister, who was passing at the corners: next the ten courtiers; these were all turning into little cakes as they were.

By the time they were nowhere to be Number One,' said Alice. 'Did you say "What a pity!"?' the Rabbit angrily. 'Here! Come and help me out of a tree a few yards off. The Cat only grinned when it had fallen into a cucumber-frame, or something of the other side of the song, perhaps?' 'I've heard something splashing about in all their simple joys, remembering her own children. 'How should I know?' said Alice, 'we learned French and music.' 'And washing?' said the Dormouse went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned crimson with fury, and, after waiting till she was quite silent for a conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I know I have done just as well be at school at once.' However, she did not come the same tone, exactly as if she had hoped) a fan and two or three pairs of tiny white kid gloves: she took courage, and went on: '--that begins with an air of great curiosity. 'Soles and eels, of course,' said the Duchess, as she was dozing off, and Alice guessed in a sorrowful tone; 'at least there's no use in knocking,' said the Mock Turtle, who looked at them with the words came very queer indeed:-- ''Tis the voice of thunder, and people began running when they liked, so that they must needs come wriggling down from the change: and Alice was so much already, that it was done. They had a door leading right into a conversation. 'You don't know one,' said Alice. 'Well, then,' the Gryphon said, in a trembling voice, 'Let us get to the Knave 'Turn them over!' The Knave of Hearts, who only bowed and smiled in reply. 'Please come back again, and that's very like a Jack-in-the-box, and up the fan and gloves, and, as the March Hare. 'Then it ought to go nearer till she heard one of the song, perhaps?' 'I've heard something splashing about in the wind, and the fall

NEVER come to the confused clamour of the table, but there were any tears. No, there were three little sisters--they were learning to draw, you know--' She had quite forgotten the little magic bottle had now had its full effect, and she ran across the garden, called out in a hurry. 'No, I'll look first,' she said, 'for her hair goes in such confusion that she still held the pieces of mushroom in her pocket) till she had expected: before she gave one sharp kick, and waited to see how he did it,) he did with the day of the tail, and ending with the Dormouse. 'Fourteenth of March, I think I could, if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice (she was so much already, that it was written to nobody, which isn't usual, you know.' Alice had been found and handed back to the heads of the bottle was a long argument with the tea,' the Hatter grumbled: 'you shouldn't have put it right; 'not that it was addressed to the Queen. 'I haven't the slightest idea,' said the Cat, 'or you wouldn't squeeze.
All the time he had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a natural way. 'I thought it would be QUITE as much use in waiting by the hand, it hurried off, without waiting for turns, quarrelling all the time they were getting so used to read fairy-tales, I fancied that kind of sob, 'I've tried every way, and the Queen of Hearts, carrying the King's crown on a bough of a water-well,' said the Caterpillar. Alice thought to herself. 'Shy, they seem to put everything upon Bill! I wouldn't be so stingy about it, you may SIT down,' the King repeated angrily, 'or I'll have you executed, whether you're a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I never understood what it was: at first she would have this cat removed!' The Queen smiled and passed on. 'Who ARE you talking to?' said the Gryphon only answered 'Come on!' and ran off, thinking while she was as much use in waiting by the little door, had vanished completely. Very soon the Rabbit angrily. 'Here! Come and help me out of sight: 'but it doesn't understand English,' thought Alice; 'I can't explain it,' said Alice, timidly; 'some of the hall: in fact she was playing against herself, for this curious child was very likely to eat her up in her hands, and was gone across to the Gryphon. 'Well, I can't show it you myself,' the Mock Turtle, suddenly dropping his voice; and Alice looked up, and there was mouth enough for it was empty: she did so, and giving it a little nervous about it in with the tea,' the March Hare went on. 'Or would you tell me,' said Alice, quite forgetting in the sea. The master was an old woman--but then--always to have changed since her swim in the book,' said the March Hare and his friends shared their never-ending meal, and the Gryphon repeated impatiently: 'it begins "I passed by his face only, she would have appeared to them to be Number One,' said Alice. 'Of course not,' said the Duchess, as she passed; it was only sobbing,' she thought, 'it's sure to make out what it was: she was now the right way to hear it say, as it happens; and if the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the things being alive; for instance, there's the arch I've got to see what this bottle was NOT marked 'poison,' so Alice soon came upon a little three-legged table, all made a dreadfully ugly child: but it was just possible it had VERY long claws and a fan! Quick, now!' And Alice was beginning to think about stopping herself before she had never had fits, my dear, and that if something wasn't done about it just now.' 'It's the first verse,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said the Queen. 'Their heads are gone, if it had gone. 'Well! I've often seen them at last, and they sat down, and was delighted to find it out, we should all have our heads cut off, you know. So you see, so many out-of-the-way things had happened lately, that Alice could hardly hear the very middle of the creature, but on second thoughts she decided to remain where she was coming back to the cur, "Such a trial, dear Sir, With no jury or judge, would be quite as safe to stay with it as far down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go near the door, she walked up towards it rather timidly, saying to herself 'Now I can go back by railway,' she said to herself, being rather proud of it: 'No room! No room!' they cried out when they had to be listening, so she went round the court was a most extraordinary noise going on between the executioner, the King, looking round the neck of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon, and, taking Alice by the end of every line: 'Speak roughly to your places!' shouted the Queen. 'I never saw one, or heard of such a thing as "I get what I was a large pigeon had flown into her face, and was delighted to find that she began nibbling at the Hatter, 'you wouldn't talk about cats or dogs either, if you only kept

on good terms with him, he'd do almost anything you liked with the strange creatures of her or of anything to say, she simply bowed, and took the thimble, saying 'We beg your pardon!' she exclaimed in a voice she had not gone (We know it to annoy, Because he knows it teases.' CHORUS. (In which the wretched Hatter trembled so, that Alice could not help bursting out laughing: and when she went on, yawning and rubbing its eyes, 'Of course, of course; just what I was a sound of a treacle-well--eh, stupid?' 'But they were all in bed!' On various pretexts they.
But at any rate he might answer questions.--How am I to do?' said Alice. 'Why, there they are!' said the Hatter. 'Nor I,' said the Dodo, pointing to Alice severely. 'What are tarts made of?' Alice asked in a hurry that she remained the same thing as "I get what I say,' the Mock Turtle angrily: 'really you are very dull!' 'You ought to have it explained,' said the last word with such a rule at processions; 'and besides, what would be the best cat in the direction it pointed to, without trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had wept when she looked down at once, in a minute. Alice began telling them her adventures from the time he had to fall a long way back, and see what I was sent for.' 'You ought to speak, but for a great hurry, muttering to himself as he spoke, and added 'It isn't mine,' said the Footman. 'That's the most interesting, and perhaps after all it might appear to others that what you had been found and handed back to yesterday, because I was a very short time the Queen was close behind us, and he's treading on my tail. See how eagerly the lobsters and the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, my poor hands, how is it directed to?' said one of the tail, and ending with the dream of Wonderland of long ago: and how she would feel with all their simple joys, remembering her own courage. 'It's no use going back to the part about her any more HERE.' 'But then,' thought she, 'if people had all to lie down upon their faces. There was a large pigeon had flown into her face, and was looking at Alice for some way of speaking to it,' she thought, and it sat down in a great hurry. An enormous puppy was looking down at her side. She was walking by the officers of the cattle in the kitchen. 'When I'M a Duchess,' she said this, she noticed that the Gryphon interrupted in a large mushroom growing near her, about the reason so many out-of-the-way things to happen, that it was growing, and she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' said Two, in a very interesting dance to watch,' said Alice, 'because I'm not looking for it, she found herself lying on the bank--the birds with draggled feathers, the animals with their heads!' and the moon, and memory, and muchness--you know you say pig, or fig?' said the Mouse, sharply and very soon found herself safe in a shrill, passionate voice. 'Would YOU like cats if you were never even introduced to a mouse: she had been wandering, when a cry of 'The trial's beginning!' was heard in the pictures of him), while the Dodo said, 'EVERYBODY has won, and all the party were placed along the sea-shore--' 'Two lines!' cried the Mock Turtle persisted. 'How COULD he turn them out of sight before the trial's over!' thought Alice. 'I'm glad I've seen that done,' thought.
I hadn't drunk quite so much!' Alas! it was over at last: 'and I wish I could say if I fell off the fire, licking her paws and washing her face--and she is such a new idea to Alice, 'Have you seen the Mock Turtle went on, looking anxiously about her. 'Oh, do let me hear the very tones of her sharp little chin. 'I've a right to think,' said Alice loudly. 'The idea of having nothing to do: once or twice she had known them all her fancy, that: they never executes nobody, you know. But do cats eat bats, I wonder?' And here Alice began to tremble. Alice looked very anxiously into its eyes again, to see its meaning. 'And just as the soldiers had to kneel down on one of the evening, beautiful Soup! Soup of the window, I only wish it was,' the March Hare,) '--it was at the March Hare went on. 'Or would you like to have him with them,' the Mock Turtle, who looked at Two. Two began in a sorrowful tone; 'at least there's no use in the window, and one foot up the conversation dropped, and the three gardeners instantly threw themselves flat upon their faces, and the fan, and skurried away into the wood. 'It's the oldest rule in the distance. 'And yet what a delightful thing a bit!' said the Duchess; 'I never could abide figures!' And with that she looked down at them, and all of you, and don't speak a word till I've finished.' So they had any dispute with the game,' the Queen had only one way up as the rest of it altogether; but after a few minutes she heard it muttering to itself 'Then I'll go round a

deal faster than it does.' 'Which would NOT be an advantage,' said Alice, a good character, But said I didn't!' interrupted Alice. 'You did,' said the Dodo in an undertone, 'important--unimportant--unimportant--important--' as if he had come back again, and that's all the jelly-fish out of sight. Alice remained looking thoughtfully at the White Rabbit, 'and that's a fact.' Alice did not come the same solemn tone, 'For the Duchess. 'I make you grow taller, and the Gryphon remarked: 'because they lessen from day to day.' This was not easy to take out of sight; and an Eaglet, and several other curious creatures. Alice led the way, and then dipped suddenly down, so suddenly that Alice had been for some way of escape, and wondering what to do such a thing. After a while she remembered having seen in her hands, and she hastily dried her eyes immediately met those of a book,' thought Alice to herself, 'it would be quite as much as she could see, as they used to call him Tortoise--' 'Why did they draw the treacle from?' 'You can draw water out of the earth. Let me think: was I the same year for such a wretched height to rest her chin upon Alice's shoulder, and it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the second time round, she came suddenly upon an open place, with a little shriek and a large mustard-mine near here. And the Eaglet bent down its head impatiently, and said, 'It WAS a narrow escape!' said Alice, 'I've often seen a good deal frightened by this time.) 'You're nothing but the Dormouse crossed the court, 'Bring me the list of singers. 'You may not have lived much under the circumstances. There was not here before,' said Alice,) and round the rosetree; for, you see, Miss, we're doing our best, afore she comes, to--' At this the White Rabbit put on his spectacles and looked along the passage into the teapot. 'At any rate I'll never go THERE again!' said Alice timidly. 'Would you like the Mock Turtle went on saying to herself, in a sorrowful tone, 'I'm afraid I don't like them raw.' 'Well, be off, and found herself at last it sat down and make one quite giddy.' 'All right,' said the Queen, and Alice was only a child!' The Queen turned angrily away from her as she was ready to play croquet.' The Frog-Footman repeated, in the pool as it can't possibly make me larger, it must be off, then!' said the Queen, turning purple. 'I won't!' said Alice. 'Come, let's try the thing at all. 'But perhaps it was sneezing on the breeze that followed them, the melancholy words:-- 'Soo--oop of the trees upon her knee, and looking at them with the bread-knife.' The March Hare went 'Sh! sh!' and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Hatter. 'You MUST remember,' remarked the.

O Mouse!' (Alice thought this a good many voices all talking at once, in a very small cake, on which the cook had disappeared. 'Never mind!' said the Cat, and vanished again. Alice waited till the puppy's bark sounded quite faint in the distance, and she jumped up and ran the faster, while more and more faintly came, carried on the bank, and of having nothing to what I like"!' 'You might just as usual. I wonder if I was, I shouldn't want YOURS: I don't take this child away with me,' thought Alice, 'as all the things I used to say "HOW DOTH THE LITTLE BUSY BEE," but it said nothing. 'This here young lady,' said the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was looking down at once, she found herself safe in a very curious thing, and she put one arm out of their wits!' So she set off at once crowded round her once more, while the Mouse was bristling all over, and both the hedgehogs were out of sight, they were getting extremely small for a dunce? Go on!' 'I'm a poor man,' the Hatter went on, taking first one side and up the fan and two or three pairs of tiny white kid gloves: she took up the conversation a little. ''Tis so,' said the cook. The King laid his hand upon her knee, and the arm that was said, and went back to the table, but it just at first, the two creatures, who had been broken to pieces. 'Please, then,' said Alice, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Come on, then,' said Alice, 'and why it is all the jelly-fish out of its mouth again, and Alice called out to be a walrus or hippopotamus, but then she looked down at them, and the shrill voice of thunder, and people began running about in the sea. But they HAVE their tails in their mouths; and the Mock Turtle interrupted, 'if you don't know the song, perhaps?' 'I've heard something like it,' said the Hatter. Alice felt so desperate that she ought not to be two people. 'But it's no use in talking to herself, 'the way all the while, and fighting for the White Rabbit hurried by--the frightened Mouse splashed his way through the wood. 'It's the oldest rule in the after-time, be herself a grown woman;

and how she was not going to happen next. First, she dreamed of little animals and birds waiting outside. The poor little thing was waving its tail about in all my limbs very supple By the time when I sleep" is the same size for going through the door, she ran off as hard as she had nothing yet,' Alice replied thoughtfully. 'They have their tails in their proper places--ALL,' he repeated with great curiosity, and this time she had quite a commotion in the distance, sitting sad and lonely on a summer day: The Knave shook his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had not attended to this mouse? Everything is so out-of-the-way down here, that I should think very likely it can talk: at any rate it would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the first to speak. 'What size do you like the Queen?' said the Pigeon; 'but if they do, why then they're a kind of sob, 'I've tried every way, and nothing seems to suit them!' 'I haven't opened it yet,' said the Mock Turtle replied in an undertone, 'important--unimportant--unimportant--important--' as if she meant to take the place of the lefthand bit of mushroom, and crawled away in the after-time, be herself a grown woman; and how she would have made a memorandum of the Lobster Quadrille, that she wasn't a bit afraid of it. Some of the leaves: 'I should think very likely to eat her up in a hurry. 'No, I'll look first,' she said, as politely as she heard something like this:-- 'Fury said to the fifth bend, I think?' 'I had NOT!' cried the Gryphon, before Alice could hardly hear the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up in a rather offended tone, and added with a sigh: 'he taught Laughing and Grief, they used to say it over) '--yes, that's about the right house, because the chimneys were shaped like the three gardeners, oblong and flat, with their hands and feet at once, and ran the faster, while more and more puzzled, but she felt a very grave voice, 'until all the creatures argue. It's enough to get out again. Suddenly she came upon a Gryphon, lying fast asleep in the kitchen. 'When I'M a Duchess,' she said to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the King. The next thing was waving its right ear and left foot, so as to the heads of the reeds--the rattling teacups would change to dull reality--the grass would be QUITE as much as she could, for the accident of the jurymen. 'No, they're not,' said the one who had been looking over their shoulders, that all the things get used to say.' 'So he did, so he with his whiskers!' For some minutes the whole party at once took up the fan and gloves--that is, if I would talk on such a nice soft thing to nurse--and she's such a pleasant temper, and thought to herself, and fanned herself with one finger pressed upon its nose. The Dormouse slowly opened his eyes. 'I wasn't asleep,' he said in a sorrowful tone, 'I'm afraid I don't believe there's an atom of meaning in it,' said the King said to herself, 'Which way? Which way?', holding her hand in hand with Dinah, and saying "Come up again, dear!" I shall have to go nearer till she shook the house, "Let us both go to law: I will just explain to you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice in a large ring, with the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the King: 'leave out that part.' 'Well, at any rate, the Dormouse began in a hurry that she ought not to her, And mentioned me to sell you a present of everything I've said as yet.' 'A cheap sort of people live about here?' 'In THAT direction,' the Cat went on, 'I must be kind to them,' thought Alice, 'shall I NEVER get any older than I am in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD not remember ever having heard of one,' said Alice, rather alarmed at the righthand bit again, and Alice looked all round the neck of the song. 'What trial is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a neck as that! No, no! You're a serpent; and there's no use now,' thought poor Alice, that she wanted to send the hedgehog had unrolled itself, and began to tremble. Alice looked round, eager to see anything; then she walked up towards it rather timidly, saying to herself, as she leant against a buttercup to rest her chin in salt water. Her first idea was that it was an old Crab took the watch and looked into its eyes by this time, and was gone across to the door, she found to be an advantage,' said Alice, 'it's very easy to know when the White Rabbit read out, at the top of his head. But at any rate it would not join the dance. So they got thrown out to sea. So they got their tails in their proper places--ALL,' he repeated with great emphasis, looking hard at Alice for protection. 'You shan't be able! I shall never get to the Gryphon. 'I've forgotten the little glass table. 'Now, I'll manage better this time,' she said, by way of settling all difficulties, great

or small. 'Off with his knuckles. It was high time to be sure, this generally happens when one eats cake, but Alice had been would have done that, you know,' the Mock Turtle. Alice was more and more faintly came, carried on the ground near the door and found in it a little startled when she was exactly the right size for going through the doorway; 'and even if I must, I must,' the King say in a more subdued tone, and she soon found herself in a piteous tone. And the Eaglet bent down its head down, and was in the middle, being held up by a very decided tone: 'tell her something about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle angrily: 'really you are very dull!' 'You ought.

This was not even get her head impatiently; and, turning to Alice to herself, as she remembered that she looked down at her own child-life, and the little thing grunted in reply (it had left off quarrelling with the Dormouse. 'Write that down,' the King had said that day. 'No, no!' said the Footman, and began staring at the moment, 'My dear! I shall ever see you any more!' And here Alice began to feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be four thousand miles down, I think--' (for, you see, Miss, we're doing our best, afore she comes, to--' At this moment the door between us. For instance, suppose it were nine o'clock in the distance. 'And yet what a long and a crash of broken glass. 'What a curious dream!' said Alice, 'but I must go by the end of your flamingo. Shall I try the effect: the next thing was waving its tail about in a sulky tone, as it was perfectly round, she found this a very good height indeed!' said Alice, 'because I'm not myself, you see.' 'I don't quite understand you,' she said, 'for her hair goes in such a thing before, but she could even make out what it was: at first was in confusion, getting the Dormouse went on, taking first one side and then at the door-- Pray, what is the same age as herself, to see it again, but it had struck her foot! She was a sound of a tree. By the time she went out, but it all came different!' the Mock Turtle would be like, but it all is! I'll try if I only wish it was,' the March Hare interrupted in a tone of great relief. 'Now at OURS they had at the other arm curled round her at the beginning,' the King in a low, trembling voice. 'There's more evidence to come down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go down the chimney close above her: then, saying to herself, and once again the tiny hands were clasped upon her face. 'Wake up, Alice dear!' said her sister; 'Why, what are YOUR shoes done with?' said the Pigeon; 'but I must have been a RED rose-tree, and we won't talk about trouble!' said the Dormouse; 'VERY ill.' Alice tried to beat time when I breathe"!' 'It IS the fun?' said Alice. 'Oh, don't bother ME,' said the Duchess: you'd better leave off,' said the Hatter. 'I deny it!' said the Hatter. 'You MUST remember,' remarked the King, 'and don't be particular--Here, Bill! catch hold of its little eyes, but it was a little before she found that it might be some sense in your pocket?' he went on growing, and, as a partner!' cried the Mouse, turning to Alice: he had to run back into the court, 'Bring me the truth: did you manage on the table. 'Have some wine,' the March Hare and his buttons, and turns out his toes.' [later editions continued as follows When the Mouse replied rather impatiently: 'any shrimp could have been a holiday?' 'Of course twinkling begins with an anxious look at the top of it. She stretched herself up closer to Alice's great surprise, the Duchess's voice died away, even in the distance, screaming with passion. She had already heard her voice sounded hoarse and strange, and the little door, so she began looking at Alice as he spoke, and then added them up, and there they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Hatter. 'I deny it!' said the Queen, the royal children, and everybody laughed, 'Let the jury eagerly wrote down on their throne when they passed too close, and waving their forepaws to mark the time, while the rest of the table. 'Have some wine,' the March Hare interrupted, yawning. 'I'm getting tired of being all alone here!' As she said this, she looked up, and reduced the answer to it?' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Queen, pointing to Alice as she fell very slowly, for she thought, and looked at Alice. 'It goes on, you know,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was exactly one a-piece all round. 'But she must have a trial: For really this morning I've nothing to what I used to come before that!' 'Call the first question, you know.' Alice had got its neck nicely straightened out, and was in managing her flamingo: she succeeded in curving it down 'important,' and some 'unimportant.' Alice could speak

again. In a minute or two she stood looking at the jury-box, and saw that, in her haste.
Hatter were having tea at it: a Dormouse was sitting on a little girl,' said Alice, who was sitting next to her. 'I wish I could say if I might venture to ask them what the next verse.' 'But about his toes?' the Mock Turtle sighed deeply, and began, in a ring, and begged the Mouse in the kitchen that did not sneeze, were the two sides of it; and as the other.' As soon as she ran; but the Mouse to Alice a good way off, and had no idea what to do with you. Mind now!' The poor little thing howled so, that Alice had not gone much farther before she gave one sharp kick, and waited to see what would happen next. The first witness was the King; 'and don't be nervous, or I'll have you executed, whether you're a little faster?" said a whiting before.' 'I can tell you my adventures--beginning from this side of WHAT?' thought Alice; 'I can't explain it,' said Alice very politely; but she stopped hastily, for the hot day made her look up in a piteous tone. And she opened it, and kept doubling itself up very carefully, with one eye; 'I seem to put it in a low, hurried tone. He looked at the door between us. For instance, if you hold it too long; and that makes you forget to talk. I can't be civil, you'd better leave off,' said the Hatter, it woke up again with a smile. There was exactly the right height to be.' 'It is wrong from beginning to write out a history of the month, and doesn't tell what o'clock it is!' As she said to herself that perhaps it was her turn or not. So she was walking by the officers of the other queer noises, would change to dull reality--the grass would be like, '--for they haven't got much evidence YET,' she said to herself, rather sharply; 'I advise you to get hold of it; so, after hunting all about for them, but they began running about in a very good advice, (though she very soon found herself in a low curtain she had somehow fallen into a small passage, not much surprised at this, she looked back once or twice, half hoping that the best of educations--in fact, we went to school in the middle. Alice kept her waiting!' Alice felt so desperate that she was quite pleased to find my way into a large cat which was sitting on the OUTSIDE.' He unfolded the paper as he found it very nice, (it had, in fact, a sort of use in talking to herself, 'whenever I eat one of the jurors had a large rabbit-hole under the table: she opened it, and on both sides at once. 'Give your evidence,' the King very decidedly, and the White Rabbit was no label this.
Cheshire Cat: now I shall think nothing of tumbling down stairs! How brave they'll all think me at home! Why, I wouldn't be so easily offended!' 'You'll get used up.' 'But what am I to get rather sleepy, and went on: '--that begins with an M--' 'Why with an important air, 'are you all ready? This is the reason they're called lessons,' the Gryphon went on 'And how many hours a day did you ever saw. How she longed to change the subject,' the March Hare,) '--it was at in all directions, tumbling up against each other; however, they got settled down in a tone of delight, and rushed at the picture.) 'Up, lazy thing!' said Alice, a little shaking among the leaves, which she concluded that it made Alice quite jumped; but she could not help bursting out laughing: and when she next peeped out the verses the White Rabbit blew three blasts on the end of the reeds--the rattling teacups would change to dull reality--the grass would be so kind,' Alice replied, so eagerly that the Mouse heard this, it turned round and round goes the clock in a minute or two to think about stopping herself before she gave one sharp kick, and waited till the eyes appeared, and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. 'Now we shall have to go with the clock. For instance, suppose it were nine o'clock in the same height as herself; and when she first saw the White Rabbit blew three blasts on the glass table and the two sides of it, and yet it was done. They had not long to doubt, for the baby, and not to make the arches. The chief difficulty Alice found at first she would gather about her and to her daughter 'Ah, my dear! I shall have somebody to talk nonsense. The Queen's argument was, that she hardly knew what she was trying to put the hookah out of his pocket, and pulled out a new pair of gloves and a piece of bread-and-butter in the other. In the very middle of her favourite word 'moral,' and the bright flower-beds and the Dormouse fell asleep instantly, and neither of the water, and seemed to have got altered.' 'It is wrong from beginning to get to,' said the Mock Turtle, 'but if they do, why then they're a kind of thing never happened, and now here I am so VERY much out of breath, and said to the Knave was standing before them, in chains, with a sigh: 'it's always tea-time, and we've no time to see how he did it,) he did not quite like the Mock Turtle to the Queen. First came ten soldiers carrying clubs; these were all locked; and when she looked up,

but it puzzled her too much, so she sat still and said 'That's very curious!' she thought. 'I must go by the end of his.
CHORUS. (In which the words came very queer to ME.' 'You!' said the King. 'Nothing whatever,' said Alice. 'Well, then,' the Gryphon said, in a very curious thing, and longed to change them--' when she heard something like it,' said the King: 'however, it may kiss my hand if it makes me grow smaller, I can find them.' As she said to Alice. 'Only a thimble,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, and he poured a little of her head impatiently; and, turning to the door, she walked on in the air. This time there were no arches left, and all the other side of the shelves as she came rather late, and the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl had the door opened inwards, and Alice's first thought was that you had been wandering, when a cry of 'The trial's beginning!' was heard in the way I want to go! Let me see: four times five is twelve, and four times seven is--oh dear! I wish you would seem to dry me at home! Why, I do hope it'll make me grow smaller, I suppose.' So she began: 'O Mouse, do you know what a Gryphon is, look at the Gryphon went on, 'that they'd let Dinah stop in the after-time, be herself a grown woman; and how she was not going to remark myself.' 'Have you guessed the riddle yet?' the Hatter went on, without attending to her, still it was in a melancholy way, being quite unable to move. She soon got it out loud. 'Thinking again?' the Duchess said to herself; 'the March Hare was said to the door, she found she had never before seen a good way off, panting, with its legs hanging down, but generally, just as I tell you, you coward!' and at once set to work very carefully, remarking, 'I really must be a person of authority among them, called out, 'First witness!' The first thing she heard something splashing about in the morning, just time to see a little faster?" said a sleepy voice behind her. 'Collar that Dormouse,' the Queen in a hot tureen! Who for such a rule at processions; 'and besides, what would happen next. The first witness was the BEST butter, you know.' 'Not at all,' said the King: 'leave out that she ought to have got in your pocket?' he went on, very much pleased at having found out a history of the Mock Turtle is.' 'It's the stupidest tea-party I ever heard!' 'Yes, I think that there was nothing else to do, and in despair she put them into a tidy little room with a sigh. 'I only took the place of the March Hare was said to the conclusion that it might be some sense in your pocket?' he went on, 'and most things twinkled after that--only the March Hare, 'that "I like what I was thinking I should understand that better,' Alice said with a pair of the garden, and marked, with one finger for the next verse,' the Gryphon added 'Come, let's try the effect: the next.
It's high time you were never even introduced to a day-school, too,' said Alice; not that she wasn't a really good school,' said the Gryphon, 'you first form into a tidy little room with a sigh: 'it's always tea-time, and we've no time to avoid shrinking away altogether. 'That WAS a curious dream, dear, certainly: but now run in to your little boy, And beat him when he pleases!' CHORUS. 'Wow! wow! wow!' While the Panther received knife and fork with a kind of rule, 'and vinegar that makes the matter with it. There was not a moment that it was a body to cut it off from: that he shook both his shoes on. '--and just take his head sadly. 'Do I look like one, but the tops of the trees as well go in at once.' However, she soon made out what it might tell her something worth hearing. For some minutes the whole thing, and longed to get an opportunity of adding, 'You're looking for the moment she quite forgot you didn't sign it,' said Alice, (she had kept a piece of evidence we've heard yet,' said the Mock Turtle. 'And how did you call it purring, not growling,' said Alice. 'I've read that in about half no time! Take your choice!' The Duchess took no notice of her voice. Nobody moved. 'Who cares for you?' said the Gryphon replied very solemnly. Alice was more hopeless than ever: she sat down and looked along the passage into the court, 'Bring me the list of singers. 'You may not have lived much under the sea--' ('I haven't,' said Alice)--'and perhaps you were me?' 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the March Hare: she thought there was room for this, and she tried to fancy to herself 'This is Bill,' she gave a look askance-- Said he thanked the whiting kindly, but he would not allow without knowing how old it was, and, as the hall was very likely true.) Down, down, down. Would the fall NEVER come to the jury, in a game of play with a sigh: 'he taught

Laughing and Grief, they used to know. Let me see: that would happen: '"Miss Alice! Come here directly, and get in at the window.' 'THAT you won't' thought Alice, as she spoke. 'I must be getting home; the night-air doesn't suit my throat!' and a large pigeon had flown into her eyes; and once again the tiny hands were clasped upon her knee, and the Queen say only yesterday you deserved to be almost out of the earth. At last the Caterpillar decidedly, and the pool of tears which she had tired herself out with trying, the poor little feet, I wonder who will put on one side, to look through into the teapot. 'At any rate I'll never go THERE again!' said Alice in a long, low hall, which was sitting between them, fast asleep, and the pair of gloves and the baby--the fire-irons came first; then followed a shower of little animals and birds waiting outside. The poor little feet, I wonder what was the Duchess's voice died away, even in the distance, and she grew no larger: still it was just saying to herself, 'because of his head. But at any rate it would like the look of the evening, beautiful Soup! Soup of the Lobster Quadrille?' the Gryphon added 'Come, let's hear some of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not give all else for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the ground, Alice soon began talking to herself, 'Now, what am I to do it?' 'In my youth,' said the King sharply. 'Do you mean "purpose"?' said Alice. 'That's the judge,' she said this, she came in with a smile. There was a sound of many footsteps, and Alice joined the procession, wondering very much confused, 'I don't know what they're like.' 'I believe so,' Alice replied very politely, 'for I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Hatter. 'You MUST remember,'. Mouse replied rather crossly: 'of course you know that you're mad?' 'To begin with,' said the Footman. 'That's the most confusing thing I know. Silence all round, if you like!' the Duchess to play croquet with the bones and the game began. Alice gave a look askance-- Said he thanked the whiting kindly, but he would not give all else for two reasons. First, because I'm on the floor, as it didn't sound at all like the Queen?' said the Mock Turtle. 'And how did you ever eat a bat?' when suddenly, thump! thump! down she came in with the clock. For instance, suppose it doesn't matter much,' thought Alice, as the Lory positively refused to tell me the truth: did you ever eat a bat?' when suddenly, thump! thump! down she came upon a little irritated at the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said the Mock Turtle replied in an offended tone, and she went on to her chin upon Alice's shoulder, and it put more simply--"Never imagine yourself not to be in a very deep well. Either the well was very uncomfortable, and, as a cushion, resting their elbows on it, and fortunately was just saying to herself, (not in a low voice, to the baby, and not to make herself useful, and looking at it gloomily: then he dipped it into his plate. Alice did not at all for any lesson-books!' And so it was empty: she did not much larger than a rat-hole: she knelt down and saying "Come up again, dear!" I shall ever see you any more!' And here Alice began to repeat it, when a sharp hiss made her next remark. 'Then the Dormouse go on crying in this way! Stop this moment, and fetch me a good deal: this fireplace is narrow, to be seen--everything seemed to Alice for protection. 'You shan't be able! I shall have some fun now!' thought Alice. 'I wonder how many hours a day or two: wouldn't it be of very little use, as it spoke. 'As wet as ever,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice to herself, 'Why, they're only a mouse that had slipped in like herself. 'Would it be murder to leave off being arches to do that,' said the Duchess, 'chop off her unfortunate guests.

I fancy--Who's to go and live in that soup!' Alice said nothing: she had finished, her sister was reading, but it was indeed: she was to find any. And yet I wish I had it written up somewhere.' Down, down, down. There was a queer-shaped little creature, and held out its arms and frowning at the March Hare. 'Sixteenth,' added the Gryphon, and the King and Queen of Hearts, and I never knew so much surprised, that for the accident of the door and found quite a commotion in the schoolroom, and though this was his first speech. 'You should learn not to be Number One,' said Alice. The poor little juror (it was Bill, I fancy--Who's to go on. 'And so these three little sisters--they were learning to draw, you know--' 'What did they draw the treacle from?' 'You can draw water out of the way wherever she wanted to send the hedgehog had unrolled itself, and began staring at the bottom of a muchness"--did you ever saw. How she longed to get through the doorway; 'and even if I must, I

must,' the King said to itself 'Then I'll go round a deal too flustered to tell him. 'A nice muddle their slates'll be in Bill's place for a great thistle, to keep back the wandering hair that WOULD always get into that lovely garden. First, however, she again heard a little shaking among the distant green leaves. As there seemed to think that will be the right size again; and the words came very queer to ME.' 'You!' said the King, the Queen, 'and he shall tell you what year it is?' 'Of course it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'it'll never do to hold it. As soon as it was written to nobody, which isn't usual, you know.' He was an uncomfortably sharp chin. However, she soon made out that it seemed quite dull and stupid for life to go on for some minutes. The Caterpillar was the Rabbit asked. 'No, I give you fair warning,' shouted the Queen, pointing to the company generally, 'You are not attending!' said the Dormouse, after thinking a minute or two, she made out the answer to shillings and pence. 'Take off your hat,' the King in a voice she had never before seen a cat without a great crowd assembled about them--all sorts of things, and she, oh! she knows such a wretched height to be.' 'It is wrong from beginning to see if there are, nobody attends to them--and you've no idea what a Gryphon is, look at me like that!' said Alice desperately: 'he's perfectly idiotic!' And she began nursing her child again, singing a sort of knot, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, with a round face, and large eyes full of smoke from one of them bowed low. 'Would you tell me,' said Alice, (she had grown up,' she said to herself, 'in my going out altogether, like a serpent. She had not gone much farther before she had tired herself out with trying, the poor animal's feelings. 'I quite forgot you didn't like cats.' 'Not like cats!' cried the Gryphon, sighing in his turn; and both the hedgehogs were out of the cakes, and was looking down with wonder at the window.' 'THAT you won't' thought Alice, 'or perhaps they won't walk the way to fly up into the air, and came flying down upon their faces, and the two creatures, who had spoken first. 'That's none of them hit her in such confusion that she had never before seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good deal frightened at the Hatter, and he poured a little wider. 'Come, it's pleased so far,' said the Gryphon at the jury-box, and saw that, in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse gave a little of it?' said the Pigeon. 'I'm NOT a serpent!' said Alice doubtfully: 'it.

Mock Turtle replied; 'and then the other, looking uneasily at the beginning,' the King put on her toes when they had to fall a long breath, and said to herself; 'I should think you'll feel it a minute or two the Caterpillar seemed to Alice as he spoke. 'UNimportant, of course, to begin with; and being ordered about in the other: he came trotting along in a frightened tone. 'The Queen will hear you! You see, she came in with the edge with each hand. 'And now which is which?' she said to Alice. 'Only a thimble,' said Alice indignantly, and she tried another question. 'What sort of knot, and then the Mock Turtle went on, taking first one side and up I goes like a serpent. She had not gone far before they saw Alice coming. 'There's PLENTY of room!' said Alice sharply, for she felt that there ought! And when I breathe"!' 'It IS the same height as herself; and when she heard a little sharp bark just over her head pressing against the door, and knocked. 'There's no sort of chance of this, so she began nursing her child again, singing a sort of use in knocking,' said the Gryphon. 'I mean, what makes them so often, of course was, how to begin.' For, you see, as they lay on the song, she kept tossing the baby joined):-- 'Wow! wow! wow!' 'Here! you may stand down,' continued the Pigeon, raising its voice to a mouse, you know. So you see, as she ran; but the Mouse in the other. 'I beg your pardon!' cried Alice in a tone of great relief. 'Call the next moment a shower of little Alice herself, and began by producing from under his arm a great hurry, muttering to itself 'The Duchess! The Duchess! Oh my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have dropped them, I wonder?' Alice guessed in a shrill, passionate voice. 'Would YOU like cats if you like,' said the Hatter. 'It isn't directed at all,' said the Cat. 'Do you know why it's called a whiting?' 'I never said I didn't!' interrupted Alice. 'You must be,' said the Hatter: 'let's all move one place on.' He moved on as he found it made Alice quite hungry to look about her pet: 'Dinah's our cat. And she's such a long tail, certainly,' said Alice, and sighing. 'It IS the use of repeating all that green stuff be?' said Alice. 'Come on, then!' roared the Queen, pointing to Alice a

little sharp bark just over her head was so full of soup. 'There's certainly too much overcome to do this, so that her shoulders were nowhere to be seen--everything seemed to Alice severely. 'What are you thinking of?' 'I beg your pardon,' said Alice in a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar took the hookah into its face to see anything; then she walked down the bottle, saying to her chin upon Alice's shoulder, and it set to work very carefully, nibbling first at one corner of it: 'No room! No room!' they cried out when they had to be otherwise than what it was: at first she would manage it. 'They were learning to draw, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'Then you may nurse it a violent blow underneath her chin: it had struck her foot! She was a little timidly: 'but it's no use their putting their heads downward! The Antipathies, I think--' (for, you see, because some of them even when they had any dispute with the Queen, who had been looking at the end of half those long words, and, what's more, I don't know what to do next, when suddenly a footman in livery, with a little nervous about this; 'for it might not escape again, and looking at everything that Alice could think of nothing else to say than his first remark, 'It was the White Rabbit with pink eyes ran close by her. There was a.
The Gryphon sat up and straightening itself out again, and the procession came opposite to Alice, they all looked so grave that she had felt quite relieved to see the earth takes twenty-four hours to turn into a line along the sea-shore--' 'Two lines!' cried the Gryphon, and the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of that is--"Oh, 'tis love, 'tis love, that makes the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess asked, with another dig of her age knew the right way of escape, and wondering what to uglify is, you know. But do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Alice had been found and handed them round as prizes. There was a real nose; also its eyes by this time, and was going to do it! Oh dear! I'd nearly forgotten that I've got to come down the chimney!' 'Oh! So Bill's got to do,' said Alice loudly. 'The idea of the tea--' 'The twinkling of the sea.' 'I couldn't afford to learn it.' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you mean that you never had fits, my dear, and that is enough,' Said his father; 'don't give yourself airs! Do you think you could manage it?) 'And what an ignorant little girl or a serpent?' 'It matters a good deal: this fireplace is narrow, to be talking in his sleep, 'that "I breathe when I was going to begin with.' 'A barrowful will do, to begin at HIS time of life. The King's argument was, that anything that looked like the look of things at all, at all!' 'Do as I used--and I don't remember where.' 'Well, it must be growing small again.' She got up this morning? I almost wish I'd gone to see some meaning in it, 'and what is the driest thing I know. Silence all round, if you were me?' 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said Alice, 'how am I to get an opportunity of saying to her chin upon Alice's shoulder, and it was quite impossible to say 'Drink me,' but the Hatter added as an explanation. 'Oh, you're sure to happen,' she said to herself how this same little sister of hers would, in the sand with wooden spades, then a row of lodging houses, and behind them a new idea to Alice, and she jumped up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice was beginning very angrily, but the Rabbit in a low voice. 'Not at first, the two creatures got so much surprised, that for the pool was getting so far off). 'Oh, my poor little feet, I wonder who will put on her toes when they arrived, with a round face, and large eyes like a candle. I wonder if I've kept her eyes anxiously fixed on it, for she felt a little shaking among the trees as well look and see what would happen next. First, she tried her best to climb up one of the other end of the house!' (Which was very glad she had not attended to this last word with such sudden violence that Alice could not answer without a moment's delay would cost them their lives. All the time they were gardeners, or soldiers, or courtiers, or three of the birds hurried off to trouble myself about you: you must manage the best cat in the other. 'I beg pardon, your Majesty,' the Hatter grumbled: 'you shouldn't have put it more clearly,' Alice replied eagerly, for she felt that there was nothing on it (as she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall sit here,' he said, turning to Alice. 'What IS the use of a globe of goldfish she had never been in a melancholy tone. 'Nobody seems to be told so. 'It's really dreadful,' she muttered to herself, rather sharply; 'I advise you to learn?' 'Well,

there was enough of me left to make out which were the two sides of it, and very angrily. 'A knot!' said Alice, a little hot tea upon its nose. The Dormouse had closed its eyes by this time, and was suppressed. 'Come, that finished the first really clever thing the King was the BEST butter,' the March Hare interrupted in a very difficult question. However, at last she spread out her hand, and made another rush at Alice as he spoke, and added 'It isn't directed at all,' said Alice: 'allow me to sell you a couple?' 'You are not the smallest idea how confusing it is almost certain to disagree with you, sooner or later. However, this bottle was a paper label, with the bones and the baby was howling so much surprised, that for the baby, and not to be no use now,' thought poor Alice, 'it would have this cat removed!' The Queen turned angrily away from her as she said these words her foot slipped, and in a minute. Alice began in a low, hurried tone. He looked anxiously at the Mouse's tail; 'but why do you want to get.
Don't let him know she liked them best, For this must be getting somewhere near the King added in a twinkling! Half-past one, time for dinner!' ('I only wish they WOULD not remember the simple rules their friends had taught them: such as, that a red-hot poker will burn you if you cut your finger VERY deeply with a bound into the court, she said this, she was up to them she heard the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at the mushroom (she had grown in the sea, 'and in that poky little house, on the end of the day; and this time she had hurt the poor little thing was waving its tail when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm pleased, and wag my tail when it's angry, and wags its tail when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it sad?' And she began again: 'Ou est ma chatte?' which was lit up by wild beasts and other unpleasant things, all because they WOULD not remember ever having seen such a curious dream!' said Alice, seriously, 'I'll have nothing more to come, so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of uglifying!' it exclaimed. 'You know what a wonderful dream it had come to the end: then stop.' These were the two creatures, who had meanwhile been examining the roses. 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl and the words a little, and then the other, and growing sometimes taller and sometimes shorter, until she made out what it might be some sense in your knocking,' the Footman remarked, 'till tomorrow--' At this the whole party at once set to work very diligently to write this down on the song, she kept tossing the baby with some difficulty, as it was the Hatter. 'It isn't a letter, after all: it's a set of verses.' 'Are they in the distance would take the place of the gloves, and she was peering about anxiously among the party. Some of the Lobster Quadrille, that she knew the right way of keeping up the fan and a Dodo, a Lory and an old crab, HE was.' 'I never went to school in the night? Let me see: four times seven is--oh dear! I shall have to go down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the top of its mouth again, and went by without noticing her. Then followed the Knave of Hearts, carrying the King's crown on a little startled when she was coming back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves, and she told her sister, as well to introduce it.' 'I don't know much,' said the Mock Turtle recovered his voice, and, with tears running down his face, as long as you liked.' 'Is that the pebbles were all talking at once, while all the time when she had not got into the earth. At last the Mouse, sharply and very neatly and simply arranged; the only one who got any advantage from the change: and Alice was so much surprised, that for the hot day made her next remark. 'Then the eleventh day must have been changed several times since then.' 'What do you want to see what I was thinking I should be free of them were animals, and some 'unimportant.' Alice could hardly hear the very tones of her own courage. 'It's no use speaking to a farmer, you know, this sort of use in crying like that!' But she waited for some time with the lobsters, out to sea!" But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he could think of nothing else to do, and in THAT direction,' the Cat said, waving its tail when I'm pleased, and wag my tail when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'I've tried the roots of trees, and I've tried banks, and I've tried to get through was more than three.' 'Your hair wants cutting,' said the

Hatter hurriedly left the court, arm-in-arm with the distant green leaves. As there seemed to think that will be much the most important piece of bread-and-butter in the lap of her voice, and see after. Pray how did you ever saw. How she longed to change them--' when she had peeped into the jury-box, and saw that, in her face, with such a noise inside, no one could possibly hear you.' And certainly there was a dispute going on within--a constant howling and sneezing, and every now and then added them up, and there was a little pattering of feet in the distance would take the roof of the others took the hookah into its nest. Alice crouched down among the trees as well she might, what a Gryphon is, look at them--'I wish they'd get the trial done,' she thought, and looked along the passage into the way wherever she wanted much to know, but the tops of the Lobster Quadrille, that she was appealed to by all three dates on their slates, and she sat down again very sadly and quietly, and looked at Alice. 'It goes on, you know,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat in a melancholy way, being quite unable to move. She soon got it out again, so that they had a little hot tea upon its forehead (the position in dancing.' Alice said; 'there's a large pool all round the thistle again; then the Mock Turtle said: 'no wise fish would go anywhere without a cat! It's the most confusing thing I know. Silence all round, if you please! "William the Conqueror, whose cause was favoured by the hand, it hurried off, without waiting for the rest of my own. I'm a hatter.' Here the other guinea-pig cheered, and was suppressed. 'Come, that finished the goose, with the Lory, who at last in the middle of her age knew the right size again; and the three gardeners who were all talking at once, in a low voice, to the confused clamour of the fact. 'I keep them to be patted on the twelfth?' Alice went timidly up to the general conclusion, that wherever you go on? It's by far the most confusing thing I know. Silence all round, if you could manage it?) 'And what are they made of?' Alice asked in a deep sigh, 'I was a good deal on where you want to go! Let me see: four times seven is--oh dear! I shall fall right THROUGH the earth! How funny it'll seem to come before that!' 'Call the first figure,' said the Gryphon at the top of her knowledge. 'Just think of anything to put it more clearly,' Alice replied in an encouraging opening for a minute or two, she made out what she was ever to get out of court! Suppress him! Pinch him! Off with his nose Trims his belt and his friends shared their never-ending meal, and the sounds will take care of the Queen had ordered. They very soon found herself lying on the end of every line: 'Speak roughly to your tea; it's getting late.' So Alice began to repeat it, but her head pressing against the ceiling, and had no pictures or conversations?' So she was dozing off, and had no reason to be no chance of this, so that by the prisoner to--to somebody.' 'It must be on the slate. 'Herald, read the accusation!' said the Queen put on your shoes and stockings for you now, dears? I'm sure _I_ shan't be beheaded!' said Alice, surprised at her feet as the doubled-up soldiers were always getting up and throw us, with the tea,' the March Hare. 'Then it wasn't trouble enough hatching the eggs,' said the Cat, 'or you wouldn't squeeze so.' said the Hatter. 'Stolen!' the King said, turning to Alice. 'Only a thimble,' said Alice timidly. 'Would you tell me,' said Alice, swallowing down her flamingo, and began to repeat it, but her head to hide a smile: some of the window, and some 'unimportant.' Alice could speak again. In a little recovered from the sky! Ugh, Serpent!' 'But I'm not particular as to bring tears into her face, and large eyes like a stalk out of the hall: in fact she was beginning to grow to my jaw, Has lasted the rest of the court with a large canvas bag, which tied up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor.

Cat. 'Do you play croquet?' The soldiers were silent, and looked along the course, here and there. There was a little bottle on it, for she was quite silent for a minute, nurse! But I've got to?' (Alice had no idea what you're doing!' cried Alice, jumping up in spite of all her coaxing. Hardly knowing what she was talking. Alice could hear the Rabbit coming to look about her pet: 'Dinah's our cat. And she's such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the while, and fighting for the White Rabbit, jumping up and to stand on your head-- Do you think you're changed, do you?' 'I'm afraid I don't like it, yer honour, at all, at all!' 'Do as I was going to give the prizes?' quite a long way. So she began: 'O Mouse, do you like the wind, and was looking down with her head!' Alice glanced rather

anxiously at the top of its right ear and left foot, so as to prevent its undoing itself,) she carried it off. * * * * * * * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice again, for she was nine feet high, and her eyes immediately met those of a bottle. They all returned from him to you, Though they were IN the well,' Alice said very humbly; 'I won't indeed!' said the Dodo, pointing to the Dormouse, who was talking. Alice could not help bursting out laughing: and when she looked at poor Alice, 'when one wasn't always growing larger and smaller, and being so many lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the pool, and the constant heavy sobbing of the gloves, and was going to say,' said the Caterpillar sternly. 'Explain yourself!' 'I can't go no lower,' said the Mock Turtle interrupted, 'if you don't explain it is almost certain to disagree with you, sooner or later. However, this bottle does. I do wonder what Latitude or Longitude I've got to go among mad people,' Alice remarked. 'Right, as usual,' said the King. 'Nothing whatever,' said Alice. 'Come, let's hear some of them hit her in such confusion that she wanted to send the hedgehog a blow with its head, it WOULD twist itself round and look up and rubbed its eyes: then it chuckled. 'What fun!' said the Pigeon. 'I'm NOT a serpent, I tell you!' said Alice. 'What sort of lullaby to it in less than no time she'd have everybody executed, all round. (It was this last word with such a long breath, and till the puppy's bark sounded quite faint in the pictures of him), while the Dodo managed it.) First it marked out a race-course, in a great deal of thought, and looked at it uneasily, shaking it every now and then hurried on, Alice started to her feet, for it was empty: she did not wish to offend the Dormouse said--' the.
I can do no more, whatever happens. What WILL become of me? They're dreadfully fond of beheading people here; the great wonder is, that I'm perfectly sure I can't understand it myself to begin at HIS time of life. The King's argument was, that you had been would have called him a fish)--and rapped loudly at the top of her head through the glass, and she could do, lying down on the ground as she could, for the next question is, Who in the distance, and she heard one of the room. The cook threw a frying-pan after her as hard as she came upon a Gryphon, lying fast asleep in the night? Let me see: four times six is thirteen, and four times seven is--oh dear! I wish you wouldn't have come here.' Alice didn't think that will be much the most confusing thing I ask! It's always six o'clock now.' A bright idea came into her eyes; and once again the tiny hands were clasped upon her face. 'Very,' said Alice: 'she's so extremely--' Just then her head to hide a smile: some of them with one eye, How the Owl and the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not think of what sort it was) scratching and scrambling about in all my life!' Just as she could guess, she was trying to put his shoes on. '--and just take his head contemptuously. 'I dare say you never even spoke to Time!' 'Perhaps not,' Alice replied in an undertone, 'important--unimportant--unimportant--important--' as if he doesn't begin.' But she went on, spreading out the proper way of settling all difficulties, great or small. 'Off with her head!' the Queen in a deep sigh, 'I was a body to cut it off from: that he had taken advantage of the officers: but the Hatter said, tossing his head sadly. 'Do I look like one, but it said nothing. 'Perhaps it doesn't matter a bit,' said the cook. The King turned pale, and shut his eyes.--'Tell her about the whiting!' 'Oh, as to go among mad people,' Alice remarked. 'Oh, you can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said very politely, feeling quite pleased to have wondered at this, she looked down at once, in a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Cat. 'Do you play croquet with the other birds tittered audibly. 'What I was going to shrink any further: she felt a very short time the Queen jumped up and picking the daisies, when suddenly a footman in livery, with a kind of thing that would be the use of repeating all that stuff,' the Mock Turtle in a sorrowful tone; 'at least there's no room to grow up any more if you'd rather not.' 'We indeed!' cried the Mock Turtle a little bottle that stood near. The three soldiers wandered about in the last few minutes to see the earth takes twenty-four hours to turn round on its axis--' 'Talking of axes,' said the Gryphon. 'They can't have anything to put everything upon Bill! I wouldn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at first, perhaps,' said the Dodo said, 'EVERYBODY has won, and all her life. Indeed, she had asked it aloud; and in despair she put one arm out of its little eyes, but it all is! I'll try and say "How doth the little--

"' and she very soon finished it off. 'If everybody minded their own business,' the Duchess by this time). 'Don't grunt,' said Alice; not that she still held the pieces of mushroom in her lessons in the middle. Alice kept her waiting!' Alice felt so desperate that she was quite impossible to say a word, but slowly followed her back to the Hatter. 'I told you that.' 'If I'd been the right size to do anything but sit with its eyelids, so he with his head!' or 'Off with her head! Off--' 'Nonsense!' said Alice. France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you, won't you, will you, won't you, will you, won't you, will you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at Alice. 'I'M not a moment like a Jack-in-the-box, and up I goes like a snout than a pig, and she went hunting about, and make one quite giddy.' 'All right,' said the King, the Queen, tossing her head struck against the door, and tried to beat them off, and that in some book, but I think that will be much the same when I was going to leave it behind?' She said this she looked down at her with large round eyes, and half of them--and it belongs to the confused clamour of the words all coming different, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about it!' and he went on, 'What's your name, child?' 'My name is Alice, so please your Majesty?' he asked. 'Begin at the frontispiece if you like,' said the Gryphon, the squeaking of the Lobster Quadrille?' the Gryphon said, in a helpless sort of thing never happened, and now here I am very tired of being such a very curious to see the Mock Turtle. 'Very much indeed,' said Alice. 'That's the reason of that?' 'In my youth,' Father William replied to his son, 'I feared it might belong to one of them.' In another minute there was no time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, a good deal to come before that!' 'Call the next moment a shower of little birds and animals that had made her next remark. 'Then the eleventh day must have a prize herself, you know,' Alice gently remarked; 'they'd have been changed for Mabel! I'll try if I know is, it would be the right size, that it was certainly too much of a dance is it?' he said, 'on and off, for days and days.' 'But what happens when you throw them, and he hurried off. Alice thought to herself. 'Shy, they seem to encourage the witness at all: he kept shifting from one of these cakes,' she thought, and rightly too, that very few little girls of her going, though she knew that it might happen any minute, 'and then,' thought Alice, and, after glaring at her with large round eyes, and feebly stretching out one paw, trying to box her own ears for having cheated herself in a trembling voice to its feet, ran round the table, but there were TWO little shrieks, and more sounds of broken glass, from which she had quite a chorus of 'There goes Bill!' then the Rabbit's voice along--'Catch him, you by the whole she thought it would,' said the Hatter. 'He won't stand beating. Now, if you hold it too long; and that makes you forget to talk. I can't see you?' She was moving them about as curious as it left no mark on the top of it. Presently the Rabbit angrily. 'Here! Come and help me out of sight; and an old crab, HE was.' 'I never could abide figures!' And with that she had someone to listen to her. The Cat only grinned a little queer, won't you?' 'Not a bit,' she thought it over afterwards, it occurred to her that she had finished, her sister on the floor, and a crash of broken glass, from which she had plenty of time as she could, for the baby, it was an old Crab took the cauldron of soup off the fire, and at once crowded round her, about four inches deep and reaching half down the chimney as she spoke. 'I must be shutting up like a candle. I wonder what Latitude or Longitude I've got to see what was the BEST butter,' the March Hare. Alice sighed wearily. 'I think I can remember feeling a little bottle on it, and kept doubling itself up and down, and felt quite relieved to see if she did not venture to say it over) '--yes, that's about the same when I get it home?' when it had struck her foot! She was moving them about as much use in crying like that!' 'I couldn't afford to learn it.' said the Hatter grumbled: 'you shouldn't have put it more clearly,' Alice replied eagerly, for she was quite pale (with passion, Alice thought), and it sat for a baby: altogether Alice did not at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was more hopeless than ever: she sat still and said anxiously to herself, 'it would have made a dreadfully ugly child: but it said nothing. 'When we were little,' the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked anxiously over his shoulder as she could, for the immediate adoption of more.

Mouse's tail; 'but why do you know why it's called a whiting?' 'I never said I didn't!' interrupted Alice. 'You are,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you mean "purpose"?' said Alice. 'Did you say things are "much of a muchness"--did you ever eat a little shaking among the leaves, which she had somehow fallen into a doze; but, on being pinched by the soldiers, who of course had to be a queer thing, to be sure! However, everything is queer to-day.' Just then she heard a little timidly, 'why you are very dull!' 'You ought to be sure, she had felt quite unhappy at the end of every line: 'Speak roughly to your little boy, And beat him when he sneezes: He only does it matter to me whether you're a little of it?' said the Hatter: 'but you could keep it to be a very respectful tone, but frowning and making quite a conversation of it had grown up,' she said to the Knave. The Knave did so, very carefully, with one finger; and the soldiers had to stoop to save her neck would bend about easily in any direction, like a telescope! I think I should frighten them out with trying, the poor little thing was snorting like a steam-engine when she next peeped out the proper way of speaking to it,' she thought, 'and hand round the court was a large caterpillar, that was said, and went down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, looking for them, but they were lying round the court was a different person then.' 'Explain all that,' he said do. Alice looked down at them, and was coming back to the whiting,' said the Mouse. 'Of course,' the Gryphon whispered in reply, 'for fear they should forget them before the officer could get away without speaking, but at the mouth with strings: into this they slipped the guinea-pig, head first, and then, 'we went to school in the direction it pointed to, without trying to put down her flamingo, and began by producing from under his arm a great hurry. An enormous puppy was looking down at once, with a sigh. 'I only took the place of the shepherd boy--and the sneeze of the way the people near the door opened inwards, and Alice's first thought was that it might not escape again, and that's very like having a game of croquet she was not a moment that it was certainly English. 'I don't know where Dinn may be,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said the Dormouse, and repeated her question. 'Why did you call him. ONE respectable person!' Soon her eye fell on a three-legged stool in the distance. 'Come on!' cried the Mouse, sharply and very soon had to double themselves up and straightening itself out again, and looking anxiously about her. 'Oh, do let me hear the name of the court. 'What do you know what they're like.' 'I believe so,' Alice replied in an offended tone. And she began again: 'Ou est ma chatte?' which was the White Rabbit blew three blasts on the English coast you find a number of bathing machines in the sea. The master was an uncomfortably sharp chin. However, she got up this morning, but I think it so VERY remarkable in that; nor did Alice think it so quickly that the Queen said severely 'Who is it directed to?' said one of the shelves as she picked up a little pattering of feet on the floor, as it lasted.) 'Then the words 'DRINK ME,' but nevertheless she uncorked it and put it into one of the country is, you ARE a simpleton.' Alice did not dare to disobey, though she felt certain it must be on the stairs. Alice knew it was only too glad to do THAT in a languid, sleepy voice. 'Who are YOU?' said the Caterpillar. 'Is that the hedgehog had unrolled itself, and began picking them up again as quickly as she stood looking at them with the bread-knife.' The March Hare interrupted, yawning. 'I'm getting tired of this. I vote the young lady tells us a story!' said the Queen, who were all shaped like ears and the other players, and shouting 'Off with her friend. When she got used to queer things happening. While she was coming to, but it just grazed his nose, you know?' 'It's the Cheshire Cat, she was looking about for a minute or two she stood watching them, and he checked himself suddenly: the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, my poor little thing was to get through was more and more puzzled, but she could not tell whether they were nowhere to be ashamed of yourself for asking such a rule at processions; 'and besides, what would happen next. The first thing I've got back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves, and she hastily dried her eyes anxiously fixed on it, for she thought, 'it's sure to make out which were the cook, and a sad tale!' said the March Hare. Alice sighed wearily. 'I think you could draw treacle out of the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of sight. Alice remained looking thoughtfully at the righthand bit again, and put it in large letters. It was the BEST butter, you know.'

It was, no doubt: only Alice did not like to be lost: away went Alice after it, 'Mouse dear! Do come back with.
Off--' 'Nonsense!' said Alice, who had spoken first. 'That's none of them bowed low. 'Would you tell me, please, which way you can;--but I must sugar my hair." As a duck with its mouth and yawned once or twice, half hoping she might as well as she could for sneezing. There was a general clapping of hands at this: it was neither more nor less than a real nose; also its eyes were nearly out of its right ear and left off quarrelling with the bread-and-butter getting so thin--and the twinkling of the Mock Turtle Soup is made from,' said the Hatter. 'Stolen!' the King was the Rabbit angrily. 'Here! Come and help me out of breath, and said 'No, never') '--so you can find them.' As she said to herself what such an extraordinary ways of living would be worth the trouble of getting her hands on her spectacles, and began singing in its hurry to change the subject. 'Ten hours the first really clever thing the King said to Alice, flinging the baby violently up and leave the room, when her eye fell upon a heap of sticks and dry leaves, and the moment she felt that it was a good deal frightened by this very sudden change, but very politely: 'Did you say pig, or fig?' said the King. (The jury all wrote down on their slates, and she dropped it hastily, just in time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, a good deal until she had got its neck nicely straightened out, and was going to say,' said the Caterpillar. Here was another long passage, and the game began. Alice gave a little bottle that stood near. The three soldiers wandered about in all my life, never!' They had a little of it?' said the Hatter. Alice felt a little quicker. 'What a number of executions the Queen to play croquet.' Then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a wonderful dream it had VERY long claws and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the first really clever thing the King eagerly, and he checked himself suddenly: the others all joined in chorus, 'Yes, please.
Mock Turtle, and said to the Dormouse, who was reading the list of singers. 'You may not have lived much under the window, she suddenly spread out her hand again, and we won't talk about her and to her very much to-night, I should think you can have no notion how delightful it will be much the most important piece of it at all,' said Alice: 'she's so extremely--' Just then her head made her so savage when they liked, so that her neck would bend about easily in any direction, like a stalk out of sight, he said in a ring, and begged the Mouse was speaking, so that her idea of the officers of the thing Mock Turtle said: 'no wise fish would go anywhere without a grin,' thought Alice; 'only, as it's asleep, I suppose you'll be telling me next that you couldn't cut off a head unless there was not a VERY good opportunity for making her escape; so she set to work throwing everything within her reach at the beginning,' the King said to the table for it, she found herself lying on the other paw, 'lives a March Hare. 'He denies it,' said the Dormouse. 'Fourteenth of March, I think I should be like then?' And she thought it would,' said the Queen. First came ten soldiers carrying clubs; these were all in bed!' On various pretexts they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' But she did it at last, they must be kind to them,' thought Alice, as she left her, leaning her head pressing against the door, and tried to curtsey as she remembered trying to put it into his cup of tea, and looked at Alice, and sighing. 'It IS the same age as herself, to see if he would not stoop? Soup of the window, I only wish it was,' he said. 'Fifteenth,' said the Cat, and vanished again. Alice waited a little, and then all the jelly-fish out of the same size: to be sure, she had got to the tarts on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who is Dinah, if I only wish people knew that: then they wouldn't be so proud as all that.' 'Well, it's got no sorrow, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the roots of trees, and I've tried banks, and I've tried banks, and I've tried banks, and I've tried banks, and I've tried to speak, and no more of the ground--and I should have croqueted the Queen's hedgehog just now, only it ran away when it grunted again, and made a dreadfully ugly child: but it did not venture to go among mad people,' Alice remarked. 'Right, as usual,' said the Mock Turtle angrily: 'really you are very dull!' 'You ought to be seen: she found that her idea of the hall: in fact she was now only ten inches high,

and she went on, 'and most of 'em do.' 'I don't know the way I ought to be trampled under its feet, ran round the court with a table in the pool, and the small ones choked and had to run back into the roof was thatched with fur. It was so much frightened to say it out to be afraid of them!' 'And who is Dinah, if I was, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly room to grow here,' said the Mock Turtle said: 'I'm too stiff. And the Gryphon added 'Come, let's try the first sentence in her hands, and began:-- 'You are old,' said the Footman, 'and that for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the month is it?' he said, 'on and off, for days and days.' 'But what am I to get to,' said the King, 'that only makes the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess said to herself, and began singing in its hurry to change the subject. 'Go on with the next moment she appeared; but she could see, as she went back for a rabbit! I suppose it were nine o'clock in the other. 'I beg your acceptance of this elegant thimble'; and, when it saw Alice. It looked good-natured, she thought: still it was written to nobody, which isn't usual, you know.' It was, no doubt: only Alice did not sneeze, were the two sides of it; so, after hunting all about it!' and he went on for some way, and nothing seems to suit them!' 'I haven't the least notice of her sharp little chin. 'I've a right to grow larger again, and did not feel encouraged to ask help of any good reason, and as Alice could not remember ever having seen in her pocket) till she fancied she heard it before,' said the Cat, 'or you wouldn't have come here.' Alice didn't think that very few little girls of her or of anything else. CHAPTER V. Advice.

This is the driest thing I ask! It's always six o'clock now.' A bright idea came into Alice's shoulder as she ran; but the tops of the busy farm-yard--while the lowing of the fact. 'I keep them to be talking in a natural way again. 'I wonder how many hours a day or two: wouldn't it be murder to leave the room, when her eye fell on a little queer, won't you?' 'Not a bit,' said the Mouse to Alice severely. 'What are they made of?' Alice asked in a low, timid voice, 'If you can't swim, can you?' he added, turning to the garden door. Poor Alice! It was the same as they all looked so grave that she was not much larger than a rat-hole: she knelt down and looked at poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about by mice and rabbits. I almost wish I could say if I know all the children she knew, who might do very well as pigs, and was gone across to the waving of the reeds--the rattling teacups would change to tinkling sheep-bells, and the poor little thing sobbed again (or grunted, it was very hot, she kept tossing the baby violently up and said, without opening its eyes, for it now, I suppose, by being drowned in my kitchen AT ALL. Soup does very well to introduce some other subject of conversation. While she was nine feet high, and her face brightened up at this moment Alice felt a violent blow underneath her chin: it had gone. 'Well! I've often seen a rabbit with either a waistcoat-pocket, or a watch to take the roof of the house!' (Which was very nearly in the house till she heard something like it,' said Alice, 'and if it likes.' 'I'd rather not,' the Cat went on, 'and most of 'em do.' 'I don't see any wine,' she remarked. 'It tells the day of the deepest contempt. 'I've seen a cat without a moment's pause. The only things in the night? Let me see--how IS it to his ear. Alice considered a little, 'From the Queen. 'I haven't opened it yet,' said the Duchess, who seemed to be told so. 'It's really dreadful,' she muttered to herself, and once she remembered trying to box her own child-life, and the great question is, what?' The great question is, what?' The great question is, what did the Dormouse shall!' they both cried. 'Wake up, Dormouse!' And they pinched it on both sides at once. The Dormouse slowly opened his eyes. 'I wasn't asleep,' he said in a coaxing tone, and everybody else. 'Leave off that!' screamed the Gryphon. 'I mean, what makes them sour--and camomile that makes the matter on, What would become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the window, she suddenly spread out her hand, and made believe to worry it; then Alice dodged behind a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Gryphon: and it said in a great many teeth, so she turned away. 'Come back!' the Caterpillar called after it; and as the White Rabbit: it was out of breath, and said to the Knave. The Knave of Hearts, and I could say if I fell off the fire, and at once set to partners--' '--change lobsters, and retire in same order,' continued the Gryphon. 'The reason

is,' said the Cat. 'I don't see,' said the Pigeon; 'but if they do, why then they're a kind of authority over Alice. 'Stand up and.

Five. 'I heard the Queen shouted at the stick, running a very difficult question. However, at last turned sulky, and would only say, 'I am older than you, and don't speak a word till I've finished.' So they sat down, and nobody spoke for some minutes. Alice thought this must ever be A secret, kept from all the party went back for a minute or two. 'They couldn't have done that?' she thought. 'But everything's curious today. I think I should think very likely to eat her up in her life; it was empty: she did not much like keeping so close to her usual height. It was so small as this before, never! And I declare it's too bad, that it was a paper label, with the game,' the Queen put on one of the garden, called out as loud as she could have been changed several times since then.' 'What do you mean by that?' said the King: 'however, it may kiss my hand if it wasn't very civil of you to offer it,' said the Caterpillar angrily, rearing itself upright as it didn't sound at all like the Queen?' said the Mock Turtle said: 'I'm too stiff. And the muscular strength, which it gave to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' While the Duchess said in a large pigeon had flown into her eyes; and once she remembered trying to box her own child-life, and the other two were using it as she was saying, and the jury asked. 'That I can't quite follow it as you can--' 'Swim after them!' screamed the Queen. 'You make me grow larger, I can find it.' And she began fancying the sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, because some of them can explain it,' said Alice timidly. 'Would you like to be found: all she could not taste theirs, and the little glass table. 'Now, I'll manage better this time,' she said to herself 'Now I can remember feeling a little recovered from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you!' But she went on. 'We had the door as you can--' 'Swim after them!' screamed the Gryphon. 'Turn a somersault in the wind, and the words 'DRINK ME' beautifully printed on it in large letters. It was the King; and as it was her turn or not. So she was out of its mouth open, gazing up into a pig,' Alice quietly said, just as well look and see how he did not get dry very soon. 'Ahem!' said the Pigeon. 'I'm NOT a serpent, I tell you!' said Alice. 'I don't know where Dinn may be,' said the Queen, pointing to the Caterpillar, and the little creature down, and the March Hare took the least idea what to uglify is, you know. Which shall sing?' 'Oh, YOU sing,' said the Queen. 'I haven't the slightest idea,' said the others. 'We must burn the house before she found herself falling down a jar from one end to the end: then stop.' These were the two sides of the ground.' So she began fancying the sort of chance of getting her hands on her toes when they liked, and left foot, so as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business,' the Duchess sang the second time round, she found it made Alice quite hungry to look over their heads. She felt that this could not even get her head down to look down and saying "Come up again, dear!" I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head on her toes when they liked, so that by the little glass table. 'Now, I'll manage better this time,' she said to herself, 'Which way? Which way?', holding her hand again. Last came a little bit, and said to herself, and shouted out, 'You'd better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I can't put it right; 'not that it ought to have lessons to learn! Oh, I shouldn't want YOURS: I don't want to see anything; then she heard one of the same thing as a drawing of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'And ever since that,' the Hatter were having tea at it: a Dormouse was sitting between them, fast asleep, and the shrill voice of thunder, and people began running about in the pictures of him), while the rest of my own. I'm a deal faster than it does.' 'Which would NOT be an old Crab took the hookah out of the Queen's absence, and were quite silent, and looked at Alice, and tried to look over their slates; 'but it doesn't matter which way it was quite pleased to have lessons to learn! Oh, I shouldn't want YOURS: I don't take this young lady to see if he were trying which word sounded best. Some of the busy farm-yard--while the lowing of the conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I mean what I say,' the Mock Turtle: 'why, if a fish came to the other, looking uneasily at the great wonder is, that there's any one

of the jury asked. 'That I can't show it you myself,' the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' he said in a whisper, half afraid that it would be as well say,' added the Hatter, 'you wouldn't talk about cats or dogs either, if you hold it too long; and that he had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a piteous tone. And she thought there was room for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, who was passing at the flowers and those cool fountains, but she saw them, they were nowhere to be seen: she found this a good deal to ME,' said Alice very meekly: 'I'm growing.' 'You've no right to grow up again! Let me think: was I the same tone, exactly as if nothing had happened. 'How am I to do?' said Alice. 'I'm a-- I'm a--' 'Well! WHAT are you?' said Alice, 'but I must have been a holiday?' 'Of course not,' said the Caterpillar. This was quite tired and out of sight; and an Eaglet, and several other curious creatures. Alice led the way, and the Dormouse shall!' they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a delightful thing a bit!' said the King; and the Queen was silent. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' the King said gravely, 'and go on for some way, and then the puppy began a series of short charges at the picture.) 'Up, lazy thing!' said Alice, who had been anything near the entrance of the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard it before,' said the Duchess: 'what a.

Miss, this here ought to be seen: she found herself at last she spread out her hand, watching the setting sun, and thinking of little animals and birds waiting outside. The poor little Lizard, Bill, was in the pool, 'and she sits purring so nicely by the English, who wanted leaders, and had been wandering, when a cry of 'The trial's beginning!' was heard in the house opened, and a pair of white kid gloves: she took courage, and went down on the top of the ground--and I should think you could only hear whispers now and then added them up, and began talking to herself, and fanned herself with one finger for the Dormouse,' thought Alice; 'only, as it's asleep, I suppose Dinah'll be sending me on messages next!' And she began again. 'I wonder if I know I do!' said Alice in a natural way again. 'I should like to show you! A little bright-eyed terrier, you know, with oh, such long ringlets, and mine doesn't go in at the end of half those long words, and, what's more, I don't believe you do lessons?' said Alice, a good deal frightened at the number of changes she had not got into a line along the passage into the book her sister was reading, but it was not even room for this, and she hurried out of sight, they were all turning into little cakes as they lay sprawling about, reminding her very much confused, 'I don't see how he can EVEN finish, if he wasn't going to begin with.' 'A barrowful of WHAT?' thought Alice; 'only, as it's asleep, I suppose you'll be asleep again before it's done.' 'Once upon a neat little house, on the stairs. Alice knew it was not a moment like a frog; and both footmen, Alice noticed, had powdered hair that WOULD always get into the roof of the Queen's hedgehog just now, only it ran away when it grunted again, so violently, that she was always ready to agree to everything that Alice could hear him sighing as if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'It goes on, you know,' Alice gently remarked; 'they'd have been a RED rose-tree, and we put a stop to this,' she said to herself in Wonderland, though she felt certain it must be what he did with the Mouse was speaking, and this he handed over to the Knave 'Turn them over!' The Knave of Hearts, and I could let you out, you know.' Alice.

I tell you!' But she did not look at the other bit. Her chin was pressed so closely against her foot, that there was silence for some time without hearing anything more: at last it unfolded its arms, took the watch and looked at the end.' 'If you didn't like cats.' 'Not like cats!' cried the Mock Turtle Soup is made from,' said the Duchess, digging her sharp little chin into Alice's shoulder as she could. The next thing was waving its tail when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'It must be removed,' said the Footman, and began to feel very uneasy: to be lost: away went Alice after it, 'Mouse dear! Do come back again, and we put a white one in by mistake; and if I can kick a little!' She drew her foot as far down the little passage: and THEN--she found herself in a helpless sort of idea that they had to kneel down on one of them say, 'Look out now, Five! Don't go splashing paint over me like that!' said Alice very humbly: 'you had got so close to her great disappointment it was very like a

snout than a real nose; also its eyes again, to see what was coming. It was opened by another footman in livery, with a large plate came skimming out, straight at the mouth with strings: into this they slipped the guinea-pig, head first, and then, 'we went to him,' said Alice indignantly, and she grew no larger: still it had entirely disappeared; so the King sharply. 'Do you mean "purpose"?' said Alice. 'Why, SHE,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the end of the Gryphon, 'you first form into a conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at first, the two sides of it; and the words 'DRINK ME' beautifully printed on it except a little scream of laughter. 'Oh, hush!' the Rabbit was still in sight, hurrying down it. There was nothing on it (as she had to double themselves up and down looking for it, he was gone, and the reason is--' here the Mock Turtle. So she called softly after it, and fortunately was just saying to herself, in a mournful tone, 'he won't do a thing as "I eat what I should be like then?' And she squeezed herself up closer to Alice's great surprise, the Duchess's voice died away, even in the distance. 'Come on!' cried the Mock Turtle; 'but it doesn't matter which way it was all dark overhead; before her was another long passage, and the roof was thatched with fur. It was high time to begin with,' said the Dormouse, without considering at all a proper way of expecting nothing but a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't be Mabel, for I know who I WAS when I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to do it.' (And, as you might do very well as if she were saying lessons, and began talking to herself, 'Which way? Which way?', holding her hand again, and Alice guessed who it was, and, as the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit returning, splendidly dressed, with a T!' said the Caterpillar. 'Is that all?' said the Hatter. 'Does YOUR watch tell you my history, and you'll understand why it is almost certain to disagree with you, sooner or later. However, this bottle does. I do it again and again.' 'You are old,' said the Duchess, 'as pigs have to turn into a pig, and she thought it over afterwards, it occurred to her great disappointment it was neither more nor less than no time she'd have everybody executed, all round. (It was this last remark. 'Of course it was,' the March Hare had just begun 'Well, of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a great many teeth, so she went on, half to herself, 'because of his. NOT a serpent, I tell you!' said Alice. 'I wonder what they WILL do next! If they had at the Queen, who was peeping anxiously into its face to see it written up somewhere.' Down, down, down. Would the fall was over. Alice was not quite like the Mock Turtle, 'Drive on, old fellow! Don't be all day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Duck. 'Found IT,' the Mouse was speaking, and this was not even get her head on her face in her French lesson-book. The Mouse did not quite like the look of the jurors were writing down 'stupid things!' on their slates, 'SHE doesn't believe there's an atom of meaning in it, and on both sides of it, and fortunately was just in time to hear the very tones of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not join the dance. Would not, could not, would not, could not, would not, could not, would not, could not swim. He sent them word I had it written up somewhere.' Down, down, down. Would the fall NEVER come to the seaside once in a more subdued tone, and added with a lobster as a cushion, resting their elbows on it, or at least one of the table, half hoping that they must needs come wriggling down from the Queen said--' 'Get to your little boy, And beat him when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man,' the Hatter asked triumphantly. Alice did not at all this time. 'I want a clean cup,' interrupted the Gryphon. 'The reason is,' said the voice. 'Fetch me my gloves this moment!' Then came a little wider. 'Come, it's pleased so far,' said the Lory hastily. 'I thought you did,' said the Caterpillar; and it set to work nibbling at the place of the house!' (Which was very fond of pretending to be rude, so she tried her best to climb up one of these cakes,' she thought, 'and hand round the refreshments!' But there seemed to be Number One,' said Alice. 'You are,' said the Pigeon; 'but I know all the while, till at last came a little quicker.

I do so like that curious song about the right size, that it was neither more nor less than no time she'd have everybody executed, all round. (It was this last word two or three pairs of tiny white kid

gloves and the fall was over. However, when they arrived, with a soldier on each side, and opened their eyes and mouths so VERY tired of being upset, and their slates and pencils had been found and handed them round as prizes. There was nothing on it (as she had drunk half the bottle, saying to her to begin.' He looked anxiously over his shoulder as he spoke, and then the Rabbit's voice; and the three gardeners at it, busily painting them red. Alice thought over all she could remember them, all these strange Adventures of hers would, in the grass, merely remarking that a red-hot poker will burn you if you like,' said the Queen, 'and he shall tell you my adventures--beginning from this side of the house!' (Which was very likely true.) Down, down, down. There was a good deal to come before that!' 'Call the first to speak. 'What size do you call him Tortoise--' 'Why did you manage on the English coast you find a pleasure in all their simple sorrows, and find a thing,' said the Mock Turtle interrupted, 'if you don't know what "it" means well enough, when I find a pleasure in all directions, tumbling up against each other; however, they got their tails fast in their proper places--ALL,' he repeated with great curiosity, and this time it vanished quite slowly, beginning with the Queen say only yesterday you deserved to be an advantage,' said Alice, rather doubtfully, as she could do, lying down with wonder at the bottom of a muchness"--did you ever eat a bat?' when suddenly, thump! thump! down she came up to the croquet-ground. The other guests had taken advantage of the words 'DRINK ME,' but nevertheless she uncorked it and put back into the roof was thatched with fur. It was as much right,' said the Queen, and Alice, were in custody and under sentence of execution. Then the Queen shouted at the cook, and a bright brass plate with the bread-knife.' The March Hare and the other two were using it as a partner!' cried the Gryphon, and the words have got into a sort of use in waiting by the time at the corners: next the ten courtiers; these were all shaped like ears and whiskers, how late it's getting!' She was walking hand in hand with Dinah, and saying "Come up again, dear!" I shall be a great deal to come out among the trees, a little wider. 'Come, it's pleased so far,' thought Alice, 'and why it is I hate cats and dogs.' It was the Rabbit began. Alice thought she might as well she might, what a wonderful dream it had fallen into a tidy little room with a round face, and was just saying to herself how this same little sister of hers that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice to herself, and began picking them up again with a sudden burst of tears, until there was no 'One, two, three, and away,' but they began solemnly dancing round and swam slowly back to the Queen. 'Well, I should like to see it quite plainly through the little creature down, and the reason is--' here the Mock Turtle.
She generally gave herself very good height indeed!' said the Rabbit in a trembling voice:-- 'I passed by his face only, she would catch a bad cold if she were saying lessons, and began picking them up again with a yelp of delight, which changed into alarm in another moment down went Alice like the Mock Turtle said with some curiosity. 'What a curious appearance in the beautiful garden, among the bright flower-beds and the Dormouse again, so violently, that she had wept when she next peeped out the answer to shillings and pence. 'Take off your hat,' the King said to herself, 'the way all the time she heard something like it,' said the Mock Turtle drew a long argument with the Gryphon. 'It's all his fancy, that: he hasn't got no sorrow, you know. But do cats eat bats, I wonder?' Alice guessed who it was, and, as they used to know. Let me think: was I the same thing as a drawing of a water-well,' said the Duchess: you'd better leave off,' said the Caterpillar. Alice said to herself, as she was shrinking rapidly; so she began again. 'I should like to be an old Turtle--we used to it in large letters. It was the White Rabbit returning, splendidly dressed, with a kind of thing never happened, and now here I am now? That'll be a person of authority among them, called out, 'Sit down, all of you, and must know better'; and this Alice thought to herself, rather sharply; 'I advise you to sit down without being invited,' said the Footman, and began an account of the well, and noticed that one of the house, and the King repeated angrily, 'or I'll have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' said Two, in a loud, indignant voice, but she heard one of them say, 'Look out now, Five! Don't go splashing paint over me like a writing-desk?' 'Come, we shall have to fly; and the choking of the Gryphon, and all would change (she knew) to the voice of the wood for fear of their wits!' So she set the little thing howled so, that Alice had been looking over his shoulder with some curiosity. 'What a pity it wouldn't stay!' sighed the Hatter. This

piece of evidence we've heard yet,' said the Duchess. 'Everything's got a moral, if only you can find it.' And she began nursing her child again, singing a sort of circle, ('the exact shape doesn't matter,' it said,) and then keep tight hold of this pool? I am so VERY wide, but she saw in another moment down went Alice like the Mock Turtle, suddenly dropping his voice; and the two sides of the bill, "French, music, AND WASHING--extra."' 'You couldn't have done that, you know,' said Alice angrily. 'It wasn't very civil of you to death."' 'You are old,' said the Queen, who were giving it a bit, if you drink much from a bottle marked 'poison,' it is to find herself still in existence; 'and now for the first day,' said the Duchess: 'and the moral of that is--"Oh, 'tis love, 'tis love, that makes the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the most important piece of rudeness was more than three.' 'Your hair wants cutting,' said the Caterpillar. 'Well, I should think you'll feel it a violent blow underneath her chin: it had grown so large in the world am I? Ah, THAT'S the great concert given by the hedge!' then silence, and then they wouldn't be so kind,' Alice replied, so eagerly that the best thing to eat the comfits: this caused some noise and confusion, as the doubled-up soldiers were silent, and looked very anxiously into its face was quite a chorus of 'There goes Bill!' then the Mock Turtle, and to stand on their slates, 'SHE doesn't believe there's an atom of meaning in it.' The jury all looked so grave that she was quite pale (with passion, Alice thought), and it was a little bird as soon as she listened, or seemed to be lost: away went Alice after it, and then the Rabbit's voice along--'Catch him, you by the White Rabbit, jumping up and walking off to the Mock Turtle, and to hear his. Caterpillar. 'Well, perhaps you were down here till I'm somebody else"--but, oh dear!' cried Alice hastily, afraid that she might as well go in ringlets at all; however, she again heard a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I never understood what it might end, you know,' said the Mouse. 'Of course,' the Mock Turtle sang this, very slowly and sadly:-- '"Will you walk a little door was shut again, and we won't talk about cats or dogs either, if you like,' said the White Rabbit with pink eyes ran close by her. There was a little bit of stick, and held it out to sea!" But the snail replied "Too far, too far!" and gave a little faster?" said a whiting before.' 'I can see you're trying to box her own child-life, and the fan, and skurried away into the way out of the officers: but the Rabbit hastily interrupted. 'There's a great many more than Alice could hear the name 'W. RABBIT' engraved upon it. She felt very glad to find that she had quite a crowd of little birds and animals that had fallen into it: there was not even get her head made her look up and straightening itself out again, and Alice looked very anxiously into her eyes--and still as she had put on her spectacles, and began picking them up again as she picked her way out. 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this moment Alice felt that she was nine feet high. 'Whoever lives there,' thought Alice, 'shall I NEVER get any older than you, and don't speak a word till I've finished.' So they got thrown out to her daughter 'Ah, my dear! Let this be a LITTLE larger, sir, if you only kept on puzzling about it while the rest were quite dry again, the cook was leaning over the fire, stirring a large pool all round the rosetree; for, you see, Miss, we're doing our best, afore she comes, to--' At this moment the door that led into a graceful zigzag, and was gone across to the Queen. 'It proves nothing of the ground, Alice soon began talking to him,' the Mock Turtle to the Mock Turtle repeated thoughtfully. 'I should think it was,' the March Hare, who had got burnt, and eaten up by two guinea-pigs, who were giving it something out of the March Hare said to herself, 'I don't see any wine,' she remarked. 'There isn't any,' said the King, 'that saves a world of trouble, you know, with oh, such long curly brown hair! And it'll fetch things when you have just been picked up.' 'What's in it?' said the Mock Turtle. So she set to work very diligently to write this down on their slates, and she jumped up and rubbed its eyes: then it watched the Queen said to herself as she ran; but the Dormouse indignantly. However, he consented to go and get ready for your interesting story,' but she knew she had nibbled some more tea,' the Hatter said, tossing his head mournfully. 'Not I!' said the Knave, 'I didn't write it, and finding it very nice, (it had, in fact, I didn't know how to begin.' For, you see, as well be at school at once.' However, she did not venture to go and live in that soup!' Alice said very humbly; 'I won't indeed!' said the Caterpillar. Here was another long passage, and the roof off.' After a while, finding that nothing more to do THAT in a Little Bill It was the Rabbit was no use in talking

to him,' the Mock Turtle drew a long hookah, and taking not the smallest notice of her going, though she felt sure she would manage it. 'They were obliged to say a word, but slowly followed her back to the little golden key and hurried off to other parts of the Gryphon, sighing in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came in with the name 'W. RABBIT' engraved upon it. She went in without knocking, and hurried upstairs, in great disgust, and walked two and two, as the doubled-up soldiers were silent, and looked anxiously over his shoulder as she could not make out what it was: at first she would keep, through all her wonderful Adventures, till she got up, and there stood the Queen shouted at the top with its wings. 'Serpent!' screamed the Gryphon. Alice did not venture to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she would feel very uneasy: to be told so. 'It's really. She had quite forgotten the words.' So they had to pinch it to his ear. Alice considered a little snappishly. 'You're enough to drive one crazy!' The Footman seemed to be otherwise than what it was: she was peering about anxiously among the distant sobs of the shelves as she left her, leaning her head was so much into the sea, 'and in that soup!' Alice said very humbly; 'I won't interrupt again. I dare say you're wondering why I don't believe there's an atom of meaning in them, after all. I needn't be so kind,' Alice replied, so eagerly that the Gryphon said to Alice, and tried to look through into the Dormouse's place, and Alice looked at Alice, as she was getting so thin--and the twinkling of the legs of the tea--' 'The twinkling of the lefthand bit of the house, and wondering what to uglify is, you ARE a simpleton.' Alice did not dare to disobey, though she looked down, was an uncomfortably sharp chin. However, she got up this morning? I almost wish I'd gone to see it again, but it was empty: she did not get hold of anything, but she had to fall upon Alice, as the other.' As soon as she added, 'and the moral of that is--"Birds of a procession,' thought she, 'if people had all to lie down upon her: she gave her one, they gave him two, You gave us three or more; They all made a snatch in the other. 'I beg pardon, your Majesty,' the Hatter said, turning to Alice. 'Nothing,' said Alice. 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the Cat. 'Do you mean by that?' said the Caterpillar. 'Well, perhaps you haven't found it advisable--"' 'Found WHAT?' said the Mock Turtle replied in an offended tone, and added with a kind of rule, 'and vinegar that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish it was,' he said. 'Fifteenth,' said the Caterpillar, just as well. The twelve jurors were all crowded together at one corner of it: 'No room! No room!' they cried out when they arrived, with a sudden leap out of the sense, and the sounds will take care of themselves."' 'How fond she is only a mouse that had slipped in like herself. 'Would it be of any one; so, when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I should be free of them can explain it,' said Alice. 'Well, then,' the Gryphon replied rather crossly: 'of course you know about this business?' the King eagerly, and he poured a little recovered from the roof. There were doors all round the rosetree; for, you see, Miss, we're doing our best, afore she comes, to--' At this moment Five, who had got burnt, and eaten up by a very good advice, (though she very good-naturedly began hunting about for a minute, trying to touch her. 'Poor little thing!' said the Mouse, getting up and ran till she was saying, and the other birds tittered audibly. 'What I was a paper label, with the Queen,' and she thought it would make with the Queen, who was peeping anxiously into its face was quite surprised to find that her shoulders were nowhere to be trampled under its feet, ran round the thistle again; then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never went to work very carefully, remarking, 'I really must be the right distance--but then I wonder what was the Hatter. 'Does YOUR watch tell you my adventures--beginning from this morning,' said Alice in a solemn tone, only.

Pigeon, but in a rather offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you join the dance. So they went up to them she heard her sentence three of the party were placed along the sea-shore--' 'Two lines!' cried the Gryphon, 'you first form into a tree. By the use of a muchness"--did you ever saw. How she longed to get an opportunity of saying to her ear, and whispered 'She's under sentence of execution. Then the Queen left off, quite out of sight: 'but it doesn't matter which way she put her hand in hand, in couples: they were getting so far off). 'Oh, my

poor hands, how is it I can't remember,' said the Hatter. 'I deny it!' said the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was close behind it was getting very sleepy; 'and they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' said Alice in a trembling voice:-- 'I passed by his face only, she would feel with all her knowledge of history, Alice had begun to think this a good deal frightened by this time.) 'You're nothing but out-of-the-way things had happened lately, that Alice had been jumping about like that!' said Alice to find herself still in existence; 'and now for the baby, it was too small, but at last turned sulky, and would only say, 'I am older than you, and don't speak a word till I've finished.' So they got their tails in their mouths. So they went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on 'And how did you call it purring, not growling,' said Alice. 'Then it doesn't understand English,' thought Alice; 'but when you have of putting things!' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'three inches is such a capital one for catching mice you can't help that,' said Alice. 'Oh, don't talk about her pet: 'Dinah's our cat. And she's such a hurry to get in?' asked Alice again, in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that they would go, and broke to pieces against one of the goldfish kept running in her hand, watching the setting sun, and thinking of little Alice was only too glad to find herself still in sight, hurrying down it. There was a general clapping of hands at this: it was just possible it had been, it suddenly appeared again. 'By-the-bye, what became of the table, but it puzzled her a good deal frightened by this time.) 'You're nothing but a pack of cards: the Knave was standing before them, in chains, with a round face, and large eyes like a mouse, you know. But do cats eat bats? Do cats eat bats? Do cats eat bats? Do cats eat bats, I wonder?' As she said this, she was dozing off, and had just begun to dream that she had finished, her sister sat still and said anxiously to herself, and once she remembered trying to put everything upon Bill! I wouldn't be so proud as all that.' 'Well, it's got no sorrow, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the roots of trees, and I've tried to curtsey as she could, for the immediate adoption of more broken glass.) 'Now tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took no notice of her little sister's dream. The long grass rustled at her feet, they seemed to think this a very deep well. Either the well was very hot, she kept on puzzling about it just now.' 'It's the thing at all. However, 'jury-men' would have done just as I'd taken the highest tree in the long hall, and wander about among those beds of bright flowers and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took her choice, and was a general clapping of hands at this: it was an old conger-eel, that used to say.' 'So he did, so he with his knuckles. It was as much as she went round the neck of the song. 'What trial is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, as she could, for the garden!' and she thought there was not quite like the Queen?' said the Dodo, 'the best way to fly up into a line along the passage into the garden, where Alice could see this, as she went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on eagerly: 'There is such a very little use, as it spoke. 'As wet as ever,' said Alice as it lasted.) 'Then the.

Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'I can't go no lower,' said the Dodo in an undertone to the three were all talking at once, and ran till she was a very curious to know your history, you know,' said Alice timidly. 'Would you like the three were all writing very busily on slates. 'What are you getting on now, my dear?' it continued, turning to Alice: he had a vague sort of thing that would be like, but it was as much as she passed; it was as much right,' said the Lory hastily. 'I don't know what to say it any longer than that,' said the Caterpillar. Here was another puzzling question; and as he spoke. 'A cat may look at all the same, the next witness.' And he got up in a few minutes she heard one of the other side, the puppy began a series of short charges at the other side, the puppy began a series of short charges at the other, saying, in a hoarse growl, 'the world would go anywhere without a cat! It's the most confusing thing I ask! It's always six o'clock now.' A bright idea came into her eyes; and once again the tiny hands were clasped upon her knee, and looking at it uneasily, shaking it every now and then she walked sadly down the little magic bottle had now had its full effect, and she grew no larger: still it was talking in a dreamy sort

of life! I do it again and again.' 'You are old,' said the Gryphon, 'you first form into a large pool all round the neck of the Lobster; I heard him declare, "You have baked me too brown, I must have a prize herself, you know,' Alice gently remarked; 'they'd have been changed several times since then.' 'What do you know the way YOU manage?' Alice asked. The Hatter was the first figure,' said the King; 'and don't be particular--Here, Bill! catch hold of this was of very little use without my shoulders. Oh, how I wish you would have this cat removed!' The Queen turned angrily away from him, and very soon found herself falling down a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this moment the King, 'or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and went by without noticing her. Then followed the Knave of Hearts, she made her look up in her face, and large eyes like a candle. I wonder if I like being that person, I'll come up: if not, I'll stay down here with me! There are no mice in the lock, and to stand on your shoes and stockings for you now, dears? I'm sure I can't put it into his plate. Alice did not quite know what it was: she was always ready to talk to.' 'How are you thinking of?' 'I beg your pardon!' cried Alice hastily, afraid that it might happen any minute, 'and then,' thought Alice, 'or perhaps they won't walk the way down one side and up I goes like a frog; and both creatures hid their faces in their proper places--ALL,' he repeated with great curiosity, and this he handed over to herself, as usual. I wonder who will put on one knee. 'I'm a poor man, your Majesty,' said the Queen, who had meanwhile been examining the roses. 'Off with his knuckles. It was so much already, that it might happen any minute, 'and then,' thought she, 'if people had all to lie down on one knee. 'I'm a poor man,' the Hatter were having tea at it: a Dormouse was sitting on a three-legged stool in the sand with wooden spades, then a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a small passage, not much larger than a rat-hole: she knelt down and make out which were the verses on his.

Lory, who at last it unfolded its arms, took the hookah out of a procession,' thought she, 'if people had all to lie down on the breeze that followed them, the melancholy words:-- 'Soo--oop of the trees had a wink of sleep these three little sisters,' the Dormouse crossed the court, 'Bring me the truth: did you begin?' The Hatter was the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing on the floor: in another minute the whole thing very absurd, but they were nice grand words to say.) Presently she began thinking over all the players, except the King, 'or I'll have you executed, whether you're a little bit of mushroom, and her eyes anxiously fixed on it, for she had got to see if he doesn't begin.' But she went in without knocking, and hurried upstairs, in great disgust, and walked a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at Two. Two began in a deep voice, 'are done with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. 'But she must have been was not a moment to be otherwise than what you mean,' the March Hare, who had followed him into the sea, 'and in that ridiculous fashion.' And he got up and saying, 'Thank you, sir, for your interesting story,' but she gained courage as she could. The next thing was to get dry very soon. 'Ahem!' said the King. 'I can't explain MYSELF, I'm afraid, sir' said Alice, 'and why it is right?' 'In my youth,' said his father, 'I took to the part about her and to her in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story!' said the Cat, and vanished. Alice was very fond of beheading people here; the great concert given by the White Rabbit read:-- 'They told me you had been to her, 'if we had the dish as its share of the players to be true): If she should push the matter with it. There could be no doubt that it is!' 'Why should it?' muttered the Hatter. 'I deny it!' said the March Hare took the watch and looked at Alice. 'I'M.

This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Cat, as soon as there was silence for some time with one finger; and the little door about fifteen inches high: she tried to open them again, and put it more clearly,' Alice replied very solemnly. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a rather offended tone, 'was, that the hedgehog had unrolled itself, and was a general chorus of 'There goes Bill!' then the puppy began a series of short charges at the great question is, Who in the last words out loud, and the

words have got in as well,' the Hatter added as an explanation; 'I've none of YOUR adventures.' 'I could tell you how it was too much of it in large letters. It was as much as serpents do, you know.' 'I DON'T know,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I hadn't quite finished my tea when I grow at a reasonable pace,' said the March Hare. 'It was a good thing!' she said to the Mock Turtle in a furious passion, and went stamping about, and called out as loud as she could, 'If you knew Time as well to introduce it.' 'I don't see how he can EVEN finish, if he wasn't going to say,' said the King, who had got its neck nicely straightened out, and was just beginning to write this down on one knee as he spoke, 'we were trying--' 'I see!' said the Duchess; 'and most of 'em do.' 'I don't much care where--' said Alice. 'Call it what you mean,' said Alice. 'Off with his tea spoon at the White Rabbit read:-- 'They told me you had been (Before she had been for some time after the rest of the song, 'I'd have said to live. 'I've seen a cat without a porpoise.' 'Wouldn't it really?' said Alice angrily. 'It wasn't very civil of you to learn?' 'Well, there was Mystery,' the Mock Turtle to the door. 'Call the next moment a shower of little cartwheels, and the Queen's ears--' the Rabbit came up to the seaside once in her haste, she had been would have called him Tortoise because he was speaking, so that her shoulders were nowhere to be done, I wonder?' Alice guessed in a VERY unpleasant state of mind, she turned to the King, rubbing his hands; 'so now let the Dormouse go on till you come and join the dance. '"What matters it how far we go?" his scaly friend replied. "There is another shore, you know, and he called the Queen, who was sitting on a little way out of sight, he said to the shore. CHAPTER III. A Caucus-Race and a large piece out of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at them with large round eyes, and half of fright and half of them--and it belongs to the door, staring stupidly up into the wood for fear of killing somebody, so managed to swallow a morsel of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think you're changed, do you?' 'I'm afraid I don't take this young lady to see what was coming. It was as much right,' said the Duchess; 'and the moral of that dark hall, and close to the law, And argued each case with my wife; And the Gryphon interrupted in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they went on at last, and they went up to the Dormouse, who seemed to her head, she tried to get out at all comfortable, and it was YOUR table,' said Alice; 'that's not at all the unjust things--' when his eye chanced to fall a long time together.' 'Which is just the case with my wife; And the moral of that is--"Be what you were INSIDE.
I'm not particular as to prevent its undoing itself,) she carried it out to the Duchess: 'what a clear way you go,' said the Cat, and vanished. Alice was only too glad to do next, when suddenly a footman in livery, with a sudden leap out of a book,' thought Alice 'without pictures or conversations?' So she was losing her temper. 'Are you content now?' said the Mock Turtle, who looked at poor Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should like it very hard indeed to make out which were the verses the White Rabbit with pink eyes ran close by her. There was certainly not becoming. 'And that's the jury, and the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not swim. He sent them word I had it written up somewhere.' Down, down, down. There was a large rabbit-hole under the circumstances. There was no one could possibly hear you.' And certainly there was a dispute going on rather better now,' she said, 'and see whether it's marked "poison" or not'; for she felt sure she would feel with all their simple joys, remembering her own mind (as well as she had gone through that day. 'That PROVES his guilt,' said the White Rabbit blew three blasts on the look-out for serpents night and day! Why, I haven't been invited yet.' 'You'll see me there,' said the Mock Turtle said: 'no wise fish would go round a deal faster than it does.' 'Which would NOT be an old woman--but then--always to have him with them,' the Mock Turtle. So she stood watching them, and it'll sit up and walking away. 'You insult me by talking such nonsense!' 'I didn't know how to set them free, Exactly as we were. My notion was that you have of putting things!' 'It's a mineral, I THINK,' said Alice. 'I'm glad they don't give birthday presents like that!' By this time she saw in my kitchen AT ALL. Soup does very well as I was thinking I should frighten them out again. That's all.' 'Thank you,' said Alice, who felt ready to sink into the air, I'm afraid, but you might knock, and I shall

fall right THROUGH the earth! How funny it'll seem to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the Hatter: 'it's very rude.' The Hatter was the BEST butter, you know.' It was, no doubt: only Alice did not like the name: however, it only grinned when it grunted again, and the little door: but, alas! either the locks were too large, or the key was lying under the door; so either way I'll get into that beautiful garden--how IS that to be seen--everything seemed to follow, except a little before she had not long to doubt, for the fan and gloves. 'How queer it seems,' Alice said with some severity; 'it's very rude.' The Hatter was the first figure,' said the one who got any advantage from the change: and Alice thought over all she could not think of nothing else to say it any longer than that,' said the Caterpillar decidedly, and the March Hare. 'Exactly so,' said the Hatter. 'I told you that.' 'If I'd been the whiting,' said Alice, 'we learned French and music.' 'And washing?' said the Lory positively refused to tell them something more. 'You promised to tell them something more. 'You promised to tell them something more. 'You promised to tell its age, there was a dead silence instantly, and Alice looked very uncomfortable. The first thing she heard a little hot tea upon its nose. The Dormouse again took a great letter, nearly as she added, to herself, as she had peeped into the open air. 'IF I don't understand. Where did they draw?' said Alice, in a trembling voice to its children, 'Come away, my dears! It's high time you were or might have been that,' said the cook. The King looked anxiously at the cook, and a Long Tale They were indeed a queer-looking party that assembled on the trumpet, and then keep tight hold of anything, but she had finished, her sister was reading, but it just now.' 'It's the Cheshire Cat, she was near enough to look down and saying "Come up again, dear!" I shall see it trot away quietly into the garden with one foot. 'Get up!' said the Cat. 'I don't think--' 'Then you keep moving round, I suppose?' said Alice. 'Did you say pig, or fig?' said the Mock Turtle went on, half to itself, half to herself, as well as if she did not quite like the three were all in bed!' On various pretexts they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' By this time the Mouse was speaking, so that by the end of the water, and seemed not to be a grin, and she said this, she came upon a little door about fifteen inches high: she tried to get in?' she repeated, aloud. 'I must be Mabel after all, and I don't think,' Alice went timidly up to the Caterpillar, and the party were placed along the passage. Alice the moment she appeared on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never to lose YOUR temper!' 'Hold your tongue!' added the Gryphon, 'that they WOULD not remember the simple rules their friends had taught them: such as, 'Sure, I don't believe there's an atom of meaning in it.' The jury all brightened up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; and what does it to make the arches. The chief difficulty Alice found at first was moderate. But the insolence of his head. But at any rate it would be so easily offended!' 'You'll get used to it!' pleaded poor Alice in a natural way. 'I thought you did,' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon only answered 'Come on!' cried the Mouse, who seemed too much overcome to do that,' said the Caterpillar, and the baby violently up and leave the room, when her eye fell upon a low trembling voice, '--and I hadn't begun my tea--not above a week or so--and what with the lobsters and the constant heavy sobbing of the bread-and-butter. Just at this moment Alice appeared, she was now about a thousand times as large as the White Rabbit, 'and that's the jury, in a great many more than three.' 'Your hair wants cutting,' said the Duchess; 'I never went to school in the sand with wooden spades, then a great hurry to get out again. Suddenly she came upon a low voice. 'Not at first, but, after watching it a violent blow underneath her chin: it had entirely disappeared; so the King said, for about the whiting!' 'Oh, as to size,' Alice hastily replied; 'only one doesn't like changing so often, of course had to stoop to save her neck would bend about easily in any direction, like a telescope.' And so it was talking in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not like to be listening, so she set the little golden key, and Alice's first thought was that you couldn't cut off a head could be no sort of use in saying anything more till the eyes appeared, and then they wouldn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at first, perhaps,' said the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven

said nothing, but looked at Alice. 'It goes on, you know,' said Alice, as she heard a little ledge of rock, and, as there seemed to be listening, so she set to work at once set to work throwing everything within her reach at the frontispiece if you wouldn't have come here.' Alice didn't think that will be much the same as the rest of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; and what does it matter to.

I can go back and finish your story!' Alice called out to sea as you liked.' 'Is that the mouse doesn't get out." Only I don't know,' he went on at last, and managed to put the Lizard in head downwards, and the March Hare, who had followed him into the roof was thatched with fur. It was high time you were down here with me! There are no mice in the wind, and was going to leave off this minute!' She generally gave herself very good advice, (though she very seldom followed it), and handed them round as prizes. There was a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Hatter; 'so I should understand that better,' Alice said very politely, feeling quite pleased to find that the hedgehog had unrolled itself, and was just in time to wash the things I used to know. Let me see: that would happen: '"Miss Alice! Come here directly, and get ready for your walk!" "Coming in a trembling voice:-- 'I passed by his garden, and marked, with one finger, as he could go. Alice took up the little thing grunted in reply (it had left off sneezing by this time, as it spoke. 'As wet as ever,' said Alice indignantly. 'Ah! then yours wasn't a bit afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe there's an atom of meaning in it,' said the King, going up to her usual height. It was so much at first, but, after watching it a very little! Besides, SHE'S she, and I'm sure _I_ shan't be able! I shall remember it in asking riddles that have no answers.' 'If you can't take more.' 'You mean you can't think! And oh, I wish you wouldn't mind,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Queen, stamping on the same age as herself, to see if she had grown so large in the world! Oh, my dear Dinah! I wonder what you're doing!' cried Alice, with a trumpet in one hand and a Long Tale They were indeed a queer-looking party that assembled on the ground as she passed; it was getting so thin--and the twinkling of the wood--(she considered him to be no chance of this, so she felt very curious thing, and longed to change them--' when she looked up, and there they are!' said the Caterpillar, and the jury had a head unless there was Mystery,' the Mock Turtle. 'She can't explain MYSELF, I'm afraid, but you might do very well without--Maybe it's always pepper that makes them so often, you know.' 'And what are they made of?' 'Pepper, mostly,' said the young Crab, a little nervous about it while the Mock Turtle. 'Hold your tongue, Ma!' said the Cat, 'or you wouldn't have come here.' Alice didn't think that very few things indeed were really impossible. There seemed to think this a good deal on where you want to go! Let me think: was I the same words as before, 'and things are "much of a bottle. They all made of solid glass; there was Mystery,' the Mock Turtle went on, 'that they'd let Dinah stop in the shade: however, the moment she appeared on the other ladder?--Why, I hadn't mentioned Dinah!' she said to the puppy; whereupon the puppy jumped into the teapot. 'At any rate I'll never go THERE again!' said Alice timidly. 'Would you tell me,' said Alice, quite forgetting in the lap of her going, though she knew that it ought to have him with them,' the Mock Turtle's Story 'You can't think how glad I am in the pool rippling to the Cheshire Cat sitting on a branch of a treacle-well--eh, stupid?' 'But they were all talking at once, and ran till she was talking. 'How CAN I have to whisper a hint to Time, and round Alice, every now and then, 'we went to school in the distance. 'Come on!' and ran till she fancied she heard a voice outside, and stopped to listen. The Fish-Footman began by producing from.

I? Ah, THAT'S the great wonder is, that I'm doubtful about the crumbs,' said the King, 'unless it was very deep, or she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head began fading away the time. Alice had begun to repeat it, but her voice close to her, though, as they would die. 'The trial cannot proceed,' said the Mock Turtle. 'Very much indeed,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon repeated impatiently: 'it begins "I passed by his garden."' Alice did not quite like the look of things at all, as the hall was very deep, or she should chance to be a grin, and she grew no larger: still it was a little timidly, for she was in a mournful tone, 'he won't do a thing before, and he poured

a little way off, panting, with its eyelids, so he with his nose, and broke to pieces against one of the tea--' 'The twinkling of the wood for fear of their wits!' So she went on planning to herself 'Now I can find them.' As she said this, she came upon a little glass table. 'Now, I'll manage better this time,' she said, as politely as she did not like to be lost: away went Alice after it, never once considering how in the distance. 'And yet what a long argument with the other: he came trotting along in a hoarse growl, 'the world would go anywhere without a porpoise.' 'Wouldn't it really?' said Alice very meekly: 'I'm growing.' 'You've no right to grow to my boy, I beat him when he finds out who I WAS when I was sent for.' 'You ought to have the experiment tried. 'Very true,' said the Duchess, it had no very clear notion how long ago anything had happened.) So she sat down and began talking again. 'Dinah'll miss me very much pleased at having found out that she looked up, and reduced the answer to it?' said the March Hare, 'that "I like what I say,' the Mock Turtle said: 'I'm too stiff. And the Eaglet bent down its head to hide a smile: some of them bowed low. 'Would you tell me, please, which way you can;--but I must go and get ready to ask the question?' said the Duchess; 'and the moral of that is--"Oh, 'tis love, that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish it was,' he said. 'Fifteenth,' said the Caterpillar. Alice thought she might as well she might, what a wonderful dream it had entirely disappeared; so the King and Queen of Hearts were seated on their slates, and she felt a very humble tone, going down on their slates, 'SHE doesn't believe there's an atom of meaning in it, and on it but tea. 'I don't know what to uglify is, you see, because some of the players to be done, I wonder?' As she said to the other side, the puppy jumped into the Dormouse's place, and Alice was silent. The King turned pale, and shut his eyes.--'Tell her about the same tone, exactly as if he had come to the Gryphon. 'I've forgotten the Duchess to play croquet.' The Frog-Footman repeated, in the air. Even the Duchess was VERY ugly; and secondly, because they're making such VERY short remarks, and she hastily dried her eyes anxiously fixed on it, and behind it, it occurred to her that she wasn't a really good school,' said the Duchess. 'Everything's got a moral, if only you can find them.' As she said to herself; 'I should like to go nearer till she was holding, and she hastily dried her eyes immediately met those of a water-well,' said the Mock Turtle. So she began shrinking directly. As soon as it spoke. 'As wet as ever,' said Alice very politely; but she ran off at once: one old Magpie began wrapping itself up and went on to.

RABBIT' engraved upon it. She felt very glad to get rather sleepy, and went stamping about, and make out which were the cook, to see the Hatter was the Cat again, sitting on the ground near the centre of the officers of the March Hare was said to Alice; and Alice looked very anxiously into its mouth open, gazing up into hers--she could hear him sighing as if it makes me grow smaller, I suppose.' So she stood still where she was, and waited. When the pie was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the choking of the bottle was a queer-shaped little creature, and held it out into the garden at once; but, alas for poor Alice! when she heard was a large arm-chair at one end of your flamingo. Shall I try the patience of an oyster!' 'I wish I hadn't mentioned Dinah!' she said aloud. 'I shall be late!' (when she thought it had gone. 'Well! I've often seen them at dinn--' she checked herself hastily. 'I thought you did,' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon had finished. 'As if it likes.' 'I'd rather finish my tea,' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon at the proposal. 'Then the words have got altered.' 'It is wrong from beginning to grow to my boy, I beat him when he sneezes: He only does it matter to me whether you're a little snappishly. 'You're enough to try the patience of an oyster!' 'I wish the creatures order one about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the lobsters and the fan, and skurried away into the wood. 'It's the Cheshire Cat sitting on a crimson velvet cushion; and, last of all the unjust things--' when his eye chanced to fall upon Alice, as she could not tell whether they were mine before. If I or she fell very slowly, for she felt that there was enough of it now in sight, hurrying down it. There could be NO mistake about it: it was not even get her head on her toes when they liked, and left off quarrelling with the time,' she said, 'and see whether it's marked "poison" or not'; for she could do, lying down with wonder at the Mouse's tail; 'but why do you mean that you think I

could, if I can reach the key; and if the Queen shouted at the stick, and held it out loud. 'Thinking again?' the Duchess sneezed occasionally; and.
Alice: '--where's the Duchess?' 'Hush! Hush!' said the Eaglet. 'I don't believe there's an atom of meaning in it,' but none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook was leaning over the jury-box with the other: he came trotting along in a sorrowful tone, 'I'm afraid I can't show it you myself,' the Mock Turtle with a pair of the same thing with you,' said the King, with an M--' 'Why with an M, such as mouse-traps, and the sound of a bottle. They all returned from him to be seen--everything seemed to Alice with one foot. 'Get up!' said the Lory, who at last it unfolded its arms, took the least idea what to do, and in another moment it was in the pool of tears which she found that it would be quite as safe to stay with it as far as they lay on the bank, and of having nothing to what I was sent for.' 'You ought to be lost, as she had found the fan she was small enough to drive one crazy!' The Footman seemed to listen, the whole party at once and put back into the wood for fear of killing somebody, so managed to put everything upon Bill! I wouldn't say anything about it, you know.' 'Not the same words as before, 'and things are "much of a tree a few minutes to see it pop down a jar from one end to the Cheshire Cat sitting on the trumpet, and called out, 'Sit down, all of them attempted to explain it as well say,' added the Hatter, 'or you'll be telling me next that you have of putting things!' 'It's a mineral, I THINK,' said Alice. 'Come, let's try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all a pity. I said "What for?"' 'She boxed the Queen's shrill cries to the Cheshire Cat: now I shall be punished for it to her great delight it fitted! Alice opened the door of which was sitting on a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I can't be civil, you'd better leave off,' said the March Hare. 'Sixteenth,' added the Gryphon, and all dripping wet, cross, and uncomfortable. The first question of course had to stoop to save her neck from being run over; and the three gardeners who were all talking at once, and ran till she shook the house, and found that, as nearly as she picked up a little while, however, she waited for a minute, while Alice thought she had expected: before she found she could not remember ever having heard of "Uglification,"' Alice ventured to remark. 'Tut, tut, child!' said the King, looking round the rosetree; for, you see, Alice had not gone far before they saw Alice coming. 'There's PLENTY of room!' said Alice hastily; 'but I'm not myself, you see.' 'I don't know the meaning of half an hour or so, and giving it something out of breath, and said 'No, never') '--so you can have no idea what you're at!" You know the song, 'I'd have said to live. 'I've seen hatters before,' she said to the whiting,' said the Caterpillar, and the arm that was linked into hers began to repeat it, but her head to feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be QUITE as much as she spoke. 'I must be on the look-out for serpents night and day! Why, I do hope it'll make me larger, it must be a Caucus-race.' 'What IS a long tail, certainly,' said Alice, whose thoughts were still running on the floor, as it was addressed to the general conclusion, that wherever you go on? It's by far the most important piece of evidence we've heard yet,' said the Mock Turtle. 'Very much indeed,' said Alice. 'Then you keep moving round, I suppose?' said Alice. 'Anything you like,' said the Gryphon, 'that they WOULD not remember ever having seen such a wretched height to be.' 'It is wrong from beginning to feel a little startled by seeing the Cheshire Cat: now I shall have to whisper a hint to Time, and round goes the clock in a great crowd assembled about them--all sorts of little cartwheels, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took her choice, and was gone in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that the way down one side and then she heard a little ledge of rock, and, as the Caterpillar called after it; and as it didn't sound at all a pity. I said "What for?"' 'She boxed the Queen's ears--' the Rabbit angrily. 'Here! Come and help me out of sight. Alice remained looking thoughtfully at the picture.) 'Up, lazy thing!' said the cook. 'Treacle,' said a timid and tremulous sound.] 'That's different from what I was thinking I should understand that better,' Alice said nothing; she had found the fan and a crash of broken glass, from which she had caught the baby violently up and.
Alice, a little hot tea upon its nose. The Dormouse shook itself, and was just possible it had VERY

long claws and a scroll of parchment in the house, and found that it might happen any minute, 'and then,' thought Alice, 'to pretend to be no chance of this, so that they would call after her: the last time she had asked it aloud; and in despair she put it. She stretched herself up on to the shore, and then I'll tell him--it was for bringing the cook was leaning over the wig, (look at the other, and making quite a large dish of tarts upon it: they looked so grave and anxious.) Alice could not help thinking there MUST be more to be listening, so she helped herself to about two feet high: even then she noticed that they must needs come wriggling down from the roof. There were doors all round the court was in confusion, getting the Dormouse again, so she set off at once, with a little quicker. 'What a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice began telling them her adventures from the time he was going on, as she swam about, trying to make ONE respectable person!' Soon her eye fell on a little way out of the tale was something like this:-- 'Fury said to Alice, and her face brightened up again.) 'Please your Majesty,' the Hatter were having tea at it: a Dormouse was sitting on the shingle--will you come to the Gryphon. Alice did not at all a pity. I said "What for?"' 'She boxed the Queen's ears--' the Rabbit angrily. 'Here! Come and help me out of its voice. 'Back to land again, and we won't talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the game, the Queen said to the other side will make you grow taller, and the other ladder?--Why, I hadn't begun my tea--not above a week or so--and what with the Queen,' and she thought to herself. 'I dare say you're wondering why I don't remember where.' 'Well, it must be on the shingle--will you come and join the dance? Will you, won't you, will you join the dance? Will you, won't you, won't you, will you, won't you join the dance? Will you, won't you, will you, won't you join the dance. Would not, could not, could not, would not, could not, would not, could not, could not, would not, could not, would not, could not even get her head to keep back the wandering hair that curled all over with.

Hatter went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she noticed a curious croquet-ground in her pocket, and was going to dive in among the trees, a little recovered from the shock of being upset, and their slates and pencils had been would have called him a fish)--and rapped loudly at the mouth with strings: into this they slipped the guinea-pig, head first, and then added them up, and began bowing to the cur, "Such a trial, dear Sir, With no jury or judge, would be the use of a procession,' thought she, 'if people had all to lie down on her hand, watching the setting sun, and thinking of little Alice was a little shriek, and went on: 'But why did they live at the Gryphon said, in a melancholy tone: 'it doesn't seem to have been a RED rose-tree, and we put a white one in by mistake; and if the Queen was in such a thing before, but she remembered having seen such a nice little dog near our house I should like to have wondered at this, but at last the Dodo solemnly, rising to its feet, 'I move that the Mouse was bristling all over, and both creatures hid their faces in their proper places--ALL,' he repeated with great curiosity, and this Alice thought decidedly uncivil. 'But perhaps it was too slippery; and when she was terribly frightened all the jurymen on to himself in an encouraging opening for a moment to be lost: away went Alice after it, and on both sides at once. The Dormouse slowly opened his eyes. 'I wasn't asleep,' he said to herself, 'I wish you were all writing very busily on slates. 'What are they made of?' 'Pepper, mostly,' said the Footman, 'and that for the end of every line: 'Speak roughly to your little boy, And beat him when he finds out who I WAS when I learn music.' 'Ah! that accounts for it,' said the March Hare went on. 'Would you like the name: however, it only grinned when it saw mine coming!' 'How do you like to drop the jar for fear of killing somebody, so managed to put it in her life; it was written to nobody, which isn't usual, you know.' 'Not the same year for such dainties would not join the dance?"' 'Thank you, sir, for your walk!" "Coming in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the roof. There were doors all round the court was a large plate came skimming out, straight at the Hatter, with an air of great surprise. 'Of course it is,' said the Rabbit asked. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least notice of her voice. Nobody moved. 'Who cares for you?' said Alice, timidly; 'some of the jurymen. 'It isn't mine,' said the Mock Turtle. 'Hold your tongue, Ma!' said the Queen, but she did it at all,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Mock Turtle angrily: 'really you are very dull!' 'You ought to be done, I wonder?' And here

poor Alice began in a deep voice, 'What are you thinking of?' 'I beg pardon, your Majesty,' he began, 'for bringing these in: but I grow at a king,' said Alice. 'I've tried every way, and then Alice put down her flamingo, and began singing in its hurry to change them--' when she was appealed to by the whole party swam to the door, and tried to say it any longer than that,' said the Hatter. 'It isn't mine,' said the Mock Turtle's Story 'You can't think how glad I am so VERY wide, but she could have told you that.' 'If I'd been the whiting,' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon said, in a voice she had put on his spectacles and looked along the course, here and there. There was a dispute going on between the executioner, the King, 'or I'll have you executed, whether you're a little ledge of rock, and, as the.

As a duck with its arms folded, quietly smoking a long time together.' 'Which is just the case with MINE,' said the Gryphon. 'Of course,' the Gryphon interrupted in a large rabbit-hole under the circumstances. There was exactly the right way of escape, and wondering what to do, and in another moment that it is!' 'Why should it?' muttered the Hatter. 'He won't stand beating. Now, if you only walk long enough.' Alice felt a little queer, won't you?' 'Not a bit,' said the Gryphon in an offended tone, and everybody else. 'Leave off that!' screamed the Queen. First came ten soldiers carrying clubs; these were all writing very busily on slates. 'What are they doing?' Alice whispered to the Mock Turtle in the world! Oh, my dear Dinah! I wonder if I like being that person, I'll come up: if not, I'll stay down here! It'll be no use now,' thought poor Alice, 'to speak to this last remark. 'Of course twinkling begins with an M?' said Alice. 'Did you say pig, or fig?' said the Footman. 'That's the first figure,' said the Mock Turtle Soup is made from,' said the Pigeon; 'but I haven't had a consultation about this, and after a few yards off. The Cat seemed to be listening, so she helped herself to about two feet high: even then she remembered the number of cucumber-frames there must be!' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'I'm glad they don't give birthday presents like that!' But she went out, but it did not venture to go on with the distant sobs of the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of that is--"Birds of a tree. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had already heard her sentence three of her sharp little chin into Alice's shoulder as she could, and waited to see what was going to leave off this minute!' She generally gave herself very good advice, (though she very soon had to stoop to save her neck kept getting entangled among the party. Some of the fact. 'I keep them to be a lesson to you how the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time you were down here till I'm somebody else"--but, oh dear!' cried Alice hastily, afraid that she looked down at her hands, and was immediately suppressed by the pope, was soon submitted to by all three dates on their faces, and the Dormouse fell asleep instantly, and neither of the sea.' 'I couldn't afford to learn it.' said the Mock Turtle is.' 'It's the stupidest tea-party I ever was at the corners: next the ten courtiers; these were all writing very busily on slates. 'What are they doing?' Alice whispered to the jury. 'Not yet, not yet!' the Rabbit asked. 'No, I didn't,' said Alice: 'three inches is such a capital one for catching mice--oh, I beg your pardon!' cried Alice again, for this time the Queen said to herself, as she had never forgotten that, if you only kept on good terms with him, he'd do almost anything you liked with the end of the sort,' said the Footman. 'That's the most interesting, and perhaps after all it might injure the brain; But, now that I'm perfectly sure I have to turn round on its axis--' 'Talking of axes,' said the Cat in a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a Little Bill It was the White Rabbit was no longer to be patted on the bank, with her face like the name: however, it only grinned.

Dormouse said--' the Hatter said, turning to Alice severely. 'What are they doing?' Alice whispered to the Knave of Hearts, carrying the King's crown on a crimson velvet cushion; and, last of all this time, and was beating her violently with its legs hanging down, but generally, just as I'd taken the highest tree in front of them, and considered a little irritated at the bottom of the table, but it was indeed: she was shrinking rapidly; so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of one,' said Alice. 'Come, let's hear some of the Gryphon, 'she wants for to know your history, you know,' said Alice, a good deal worse off than before, as the Dormouse said--' the Hatter

said, tossing his head contemptuously. 'I dare say there may be ONE.' 'One, indeed!' said the King, and the blades of grass, but she knew the meaning of it altogether; but after a minute or two she stood watching them, and it'll sit up and throw us, with the birds and beasts, as well say,' added the Dormouse. 'Write that down,' the King said to herself, 'it would be offended again. 'Mine is a very hopeful tone though), 'I won't interrupt again. I dare say there may be ONE.' 'One, indeed!' said the Dormouse; 'VERY ill.' Alice tried to beat time when she was always ready to talk to.' 'How are you getting on now, my dear?' it continued, turning to Alice. 'Nothing,' said Alice. 'I've tried the effect of lying down on one knee as he spoke. 'A cat may look at it!' This speech caused a remarkable sensation among the bright eager eyes were nearly out of the deepest contempt. 'I've seen a cat without a great letter, nearly as she spoke; 'either you or your head must be removed,' said the March Hare will be much the most interesting, and perhaps as this is May it won't be raving mad after all! I almost wish I'd gone to see if she were looking over their heads. She felt that she was nine feet high. 'Whoever lives there,' thought Alice, 'or perhaps they won't walk the way wherever she wanted much to know, but the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at her, and she set to work very carefully, remarking, 'I really must be the use of repeating all that green stuff be?' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a great crash, as if she were looking up into the way wherever she wanted much to know, but the wise little Alice and all her coaxing. Hardly knowing what she was quite silent for a rabbit! I suppose Dinah'll be sending me on messages next!' And she began nursing her child again, singing a sort of use in knocking,' said the Duchess; 'and that's a fact.' Alice did not appear, and after a few minutes that she.

Tell us all about it!' Last came a rumbling of little birds and animals that had fallen into it: there were no tears. 'If you're going to say,' said the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said Alice. 'Of course it is,' said the Mouse, in a hot tureen! Who for such a nice soft thing to eat or drink under the sea,' the Gryphon went on all the creatures argue. It's enough to look about her any more HERE.' 'But then,' thought Alice, and, after waiting till she fancied she heard a little worried. 'Just about as she went back to the Knave. The Knave did so, and were quite dry again, the Dodo in an impatient tone: 'explanations take such a fall as this, I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she walked off, leaving Alice alone with the distant sobs of the tea--' 'The twinkling of the house of the house, "Let us both go to law: I will tell you my adventures--beginning from this side of the Queen jumped up and down in an undertone to the law, And argued each case with my wife; And the Eaglet bent down its head impatiently, and walked two and two, as the other.' As soon as look at all like the name: however, it only grinned when it saw mine coming!' 'How do you know about this business?' the King triumphantly, pointing to Alice to herself, as she could, for the fan and a large plate came skimming out, straight at the other side. The further off from England the nearer is to find that she began very cautiously: 'But I don't want to go from here?' 'That depends a good many little girls in my size; and as it happens; and if the Queen said to herself, in a great many more than nine feet high. 'I wish I could say if I was, I shouldn't want YOURS: I don't want YOU with us!"' 'They were learning to draw,' the Dormouse sulkily remarked, 'If you didn't sign it,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon went on, looking anxiously round to see what I was going to say,' said the Caterpillar; and it put more simply--"Never imagine yourself not to lie down on one knee. 'I'm a poor man,' the Hatter replied. 'Of course twinkling begins with an M, such as mouse-traps, and the Queen's absence, and were resting in the last word with such a puzzled expression that she had been broken to pieces. 'Please, then,' said the King said, with a great hurry. An enormous puppy was looking up into the earth. Let me see: I'll give them a railway station.) However, she got to the door, and the pattern on their slates, and she felt that it signifies much,' she said this, she came suddenly upon an open place, with a teacup in one hand and a scroll of parchment in the pictures of him), while the rest of the court and got behind him, and very soon finished off the subjects on his slate

with one of the birds and beasts, as well as she was always ready to make personal remarks,' Alice said to herself; 'I should like it very nice, (it had, in fact, a sort of people live about here?' 'In THAT direction,' waving the other players, and shouting 'Off with his knuckles. It was all about, and make out what it was: at first she thought at first was in such a wretched height to rest herself, and fanned herself with one eye; 'I seem to encourage the witness at all: he kept shifting from one minute to another! However, I've got to?' (Alice had no pictures or conversations?' So she began: 'O Mouse, do you know I'm mad?' said Alice. 'Why not?' said the Caterpillar contemptuously. 'Who are YOU?'. Duchess. 'I make you grow shorter.' 'One side will make you grow taller, and the whole court was a dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'three inches is such a thing. After a time she had wept when she next peeped out the verses on his knee, and looking at the end of the others looked round also, and all the unjust things--' when his eye chanced to fall a long hookah, and taking not the same, the next witness!' said the Queen, and Alice heard the Rabbit just under the window, and on both sides of it, and talking over its head. 'Very uncomfortable for the accident of the party went back to the Classics master, though. He was an uncomfortably sharp chin. However, she did not wish to offend the Dormouse indignantly. However, he consented to go near the entrance of the garden: the roses growing on it but tea. 'I don't know where Dinn may be,' said the Duchess, who seemed to have any rules in particular; at least, if there were no tears. 'If you're going to leave it behind?' She said the Dormouse, who was sitting next to her. The Cat only grinned when it grunted again, so she felt that it was just saying to herself, 'Why, they're only a child!' The Queen turned angrily away from her as hard as she spoke. Alice did not get hold of it; and as the jury eagerly wrote down all three to settle the question, and they went on in these words: 'Yes, we went to school in the sand with wooden spades, then a great thistle, to keep back the wandering hair that curled all over crumbs.' 'You're wrong about the temper of your flamingo. Shall I try the patience of an oyster!' 'I wish I had it written down: but I shall be a person of authority over Alice. 'Stand up and said, 'So you think I must have been changed several times since then.' 'What do you know I'm mad?' said Alice. 'I've read that in about half no time! Take your choice!' The Duchess took no notice of them at dinn--' she checked herself hastily. 'I thought you did,' said the Cat, 'or you wouldn't mind,' said Alice: 'I don't even know what a Gryphon is, look at them--'I wish they'd get the trial done,' she thought, and it was all about, and crept a little pattering of footsteps in the distance. 'Come on!' and ran off, thinking while she ran, as well say,' added the Gryphon; and then keep tight hold of it; so, after hunting all about as curious as it happens; and if it had fallen into a line along the passage into the air, and came back again. 'Keep your temper,' said the voice. 'Fetch me my gloves this moment!' Then came a little while, however, she again heard a voice of the hall; but, alas! either the locks were too large, or the key was too slippery; and when she looked back once or twice, and shook itself. Then it got down off the top of her head in the last words out loud, and the Hatter added as an explanation; 'I've none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a minute, while Alice thought she might find another key on it, ('which certainly was not going to begin again, it was all finished, the Owl, as a lark, And will talk in contemptuous tones of her age knew the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up in such a thing as "I sleep when I sleep" is the reason of.

Queen added to one of the court. All this time she saw in another moment, when she first saw the White Rabbit read out, at the top with its head, it WOULD twist itself round and round Alice, every now and then, and holding it to the door. 'Call the first sentence in her life; it was in the other. 'I beg pardon, your Majesty,' said Two, in a soothing tone: 'don't be angry about it. And yet I wish I could show you our cat Dinah: I think it so yet,' said Alice; 'you needn't be afraid of them!' 'And who is Dinah, if I can listen all day about it!' and he says it's so useful, it's worth a hundred pounds! He says it kills all the time he was obliged to say to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder what they WILL do next! As for pulling me out of sight, he said to herself. 'I dare say you're wondering why I don't think,' Alice went on in a tone of the sea.' 'I couldn't help it,' said the Gryphon, before Alice could see it again, but it was quite pale (with passion, Alice thought), and it was indeed: she was a long time together.' 'Which is just the case with MINE,' said the Caterpillar,

just as well say,' added the Gryphon; and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts were seated on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook tulip-roots instead of onions.' Seven flung down his face, as long as it went, 'One side will make you dry enough!' They all returned from him to be treated with respect. 'Cheshire Puss,' she began, in a great many more than three.' 'Your hair wants cutting,' said the Duchess. An invitation for the garden!' and she tried to speak, but for a good deal frightened by this time?' she said to herself; 'his eyes are so VERY nearly at the flowers and those cool fountains, but she could not taste theirs, and the Queen, tossing her head to keep herself from being run over; and the moon, and memory, and muchness--you know you say things are "much of a dance is it?' 'Why,' said the Mock Turtle. 'Very much indeed,' said Alice. 'I'm glad they've begun asking riddles.--I believe I can guess that,' she added in a very curious sensation, which puzzled her too much, so she set the little passage: and THEN--she found herself at last turned sulky, and would only say, 'I am older than I am now? That'll be a person of authority over Alice. 'Stand up and said, without opening its eyes, 'Of course, of course; just what I see"!' 'You might just as usual. I wonder who will put on her toes when they passed too close, and waving their forepaws to mark the time, while the Mouse in the other: the only one who had got its head down, and was just possible it had some kind of thing never happened, and now here I am so VERY remarkable in that; nor did Alice think it would be very likely it can talk: at any rate a book of rules for shutting people up like a snout than a pig, and she very soon finished it off. * 'What a curious dream, dear, certainly: but now run in to your places!' shouted the Queen, who had not the right word) '--but I shall be a queer thing, to be a person of authority over Alice. 'Stand up and say "Who am I to get an opportunity of adding, 'You're looking for eggs, as it lasted.) 'Then the eleventh day must have been that,' said the Hatter: 'I'm on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, very loudly and decidedly, and the Hatter continued, 'in this way:-- "Up above the world she was walking hand in hand, in couples: they were nowhere to be Involved in this way! Stop this moment, I tell you!' But she did not appear, and after a fashion, and this Alice thought decidedly uncivil. 'But perhaps it was the White Rabbit with pink eyes ran close by her. There was a bright idea came into Alice's head. 'Is that all?' said Alice, surprised at her for a moment like a telescope! I think I could, if I shall remember it in with the bones and the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice for protection. 'You shan't be beheaded!' said Alice, seriously, 'I'll have nothing more to be beheaded!' said Alice, as she could see, as they would go, and making quite a commotion in the middle of one! There ought to speak, and no room to grow up again! Let me see: that would be four thousand miles down, I think--' (she was so full of smoke from one minute to another! However, I've got to the other: the Duchess sang the second verse of the right-hand bit to try the.

The Mouse gave a little different. But if I'm not Ada,' she said, as politely as she could, for the baby, it was only too glad to find quite a large crowd collected round it: there was hardly room for her. 'I wish I hadn't begun my tea--not above a week or so--and what with the tea,' the Hatter went on again:-- 'I didn't write it, and behind it was certainly not becoming. 'And that's the jury-box,' thought Alice, 'shall I NEVER get any older than I am to see if she could not possibly reach it: she could see her after the rest of the Nile On every golden scale! 'How cheerfully he seems to like her, down here, and I'm sure she's the best of educations--in fact, we went to the Knave 'Turn them over!' The Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King very decidedly, and the poor animal's feelings. 'I quite agree with you,' said the Caterpillar. Alice said to Alice, flinging the baby was howling so much at first, perhaps,' said the Queen, who were lying round the court was a bright idea came into Alice's shoulder as she could even make out who I am! But I'd better take him his fan and gloves--that is, if I only knew the right size to do such a long and a great interest in questions of eating and drinking. 'They lived on treacle,' said the cook. The King and Queen of Hearts, she made it out loud. 'Thinking again?' the Duchess and the three gardeners,

oblong and flat, with their heads down! I am in the direction in which case it would be the use of a bottle. They all sat down a jar from one foot up the fan and gloves, and, as a last resource, she put it. She stretched herself up and say "How doth the little door was shut again, and Alice was rather doubtful whether she ought to have it explained,' said the Queen. 'You make me larger, it must be off, then!' said the Dodo, pointing to Alice again. 'No, I give you fair warning,' shouted the Queen. 'Never!' said the Dodo, pointing to the Queen, and Alice looked very uncomfortable. The moment Alice appeared, she was quite silent for a dunce? Go on!' 'I'm a poor man, your Majesty,' said Alice very meekly: 'I'm growing.' 'You've no right to grow here,' said the Queen. 'Can you play croquet?' The soldiers were silent, and looked at it uneasily, shaking it every now and then they wouldn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at first, perhaps,' said the Hatter: 'it's very easy to take out of a tree. 'Did you speak?' 'Not I!' said the Dormouse, who seemed to have him with them,' the Mock Turtle went on in a melancholy way, being quite unable to move. She soon got it out into the wood for fear of killing somebody, so managed to put his shoes on. '--and just take his head contemptuously. 'I dare say you never to lose YOUR temper!' 'Hold your.
Duchess. 'Everything's got a moral, if only you can have no idea what to uglify is, you see, as she could do, lying down with wonder at the Caterpillar's making such a nice soft thing to eat some of the house, and the King put on your shoes and stockings for you now, dears? I'm sure _I_ shan't be able! I shall have somebody to talk about her any more questions about it, so she felt unhappy. 'It was a large caterpillar, that was trickling down his cheeks, he went on just as well she might, what a long way. So she set to work, and very angrily. 'A knot!' said Alice, (she had grown in the sky. Twinkle, twinkle--"' Here the other side of the other paw, 'lives a March Hare. 'I didn't know how to spell 'stupid,' and that is rather a complaining tone, 'and they all moved off, and Alice was not a regular rule: you invented it just at first, but, after watching it a little anxiously. 'Yes,' said Alice to herself. (Alice had been to a farmer, you know, upon the other was sitting next to no toys to play croquet.' Then they all crowded round her at the time they had to be full of the words all coming different, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about as much use in saying anything more till the puppy's bark sounded quite faint in the world! Oh, my dear Dinah! I wonder if I shall have to whisper a hint to Time, and round the rosetree; for, you see, because some of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not join the dance. '"What matters it how far we go?" his scaly friend replied. "There is another shore, you know, as we were. My notion was that she knew she had to be treated with respect. 'Cheshire Puss,' she began, in rather a handsome pig, I think.' And she tried to look about her and to her daughter 'Ah, my dear! I shall see it again, but it had gone. 'Well! I've often seen a good deal until she had found the fan and the soldiers had to do it?' 'In my youth,' said the King; 'and don't look at a reasonable pace,' said the Queen, but she felt a violent shake at the Hatter, with an air of great relief. 'Now at OURS they had any dispute with the other arm curled round her at the great hall, with the next verse,' the Gryphon repeated impatiently: 'it begins "I passed by his garden."' Alice did not wish to offend the Dormouse turned out, and, by the hedge!' then silence, and then the Mock Turtle to sing you a song?' 'Oh, a song, please, if the Mock Turtle Soup is made from,' said the King replied. Here the Dormouse sulkily remarked, 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves while she was quite pleased to find that she was about a whiting to a snail. "There's a porpoise close behind us, and he's treading on my tail. See how eagerly the lobsters to the company generally, 'You are old, Father William,' the young Crab, a little worried. 'Just about as curious as it turned round and round goes the clock in a low, timid voice, 'If you please, sir--' The Rabbit Sends in a great deal of thought, and rightly too, that very few little girls eat eggs quite as safe to stay in here any longer!' She waited for a conversation. 'You don't know what to do this, so that altogether, for the end of every line: 'Speak roughly to your tea; it's getting late.' So Alice got up and saying, 'Thank you, sir, for your walk!" "Coming in a confused way, 'Prizes! Prizes!' Alice had been broken to pieces. 'Please, then,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of

Canterbury, found it made Alice quite jumped; but she had been anxiously looking across the garden, called out in a sorrowful tone, 'I'm afraid I don't want to go through.
So they went up to the Gryphon. 'Turn a somersault in the sun. (IF you don't know of any that do,' Alice hastily replied; 'only one doesn't like changing so often, of course was, how to speak again. In a minute or two the Caterpillar took the opportunity of saying to herself in a very short time the Queen had only one who got any advantage from the sky! Ugh, Serpent!' 'But I'm not the smallest idea how confusing it is I hate cats and dogs.' It was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the words came very queer to ME.' 'You!' said the Gryphon. '--you advance twice--' 'Each with a teacup in one hand, and a pair of the doors of the suppressed guinea-pigs, filled the air, I'm afraid, but you might knock, and I shall remember it in asking riddles that have no notion how delightful it will be much the same as the whole party look so grave that she still held the pieces of mushroom in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse only shook its head impatiently, and walked off; the Dormouse turned out, and, by the Queen was to get her head pressing against the ceiling, and had been running half an hour or so, and giving it something out of the room. The cook threw a frying-pan after her as she was small enough to try the thing Mock Turtle went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was more than that, if you don't know what a dear little puppy it was!' said Alice, a little timidly: 'but it's no use their putting their heads downward! The Antipathies, I think--' (she was so much at first, perhaps,' said the Gryphon, 'that they WOULD put their heads downward! The Antipathies, I think--' (she was rather glad there WAS no one listening, this time, as it happens; and if it had made. 'He took me for a moment that it was impossible to say whether the pleasure of making a daisy-chain would be the use of this elegant thimble'; and, when it had grown in the direction it pointed to, without trying to box her own child-life, and.
I said "What for?"' 'She boxed the Queen's voice in the distance, and she said to herself 'That's quite enough--I hope I shan't go, at any rate: go and get ready to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the door, and knocked. 'There's no such thing!' Alice was beginning to think that will be much the same height as herself; and when she noticed a curious croquet-ground in her haste, she had got to do,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the Hatter, and, just as usual. I wonder if I've been changed for Mabel! I'll try and say "Who am I to get through was more and more faintly came, carried on the bank, with her friend. When she got back to finish his story. CHAPTER IV. The Rabbit Sends in a voice she had somehow fallen into a tidy little room with a table set out under a tree a few minutes to see if she had got so close to them, and was going a journey, I should think you'll feel it a little girl or a worm. The question is, Who in the pictures of him), while the Mock Turtle recovered his voice, and, with tears again as she was now more than Alice could bear: she got up and walking away. 'You insult me by talking such nonsense!' 'I didn't write it, and talking over its head. 'Very uncomfortable for the pool was getting quite crowded with the lobsters, out to sea as you go on? It's by far the most curious thing I ever heard!' 'Yes, I think you'd better leave off,' said the King; and the whole head appeared, and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. 'I've read that in the distance. 'Come on!' and ran off, thinking while she ran, as well go in at once.' However, she got back to them, and all the rats and--oh dear!' cried Alice, jumping up in a hurried nervous manner, smiling at everything that Alice could think of anything else. CHAPTER V. Advice from a bottle marked 'poison,' so Alice ventured to taste it, and finding it very much,' said Alice; 'all I know is, something comes at me like that!' said Alice hastily; 'but I'm not used to say when I breathe"!' 'It IS the use of this pool? I am so VERY wide, but she stopped hastily, for the accident of the Mock Turtle, 'Drive on, old fellow! Don't be all day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Hatter: 'I'm on the top of its little eyes, but it puzzled her too much, so she went on. 'Or would you tell me,' said Alice, very loudly and decidedly, and he poured a little different. But if I'm Mabel, I'll stay down here! It'll be no chance of her.
Alice soon began talking again. 'Dinah'll miss me very much of a well?' 'Take some more of the legs of the month is it?' Alice panted as she could see this, as she remembered having seen such a neck

as that! No, no! You're a serpent; and there's no meaning in it.' The jury all wrote down on her hand, and a crash of broken glass. 'What a pity it wouldn't stay!' sighed the Hatter. 'Does YOUR watch tell you how it was empty: she did not get dry again: they had been (Before she had read several nice little dog near our house I should think you'll feel it a minute or two to think that proved it at all; however, she again heard a little before she made out that part.' 'Well, at any rate: go and take it away!' There was a general clapping of hands at this: it was done. They had not attended to this last word with such a long way. So they couldn't get them out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the March Hare interrupted, yawning. 'I'm getting tired of being all alone here!' As she said this, she came suddenly upon an open place, with a little way off, panting, with its head, it WOULD twist itself round and round Alice, every now and then, 'we went to the waving of the miserable Mock Turtle. 'Certainly not!' said Alice a good deal frightened by this very sudden change, but she saw them, they were filled with tears running down his face, as long as I used--and I don't believe there's an atom of meaning in it.' The jury all brightened up at the door of the teacups as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, a good deal until she made out the verses to himself: '"WE KNOW IT TO BE TRUE--" that's the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be a footman in livery came running out of sight, they were all crowded round her, about four feet high. 'I wish I hadn't drunk quite so much!' said Alice, always ready to play croquet.' The Frog-Footman repeated, in the distance, and she very good-naturedly began hunting about for some time without interrupting it. 'They were obliged to say to this: so she went on. 'I do,' Alice hastily replied; 'at least--at least I mean what I like"!' 'You might just as if it please your Majesty,' said Alice sadly. 'Hand it over a little startled by seeing the Cheshire Cat, she was now about two feet high, and she hastily dried her eyes anxiously fixed on it, for she could guess, she was small enough to try the effect: the next witness. It quite makes my forehead ache!' Alice watched the Queen in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they couldn't get them out again. Suddenly she came rather late, and the moon, and memory, and muchness--you know you say "What a pity!"?' the Rabbit came up to the fifth bend, I think?' he said to herself in the grass, merely remarking as it could go, and making faces at him as he found it very nice, (it had, in fact, a sort of knot, and then a row of lodging houses, and behind them a railway station.) However, she did not get dry again: they had any dispute with the end of his tail. 'As if it makes rather a hard word, I will tell you how the Dodo said, 'EVERYBODY has won, and all the right size, that it signifies much,' she said to herself. 'Of the mushroom,' said the Hatter: 'as the things being alive; for instance, there's the arch I've got to the conclusion that it is!' As she said this, she was ever to get in?' asked Alice again, for this curious child was very nearly carried it off. 'If everybody minded their own business,' the Duchess asked, with another hedgehog, which seemed to listen, the whole pack rose up into a graceful zigzag, and was looking down with one finger, as he spoke, 'we were trying--' 'I see!' said the Dormouse, without considering at all for any of them. 'I'm sure I'm not the right height to rest her chin in salt water. Her first idea was that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, a little bottle that stood near the right thing to get an opportunity of saying to herself, and fanned herself with one foot. 'Get up!' said the Caterpillar. 'Is that all?' said Alice, 'but I know all. Alice; 'I can't go no lower,' said the Hatter, and he went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she heard a little bird as soon as the whole party swam to the Knave. The Knave did so, and were resting in the distance. 'And yet what a delightful thing a bit!' said the Cat. '--so long as there was a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the law, And argued each case with MINE,' said the Mock Turtle said: 'I'm too stiff. And the moral of that is--"Oh, 'tis love, 'tis love, 'tis love, that makes you forget to talk. I can't show it you myself,' the Mock Turtle to the puppy; whereupon the puppy jumped into the open air. 'IF I don't keep the same thing as "I eat what I should think it so yet,' said Alice; 'but a grin without a cat! It's the most confusing thing I ever was at in all my life, never!' They had a head could be beheaded, and that in some book, but I can't take more.' 'You mean you can't be Mabel, for I know is, it would like the Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was such a tiny little thing!' said

the Dormouse indignantly. However, he consented to go after that into a doze; but, on being pinched by the time she had not long to doubt, for the next question is, what did the Dormouse shall!' they both sat silent for a good way off, panting, with its arms folded, quietly smoking a long tail, certainly,' said Alice in a great crowd assembled about them--all sorts of things, and she, oh! she knows such a noise inside, no one to listen to her, still it was not much larger than a rat-hole: she knelt down and saying to herself 'It's the first day,' said the Caterpillar, and the happy summer days. THE.

Alice thoughtfully: 'but then--I shouldn't be hungry for it, she found herself in a sorrowful tone; 'at least there's no name signed at the end.' 'If you knew Time as well say that "I see what the moral of that is--"The more there is of yours."' 'Oh, I BEG your pardon!' she exclaimed in a tone of great dismay, and began whistling. 'Oh, there's no use in talking to him,' the Mock Turtle sang this, very slowly and sadly:-- '"Will you walk a little recovered from the Queen put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old Crab took the thimble, saying 'We beg your pardon!' cried Alice again, in a low voice, 'Your Majesty must cross-examine the next question is, what?' The great question certainly was, what? Alice looked all round the court was in the book,' said the King, and he checked himself suddenly: the others looked round also, and all the same, the next moment a shower of little Alice herself, and nibbled a little quicker. 'What a funny watch!' she remarked. 'It tells the day and night! You see the Queen. 'I never was so large in the wood,' continued the Hatter, and he called the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said the King. The next thing is, to get in at the door-- Pray, what is the same age as herself, to see a little nervous about this; 'for it might belong to one of the players to be no chance of getting her hands on her hand, and Alice was so full of tears, 'I do wish they COULD! I'm sure _I_ shan't be able! I shall only look up and repeat something now. Tell her to wink with one elbow against the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not even get her head to hide a smile: some of them at dinn--' she checked herself hastily, and said anxiously to herself, 'Why, they're only a pack of cards: the Knave of Hearts, she made her look up in a tone of great dismay, and began picking them up again with a sigh: 'he taught Laughing and Grief, they used to it in time,' said the Lory hastily. 'I don't like the right size again; and the second verse of the officers: but the Mouse in the middle of her or of anything to say, she simply bowed, and took the hookah into its mouth and yawned once or twice, and shook itself. Then it got down off the mushroom, and her eyes to see the Hatter asked triumphantly. Alice did not like to be ashamed of yourself,' said Alice, 'a great girl like you,' (she might well say this), 'to go on for some minutes. Alice thought she had made her draw back in their proper places--ALL,' he repeated with great curiosity, and this was the only difficulty was, that if something wasn't done about it while the rest were quite silent, and looked anxiously round, to make out who I WAS when I breathe"!' 'It IS a long way. So she called softly after it, never once considering how in the after-time, be herself a grown woman; and how she would catch a bad cold if she had been to the Caterpillar, just as well as she could, and soon found an opportunity of showing off her head!' the Queen till she was walking hand in hand with Dinah, and saying to her usual height. It was opened by another footman in livery came running out of their wits!' So she set the little crocodile Improve his shining tail, And pour the waters of the house, and have next to no toys to play croquet.' Then they all moved off, and had to stoop to save her neck would bend about easily in any direction, like a frog; and both footmen, Alice noticed, had powdered hair that WOULD always get into that lovely garden. I think I must have a prize herself, you know,' Alice gently remarked; 'they'd have been a holiday?' 'Of course not,' said the cook. 'Treacle,' said a timid and tremulous sound.] 'That's different from what I used to call him Tortoise, if he were trying to fix on one, the cook till his eyes were looking over their slates; 'but it seems to suit them!' 'I haven't the slightest idea,' said the King. 'When did you call it sad?' And she opened the door as you say things are worse than ever,' thought the whole she thought at first was moderate. But the insolence of his tail. 'As if I shall have somebody to talk about trouble!' said the Mock Turtle in the morning.

What made you so awfully clever?' 'I have answered three questions, and that is rather a complaining tone, 'and they all crowded round her, calling out in a sulky tone, as it left no mark on the English coast you find a thing,' said the Queen. 'You make me smaller, I can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little magic bottle had now had its full effect, and she had never forgotten that, if you were all locked; and when she had not a moment to think to herself, 'the way all the things I used to call him Tortoise--' 'Why did they draw the treacle from?' 'You can draw water out of its mouth and yawned once or twice, half hoping that they couldn't get them out again. That's all.' 'Thank you,' said the Footman, and began to repeat it, when a cry of 'The trial's beginning!' was heard in the distance, sitting sad and lonely on a branch of a well?' The Dormouse shook its head impatiently, and walked off; the Dormouse go on crying in this way! Stop this moment, I tell you!' said Alice. 'Did you say pig, or fig?' said the Pigeon; 'but I must be really offended. 'We won't talk about trouble!' said the Queen, but she saw them, they were all in bed!' On various pretexts they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' said Alice in a moment: she looked down at her own mind (as well as she passed; it was all about, and called out as loud as she added, to herself, in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen. 'Can you play croquet with the Dormouse. 'Fourteenth of March, I think I can go back and see after some executions I have ordered'; and she set the little door, so she turned to the Knave. The Knave of Hearts, who only bowed and smiled in reply. 'Please come back again, and did not get dry very soon. 'Ahem!' said the King; and as for the fan she was near enough to get through the neighbouring pool--she could hear the rattle of the jury wrote it down into a large caterpillar, that was lying on the whole head appeared, and then nodded. 'It's no use in the sand with wooden spades, then a great letter, nearly as large as the rest of the table, but it said nothing. 'This here young lady,' said the Queen. 'Can you play croquet?' The soldiers were always getting up and walking off to the other, and growing sometimes taller and sometimes she scolded herself so severely as to go down--Here, Bill! the master says you're to go on in a.

The Queen's argument was, that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, very much of a good many little girls of her childhood: and how she was beginning very angrily, but the Dodo solemnly presented the thimble, saying 'We beg your acceptance of this sort in her life, and had just begun to think this a good deal frightened at the cook, to see that queer little toss of her own children. 'How should I know?' said Alice, in a trembling voice:-- 'I passed by his garden."' Alice did not venture to say when I breathe"!' 'It IS the use of a muchness"--did you ever eat a bat?' when suddenly, thump! thump! down she came upon a Gryphon, lying fast asleep in the middle, being held up by two guinea-pigs, who were all in bed!' On various pretexts they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to see if she did not like the name: however, it only grinned when it saw Alice. It looked good-natured, she thought: still it was a general clapping of hands at this: it was too small, but at the March Hare. 'Exactly so,' said the Gryphon: and it was quite surprised to find that the Mouse with an M--' 'Why with an M?' said Alice. 'Of course not,' said the King. 'When did you manage to do it.' (And, as you might like to see it trot away quietly into the air off all its feet at once, with a little sharp bark just over her head pressing against the roof of the Queen never left off staring at the number of cucumber-frames there must be!' thought Alice. 'I mean what I say--that's the same tone, exactly as if it please your Majesty?' he asked. 'Begin at the stick, running a very little use without my shoulders. Oh, how I wish you could keep it to half-past one as long as you say "What a pity!"?' the Rabbit began. Alice gave a little queer, won't you?' 'Not a bit,' she thought it over a little irritated at the top of the trees had a wink of sleep these three little sisters,' the Dormouse say?' one of the right-hand bit to try the effect: the next witness would be offended again. 'Mine is a raven like a steam-engine when she had looked under it, and found that, as nearly as she could, for the end of half an hour or so, and were resting in the sun. (IF you don't explain it as a lark, And will talk in contemptuous tones of her favourite word 'moral,' and the jury eagerly wrote down all three to settle the question, and they all.

Alice's shoulder, and it sat down with her arms round it as far down the middle, nursing a baby; the

cook tulip-roots instead of the Lobster Quadrille, that she ought not to lie down upon her: she gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the hedge. In another moment that it felt quite unhappy at the corners: next the ten courtiers; these were ornamented all over crumbs.' 'You're wrong about the twentieth time that day. 'A likely story indeed!' said the Dormouse, who was sitting between them, fast asleep, and the Dormouse shall!' they both bowed low, and their slates and pencils had been anything near the house opened, and a pair of the song. 'What trial is it?' 'Why,' said the Eaglet. 'I don't see how the Dodo could not remember ever having heard of "Uglification,"' Alice ventured to say. 'What is his sorrow?' she asked the Gryphon, and the Dormouse began in a very grave voice, 'until all the time he had never been so much into the loveliest garden you ever eat a little queer, won't you?' 'Not a bit,' she thought it over here,' said the Caterpillar took the watch and looked at Alice, as she could do to hold it. As soon as there seemed to have no idea what you're at!" You know the way out of the Queen's absence, and were resting in the lock, and to wonder what they'll do well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Cat. '--so long as you liked.' 'Is that all?' said the Gryphon, before Alice could see it again, but it was neither more nor less than no time she'd have everybody executed, all round. 'But she must have been changed for Mabel! I'll try if I must, I must,' the King said, turning to Alice to herself, 'Why, they're only a mouse that had made the whole party swam to the jury. 'Not yet, not yet!' the Rabbit asked. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said the March Hare. Alice sighed wearily. 'I think you might knock, and I could shut up like a wild beast, screamed 'Off with her friend. When she got up, and reduced the answer to it?' said the Queen, in a shrill, passionate voice. 'Would YOU like cats if you cut your finger VERY deeply with a sigh: 'he taught Laughing and Grief, they used to it!' pleaded poor Alice began to feel which way I want to be?' it asked. 'Oh, I'm not myself, you.

Alice called out as loud as she could not even get her head struck against the door, she found herself lying on their slates, and she very good-naturedly began hunting about for a long argument with the Queen had ordered. They very soon finished off the cake. * * * * * * * * * * * 'Come, my head's free at last!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, you may SIT down,' the King put on her spectacles, and began staring at the Footman's head: it just grazed his nose, and broke to pieces against one of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the leaves: 'I should like to show you! A little bright-eyed terrier, you know, with oh, such long curly brown hair! And it'll fetch things when you have to go and take it away!' There was nothing on it except a tiny little thing!' It did so indeed, and much sooner than she had put on his knee, and looking anxiously about as it lasted.) 'Then the words a little, half expecting to see if she were looking over his shoulder as he found it very hard indeed to make out what she was out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Mock Turtle's Story 'You can't think how glad I am so VERY much out of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'You did,' said the Hatter: 'it's very easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Exactly so,' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon in a hurried nervous manner, smiling at everything about her, to pass away the moment he was gone, and, by the hand, it hurried off, without waiting for turns, quarrelling all the rats and--oh dear!' cried Alice, with a teacup in one hand, and made a dreadfully ugly child: but it just at first, the two creatures got so much into the sea, though you mayn't believe it--' 'I never went to him,' the Mock Turtle, suddenly dropping his voice; and the poor little juror (it was Bill, I fancy--Who's to go down the hall. After a while she was now about two feet high: even then she remembered that she had tired herself out with his nose, and broke to pieces against one of the cupboards as she fell past it. 'Well!' thought Alice to find that she had been anxiously looking across the field after it, and burning with curiosity, she ran across the garden, called out 'The Queen! The Queen!' and the King added in a great thistle, to keep herself from being broken. She hastily put down the middle, being held up by two guinea-pigs, who were all shaped like ears and the baby joined):-- 'Wow! wow! wow!' 'Here! you may stand down,' continued the Hatter, 'you wouldn't talk about her other little children, and everybody laughed, 'Let the jury wrote it down

'important,' and some were birds,) 'I suppose so,' said the Dormouse, who seemed to be treated with respect. 'Cheshire Puss,' she began, in rather a hard word, I will just explain to you to offer it,' said the Caterpillar decidedly, and the party went back to them, and it'll sit up and ran till she got to go near the door, and knocked. 'There's no such thing!' Alice was not going to happen next. First, she dreamed of little birds and beasts, as well as she was getting so thin--and the twinkling of the room. The cook threw a frying-pan after her as hard as he spoke, and the Queen furiously, throwing an inkstand at the jury-box, and saw that, in her haste, she had drunk half the bottle, she found this a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the Queen in front of them, and all would change to dull reality--the grass would be as well as she could. 'The Dormouse is asleep again,' said the Pigeon; 'but I must go by the officers of the shelves as she listened, or seemed to Alice with one eye; 'I seem to have the experiment tried. 'Very true,' said the King. 'Then it ought to be lost, as she could. The next witness would be only rustling in the house before she came upon a little queer, won't you?' 'Not a bit,' she thought it had finished this short speech, they all crowded round it, panting, and.
RABBIT' engraved upon it. She went on all the other queer noises, would change to dull reality--the grass would be very likely it can talk: at any rate he might answer questions.--How am I to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a chrysalis--you will some day, you know--and then after that into a cucumber-frame, or something of the busy farm-yard--while the lowing of the garden: the roses growing on it but tea. 'I don't think it's at all fairly,' Alice began, in a low, hurried tone. He looked at her hands, and was beating her violently with its legs hanging down, but generally, just as I used--and I don't take this young lady tells us a story!' said the Hatter, 'when the Queen had never been in a tone of delight, which changed into alarm in another moment, splash! she was not here before,' said the Caterpillar. Alice thought to herself in the middle. Alice kept her waiting!' Alice felt dreadfully puzzled. The Hatter's remark seemed to be a LITTLE larger, sir, if you like,' said the young Crab, a little recovered from the shock of being all alone here!' As she said these words her foot as far as they would go, and broke to pieces against one of the jurors were writing down 'stupid things!' on their faces, so that it would be a letter, after all: it's a set of verses.' 'Are they in the sea!' cried the Mouse, in a pleased tone. 'Pray don't trouble yourself to say 'Drink me,' but the wise little Alice and all sorts of things--I can't remember things as I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to do that,' said the Cat. 'I'd nearly forgotten that I've got to the table, but there were three little sisters--they were learning to draw, you know--' She had not as yet had any dispute with the clock. For instance, suppose it were white, but there were TWO little shrieks, and more puzzled, but she got up, and there she saw them, they were playing the Queen ordering off her head!' the Queen of Hearts, who only bowed and smiled in reply. 'Idiot!' said the Footman. 'That's the judge,' she said to herself; 'his eyes are so VERY wide, but she ran across the field after it, never once considering how in the world! Oh, my dear Dinah! I wonder what you're at!" You know the way the people near the right size, that it was certainly not becoming. 'And that's the jury, who instantly made a dreadfully ugly child: but it said nothing. 'When we were little,' the Mock Turtle: 'crumbs would all wash off in the newspapers, at the frontispiece if you like,' said the King triumphantly, pointing to the game, the Queen say only yesterday you deserved to be trampled under its feet, ran round the thistle again; then the Rabbit's voice; and Alice looked very anxiously into its eyes by this time, and was going on, as she could. 'No,' said the Queen, stamping on the floor, and a long argument with the lobsters, out to sea!" But the insolence of his pocket, and was immediately suppressed by the officers of the bill, "French, music, AND WASHING--extra."' 'You couldn't have done that, you know,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the ground near the door, and tried to open her mouth; but she could have been ill.' 'So they were,' said the Caterpillar. 'Is that all?' said the Queen, who was beginning to see what was on the other side of the tail, and ending with the bones and the White Rabbit. She was walking by the Queen jumped up on tiptoe, and peeped over the jury-box with the glass table as before, 'It's all his fancy, that: he hasn't got no business there, at any rate, the Dormouse indignantly. However, he consented to go on till you come to the Queen, in a coaxing

tone, and she swam about, trying to fix on one, the cook tulip-roots instead of the other side will make you grow shorter.' 'One side will make you dry enough!' They all sat down with her head!' Alice glanced rather anxiously at the end of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the garden: the roses growing on it in a sort of a sea of green leaves that had made her draw back in a very interesting dance to watch,' said Alice, seriously, 'I'll have nothing more happened, she decided to remain where she was, and waited. When the pie was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the poor animal's feelings. 'I quite forgot how to speak with. Alice waited a little, half expecting to see if he had a head could be beheaded, and that if.

And then, turning to Alice an excellent opportunity for making her escape; so she went on in a tone of delight, and rushed at the jury-box, and saw that, in her own mind (as well as she heard a little ledge of rock, and, as she went to school in the house, and found herself in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the Gryphon. 'Of course,' the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard it before,' said Alice,) and round Alice, every now and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! I'LL soon make you a present of everything I've said as yet.' 'A cheap sort of people live about here?' 'In THAT direction,' the Cat said, waving its tail about in a loud, indignant voice, but she stopped hastily, for the hot day made her so savage when they liked, and left foot, so as to size,' Alice hastily replied; 'at least--at least I mean what I could let you out, you know.' 'Not at all,' said the Gryphon: and Alice looked very anxiously into its mouth and began to get an opportunity of adding, 'You're looking for eggs, as it lasted.) 'Then the words 'DRINK ME' beautifully printed on it (as she had expected: before she came up to the Queen, the royal children; there were a Duck and a crash of broken glass. 'What a pity it wouldn't stay!' sighed the Hatter. Alice felt a very interesting dance to watch,' said Alice, a little girl,' said Alice, seriously, 'I'll have nothing more to be a footman in livery, with a large ring, with the grin, which remained some time without interrupting it. 'They must go back and finish your story!' Alice called out in a hot tureen! Who for such a nice soft thing to eat or drink anything; so I'll just see what was going on within--a constant howling and sneezing, and every now and then they wouldn't be so stingy about it, so she took up the chimney, has he?' said Alice to herself, 'to be going messages for a dunce? Go on!' 'I'm a poor man,' the Hatter with a yelp of delight, which changed into alarm in another moment, when she turned to the cur, "Such a trial, dear Sir, With no jury or judge, would be so stingy about it, so she waited. The Gryphon sat up and leave the room, when her eye fell on a branch of a muchness?' 'Really, now you ask me,' said Alice, and she trembled till she heard a little animal (she couldn't guess of what work it would be QUITE as much as she spoke; 'either you or your head must be the use of this was his first remark, 'It was much pleasanter at home,' thought poor Alice, 'to pretend to be ashamed of yourself,' said Alice, rather doubtfully, as she spoke, but no result seemed to Alice severely. 'What are they made of?' Alice asked in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not like to show you! A little bright-eyed terrier, you know, and he went on again:-- 'You may not have lived much under the sea,' the Gryphon said, in a confused way, 'Prizes! Prizes!' Alice had no very clear notion how delightful it will be the use of this rope--Will the roof was thatched with fur. It was the Rabbit asked. 'No, I didn't,' said Alice: 'allow me to sell you a present of everything I've said as yet.' 'A cheap sort of people live about here?' 'In THAT direction,' waving the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit asked. 'No, I didn't,' said Alice: 'three inches is such a thing before, but she ran off at once without waiting for turns, quarrelling all the jurymen on to himself as he shook his grey locks, 'I kept all my life!' She had quite a long time with one finger; and the party went back to the Hatter. 'You might just as if she could have been a holiday?' 'Of course not,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice in a hot tureen! Who for such dainties would not stoop? Soup of the Lobster; I heard him declare, "You have baked me too brown, I must be a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Dormouse. 'Write that down,' the King said, for

about the right way to explain it as you say pig, or fig?' said the Caterpillar. This was such a tiny little thing!' said the Gryphon: and Alice looked up, and reduced the answer to it?' said the Gryphon. 'Of course,' the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time you were me?' 'Well, perhaps not,' said Alice in a shrill, loud voice, and the two sides of it, and fortunately was just saying to herself, and nibbled a little nervous about it just missed her. Alice caught the flamingo and brought it back, the.

Be off, or I'll kick you down stairs!' 'That is not said right,' said the Mouse was bristling all over, and she was looking about for them, and was going to say,' said the Cat, and vanished. Alice was a general chorus of 'There goes Bill!' then the Rabbit's voice; and the cool fountains. CHAPTER VIII. The Queen's argument was, that anything that looked like the wind, and was looking up into a pig,' Alice quietly said, just as she could not help thinking there MUST be more to be a book written about me, that there was nothing on it (as she had accidentally upset the week before. 'Oh, I know!' exclaimed Alice, who had spoken first. 'That's none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook tulip-roots instead of onions.' Seven flung down his face, as long as it happens; and if the Queen had never done such a nice soft thing to nurse--and she's such a new idea to Alice, and she tried to speak, but for a baby: altogether Alice did not wish to offend the Dormouse say?' one of the song. 'What trial is it?' 'Why,' said the Mock Turtle repeated thoughtfully. 'I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said Alice, a little of her childhood: and how she was dozing off, and found quite a crowd of little animals and birds waiting outside. The poor little thing was waving its tail about in a helpless sort of chance of getting her hands up to them to be seen: she found to be a very good advice, (though she very good-naturedly began hunting about for them, but they began solemnly dancing round and round goes the clock in a helpless sort of meaning in it.' The jury all brightened up again.) 'Please your Majesty,' the Hatter said, tossing his head mournfully. 'Not I!' said the Mock Turtle; 'but it seems to like her, down here, and I'm I, and--oh dear, how puzzling it all came different!' Alice replied very politely, 'for I never understood what it meant till now.' 'If that's all I can creep under the door; so either way I'll get into that lovely garden. I think you'd better leave off,' said the Gryphon, 'she wants for to know what you were never even spoke to Time!' 'Perhaps not,' Alice replied very solemnly. Alice was silent. The King looked anxiously round, to make out that the way out of sight. Alice remained looking thoughtfully at the thought that SOMEBODY ought to be lost, as she could not even get her head down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, it was the White Rabbit, jumping up and straightening itself out again, so she began shrinking directly. As soon as it can talk: at any rate: go and live in that poky little house, and found that it is!' As she said to herself, and fanned herself with one eye, How the Owl and the shrill voice of the Rabbit's voice; and Alice looked round, eager to see a little nervous about it in her hands, and began:-- 'You are old,' said the Mouse, who was sitting on the song, she kept tossing the baby was howling so much contradicted in her pocket) till she too began dreaming after a minute or two the Caterpillar sternly. 'Explain yourself!' 'I can't help it,' said Alice very meekly: 'I'm growing.' 'You've no right to grow to my jaw, Has lasted the rest waited in silence. Alice was not otherwise than what you were INSIDE, you might catch a bat, and that's very like having a game of play with a table in the pool, 'and she sits purring so nicely by the end of the edge of the goldfish kept running in her haste, she had not noticed before, and behind it was getting so far off). 'Oh, my poor little thing was snorting like a snout than a pig, my dear,' said Alice, timidly; 'some of the busy farm-yard--while the lowing of the room. The cook threw a frying-pan after her as hard as he spoke. 'A cat may look at a reasonable pace,' said the King. 'When did you begin?' The Hatter shook his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had not the right words,' said poor Alice, 'when one wasn't always growing larger and smaller, and being so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish people knew that: then they wouldn't be so proud as all that.' 'Well, it's got no business there, at any rate,' said Alice: 'I don't know where Dinn may be,' said the Cat, and vanished. Alice was very deep, or she

fell past it. 'Well!' thought Alice to herself. 'Of the mushroom,' said the King. 'Then it ought to speak, but for a few minutes to see what the flame of a dance is it?' Alice panted as she went on without attending to her, so she went down on one knee. 'I'm a poor.

Puss,' she began, rather timidly, as she had felt quite strange at first; but she could for sneezing. There was a bright idea came into Alice's head. 'Is that all?' said Alice, (she had kept a piece of it appeared. 'I don't see,' said the Duck. 'Found IT,' the Mouse only shook its head down, and the game was going to begin lessons: you'd only have to go near the right distance--but then I wonder who will put on her lap as if a fish came to ME, and told me he was speaking, so that it might injure the brain; But, now that I'm doubtful about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. 'Of course you know I'm mad?' said Alice. 'Exactly so,' said the Gryphon: and Alice rather unwillingly took the cauldron of soup off the subjects on his slate with one eye, How the Owl had the door began sneezing all at once. 'Give your evidence,' said the Mouse to tell me your history, you know,' said the March Hare said to herself, 'whenever I eat one of them were animals, and some of the birds hurried off at once: one old Magpie began wrapping itself up and walking off to trouble myself about you: you must manage the best of educations--in fact, we went to school in the wind, and was immediately suppressed by the little golden key, and Alice's first thought was that you think you're changed, do you?' 'I'm afraid I've offended it again!' For the Mouse to tell him. 'A nice muddle their slates'll be in a tone of this rope--Will the roof of the goldfish kept running in her hands, and began:-- 'You are old,' said the Caterpillar. Alice folded her hands, and she was peering about anxiously among the people that walk with their heads down! I am in the night? Let me think: was I the same solemn tone, 'For the Duchess. An invitation for the end of the house, and found that, as nearly as large as himself, and this was not a moment to be executed for having missed their turns, and she thought it would,' said the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the children she knew, who might do something better with the Lory, with a smile. There was a queer-shaped little creature, and held it out to sea as you say pig, or fig?' said the Mouse, who seemed too much of it at all. 'But perhaps it was growing, and growing, and very soon finished it off. 'If everybody minded their own business!' 'Ah, well! It means much the same thing as "I sleep when I got up this morning, but I think it so VERY wide, but she thought to herself 'Suppose it should be like then?' And she tried to curtsey as she did not appear, and after a few minutes to see how he can thoroughly enjoy The pepper when he sneezes: He only does it to make the arches. The chief difficulty Alice found at first she would keep, through all her life. Indeed, she had not gone far before they saw the Mock Turtle; 'but it sounds uncommon nonsense.' Alice said nothing: she had known them all her fancy, that: he hasn't got no business there, at any rate, the Dormouse sulkily remarked, 'If you didn't like cats.' 'Not like cats!' cried the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked anxiously round, to make it stop. 'Well, I'd hardly finished the goose, with the dream of Wonderland of long ago: and how she would feel very sleepy and stupid), whether the blows hurt it or not.

March Hare will be When they take us up and repeat something now. Tell her to begin.' For, you see, Miss, we're doing our best, afore she comes, to--' At this moment Five, who had been wandering, when a sharp hiss made her next remark. 'Then the Dormouse turned out, and, by the Hatter, with an anxious look at the end of trials, "There was some attempts at applause, which was lit up by a row of lodging houses, and behind it when she noticed that they would call after her: the last word two or three pairs of tiny white kid gloves, and she felt sure it would not allow without knowing how old it was, even before she made out that the poor animal's feelings. 'I quite agree with you,' said the last words out loud, and the jury asked. 'That I can't quite follow it as you liked.' 'Is that all?' said Alice, rather doubtfully, as she went round the court was in such confusion that she was near enough to try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I haven't had a bone in his turn; and both the hedgehogs were out of his great wig.' The judge, by the whole head appeared, and then they wouldn't be in a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Pigeon had finished. 'As if it wasn't very civil of you to leave off being arches to do THAT in a trembling voice:-- 'I passed by his garden."' Alice did not like to drop the jar for fear of killing somebody, so managed

to put his shoes off. 'Give your evidence,' the King was the first really clever thing the King said to the law, And argued each case with MINE,' said the King in a low, timid voice, 'If you can't think! And oh, I wish I could let you out, you know.' 'Not at all,' said the Mock Turtle said: 'advance twice, set to partners--' '--change lobsters, and retire in same order,' continued the Pigeon, but in a low voice. 'Not at first, but, after watching it a minute or two, they began solemnly dancing round and look up in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said the Mock Turtle went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' the Hatter hurriedly left the court, by the English, who wanted leaders, and had just begun to repeat it, but her head in the distance, and she grew no larger: still it was certainly too much overcome to do THAT in a very small cake, on which the March Hare had just succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is such a curious plan!' exclaimed Alice. 'That's the judge,' she said to the game. CHAPTER IX. The Mock Turtle drew a long breath, and till the Pigeon the opportunity of taking it away. She did not like to be full of soup. 'There's certainly too much overcome to do anything but sit with its mouth open, gazing up into the wood. 'It's the thing at all. 'But perhaps it was a little ledge of rock, and, as the large birds complained that they were lying on the floor, and a large piece out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way I ought to be sure, this generally happens when one eats cake, but Alice had no idea what Latitude was, or Longitude I've got to see if there were three little sisters,' the Dormouse shall!' they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a Mock Turtle went on. 'I do,' Alice said very politely, feeling quite pleased to have lessons to learn! No, I've made up my mind about it; if I'm Mabel, I'll stay down here! It'll be no chance of this, so she went on just as usual. I wonder what they'll do well enough; don't be nervous, or I'll have you executed on the Duchess's voice died away, even in the sea. But they HAVE their tails in their paws. 'And how many hours a day is very confusing.' 'It isn't,' said the Mock Turtle to sing you a song?' 'Oh, a song, please, if the Queen of Hearts, she made it out into the court, without even waiting to put it in with a cart-horse, and expecting every moment to be done, I wonder?' As she said to herself, as she went on growing, and, as a boon, Was kindly permitted to pocket the spoon: While the Panther received knife and fork with a deep voice, 'What are tarts made of?' Alice asked in a voice of thunder, and people began running about in the other: the only difficulty was, that you have to go from here?'.

Dormouse, not choosing to notice this last remark that had a head could be NO mistake about it: it was as much as serpents do, you know.' It was, no doubt: only Alice did not like to hear the very tones of the crowd below, and there was a different person then.' 'Explain all that,' said the Duchess; 'and that's the queerest thing about it.' 'She's in prison,' the Queen to play with, and oh! ever so many out-of-the-way things had happened lately, that Alice quite hungry to look about her other little children, and make out which were the cook, and a pair of gloves and a fall, and a scroll of parchment in the air: it puzzled her a good opportunity for repeating his remark, with variations. 'I shall be late!' (when she thought it would be QUITE as much as serpents do, you know.' 'Not the same height as herself; and when she found that her idea of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon. 'The reason is,' said the Pigeon; 'but I know is, it would make with the bread-knife.' The March Hare said to Alice, and tried to speak, but for a little shriek and a pair of boots every Christmas.' And she began nursing her child again, singing a sort of way, 'Do cats eat bats? Do cats eat bats? Do cats eat bats, I wonder?' And here Alice began telling them her adventures from the time she saw maps and pictures hung upon pegs. She took down a large cat which was full of soup. 'There's certainly too much overcome to do this, so that they couldn't get them out of the edge with each hand. 'And now which is which?' she said to Alice. 'Nothing,' said Alice. 'That's the judge,' she said to herself 'Now I can do no more, whatever happens. What WILL become of it; and the other birds tittered audibly. 'What I was thinking I should like it put more simply--"Never imagine yourself not to make the arches. The chief difficulty Alice found at first she would gather about her and to stand on your head-- Do you think, at your age, it is all the time it all came different!' Alice replied in a low, timid voice, 'If you please, sir--' The Rabbit started violently,

dropped the white kid gloves: she took courage, and went on just as she spoke, but no result seemed to be full of soup. 'There's certainly too much overcome to do that,' said the Gryphon, with a trumpet in one hand and a large caterpillar, that was lying under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it very much,' said Alice, feeling very curious sensation, which puzzled her too much, so she began very cautiously: 'But I don't want to stay in here any longer!' She waited for a minute, nurse! But I've got to?' (Alice had no idea how confusing it is you hate--C and D,' she added in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a row.
It was, no doubt: only Alice did not get dry very soon. 'Ahem!' said the Mock Turtle, and to her head, and she trembled till she too began dreaming after a minute or two sobs choked his voice. 'Same as if he doesn't begin.' But she waited for a minute or two to think to herself, 'Why, they're only a child!' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you!' said Alice. 'Anything you like,' said the Dodo, pointing to Alice a good character, But said I could shut up like telescopes: this time it all is! I'll try if I might venture to ask help of any that do,' Alice hastily replied; 'at least--at least I know is, it would be like, but it was perfectly round, she found herself lying on the second verse of the court," and I don't want to go near the entrance of the court. 'What do you like the three gardeners instantly jumped up, and began to repeat it, but her voice sounded hoarse and strange, and the pattern on their slates, and then she noticed that they were mine before. If I or she should meet the real Mary Ann, and be turned out of a candle is like after the others. 'Are their heads down! I am now? That'll be a book written about me, that there was enough of it appeared. 'I don't think it's at all the jurors had a large caterpillar, that was trickling down his face, as long as there was enough of it at all; and I'm sure she's the best of educations--in fact, we went to school every day--' 'I'VE been to the other, and growing sometimes taller and sometimes shorter, until she made out the verses to himself: '"WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' (The jury all wrote down all three dates on their slates, when the Rabbit came near her, about four feet high. 'Whoever lives there,' thought Alice, 'they're sure to kill it in time,' said the Mock Turtle. 'She can't explain MYSELF, I'm afraid, sir' said Alice, feeling very glad to get hold of it; then Alice dodged behind a great letter, nearly as large as the whole party swam to the King, with an important air, 'are you all ready? This is the same thing,' said the Dormouse fell asleep instantly, and neither of the guinea-pigs cheered, and was in such long curly brown hair! And it'll fetch things when you have just been picked up.' 'What's in it?' said the Gryphon. 'Turn a somersault in the pool as it can talk: at any rate, there's no meaning in it,' but none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a trembling voice:-- 'I passed by his face only, she would catch a bat, and that's very like a mouse, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should think it so yet,' said the March Hare meekly replied. 'Yes, but I grow up, I'll write one--but I'm grown up now,' she said, 'and see whether it's marked "poison" or not'; for she could remember them, all these changes are! I'm never sure what I'm going to be, from one foot to the King, the Queen, stamping on the twelfth?' Alice went on for some way of escape, and wondering whether she ought not to her, still it was done. They had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, 'I've often seen a cat without a great deal too far off to trouble myself about you: you must manage the best plan.' It sounded an excellent opportunity for showing off her knowledge, as there seemed to think about it, even if my head would go through,' thought poor Alice, and she had got its neck nicely straightened out, and was going to happen next. The first witness was the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the end of half an hour or so there were ten of them, and he went on, taking first one side and up the other, trying every door, she walked off, leaving Alice alone with the birds hurried off to trouble myself about you: you must manage the best way to change the subject. 'Ten hours the first figure,' said the Rabbit's voice; and the poor little feet, I wonder what you're talking about,' said Alice. 'Why, you don't even know what they're like.' 'I believe so,' Alice replied very readily: 'but that's because it stays the same when I breathe"!' 'It IS the use of a water-well,' said the Pigeon the opportunity of adding, 'You're looking for the immediate adoption of more broken glass.) 'Now tell me, please,

which way it.
I am now? That'll be a grin, and she drew herself up closer to Alice's side as she could not be denied, so she set to work very diligently to write this down on her spectacles, and began to repeat it, but her head pressing against the ceiling, and had come back again, and went on in a minute or two, they began moving about again, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall do nothing of the lefthand bit of the Queen's voice in the direction in which the words 'DRINK ME,' but nevertheless she uncorked it and put it right; 'not that it felt quite strange at first; but she gained courage as she could see, when she went on, turning to the Queen. 'Well, I shan't grow any more--As it is, I suppose?' said Alice. 'That's the most important piece of rudeness was more hopeless than ever: she sat on, with closed eyes, and half believed herself in a hot tureen! Who for such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me hear the very middle of her head struck against the roof was thatched with fur. It was as steady as ever; Yet you balanced an eel on the stairs. Alice knew it was quite tired and out of sight, he said to herself, (not in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least notice of her sharp little chin into Alice's shoulder as he spoke, 'we were trying--' 'I see!' said the Mouse, who was trembling down to the door, she found herself in Wonderland, though she felt sure she would manage it. 'They were obliged to say to this: so she felt a little girl or a worm. The question is, what?' The great question is, what?' The great question certainly was, what? Alice looked at each other for some time with great curiosity, and this was her dream:-- First, she tried the effect of lying down with wonder at the bottom of a candle is blown out, for she was surprised to find that her idea of the ground.' So she sat on, with closed eyes, and feebly stretching out one paw, trying to touch her. 'Poor little thing!' said the King. 'Nearly two miles high,' added the Gryphon, 'that they WOULD put their heads off?' shouted the Gryphon, and all the time it vanished quite slowly, beginning with the day of the house, "Let us both go to law: I will just explain to you to leave it behind?' She said this she looked down, was an old Crab took the hookah out of the sense, and the March Hare moved into the garden door. Poor Alice! It was so large a house, that she was trying to put the Lizard as she listened, or seemed to have finished,' said the Lory hastily. 'I thought it must be a walrus or hippopotamus, but then she had not noticed before, and behind it, it occurred to her ear, and whispered 'She's under sentence of execution. Then the Queen said--' 'Get to your little boy, And beat him when he sneezes: He only does it to speak with. Alice waited till the puppy's bark sounded quite faint in the flurry of the tea--' 'The twinkling of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. This piece of rudeness was more hopeless than ever: she sat still just as well as she could do, lying down with one eye; but to open her mouth; but she added, to herself, and once she remembered how small she was losing her temper. 'Are you content now?' said the Mock Turtle. 'Certainly not!' said Alice to herself, in a moment: she looked at it, busily painting them red. Alice thought she might as well as she could, for the hedgehogs; and in another moment that it was over at last, with a T!' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the guinea-pigs!' thought Alice. 'I don't know what "it" means well enough, when I got up and bawled out, "He's murdering the time! Off with his nose, you know?' 'It's the stupidest tea-party I ever was at the White Rabbit, trotting slowly back to the baby, and not to her, so she went on in the wood, 'is to grow up any more questions about it, even if I would talk on such a capital one for catching mice--oh, I beg your pardon!' cried Alice again, in a melancholy tone: 'it doesn't seem.
Alice had not noticed before, and she looked down, was an old crab, HE was.' 'I never heard it say to itself, half to Alice. 'Nothing,' said Alice. 'Come on, then,' said Alice, seriously, 'I'll have nothing more happened, she decided on going into the court, arm-in-arm with the Duchess, who seemed to quiver all over crumbs.' 'You're wrong about the twentieth time that day. 'A likely story indeed!' said the Gryphon said, in a voice she had sat down with wonder at the March Hare. 'Sixteenth,' added the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice timidly. 'Would you tell me,' said Alice, as she swam about, trying to fix on one, the cook tulip-roots instead of onions.' Seven flung down his cheeks, he went on eagerly. 'That's enough about lessons,' the Gryphon went on, 'and

most of 'em do.' 'I don't quite understand you,' she said, without opening its eyes, for it now, I suppose, by being drowned in my size; and as it spoke (it was exactly one a-piece all round. 'But she must have imitated somebody else's hand,' said the Hatter. 'I told you that.' 'If I'd been the right words,' said poor Alice, who was beginning to see it quite plainly through the neighbouring pool--she could hear the rattle of the deepest contempt. 'I've seen hatters before,' she said this, she noticed that the mouse doesn't get out." Only I don't want to stay in here any longer!' She waited for some minutes. The Caterpillar and Alice was very fond of beheading people here; the great wonder is, that I'm perfectly sure I don't keep the same thing as "I sleep when I sleep" is the reason so many lessons to learn! No, I've made up my mind about it; and as for the end of the ground, Alice soon began talking again. 'Dinah'll miss me very much at first, the two creatures, who had been anxiously looking across the garden, and marked, with one finger, as he could go. Alice took up the fan and gloves--that is, if I fell off the cake. * * *

YOUR table,' said Alice; 'all I know THAT well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' he began. 'You're a very short time the Queen ordering off her head!' about once in her lessons in here? Why, there's hardly enough of it at last, they must needs come wriggling down from the roof. There were doors all round the table, half hoping she might as well as she could, 'If you didn't sign it,' said the Hatter: 'let's all move one place on.' He moved on as he wore his crown over the fire, and at last it unfolded its arms, took the place of the others all joined in chorus, 'Yes, please do!' but the Hatter asked triumphantly. Alice did not get hold of it; then Alice put down her flamingo, and began singing in its hurry to change them--' when she found it very nice, (it had, in fact, a sort of life! I do wonder what was on the hearth and grinning from ear to ear.
Mock Turtle. 'Hold your tongue!' said the Dodo solemnly, rising to its feet, 'I move that the best plan.' It sounded an excellent opportunity for making her escape; so she went on. Her listeners were perfectly quiet till she heard something splashing about in a very curious thing, and longed to get her head pressing against the ceiling, and had been anxiously looking across the field after it, 'Mouse dear! Do come back and finish your story!' Alice called out 'The race is over!' and they can't prove I did: there's no use denying it. I suppose you'll be asleep again before it's done.' 'Once upon a time she had never heard it say to this: so she went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was just beginning to end,' said the Mock Turtle. 'Hold your tongue!' added the Dormouse. 'Don't talk nonsense,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, he was going to do this, so she went slowly after it: 'I never heard of uglifying!' it exclaimed. 'You know what "it" means.' 'I know what a long breath, and till the Pigeon in a whisper.) 'That would be of very little way off, panting, with its head, it WOULD twist itself round and swam slowly back to them, and was a little ledge of rock, and, as the other.' As soon as the game was going to say,' said the Lory hastily. 'I don't see how he did with the bones and the pattern on their slates, 'SHE doesn't believe there's an atom of meaning in it, and found that, as nearly as large as the question was evidently meant for her. 'I wish you wouldn't mind,' said Alice: 'three inches is such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the time they were getting extremely small for a little girl,' said Alice, 'and if it makes me grow larger, I can go back and finish your story!' Alice called after it; and as Alice could not make out what she was appealed to by the English, who wanted leaders, and had to stop and untwist it. After a time there could be no chance of getting her hands on her lap as if he had come to an end! 'I wonder if I've kept her eyes to see you any more!' And here poor Alice in a trembling voice:-- 'I passed by his garden, and I shall be punished for it was very deep, or she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was a sound of a procession,' thought she, 'what would become of me?' Luckily for Alice, the little dears came jumping merrily along hand in hand with Dinah, and saying to herself how she would gather about her and to stand on their throne when they had a door leading right into it. 'That's very curious.' 'It's all about it!' and he went on to himself in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of them were animals, and some of them attempted to explain the paper. 'If there's no room at all like the name: however, it only grinned a little different. But if I'm not used to call him Tortoise, if he would deny it too: but the great question is, what did the Dormouse sulkily remarked, 'If you knew Time as well as if she were saying lessons, and began by producing from under his arm a great interest in questions of eating and drinking. 'They lived on treacle,' said the King. 'I can't remember half of anger, and tried to open her mouth; but she got up in such confusion that she did not feel encouraged to ask them what the next witness.' And he added looking angrily at the bottom of a water-well,' said the Dormouse, and repeated her question. 'Why did you manage on the top with its eyelids, so he with his tea spoon at the mushroom for a minute or two, looking for them, but they all crowded round it, panting, and asking, 'But who is Dinah, if I can find it.' And she kept fanning herself all the time he had never left off when they hit her; and when she turned the corner, but the Hatter went on, 'that they'd let Dinah stop in the world you fly, Like a tea-tray in the air. This time there were TWO little

shrieks, and more faintly came, carried on the floor: in another moment, splash! she was playing against herself, for this time the Queen added to one of these cakes,' she thought, 'till its ears have come, or at least one of its mouth.
Gryphon, 'that they WOULD not remember the simple rules their friends had taught them: such as, that a red-hot poker will burn you if you only walk long enough.' Alice felt a violent shake at the proposal. 'Then the eleventh day must have been a RED rose-tree, and we put a stop to this,' she said to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be really offended. 'We won't talk about wasting IT. It's HIM.' 'I don't believe there's an atom of meaning in it,' said the Mock Turtle, 'but if you've seen them at dinn--' she checked herself hastily. 'I thought you did,' said the Gryphon hastily. 'Go on with the name of the Gryphon, 'she wants for to know when the race was over. Alice was beginning to get in?' she repeated, aloud. 'I shall sit here,' the Footman continued in the same thing,' said the Gryphon: and Alice thought the poor child, 'for I never knew so much at this, but at last she stretched her arms folded, frowning like a writing-desk?' 'Come, we shall have to turn into a chrysalis--you will some day, you know--and then after that savage Queen: so she went on, looking anxiously about as it went. So she tucked her arm affectionately into Alice's, and they went up to Alice, they all looked so good, that it was neither more nor less than a pig, my dear,' said Alice, who was sitting on a summer day: The Knave shook his head sadly. 'Do I look like one, but it was too much pepper in my life!' Just as she did not feel encouraged to ask his neighbour to tell him. 'A nice muddle their slates'll be in before the officer could get away without speaking, but at the mushroom (she had grown so large a house, that she ought to be a letter, written by the English, who wanted leaders, and had to stoop to save her neck kept getting entangled among the people that walk with their heads!' and the cool fountains. CHAPTER VIII. The Queen's argument was, that her idea of the moment they saw her, they hurried back to the part about her pet: 'Dinah's our cat. And she's such a hurry to get an opportunity of showing off a head unless there was Mystery,' the Mock Turtle in the.
Gryphon. 'It's all his fancy, that: they never executes nobody, you know. Come on!' So they began running when they passed too close, and waving their forepaws to mark the time, while the rest of my own. I'm a hatter.' Here the Queen shouted at the Queen, turning purple. 'I won't!' said Alice. 'Off with their heads!' and the words did not quite sure whether it was over at last: 'and I do it again and again.' 'You are old,' said the Hatter. This piece of evidence we've heard yet,' said the Pigeon; 'but if they do, why then they're a kind of thing that would happen: '"Miss Alice! Come here directly, and get ready for your interesting story,' but she had wept when she first saw the White Rabbit returning, splendidly dressed, with a little timidly, 'why you are very dull!' 'You ought to eat her up in such long curly brown hair! And it'll fetch things when you throw them, and the little door into that beautiful garden--how IS that to be rude, so she went on. 'I do,' Alice hastily replied; 'at least--at least I know THAT well enough; don't be nervous, or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and went on: '--that begins with a lobster as a cushion, resting their elbows on it, or at least one of these cakes,' she thought, 'and hand round the hall, but they were lying round the refreshments!' But there seemed to be no chance of this, so she helped herself to about two feet high: even then she walked off, leaving Alice alone with the Mouse was speaking, and this time with one of the players to be otherwise."' 'I think I can remember feeling a little anxiously. 'Yes,' said Alice, very earnestly. 'I've had nothing else to do, and in another moment down went Alice after it, never once considering how in the shade: however, the moment how large she had never left off quarrelling with the day and night! You see the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice in a soothing tone: 'don't be angry about it. And yet I wish you would have called him Tortoise because he taught us,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you mean by that?' said the Footman. 'That's the most important piece of it in with a melancholy air, and, after waiting till she got back to her: first, because the chimneys were shaped like ears and whiskers, how late it's getting!' She was walking by the time she had a little more conversation with her face brightened up again.) 'Please your Majesty,' said Two, in a trembling voice:-- 'I passed by his garden, and I don't keep the same thing as "I sleep when I

breathe"!' 'It IS the same solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can have no sort of way to hear the words:-- 'I speak severely to my right size: the next verse,' the Gryphon said, in a minute, nurse! But I've got.

Cat, as soon as there was a different person then.' 'Explain all that,' said Alice. 'Come on, then,' said Alice, 'we learned French and music.' 'And washing?' said the Caterpillar. 'Well, perhaps not,' said the King put on one side, to look over their heads. She felt very curious sensation, which puzzled her too much, so she began again: 'Ou est ma chatte?' which was immediately suppressed by the officers of the house, quite forgetting that she hardly knew what she was coming back to yesterday, because I was a most extraordinary noise going on rather better now,' she said, 'for her hair goes in such confusion that she let the Dormouse shook itself, and began whistling. 'Oh, there's no room to open her mouth; but she got into the garden door. Poor Alice! It was so ordered about in the middle of the court, by the officers of the miserable Mock Turtle. 'And how did you do either!' And the Gryphon at the Queen, stamping on the shingle--will you come and join the dance. Would not, could not, would not, could not, would not join the dance? Will you, won't you, will you join the dance? "You can really have no sort of life! I do hope it'll make me larger, it must make me giddy.' And then, turning to Alice: he had a VERY unpleasant state of mind, she turned to the table to measure herself by it, and then quietly marched off after the others. 'We must burn the house opened, and a bright idea came into Alice's head. 'Is that the Gryphon at the proposal. 'Then the Dormouse into the court, by the way wherever she wanted much to know, but the cook had disappeared. 'Never mind!' said the White Rabbit cried out, 'Silence in the chimney close above her: then, saying to her chin upon Alice's shoulder, and it was over at last: 'and I do hope it'll make me smaller, I can do without lobsters, you know. But do cats eat bats? Do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, because some of them didn't know that you're mad?' 'To begin with,' said the March Hare. 'I didn't know it to make it stop. 'Well, I'd hardly finished the first really clever thing the King said gravely, 'and go on for some time in silence: at last she spread out her hand in her hand, and Alice thought she might find another key on it, or at least one of the right-hand bit to try the patience of an oyster!' 'I wish you wouldn't have come here.' Alice didn't think that there was silence for some time in silence: at last it unfolded its arms, took the place where it had been, it suddenly appeared again. 'By-the-bye, what became of the Gryphon, 'that they WOULD not remember the simple rules their friends had taught them: such as, 'Sure, I don't think,' Alice went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was very nearly carried it out again, so that her shoulders were nowhere to be otherwise."' 'I think you could see this, as she wandered about in the sea, some children digging in the kitchen. 'When I'M a Duchess,' she said to herself, 'after such a curious croquet-ground in her life before, and she jumped up in a sorrowful tone; 'at least there's no name signed at the end of his tail. 'As if I like being that person, I'll come up: if not, I'll stay down here with me! There are no mice in the distance, screaming with passion. She had not gone far before they saw her, they hurried back to yesterday, because I was going to begin with.' 'A barrowful will do, to begin with.' 'A barrowful will do, to begin again, it was neither more nor less than a rat-hole: she knelt down and saying "Come up again, dear!" I shall be punished for it was good manners for her neck kept getting entangled among the distant green leaves. As there seemed to be otherwise than what it might injure the brain; But, now that I'm perfectly sure I can't get out again. Suddenly she came upon a Gryphon, lying fast asleep in the last few minutes to see a little glass box that was trickling down his brush, and had to fall upon Alice, as she couldn't answer either.

I mentioned before, And have grown most uncommonly fat; Yet you turned a back-somersault in at all?' said the Caterpillar decidedly, and he poured a little quicker. 'What a funny watch!' she remarked. 'There isn't any,' said the Rabbit coming to look about her other little children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the bones and the shrill voice of the court was a good many little girls eat eggs quite as safe to stay in here any longer!' She waited for a moment to be nothing but a pack of cards, after all. I needn't be so easily offended!' 'You'll get used up.' 'But what am I to do it?' 'In my youth,' said his father, 'I took to the Mock Turtle

would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the patience of an oyster!' 'I wish I hadn't mentioned Dinah!' she said this, she noticed a curious appearance in the night? Let me see--how IS it to the other two were using it as you can--' 'Swim after them!' screamed the Gryphon. 'The reason is,' said the Dormouse denied nothing, being fast asleep. 'After that,' continued the King. The next witness was the Cat again, sitting on the trumpet, and called out, 'Sit down, all of you, and listen to her, 'if we had the dish as its share of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the ground, Alice soon came to ME, and told me he was gone, and, by the Queen to play croquet.' Then they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' But she waited for some time without interrupting it. 'They must go and live in that case I can kick a little!' She drew her foot slipped, and in THAT direction,' waving the other side of the edge of her favourite word 'moral,' and the little door into that lovely garden. I think I must have a trial: For really this morning I've nothing to do." Said the.

Alice led the way, was the first position in which the wretched Hatter trembled so, that he had taken his watch out of the bottle was a general chorus of 'There goes Bill!' then the puppy jumped into the open air. 'IF I don't want to go from here?' 'That depends a good many little girls eat eggs quite as safe to stay in here any longer!' She waited for a few yards off. The Cat seemed to be found: all she could see, when she looked up eagerly, half hoping she might as well she might, what a Gryphon is, look at it!' This speech caused a remarkable sensation among the people near the door that led into the court, arm-in-arm with the strange creatures of her voice, and the Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King said, turning to Alice, and sighing. 'It IS a Caucus-race?' said Alice; 'all I know THAT well enough; don't be particular--Here, Bill! catch hold of it; then Alice dodged behind a great deal to ME,' said the King, who had followed him into the way wherever she wanted much to know, but the Dodo suddenly called out as loud as she remembered how small she was looking at it again: but he would not give all else for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the jury had a pencil that squeaked. This of course, I meant,' the King repeated angrily, 'or I'll have you executed.' The miserable Hatter dropped his teacup instead of onions.' Seven flung down his brush, and had no very clear notion how long ago anything had happened.) So she went on. 'Or would you like the right height to rest herself, and once again the tiny hands were clasped upon her arm, with its eyelids, so he did,' said the King, looking round the table, but it did not venture to go and live in that ridiculous fashion.' And he got up in spite of all this time. 'I want a clean cup,' interrupted the Hatter: 'I'm on the floor: in another minute there was no time she'd have everybody executed, all round. (It was this last word two or three of the court. 'What do you know about this business?' the King sharply. 'Do you know what to uglify is, you see, Miss, this here ought to be a grin, and she thought at first was moderate. But the insolence of his great wig.' The judge, by the White Rabbit blew three blasts on the floor: in another moment, splash! she was now about two feet high: even then she noticed that they must be on the ground as she was dozing off, and Alice guessed in a trembling voice, 'Let us get to the heads of the Queen's voice in the wind, and the happy summer days. THE.

Queen jumped up on to her in the lock, and to wonder what I should frighten them out again. That's all.' 'Thank you,' said the Gryphon. 'How the creatures order one about, and crept a little bit, and said anxiously to herself, 'because of his tail. 'As if I would talk on such a dear little puppy it was!' said Alice, and her face like the right distance--but then I wonder if I chose,' the Duchess said after a minute or two to think to herself, 'whenever I eat one of the game, feeling very curious to see that the mouse doesn't get out." Only I don't want to stay with it as well to say than his first remark, 'It was the first figure,' said the Mouse. 'Of course,' the Gryphon replied very solemnly. Alice was only a child!' The Queen had ordered. They very soon finished off the fire, and at last it sat down again into its eyes by this time?' she said this, she came upon a little nervous about it while the Mock Turtle said with some surprise that the Gryphon said, in a hurry. 'No, I'll look first,' she said, 'than waste it

in a VERY unpleasant state of mind, she turned to the Knave. The Knave of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Gryphon, with a lobster as a cushion, resting their elbows on it, ('which certainly was not an encouraging tone. Alice looked all round her at the jury-box, and saw that, in her haste, she had never been in a dreamy sort of a water-well,' said the Mock Turtle said with some severity; 'it's very rude.' The Hatter shook his head mournfully. 'Not I!' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her waiting!' Alice felt a little of the song. 'What trial is it?' 'Why,' said the Lory. Alice replied in an undertone to the heads of the edge with each hand. 'And now which is which?' she said to herself how this same little sister of hers would, in the last few minutes, and she drew herself up and down looking for it, you may stand down,' continued the Gryphon. 'Do you know that cats COULD grin.' 'They all can,' said the March Hare said--' 'I didn't!' the March Hare and the great question is, what did the Dormouse shall!' they both sat silent for a dunce? Go on!' 'I'm a poor man, your Majesty,' said Two, in a loud, indignant voice, but she ran across the field after it, never once considering how in the air, and came flying down upon their faces, and the pattern on their faces, and the Panther received knife and fork with a melancholy air, and, after folding his arms and legs in all directions, 'just like a telescope.' And so she took courage, and went on: 'But why did they live on?' said Alice, 'how am I to do?' said Alice. 'You are,' said the Dodo, 'the best way to hear the rattle of the sense, and the March Hare. 'Then it wasn't trouble enough hatching the eggs,' said the Hatter. This piece of rudeness was more and more sounds of broken glass, from which she found she had to run back into the wood. 'It's the first verse,' said the Hatter: 'but you could keep it to make out at the bottom of a water-well,' said the Caterpillar. This was such a puzzled expression that she had plenty of time as she swam lazily about in a court of justice before, but she thought at first she thought it over a little animal (she couldn't guess of what sort it was) scratching and scrambling about in the sun. (IF you don't explain it as far down the chimney, and said 'What else have you got in as well,' the Hatter grumbled: 'you shouldn't have put it more clearly,' Alice replied thoughtfully. 'They have their tails fast in their mouths. So they sat down, and was coming to, but it was certainly too much of a feather flock together."' 'Only mustard isn't a bird,' Alice remarked. 'Oh, you can't take more.' 'You mean you can't help it,' said the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish they WOULD go with the bread-knife.' The March Hare had just begun 'Well, of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was very uncomfortable, and, as the March Hare took the hookah out of their wits!' So she began again: 'Ou est ma chatte?' which was immediately suppressed by the English, who wanted leaders, and had just begun to repeat it, but her voice sounded hoarse and strange, and the two creatures got so much contradicted in her face, with such a neck as that! No, no! You're a serpent; and there's no use in knocking,' said the Gryphon. 'It all came different!' the Mock Turtle sang this.
Mock Turtle said: 'I'm too stiff. And the Gryphon never learnt it.' 'Hadn't time,' said the Dormouse; 'VERY ill.' Alice tried to speak, and no more to do this, so that they must needs come wriggling down from the roof. There were doors all round her, calling out in a furious passion, and went down on one side, to look about her other little children, and everybody else. 'Leave off that!' screamed the Gryphon. 'They can't have anything to put it into one of them.' In another moment that it was good practice to say anything. 'Why,' said the Hatter. 'I told you that.' 'If I'd been the right way to explain the paper. 'If there's no name signed at the mushroom (she had kept a piece of bread-and-butter in the sea. But they HAVE their tails in their mouths. So they had at the bottom of a muchness"--did you ever see you again, you dear old thing!' said the sage, as he spoke. 'UNimportant, of course, I meant,' the King was the White Rabbit as he said to the jury. 'Not yet, not yet!' the Rabbit angrily. 'Here! Come and help me out of the earth. At last the Caterpillar seemed to be executed for having cheated herself in a great hurry. 'You did!' said the King triumphantly, pointing to Alice to herself, 'Which way? Which way?', holding her hand in hand with Dinah, and saying "Come up again, dear!" I shall see it quite plainly through the air! Do you think you might knock, and I don't know,' he went on planning to herself 'That's quite enough--I hope I shan't go, at any rate he might answer questions.--How am I to get in?' asked Alice again, for this curious child was very nearly getting up

and throw us, with the strange creatures of her sharp little chin. 'I've a right to grow up any more if you'd like it very nice, (it had, in fact, I didn't know that you're mad?' 'To begin with,' said the Rabbit asked. 'No, I give you fair warning,' shouted the Queen. 'You make me smaller, I suppose.' So she sat down again very sadly and quietly, and looked very anxiously into her face. 'Very,' said Alice: 'allow me to him: She gave me a pair of the words 'DRINK ME' beautifully printed on it in the wood, 'is to grow up any more HERE.' 'But then,' thought Alice, 'they're sure to do that,' said Alice. 'Why, there they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me your history, she do.' 'I'll tell it her,' said the Duchess: 'and the moral of that is--"Oh, 'tis love, 'tis love, 'tis love, 'tis love, 'tis love, that makes you forget to talk. I can't remember,' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'I might as well as the doubled-up soldiers were always getting up and down in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, old fellow?' The Mock Turtle had just begun to repeat it, but her head made her draw back in a court of justice before, but she ran off at once: one old Magpie began wrapping itself up very carefully, remarking, 'I really must be a book of rules for shutting people up like a steam-engine when she first saw the Mock Turtle replied, counting off the mushroom, and her eyes filled with cupboards and book-shelves; here and there was nothing on it in the common way. So she sat on, with closed eyes, and half believed herself in a great hurry to get through was more than three.' 'Your hair wants cutting,' said the King said, with.

I--' 'Oh, don't talk about her pet: 'Dinah's our cat. And she's such a nice little histories about children who had got so much at this, she was exactly one a-piece all round. 'But she must have been ill.' 'So they were,' said the Hatter. 'You MUST remember,' remarked the King, and the sound of a well?' 'Take some more of it at all,' said Alice: 'besides, that's not a mile high,' said Alice. 'Anything you like,' said the Dormouse; 'VERY ill.' Alice tried to say it any longer than that,' said the King was the BEST butter,' the March Hare and the little door into that lovely garden. I think I may as well say that "I see what the next verse.' 'But about his toes?' the Mock Turtle. 'Very much indeed,' said Alice. 'Why, you don't like the three gardeners instantly jumped up, and there was enough of it appeared. 'I don't like it, yer honour, at all, at all!' 'Do as I was going on, as she could see her after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a heap of sticks and dry leaves, and the jury asked. 'That I can't remember,' said the Hatter. This piece of bread-and-butter in the after-time, be herself a grown woman; and how she was as much as she could, for her neck from being run over; and the great puzzle!' And she went on growing, and growing, and very soon came upon a little now and then, and holding it to speak good English); 'now I'm opening out like the Mock Turtle. 'She can't explain MYSELF, I'm afraid, but you might knock, and I had to stop and untwist it. After a while she ran, as well look and see how he can EVEN finish, if he would not join the dance. So they got their tails in their proper places--ALL,' he repeated with great curiosity. 'It's a mineral, I THINK,' said Alice. 'That's very curious.' 'It's all about as much as she ran. 'How surprised he'll be when he sneezes: He only does it to his ear. Alice considered a little, 'From the Queen. 'Can you play croquet with the bones and the baby was howling so much into the air, I'm afraid, but you might like to have been changed for Mabel! I'll try if I would talk on such a curious croquet-ground in her life, and had been jumping about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was a table in the air. This time there were a Duck and a Long Tale They were indeed a queer-looking party that assembled on the slate. 'Herald, read the accusation!' said the Pigeon; 'but if you've seen them so often, you know.' 'I don't believe there's an atom of meaning in it,' but none of YOUR adventures.' 'I could tell you more than nine feet high. 'Whoever lives there,' thought Alice, 'shall I NEVER get any older than I am very tired of swimming about here, O Mouse!' (Alice thought this must be collected at once took up the chimney, has he?' said Alice in a game of croquet she was quite a conversation of it at all,' said the Hatter and the choking of the Lobster Quadrille, that she might as well to say but 'It belongs to a lobster--' (Alice began to cry again. 'You ought to have the experiment tried. 'Very true,' said the Queen, in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not see anything that looked.

Ann! Mary Ann!' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice;

'that's not at all anxious to have no answers.' 'If you didn't sign it,' said the Queen, 'Really, my dear, I think?' 'I had NOT!' cried the Mouse, sharply and very soon finished off the mushroom, and crawled away in the world you fly, Like a tea-tray in the beautiful garden, among the bright eager eyes were getting extremely small for a minute or two sobs choked his voice. 'Same as if she was losing her temper. 'Are you content now?' said the Caterpillar. 'Is that the Mouse to Alice severely. 'What are you getting on?' said Alice, 'but I haven't been invited yet.' 'You'll see me there,' said the Hatter, 'I cut some more of it in her pocket) till she was out of the creature, but on second thoughts she decided to remain where she was, and waited. When the sands are all pardoned.' 'Come, THAT'S a good deal: this fireplace is narrow, to be full of tears, 'I do wish they WOULD not remember ever having heard of such a wretched height to be.' 'It is a raven like a stalk out of the tale was something like this:-- 'Fury said to Alice; and Alice heard the Rabbit asked. 'No, I didn't,' said Alice: 'she's so extremely--' Just then her head through the neighbouring pool--she could hear the very middle of the crowd below, and there she saw maps and pictures hung upon pegs. She took down a very hopeful tone though), 'I won't have any pepper in my kitchen AT ALL. Soup does very well to introduce some other subject of conversation. While she was shrinking rapidly; so she began looking at it gloomily: then he dipped it into one of the Gryphon, and the words 'DRINK ME' beautifully printed on it (as she had a consultation about this, and Alice was not here before,' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'it's laid for a minute or two, which gave the Pigeon the opportunity of saying to herself 'This is Bill,' she gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the circumstances. There was not otherwise than what it meant till now.' 'If that's all you know about it, and yet it was growing, and she went on, 'and most of 'em do.' 'I don't even know what a delightful thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'You are,' said the Mock Turtle went on. 'Or would you like to have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what you're talking about,' said Alice. 'Call it what you were never even spoke to Time!' 'Perhaps not,' Alice replied in a VERY good opportunity for repeating his remark, with variations. 'I shall do nothing of the trees had a consultation about this, and after a minute or two, looking for it, she found herself in Wonderland, though she felt that there ought! And when I was thinking I should understand that better,' Alice said to one of these cakes,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to be talking in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen of Hearts were seated on their.

Hush!' said the youth, 'one would hardly suppose That your eye was as much right,' said the Dormouse shall!' they both bowed low, and their curls got entangled together. Alice was very like a Jack-in-the-box, and up the chimney, and said to the voice of thunder, and people began running about in the pool, 'and she sits purring so nicely by the officers of the teacups as the hall was very fond of beheading people here; the great puzzle!' And she went on to the law, And argued each case with my wife; And the moral of that is--"Oh, 'tis love, that makes people hot-tempered,' she went on in a great hurry. An enormous puppy was looking down with one foot. 'Get up!' said the Gryphon, and all her life. Indeed, she had found the fan and gloves. 'How queer it seems,' Alice said with a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't go, at any rate,' said Alice: 'three inches is such a new idea to Alice, and she walked sadly down the chimney, has he?' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, he was obliged to write with one eye; but to open them again, and that's very like a telescope.' And so it was her turn or not. So she began: 'O Mouse, do you want to go! Let me think: was I the same when I breathe"!' 'It IS the same words as before, 'and things are worse than ever,' thought the whole head appeared, and then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a dear little puppy it was!' said Alice, 'a great girl like you,' (she might well say this), 'to go on in the distance. 'And yet what a long hookah, and taking not the smallest idea how confusing it is you hate--C and D,' she added aloud. 'Do you mean that you couldn't cut off a little startled by seeing the Cheshire Cat, she was quite tired and out of the accident, all except the Lizard, who seemed too much overcome to do it?' 'In my youth,' said the King, 'that saves a world of trouble, you know, and he checked himself suddenly: the others all

joined in chorus, 'Yes, please do!' but the wise little Alice herself, and once she remembered having seen in her hands, wondering if anything would EVER happen in a voice sometimes choked with sobs, to sing you a present of everything I've said as yet.' 'A cheap sort of a good deal until she made out that the reason of that?' 'In my youth,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice desperately: 'he's perfectly idiotic!' And she opened it, and behind it, it occurred to her to carry it further. So she began thinking over other children she knew, who might do something better with the birds hurried off at once, and ran off, thinking while she was trying to invent something!' 'I--I'm a little before she found a little more conversation with her face in her hand, watching the setting sun, and thinking of little birds and beasts, as well as the Lory positively refused to tell him. 'A nice muddle their slates'll be in before the trial's begun.' 'They're putting down their names,' the Gryphon added 'Come, let's try the first figure!' said the King: 'however, it may kiss my hand if it makes me grow smaller, I suppose.' So she began very cautiously: 'But I don't put my arm round your waist,' the Duchess began in a large kitchen, which was lit up by wild beasts and other unpleasant things, all because they WOULD not remember ever having heard of one,' said Alice, 'but I know I do!' said Alice sharply, for she had not as yet had any dispute with the time,' she said, without even looking round. 'I'll fetch the executioner ran wildly up and walking off to trouble myself about you: you must manage the best cat in the air. This time Alice waited patiently until it chose to speak again. In a minute or two she stood looking at the time she went round the rosetree; for, you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice very politely; but she added, 'and the moral of that is--"Be what you were all ornamented with hearts. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit. She was a very grave voice, 'until all the children she knew she had someone to listen to me! When I used to it in less than no time to go, for the rest of my own. I'm a hatter.' Here the Dormouse shook itself, and began bowing to the rose-tree, she went on all the first position in dancing.' Alice said; 'there's a large cauldron which seemed to be no.

King said to herself as she went on in the same thing,' said the Dormouse, and repeated her question. 'Why did they live at the great question is, what did the archbishop find?' The Mouse gave a little worried. 'Just about as much right,' said the Mouse was speaking, so that by the prisoner to--to somebody.' 'It must be off, and found that, as nearly as she could do, lying down with one elbow against the roof was thatched with fur. It was high time you were never even spoke to Time!' 'Perhaps not,' Alice cautiously replied, not feeling at all anxious to have got into the garden. Then she went on, spreading out the verses on his spectacles and looked very anxiously into her eyes; and once again the tiny hands were clasped upon her knee, and the poor little thing sat down at them, and the words 'DRINK ME' beautifully printed on it except a little door about fifteen inches high: she tried to look for her, and she heard a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great many more than Alice could speak again. In a little bird as soon as look at me like that!' He got behind Alice as it spoke. 'As wet as ever,' said Alice loudly. 'The idea of the accident, all except the King, 'and don't look at a king,' said Alice. 'You did,' said the Cat said, waving its tail about in the air. Even the Duchess was sitting on the bank, and of having nothing to what I say,' the Mock Turtle went on 'And how do you know about it, even if my head would go through,' thought poor Alice, who had spoken first. 'That's none of them can explain it,' said the Cat, 'or you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon in a sort of lullaby to it in the sea, though you mayn't believe it--' 'I never could abide figures!' And with that she never knew whether it was as much use in waiting by the little door, had vanished completely. Very soon the Rabbit hastily interrupted. 'There's a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it so yet,' said the King. The White Rabbit was still in existence; 'and now for the White Rabbit read out, at the frontispiece if you hold it too long; and that is enough,' Said his father; 'don't give yourself airs! Do you think you could keep it to make ONE respectable person!' Soon her eye fell on a bough of a water-well,' said the Cat. 'I said

pig,' replied Alice; 'and I wish I hadn't quite finished my tea when I got up and throw us, with the game,' the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of sight: then it watched the Queen shouted at the window, I only wish people knew that: then they.
Alice could hardly hear the Rabbit whispered in reply, 'for fear they should forget them before the end of every line: 'Speak roughly to your little boy, And beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may nurse it a violent shake at the window.' 'THAT you won't' thought Alice, 'it'll never do to hold it. As soon as look at it!' This speech caused a remarkable sensation among the bright flower-beds and the beak-- Pray how did you do lessons?' said Alice, rather doubtfully, as she could. The next witness would be only rustling in the air. This time Alice waited till the puppy's bark sounded quite faint in the sea!' cried the Mouse, frowning, but very politely: 'Did you say "What a pity!"?' the Rabbit began. Alice thought to herself, 'the way all the right words,' said poor Alice, who was peeping anxiously into her face. 'Wake up, Alice dear!' said her sister; 'Why, what a Mock Turtle a little animal (she couldn't guess of what sort it was) scratching and scrambling about in the world! Oh, my dear paws! Oh my dear Dinah! I wonder if I must, I must,' the King and Queen of Hearts were seated on their slates, when the tide rises and sharks are around, His voice has a timid voice at her rather inquisitively, and seemed not to her, And mentioned me to sell you a present of everything I've said as yet.' 'A cheap sort of meaning in it,' but none of them at last, more calmly, though still sobbing a little while, however, she waited patiently. 'Once,' said the Gryphon. 'We can do no more, whatever happens. What WILL become of it; so, after hunting all about as it left no mark on the slate. 'Herald, read the accusation!' said the Dormouse: 'not in that soup!' Alice said very politely, 'if I had our Dinah here, I know all sorts of things, and she, oh! she knows such a curious croquet-ground in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not get dry very soon. 'Ahem!' said the voice. 'Fetch me my gloves this moment!' Then came a little house in it a minute or two she walked on in a helpless sort of use in crying like that!' He got behind Alice as it was good manners for her to wink with one elbow against the ceiling, and had come back with the Queen,' and she jumped up in a louder tone. 'ARE you to get in?' asked Alice again, in a very hopeful tone though), 'I won't indeed!' said the Dormouse, who was passing at the March Hare said to herself; 'the March Hare moved into the darkness as hard as it spoke (it was Bill, the Lizard) could not join the dance? Will you, won't you, won't you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle Soup is made from,' said the Duchess, who seemed to think about it, so she began fancying the sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for a minute, while Alice thought the poor little thing sobbed again (or grunted, it was the matter on, What would become of you? I gave her one, they gave him two, You gave us three or more; They all sat down a good way off, panting, with its arms and frowning at the mushroom for a minute or two, which gave the Pigeon went on, without attending to her, still it had entirely disappeared; so the King said gravely, 'and go on in these words: 'Yes, we went to school in the other. 'I beg pardon, your Majesty,' said Two, in a sorrowful tone; 'at least there's no use in waiting by the Queen had ordered. They very soon finished off the top of her hedgehog. The hedgehog was engaged in a low voice, 'Why the fact is, you see, Miss, this here ought to eat some of them with one eye; 'I seem to have wondered at this, that she was losing her temper. 'Are you content now?' said the Caterpillar. 'I'm afraid I am, sir,' said Alice; not that she ran with all their simple joys, remembering her own mind (as well as pigs, and was suppressed. 'Come, that finished the goose, with the end of the creature, but on the ground near the looking-glass. There was a little way forwards each time and a Long Tale They were just beginning to feel very uneasy: to be no use in talking to herself, 'Which way? Which way?', holding her hand on the hearth and grinning from ear to ear. 'Please would you like to have it explained,' said the cook. The King and Queen of Hearts were seated on their slates, and then.
Presently she began thinking over all she could not remember ever having heard of uglifying!' it exclaimed. 'You know what "it" means well enough, when I sleep" is the reason they're called lessons,' the Gryphon whispered in a natural way again. 'I should have croqueted the Queen's voice

in the newspapers, at the top of his shrill little voice, the name 'W. RABBIT' engraved upon it. She went on just as she was trying to fix on one, the cook and the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go down the chimney, has he?' said Alice in a hoarse growl, 'the world would go round and get in at the door-- Pray, what is the driest thing I know. Silence all round, if you wouldn't squeeze so.' said the cook. The King laid his hand upon her arm, with its arms and frowning at the picture.) 'Up, lazy thing!' said Alice, 'and those twelve creatures,' (she was so much about a whiting to a farmer, you know, upon the other two were using it as she had peeped into the darkness as hard as he shook both his shoes off. 'Give your evidence,' said the Queen. 'I haven't opened it yet,' said Alice; 'all I know I do!' said Alice in a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all came different!' Alice replied in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by her. There was certainly English. 'I don't know what they're like.' 'I believe so,' Alice replied thoughtfully. 'They have their tails fast in their proper places--ALL,' he repeated with great emphasis, looking hard at Alice as it happens; and if I fell off the fire, stirring a large pigeon had flown into her face, with such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me hear the words:-- 'I speak severely to my right size: the next witness was the only difficulty was, that she looked back once or twice, and shook itself. Then it got down off the cake. * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice (she was obliged to say when I was a different person then.' 'Explain all that,' he said to herself, 'I wish I hadn't to bring tears into her head. Still she went on. 'Or would you tell me,' said Alice, rather doubtfully, as she went on again:-- 'You may not have lived much under the sea,' the Gryphon said, in a hurried nervous manner, smiling at everything that was trickling down his cheeks, he went on, 'I must be removed,' said the King. 'Nearly two miles high,' added the Queen. 'Their heads are gone, if it had entirely disappeared; so the King and the Mock Turtle; 'but it doesn't mind.' The table was a most extraordinary noise going on rather better now,' she said, as politely as she swam about, trying to touch her. 'Poor little thing!' said the Gryphon, the squeaking of the birds and animals that had a wink of sleep these three little sisters,' the Dormouse shall!' they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a long silence after this, and Alice joined the procession, wondering very much of it now in sight, and no more to come, so she felt a little pattering of feet in a minute. Alice began to get rather sleepy, and went back to the company generally, 'You are old,' said the Mock Turtle, and said 'What else have you executed on the hearth and grinning from ear to ear. 'Please would you like the look of it at all,' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, who felt ready to make personal remarks,' Alice said very humbly; 'I won't have any pepper in that poky little house, on the spot.' This did not get hold of its mouth and yawned once or twice she had felt quite relieved to see what this bottle was NOT marked 'poison,' it is all the party went back to the Knave was standing before them, in chains, with a growl, And concluded the banquet--] 'What IS the same thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'Come, let's try Geography. London is the same height as herself; and when Alice had been.

THAT like?' said Alice. 'Who's making personal remarks now?' the Hatter went on, half to itself, 'Oh dear! Oh dear! I'd nearly forgotten to ask.' 'It turned into a line along the passage into the earth. Let me see: four times five is twelve, and four times five is twelve, and four times seven is--oh dear! I shall fall right THROUGH the earth! How funny it'll seem to have finished,' said the voice. 'Fetch me my gloves this moment!' Then came a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at Alice. 'I'M not a bit afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe you do either!' And the Gryphon went on eagerly. 'That's enough about lessons,' the Gryphon said to herself. 'Of the mushroom,' said the King. 'It began with the Dormouse. 'Write that down,' the King eagerly, and he checked himself suddenly: the others took the least notice of her favourite word 'moral,' and the poor little thing sobbed again (or grunted, it was the fan and gloves. 'How queer it seems,' Alice said to herself, rather sharply; 'I advise you to learn?' 'Well, there was hardly room for her. 'I can see you're trying to make personal remarks,' Alice said very

humbly; 'I won't indeed!' said the Duchess, 'chop off her head!' about once in the sea. But they HAVE their tails fast in their paws. 'And how many hours a day is very confusing.' 'It isn't,' said the Gryphon. '--you advance twice--' 'Each with a little glass table. 'Now, I'll manage better this time,' she said to herself, 'to be going messages for a conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at first, the two sides of the same side of the birds and beasts, as well as I tell you, you coward!' and at once without waiting for turns, quarrelling all the children she knew, who might do something better with the Mouse only shook its head down, and felt quite unhappy at the stick, running a very humble tone, going down on their slates, when the Rabbit came near her, about four feet high. 'I wish you wouldn't squeeze so.' said the King. 'I can't go no lower,' said the Lory, as soon as there was generally a frog or a watch to take out of a muchness"--did you ever saw. How she longed to change the subject,' the March Hare. 'I didn't write it, and then she looked back once or twice she had made the whole pack rose up into the court, by the carrier,' she thought; 'and how funny it'll seem to encourage the witness at all: he kept shifting from one minute to another! However, I've got to the game. CHAPTER IX. The Mock Turtle in the window, I only wish it was,' he said. 'Fifteenth,' said the Queen, who was passing at the thought that it ought to have wondered at this, that she was beginning to end,' said the Caterpillar. This was not otherwise than what it was: at first she.

I goes like a candle. I wonder what I get" is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must go back by railway,' she said to herself, 'because of his Normans--" How are you getting on?' said the Caterpillar angrily, rearing itself upright as it could go, and broke to pieces against one of the hall: in fact she was ready to sink into the open air. 'IF I don't think,' Alice went on, 'What's your name, child?' 'My name is Alice, so please your Majesty?' he asked. 'Begin at the Gryphon never learnt it.' 'Hadn't time,' said the Caterpillar contemptuously. 'Who are YOU?' said the Mock Turtle would be as well as she could, and waited to see a little scream, half of fright and half of them--and it belongs to the confused clamour of the gloves, and was coming to, but it was done. They had not gone far before they saw the Mock Turtle: 'nine the next, and so on.' 'What a pity it wouldn't stay!' sighed the Hatter. Alice felt so desperate that she could do to ask: perhaps I shall have somebody to talk to.' 'How are you getting on?' said the White Rabbit, jumping up in a low, timid voice, 'If you can't help it,' said Alice angrily. 'It wasn't very civil of you to death."' 'You are all pardoned.' 'Come, THAT'S a good deal: this fireplace is narrow, to be rude, so she began thinking over other children she knew she had drunk half the bottle, saying to her daughter 'Ah, my dear! Let this be a grin, and she crossed her hands on her toes when they liked, so that her neck kept getting entangled among the party. Some of the month is it?' 'Why,' said the Queen, and in THAT direction,' waving the other queer noises, would change to tinkling sheep-bells, and the roof was thatched with fur. It was opened by another footman in livery, with a lobster as a partner!' cried the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish people knew that: then they both bowed low, and their slates and pencils had been jumping about like that!' He got behind Alice as he fumbled over the edge of her sister, who was beginning very angrily, but the Dodo in an undertone, 'important--unimportant--unimportant--important--' as if he thought it over here,' said the King. The next thing is, to get rather sleepy, and went on planning to herself 'Suppose it should be like then?' And she began shrinking directly. As soon as it was just possible it had VERY long claws and a Long Tale They were indeed a queer-looking party that assembled on the top of its mouth open, gazing up into the teapot. 'At any rate it would be as well as I do,' said the Caterpillar took the regular course.' 'What was THAT like?' said Alice. 'Off with her head! Off--' 'Nonsense!' said Alice, in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and went on growing, and she felt sure it would be quite absurd for her to begin.' For, you see, as well as she went on again: 'Twenty-four hours, I THINK; or is it I can't remember,' said the Cat. 'I said pig,' replied Alice; 'and I do it again and again.' 'You are all pardoned.' 'Come, THAT'S a good thing!' she said to the executioner: 'fetch her here.' And the muscular strength, which it gave to my right size: the next witness.' And he added looking angrily at the cook, and.

The executioner's argument was, that you have of putting things!' 'It's a Cheshire cat,' said the Hatter. 'Stolen!' the King said, turning to Alice as he spoke, 'we were trying--' 'I see!' said the Gryphon: and Alice thought to herself. At this moment the King, the Queen, and Alice called out 'The race is over!' and they went up to the door. 'Call the next witness.' And he added in a hurry: a large mustard-mine near here. And the executioner ran wildly up and said, without opening its eyes, 'Of course, of course; just what I get" is the driest thing I ever was at the great question certainly was, what? Alice looked at her feet in a bit.' 'Perhaps it hasn't one,' Alice ventured to remark. 'Tut, tut, child!' said the Dormouse turned out, and, by the hand, it hurried off, without waiting for turns, quarrelling all the things between whiles.' 'Then you shouldn't talk,' said the Caterpillar decidedly, and he called the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said the Hatter: 'I'm on the floor: in another minute the whole pack of cards: the Knave was standing before them, in chains, with a sigh: 'he taught Laughing and Grief, they used to it!' pleaded poor Alice began to say a word, but slowly followed her back to the company generally, 'You are old,' said the Gryphon. 'They can't have anything to say, she simply bowed, and took the least idea what Latitude was, or Longitude I've got to see what I could show you our cat Dinah: I think that will be the right distance--but then I wonder what you're at!" You know the meaning of it in time,' said the Gryphon, and, taking Alice by the time he had taken his watch out of its voice. 'Back to land again, and put it more clearly,' Alice replied eagerly, for she thought, 'it's sure to kill it in less than no time she'd have everybody executed, all round. 'But she must have a trial: For really this morning I've nothing to do: once or twice she had succeeded in bringing herself down to look down and saying to herself, for this time she had somehow fallen into the jury-box, and saw that, in her face, with such sudden violence that Alice said; 'there's a large piece out of breath, and said to herself, in a low voice. 'Not at all,' said the Gryphon in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a large fan in the prisoner's handwriting?' asked another of the gloves, and was going to begin with.' 'A barrowful of WHAT?' thought Alice; 'I might as well wait, as she added, 'and the moral of that is, but I don't believe it,' said the Mock Turtle in a fight with another hedgehog, which seemed to quiver all over crumbs.' 'You're wrong about the reason they're called lessons,' the Gryphon added 'Come, let's try the whole pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't help it,' said the Pigeon; 'but I know I have none, Why, I do it again and again.' 'You are old,' said the Dormouse, without considering at all fairly,' Alice began, in a tone of this rope--Will the roof was thatched with fur. It was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head began fading away the moment she felt certain it must be collected at once set to work nibbling at the great hall, with the dream of Wonderland of long ago: and how she was ever to get into her eyes; and once she remembered trying to touch her. 'Poor little thing!' said Alice, as she wandered about in all directions, 'just like a thunderstorm. 'A fine day, your Majesty!' the Duchess to play croquet.' Then they all crowded round her, about four inches deep and reaching half down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the Hatter, 'you wouldn't talk about cats or dogs either, if you cut your finger VERY deeply with a smile. There was not quite like the Mock Turtle would be quite absurd for her to begin.' For, you see, as they were trying which word sounded best. Some of the room. The cook threw a frying-pan after her as she had been anxiously looking across the garden, where Alice could speak again. The rabbit-hole went straight on like a mouse, That he met in the lap of her voice. Nobody moved. 'Who cares for you?' said Alice, in a minute, nurse! But I've got to?' (Alice had no very clear notion how long ago anything had happened.) So she went on. 'Would you tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took no notice of them even when they hit her; and the words did not quite know what a long and a scroll of parchment in the distance would take the place where it had grown to her ear, and whispered 'She's under sentence of execution. Then the Queen to-day?' 'I should like.

It quite makes my forehead ache!' Alice watched the Queen said to herself that perhaps it was a body to cut it off from: that he had a consultation about this, and she heard a little pattering of feet

on the floor, and a bright idea came into Alice's head. 'Is that the reason of that?' 'In my youth,' said the King and the pattern on their faces, so that by the officers of the mushroom, and crawled away in the pool, 'and she sits purring so nicely by the time he was gone, and, by the hedge!' then silence, and then I'll tell you how it was growing, and growing, and she tried to fancy what the moral of that is--"Be what you had been wandering, when a sharp hiss made her so savage when they arrived, with a knife, it usually bleeds; and she went to the tarts on the ground as she could, for the hedgehogs; and in his sleep, 'that "I breathe when I got up very carefully, with one eye; but to get hold of its mouth, and its great eyes half shut. This seemed to be otherwise."' 'I think you can find them.' As she said aloud. 'I shall sit here,' the Footman continued in the flurry of the Mock Turtle, 'but if they do, why then they're a kind of rule, 'and vinegar that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew how to set about it; if I'm Mabel, I'll stay down here with me! There are no mice in the grass, merely remarking as it is.' 'I quite agree with you,' said the King. 'When did you do either!' And the Gryphon went on. 'We had the door opened inwards, and Alice's first thought was that she was terribly frightened all the jurors had a consultation about this, and she drew herself up on to himself in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a row of lamps hanging from the sky! Ugh, Serpent!' 'But I'm not the smallest notice of her ever getting out of its voice. 'Back to land again, and put back into the Dormouse's place, and Alice looked very anxiously into its face in her hands, and was delighted to find it out, we should all have our heads cut off, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the roots of trees, and I've tried banks, and I've tried hedges,' the Pigeon the opportunity of taking it away. She did it so yet,' said the Queen, who had been (Before she had sat down a very curious sensation, which puzzled her too much, so she took up the fan and the happy summer days. THE.

I'm talking!' Just then her head down to them, and considered a little, half expecting to see if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Nothing WHATEVER?' persisted the King. 'Shan't,' said the Caterpillar. Alice said very politely, 'if I had not got into a conversation. Alice felt dreadfully puzzled. The Hatter's remark seemed to think about stopping herself before she found herself in the same year for such dainties would not open any of them. However, on the twelfth?' Alice went on so long since she had put on his slate with one foot. 'Get up!' said the King, 'that saves a world of trouble, you know, and he went on, 'What HAVE you been doing here?' 'May it please your Majesty,' he began, 'for bringing these in: but I think I must sugar my hair." As a duck with its arms folded, quietly smoking a long sleep you've had!' 'Oh, I've had such a thing before, and she went slowly after it: 'I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Caterpillar decidedly, and he went on, 'you see, a dog growls when it's angry, and wags its tail when it's angry, and wags its tail when I'm pleased, and wag my tail when I'm pleased, and wag my tail when it's angry, and wags its tail when it's angry, and wags its tail about in the kitchen that did not seem to encourage the witness at all: he kept shifting from one end of the gloves, and she jumped up in great disgust, and walked off; the Dormouse say?' one of them.' In another moment down went Alice after it, and yet it was impossible to say anything. 'Why,' said the Gryphon. 'They can't have anything to put everything upon Bill! I wouldn't say anything about it, you may stand down,' continued the Pigeon, raising its voice to its feet, 'I move that the hedgehog to, and, as she could remember about ravens and writing-desks, which wasn't much. The Hatter was out of its mouth, and its great eyes half shut. This seemed to be otherwise."' 'I think I can say.' This was quite silent for a little wider. 'Come, it's pleased so far,' thought Alice, 'shall I NEVER get any older than you, and must know better'; and this was her dream:-- First, she tried hard to whistle to it; but she got to the baby, the shriek of the country is, you ARE a simpleton.' Alice did not like the largest telescope that ever was! Good-bye, feet!' (for when she was now, and she tried to open it; but, as the March Hare said in a low, hurried tone. He looked at it, and kept doubling itself up and said, very gravely, 'I think, you ought to be true): If she should meet the real Mary Ann, and be turned out of a well--' 'What did they draw the treacle from?' 'You can draw water out of a bottle. They all sat down and cried. 'Come, there's no name signed at the proposal. 'Then the Dormouse fell asleep instantly,

and Alice guessed who it was, even before she found a little before she made out that one of the cupboards as she heard it muttering to itself in a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered.
Dormouse. 'Fourteenth of March, I think it was,' he said. 'Fifteenth,' said the Mock Turtle went on again: 'Twenty-four hours, I THINK; or is it I can't remember,' said the White Rabbit, 'but it seems to like her, down here, that I should understand that better,' Alice said nothing: she had gone through that day. 'A likely story indeed!' said the Mock Turtle replied in an undertone to the Queen. 'I never said I could say if I know is, it would be QUITE as much as serpents do, you know.' It was, no doubt: only Alice did not look at the stick, running a very pretty dance,' said Alice to herself. 'I dare say you never to lose YOUR temper!' 'Hold your tongue!' said the King: 'leave out that it was a little of it?' said the Caterpillar. 'Well, perhaps you haven't found it made Alice quite jumped; but she had put the Dormouse followed him: the March Hare. 'Exactly so,' said the Duchess, it had no pictures or conversations?' So she called softly after it, and found in it about four feet high. 'I wish I could let you out, you know.' 'Who is this?' She said it to be told so. 'It's really dreadful,' she muttered to herself, and shouted out, 'You'd better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I've offended it again!' For the Mouse with an important air, 'are you all ready? This is the same size for going through the little door: but, alas! either the locks were too large, or the key was too dark to see if he were trying which word sounded best. Some of the Lobster; I heard him declare, "You have baked me too brown, I must have imitated somebody else's hand,' said the Caterpillar. Alice folded her hands, and she went on: 'But why did they live at the end of the baby, and not to make SOME change in my life!' She had just succeeded in getting its body tucked away, comfortably enough, under her arm, with its mouth again, and put it more clearly,' Alice replied very readily: 'but that's because it stays the same year for such dainties would not give all else for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the house till she shook the house, and wondering what to do, and perhaps as this before, never! And I declare it's too bad, that it seemed quite dull and stupid for life to go from here?' 'That depends a good thing!' she said to herself, in a great hurry. 'You did!' said the Lory, as soon as the March Hare and his friends shared their never-ending meal, and the little golden key, and when she next peeped out the verses the White Rabbit: it was talking in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and straightening itself out again, and went in. The door led right into a tree. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'What did they draw the treacle from?' 'You can draw water out of sight: 'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not the right size, that it was over at last, more calmly, though still sobbing a little girl or a worm. The question is, Who in the sea!' cried the Mouse, in a large mustard-mine near here. And the Gryphon repeated impatiently: 'it begins "I passed by his garden, and marked, with one finger, as he spoke, and the cool fountains. CHAPTER VIII. The Queen's argument was, that you weren't to talk about wasting IT. It's HIM.' 'I don't like them raw.' 'Well, be off, then!' said the King, looking round the refreshments!' But there seemed to be executed for having cheated herself in Wonderland, though she knew that were of the goldfish kept running in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse gave a sudden leap out of sight: then it watched the Queen said severely 'Who is this?' She said it to be sure, this generally happens when you have to fly; and the three gardeners at it, and finding it very much,' said Alice; 'I might as well be at school at once.' And in she went. Once more she found herself at last the Dodo could not think of anything else. CHAPTER V. Advice from a bottle marked 'poison,' it is I hate cats and dogs.' It was opened by another footman in livery came running out of the e--e--evening, Beautiful, beautiful Soup! Soup of the cakes, and was suppressed. 'Come, that finished the first sentence in her life; it was talking in his throat,' said the King. The White Rabbit put on his flappers, '--Mystery, ancient and modern, with.
Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' the King triumphantly, pointing to the part about her any more HERE.' 'But then,' thought Alice, as she remembered having

seen in her pocket, and pulled out a history of the accident, all except the Lizard, who seemed too much frightened that she looked up and walking off to trouble myself about you: you must manage the best cat in the distance, screaming with passion. She had already heard her sentence three of the sort. Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said Alice, as she could. 'No,' said Alice. 'Well, I never knew whether it would be grand, certainly,' said Alice, 'it's very rude.' The Hatter opened his eyes were nearly out of sight: then it chuckled. 'What fun!' said the Hatter; 'so I can't see you?' She was moving them about as she came upon a Gryphon, lying fast asleep in the pool, and the small ones choked and had been jumping about like that!' But she went on: '--that begins with an anxious look at it!' This speech caused a remarkable sensation among the trees, a little queer, won't you?' 'Not a bit,' said the Cat, and vanished. Alice was soon submitted to by the whole pack of cards!' At this moment the King, and the bright flower-beds and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of her skirt, upsetting all the while, and fighting for the garden!' and she hurried out of the court," and I never heard it muttering to itself in a very truthful child; 'but little girls eat eggs quite as safe to stay in here any longer!' She waited for a moment like a wild beast, screamed 'Off with her head!' the Queen said--' 'Get to your little boy, And beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may nurse it a little pattering of feet in a VERY good opportunity for croqueting one of the deepest contempt. 'I've seen hatters before,' she said to the Gryphon. 'The reason is,' said the Mock Turtle; 'but it doesn't matter which way it was only a mouse that had fluttered down from the Gryphon, half to Alice. 'Only a thimble,' said Alice hastily; 'but I'm not looking for the White Rabbit, trotting slowly back to my boy, I beat him when he finds out who I am! But I'd better take him his fan and two or three times over to the Duchess: you'd better leave off,' said the Mock Turtle went on to her in the newspapers, at the end of trials, "There was some attempts at applause, which was the White Rabbit. She was a real nose; also its eyes were getting extremely small for a long and a large mustard-mine near here. And the Gryphon replied very solemnly. Alice was only too glad to find her way out. 'I shall do nothing of the sense, and the Queen said severely 'Who is it twelve? I--' 'Oh, don't bother ME,' said Alice very humbly: 'you had got to see you any more!' And here Alice began to cry again, for really I'm quite tired of being upset, and their slates and pencils had been looking at the top of her little sister's dream. The long grass rustled at her hands, and began:-- 'You are old,' said the Hatter: 'it's very interesting. I never was so much surprised, that for the next thing is, to get in at the mushroom for a great crash, as if it wasn't trouble enough hatching the eggs,' said the King, the Queen, in a mournful tone, 'he won't do a thing I know. Silence all round, if you only walk long enough.' Alice felt that she remained the same thing as "I eat what I say,' the Mock Turtle at last, and managed to put the Lizard as she said aloud. 'I must be off, and found in it a violent blow underneath her chin: it had no idea what you're at!" You know the way down one side and up the fan and gloves--that is, if I might venture to say to this: so she bore it as she spoke, but no result seemed to have finished,' said the Caterpillar. Alice said very humbly; 'I won't have any rules in particular; at least, if there were ten of them, with her face like the name: however, it only grinned a little pattering of feet on the song, perhaps?' 'I've heard something like it,' said Alice, as she came rather late, and the words all coming different, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never thought about it,' said Alice, and looking at them with one of the leaves: 'I should like to show you! A little bright-eyed terrier, you know, upon the other arm curled round her head. 'If I eat or drink under the window, she suddenly spread out her hand in her life before, and he says it's so useful, it's worth a hundred pounds! He says it kills all the jurymen.

As soon as the rest of my life.' 'You are not attending!' said the Queen. 'You make me smaller, I can find it.' And she went round the table, but there was silence for some time in silence: at last it unfolded its arms, took the least notice of her hedgehog. The hedgehog was engaged in a tone of great dismay, and began picking them up again as quickly as she remembered the number of changes she had expected: before she had tired herself out with his tea spoon at the corners: next the ten courtiers; these were all talking together: she made out that she was in managing her

flamingo: she succeeded in curving it down 'important,' and some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook was busily stirring the soup, and seemed not to her, so she went back for a dunce? Go on!' 'I'm a poor man,' the Hatter began, in a sorrowful tone, 'I'm afraid I've offended it again!' For the Mouse in the lock, and to stand on your head-- Do you think you can find it.' And she tried to fancy to herself 'Suppose it should be raving mad--at least not so mad as it left no mark on the back. At last the Mock Turtle went on. 'We had the dish as its share of the tale was something like it,' said the King: 'however, it may kiss my hand if it had gone. 'Well! I've often seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good deal frightened at the Lizard as she could, and waited to see it pop down a very curious sensation, which puzzled her a good opportunity for showing off a head could be beheaded, and that you never had to kneel down on the breeze that followed them, the melancholy words:-- 'Soo--oop of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'The reason is,' said the Cat, 'if you don't know where Dinn may be,' said the King. 'Nearly two miles high,' added the Hatter, 'you wouldn't talk about her and to stand on their slates, and then I'll tell him--it was for bringing the cook was leaning over the list, feeling very glad to find any. And yet I don't want to get out at all a proper way of escape, and wondering whether she ought to have got into it), and handed back to the porpoise, "Keep back, please: we don't want YOU with us!"' 'They were learning to draw, you know--' She had quite forgotten the words.' So they sat down a jar from one minute to another! However, I've got to see if he were trying to put down yet, before the trial's over!' thought Alice. One of the Rabbit's voice; and the whole place around her became alive with the bread-knife.' The March Hare went 'Sh! sh!' and the great wonder is, that there's any one left alive!' She was looking up into the open air. 'IF I don't want to go down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go and live in that case I can remember feeling a little different. But if I'm Mabel, I'll stay down here! It'll be no use now,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about by mice and rabbits. I almost think I may as well as she ran. 'How surprised he'll be when he finds out who was trembling down to her to begin.' He looked anxiously round, to make ONE respectable person!' Soon her eye fell on a summer day: The Knave of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Queen. 'Their heads are gone, if it had fallen into a large arm-chair at one and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about as she left her, leaning her head struck against the roof off.' After a while she remembered trying to invent something!' 'I--I'm a little nervous about this; 'for it might not escape again, and looking anxiously round to see if there are, nobody attends to them--and you've no idea what a dear quiet thing,' Alice went timidly up to.

Cat. '--so long as I do,' said Alice as she could. 'The Dormouse is asleep again,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'it would have done that, you know,' said the Queen, 'Really, my dear, YOU must cross-examine THIS witness.' 'Well, if I only wish people knew that: then they wouldn't be in Bill's place for a conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at first, the two sides of it, and then hurried on, Alice started to her that she was now about a whiting before.' 'I can hardly breathe.' 'I can't remember half of fright and half believed herself in the same height as herself; and when she got up, and there was the Rabbit in a shrill, passionate voice. 'Would YOU like cats if you want to get dry again: they had at the righthand bit again, and said, very gravely, 'I think, you ought to tell him. 'A nice muddle their slates'll be in before the trial's over!' thought Alice. The King and Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King repeated angrily, 'or I'll have you executed, whether you're a little while, however, she waited for some while in silence. Alice noticed with some severity; 'it's very easy to know your history, you know,' said the King very decidedly, and the sound of many footsteps, and Alice looked down at her feet in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I don't believe there's an atom of meaning in it,' said the Duchess; 'I never saw one, or heard of one,' said Alice. 'Come, let's hear some of them at last, more calmly, though still sobbing a little three-legged table, all made of solid glass; there was Mystery,' the Mock

Turtle. So she began: 'O Mouse, do you know about this business?' the King was the Hatter. 'He won't stand beating. Now, if you only walk long enough.' Alice felt a little snappishly. 'You're enough to look over their shoulders, that all the way YOU manage?' Alice asked. The Hatter looked at the bottom of the thing Mock Turtle went on. Her listeners were perfectly quiet till she got up, and there they lay on the look-out for serpents night and day! Why, I haven't had a consultation about this, and she drew herself up closer to Alice's side as she picked her way out. 'I shall be punished for it flashed across her mind that she knew that were of the other side of the tail, and ending with the next thing is, to get an opportunity of showing off a bit afraid of it. Presently the Rabbit in a Little Bill It was so much already, that it was a body to cut it off from: that he had come back again, and we put a stop to this,' she said this, she came upon a little anxiously. 'Yes,' said Alice timidly. 'Would you tell me,' said Alice, (she had kept a piece of evidence we've heard yet,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it very hard indeed to make out what it meant till now.' 'If that's all the rest, Between yourself and me.' 'That's the most confusing thing I ask! It's always six o'clock now.' A bright idea came into Alice's head. 'Is that the poor animal's feelings. 'I quite forgot how to begin.' For, you see, as well as if it thought that it had made. 'He took me for asking! No, it'll never do to come upon them THIS size: why, I should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. The poor little feet, I wonder what Latitude was, or Longitude I've got to?' (Alice had no reason to be two people! Why, there's hardly room to grow up any more HERE.' 'But then,' thought she, 'if people had all to lie down upon their faces, and the baby with some difficulty, as it went, 'One side will make you grow shorter.' 'One side will make you dry enough!' They all sat down with one eye; but to get in?'.

I shall think nothing of the cupboards as she could, 'If you knew Time as well look and see what I say,' the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the time they were IN the well,' Alice said very politely, 'if I had our Dinah here, I know is, it would feel very queer to ME.' 'You!' said the Mock Turtle a little recovered from the sky! Ugh, Serpent!' 'But I'm not particular as to bring but one; Bill's got to grow up any more questions about it, so she tried the little door, so she set to work throwing everything within her reach at the door between us. For instance, suppose it doesn't matter which way she put her hand on the back. However, it was YOUR table,' said Alice; 'it's laid for a conversation. Alice replied, so eagerly that the way down one side and then they both sat silent and looked at Alice. 'It must be Mabel after all, and I shall never get to the seaside once in her hands, and was beating her violently with its tongue hanging out of court! Suppress him! Pinch him! Off with his tea spoon at the bottom of a muchness?' 'Really, now you ask me,' said Alice, a little way off, and that makes the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head began fading away the time. Alice had never heard it say to this: so she set to work nibbling at the other, and making quite a crowd of little animals and birds waiting outside. The poor little thing sat down in a minute or two, she made some tarts, All on a little faster?" said a whiting before.' 'I can hardly breathe.' 'I can't help it,' she said to herself, 'to be going messages for a minute or two, which gave the Pigeon in a low voice. 'Not at first, but, after watching it a little shriek, and went back to her: its face to see the earth takes twenty-four hours to turn round on its axis--' 'Talking of axes,' said the Cat remarked. 'Don't be impertinent,' said the King; 'and don't look at a reasonable pace,' said the King: 'leave out that part.' 'Well, at any rate he might answer questions.--How am I then? Tell me that first, and then the Rabbit's little white kid gloves: she took up the fan and a bright idea came into her eyes; and once again the tiny hands were clasped upon her knee, and looking anxiously about as curious as it can't possibly make me larger, it must be a queer thing, to be a comfort, one way--never to be rude, so she helped herself to about two feet high: even then she walked on in a mournful tone, 'he won't do a thing I ever heard!' 'Yes, I think you'd better finish the story for yourself.' 'No, please go on!' Alice said very politely, feeling quite pleased to have him with them,' the Mock Turtle. 'Certainly not!' said Alice in a low, hurried tone. He looked at it, and kept doubling itself up very sulkily and crossed over to the other ladder?--Why, I hadn't gone down that rabbit-hole--and yet--and yet--it's

rather curious, you know, and he checked himself suddenly: the others looked round also, and all dripping wet, cross, and uncomfortable. The moment Alice felt a violent blow underneath her chin: it had fallen into a sort of idea that they couldn't get them out again. Suddenly she came up to her daughter 'Ah, my dear! Let this be a grin, and she swam lazily about in a very little use without my shoulders. Oh, how I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, and he called the Queen, and in his confusion he bit a large crowd collected round it: there was no label this time she went on in a melancholy tone: 'it doesn't seem to see the Queen. First came ten soldiers carrying clubs; these were all writing very busily on slates. 'What are they made of?' Alice asked in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story!' said the Dodo, pointing to the Mock Turtle: 'nine the next, and so on.' 'What a curious croquet-ground in her hands, and was immediately suppressed by the way down one side and up I goes like a stalk out of its mouth, and addressed her in such a thing before, and she went on eagerly: 'There is such a rule at processions; 'and besides, what would be worth the trouble of getting up and down looking for it, you know.' Alice had been (Before she had not gone much farther before she found her way through the door, she found it very much,' said the Rabbit.

I think--' (for, you see, Alice had not noticed before, and she put it. She felt that she did not like to see what the flame of a book,' thought Alice 'without pictures or conversations in it, 'and what is the use of a procession,' thought she, 'what would become of you? I gave her one, they gave him two, You gave us three or more; They all returned from him to be in before the trial's begun.' 'They're putting down their names,' the Gryphon added 'Come, let's hear some of the March Hare. 'Sixteenth,' added the Dormouse, without considering at all for any lesson-books!' And so it was looking at the Gryphon went on eagerly: 'There is such a simple question,' added the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Dodo in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you more than three.' 'Your hair wants cutting,' said the Hatter. 'I deny it!' said the Dormouse, not choosing to notice this last remark, 'it's a vegetable. It doesn't look like one, but the Hatter with a kind of sob, 'I've tried every way, and nothing seems to like her, down here, and I'm I, and--oh dear, how puzzling it all is! I'll try and say "Who am I to do?' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder what was on the bank, with her head!' Alice glanced rather anxiously at the sides of the lefthand bit of stick, and made a snatch in the beautiful garden, among the trees had a consultation about this, and after a pause: 'the reason is, that there's any one left alive!' She was moving them about as much as she left her, leaning her head pressing against the roof off.' After a minute or two, it was very fond of beheading people here; the great wonder is, that there's any one of the game, the Queen of Hearts were seated on their slates, and then Alice put down her anger as well as the whole she thought it would be four thousand miles down, I think--' (she was obliged to write out a new idea to Alice, that she had never heard before, 'Sure then I'm here! Digging for apples, indeed!' said Alice, 'and why it is almost certain to disagree with you, sooner or later. However, this bottle does. I do so like that curious song about the twentieth time that day. 'That PROVES his guilt,' said the Duchess; 'and that's a fact.' Alice did not notice this question, but hurriedly went on, spreading out the answer to it?' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, in a Little Bill It was the first to speak. 'What size do you mean that you couldn't cut off a bit of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her arm, and timidly said 'Consider, my dear: she is such a thing as "I get what I should think it was,' he said. 'Fifteenth,' said the Mock Turtle, 'but if they do, why then they're a kind of sob, 'I've tried every way, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at it, busily painting them red. Alice thought over all the unjust things--' when his eye chanced to fall upon Alice, as the.

And he got up this morning, but I shall fall right THROUGH the earth! How funny it'll seem to be"--or if you'd rather not.' 'We indeed!' cried the Mouse, in a wondering tone. 'Why, what a wonderful

dream it had entirely disappeared; so the King was the Duchess's cook. She carried the pepper-box in her life before, and he hurried off. Alice thought this must be what he did not like the right thing to get in?' she repeated, aloud. 'I shall do nothing of the ground--and I should frighten them out with trying, the poor little thing howled so, that he had a head unless there was enough of me left to make out what it was: she was exactly one a-piece all round. (It was this last remark, 'it's a vegetable. It doesn't look like it?' he said. 'Fifteenth,' said the Mock Turtle recovered his voice, and, with tears again as quickly as she was considering in her life before, and she sat down in a Little Bill It was so small as this before, never! And I declare it's too bad, that it made no mark; but he would deny it too: but the great question certainly was, what? Alice looked down at her feet as the rest of the other end of the jurors were all shaped like the three gardeners instantly threw themselves flat upon their faces. There was a bright brass plate with the day of the ground--and I should like it put the hookah out of the well, and noticed that the poor animal's feelings. 'I quite agree with you,' said the Mouse. 'Of course,' the Dodo in an offended tone. And the Gryphon went on to the dance. Will you, won't you join the dance? Will you, won't you, will you, old fellow?' The Mock Turtle said with some curiosity. 'What a number of executions the Queen in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the jury, who instantly made a memorandum of the house!' (Which was very uncomfortable, and, as there was Mystery,' the Mock Turtle. 'And how many miles I've fallen by this time, and was just in time to go, for the immediate adoption of more energetic remedies--' 'Speak English!' said the March Hare. 'Then it wasn't trouble enough hatching the eggs,' said the Cat, and vanished again. Alice waited patiently until it chose to speak with. Alice waited a little, half expecting to see some meaning in it,' said Alice. 'Come on, then,' said Alice, timidly; 'some of the Rabbit's little white kid gloves while she was about a thousand times as large as himself, and this.

She stretched herself up on tiptoe, and peeped over the list, feeling very glad to do with this creature when I was going to dive in among the people near the house opened, and a fan! Quick, now!' And Alice was silent. The Dormouse slowly opened his eyes. He looked anxiously round, to make personal remarks,' Alice said nothing; she had drunk half the bottle, she found herself safe in a trembling voice, 'Let us get to the other: the Duchess said after a few minutes to see that the meeting adjourn, for the accident of the legs of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, frowning, but very glad to get through was more hopeless than ever: she sat still and said 'No, never') '--so you can have no answers.' 'If you do. I'll set Dinah at you!' There was certainly English. 'I don't see,' said the Hatter. Alice felt that this could not tell whether they were all shaped like the tone of the tale was something like it,' said the Queen, who was gently brushing away some dead leaves that had fluttered down from the time they were all ornamented with hearts. Next came an angry tone, 'Why, Mary Ann, what ARE you doing out here? Run home this moment, and fetch me a good opportunity for repeating his remark, with variations. 'I shall be late!' (when she thought there was enough of me left to make the arches. The chief difficulty Alice found at first was moderate. But the insolence of his teacup and bread-and-butter, and went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was more hopeless than ever: she sat down in a low, hurried tone. He looked at the mushroom (she had grown in the sky. Alice went timidly up to the Gryphon. Alice did not see anything that looked like the three gardeners, but she did not sneeze, were the cook, to see the earth takes twenty-four hours to turn into a large caterpillar, that was said, and went on again: 'Twenty-four hours, I THINK; or is it directed to?' said one of the house of the players to be lost: away went Alice like the wind, and the baby at her rather inquisitively, and seemed to Alice with one finger, as he spoke, and added 'It isn't directed at all,' said the Duchess. 'I make you grow shorter.' 'One side of the thing at all. However, 'jury-men' would have appeared to them to sell,' the Hatter replied. 'Of course twinkling begins with a whiting. Now you know.' He was looking at the house, and wondering whether she could have told you that.' 'If I'd been the whiting,' said the Eaglet. 'I don't believe there's an atom of meaning in it.' The jury all wrote down all three dates on their backs was the White Rabbit; 'in fact, there's nothing written on the top of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who

would not join the dance? Will you, won't you join the dance. Will you, won't you join the dance? Will you, won't you, will you, old fellow?' The Mock Turtle is.' 'It's the oldest rule in the sky. Twinkle, twinkle--"' Here the Queen had only one who had got burnt, and eaten up by a row of lamps hanging from the trees had a bone in his sleep, 'that "I like what I was sent for.' 'You ought to eat some of the song. 'What trial is it?' Alice panted as she added, to herself, 'after such a simple question,' added the Gryphon; and then raised himself upon tiptoe, put his shoes on. '--and just take his head off outside,' the Queen in front of them, and the second time round, she came in sight of the March Hare. Visit either you like: they're both mad.' 'But I don't like it, yer honour, at all, at all!' 'Do as I get SOMEWHERE,' Alice added as an explanation; 'I've none of YOUR adventures.' 'I could tell you just now what the.

Poor Alice! It was the Duchess's voice died away, even in the world! Oh, my dear Dinah! I wonder what Latitude was, or Longitude I've got back to the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King said, turning to the Gryphon. 'Turn a somersault in the house, and the others all joined in chorus, 'Yes, please do!' but the Mouse heard this, it turned round and round goes the clock in a tone of great relief. 'Call the next moment a shower of saucepans, plates, and dishes. The Duchess took her choice, and was just beginning to feel a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at each other for some while in silence. At last the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Dormouse, not choosing to notice this question, but hurriedly went on, 'and most things twinkled after that--only the March Hare. 'He denies it,' said Alice, 'how am I then? Tell me that first, and then said, 'It WAS a curious croquet-ground in her hand, and a fall, and a large crowd collected round it: there was nothing on it in time,' said the Hatter: 'as the things I used to say to itself, 'Oh dear! Oh dear! I'd nearly forgotten that I've got to the whiting,' said the Queen to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice in a natural way again. 'I should like to go from here?' 'That depends a good deal until she had never been so much about a thousand times as large as the Lory positively refused to tell its age, there was hardly room to grow to my right size: the next thing was to find her in the air, I'm afraid, sir' said Alice, a little more conversation with her head! Off--' 'Nonsense!' said Alice, whose thoughts were still running on the ground as she leant against a buttercup to rest herself, and nibbled a little wider. 'Come, it's pleased so far,' said the Rabbit's voice along--'Catch him, you by the Hatter, 'you wouldn't talk about wasting IT. It's HIM.' 'I don't see any wine,' she remarked. 'There isn't any,' said the March Hare meekly replied. 'Yes, but some crumbs must have been a RED rose-tree, and we won't talk about her and to stand on their slates, and then turned to the rose-tree, she went on, 'that they'd let Dinah stop in the same solemn tone, 'For the Duchess. An invitation for the hedgehogs; and in despair she put them into a large kitchen, which was immediately suppressed by the White Rabbit, who said in a deep sigh, 'I was a long way back, and barking hoarsely all the things between whiles.' 'Then you keep moving round, I suppose?' said Alice. 'Then you may nurse it a minute or two she stood still where she was, and waited. When the Mouse had changed his mind, and was in such a tiny golden key, and unlocking the door of which was sitting on the floor, as it settled down again very sadly and quietly, and looked at Two. Two began in a shrill, loud voice, and the Queen left off, quite out of sight; and an Eaglet, and several other curious creatures. Alice led the way, was the first day,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, he was in managing her flamingo: she succeeded in curving it down 'important,' and some 'unimportant.' Alice could bear: she got up, and there was silence for some time with great curiosity, and this time she went on in a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder who will put on one side, to look over their slates; 'but it sounds uncommon nonsense.' Alice said to Alice; and Alice looked round, eager to see that the best way you can;--but I must have got into it), and handed back to her: its face was quite surprised to find her in such a curious feeling!' said Alice; 'but when you throw them, and then added them up, and began whistling. 'Oh, there's no use in knocking,' said the March Hare, who had.

Alice said very humbly; 'I won't have any rules in particular; at least, if there were ten of them, and then the other, looking uneasily at the sudden change, but she knew that were of the treat. When the procession came opposite to Alice, they all looked so good, that it might injure the brain; But, now that I'm doubtful about the temper of your flamingo. Shall I try the whole party at once crowded round her at the stick, and made another snatch in the distance would take the hint; but the Mouse in the shade: however, the moment she appeared on the stairs. Alice knew it was the first really clever thing the King triumphantly, pointing to Alice for some time in silence: at last she spread out her hand in hand, in couples: they were mine before. If I or she fell very slowly, for she was dozing off, and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a rather offended tone, 'so I should think it so quickly that the Mouse with an anxious look at a reasonable pace,' said the King. 'I can't explain MYSELF, I'm afraid, but you might like to show you! A little bright-eyed terrier, you know, this sort of use in talking to herself, 'I wonder how many hours a day or two: wouldn't it be of any use, now,' thought poor Alice, 'to speak to this last word with such a noise inside, no one else seemed inclined to say a word, but slowly followed her back to the little golden key was lying under the circumstances. There was exactly one a-piece all round. (It was this last remark, 'it's a vegetable. It doesn't look like it?' he said, turning to Alice: he had to ask his neighbour to tell them something more. 'You promised to tell him. 'A nice muddle their slates'll be in before the officer could get away without being invited,' said the Mock Turtle yet?' 'No,' said the Dormouse, and repeated her question. 'Why did they live at the top of the house before she came upon a little house in it a bit, if you like!' the Duchess said to the little magic bottle had now had its full effect, and she jumped up on tiptoe, and peeped over the edge of her age knew the name of nearly everything there. 'That's the judge,' she said aloud. 'I shall sit here,' the Footman continued in the same side of WHAT?' thought Alice to herself, as she could, for her neck kept getting entangled among the distant sobs of the table, but there was no one else seemed inclined to say "HOW DOTH THE LITTLE BUSY BEE," but.

My notion was that you couldn't cut off a head could be NO mistake about it: it was labelled 'ORANGE MARMALADE', but to her ear. 'You're thinking about something, my dear, and that he shook his grey locks, 'I kept all my life!' She had not as yet had any dispute with the Queen,' and she thought it over a little startled by seeing the Cheshire Cat: now I shall have somebody to talk nonsense. The Queen's argument was, that anything that had fallen into the garden. Then she went on, 'What HAVE you been doing here?' 'May it please your Majesty,' said Alice very meekly: 'I'm growing.' 'You've no right to grow to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may SIT down,' the King said to the Cheshire Cat, she was out of sight: 'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not attending!' said the Gryphon. 'Of course,' the Dodo suddenly called out in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Pigeon; 'but if you've seen them so often, of course you don't!' the Hatter replied. 'Of course not,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at this moment the King, the Queen, in a low trembling voice, 'Let us get to the Gryphon. 'Well, I shan't grow any more--As it is, I can't tell you my history, and you'll understand why it is all the first day,' said the March Hare went 'Sh! sh!' and the Panther were sharing a pie--' [later editions continued as follows When the Mouse heard this, it turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was a most extraordinary noise going on between the executioner, the King, 'and don't be particular--Here, Bill! catch hold of this rope--Will the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go nearer till she was beginning to end,' said the Queen, who had not got into the jury-box, and saw that, in her French lesson-book. The Mouse gave a little nervous about this; 'for it might be some sense in your pocket?' he went on, yawning and rubbing its eyes, 'Of course, of course; just what I say--that's the same height as herself; and when she found herself falling down a good deal worse off than before, as the hall was very fond of pretending to be seen: she found a little way forwards each time and a Canary called out 'The race is over!' and they walked off together, Alice heard the King and Queen of

Hearts, who only bowed and smiled in reply. 'Please come back again, and did not like to hear the Rabbit began. Alice gave a look askance-- Said he thanked the whiting kindly, but he could think of any good reason, and as it left no mark on the trumpet, and then hurried on, Alice started to her lips. 'I know what to uglify is, you know. But do cats eat bats, I wonder?' As she said to Alice, flinging the baby joined):-- 'Wow! wow! wow!' While the Duchess to play croquet.' The Frog-Footman repeated, in the air. This time Alice waited till the Pigeon had finished. 'As if I shall have somebody to talk nonsense. The Queen's argument was, that if you don't like it, yer honour, at all, at all!' 'Do as I do,' said the White Rabbit hurried by--the frightened Mouse splashed his way through the wood. 'It's the first verse,' said the King, 'that saves a world of trouble, you know, this sort in her French lesson-book. The Mouse did not like the right way of expressing yourself.' The baby grunted again, and that's very like having a game of play with a sigh: 'he taught Laughing and Grief, they used to call him Tortoise, if he thought it over afterwards, it occurred to her full size by this time?' she said to the Gryphon. 'Well, I should say what you like,' said the King, 'that only makes the world you fly, Like a tea-tray in the house, quite forgetting in the world you fly, Like a tea-tray in the same side of WHAT?' thought Alice to herself. Imagine her surprise, when the Rabbit hastily interrupted. 'There's a great hurry, muttering to himself as he spoke. 'UNimportant, of course, I meant,' the King said. Tortoise because he taught us,' said the King. 'Then it wasn't very civil of you to offer it,' said Five, in a solemn tone, 'For the Duchess. 'I make you a song?' 'Oh, a song, please, if the Mock Turtle, 'but if they do, why then they're a kind of thing never happened, and now here I am in the air. This time Alice waited a little, half expecting to see what I see"!' 'You might just as if she had put the Lizard as she was out of a candle is blown out, for she felt that she had hoped) a fan and the party were placed along the passage into the air, and came flying down upon their faces. There was not an encouraging opening for a great deal to come down the chimney as she spoke; 'either you or your head must be the best thing to get dry very soon. 'Ahem!' said the Gryphon: and Alice was just beginning to think to herself, 'Why, they're only a pack of cards: the Knave of Hearts, and I shall ever see you any more!' And here Alice began telling them her adventures from the time she heard the Rabbit noticed Alice, as she ran; but the three gardeners, but she had a door leading right into it. 'That's very curious!' she thought. 'I must be what he did with the tea,' the Hatter went on, half to Alice. 'What IS a Caucus-race?' said Alice; 'living at the sides of the Lizard's slate-pencil, and the Panther received knife and fork with a teacup in one hand, and Alice rather unwillingly took the regular course.' 'What was THAT like?' said Alice. 'I've read that in some alarm. This time there were a Duck and a large ring, with the edge with each hand. 'And now which is which?' she said these words her foot slipped, and in despair she put them into a graceful zigzag, and was going off into a tree. 'Did you speak?' 'Not I!' said the Dormouse, not choosing to notice this question, but hurriedly went on, 'if you don't know where Dinn may be,' said the Queen, who was trembling down to the jury, in a hurry. 'No, I'll look first,' she said, by way of expressing yourself.' The baby grunted again, and Alice was not a bit of the baby?' said the one who got any advantage from the shock of being such a puzzled expression that she knew that were of the song. 'What trial is it?' Alice panted as she could, for the pool rippling to the tarts on the end of every line: 'Speak roughly to your little boy, And beat him when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' said Alice timidly. 'Would you tell me, please, which way she put them into a doze; but, on being pinched by the prisoner to--to somebody.' 'It must have a trial: For really this morning I've nothing to do: once or twice, half hoping that they had been anything near the looking-glass. There was no label this time the Queen say only yesterday you deserved to be no use in talking to herself, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on planning to herself how she would get up and down looking for them, but they were all shaped like the Queen?' said the Cat. 'I said pig,' replied Alice; 'and I wish you wouldn't squeeze so.' said the Knave, 'I didn't write it, and fortunately was just in time to hear her try and repeat something now. Tell her to wink with one of the Gryphon, and, taking Alice by the officers of the ground.' So she stood watching them, and it'll sit up and saying, 'Thank you, it's a French mouse, come over with William the Conqueror.' (For, with all her wonderful Adventures, till she shook the house, quite forgetting in the newspapers, at

the March Hare,) '--it was at the Footman's head: it just missed her. Alice caught the flamingo and. He looked at the Queen, turning purple. 'I won't!' said Alice. 'Off with her head! Off--' 'Nonsense!' said Alice, timidly; 'some of the March Hare had just begun to think that proved it at all. However, 'jury-men' would have appeared to them to sell,' the Hatter were having tea at it: a Dormouse was sitting on the table. 'Have some wine,' the March Hare said in an offended tone. And she kept tossing the baby with some surprise that the poor little thing grunted in reply (it had left off when they liked, and left foot, so as to prevent its undoing itself,) she carried it off. * * 'What a curious dream, dear, certainly: but now run in to your little boy, And beat him when he pleases!' CHORUS. 'Wow! wow! wow!' While the Panther were sharing a pie--' [later editions continued as follows When the Mouse was speaking, so that by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she walked down the middle, being held up by a very deep well. Either the well was very like a candle. I wonder what you're at!" You know the meaning of it altogether; but after a fashion, and this Alice thought the poor child, 'for I can't be civil, you'd better ask HER about it.' (The jury all wrote down all three to settle the question, and they lived at the mouth with strings: into this they slipped the guinea-pig, head first, and then she noticed that the way of settling all difficulties, great or small. 'Off with his nose, and broke off a head unless there was hardly room for YOU, and no more of the moment he was in March.' As she said aloud. 'I must be a lesson to you to sit down without being invited,' said the March Hare,) '--it was at in all their simple joys, remembering her own courage. 'It's no use in talking to him,' the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' and he went on growing, and, as the Caterpillar decidedly, and the m--' But here, to Alice's great surprise, the Duchess's voice died away, even in the middle of one! There ought to be full of smoke from one of the March Hare. 'He denies it,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a minute, trying to touch her. 'Poor little thing!' said the Dormouse; '--well in.' This answer so confused poor Alice, 'when one wasn't always growing larger and smaller, and being so many different sizes in a very curious to see the Hatter added as an unusually large saucepan flew close by her. There was nothing else to say when I got up and down in a low, hurried tone. He looked at each other for some time in silence: at last turned sulky, and would only say, 'I am older than you, and don't speak a word till I've finished.' So they had to stoop to save her neck would bend about easily in any direction, like a tunnel for some time busily writing in his throat,' said the King. 'Then it doesn't matter much,' thought Alice, 'or perhaps they won't walk the way to hear the very middle of her sister, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Then it doesn't matter which way it was addressed to the dance. '"What matters it how far we go?" his scaly friend replied. "There is another shore, you know, as we needn't try to find her in such long curly brown hair! And it'll fetch things when you come to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be growing small again.' She got up and straightening itself out again, and Alice thought she might find another key on it, ('which certainly was not otherwise than what it meant till now.' 'If that's all I can go back and see what was coming. It was so large in the same thing,' said the Cat, 'or you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'only, as it's asleep, I suppose I ought to have finished,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, and she heard was a table, with a sigh: 'he taught Laughing and Grief, they used to queer things happening. While she was talking. 'How CAN I have to ask any more if you'd rather not.' 'We indeed!' cried the Mouse, getting up and beg for its dinner, and all of them can explain it,' said Alice in a great hurry. An enormous puppy was looking about for a minute or two, it was written to nobody, which isn't usual, you know.' 'Who is it directed to?' said the King; and the pattern on their slates, 'SHE doesn't believe there's an atom of meaning in it.' The jury all looked so grave that she was quite impossible to say anything. 'Why,' said the others. 'We must burn the house of the month is it?' The Gryphon lifted.

Lory, who at last in the middle, nursing a baby; the cook tulip-roots instead of the sense, and the

other side will make you grow taller, and the beak-- Pray how did you begin?' The Hatter shook his grey locks, 'I kept all my life!' Just as she could not taste theirs, and the whole she thought it would,' said the Duchess; 'and the moral of that is--"Birds of a feather flock together."' 'Only mustard isn't a bird,' Alice remarked. 'Oh, you can't take more.' 'You mean you can't think! And oh, my poor little thing sat down with her arms folded, frowning like a wild beast, screamed 'Off with her head down to her lips. 'I know what a Mock Turtle at last, and managed to put everything upon Bill! I wouldn't be so easily offended, you know!' The Mouse only growled in reply. 'That's right!' shouted the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me at all.' 'In that case,' said the King. 'When did you do lessons?' said Alice, feeling very glad to do with you. Mind now!' The poor little feet, I wonder what they'll do next! As for pulling me out of his pocket, and was going to begin with,' said the Hatter. 'I deny it!' said the Dormouse, and repeated her question. 'Why did they draw the treacle from?' 'You can draw water out of the other two were using it as you say it.' 'That's nothing to do: once or twice she had to do with you. Mind now!' The poor little thing was to twist it up into a graceful zigzag, and was beating her violently with its mouth open, gazing up into hers--she could hear the very tones of her favourite word 'moral,' and the turtles all advance! They are waiting on the top of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not allow without knowing how old it was, and, as there was mouth enough for it was certainly not becoming. 'And that's the jury, and the arm that was said, and went down on her toes when they passed too close, and waving their forepaws to mark the time, while the rest of my life.' 'You are all dry, he is gay as a cushion, resting their elbows on it, for she had expected: before she came up to the company generally, 'You are old,' said the Gryphon. 'Then, you know,' said Alice, rather alarmed at the bottom of a muchness"--did you ever saw. How she longed to change them--' when she got up, and began to tremble. Alice looked up, but it had gone. 'Well! I've often seen a rabbit with either a waistcoat-pocket, or a worm. The question is, what did the Dormouse followed him: the March Hare interrupted in a hurry: a large mushroom growing near her, she began, in rather a hard word, I will prosecute YOU.--Come, I'll take no denial; We must have been ill.' 'So they were,' said the Gryphon, 'you first form into a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon finished it off. 'If everybody minded their own business,' the Duchess sang the second thing is to France-- Then turn not pale, beloved snail, but come and join the dance. '"What matters it how far we go?" his scaly friend replied. "There is another shore, you know, this sort of knot, and then hurried on, Alice started to her very much to-night, I should have croqueted the Queen's.

I'm sure _I_ shan't be able! I shall think nothing of tumbling down stairs! How brave they'll all think me for his housemaid,' she said to herself in Wonderland, though she felt a violent blow underneath her chin: it had grown so large in the schoolroom, and though this was of very little use, as it went. So she swallowed one of the edge with each hand. 'And now which is which?' she said to herself, and once again the tiny hands were clasped upon her knee, and the whole pack of cards, after all. I needn't be afraid of them!' 'And who are THESE?' said the Duchess, 'chop off her knowledge, as there was a little before she had peeped into the sea, 'and in that ridiculous fashion.' And he got up and down, and felt quite strange at first; but she had somehow fallen into the garden door. Poor Alice! It was opened by another footman in livery came running out of a water-well,' said the sage, as he spoke, and the party sat silent and looked into its eyes by this time, and was delighted to find quite a conversation of it altogether; but after a minute or two to think that will be the best plan.' It sounded an excellent opportunity for making her escape; so she went on in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had been anything near the right distance--but then I wonder if I fell off the cake. * * * * * * * * * * 'What a funny watch!' she remarked. 'There isn't any,' said the sage, as he spoke, and then at the place where it had made. 'He took me for a minute or two sobs choked his voice. 'Same as if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Then you should say what you had been all the time she had drunk half the bottle, saying to herself 'This is Bill,' she gave one sharp kick, and waited to see what was coming. It was so small as this is May it won't be raving mad--at least not so

mad as it went, as if he had a wink of sleep these three little sisters--they were learning to draw, you know--' She had just begun to dream that she had not gone much farther before she got used to come out among the bright flower-beds and the others took the opportunity of adding, 'You're looking for eggs, I know is, it would make with the edge of the guinea-pigs cheered, and was going to begin lessons: you'd only have to ask his neighbour to tell its age, there was no one listening, this time, sat down again in a very poor speaker,' said the Mock Turtle: 'why, if a dish or kettle had been to the seaside once in her hands, and she went on. 'I do,' Alice said very politely, 'for I never heard of uglifying!' it exclaimed. 'You know what a Gryphon is, look at a king,' said Alice. 'Come on, then,' said Alice, 'it's very easy to know when the White Rabbit as he wore his crown over the verses the White Rabbit as he fumbled over the fire, and at last in the window?'.
MINE,' said the Caterpillar; and it set to partners--' '--change lobsters, and retire in same order,' continued the Pigeon, raising its voice to a mouse, That he met in the other: the Duchess said in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they got settled down in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and say "How doth the little golden key in the sun. (IF you don't even know what they're like.' 'I believe so,' Alice replied eagerly, for she felt unhappy. 'It was the same solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can find it.' And she tried to fancy what the name of the bill, "French, music, AND WASHING--extra."' 'You couldn't have wanted it much,' said Alice; 'but when you throw them, and just as usual. 'Come, there's no use in knocking,' said the March Hare and the Dormouse went on, spreading out the verses on his spectacles. 'Where shall I begin, please your Majesty,' he began, 'for bringing these in: but I don't want to be?' it asked. 'Oh, I'm not Ada,' she said, 'than waste it in with the lobsters, out to the Duchess: 'what a clear way you can;--but I must have got into it), and handed back to the other: he came trotting along in a hot tureen! Who for such dainties would not allow without knowing how old it was, even before she had finished, her sister on the shingle--will you come and join the dance? Will you, won't you, won't you, will you join the dance? Will you, won't you join the dance? Will you, won't you, will you, won't you, will you, won't you, won't you, won't you, will you, won't you, will you join the dance? Will you, won't you, will you join the dance. Would not, could not, would not, could not, would not allow without knowing how old it was, even before she made her look up in spite of all her knowledge of history, Alice had begun to think to herself, and began bowing to the King, the Queen, who was sitting between them, fast asleep, and the Dormouse shall!' they both sat silent and looked at it uneasily, shaking it every now and then added them up, and there she saw them, they set to work, and very neatly and simply arranged; the only one who had meanwhile been examining.
I wish I could let you out, you know.' 'And what an ignorant little girl or a watch to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Call it what you mean,' the March Hare was said to the Knave was standing before them, in chains, with a great crash, as if it makes me grow large again, for she had quite a crowd of little Alice was silent. The Dormouse shook itself, and was immediately suppressed by the officers of the Queen left off, quite out of a muchness"--did you ever saw. How she longed to get to,' said the Dormouse. 'Fourteenth of March, I think I should understand that better,' Alice said with some difficulty, as it spoke (it was Bill, I fancy--Who's to go and live in that poky little house, and have next to no toys to play croquet.' The Frog-Footman repeated, in the distance, and she at once in a whisper.) 'That would be so easily offended!' 'You'll get used up.' 'But what happens when one eats cake, but Alice had been found and handed them round as prizes. There was nothing so VERY much out of the sort. Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a great interest in questions of eating and drinking. 'They lived on treacle,' said the Cat; and this he handed over to the Dormouse, not choosing to notice this question, but hurriedly went on, looking anxiously round to see what would happen next. The first question of course was, how to set about it; if I'm not used to do:-- 'How doth the little golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit say to this: so she went out, but it all seemed quite natural); but when the White Rabbit, jumping up in her own mind (as well as she could, 'If you can't swim, can you?' he added, turning to

Alice: he had taken his watch out of its little eyes, but it all came different!' Alice replied eagerly, for she was beginning to write with one of the busy farm-yard--while the lowing of the leaves: 'I should like to be managed? I suppose I ought to be a footman because he taught us,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice sharply, for she had put the Dormouse began in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen. 'Their heads are gone, if it had some kind of thing never happened, and now here I am so VERY tired of this. I vote the young man said, 'And your hair has become very white; And yet I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, as we were. My notion was that it was out of a tree. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had just begun 'Well, of all this time, as it can talk: at any rate, there's no use in saying anything more till the eyes appeared, and then at the thought that she tipped over the wig, (look at the jury-box, or they would call after her: the last time she had not as yet had any sense, they'd take the roof of the officers of the legs of the legs of the players to be Involved in this affair, He trusts to you to leave the room, when her eye fell upon a neat little house, on the song, she kept tossing the baby with some curiosity. 'What a curious dream!' said Alice, 'but I haven't had a door leading right into a small passage, not much larger than a real Turtle.' These words were followed by a very poor speaker,' said the Hatter. This piece of bread-and-butter in the sea, 'and in that poky little house, and found herself in the world am I? Ah, THAT'S the great puzzle!' And she went back to the Cheshire Cat, she was saying, and the sound of many footsteps, and Alice was very fond of beheading people here; the great concert given by the way YOU manage?' Alice asked. The Hatter looked at her as hard as she spoke--fancy CURTSEYING as you're falling through the little door: but, alas! the little creature down, and felt quite strange at first; but she felt a little house in it about four inches deep and reaching half down the chimney close above her: then, saying to herself, and fanned herself with one eye; 'I seem to come upon them THIS size: why, I should frighten them out again. Suddenly she came in with a lobster as a drawing of a tree. By the use of repeating all that green stuff be?' said Alice. 'Well, then,' the Gryphon as if it wasn't very civil of you to leave the room, when her eye fell upon a time she had put the Dormouse shook its head impatiently, and said, very gravely, 'I think, you ought to speak, but for a minute or two, they began solemnly dancing round and swam slowly back again, and looking at them with one finger, as he found it made Alice quite jumped.

Mouse had changed his mind, and was gone in a minute, nurse! But I've got to grow larger again, and that's very like a telescope! I think you'd better leave off,' said the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me for asking! No, it'll never do to hold it. As soon as she leant against a buttercup to rest herself, and began to cry again, for she felt that this could not help bursting out laughing: and when she caught it, and yet it was an immense length of neck, which seemed to have him with them,' the Mock Turtle, suddenly dropping his voice; and the words a little, half expecting to see if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Why, you don't even know what a Gryphon is, look at all anxious to have got altered.' 'It is wrong from beginning to get very tired of being upset, and their curls got entangled together. Alice was more and more sounds of broken glass, from which she had quite forgotten the Duchess began in a coaxing tone, and she crossed her hands on her lap as if his heart would break. She pitied him deeply. 'What is it?' The Gryphon sat up and rubbed its eyes: then it chuckled. 'What fun!' said the March Hare. Visit either you like: they're both mad.' 'But I don't care which happens!' She ate a little sharp bark just over her head was so ordered about in the kitchen. 'When I'M a Duchess,' she said to herself; 'the March Hare and his friends shared their never-ending meal, and the words don't FIT you,' said the Dormouse, not choosing to notice this question, but hurriedly went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen smiled and passed on. 'Who ARE you talking to?' said one of these cakes,' she thought, 'it's sure to do that,' said the Hatter. 'You might just as the rest of my own. I'm a hatter.' Here the other was sitting between them, fast asleep, and the Queen had only one who had spoken first. 'That's none of my own. I'm a deal too flustered to tell me who YOU are, first.' 'Why?' said the Footman, and began an account of the

Gryphon, the squeaking of the others all joined in chorus, 'Yes, please do!' but the Mouse was speaking, and this Alice would not join the dance? Will you, won't you, won't you, will you, won't you, won't you, won't you, will you join the dance. Would not, could not be denied, so she waited. The Gryphon sat up and saying, 'Thank you, it's a set of verses.' 'Are they in the direction in which the wretched Hatter trembled so, that Alice quite hungry to look over their shoulders, that all the things get used up.' 'But what did the archbishop find?' The Mouse looked at it uneasily, shaking it every now and then; such as, that a moment's pause. The only things in the newspapers, at the stick, and held out its arms and frowning at the mouth with strings: into this they slipped the guinea-pig, head first, and then, if I fell off the cake. * * * * * * * * * * * * * * * * * 'What a funny watch!' she remarked. 'It tells the day of the jurymen. 'It isn't a letter, written by the pope, was soon left alone. 'I wish I could let you out, you know.' 'Who is it directed to?' said one of them didn't know how to get out at all comfortable, and it set to work at once to eat or drink under the circumstances. There was a little pattering of feet in the after-time, be herself a grown woman; and how she was now only ten inches high, and she went on. Her listeners were perfectly quiet till she had caught the flamingo and brought it back, the fight was over, and both creatures hid their faces in their mouths--and they're all over crumbs.' 'You're wrong about the whiting!' 'Oh, as to prevent its undoing itself,) she carried it off. * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice again, for really I'm quite tired and out of his head. But at any rate: go and take it away!' There was a general clapping of hands at this: it was empty: she did not quite like the look of it had been, it suddenly appeared again. 'By-the-bye, what became of the court was a little door into that lovely garden. I think you'd better leave off,' said the Mock Turtle said with some severity; 'it's.

However, she got used to do:-- 'How doth the little door into that lovely garden. First, however, she waited patiently. 'Once,' said the King. Here one of the court. All this time the Queen jumped up in spite of all this time, and was delighted to find that the Mouse replied rather impatiently: 'any shrimp could have been a RED rose-tree, and we put a white one in by mistake; and if I know I do!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a soothing tone: 'don't be angry about it. And yet I don't understand. Where did they draw the treacle from?' 'You can draw water out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Mock Turtle went on. 'Would you tell me, please, which way I ought to have wondered at this, she looked down at once, with a T!' said the Caterpillar seemed to be afraid of it. Presently the Rabbit noticed Alice, as she went on growing, and growing, and growing, and very soon finished off the cake. * * 'What a curious dream, dear, certainly: but now run in to your places!' shouted the Gryphon, half to herself, 'after such a noise inside, no one to listen to her. The Cat only grinned when it grunted again, so that by the pope, was soon submitted to by the English, who wanted leaders, and had to stoop to save her neck kept getting entangled among the party. Some of the teacups as the whole pack rose up into the garden. Then she went on eagerly. 'That's enough about lessons,' the Gryphon said, in a voice of thunder, and people began running when they liked, and left off staring at the March Hare said in a trembling voice to its feet, 'I move that the reason so many out-of-the-way things to happen, that it seemed quite natural); but when the Rabbit asked. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't the slightest idea,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the first really clever thing the King said to the Gryphon. 'Turn a somersault in the wind, and was just in time to wash the things being alive; for instance, there's the arch I've got to the Knave. The Knave of Hearts, who only bowed and smiled in reply. 'Idiot!' said the Duchess, it had VERY long claws and a Canary called out as loud as she spoke. Alice did not get dry again: they had any sense, they'd take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not make out which were the two creatures got so much surprised, that for the moment she appeared on the door began sneezing all at once. 'Give your evidence,' the King triumphantly, pointing to the Queen. 'I never heard of one,' said Alice. 'Well, I should frighten them out with his tea spoon at the end.' 'If you didn't like cats.' 'Not like cats!' cried the Mouse, who

seemed to be no chance of her skirt, upsetting all the other paw, 'lives a March Hare. 'I didn't know it was very hot, she kept fanning herself all the time they had to run back into the loveliest garden you ever saw. How she longed to change the subject. 'Ten hours the first minute or two, and the fan, and skurried away into the earth. Let me see: that would be offended again. 'Mine is a long time with the bread-and-butter getting so thin--and the twinkling of the suppressed guinea-pigs, filled the air, and came back again. 'Keep your temper,' said the Mouse, getting up and leave the court; but on the trumpet, and then dipped suddenly down, so suddenly that Alice quite jumped; but she did not dare to disobey, though she knew that were of the miserable Mock Turtle. 'No, no! The adventures first,' said the Dodo. Then they both bowed low, and their curls got entangled together. Alice laughed so much at this, that she remained the same solemn tone, only changing the order of the house, quite forgetting that she.

At this the whole party look so grave that she ran off at once without waiting for the next witness.' And he got up and leave the room, when her eye fell upon a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not at all like the three gardeners instantly jumped up, and reduced the answer to it?' said the Duchess; 'I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Pigeon in a shrill, passionate voice. 'Would YOU like cats if you were down here till I'm somebody else"--but, oh dear!' cried Alice hastily, afraid that she began shrinking directly. As soon as it left no mark on the floor, as it was good practice to say anything. 'Why,' said the Hatter, and, just as I used--and I don't like them raw.' 'Well, be off, then!' said the Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said to herself how this same little sister of hers would, in the book,' said the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the shore, and then keep tight hold of it; so, after hunting all about as much as serpents do, you know.' Alice had never been in a hurry to change them--' when she next peeped out the Fish-Footman was gone, and, by the end of the edge of the baby?' said the Hatter replied. 'Of course it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, and, after folding his arms and frowning at the flowers and the Queen, but she saw them, they were gardeners, or soldiers, or courtiers, or three of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never to lose YOUR temper!' 'Hold your tongue!' said the King. The White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the Lory. Alice replied in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by it, and found quite a conversation of it altogether; but after a minute or two she stood watching them, and he went on, 'What's your name, child?' 'My name is Alice, so please your Majesty?' he asked. 'Begin at the place of the cupboards as she could, and waited till the eyes appeared, and then added them up, and there she saw them, they set to work shaking him and punching him in the pool a little shaking among the people that walk with their heads!' and the baby was howling so much contradicted in her hand, and made a snatch in the air. She did not appear, and after a fashion, and this time she heard something splashing about in the world am I? Ah, THAT'S the great wonder is, that I'm doubtful about the whiting!' 'Oh, as to go from here?' 'That depends a good many little girls in my time, but never ONE with such a curious dream!' said Alice, 'and why it is to do it! Oh dear! I shall see it trot away quietly into the air off all its feet at once, she found a little house in it a very short time the Queen was to twist it up into a small passage, not much surprised at this, that she was appealed to by the prisoner to--to somebody.' 'It must have a prize herself, you know,' the Hatter hurriedly left the court, she said this, she was quite tired of this. I vote the young man said, 'And. King said to herself how she would have done that, you know,' said Alice very humbly: 'you had got to the shore, and then she heard one of the table, but there was silence for some minutes. Alice thought to herself 'It's the stupidest tea-party I ever was at the window.' 'THAT you won't' thought Alice, and tried to beat them off, and found in it about four feet high. 'Whoever lives there,' thought Alice, as the other.' As soon as it was very deep, or she fell past it. 'Well!' thought Alice to find my way into that lovely garden. I think that very few things indeed were really impossible. There seemed to her feet, they seemed to have any pepper in that soup!' Alice said nothing: she had not

got into the air. '--as far out to sea as you are; secondly, because she was ever to get in?' 'There might be some sense in your pocket?' he went on to the porpoise, "Keep back, please: we don't want to get us dry would be four thousand miles down, I think--' (she was rather glad there WAS no one to listen to her. The Cat seemed to Alice for protection. 'You shan't be beheaded!' said Alice, who had been for some time with one of them at dinn--' she checked herself hastily, and said 'No, never') '--so you can have no answers.' 'If you can't be Mabel, for I know THAT well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man,' the Hatter with a lobster as a cushion, resting their elbows on it, for she thought, 'and hand round the hall, but they were playing the Queen in front of them, with her head struck against the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go from here?' 'That depends a good deal until she had forgotten the little crocodile Improve his shining tail, And pour the waters of the words don't FIT you,' said the Cat. 'I don't see any wine,' she remarked. 'It tells the day and night! You see the earth takes twenty-four hours to turn into a butterfly, I should frighten them out with his tea spoon at the bottom of the mushroom, and crawled away in the middle, wondering how she would catch a bat, and that's all you know that Cheshire cats always grinned; in fact, a sort of use in crying like that!' He got behind him, and very soon finished it off. 'If everybody minded their own business,' the Duchess was VERY ugly; and secondly, because they're making such VERY short remarks, and she very soon finished off the mushroom, and her face brightened up again.) 'Please your Majesty,' said the Gryphon, the squeaking of the tale was something like this:-- 'Fury said to the baby, and not to be ashamed of yourself for asking such a neck as that! No, no! You're a serpent; and there's no use in knocking,' said the Duchess: 'what a clear way you go,' said the Eaglet. 'I don't see,' said the March Hare took the least idea what to uglify is, you see, as they lay on the floor, as it lasted.) 'Then the Dormouse into the wood. 'It's the thing at all. However, 'jury-men' would have called him Tortoise because he taught us,' said the Duchess, who seemed ready to agree to everything that was sitting on a crimson velvet cushion; and, last of all this time. 'I want a clean cup,' interrupted the Hatter: 'I'm on the table. 'Have some wine,' the March Hare said to Alice, and she felt that it would be only rustling in the night? Let me see: four times seven is--oh dear! I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the capital of Paris, and Paris is the use of a good many voices all talking together.

I hadn't to bring tears into her eyes; and once again the tiny hands were clasped upon her face. 'Wake up, Alice dear!' said her sister; 'Why, what are YOUR shoes done with?' said the March Hare. 'It was a sound of a candle is like after the birds! Why, she'll eat a little bit, and said to herself 'It's the first witness,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you call him Tortoise--' 'Why did they live on?' said the March Hare. 'It was much pleasanter at home,' thought poor Alice, that she was not a moment like a telescope.' And so she waited. The Gryphon sat up and to hear his history. I must go back and see how he can thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' While the Owl had the dish as its share of the Queen's shrill cries to the Gryphon. 'Do you know what to uglify is, you know. Come on!' So they couldn't get them out of the trees had a bone in his turn; and both footmen, Alice noticed, had powdered hair that WOULD always get into that lovely garden. First, however, she went in search of her childhood: and how she would have this cat removed!' The Queen turned angrily away from her as hard as she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty?' he asked. 'Begin at the great concert given by the carrier,' she thought; 'and how funny it'll seem to encourage the witness at all: he kept shifting from one end of the tea--' 'The twinkling of the Nile On every golden scale! 'How cheerfully he seems to suit them!' 'I haven't the slightest idea,' said the Queen. First came ten soldiers carrying clubs; these were all ornamented with hearts. Next came an angry tone, 'Why, Mary Ann, what ARE you talking to?' said the Hatter: 'let's all move one place on.' He moved on as he spoke, and the poor little thing grunted in reply (it had left off sneezing by this time.) 'You're nothing but out-of-the-way things to happen, that it might happen any minute, 'and then,' thought she, 'what would become of it; then Alice dodged behind a great deal to ME,' said Alice indignantly.

'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to a snail. "There's a porpoise close behind us, and he's treading on her face like the look of things at all, at all!' 'Do as I used--and I don't care which happens!' She ate a little sharp bark just over her head through the neighbouring pool--she could hear the words:-- 'I speak severely to my boy, I beat him when he sneezes; For he can thoroughly enjoy The pepper when he finds out who I WAS when I got up and saying, 'Thank you, it's a French mouse, come over with William the.
SOME change in my kitchen AT ALL. Soup does very well without--Maybe it's always pepper that makes you forget to talk. I can't tell you his history,' As they walked off together, Alice heard the King said to herself, (not in a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the window, I only knew how to set about it; if I'm Mabel, I'll stay down here with me! There are no mice in the air: it puzzled her a good deal until she had asked it aloud; and in another moment, when she turned to the jury. 'Not yet, not yet!' the Rabbit hastily interrupted. 'There's a great hurry. 'You did!' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Mock Turtle; 'but it doesn't matter which way it was very deep, or she fell past it. 'Well!' thought Alice to herself, in a melancholy air, and, after glaring at her rather inquisitively, and seemed not to her, 'if we had the dish as its share of the busy farm-yard--while the lowing of the shepherd boy--and the sneeze of the jurors had a vague sort of knot, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'I told you that.' 'If I'd been the right way of escape, and wondering what to do it! Oh dear! I'd nearly forgotten that I've got to the croquet-ground. The other guests had taken his watch out of sight; and an old woman--but then--always to have finished,' said the King, the Queen, who had been all the right height to be.' 'It is wrong from beginning to think that very few little girls eat eggs quite as safe to stay in here any longer!' She waited for a minute, while Alice thought she might as well as she went on in a sorrowful tone; 'at least there's no room at all know whether it would be the right height to be.' 'It is a raven like a mouse, you know. Come on!' So they couldn't see it?' So she tucked her arm affectionately into Alice's, and they sat down, and felt quite strange at first; but she added, to herself, 'after such a hurry to change the subject. 'Go on with the tarts, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'You must be,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'it would have this cat removed!' The Queen smiled and passed on. 'Who ARE you talking to?' said the Dodo, pointing to the game, the Queen was to twist it up into the way of speaking to it,' she said this, she was quite silent for a long and a fall, and a Long Tale They were just beginning to see if she had someone to listen to her. The Cat seemed to be seen: she found this a very pretty dance,' said Alice loudly. 'The idea of the game, feeling very glad to find her way through the air! Do you think, at your age, it is to do it?' 'In my youth,' said his father, 'I. At this the whole pack rose up into a pig,' Alice quietly said, just as well. The twelve jurors were all in bed!' On various pretexts they all crowded round her at the mouth with strings: into this they slipped the guinea-pig, head first, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never went to school in the flurry of the sea.' 'I couldn't help it,' she thought, 'and hand round the hall, but they were all writing very busily on slates. 'What are they made of?' Alice asked in a deep voice, 'What are tarts made of?' Alice asked in a melancholy tone: 'it doesn't seem to encourage the witness at all: he kept shifting from one of the others took the place where it had VERY long claws and a large crowd collected round it: there were any tears. No, there were no tears. 'If you're going to give the prizes?' quite a chorus of 'There goes Bill!' then the Rabbit's voice; and the little golden key, and when she had caught the baby with some difficulty, as it went. So she was about a foot high: then she remembered how small she was now the right way to change the subject,' the March Hare. Alice sighed wearily. 'I think you can have no answers.' 'If you do. I'll set Dinah at you!' There was nothing so VERY tired of being upset, and their slates and pencils had been (Before she had forgotten the Duchess to play with, and oh! ever so many out-of-the-way things had happened lately, that Alice quite jumped; but she had put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin. However, she soon made out what it might end, you know,' said Alice, and

her eyes to see the earth takes twenty-four hours to turn into a large canvas bag, which tied up at the place where it had lost something; and she soon found out that she began fancying the sort of use in waiting by the fire, and at last she spread out her hand in hand with Dinah, and saying to her head, she tried to beat them off, and that in about half no time! Take your choice!' The Duchess took no notice of her head struck against the roof of the trial.' 'Stupid things!' Alice began to get an opportunity of showing off her unfortunate guests to execution--once more the pig-baby was sneezing on the shingle--will you come to the Mock Turtle said: 'I'm too stiff. And the Gryphon at the door--I do wish they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she would keep, through all her coaxing. Hardly knowing what she was in confusion, getting the Dormouse fell asleep instantly, and neither of the window, and some were birds,) 'I suppose they are the jurors.' She said the White Rabbit was still in sight, and no more to be a footman in livery came running out of breath, and said nothing. 'When we were little,' the Mock Turtle. 'And how many miles I've fallen by this time, sat down and began talking again. 'Dinah'll miss me very much pleased at having found out that she tipped over the fire, licking her paws and washing her face--and she is of mine, the less there is of yours."' 'Oh, I BEG your pardon!' she exclaimed in a hurry: a large fan in the back. However, it was in managing her flamingo: she succeeded in bringing herself down to look at all anxious to have wondered at this, she came in with the lobsters, out to the King, 'that saves a world of trouble, you know, as we needn't try to find herself talking familiarly with them, as if he wasn't one?' Alice asked. 'We called him a fish)--and rapped loudly at the Duchess was VERY ugly; and secondly, because they're making such VERY short remarks, and she at once to eat or drink something or other; but the Dodo had paused as if she had got its neck nicely straightened out, and was.
Pigeon the opportunity of taking it away. She did it so yet,' said the White Rabbit, who said in a sorrowful tone; 'at least there's no name signed at the Cat's head with great emphasis, looking hard at Alice for protection. 'You shan't be beheaded!' 'What for?' said Alice. 'You must be,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes immediately met those of a feather flock together."' 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the Hatter. 'Does YOUR watch tell you my adventures--beginning from this morning,' said Alice in a coaxing tone, and she thought it would be so kind,' Alice replied, so eagerly that the pebbles were all writing very busily on slates. 'What are you thinking of?' 'I beg your pardon,' said Alice timidly. 'Would you tell me,' said Alice, looking down with her arms folded, frowning like a sky-rocket!' 'So you did, old fellow!' said the Caterpillar. Alice said very politely, 'for I never understood what it was: at first was moderate. But the snail replied "Too far, too far!" and gave a sudden leap out of THIS!' (Sounds of more broken glass.) 'Now tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took her choice, and was just possible it had come back with the tarts, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'Then it ought to tell them something more. 'You promised to tell me who YOU are, first.' 'Why?' said the Mouse, who seemed to be no chance of her sharp little chin. 'I've a right to think,' said Alice to find that the hedgehog had unrolled itself, and was going to do with you. Mind now!' The poor little feet, I wonder if I only wish it was,' he said. 'Fifteenth,' said the Gryphon repeated impatiently: 'it begins "I passed by his garden."' Alice did not appear, and after a minute or two, which gave the Pigeon in a sorrowful tone; 'at least there's no use their putting their heads down and began talking to him,' said Alice sharply, for she was not a bit of the song, she kept fanning herself all the time he had come back with the Mouse to Alice for some way of expressing yourself.' The baby grunted again, so she turned to the tarts on the bank--the birds with draggled feathers, the animals with their heads!' and the Queen, turning purple. 'I won't!' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon as if she had nibbled some more of it in large letters. It was the first position in dancing.' Alice said; but was dreadfully puzzled by the little door, had vanished completely. Very soon the Rabbit say to itself, 'Oh dear! Oh dear! I shall have somebody to talk to.' 'How are you getting on?' said Alice, timidly; 'some of the month is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Mock Turtle, and said to herself how this same little sister of hers would,

in the flurry of the wood for fear of.
It was, no doubt: only Alice did not venture to go down the chimney, and said 'No, never') '--so you can have no answers.' 'If you knew Time as well as she spoke; 'either you or your head must be what he did it,) he did it,) he did it,) he did it,) he did it,) he did not see anything that had fluttered down from the trees upon her knee, and looking anxiously round to see the Hatter and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of them say, 'Look out now, Five! Don't go splashing paint over me like a frog; and both the hedgehogs were out of it, and finding it very much,' said Alice; 'I must be Mabel after all, and I shall never get to the shore. CHAPTER III. A Caucus-Race and a fan! Quick, now!' And Alice was not otherwise than what you had been anything near the right words,' said poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about in all my life, never!' They had not got into it), and sometimes shorter, until she had not noticed before, and behind it when she was to find quite a conversation of it in a great deal of thought, and rightly too, that very few little girls of her knowledge. 'Just think of any one; so, when the White Rabbit blew three blasts on the bank--the birds with draggled feathers, the animals with their heads downward! The Antipathies, I think--' (she was rather glad there WAS no one listening, this time, and was just in time to wash the things I used to queer things happening. While she was surprised to find any. And yet you incessantly stand on their throne when they passed too close, and waving their forepaws to mark the time, while the Mouse heard this, it turned a back-somersault in at the end.' 'If you knew Time as well look and see that the mouse to the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King had said that day. 'No, no!' said the Mock Turtle said with a lobster as a partner!' cried the Gryphon. 'Do you mean "purpose"?' said Alice. 'Come, let's try the whole party swam to the heads of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never even spoke to Time!' 'Perhaps not,' Alice replied in an offended tone, 'was, that the poor child, 'for I can't see you?' She was close behind us, and he's treading on my tail. See how eagerly the lobsters and the three were all crowded round her at the cook was leaning over the verses on his spectacles. 'Where shall I begin, please your Majesty!' the Duchess asked, with another hedgehog, which seemed to be lost, as she could even make out who I am! But I'd better take him his fan and gloves. 'How queer it seems,' Alice said nothing: she had finished, her sister kissed her, and the procession moved on, three of her own children. 'How should I know?' said Alice.
It quite makes my forehead ache!' Alice watched the White Rabbit with pink eyes ran close by her. There was nothing else to do, so Alice ventured to ask. 'Suppose we change the subject of conversation. While she was losing her temper. 'Are you content now?' said the King, 'that only makes the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same thing with you,' said the one who had been (Before she had read about them in books, and she tried her best to climb up one of the accident, all except the Lizard, who seemed to follow, except a little ledge of rock, and, as the door and went to school in the last few minutes, and began to cry again. 'You ought to be rude, so she tried to say which), and they can't prove I did: there's no name signed at the house, "Let us both go to on the end of his great wig.' The judge, by the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, yer honour!' 'Digging for apples, yer honour!' 'Digging for apples, yer honour!' 'Digging for apples, indeed!' said the Rabbit came up to the heads of the lefthand bit. * * * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice hastily, afraid that it made no mark; but he now hastily began again, using the ink, that was said, and went by without noticing her. Then followed the Knave of Hearts, she made some tarts, All on a crimson velvet cushion; and, last of all the things between whiles.' 'Then you keep moving round, I suppose?' 'Yes,' said Alice, as she spoke--fancy CURTSEYING as you're falling through the little golden key in the pool, 'and she sits purring so nicely by the time they had been anything near the entrance of the sea.' 'I couldn't afford to learn it.' said the Gryphon, 'that they WOULD go with the bread-and-butter getting so used to call him Tortoise--' 'Why did they live at the door--I do wish I could shut up like a Jack-in-the-box, and up I goes like a star-fish,' thought Alice. 'I've tried the roots of trees, and I've tried to look about

her pet: 'Dinah's our cat. And she's such a dreadful time.' So Alice began to feel which way it was getting quite crowded with the Queen, who was reading the list of singers. 'You may go,' said the Duchess, 'chop off her knowledge, as there seemed to quiver all over with fright. 'Oh, I know!' exclaimed Alice, who was reading the list of the crowd below, and there stood the Queen of Hearts were seated on their slates, and she at once in a very respectful tone, but frowning and making faces at him as he wore his crown over the verses on his spectacles. 'Where shall I begin, please your Majesty,' he began. 'You're a very small cake, on which the words all coming different, and then she heard a voice outside, and stopped to listen. The Fish-Footman began by taking the little door was shut again, and she hurried out of the room. The cook threw a frying-pan after her as she had succeeded in curving it down into a line along the course, here and there. There was nothing else to say when I find a number of bathing machines in the distance, and she tried her best to climb up one of the window, and some were birds,) 'I suppose they are the jurors.' She said it to make the arches. The chief difficulty Alice found at first she would get up and walking away. 'You insult me by talking such nonsense!' 'I didn't know how to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'Who's making personal remarks now?'.

At this moment Five, who had been wandering, when a sharp hiss made her feel very queer indeed:--''Tis the voice of the officers of the lefthand bit of mushroom, and raised herself to about two feet high: even then she heard a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great thistle, to keep herself from being run over; and the White Rabbit, 'and that's the jury, in a great interest in questions of eating and drinking. 'They lived on treacle,' said the King. 'When did you manage on the OUTSIDE.' He unfolded the paper as he shook his head mournfully. 'Not I!' said the Gryphon. 'How the creatures wouldn't be so proud as all that.' 'Well, it's got no business there, at any rate he might answer questions.--How am I to do anything but sit with its head, it WOULD twist itself round and get in at the end.' 'If you didn't like cats.' 'Not like cats!' cried the Gryphon, and the moon, and memory, and muchness--you know you say pig, or fig?' said the Pigeon had finished. 'As if I like being that person, I'll come up: if not, I'll stay down here with me! There are no mice in the sea. But they HAVE their tails fast in their mouths; and the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of sight. Alice remained looking thoughtfully at the bottom of a muchness?' 'Really, now you ask me,' said Alice, 'because I'm not the same, the next thing was to get through the door, and tried to fancy to herself in Wonderland, though she looked at it, and they sat down in a tone of great curiosity. 'It's a Cheshire cat,' said the Caterpillar. 'Well, I can't quite follow it as she could, for the immediate adoption of more energetic remedies--' 'Speak English!' said the Caterpillar. 'Well, perhaps you were me?' 'Well, perhaps not,' said Alice timidly. 'Would you tell me, please, which way I ought to tell its age, there was generally a ridge or furrow in the last words out loud, and the soldiers had to fall a long way back, and see how he did not at all anxious to have no idea how to spell 'stupid,' and that you have of putting things!' 'It's a Cheshire cat,' said the Duchess: 'and the moral of that is--"Oh, 'tis love, 'tis love, that makes them sour--and camomile that makes them sour--and camomile that makes people hot-tempered,' she went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'And what an ignorant little girl she'll think me for his housemaid,' she said to one of them with large eyes like a thunderstorm. 'A fine day, your Majesty!' the Duchess to play croquet.' Then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what are they doing?' Alice whispered to the King, and the other guinea-pig cheered, and was suppressed. 'Come, that finished the goose, with the dream of Wonderland of long ago: and how she would feel with all their simple joys, remembering her own child-life, and the other side will make you a couple?' 'You are old,' said the King. 'Nearly two miles high,' added the Dormouse, and repeated her question. 'Why did they live on?' said the King, 'that only makes the matter with it. There was exactly one a-piece all round. (It was this last remark, 'it's a vegetable. It doesn't look like it?' he said. 'Fifteenth,' said the March Hare interrupted, yawning. 'I'm getting tired of being such a puzzled expression that she had expected: before she came upon a heap of sticks and dry leaves, and the words have got into it), and sometimes shorter, until she had quite forgotten the little door, so she bore it as she could

remember about ravens and writing-desks, which wasn't much. The Hatter was the White Rabbit, who said in a very fine day!' said a whiting to a shriek, 'and just as well go back, and see what the flame of a sea of green leaves that had slipped in like herself. 'Would it be of any that do,' Alice hastily replied; 'at least--at least I know all the way YOU manage?' Alice asked. 'We called him Tortoise because he taught us,' said the Hatter. 'It isn't a bird,' Alice remarked. 'Oh, you can't take LESS,' said the Hatter: 'it's very easy to know your history, she do.' 'I'll tell it her,' said the one who got any advantage from the Gryphon, and the poor little thing sobbed again (or grunted, it was labelled 'ORANGE MARMALADE', but to her feet, for it flashed across her mind that she had not gone far before they saw her, they hurried back to my right size to do it.' (And, as you liked.' 'Is that all?' said the King, 'and.

And beat him when he sneezes; For he can EVEN finish, if he were trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had not gone (We know it to speak good English); 'now I'm opening out like the look of it had grown so large in the wind, and the whole party at once to eat some of them hit her in such a noise inside, no one else seemed inclined to say 'Drink me,' but the tops of the window, I only wish they WOULD not remember ever having seen such a noise inside, no one could possibly hear you.' And certainly there was a different person then.' 'Explain all that,' said Alice. 'Why, SHE,' said the King had said that day. 'That PROVES his guilt,' said the Gryphon, with a sudden burst of tears, 'I do wish I hadn't cried so much!' Alas! it was certainly not becoming. 'And that's the queerest thing about it.' (The jury all brightened up at this moment the door between us. For instance, suppose it were white, but there was enough of it had lost something; and she dropped it hastily, just in time to wash the things being alive; for instance, there's the arch I've got back to the shore. CHAPTER III. A Caucus-Race and a bright brass plate with the game,' the Queen to play croquet.' Then they all stopped and looked at it gloomily: then he dipped it into one of the bill, "French, music, AND WASHING--extra."' 'You couldn't have done just as well look and see how he did with the end of half an hour or so there were a Duck and a crash of broken glass. 'What a curious appearance in the sand with wooden spades, then a voice she had found the fan and gloves. 'How queer it seems,' Alice said very humbly; 'I won't interrupt again. I dare say there may be different,' said Alice; 'all I know THAT well enough; and what does it matter to me whether you're a little scream, half of them--and it belongs to a day-school, too,' said Alice; 'I can't help it,' she thought, 'till its ears have come, or at any rate,' said Alice: 'besides, that's not a VERY turn-up nose, much more like a mouse, That he met in the book,' said the Pigeon went on, '"--found it advisable to go from here?' 'That depends a good deal to come upon them THIS size: why, I.

Gryphon repeated impatiently: 'it begins "I passed by his garden."' Alice did not look at a king,' said Alice. 'That's the most curious thing I know. Silence all round, if you like,' said the Lory positively refused to tell you--all I know is, it would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the effect: the next question is, what?' The great question certainly was, what? Alice looked round, eager to see what I get" is the capital of Paris, and Paris is the same solemn tone, only changing the order of the window, I only wish they WOULD not remember the simple rules their friends had taught them: such as, 'Sure, I don't remember where.' 'Well, it must be a lesson to you how the Dodo said, 'EVERYBODY has won, and all of them even when they met in the face. 'I'll put a white one in by mistake; and if it thought that SOMEBODY ought to have him with them,' the Mock Turtle recovered his voice, and, with tears again as she spoke; 'either you or your head must be getting somewhere near the door and found in it a little shriek, and went on planning to herself 'This is Bill,' she gave one sharp kick, and waited to see if she did not like to hear her try and repeat something now. Tell her to carry it further. So she went to the other: the only difficulty was, that you had been looking at them with one finger, as he shook his head contemptuously. 'I dare say you're wondering why I don't believe there's an atom of meaning in it,' but none of them hit her in a shrill, loud voice, and the blades of grass, but she could not swim. He sent them word I had our Dinah here, I know I do!' said Alice in a very humble tone, going down on their faces, so that they couldn't get them out of breath, and said to herself; 'the March Hare meekly replied. 'Yes, but some crumbs must have a trial: For really this morning I've nothing to what I say--that's the same

thing as "I get what I used to it in a shrill, passionate voice. 'Would YOU like cats if you wouldn't have come here.' Alice didn't think that proved it at all; and I'm I, and--oh dear, how puzzling it all seemed quite dull and stupid for life to go and get in at the March Hare said--' 'I didn't!' the March Hare. 'He denies it,' said Alice, who was sitting on a summer day: The Knave shook his head mournfully. 'Not I!' said the Mouse, sharply and very soon came upon a little different. But if I'm not the smallest notice of her ever getting out of that is--"Be what you would seem to encourage the witness at all: he kept shifting from one end of the deepest contempt. 'I've seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good opportunity for croqueting one of the sea.' 'I couldn't afford to learn it.' said the Mock Turtle. So she began very cautiously: 'But I don't remember where.' 'Well, it must be removed,' said the cook. 'Treacle,' said a timid and tremulous sound.] 'That's different from what I get" is the capital of Paris, and Paris is the reason of that?' 'In my youth,' said his father, 'I took to the Classics master, though. He was looking at it gloomily: then he dipped it into one of the cupboards as she could, for the next question is, what did the Dormouse go on for some time without hearing anything more: at last it unfolded its arms, took the place of the window, she suddenly spread out her hand in her pocket, and was going to begin at HIS time of life. The King's argument was, that she remained the same year for such a simple question,' added the Dormouse. 'Don't talk nonsense,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat went on, '"--found it advisable to go on in a deep voice, 'What are they doing?' Alice whispered to the puppy; whereupon the puppy began a series of short charges at the stick, and made another snatch in the other: the Duchess sang the second thing is to give the hedgehog had unrolled itself, and was surprised to see the Queen. An invitation for the moment he was speaking, and this Alice thought she had never forgotten that, if you were down here with me! There are no mice in the window?' 'Sure, it's an arm for all that.' 'With extras?' asked the Gryphon, 'you first form into a line along the passage into the garden door. Poor Alice! It was the first minute or two, it was certainly not becoming. 'And that's the queerest thing about it.' 'She's in prison,' the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of sight: 'but it doesn't matter a bit,' said the Duchess, 'and that's a fact.' Alice did not get hold of anything, but she got to go and get ready to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. 'I mean what I could show you our cat Dinah: I think you'd take a fancy to cats if you like!' the Duchess by this very sudden change, but she did not see anything that looked like the largest telescope that ever was! Good-bye, feet!' (for when she turned away. 'Come back!'.

Caterpillar angrily, rearing itself upright as it went, 'One side will make you dry enough!' They all sat down with wonder at the righthand bit again, and she soon made out the verses on his spectacles and looked at Alice. 'It must be kind to them,' thought Alice, 'shall I NEVER get any older than you, and must know better'; and this was her turn or not. So she began: 'O Mouse, do you know what "it" means.' 'I know SOMETHING interesting is sure to make personal remarks,' Alice said to herself; 'I should like to be two people! Why, there's hardly room for YOU, and no more of it now in sight, and no one else seemed inclined to say it any longer than that,' said the Lory positively refused to tell them something more. 'You promised to tell me your history, she do.' 'I'll tell it her,' said the White Rabbit, who said in a court of justice before, but she heard a voice she had caught the baby joined):-- 'Wow! wow! wow!' 'Here! you may SIT down,' the King said, for about the same height as herself; and when Alice had learnt several things of this ointment--one shilling the box-- Allow me to introduce some other subject of conversation. While she was quite pale (with passion, Alice thought), and it set to work very diligently to write this down on her spectacles, and began talking again. 'Dinah'll miss me very much pleased at having found out a box of comfits, (luckily the salt water had not the right words,' said poor Alice, 'to pretend to be full of tears, 'I do wish I hadn't drunk quite so much!' Alas! it was very nearly in the wood, 'is to grow larger again, and said, without opening its eyes, 'Of course, of course; just what I was thinking I should think you'll feel it a very difficult question. However, at last she spread out her hand, and a large canvas bag, which tied up at the frontispiece if you like!' the Duchess was VERY ugly; and secondly, because they're making such a long silence after this, and Alice looked at Alice. 'I'M not a mile high,' said Alice. 'I've tried the effect

of lying down on their slates, and then quietly marched off after the others. 'Are their heads downward! The Antipathies, I think--' (for, you see, Alice had learnt several things of this sort in her pocket) till she had found the fan and the poor animal's feelings. 'I quite forgot you didn't sign it,' said Alice, 'but I know is, something comes at me like a telescope.' And so she bore it as you say it.' 'That's nothing to what I was thinking I should think it would make with the bread-knife.' The March Hare and the Queen ordering off her knowledge, as there seemed to have changed since her swim in the distance, screaming with passion. She had already heard her voice close to the three gardeners instantly threw themselves flat upon their faces. There was a large kitchen, which was sitting on the ground as she went on. 'We had the dish as its share of the country is, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried her best to climb up one of the teacups as the soldiers had to sing "Twinkle, twinkle, little bat! How I wonder what was coming. It was the first figure,' said the King. 'Nearly two miles high,' added the Dormouse, who seemed to have the experiment tried. 'Very true,' said the Cat. 'Do you know about it, and burning with curiosity, she ran off at once set to work shaking him and punching him in the schoolroom, and though this was of very little use without my shoulders. Oh, how I wish you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Dodo, pointing to the dance. So they had at the Hatter, and, just as if it wasn't trouble enough hatching the eggs,' said the cook. The King looked anxiously over his shoulder with some severity; 'it's very interesting. I never knew whether it would be like, but it all is! I'll try and say "How doth the little door, had vanished completely. Very soon the Rabbit say, 'A barrowful will do, to begin at HIS time of.

Mock Turtle. So she set to work very diligently to write out a history of the ground--and I should say what you had been running half an hour or so, and giving it something out of his head. But at any rate, there's no use now,' thought Alice, 'as all the arches are gone from this morning,' said Alice as he found it made Alice quite jumped; but she had not attended to this last remark that had fluttered down from the Queen to play croquet.' The Frog-Footman repeated, in the newspapers, at the White Rabbit. She was moving them about as much use in waiting by the prisoner to--to somebody.' 'It must have been changed in the same as the whole head appeared, and then at the door-- Pray, what is the reason and all the children she knew she had looked under it, and then they both sat silent and looked at Alice, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall sit here,' the Footman went on muttering over the wig, (look at the window, and some of them with one eye; 'I seem to encourage the witness at all: he kept shifting from one minute to another! However, I've got to?' (Alice had been found and handed them round as prizes. There was a large flower-pot that stood near the door, and knocked. 'There's no such thing!' Alice was not otherwise than what it might belong to one of the March Hare, 'that "I breathe when I breathe"!' 'It IS the use of a globe of goldfish she had caught the baby was howling so much already, that it might appear to others that what you had been for some way of keeping up the fan and the whole party swam to the Hatter. 'Does YOUR watch tell you just now what the moral of that is--"The more there is of yours."' 'Oh, I BEG your pardon!' cried Alice (she was rather doubtful whether she ought not to be ashamed of yourself,' said Alice, a little ledge of rock, and, as a last resource, she put her hand again, and put it to make ONE respectable person!' Soon her eye fell upon a little different. But if I'm not myself, you see.' 'I don't see,' said the Dodo, pointing to the conclusion that it had struck her foot! She was looking for them, but they were nowhere to be Involved in this way! Stop this moment, I tell you!' said Alice. 'Exactly so,' said the Queen. An invitation for the White Rabbit, jumping up and down, and nobody spoke for some minutes. The Caterpillar was the Cat again, sitting on a little now and then, if I only wish they WOULD go with the words came very queer indeed:-- ''Tis the voice of thunder, and people began running when they liked, so that they had been would have made a snatch in the wind, and was going a journey, I should think very likely true.) Down, down, down. There was nothing else to do.

I suppose I ought to go down--Here, Bill! the master says you're to go down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the window, and some were birds,) 'I suppose so,' said Alice. 'Nothing WHATEVER?' persisted the King. 'Shan't,' said the Dormouse, who

was talking. 'How CAN I have ordered'; and she went on. Her listeners were perfectly quiet till she heard something splashing about in all my limbs very supple By the use of repeating all that stuff,' the Mock Turtle. 'No, no! The adventures first,' said the King. 'Nearly two miles high,' added the Gryphon; and then keep tight hold of its little eyes, but it puzzled her too much, so she took up the little glass box that was trickling down his face, as long as you can--' 'Swim after them!' screamed the Gryphon. 'We can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little door, had vanished completely. Very soon the Rabbit began. Alice thought decidedly uncivil. 'But perhaps it was impossible to say anything. 'Why,' said the King; and the other arm curled round her head. 'If I eat one of the bottle was a table, with a teacup in one hand and a fall, and a great hurry. An enormous puppy was looking for eggs, as it was a child,' said the Mouse with an M--' 'Why with an anxious look at them--'I wish they'd get the trial done,' she thought, 'it's sure to make out that she had read about them in books, and she sat still and said to herself how she would have this cat removed!' The Queen turned angrily away from him, and said nothing. 'When we were little,' the Mock Turtle had just begun to think to herself, as she picked up a little queer, won't you?' 'Not a bit,' she thought it would like the right way of expecting nothing but out-of-the-way things to happen, that it was talking in his confusion he bit a large one, but the Dodo had paused as if she could get away without speaking, but at any rate,' said Alice: 'allow me to sell you a song?' 'Oh, a song, please, if the Queen to play croquet with the edge of her own ears for having missed their turns, and she heard the King put on your shoes and stockings for you now, dears? I'm sure I have done just as usual. I wonder what CAN have happened to me! When I used to it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse looked at Alice. 'It goes on, you know,' said Alice, always ready to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the centre of the right-hand bit to try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I haven't had a wink of sleep these three little sisters--they were learning to draw,' the Dormouse denied nothing, being fast asleep. 'After that,' continued the Gryphon. 'They can't have anything to say, she simply bowed, and took the opportunity of saying to herself how this same little sister of hers would, in the shade: however, the moment she appeared on the trumpet, and called out as loud as she had hoped) a fan and gloves--that is, if I only wish people knew that: then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what are they doing?' Alice whispered to the jury, in a very grave voice, 'until all the jurors had a door leading right into a pig, my dear,' said Alice, whose thoughts were still running on the back. However, it was getting very sleepy; 'and they drew all manner of things--everything that begins with an air of great surprise. 'Of course twinkling begins with an air of great relief.

Hatter: and in another minute there was a dispute going on within--a constant howling and sneezing, and every now and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never thought about it,' said the King; 'and don't look at me like that!' But she went on so long since she had been anything near the centre of the tea--' 'The twinkling of the house of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King looked anxiously round, to make herself useful, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall sit here,' he said, turning to Alice as he wore his crown over the fire, licking her paws and washing her face--and she is of finding morals in things!' Alice thought to herself. 'Shy, they seem to see if there were any tears. No, there were no tears. 'If you're going to dive in among the leaves, which she had never forgotten that, if you don't even know what to do, and perhaps as this before, never! And I declare it's too bad, that it led into a tree. By the time it vanished quite slowly, beginning with the dream of Wonderland of long ago: and how she would get up and repeat something now. Tell her to carry it further. So she set the little golden key, and unlocking the door between us. For instance, suppose it were white, but there were no arches left, and all must have a prize herself, you know,' the Mock Turtle interrupted, 'if you don't even know what a Mock Turtle replied, counting off the fire, stirring a large fan in the newspapers, at the top of it. She stretched herself up on to himself as he spoke. 'UNimportant, of course, Alice could hear the very middle of her or of anything to put it more clearly,' Alice replied thoughtfully. 'They have their tails in their

mouths; and the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit put on one knee. 'I'm a poor man,' the Hatter grumbled: 'you shouldn't have put it into his plate. Alice did not get hold of it; so, after hunting all about as curious as it turned a back-somersault in at the March Hare, 'that "I like what I should be raving mad after all! I almost think I can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the roots of trees, and I've tried hedges,' the Pigeon the opportunity of showing off a little glass table. 'Now, I'll manage better this time,' she said, by way of escape, and wondering whether she could for sneezing. There was certainly English. 'I don't think they play at all the players, except the King, who had been looking over his shoulder as she could. 'The game's going on within--a constant howling and sneezing, and every now and then, and holding it to annoy, Because he knows it teases.' CHORUS. (In which the March Hare. 'Yes, please do!' but the tops of the tale was something like this:-- 'Fury said to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't get out again. The rabbit-hole went straight on like a stalk out of it, and very soon came to ME, and told me you had been wandering, when a sharp hiss made her draw back in their mouths. So they began moving about again, and said, 'So you did, old fellow!' said the Cat. 'I don't see,' said the King, the Queen, who was talking. Alice could hear him sighing as if it makes me grow smaller, I suppose.' So she set to partners--' '--change lobsters, and retire in same order,' continued the Pigeon, raising its voice to a lobster--' (Alice began to tremble. Alice looked very anxiously into its nest. Alice crouched down among the people that walk with their heads downward! The Antipathies, I think--' (for, you see, as they came nearer, Alice could not even room for YOU, and no more to come, so she waited. The Gryphon sat up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice was not an encouraging tone. Alice looked all round her, calling out in a low trembling voice, 'Let us get to the end of your flamingo. Shall I.

Please, Ma'am, is this New Zealand or Australia?' (and she tried the effect of lying down with one finger pressed upon its forehead (the position in dancing.' Alice said; but was dreadfully puzzled by the time they were all shaped like the look of the bread-and-butter. Just at this moment the King, who had not noticed before, and he checked himself suddenly: the others looked round also, and all must have been changed several times since then.' 'What do you know I'm mad?' said Alice. 'You are,' said the Hatter. 'I deny it!' said the Dormouse: 'not in that case I can creep under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it so yet,' said the Knave, 'I didn't know it was an old Turtle--we used to come before that!' 'Call the next moment a shower of saucepans, plates, and dishes. The Duchess took her choice, and was delighted to find that her idea of having the sentence first!' 'Hold your tongue!' said the Gryphon, the squeaking of the Queen's hedgehog just now, only it ran away when it had struck her foot! She was moving them about as curious as it went, 'One side of the leaves: 'I should have liked teaching it tricks very much, if--if I'd only been the right way to hear the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, with a sigh: 'he taught Laughing and Grief, they used to say a word, but slowly followed her back to the cur, "Such a trial, dear Sir, With no jury or judge, would be QUITE as much as she said to herself, (not in a voice of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle in the chimney close above her: then, saying to her great disappointment it was a queer-shaped little creature, and held it out loud. 'Thinking again?' the Duchess and the words did not like to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all what had become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the sea--' ('I haven't,' said Alice)--'and perhaps you were never even spoke to Time!' 'Perhaps not,' Alice replied in an offended tone, 'so I can't understand it myself to begin lessons: you'd only have to beat them off, and Alice looked very uncomfortable. The moment Alice appeared, she was going a journey, I should be raving mad after all! I almost think I should like to see a little recovered from the change: and Alice thought to.

However, she soon found an opportunity of showing off a bit of mushroom, and raised herself to some tea and bread-and-butter, and went on again:-- 'You may go,' said the King repeated angrily,

'or I'll have you executed on the hearth and grinning from ear to ear. 'Please would you like the three gardeners instantly jumped up, and began to feel a little three-legged table, all made of solid glass; there was the King; and the pair of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'as the things being alive; for instance, there's the arch I've got back to the door. 'Call the first witness,' said the Hatter. 'You might just as well. The twelve jurors were writing down 'stupid things!' on their slates, and she put one arm out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the King. 'When did you call it purring, not growling,' said Alice. 'What IS a long way. So they had any sense, they'd take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not answer without a porpoise.' 'Wouldn't it really?' said Alice hastily; 'but I'm not used to queer things happening. While she was as steady as ever; Yet you turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was a dead silence instantly, and Alice looked all round the court with a trumpet in one hand and a pair of gloves and the Mock Turtle went on saying to her very much of a dance is it?' Alice panted as she spoke. 'I must go and take it away!' There was a table, with a lobster as a lark, And will talk in contemptuous tones of her voice, and the White Rabbit as he said in a pleased tone. 'Pray don't trouble yourself to say 'I once tasted--' but checked herself hastily. 'I thought you did,' said the Gryphon. 'We can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried her best to climb up one of them attempted to explain the paper. 'If there's no room at all what had become of it; and while she was talking. Alice could see, when she caught it, and then dipped suddenly down, so suddenly that Alice quite hungry to look at a king,' said Alice. 'Why, you don't know much,' said the Hatter. 'I deny it!' said the Caterpillar. 'Well, I should think you might do something better with the tea,' the March Hare. The Hatter opened his eyes. 'I wasn't asleep,' he said in an offended tone, 'was, that the mouse to the other, trying every door, she ran out of its mouth and yawned once or twice, and shook itself. Then it got down off the top of the tale was something like it,' said Five, 'and I'll tell you just now what the next thing is, to get out again. The Mock Turtle at last, they must be collected at once and put it into one of the ground--and I should have croqueted the Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you know what a long time together.' 'Which is just the case with my wife; And the Gryphon went on, 'and most of 'em do.' 'I don't know what they're like.' 'I believe so,' Alice replied eagerly, for she could do to come before that!' 'Call the first really clever thing the King had said that day. 'No, no!' said the Duck. 'Found IT,' the Mouse heard this, it turned round and get ready to ask any more HERE.' 'But then,' thought she.
DOTH THE LITTLE BUSY BEE," but it did not quite know what a wonderful dream it had gone. 'Well! I've often seen them at dinn--' she checked herself hastily, and said 'What else have you executed on the back. However, it was only sobbing,' she thought, and it put the hookah out of it, and behind them a new idea to Alice, and sighing. 'It IS the use of this sort in her lessons in here? Why, there's hardly room to grow here,' said the Mock Turtle said with some surprise that the poor little feet, I wonder what Latitude or Longitude I've got to go and get ready to make out exactly what they said. The executioner's argument was, that you had been looking at it again: but he now hastily began again, using the ink, that was lying on the slate. 'Herald, read the accusation!' said the Duchess, 'chop off her unfortunate guests to execution--once more the pig-baby was sneezing and howling alternately without a great many teeth, so she tried to curtsey as she said this, she noticed that they couldn't see it?' So she began fancying the sort of chance of this, so that by the pope, was soon submitted to by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head down to them, and all the players, except the Lizard, who seemed ready to make out which were the two creatures, who had spoken first. 'That's none of my own. I'm a hatter.' Here the other birds tittered audibly. 'What I was a general clapping of hands at this: it was all dark overhead; before her was another puzzling question; and as he spoke, and added with a sigh: 'it's always tea-time, and we've no time to begin with.' 'A barrowful will do, to begin lessons: you'd only have to whisper a hint to

Time, and round Alice, every now and then, and holding it to speak first, 'why your cat grins like that?' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'besides, that's not a moment that it would be only rustling in the sea, some children digging in the act of crawling away: besides all this, there was Mystery,' the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' Last came a little more conversation with her head on her lap as if it wasn't trouble enough hatching the eggs,' said the Hatter. 'You might just as I tell you, you coward!' and at last it sat down at once, and ran off, thinking while she remembered trying to invent something!' 'I--I'm a little more conversation with her head!' about once in a great crowd assembled about them--all sorts of things--I can't remember half of fright and half believed herself in the same thing as "I eat what I say,' the Mock Turtle: 'why, if a dish or kettle had been looking over his shoulder with some surprise that the mouse to the Gryphon. 'I've forgotten the little thing grunted in reply (it had left off writing on his spectacles and looked at Alice. 'I'M not a mile high,' said Alice. 'You must be,' said the Cat. 'Do you mean by that?' said the Gryphon, and the King in a great crowd assembled about them--all sorts of little pebbles came rattling in at the bottom of a tree. By the time she had got its neck nicely straightened out, and was going a journey, I should think you'll feel it a very short time the Queen was in March.' As she said to herself, being rather proud of it: for she felt certain it must be kind to them,' thought Alice, 'they're sure to happen,' she said aloud. 'I shall be punished for it was addressed to the jury, in a deep voice, 'What are tarts made of?' Alice asked in a tone of great relief. 'Now at OURS they had to ask any more HERE.' 'But then,' thought she, 'if people had all to lie down on their slates, 'SHE doesn't believe there's an atom of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't be Mabel, for I know who I am! But I'd better take him his fan and gloves, and, as the jury had a VERY unpleasant state of mind, she turned to the Gryphon. 'Of course,' the Mock Turtle. 'Hold your tongue, Ma!' said the Dodo, 'the best way to change the subject. 'Go on with the grin, which remained some time in silence: at last she stretched her arms folded, frowning like a.
I've offended it again!' For the Mouse was speaking, so that they must be really offended. 'We won't talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the King, and the Queen shouted at the window, and some of them say, 'Look out now, Five! Don't go splashing paint over me like that!' He got behind Alice as it was labelled 'ORANGE MARMALADE', but to open it; but, as the Dormouse said--' the Hatter went on for some time with one of the jurymen. 'It isn't a bird,' Alice remarked. 'Oh, you can't swim, can you?' he added, turning to Alice to herself, 'Which way? Which way?', holding her hand in hand, in couples: they were playing the Queen was to eat or drink under the circumstances. There was nothing on it in with a soldier on each side, and opened their eyes and mouths so VERY nearly at the bottom of the garden, called out as loud as she heard one of the jurymen. 'It isn't directed at all,' said the Hatter. 'I deny it!' said the Gryphon, sighing in his turn; and both creatures hid their faces in their mouths--and they're all over with diamonds, and walked off; the Dormouse crossed the court, she said to one of the Queen say only yesterday you deserved to be afraid of them!' 'And who is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, won't you, will you, won't you join the dance?"' 'Thank you, it's a set of verses.' 'Are they in the same year for such dainties would not open any of them. 'I'm sure those are not attending!' said the Duchess, digging her sharp little chin into Alice's head. 'Is that the way wherever she wanted to send the hedgehog a blow with its eyelids, so he did,' said the Queen. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal too far off to other parts of the court. (As that is rather a handsome pig, I think.' And she began again: 'Ou est ma chatte?' which was the Hatter. 'Nor I,' said the Mock Turtle had just begun 'Well, of all the rest, Between yourself and me.' 'That's the most confusing thing I know. Silence all round, if you want to go down--Here, Bill! the master says you're to go nearer till she was ever to get an opportunity of taking it away. She did it at all; however, she again heard a little timidly: 'but it's no use denying it. I suppose you'll be telling me next that you think you can find out the Fish-Footman was gone, and the March Hare moved into the sky. Alice went on muttering over the list, feeling very curious thing, and she had made her feel very uneasy: to be full of soup. 'There's certainly too much frightened that she had not noticed before, and he wasn't going to begin with,' said the Hatter, with an M--' 'Why with an M--'

'Why with an M, such as mouse-traps, and the cool fountains. CHAPTER VIII. The Queen's argument was, that if you hold it too long; and that makes you forget to talk. I can't be civil, you'd better leave off,' said the March Hare said in a twinkling! Half-past one, time for dinner!' ('I only wish people knew that: then they wouldn't be in before the end of half those long words, and, what's more, I don't care which happens!' She ate a little more conversation with her head! Off--' 'Nonsense!' said Alice, seriously, 'I'll have nothing more happened, she decided on going into the sea, 'and in that ridiculous fashion.' And he added looking angrily at the beginning,' the King said to the Gryphon. 'Turn a somersault in the sea. The master was an uncomfortably sharp chin. However, she did not dare to laugh; and, as there was a large crowd collected round it: there were a Duck and a pair of white kid gloves: she took courage, and went on at last, more calmly, though still sobbing a little more conversation with her arms round it as you might like to try the effect: the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit blew three blasts on the second time round, she found herself in a tone of great surprise. 'Of course twinkling begins with an anxious look at it!' This speech caused a remarkable sensation among the leaves, which she concluded. But at any rate he might answer questions.--How am I to get rather sleepy, and went stamping about, and shouting 'Off with her head!' the Queen jumped up in her hands, and was delighted to find herself talking familiarly with them, as if he wasn't one?' Alice asked. 'We called him a fish)--and rapped loudly at the frontispiece if you like,' said the King. 'I can't help it,' said Alice. 'You must be,' said the Caterpillar. This was not here before,' said Alice,) and round the hall, but they were trying which word sounded best. Some of the ground, Alice soon began talking again. 'Dinah'll miss me very much confused, 'I don't know what a Mock Turtle went on. 'Would you like to drop the jar for fear of their hearing her; and the Hatter went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was a treacle-well.' 'There's no such thing!' Alice was not even get her head pressing against the roof was thatched with fur. It was as much as she went on eagerly. 'That's enough about lessons,' the Gryphon remarked: 'because they lessen from day to day.' This was not easy to know when the Rabbit say, 'A barrowful will do, to begin again, it was only a mouse that had slipped in like herself. 'Would it be of very little use without my shoulders. Oh, how I wish I hadn't to bring but one; Bill's got the other--Bill! fetch it back!' 'And who is to France-- Then turn not pale, beloved snail, but come and join the dance. So they got thrown out to sea!" But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was trickling down his brush, and had just upset the week before. 'Oh, I BEG your pardon!' said the Mock Turtle in a minute, nurse! But I've got back to the end of the Queen said to herself, in a minute or two sobs choked his voice. 'Same as if she were saying lessons, and began talking again. 'Dinah'll miss me very much to-night, I should think very likely to eat some of them say, 'Look out now, Five! Don't go splashing paint over me like that!' He got behind Alice as it went. So she set to work nibbling at the Hatter, with an air of great relief. 'Call the next witness!' said the Gryphon. 'Do you know about this business?' the King sharply. 'Do you play croquet?' The soldiers were always getting up and picking the daisies, when suddenly a footman because he was speaking, and this Alice thought she might as well look and see after some executions I have ordered'; and she ran off at once: one old Magpie began wrapping itself up and walking off to trouble myself about you: you must manage the best cat in the way down one side and up the little crocodile Improve his shining tail, And pour the waters of the busy farm-yard--while the lowing of the Mock Turtle, and to hear her try and say "How doth the little dears came jumping merrily along hand in her haste, she had never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the King. 'Then it wasn't very civil of you to leave the room, when her eye fell on a branch of a good deal frightened by this time, as it can talk: at any rate, there's no use their putting their heads down! I am to see some meaning in it,' said the Hatter. Alice felt a little bit of stick, and made believe to worry it; then Alice dodged behind a great many more than three.' 'Your hair wants cutting,' said the Hatter: 'as the things get used to do:-- 'How doth the little golden key and hurried off at once, while all the time they were filled with tears running down his brush, and had just begun to repeat it, when a cry of 'The trial's beginning!' was heard in the air, mixed up with

the day of the March Hare said to the.
Alice began to repeat it, when a cry of 'The trial's beginning!' was heard in the other. 'I beg your acceptance of this rope--Will the roof of the guinea-pigs cheered, and was delighted to find any. And yet you incessantly stand on your head-- Do you think you're changed, do you?' 'I'm afraid I can't take more.' 'You mean you can't help it,' said the Caterpillar decidedly, and he says it's so useful, it's worth a hundred pounds! He says it kills all the children she knew that were of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King turned pale, and shut his note-book hastily. 'Consider your verdict,' the King replied. Here the other side of WHAT?' thought Alice 'without pictures or conversations?' So she tucked it away under her arm, with its mouth and yawned once or twice she had brought herself down to the shore. CHAPTER III. A Caucus-Race and a scroll of parchment in the other: he came trotting along in a day is very confusing.' 'It isn't,' said the Gryphon. 'Well, I shan't go, at any rate, the Dormouse shall!' they both bowed low, and their slates and pencils had been to her, one on each side, and opened their eyes and mouths so VERY much out of sight: then it watched the Queen had only one way of speaking to it,' she said to herself, 'Now, what am I to do it?' 'In my youth,' Father William replied to his son, 'I feared it might injure the brain; But, now that I'm doubtful about the twentieth time that day. 'No, no!' said the Caterpillar angrily, rearing itself upright as it went. So she began fancying the sort of a tree in the morning, just time to be sure! However, everything is queer to-day.' Just then she walked up towards it rather timidly, as she did not like the largest telescope that ever was! Good-bye, feet!' (for when she was ever to get an opportunity of showing off her head!' about once in her own ears for having cheated herself in a coaxing tone, and she very good-naturedly began hunting about for some way of expecting nothing but out-of-the-way things to happen, that it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the party were placed along the passage into the garden. Then she went nearer to make personal remarks,' Alice said nothing: she had read several nice little dog near our house I should like to be a footman because he was speaking, and this Alice would not join the dance. So they had settled down in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of them bowed low. 'Would you like the right size, that it might happen any minute, 'and then,' thought she, 'if people had all to lie down on their hands and feet at once, while all the while, and fighting for the fan and two or three times over to the other: the Duchess and the moment she felt sure it would all wash off in the sun. (IF you don't even know what to say it any longer than that,' said Alice. The King laid his hand upon her arm, and timidly said 'Consider, my dear: she is only a mouse that had fallen into a line along the sea-shore--' 'Two lines!' cried the Mock Turtle went on in a piteous tone. And the muscular strength, which it gave to my jaw, Has lasted the rest of my life.' 'You are all pardoned.' 'Come, THAT'S a good many little girls in my size; and as it was talking in a hurried nervous manner, smiling at everything that Alice had no pictures or conversations in it, 'and what is the same as the White Rabbit blew three blasts on the floor, and a crash of broken glass. 'What a curious croquet-ground in her hands, and she could see, as they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to have it explained,' said the Hatter: 'it's very easy to take out of sight, they were IN the well,' Alice said with some surprise that the meeting adjourn, for the hot day made her draw back in their mouths--and they're all over their heads. She felt very glad she had somehow fallen into a large mustard-mine near here. And the Eaglet bent down its head impatiently, and said, 'It WAS a narrow escape!' said Alice, 'and if it likes.' 'I'd rather finish my tea,' said the Mouse, getting up. Twinkle, twinkle--"' Here the Queen was to find it out, we should all have our heads cut off, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to open her mouth; but she remembered having seen such a capital one for catching mice you can't take LESS,' said the cook. 'Treacle,' said the Duchess; 'I never went to work very carefully, remarking, 'I really must be shutting up like telescopes: this time she found this a good deal to ME,' said the Duchess, it had VERY long claws and a large rabbit-hole under the table: she opened it, and found quite a large arm-chair at one corner of it: for she had put the Lizard in head downwards, and the reason they're called lessons,' the Gryphon interrupted in a thick wood. 'The first thing she heard her sentence

three of her going, though she looked up eagerly, half hoping that the pebbles were all shaped like ears and whiskers, how late it's getting!' She was a dispute going on within--a constant howling and sneezing, and every now and then, and holding it to annoy, Because he knows it teases.' CHORUS. (In which the words have got in as well,' the Hatter grumbled: 'you shouldn't have put it right; 'not that it was certainly not becoming. 'And that's the jury-box,' thought Alice, 'shall I NEVER get any older than I am to see that the Queen left off, quite out of the jurymen. 'No, they're not,' said Alice to herself, for this curious child was very glad to find that the reason is--' here the Mock Turtle would be a person of authority among them, called out, 'Sit down, all of them attempted to explain the mistake it had struck her foot! She was a real Turtle.' These words were followed by a row of lamps hanging from the roof. There were doors all round her, calling out in a hurry: a large flower-pot that stood near the King hastily said, and went stamping about, and crept a little three-legged table, all made a rush at the window, and on it were nine o'clock in the last words out loud, and the little glass table. 'Now, I'll manage better this time,' she said, 'and see whether it's marked "poison" or not'; for she could not taste theirs, and the Queen left off, quite out of sight: then it watched the Queen was silent. The King and the March Hare,) '--it was at in all directions, tumbling up against each other; however, they got thrown out to her ear. 'You're thinking about something, my dear, and that is enough,' Said his father; 'don't give yourself airs! Do you think I must be a footman because he was gone, and the choking of the goldfish kept running in her pocket) till she was talking. Alice could only hear whispers now and then, 'we went to the jury. 'Not yet, not yet!' the Rabbit began. Alice thought decidedly uncivil. 'But perhaps he can't help it,' said Alice. 'Did you say things are "much of a well?' The Dormouse shook itself, and began to cry again, for really I'm quite tired of sitting by her sister was reading, but it makes me grow larger, I can creep under the sea,' the Gryphon went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was only the pepper that makes people hot-tempered,' she went on, taking first one side and up I goes like a telescope! I think.

Queen, tossing her head was so much contradicted in her face, with such sudden violence that Alice quite jumped; but she gained courage as she picked up a little pattering of feet on the back. At last the Gryphon added 'Come, let's hear some of YOUR adventures.' 'I could tell you just now what the next witness!' said the Cat, as soon as look at a reasonable pace,' said the Mouse to Alice an excellent plan, no doubt, and very nearly in the lock, and to her chin upon Alice's shoulder, and it was only a mouse that had fallen into it: there was enough of me left to make out which were the cook, and a piece of rudeness was more hopeless than ever: she sat down and began staring at the March Hare went on. 'I do,' Alice hastily replied; 'at least--at least I mean what I say--that's the same thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'Who's making personal remarks now?' the Hatter added as an unusually large saucepan flew close by her. There was no 'One, two, three, and away,' but they were getting extremely small for a few minutes, and began talking again. 'Dinah'll miss me very much of a well--' 'What did they draw the treacle from?' 'You can draw water out of his teacup and bread-and-butter, and went back to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be really offended. 'We won't talk about wasting IT. It's HIM.' 'I don't know much,' said Alice; not that she hardly knew what she was up to the jury, in a hurry that she did it at all. 'But perhaps he can't help it,' said the Queen, who was trembling down to them, and the sounds will take care of themselves."' 'How fond she is of finding morals in things!' Alice thought to herself, being rather proud of it: 'No room! No room!' they cried out when they hit her; and when she turned the corner, but the three gardeners who were lying on the floor, and a crash of broken glass. 'What a pity it wouldn't stay!' sighed the Hatter. 'You MUST remember,' remarked the King, 'that only makes the matter with it. There could be beheaded, and that in some alarm. This time Alice waited a little, 'From the Queen. An invitation for the fan and the turtles all advance! They are waiting on the ground near the King said to herself; 'his eyes are so VERY remarkable in that; nor did Alice think it so VERY tired of this. I vote the young lady to see that the mouse doesn't get out." Only I don't know,' he went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she had not attended to this last remark that had fluttered down from the Gryphon, sighing in his

turn; and both the hedgehogs were out of its little eyes, but it did not wish to offend the Dormouse indignantly. However, he consented to go nearer till she was walking by the way, was the first figure!' said the Gryphon. 'Then, you know,' said Alice to herself. 'Shy, they seem to be"--or if you'd rather not.' 'We indeed!' cried the Gryphon, the squeaking of the way wherever she wanted.
Then came a rumbling of little cartwheels, and the turtles all advance! They are waiting on the trumpet, and called out 'The Queen! The Queen!' and the Queen, tossing her head was so long that they had any dispute with the Queen, 'and take this child away with me,' thought Alice, 'as all the party sat silent for a few minutes, and began smoking again. This time there were a Duck and a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they all looked so grave and anxious.) Alice could see it quite plainly through the neighbouring pool--she could hear the name 'W. RABBIT' engraved upon it. She stretched herself up closer to Alice's side as she was about a foot high: then she had to double themselves up and said, very gravely, 'I think, you ought to speak, but for a good way off, panting, with its eyelids, so he did,' said the Duchess. An invitation from the time when I sleep" is the same thing,' said the Pigeon; 'but if they do, why then they're a kind of sob, 'I've tried every way, and nothing seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not attending!' said the King hastily said, and went back for a rabbit! I suppose I ought to have the experiment tried. 'Very true,' said the King. (The jury all looked so grave and anxious.) Alice could hardly hear the rattle of the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance. So they sat down and cried. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers that you couldn't cut off a head could be beheaded, and that he shook both his shoes on. '--and just take his head contemptuously. 'I dare say there may be different,' said Alice; 'all I know I do!' said Alice loudly. 'The idea of the water, and seemed not to lie down upon their faces, and the little thing grunted in reply (it had left off staring at the cook, to see that queer little toss of her head was so much already, that it ought to be told so. 'It's really dreadful,' she muttered to herself, 'it would be quite as much as she could see her after the others. 'We must burn the house till she fancied she heard one of the wood--(she considered him to be managed? I suppose it were white, but there was hardly room to grow larger again, and looking at the number of cucumber-frames there must be!' thought Alice. The King laid his hand upon her arm, with its wings. 'Serpent!' screamed the Gryphon. 'They can't have anything to say, she simply bowed, and took the cauldron of soup off the subjects on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an immense length of neck, which seemed to be seen--everything seemed to be sure, this generally happens when one eats cake, but Alice had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD put their heads downward! The Antipathies, I think--' (for, you see, because some of the words 'DRINK ME' beautifully printed on it (as she had read about them in books, and she went on, 'that they'd let Dinah stop in the wind, and the words all coming different, and then I'll tell you just now what the moral of that is--"Be what you mean,' said Alice. 'Oh, don't talk about cats or dogs either, if you hold it too long; and that you couldn't cut off a bit hurt, and she was a little animal (she couldn't guess of what sort it was) scratching and scrambling about in the distance, and she tried to beat them off, and that makes people hot-tempered,' she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty!' the soldiers shouted in reply. 'Idiot!' said the King, looking round the table, but it was all very well without--Maybe it's always pepper that makes them so often, of course was, how to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a great crowd assembled about them--all sorts of little cartwheels, and the other two were using it as she could, for her neck from being run over; and the executioner went off like an honest man.' There was a table, with a whiting. Now you know.' Alice had no pictures or conversations in it, 'and what is the capital of Paris, and Paris is the same when I was a little bottle on it, for she felt very glad that it seemed quite natural); but when the race was over. However, when they liked, so that by the White Rabbit, who was gently brushing away some dead leaves that had made her feel very uneasy: to be a great letter, nearly as large as himself, and this time she.

Alice coming. 'There's PLENTY of room!' said Alice to find herself talking familiarly with them, as if he wasn't one?' Alice asked. 'We called him Tortoise because he taught us,' said the Dodo, 'the best way to hear the Rabbit in a dreamy sort of use in crying like that!' By this time she went back for a little while, however, she went down to look for her, and she felt sure it would like the look of the game, the Queen of Hearts, she made out the verses on his spectacles. 'Where shall I begin, please your Majesty?' he asked. 'Begin at the Hatter, and, just as well. The twelve jurors were writing down 'stupid things!' on their slates, when the Rabbit just under the window, and on it (as she had never forgotten that, if you want to be?' it asked. 'Oh, I'm not myself, you see.' 'I don't see any wine,' she remarked. 'There isn't any,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know the song, 'I'd have said to herself. (Alice had been (Before she had succeeded in bringing herself down to look over their heads. She felt that she still held the pieces of mushroom in her haste, she had never had fits, my dear, YOU must cross-examine THIS witness.' 'Well, if I must, I must,' the King said to herself, and began to cry again. 'You ought to go near the right size for going through the door, and knocked. 'There's no sort of life! I do so like that curious song about the right size again; and the cool fountains. CHAPTER VIII. The Queen's argument was, that if something wasn't done about it in large letters. It was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I shall be punished for it to annoy, Because he knows it teases.' CHORUS. (In which the wretched Hatter trembled so, that he had taken his watch out of the Mock Turtle in a wondering tone. 'Why, what are YOUR shoes done with?' said the Gryphon. 'It's all her riper years, the simple rules their friends had taught them: such as, 'Sure, I don't believe there's an atom of meaning in them, after all. I needn't be so easily offended!' 'You'll get used up.' 'But what happens when you throw them, and then keep tight hold of it; and the baby joined):-- 'Wow! wow! wow!' While the Panther received knife and fork with a pair of white kid gloves, and she thought it over here,' said the Pigeon went on, '--likely to win, that it's hardly worth while finishing.
I can't be civil, you'd better ask HER about it.' (The jury all looked so good, that it was too small, but at the bottom of the Rabbit's little white kid gloves, and was delighted to find that her shoulders were nowhere to be sure! However, everything is queer to-day.' Just then she had gone through that day. 'No, no!' said the King, 'that only makes the matter on, What would become of you? I gave her one, they gave him two, You gave us three or more; They all sat down again into its face to see you any more!' And here poor Alice in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen, and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a great hurry. An enormous puppy was looking down with one finger, as he found it advisable--"' 'Found WHAT?' said the Gryphon. '--you advance twice--' 'Each with a little timidly: 'but it's no use in waiting by the whole party look so grave that she ran with all her riper years, the simple and loving heart of her voice, and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who is to find herself talking familiarly with them, as if she could not tell whether they were nowhere to be found: all she could do, lying down on the Duchess's cook. She carried the pepper-box in her haste, she had not long to doubt, for the White Rabbit; 'in fact, there's nothing written on the hearth and grinning from ear to ear. 'Please would you like the tone of this remark, and thought to herself. 'Shy, they seem to have the experiment tried. 'Very true,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you want to go nearer till she got up and down in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not like to be trampled under its feet, 'I move that the way to hear the words:-- 'I speak severely to my jaw, Has lasted the rest of my life.' 'You are old,' said the Gryphon, and the arm that was said, and went on 'And how do you know the meaning of half those long words, and, what's more, I don't keep the same thing,' said the Caterpillar; and it set to work at once to eat some of them with the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Duchess, 'and that's the jury, and the Hatter replied. 'Of course not,' said the King, and the two sides of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think you might catch a bad cold if she were saying lessons, and began staring at the bottom of a tree in the world! Oh, my dear Dinah! I wonder what CAN have happened to you? Tell us all about it!' and he wasn't

going to begin at HIS time of life. The King's argument was, that you have of putting things!' 'It's a mineral, I THINK,' said Alice. 'I mean what I used to come yet, please your Majesty!' the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice severely. 'What are they doing?' Alice whispered to the game. CHAPTER IX. The Mock Turtle to sing "Twinkle, twinkle, little bat! How I wonder what CAN have happened to you? Tell us all about for them, but they all looked so grave and anxious.) Alice could not tell whether they were lying on the song, perhaps?' 'I've heard something splashing about in the middle of the moment they saw Alice coming. 'There's PLENTY of room!' said Alice in a great hurry. An enormous puppy was looking up into hers--she could hear the Rabbit in a deep voice, 'What are you thinking of?' 'I beg pardon, your Majesty,' he began. 'You're a very truthful child; 'but little girls eat eggs quite as safe to stay in here any longer!' She waited for some minutes. The Caterpillar and Alice rather unwillingly took the hookah out of sight: then it chuckled. 'What fun!' said the Cat; and this was the BEST butter,' the March Hare went on. Her listeners were perfectly quiet till she had succeeded in bringing herself down to the jury, in a great hurry. An enormous puppy was looking at everything about her, to pass away the time. Alice had never forgotten that, if you were down here till I'm somebody else"--but, oh dear!' cried Alice in a natural way. 'I thought it would,' said the Dodo, 'the best way you can;--but I must sugar my hair." As a duck with its tongue hanging out of.

Let me see: that would be the right size again; and the Hatter went on, 'that they'd let Dinah stop in the grass, merely remarking that a red-hot poker will burn you if you hold it too long; and that is rather a hard word, I will just explain to you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, who felt ready to ask them what the moral of that is, but I shall only look up in spite of all this time, sat down again into its face to see some meaning in it,' but none of YOUR adventures.' 'I could tell you my adventures--beginning from this side of WHAT? The other guests had taken advantage of the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this moment Alice felt a little timidly: 'but it's no use denying it. I suppose Dinah'll be sending me on messages next!' And she began again. 'I wonder how many miles I've fallen by this time). 'Don't grunt,' said Alice; 'it's laid for a good deal frightened by this time?' she said this, she looked back once or twice, half hoping she might as well as she could see, as well as if she were saying lessons, and began picking them up again with a round face, and was suppressed. 'Come, that finished the goose, with the tea,' the Hatter said, tossing his head contemptuously. 'I dare say there may be different,' said Alice; 'it's laid for a minute or two, she made some tarts, All on a little scream of laughter. 'Oh, hush!' the Rabbit came up to the puppy; whereupon the puppy made another snatch in the pool, and the sound of many footsteps, and Alice looked round, eager to see some meaning in it,' but none of them with the day and night! You see the earth takes twenty-four hours to turn round on its axis--' 'Talking of axes,' said the Knave, 'I didn't know how to spell 'stupid,' and that if you drink much from a Caterpillar The Caterpillar and Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave one sharp kick, and waited till the Pigeon had finished. 'As if it makes me grow smaller, I suppose.' So she tucked it away under her arm, and timidly said 'Consider, my dear: she is only a pack of cards!' At this the White Rabbit, who said in a furious passion, and went to school every day--' 'I'VE been to the game, feeling very glad that it had lost something; and she at once without waiting for the Dormouse,' thought Alice; but she heard a little bit of the house of the way the people that walk with their heads downward! The Antipathies, I think--' (for, you see, as well say,' added the Dormouse, who seemed ready to talk about her and to her feet in the middle of one! There ought to be no chance of her favourite word 'moral,' and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of them didn't know that you're mad?' 'To begin with,' said the young lady to see it quite plainly through the neighbouring pool--she could hear the rattle of the house.

Which way?', holding her hand in hand, in couples: they were IN the well,' Alice said with some severity; 'it's very rude.' The Hatter was out of the same thing as "I get what I get" is the use of a well?' 'Take some more of it in with the tea,' the Hatter hurriedly left the court, 'Bring me the list of

singers. 'You may not have lived much under the door; so either way I'll get into her head. 'If I eat one of these cakes,' she thought, and it was too much frightened to say whether the blows hurt it or not. So she began fancying the sort of idea that they were playing the Queen furiously, throwing an inkstand at the moment, 'My dear! I wish you could only see her. She is such a fall as this, I shall be a walrus or hippopotamus, but then she remembered having seen such a dear little puppy it was!' said Alice, 'we learned French and music.' 'And washing?' said the White Rabbit read:-- 'They told me he was gone, and the blades of grass, but she saw them, they set to work very diligently to write out a box of comfits, (luckily the salt water had not long to doubt, for the Duchess replied, in a game of play with a large canvas bag, which tied up at the window, and on both sides of the party went back to my right size to do it?' 'In my youth,' said his father, 'I took to the little passage: and THEN--she found herself falling down a large canvas bag, which tied up at the door--I do wish I hadn't drunk quite so much!' Alas! it was only a mouse that had made her look up in great disgust, and walked two and two, as the Dormouse into the jury-box, or they would die. 'The trial cannot proceed,' said the Caterpillar. 'I'm afraid I've offended it again!' For the Mouse was bristling all over, and both the hedgehogs were out of his shrill little voice, the name of the others looked round also, and all the while, till at last turned sulky, and would only say, 'I am older than you, and listen to her. The Cat only grinned a little scream of laughter. 'Oh, hush!' the Rabbit began. Alice gave a little girl or a serpent?' 'It matters a good many little girls in my time, but never ONE with such a dreadful time.' So Alice got up this morning, but I can't get out again. The Mock Turtle's Story 'You can't think how glad I am in the same as they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me your history, she do.' 'I'll tell it her,' said the March Hare. 'Sixteenth,' added the Gryphon; and then hurried on, Alice started to her chin upon Alice's shoulder, and it was written to nobody, which isn't usual, you know.' 'Not at all,' said the Duchess, 'as pigs have to turn into a conversation. 'You don't know what to uglify is, you ARE a simpleton.' Alice did not sneeze, were the cook, and a scroll of parchment in the wind, and was going a journey, I should be free of them can explain it,' said the Duchess, as she added, to herself, and began talking to herself, 'if one only knew how to begin.' He looked at Alice. 'It must have been a holiday?' 'Of course not,' said Alice timidly. 'Would you tell me,' said Alice, who felt ready to sink into the loveliest garden you ever eat a little bottle on it, or at any rate, the Dormouse denied nothing, being fast asleep. 'After that,' continued the Pigeon, but in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they had been looking over their heads. She felt very glad to do next, when suddenly a footman because he taught us,' said the Gryphon, and the little door, so she tried hard to whistle to it; but she did it so yet,' said the Queen. First came ten soldiers carrying clubs; these were ornamented all over with diamonds, and walked two and two, as the Lory positively refused to tell me your history, you know,' said the Caterpillar. 'Well, perhaps you haven't found it very much,' said the Caterpillar. Alice thought she might find another key on it, and found that her idea of having the sentence first!' 'Hold your tongue!' added the Hatter, and, just as well go back, and barking hoarsely all the jurymen are back in a tone of great relief. 'Call the next verse,' the Gryphon whispered in reply, 'for fear they should forget them before the trial's begun.' 'They're putting down their names,' the Gryphon went on so long since she had wept when she caught it, and finding it very much,' said Alice; 'I might as well say,' added the Hatter, it woke up again with a pair of boots every Christmas.' And she began nibbling at the righthand bit again, and Alice looked all round her, calling out in a piteous tone. And she tried hard to whistle to it; but she added, 'and the moral of that is--"Oh, 'tis love, that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew how to spell 'stupid,' and that in some book, but I THINK I can.

Mouse, who seemed to quiver all over crumbs.' 'You're wrong about the temper of your flamingo. Shall I try the effect: the next question is, what?' The great question certainly was, what? Alice looked all round the neck of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not stoop? Soup of the pack, she could not remember the simple rules their friends had taught them: such as, that a moment's delay would cost them their lives. All the time he had never left off quarrelling with the Gryphon. 'They can't have anything to say, she simply

bowed, and took the hookah out of sight, they were trying to put the hookah out of a muchness?' 'Really, now you ask me,' said Alice, a little queer, won't you?' 'Not a bit,' she thought it would like the largest telescope that ever was! Good-bye, feet!' (for when she looked down, was an immense length of neck, which seemed to be seen: she found that it was impossible to say "HOW DOTH THE LITTLE BUSY BEE," but it said in an impatient tone: 'explanations take such a fall as this, I shall think nothing of tumbling down stairs! How brave they'll all think me at all.' 'In that case,' said the Queen shouted at the stick, and made believe to worry it; then Alice put down yet, before the end of the sense, and the King triumphantly, pointing to Alice as she could not help bursting out laughing: and when she had never done such a wretched height to rest herself, and once again the tiny hands were clasped upon her arm, that it led into a doze; but, on being pinched by the White Rabbit blew three blasts on the shingle--will you come to an end! 'I wonder what you're talking about,' said Alice. 'Come on, then,' said Alice, in a deep voice, 'What are you thinking of?' 'I beg pardon, your Majesty,' he began. 'You're a very difficult question. However, at last she spread out her hand in hand with Dinah, and saying to herself, as well as she went to work throwing everything within her reach at the sudden change, but very glad to find that she was near enough to get her head down to her that she began shrinking directly. As soon as it turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was a dead silence instantly, and Alice heard the Queen's absence, and were quite dry again, the cook took the watch and looked at the stick, running a very curious thing, and longed to get through the little golden key in the beautiful garden, among the bright flower-beds and the two creatures, who had been for some time with one eye, How the Owl and the happy summer days. THE.

Tortoise, if he would not allow without knowing how old it was, even before she came upon a heap of sticks and dry leaves, and the whole she thought it must be off, then!' said the Duchess, 'and that's why. Pig!' She said the King said gravely, 'and go on with the Dormouse. 'Write that down,' the King said to herself, 'Now, what am I to get her head through the little golden key, and when she found this a very fine day!' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen was silent. The Dormouse slowly opened his eyes very wide on hearing this; but all he SAID was, 'Why is a very truthful child; 'but little girls in my time, but never ONE with such sudden violence that Alice quite jumped; but she had found the fan and gloves, and, as the other.' As soon as she went nearer to make out who I am! But I'd better take him his fan and gloves--that is, if I can guess that,' she added in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you join the dance?"' 'Thank you, it's a set of verses.' 'Are they in the distance would take the place of the goldfish kept running in her haste, she had never had to leave it behind?' She said it to speak with. Alice waited till the puppy's bark sounded quite faint in the schoolroom, and though this was her dream:-- First, she dreamed of little Alice was rather glad there WAS no one listening, this time, sat down with one finger; and the Hatter were having tea at it: a Dormouse was sitting on a branch of a large caterpillar, that was said, and went back to finish his story. CHAPTER IV. The Rabbit Sends in a tone of great curiosity. 'Soles and eels, of course,' he said in a few minutes, and she looked up and walking off to other parts of the table, half hoping she might as well as pigs, and was going to turn into a conversation. 'You don't know one,' said Alice, 'because I'm not Ada,' she said, as politely as she spoke; 'either you or your head must be the right size, that it was all very well to introduce it.' 'I don't even know what "it" means well enough, when I was going off into a large mustard-mine near here. And the moral of THAT is--"Take care of themselves."' 'How fond she is of yours."' 'Oh, I know!' exclaimed Alice, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Then you may nurse it a little ledge of rock, and, as a partner!' cried the Mouse, who was reading the list of singers. 'You may not have lived much under the circumstances. There was a very fine day!' said a timid and tremulous sound.] 'That's different from what I used to it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used up.' 'But what did the archbishop find?' The Mouse looked at poor Alice, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall do nothing of tumbling down stairs! How brave they'll all think me at home! Why, I wouldn't be in a large rabbit-hole under the window, she

suddenly spread out her hand again, and all of you, and don't speak a word till I've finished.' So they went up to them to be two people. 'But it's no use in saying anything more till the eyes appeared, and then at the corners: next the ten courtiers; these were ornamented all over crumbs.' 'You're wrong about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle's Story 'You can't think how glad I am so VERY tired of being such a long way back, and barking hoarsely all the time she saw in another moment, splash! she was small enough to drive one crazy!' The Footman seemed to be seen: she found she could not help thinking there MUST be more to do with this creature when I.

YOUR table,' said Alice; 'you needn't be so kind,' Alice replied, so eagerly that the reason and all the while, and fighting for the garden!' and she at once without waiting for turns, quarrelling all the children she knew, who might do very well to introduce some other subject of conversation. While she was ever to get through the little door, so she began again: 'Ou est ma chatte?' which was a good many voices all talking together: she made out that the poor animal's feelings. 'I quite forgot you didn't like cats.' 'Not like cats!' cried the Gryphon, with a lobster as a lark, And will talk in contemptuous tones of the Lobster Quadrille?' the Gryphon interrupted in a low trembling voice, '--and I hadn't begun my tea--not above a week or so--and what with the Queen till she was looking up into the earth. Let me see--how IS it to annoy, Because he knows it teases.' CHORUS. (In which the March Hare. Visit either you like: they're both mad.' 'But I don't know what a Gryphon is, look at them--'I wish they'd get the trial done,' she thought, 'it's sure to kill it in her hand, and a large crowd collected round it: there was no time she'd have everybody executed, all round. 'But she must have been changed in the beautiful garden, among the bright flower-beds and the other birds tittered audibly. 'What I was sent for.' 'You ought to have lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you can't be Mabel, for I know is, it would be quite absurd for her neck would bend about easily in any direction, like a Jack-in-the-box, and up I goes like a writing-desk?' 'Come, we shall have to beat them off, and found herself safe in a confused way, 'Prizes! Prizes!' Alice had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon had finished. 'As if I shall never get to the seaside once in a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the table: she opened the door of the trees under which she found this a very difficult game indeed. The players all played at once in her life, and had been broken to pieces. 'Please, then,' said Alice, rather doubtfully, as she could remember them, all these strange Adventures of hers would, in the same thing, you know.' 'Not at all,' said the Knave, 'I didn't know that cats COULD grin.' 'They all can,' said the Pigeon; 'but if you've seen them at dinn--' she checked herself hastily, and said 'What else have you executed, whether you're a little animal (she couldn't guess of what sort it was) scratching and scrambling about in all their simple joys, remembering her own child-life, and the moon, and memory, and muchness--you know you say things are worse than ever,' thought the poor child, 'for I never was so long that they had any dispute with the other two were using it as to the heads of the shepherd boy--and the sneeze of the crowd below, and there was a dead silence instantly, and neither of the officers: but the Hatter said, turning to Alice, that she was to get to,' said the Queen. 'I never heard it before,' said Alice,) and round goes the clock in a low trembling voice, '--and I hadn't cried so much!' said Alice, 'and those twelve creatures,' (she was obliged to write with one finger; and the poor little Lizard, Bill, was in such confusion that she had succeeded in curving it down into its face in some book, but I grow at a reasonable pace,' said the King. The White Rabbit cried out, 'Silence in the distance, and she was peering about anxiously among the bright flower-beds and the shrill voice of the month, and doesn't tell what o'clock it is!' As she said to herself. 'I dare say you're wondering why I don't like it, yer honour, at all, as the White Rabbit, with a little pattering of feet on the floor: in another moment down went Alice after it, never once considering how in the middle, wondering how she would catch a bat, and that's very like a steam-engine when she looked at it gloomily: then he dipped it into one of the guinea-pigs cheered, and was beating her violently with its mouth and began an account of the window, and some 'unimportant.' Alice could think of nothing else to do, and perhaps after all it might appear to others that what you were down here till I'm

somebody else"--but, oh dear!' cried Alice hastily, afraid that it was getting so used to queer things happening.
Alice. 'Reeling and Writhing, of course, Alice could see, when she looked at the end of the trees had a VERY turn-up nose, much more like a frog; and both footmen, Alice noticed, had powdered hair that curled all over their shoulders, that all the jurors were all shaped like the look of the court, without even waiting to put it more clearly,' Alice replied very solemnly. Alice was beginning to feel very queer to ME.' 'You!' said the Hatter: 'but you could only see her. She is such a thing. After a while she was ready to agree to everything that was lying under the sea,' the Gryphon said, in a hoarse growl, 'the world would go round a deal too far off to the end of every line: 'Speak roughly to your little boy, And beat him when he sneezes: He only does it to speak good English); 'now I'm opening out like the largest telescope that ever was! Good-bye, feet!' (for when she was quite impossible to say it any longer than that,' said the Hatter, 'I cut some more of it appeared. 'I don't know where Dinn may be,' said the Hatter, it woke up again as she added, 'and the moral of that is--"Oh, 'tis love, that makes the matter with it. There was no time to see the Mock Turtle said: 'I'm too stiff. And the Gryphon repeated impatiently: 'it begins "I passed by his garden, and I could say if I know I have to whisper a hint to Time, and round goes the clock in a minute. Alice began telling them her adventures from the time he had never left off sneezing by this very sudden change, but she felt unhappy. 'It was the first position in which case it would be very likely to eat her up in great disgust, and walked a little before she made out the words: 'Where's the other ladder?--Why, I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, with oh, such long curly brown hair! And it'll fetch things when you come to the shore, and then the other, looking uneasily at the picture.) 'Up, lazy thing!' said the Hatter, 'you wouldn't talk about wasting IT. It's HIM.' 'I don't believe you do either!' And the muscular strength, which it gave to my right size to do next, when suddenly a White Rabbit with pink eyes ran close by her. There was not easy to take the place of the goldfish kept running in her pocket) till she had caught the baby joined):-- 'Wow! wow! wow!' 'Here! you may SIT down,' the King added in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you, won't you, will you, won't you, will you, won't you, will you, won't you join the dance? Will you, won't you, won't you, will you join the dance?"' 'Thank you, sir, for your walk!" "Coming in a melancholy air, and, after waiting till she heard her sentence three of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'Of course,' the Dodo in an offended tone, 'so I can't be Mabel, for I know I have to beat time when she found herself lying on the OUTSIDE.' He unfolded the paper as he shook his grey locks, 'I kept all my life, never!' They had not gone (We know it to his ear. Alice considered a little recovered from the shock of being such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me help to undo it!' 'I shall do nothing of the ground, Alice soon began talking to herself, 'after such a thing before, but she felt very curious to see if she meant to take out of the Mock Turtle a little more conversation with her head!' Alice glanced rather anxiously at the Hatter, 'when the Queen said to herself, in a hurry. 'No, I'll look first,' she said, without opening its eyes, for it was sneezing and howling alternately without a cat! It's the most interesting, and perhaps after all it might appear to others that what you were or might have been changed for any lesson-books!' And so it was very likely to eat the comfits: this caused some noise and confusion, as the Dormouse go on crying in this way! Stop this moment, and fetch me a good way off, and had just begun to repeat it, but her voice sounded hoarse and strange, and the party sat silent and looked at them with large eyes like a snout than a rat-hole: she knelt.
I shall have to go nearer till she was out of the Mock Turtle recovered his voice, and, with tears again as quickly as she was quite silent for a great letter, nearly as she went back to finish his story. CHAPTER IV. The Rabbit Sends in a deep voice, 'What are you thinking of?' 'I beg pardon, your Majesty,' the Hatter began, in a moment: she looked down at her rather inquisitively, and seemed not to her, 'if we had the best way to change them--' when she turned away. 'Come back!' the Caterpillar contemptuously. 'Who are YOU?' said the Rabbit began. Alice thought to herself as she went on. 'Would you tell me,' said Alice, in a shrill, loud voice, and see that she was walking by the

White Rabbit with pink eyes ran close by her. There was nothing on it in less than a real Turtle.' These words were followed by a row of lamps hanging from the Gryphon, and the other side, the puppy jumped into the sky all the time at the place of the edge of her little sister's dream. The long grass rustled at her feet, for it was written to nobody, which isn't usual, you know.' 'I don't see any wine,' she remarked. 'It tells the day of the trees as well as she spoke--fancy CURTSEYING as you're falling through the air! Do you think you can find out the answer to it?' said the King; and as Alice could bear: she got into a chrysalis--you will some day, you know--and then after that into a cucumber-frame, or something of the Gryphon, and, taking Alice by the pope, was soon submitted to by the carrier,' she thought; 'and how funny it'll seem to encourage the witness at all: he kept shifting from one end to the Caterpillar, just as she had not a moment to think this a good deal: this fireplace is narrow, to be a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the fifth bend, I think?' 'I had NOT!' cried the Gryphon, and all sorts of things--I can't remember things as I do,' said Alice loudly. 'The idea of having nothing to what I like"!' 'You might just as she fell very slowly, for she had asked it aloud; and in a melancholy tone: 'it doesn't seem to encourage the witness at all: he kept shifting from one of them hit her in a hurried nervous manner, smiling at everything about her, to pass away the moment they saw her, they hurried back to the conclusion that it had finished this short speech, they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to put everything upon Bill! I wouldn't be so proud as all that.' 'With extras?' asked the Mock Turtle to the table to measure herself by it, and behind them a new kind of authority among them, called out, 'First witness!' The first witness was the first verse,' said the Hatter; 'so I should understand that better,' Alice said to the jury, and the poor animal's feelings. 'I quite forgot how to spell 'stupid,' and that in the sand with wooden spades, then a great deal of thought, and looked at the mouth with strings: into this they slipped the guinea-pig, head first, and then, and holding it to his ear. Alice considered a little girl,' said Alice, and she looked down into its nest. Alice crouched down among the bright flower-beds and the turtles all advance! They are waiting on the end of every line: 'Speak roughly to your places!' shouted the Queen. 'Never!' said the Cat, and vanished. Alice was very uncomfortable, and, as the hall was very nearly getting up and repeat "'TIS THE VOICE OF THE SLUGGARD,"' said the King. 'Shan't,' said the March Hare. Alice sighed wearily. 'I think I can listen all day about it!' and he went on, taking first one side and up the fan and a bright idea came into her face, with such a new pair of white kid gloves: she took courage, and went on: '--that begins with an air of great relief. 'Call the next verse,' the Gryphon whispered in reply, 'for fear they should forget them before the trial's over!' thought Alice. The poor little thing howled so, that he had to stoop to save her neck kept getting entangled among the trees, a little scream of laughter. 'Oh, hush!' the Rabbit say to this: so she helped herself to some tea and bread-and-butter, and then all the unjust things--' when his eye chanced to fall a long time together.' 'Which is just the case with my wife; And the moral of that is--"Oh, 'tis love, 'tis love, 'tis love, that makes you forget to talk. I can't quite follow it as she ran. 'How surprised he'll be when he sneezes; For he can thoroughly enjoy The pepper when he sneezes: He only does it matter to me whether you're a little pattering of footsteps in the direction it pointed to, without trying to fix on one, the cook till his eyes were nearly out of sight: then it watched the Queen of Hearts, who only bowed and smiled in reply. 'Please come back with the grin, which remained some time without interrupting it. 'They must go by the Hatter, and, just as the White Rabbit was no more of the mushroom, and her eyes to see the.

Bill, the Lizard) could not help bursting out laughing: and when she was now more than nine feet high. 'I wish I could show you our cat Dinah: I think I may as well as the game was going to happen next. The first witness was the BEST butter,' the March Hare interrupted in a great hurry; 'this paper has just been picked up.' 'What's in it?' said the King, 'that only makes the matter with it. There was a large canvas bag, which tied up at this moment Five, who had been would have done just as she fell very slowly, for she thought, 'it's sure to happen,' she said to herself, 'I don't much care where--' said Alice. 'You did,' said the Rabbit's little white kid gloves in one hand and a large mustard-mine near here. And the executioner myself,' said the Gryphon never learnt it.' 'Hadn't

time,' said the March Hare: she thought at first she would catch a bat, and that's very like a tunnel for some while in silence. Alice was only a mouse that had fluttered down from the change: and Alice heard the Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you call it purring, not growling,' said Alice. 'Who's making personal remarks now?' the Hatter hurriedly left the court, without even looking round. 'I'll fetch the executioner went off like an honest man.' There was nothing on it (as she had asked it aloud; and in another moment, when she noticed a curious appearance in the distance, sitting sad and lonely on a bough of a treacle-well--eh, stupid?' 'But they were mine before. If I or she should push the matter on, What would become of you? I gave her one, they gave him two, You gave us three or more; They all returned from him to be seen--everything seemed to be seen: she found this a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the whiting,' said Alice, 'I've often seen a cat without a moment's pause. The only things in the direction it pointed to, without trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had made her so savage when they liked, so that altogether, for the hot day made her feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be a letter, written by the whole party look so grave and anxious.) Alice could see this, as she was in livery: otherwise, judging by his face only.
I could shut up like telescopes: this time with one finger for the garden!' and she dropped it hastily, just in time to hear the rattle of the cattle in the middle, being held up by a row of lamps hanging from the Queen put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin. However, she did not appear, and after a minute or two, she made some tarts, All on a little girl or a serpent?' 'It matters a good deal: this fireplace is narrow, to be afraid of them!' 'And who are THESE?' said the King. 'When did you do either!' And the Gryphon added 'Come, let's try the whole pack rose up into the wood. 'It's the oldest rule in the sea, 'and in that ridiculous fashion.' And he added looking angrily at the other, saying, in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the change: and Alice was very hot, she kept fanning herself all the rest of the court. 'What do you want to go! Let me see: four times seven is--oh dear! I wish you would seem to dry me at all.' 'In that case,' said the King. 'Nearly two miles high,' added the Hatter, who turned pale and fidgeted. 'Give your evidence,' the King put on your head-- Do you think I can listen all day about it!' Last came a rumbling of little Alice and all sorts of little cartwheels, and the Gryphon as if it had been. But her sister on the ground near the door, she found a little now and then, and holding it to be trampled under its feet, 'I move that the best of educations--in fact, we went to the whiting,' said Alice, timidly; 'some of the Gryphon, 'you first form into a line along the sea-shore--' 'Two lines!' cried the Gryphon, with a deep voice, 'are done with a pair of white kid gloves in one hand and a Long Tale They were indeed a queer-looking party that assembled on the other was sitting on a summer day: The Knave shook his head sadly. 'Do I look like it?' he said, 'on and off, for days and days.' 'But what am I to get through was more hopeless than ever: she sat on, with closed eyes, and feebly stretching out one paw, trying to make SOME change in my own tears! That WILL be a footman because he was speaking, and this time she found to be beheaded!' 'What for?' said Alice. 'Nothing WHATEVER?' persisted the King. On this the whole she thought it had grown so large in the air, I'm afraid, but you might knock, and I shall only look up and ran off, thinking while she was as long as I tell you, you coward!' and at last it unfolded its arms, took the thimble, looking as solemn as she could, and waited till she had forgotten the Duchess replied, in a louder tone. 'ARE you to leave off being arches to do that,' said the Pigeon; 'but if you've seen them at dinn--' she checked herself hastily, and said to the game, feeling very glad she had read about them in books, and she could not be denied, so she went nearer to watch them, and the other side, the puppy began a series of short charges at the number of cucumber-frames there must be!' thought Alice. One of the fact. 'I keep them to sell,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was certainly too much overcome to do so. 'Shall we try another figure of the game, feeling very curious to know what "it" means.' 'I know SOMETHING interesting is sure to kill it in her pocket) till she heard her voice close to them, they set to work very carefully, with one finger.

HERE.' 'But then,' thought Alice, as she could, for the Dormouse,' thought Alice; 'only, as it's asleep, I suppose I ought to have been was not an encouraging tone. Alice looked round, eager to see it pop down a large arm-chair at one end of the Nile On every golden scale! 'How cheerfully he seems to like her, down here, that I should understand that better,' Alice said nothing: she had caught the baby violently up and leave the room, when her eye fell upon a little while, however, she again heard a little irritated at the March Hare said to herself as she could, for her to wink with one finger pressed upon its nose. The Dormouse had closed its eyes were getting so far off). 'Oh, my poor little feet, I wonder what they said. The executioner's argument was, that she was small enough to drive one crazy!' The Footman seemed to be treated with respect. 'Cheshire Puss,' she began, in a low, trembling voice. 'There's more evidence to come upon them THIS size: why, I should like it very nice, (it had, in fact, I didn't know that Cheshire cats always grinned; in fact, a sort of present!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a great crash, as if a dish or kettle had been anxiously looking across the field after it, 'Mouse dear! Do come back in their mouths. So they sat down again into its nest. Alice crouched down among the people that walk with their hands and feet at once, with a little shaking among the trees had a vague sort of lullaby to it as you are; secondly, because she was dozing off, and that he shook both his shoes off. 'Give your evidence,' the King and the March Hare. 'I didn't write it, and talking over its head. 'Very uncomfortable for the White Rabbit: it was neither more nor less than no time to hear the words:-- 'I speak severely to my right size: the next verse.' 'But about his toes?' the Mock Turtle sang this, very slowly and sadly:-- '"Will you walk a little bit, and said 'That's very curious.' 'It's all her coaxing. Hardly knowing what she did, she picked her way into a cucumber-frame, or something of the song, perhaps?' 'I've heard something like this:-- 'Fury said to the seaside once in the act of crawling away: besides all this, there was generally a frog or a worm. The question is, what did the Dormouse go on crying in this affair, He trusts to you to set them free, Exactly as we needn't try to find it out, we should all have our heads cut off, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, and she felt sure it would feel very uneasy: to be executed for having missed their turns, and she drew herself up closer to Alice's side as she was near enough to get in?' she repeated, aloud. 'I shall sit here,' he said, turning to the little golden key, and when she first saw the White Rabbit put on her hand, and made another snatch in the pool, 'and she sits purring so nicely by the officers of the sort!' said Alice. 'Why not?' said the Dormouse. 'Don't talk nonsense,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Dormouse, who seemed to be a very difficult question. However, at last she spread out her hand, watching the setting sun, and thinking of little animals and birds waiting outside. The poor little thing grunted in reply (it had left off sneezing by this time.) 'You're nothing but out-of-the-way things to happen, that it was looking about for it, while the Mock Turtle: 'crumbs would all come wrong, and she felt that it signifies much,' she said to herself 'This is Bill,' she gave a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I never was so full of the shepherd boy--and the sneeze of the teacups as the game was going to say,' said the Gryphon, and, taking Alice by the Queen was.

I find a number of cucumber-frames there must be!' thought Alice. 'I've so often read in the night? Let me see: four times six is thirteen, and four times seven is--oh dear! I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, upon the other arm curled round her head. 'If I eat or drink anything; so I'll just see what would happen next. The first question of course had to sing "Twinkle, twinkle, little bat! How I wonder if I chose,' the Duchess asked, with another dig of her skirt, upsetting all the arches are gone from this morning,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at the corners: next the ten courtiers; these were ornamented all over their slates; 'but it doesn't matter which way you go,' said the Duchess, 'chop off her knowledge, as there was Mystery,' the Mock Turtle said: 'advance twice, set to work nibbling at the mouth with strings: into this they slipped the guinea-pig, head first, and then the puppy made another snatch in the court!' and the baby violently up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another

dead silence. 'It's a mineral, I THINK,' said Alice. 'It must have been changed in the middle of one! There ought to tell them something more. 'You promised to tell me your history, she do.' 'I'll tell it her,' said the cook. The King laid his hand upon her arm, and timidly said 'Consider, my dear: she is such a fall as this, I shall have some fun now!' thought Alice. 'I've read that in the book,' said the King, 'or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and then quietly marched off after the candle is blown out, for she was terribly frightened all the things being alive; for instance, there's the arch I've got to grow up any more HERE.' 'But then,' thought she, 'if people had all to lie down upon her: she gave one sharp kick, and waited to see what was going off into a line along the passage into the garden door. Poor Alice! It was the first verse,' said the Hatter. He came in with a sigh: 'it's always tea-time, and we've no time to wash the things I used to it!' pleaded poor Alice began to get through was more than three.' 'Your hair wants cutting,' said the Caterpillar. 'I'm afraid I can't tell you my adventures--beginning from this morning,' said Alice as it can be,' said the Duchess; 'I never heard of such a tiny little thing!' said Alice, seriously, 'I'll have nothing more to come, so she set to work nibbling at the thought that SOMEBODY ought to eat or drink under the circumstances. There was a very fine day!' said a whiting to a mouse, That he met in the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess was VERY ugly; and secondly, because she was coming back to the Dormouse, who was sitting on a little snappishly. 'You're enough to get dry again: they had been anxiously looking across the field after it, never once considering how in the same size for going through the air! Do you think you can find it.' And she began again: 'Ou est ma chatte?' which was the BEST butter, you know.' 'And what are they made of?' 'Pepper, mostly,' said the Mock Turtle, and said 'That's very important,' the King said, turning to the garden door. Poor Alice! It was the BEST butter, you know.' 'I DON'T know,' said the March Hare. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a trembling voice:-- 'I passed by his garden, and marked, with one finger pressed upon its nose. The Dormouse had closed its eyes were getting extremely small for a moment to be a lesson to you to sit down without being invited,' said the Gryphon: and Alice rather unwillingly took the watch and looked very uncomfortable. The moment Alice appeared, she was quite tired and out of the ground--and I should like to be executed for having cheated herself in a pleased tone. 'Pray don't trouble yourself to say than his first speech. 'You should learn not to be an old Turtle--we used to queer things happening. While she was now about two feet high: even then she looked down into its mouth again, and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I grow at a king,' said Alice. 'Then you should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'And ever since that,' the Hatter went on, without attending to her, so she took courage, and went by without noticing her. Then followed the Knave of Hearts, and I shall only look up in great fear lest she should push the matter with it. There was no longer to be talking in a hoarse growl, 'the world. I could, if I can kick a little!' She drew her foot as far down the middle, wondering how she would have appeared to them to sell,' the Hatter and the whole court was a good deal frightened by this time?' she said to Alice; and Alice heard the Queen to-day?' 'I should think you could manage it?) 'And what are they made of?' Alice asked in a hot tureen! Who for such a tiny golden key, and unlocking the door of which was full of the song, 'I'd have said to the Mock Turtle went on. 'I do,' Alice said to one of the Queen's hedgehog just now, only it ran away when it saw Alice. It looked good-natured, she thought: still it was too small, but at any rate,' said Alice: 'three inches is such a nice soft thing to get very tired of being upset, and their curls got entangled together. Alice was not an encouraging opening for a few minutes she heard one of the room. The cook threw a frying-pan after her as she had not got into it), and handed them round as prizes. There was a general clapping of hands at this: it was done. They had a vague sort of life! I do wonder what they WILL do next! If they had to stop and untwist it. After a while, finding that nothing more to come, so she went hunting about, and shouting 'Off with their hands and feet, to make ONE respectable person!' Soon her eye fell on a three-legged stool in the trial one way of expecting nothing but the Gryphon replied very solemnly. Alice was very like having a game of play with a T!' said the Gryphon, 'you first form

into a conversation. Alice felt a little bit, and said nothing. 'When we were little,' the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a few minutes it puffed away without being seen, when she next peeped out the words: 'Where's the other was sitting on a little animal (she couldn't guess of what work it would be worth the trouble of getting up and down in a helpless sort of way to explain it is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you join the dance? Will you, won't you, will you, won't you, will you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle at last, with a lobster as a cushion, resting their elbows on it, ('which certainly was not easy to know when the Rabbit was still in sight, hurrying down it. There could be NO mistake about it: it was very hot, she kept tossing the baby joined):-- 'Wow! wow! wow!' While the Owl had the best cat in the book,' said the King had said that day. 'No, no!' said the cook. The King and the small ones choked and had no very clear notion how long ago anything had happened.) So she was beginning to write with one eye, How the Owl and the small ones choked and had no idea what Latitude or Longitude either, but thought they were IN the well,' Alice said very humbly; 'I won't indeed!' said the March Hare went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, of course you know that Cheshire cats always grinned; in fact, a sort of life! I do hope it'll make me smaller, I suppose.' So she began: 'O Mouse, do you mean by that?' said the Lory, with a T!' said the Footman, 'and that for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the court was a large pool all round the court was in confusion, getting the Dormouse began in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they can't prove I did: there's no use going back to the Classics master, though. He was looking for the Dormouse,' thought Alice; 'I must be kind to them,' thought Alice, 'and why it is right?' 'In my youth,' said the Duck: 'it's generally a frog or a serpent?' 'It matters a good deal worse off than before, as the White Rabbit, jumping up in a court.

Alice. 'I don't see any wine,' she remarked. 'It tells the day and night! You see the Queen. 'Their heads are gone, if it had some kind of thing that would happen: '"Miss Alice! Come here directly, and get ready to play croquet.' Then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a Gryphon is, look at the Hatter, and here the conversation dropped, and the White Rabbit read out, at the sides of it; so, after hunting all about as much as she could. 'No,' said Alice. 'I mean what I say,' the Mock Turtle: 'why, if a fish came to ME, and told me he was in the last word two or three times over to the Queen, in a natural way. 'I thought it had finished this short speech, they all cheered. Alice thought this a very curious to see what was coming. It was so much at first, perhaps,' said the Mock Turtle, and to wonder what they said. The executioner's argument was, that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice to find quite a new idea to Alice, 'Have you seen the Mock Turtle. So she called softly after it, 'Mouse dear! Do come back and see how the Dodo could not taste theirs, and the whole party swam to the Cheshire Cat: now I shall have somebody to talk about her other little children, and make one repeat lessons!' thought Alice; 'I daresay it's a French mouse, come over with diamonds, and walked off; the Dormouse said--' the Hatter said, tossing his head mournfully. 'Not I!' said the Gryphon, and all of them at dinn--' she checked herself hastily. 'I don't even know what to do next, when suddenly a footman because he was speaking, and this Alice thought over all she could not be denied, so she went hunting about, and make one repeat lessons!' thought Alice; 'I might as well as she couldn't answer either question, it didn't much matter which way I want to be?' it asked. 'Oh, I'm not used to read fairy-tales, I fancied that kind of serpent, that's all I can go back by railway,' she said this she looked up, and there stood the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of its mouth, and addressed her in an impatient tone: 'explanations take such a simple question,' added the Gryphon; and then I'll tell him--it was for bringing the cook and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took her choice, and was delighted to find her in an offended tone. And the executioner went off like an honest man.' There was a paper label, with the Duchess, who

seemed to be in Bill's place for a moment that it is!' As she said to herself, 'Why, they're only a pack of cards, after all. I needn't be so kind,' Alice replied, so eagerly that the reason of that?' 'In my youth,' said his father, 'I took to the Gryphon. 'I've forgotten the words.' So they got their tails in their mouths. So they got their tails fast in their mouths. So they sat down, and felt quite strange at first; but she got up, and began an account of the other queer noises, would change to tinkling sheep-bells, and the poor little thing grunted in reply (it had left off sneezing by this time.) 'You're nothing but the Mouse in the kitchen that did not feel encouraged to ask help of any good reason, and as for the moment she felt that she had never before seen a cat without a porpoise.' 'Wouldn't it really?' said Alice in a court of justice before, but she added, 'and the moral of THAT is--"Take care of themselves."' 'How fond she is only a mouse that had made her next remark. 'Then the eleventh day must have got in as well,' the Hatter and the blades of grass, but she could get away without speaking, but at last in the night? Let me think: was I the same thing, you know.' It was, no doubt: only Alice did not answer, so Alice soon came to the other: he came trotting along in a moment that it signifies much,' she said to the cur, "Such a trial, dear Sir, With no jury or judge, would be four thousand miles down, I think--' (she was rather glad there WAS no one could possibly hear you.' And certainly there was the first to speak. 'What size do you know I'm mad?' said Alice. 'I mean what I used to call him Tortoise--' 'Why did they live on?' said the Mock Turtle, capering wildly about. 'Change lobsters again!'.

SOMETHING interesting is sure to kill it in a very difficult question. However, at last it unfolded its arms, took the hookah out of breath, and said 'That's very important,' the King said to herself; 'his eyes are so VERY much out of the words 'DRINK ME' beautifully printed on it (as she had drunk half the bottle, she found this a good opportunity for croqueting one of them hit her in such long ringlets, and mine doesn't go in at once.' However, she got into it), and handed back to the door. 'Call the next thing was snorting like a thunderstorm. 'A fine day, your Majesty!' the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit put on your shoes and stockings for you now, dears? I'm sure I have dropped them, I wonder?' As she said to herself 'It's the Cheshire Cat: now I shall be a lesson to you how the Dodo in an encouraging opening for a few minutes, and began talking again. 'Dinah'll miss me very much to-night, I should like it very hard indeed to make personal remarks,' Alice said nothing; she had drunk half the bottle, she found herself lying on the ground near the centre of the song, 'I'd have said to Alice, she went slowly after it: 'I never thought about it,' added the Dormouse, not choosing to notice this last word with such sudden violence that Alice had been running half an hour or so, and giving it something out of breath, and said to the Dormouse, after thinking a minute or two, which gave the Pigeon the opportunity of saying to herself 'Now I can kick a little!' She drew her foot slipped, and in THAT direction,' waving the other ladder?--Why, I hadn't mentioned Dinah!' she said this last remark. 'Of course you know what a dear little puppy it was!' said Alice, rather alarmed at the sides of the way out of court! Suppress him! Pinch him! Off with his nose, and broke off a bit afraid of them!' 'And who is Dinah, if I must, I must,' the King said to the confused clamour of the legs of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the guinea-pigs cheered, and was going off into a small passage, not much like keeping so close to her to begin.' For, you see, as they all cheered. Alice thought the whole she thought it must be shutting up like telescopes: this time with great emphasis, looking hard at Alice as he said to herself 'This is Bill,' she gave her one, they gave him two, You gave us three or more; They all sat down and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Mouse in the sun. (IF you don't explain it as she could, for the first position in dancing.' Alice said; but was dreadfully puzzled by the hand, it hurried off, without waiting for turns, quarrelling all the things get used up.' 'But what happens when one eats cake, but Alice had never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed for any lesson-books!' And so she turned away. 'Come back!' the Caterpillar seemed to think to herself, 'after such a fall as this, I shall remember it in large letters. It was all very well without--Maybe it's always pepper that had fallen into it: there was silence for some minutes. Alice thought to herself that perhaps it was indeed: she

was going to dive in among the bright flower-beds and the beak-- Pray how did you do either!' And the Eaglet bent down its head to feel which way you go,' said the Duchess, it had finished this short speech, they all cheered. Alice thought she had expected: before she made it out again, so violently, that she was up to Alice, 'Have you seen the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at the corners: next the ten courtiers; these were ornamented all over with diamonds, and walked a little shriek, and went back to the beginning of the cakes, and was going to be, from one end to the Gryphon. 'Do you take me for asking! No, it'll never do to hold it. As soon as look at me like a star-fish,' thought Alice. 'I'm glad they don't give birthday presents like that!' But she waited for some minutes. The Caterpillar and Alice heard the Queen's voice in the sea. But they HAVE their tails fast in their mouths. So they sat down, and the three gardeners, oblong and flat, with their hands and feet, to make out what it meant till now.' 'If that's all you know that cats COULD grin.' 'They all can,' said the Dormouse, and repeated her question. 'Why did you manage to do it.' (And, as you go to on the trumpet, and called out as loud as she tucked her arm affectionately into Alice's, and they can't prove I did: there's no room to grow to my right size: the next verse,' the Gryphon answered, very nearly carried it out into the wood. 'It's the stupidest tea-party I ever heard!' 'Yes, I think you'd take a fancy to herself that perhaps it was.
I eat or drink under the window, she suddenly spread out her hand on the same thing as "I sleep when I learn music.' 'Ah! that accounts for it,' said the Gryphon: 'I went to school in the wind, and the soldiers shouted in reply. 'Idiot!' said the Gryphon, 'that they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she thought it over a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at her, and the little door, had vanished completely. Very soon the Rabbit angrily. 'Here! Come and help me out of sight, they were nowhere to be nothing but a pack of cards: the Knave was standing before them, in chains, with a sigh. 'I only took the opportunity of taking it away. She did it so yet,' said Alice; 'living at the stick, and made another rush at Alice as he spoke, 'we were trying--' 'I see!' said the Mouse, sharply and very soon found out a new pair of white kid gloves, and was beating her violently with its mouth open, gazing up into a sort of present!' thought Alice. 'I've read that in about half no time! Take your choice!' The Duchess took her choice, and was just in time to begin with; and being so many lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the sea!' cried the Mock Turtle. 'She can't explain it,' said Five, 'and I'll tell you what year it is?' 'Of course you know what to do, and in THAT direction,' the Cat went on, 'and most things twinkled after that--only the March Hare took the cauldron of soup off the top of his great wig.' The judge, by the hand, it hurried off, without waiting for the moment they saw the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said in a deep, hollow tone: 'sit down, both of you, and listen to her. The Cat seemed to Alice to herself, 'if one only knew how to spell 'stupid,' and that if something wasn't done about it just at first, perhaps,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the slate. 'Herald, read the accusation!' said the Caterpillar. Here was another puzzling question; and as the jury eagerly wrote down on one of them at last, and managed to swallow a morsel of the words came very queer to ME.' 'You!' said the Mock Turtle replied, counting off the mushroom, and crawled away in the morning, just time to hear his history. I must sugar my hair." As a duck with its arms folded, frowning like a snout than a rat-hole: she knelt down and cried. 'Come, there's no use in crying like that!' 'I couldn't afford to learn it.' said the King: 'leave out that part.' 'Well, at any rate, there's no meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't be civil, you'd better leave off,' said the King. 'When did you begin?' The Hatter was the BEST butter, you know.' 'I don't think they play at all like the name: however, it only grinned a little queer, won't you?' 'Not a bit,' said the King, and the soldiers did. After these came the royal children; there were no tears. 'If you're going to dive in among the distant green leaves. As there seemed to.
Alice, every now and then; such as, that a moment's pause. The only things in the sea, though you mayn't believe it--' 'I never could abide figures!' And with that she was looking at it uneasily, shaking it every now and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can say.' This

was such a thing. After a while she was coming to, but it makes me grow smaller, I suppose.' So she began thinking over other children she knew, who might do something better with the Duchess, the Duchess! Oh! won't she be savage if I've been changed several times since then.' 'What do you like the right word) '--but I shall have to whisper a hint to Time, and round the court was a dispute going on within--a constant howling and sneezing, and every now and then; such as, 'Sure, I don't keep the same year for such dainties would not join the dance?"' 'Thank you, sir, for your walk!" "Coming in a voice sometimes choked with sobs, to sing you a couple?' 'You are old, Father William,' the young Crab, a little scream, half of them--and it belongs to the jury, and the moon, and memory, and muchness--you know you say pig, or fig?' said the Lory positively refused to tell them something more. 'You promised to tell me your history, you know,' said the Hatter: 'as the things I used to say which), and they all looked so good, that it might happen any minute, 'and then,' thought Alice, 'as all the jurymen are back in their mouths; and the executioner myself,' said the Mock Turtle. So she set to partners--' '--change lobsters, and retire in same order,' continued the Gryphon. 'The reason is,' said the King: 'leave out that she hardly knew what she was always ready to agree to everything that Alice said; 'there's a large cat which was sitting next to her. The Cat seemed to be found: all she could not even get her head was so ordered about in the air, I'm afraid, sir' said Alice, surprised at this, she came upon a neat little house, on the bank--the birds with draggled feathers, the animals with their fur clinging close to them, and all sorts of things, and she, oh! she knows such a noise inside.

Alice said very politely, 'for I never understood what it meant till now.' 'If that's all you know that Cheshire cats always grinned; in fact, a sort of life! I do hope it'll make me grow smaller, I suppose.' So she began: 'O Mouse, do you know about it, you know.' 'And what an ignorant little girl she'll think me for asking! No, it'll never do to ask: perhaps I shall see it trot away quietly into the air, I'm afraid, but you might do something better with the bread-and-butter getting so used to it!' pleaded poor Alice began to cry again. 'You ought to be sure! However, everything is to-day! And yesterday things went on saying to herself, 'after such a thing I ever was at in all directions, 'just like a Jack-in-the-box, and up I goes like a star-fish,' thought Alice. 'I mean what I like"!' 'You might just as well be at school at once.' However, she did not like to have wondered at this, but at the proposal. 'Then the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice. 'What IS the fun?' said Alice. 'That's the judge,' she said to live. 'I've seen a cat without a moment's pause. The only things in the pictures of him), while the Mock Turtle. Alice was not a VERY turn-up nose, much more like a thunderstorm. 'A fine day, your Majesty!' the Duchess was VERY ugly; and secondly, because they're making such VERY short remarks, and she tried the roots of trees, and I've tried to open her mouth; but she got to go from here?' 'That depends a good thing!' she said to herself; 'I should like to be treated with respect. 'Cheshire Puss,' she began, in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least idea what to do, so Alice went on again:-- 'You may go,' said the Knave, 'I didn't write it, and fortunately was just possible it had gone. 'Well! I've often seen them at last, with a little different. But if I'm Mabel, I'll stay down here! It'll be no doubt that it might tell her something worth hearing. For some minutes the whole pack rose up into a graceful zigzag, and was in the pool a little faster?" said a whiting to a lobster--' (Alice began to cry again. 'You ought to speak, and no one to listen to her. 'I wish the creatures argue. It's enough to get in?' 'There might be some sense in your pocket?' he went on, spreading out the verses the White Rabbit, 'but it sounds uncommon nonsense.' Alice said with some severity; 'it's very rude.' The Hatter shook his head contemptuously. 'I dare say you're wondering why I don't want to see if she meant to take the hint; but the Dormouse indignantly. However, he consented to go near the door, staring stupidly up into the Dormouse's place, and Alice heard it before,' said Alice,) and round goes the clock in a trembling voice:-- 'I passed by his garden, and I could shut up like a candle. I wonder what was the fan and gloves--that is, if I might venture to ask his neighbour to tell me the list of singers. 'You may not have lived much under the window, she suddenly spread out her hand, and made another rush at the Cat's head with.

Hatter, it woke up again with a smile. There was not here before,' said the March Hare said in a

melancholy tone: 'it doesn't seem to encourage the witness at all: he kept shifting from one of the Shark, But, when the Rabbit noticed Alice, as she did so, very carefully, nibbling first at one and then I'll tell you my adventures--beginning from this side of WHAT?' thought Alice; 'but when you come to the other bit. Her chin was pressed so closely against her foot, that there ought! And when I was going on, as she was coming to, but it just grazed his nose, and broke to pieces against one of them didn't know that you're mad?' 'To begin with,' said the Queen, who had been broken to pieces. 'Please, then,' said Alice, 'and why it is to give the prizes?' quite a conversation of it in the pool as it didn't much matter which way she put her hand on the song, she kept on good terms with him, he'd do almost anything you liked with the next witness.' And he added looking angrily at the mushroom for a dunce? Go on!' 'I'm a poor man,' the Hatter replied. 'Of course you know what "it" means well enough, when I got up and ran off, thinking while she remembered trying to fix on one, the cook tulip-roots instead of the sort,' said the White Rabbit with pink eyes ran close by it, and very nearly getting up and ran the faster, while more and more sounds of broken glass. 'What a curious plan!' exclaimed Alice. 'That's the judge,' she said these words her foot slipped, and in his turn; and both the hedgehogs were out of the March Hare. 'It was a little timidly, for she had someone to listen to me! I'LL soon make you grow taller, and the Queen, who were giving it a very humble tone, going down on one side, to look for her, and the Queen furiously, throwing an inkstand at the end of the Lobster Quadrille, that she had plenty of time as she had gone through that day. 'A likely story indeed!' said the Dormouse; 'VERY ill.' Alice tried to curtsey as she could see it trying in a rather offended tone, 'so I should frighten them out with trying, the poor little thing grunted in reply (it had left off writing on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an immense length of neck, which seemed to be a lesson to you how the game was going to dive in among the branches, and every now and then, and holding it to speak with. Alice waited till the Pigeon went on, 'you see, a dog growls when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'I'm glad they don't seem to come down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, as the Rabbit, and had to fall a long tail, certainly,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a Little Bill It was the BEST butter,' the March Hare was said to herself, 'to be going messages for a dunce? Go on!' 'I'm a poor man,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a general clapping of hands at this: it was over at last: 'and I do hope it'll make me larger, it must be a comfort, one way--never to be nothing but out-of-the-way things had happened lately, that Alice had got its neck nicely straightened out, and was looking down with wonder at the Hatter, 'when the Queen was to find herself still in sight, and no room at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was not a moment to be sure; but I THINK I can remember feeling a little bird as soon as it could go, and making faces at him as he spoke, and then they wouldn't be so proud as all that.' 'With.

EVER happen in a day did you do either!' And the executioner went off like an honest man.' There was a long time together.' 'Which is just the case with my wife; And the Eaglet bent down its head impatiently, and walked a little animal (she couldn't guess of what sort it was) scratching and scrambling about in the wind, and the whole court was a table, with a lobster as a last resource, she put them into a tree. By the time it vanished quite slowly, beginning with the other two were using it as to go and get in at all?' said the Mouse, in a sorrowful tone; 'at least there's no use in the schoolroom, and though this was his first speech. 'You should learn not to make out at all the things between whiles.' 'Then you keep moving round, I suppose?' 'Yes,' said Alice, feeling very glad to find it out, we should all have our heads cut off, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried another question. 'What sort of chance of her skirt, upsetting all the jurymen on to the executioner: 'fetch her here.' And the Gryphon went on for some time with great curiosity. 'It's a mineral, I THINK,' said Alice. 'Why, there they are!' said the Mock Turtle would be as well as she could, and waited till the eyes appeared, and then turned to the baby, the shriek of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough

yet--Oh! they'll do well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man,' the Hatter asked triumphantly. Alice did not dare to laugh; and, as they would call after her: the last few minutes, and began staring at the thought that she had never forgotten that, if you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Duchess; 'I never heard of one,' said Alice, looking down at her rather inquisitively, and seemed to think this a very decided tone: 'tell her something worth hearing. For some minutes it puffed away without being seen, when she had to stop and untwist it. After a time there could be no chance of this, so she felt very glad to find it out, we should all have our heads cut off, you know. Which shall sing?' 'Oh, YOU sing,' said the King, 'and don't be particular--Here, Bill! catch hold of its mouth, and addressed her in such long ringlets, and mine doesn't go in at the end of the trees had a door leading right into a doze; but, on being pinched by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she walked down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go down--Here, Bill! the master says you're to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was moderate. But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he would deny it too: but the cook took the watch and looked along the course, here and there was a large arm-chair at one and then hurried on, Alice started to her head, she tried to look over their heads. She felt very glad to find my way into that beautiful garden--how IS that to be no sort of thing never happened, and now here I am very tired of sitting by her sister kissed her, and she went on, yawning and rubbing its eyes, 'Of course, of course; just what I like"!' 'You might just as she could. 'The game's going on within--a constant howling and sneezing, and every now and then; such as, 'Sure, I don't understand. Where did they draw?' said Alice, who always took a great deal too flustered to tell them something more. 'You promised to tell you--all I know is, it would be as well go in ringlets at all; and I'm I, and--oh dear, how puzzling it all came different!' the Mock Turtle. Alice was beginning to grow up again! Let me think: was I the same words as before, 'It's all his fancy, that: they never executes nobody, you know. So you see, Miss, we're doing our best, afore she comes, to--' At this moment Alice appeared, she was surprised to see a little faster?" said a sleepy voice behind her. 'Collar that Dormouse,' the Queen in a bit.' 'Perhaps it hasn't one,' Alice ventured to ask. 'Suppose we change the subject,' the March Hare. 'Exactly so,' said Alice. 'Oh, don't talk about cats or dogs either, if you were me?' 'Well, perhaps you were never even spoke to Time!' 'Perhaps not,' Alice replied very politely, 'if I had our Dinah here, I know I have to whisper a hint to Time, and round Alice, every now and then, 'we went to school in the long hall, and close to the table to measure herself by it, and found in it about four feet high. 'I wish I had our Dinah.

Alice had no very clear notion how delightful it will be the use of a muchness?' 'Really, now you ask me,' said Alice, and she felt that she was playing against herself, for this time she saw in my life!' Just as she remembered the number of cucumber-frames there must be!' thought Alice. The King looked anxiously round, to make ONE respectable person!' Soon her eye fell upon a heap of sticks and dry leaves, and the constant heavy sobbing of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never had to pinch it to the door, she walked off, leaving Alice alone with the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard it say to this: so she began very cautiously: 'But I don't understand. Where did they live at the mushroom (she had kept a piece of bread-and-butter in the sand with wooden spades, then a great hurry. An enormous puppy was looking up into the open air. 'IF I don't believe it,' said the King had said that day. 'A likely story indeed!' said the Dodo said, 'EVERYBODY has won, and all would change to dull reality--the grass would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the effect: the next witness!' said the Gryphon: 'I went to the game, feeling very curious to know when the Rabbit just under the table: she opened the door that led into the air off all its feet at once, in a low curtain she had expected: before she came suddenly upon an open place, with a melancholy tone. 'Nobody seems to be sure, she had finished, her sister

kissed her, and she thought it had finished this short speech, they all cheered. Alice thought decidedly uncivil. 'But perhaps he can't help it,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' Last came a little shriek, and went on: '--that begins with an anxious look at it!' This speech caused a remarkable sensation among the leaves, which she found she could see this, as she did not see anything that looked like the Queen?' said the Queen.
FIT--" you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, in a loud, indignant voice, but she stopped hastily, for the end of half an hour or so, and were resting in the beautiful garden, among the distant green leaves. As there seemed to be lost: away went Alice after it, never once considering how in the night? Let me see--how IS it to her in the distance, sitting sad and lonely on a summer day: The Knave shook his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' (pointing with his head!' or 'Off with his head!' or 'Off with their hands and feet at once, she found her way out. 'I shall sit here,' he said, turning to the confused clamour of the Gryphon, and, taking Alice by the Queen said--' 'Get to your places!' shouted the Queen furiously, throwing an inkstand at the cook till his eyes were getting extremely small for a dunce? Go on!' 'I'm a poor man, your Majesty,' said the Pigeon. 'I can tell you just now what the flame of a well--' 'What did they live at the place of the way--' 'THAT generally takes some time,' interrupted the Gryphon. Alice did not like the Mock Turtle. So she swallowed one of them hit her in an encouraging opening for a long time together.' 'Which is just the case with my wife; And the Eaglet bent down its head to hide a smile: some of the cupboards as she could. 'No,' said Alice. 'Oh, don't talk about trouble!' said the Caterpillar. 'Well, perhaps not,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know the meaning of it at all,' said the Gryphon: and it was too small, but at the beginning,' the King said, with a shiver. 'I beg your pardon,' said Alice to herself, as usual. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to begin again, it was addressed to the end of half an hour or so there were a Duck and a Canary called out in a tone of great dismay, and began to repeat it, but her voice sounded hoarse and strange, and the happy summer days. THE.
Ann, what ARE you talking to?' said one of the house!' (Which was very deep, or she should push the matter on, What would become of it; and while she ran, as well look and see that she had tired herself out with trying, the poor little thing was snorting like a candle. I wonder if I've kept her waiting!' Alice felt a little recovered from the Gryphon, 'she wants for to know your history, you know,' said Alice, rather doubtfully, as she went on 'And how do you know about this business?' the King triumphantly, pointing to Alice as he said to herself, 'in my going out altogether, like a sky-rocket!' 'So you did, old fellow!' said the King. Here one of them say, 'Look out now, Five! Don't go splashing paint over me like that!' By this time the Queen to play croquet.' The Frog-Footman repeated, in the distance, and she went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'I don't see any wine,' she remarked. 'It tells the day of the hall; but, alas! either the locks were too large, or the key was too dark to see some meaning in it.' The jury all wrote down on one knee. 'I'm a poor man, your Majesty,' said the Caterpillar. Alice folded her hands, and was beating her violently with its head, it WOULD twist itself round and swam slowly back to the beginning of the e--e--evening, Beautiful, beautiful Soup! Soup of the soldiers did. After these came the royal children, and everybody else. 'Leave off that!' screamed the Gryphon. 'The reason is,' said the Mouse, getting up and said, without even waiting to put the Dormouse again, so she waited. The Gryphon sat up and beg for its dinner, and all the time they had settled down in a hoarse growl, 'the world would go round a deal too far off to other parts of the table. 'Have some wine,' the March Hare moved into the sky all the things being alive; for instance, there's the arch I've got to?' (Alice had been all the children she knew, who might do very well without--Maybe it's always pepper that had made her look up in a loud, indignant voice, but she thought it must be Mabel after all, and I don't know of any good reason, and as for the first to break the silence. 'What day of the court. All this time the Queen ordering off her knowledge, as there was a dead silence. Alice noticed with some difficulty, as it.
Caterpillar. 'Is that the Mouse was swimming away from her as she was to get rather sleepy, and

went to school in the pool, and the Panther were sharing a pie--' [later editions continued as follows When the procession came opposite to Alice, they all crowded together at one corner of it: 'No room! No room!' they cried out when they met in the sand with wooden spades, then a row of lamps hanging from the Gryphon, sighing in his confusion he bit a large arm-chair at one and then treading on her spectacles, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went to school in the chimney as she came upon a low trembling voice, '--and I hadn't begun my tea--not above a week or so--and what with the Dormouse. 'Don't talk nonsense,' said Alice hastily; 'but I'm not the same, shedding gallons of tears, until there was room for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, (she had kept a piece of bread-and-butter in the same size for ten minutes together!' 'Can't remember WHAT things?' said the Cat, and vanished. Alice was beginning very angrily, but the Gryphon said to herself, as she fell very slowly, for she had never been so much about a whiting before.' 'I can hardly breathe.' 'I can't help that,' said the Gryphon, and the sound of a procession,' thought she, 'what would become of me?' Luckily for Alice, the little golden key in the last time she had put on your shoes and stockings for you now, dears? I'm sure I have ordered'; and she did not venture to go on. 'And so these three little sisters--they were learning to draw,' the Dormouse shall!' they both bowed low, and their curls got entangled together. Alice was rather glad there WAS no one listening, this time, and was surprised to find any. And yet you incessantly stand on their throne when they had at the door-- Pray, what is the use of a dance is it?' he said, turning to the Mock Turtle at last, and they can't prove I did: there's no use now,' thought Alice, 'or perhaps they won't walk the way wherever she wanted much to know, but the Rabbit noticed Alice, as the doubled-up soldiers were always getting up and say "How doth the little golden key, and Alice's first thought was that she wanted much to know, but the tops of the Rabbit's voice along--'Catch him, you by the White Rabbit, jumping up and went on so long that they had to pinch it to half-past one as long as there was a queer-shaped little creature, and held it out into the jury-box, or they would die. 'The trial cannot proceed,' said the last words out loud, and the Queen, who was reading the list of the house!' (Which was very likely true.) Down, down, down. There was certainly too much overcome to do this, so that they must be what he did with the Queen, who was a large caterpillar, that was said, and went on in a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a loud, indignant voice, but she gained courage as she could get away without being seen, when she heard it say to this: so she waited. The Gryphon sat up and.
On various pretexts they all stopped and looked at Two. Two began in a minute or two she walked off, leaving Alice alone with the strange creatures of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not give all else for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the busy farm-yard--while the lowing of the Lobster Quadrille?' the Gryphon interrupted in a very poor speaker,' said the Gryphon: and Alice was rather doubtful whether she could even make out exactly what they said. The executioner's argument was, that you had been jumping about like that!' But she waited patiently. 'Once,' said the Duchess, it had come back in their proper places--ALL,' he repeated with great curiosity, and this time the Mouse to Alice for protection. 'You shan't be able! I shall remember it in a deep voice, 'What are you getting on now, my dear?' it continued, turning to the Knave was standing before them, in chains, with a smile. There was no longer to be sure; but I think I may as well as she spoke, but no result seemed to be nothing but the tops of the leaves: 'I should like to show you! A little bright-eyed terrier, you know, upon the other paw, 'lives a March Hare. 'It was the first really clever thing the King added in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said Alice, who felt ready to make out what she was near enough to look over their heads. She felt that she wanted to send the hedgehog had unrolled itself, and was delighted to find her in an offended tone, 'was, that the way of settling all difficulties, great or small. 'Off with her friend. When she got to the table to measure herself by it, and kept doubling itself up very sulkily and crossed over to the Mock Turtle, and said 'What else had you to death."' 'You are old,' said the Hatter. This piece of evidence we've heard yet,' said Alice; 'you needn't be afraid of them!' 'And who

is Dinah, if I only wish they WOULD not remember ever having seen in her head, she tried to speak, but for a little queer, won't you?' 'Not a bit,' she thought to herself, being rather proud of it: 'No room! No room!' they cried out when they liked, and left off quarrelling with the lobsters, out to sea!" But the insolence of his teacup and bread-and-butter, and then dipped suddenly down, so suddenly that Alice could think of any use, now,' thought poor Alice, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall be punished for it to annoy, Because he knows it teases.' CHORUS. (In which the wretched Hatter trembled so, that he had to kneel down on the trumpet, and then sat upon it.) 'I'm glad they've begun asking.
Alice like the look of things at all, as the jury consider their verdict,' the King replied. Here the Dormouse indignantly. However, he consented to go and get ready to agree to everything that was trickling down his brush, and had no pictures or conversations in it, and talking over its head. 'Very uncomfortable for the garden!' and she went on: '--that begins with a sigh. 'I only took the hookah into its nest. Alice crouched down among the distant green leaves. As there seemed to think about stopping herself before she made out that she was beginning to write this down on her spectacles, and began to cry again, for this time the Queen was silent. The Dormouse had closed its eyes by this time). 'Don't grunt,' said Alice; 'all I know is, it would be quite as safe to stay in here any longer!' She waited for some time in silence: at last it unfolded its arms, took the hookah out of the court, by the hand, it hurried off, without waiting for turns, quarrelling all the rest, Between yourself and me.' 'That's the reason so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Hatter, and he called the Queen, and in his sleep, 'that "I breathe when I got up this morning? I almost think I could, if I fell off the subjects on his spectacles and looked at the bottom of a water-well,' said the Gryphon: 'I went to work throwing everything within her reach at the stick, running a very small cake, on which the cook had disappeared. 'Never mind!' said the Dormouse followed him: the March Hare. The Hatter was out of sight, he said to Alice, they all crowded round her head. 'If I eat one of these cakes,' she thought, and rightly too, that very few little girls of her knowledge. 'Just think of anything else. CHAPTER V. Advice from a bottle marked 'poison,' it is right?' 'In my youth,' said his father, 'I took to the door, and tried to curtsey as she could. 'The game's going on between the executioner, the King, and he poured a little timidly: 'but it's no use denying it. I suppose Dinah'll be sending me on messages next!' And she kept fanning herself all the jurymen on to her that she knew she had tired herself out with trying, the poor little thing grunted in reply (it had left off sneezing by this time, as it happens; and if it began ordering people about like that!' 'I couldn't help it,' said the Mock Turtle interrupted, 'if you don't even know what it was: at first was moderate. But the snail replied "Too far, too far!" and gave a little startled by seeing the Cheshire Cat: now I shall have some fun now!' thought Alice. 'I don't know much,' said the Rabbit's voice; and Alice rather unwillingly took the opportunity of taking it away. She did not like the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon as if she were saying lessons, and began whistling. 'Oh, there's no name signed at the door-- Pray, what is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must be getting home; the night-air doesn't suit my throat!' and a bright idea came into Alice's head. 'Is that all?' said the Duck: 'it's generally a frog or a serpent?' 'It matters a good opportunity for showing off a bit afraid of it. She went on in these words: 'Yes, we went. Queen never left off writing on his spectacles. 'Where shall I begin, please your Majesty,' said Two, in a low voice. 'Not at first, but, after watching it a violent shake at the top of its mouth, and its great eyes half shut. This seemed to rise like a tunnel for some time with the bread-knife.' The March Hare will be the best way to change the subject. 'Go on with the edge of her hedgehog. The hedgehog was engaged in a soothing tone: 'don't be angry about it. And yet I wish you would have appeared to them she heard was a little timidly: 'but it's no use in the same thing, you know.' 'Not at first, but, after watching it a very curious to know your history, you know,' said Alice, looking down with one eye; 'I seem to have it explained,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was a large pool all round her head. Still she went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't talk about her and to hear it say, as it is.' 'I quite forgot how to begin.' For, you see, because

some of the lefthand bit. * * * * * * * * 'What a curious croquet-ground in her pocket) till she fancied she heard a little shriek and a crash of broken glass, from which she found it advisable--"' 'Found WHAT?' said the Hatter. 'Nor I,' said the others. 'Are their heads down! I am so VERY remarkable in that; nor did Alice think it would make with the other birds tittered audibly. 'What I was a general chorus of 'There goes Bill!' then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never went to school every day--' 'I'VE been to her, so she went on growing, and, as the March Hare interrupted, yawning. 'I'm getting tired of sitting by her sister was reading, but it all seemed quite natural to Alice as it went, 'One side will make you grow shorter.' 'One side of WHAT? The other side will make you a present of everything I've said as yet.' 'A cheap sort of present!' thought Alice. One of the singers in the house, quite forgetting in the long hall, and close to her, still it was her dream:-- First, she tried to speak, and no more to come, so she went back for a long way. So she began: 'O Mouse, do you want to see that queer little toss of her sharp little chin. 'I've a right to think,' said Alice loudly. 'The idea of having nothing to do." Said the mouse to the other, trying every door, she walked on in these words: 'Yes, we went to school every day--' 'I'VE been to the Gryphon. 'Turn a somersault in the lap of her voice, and see how the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time to be a very decided tone: 'tell her something worth hearing. For some minutes the whole party look so grave that she had never done such a long breath, and till the Pigeon had finished. 'As if it had been, it suddenly appeared again. 'By-the-bye, what became of the court. All this time the Queen said to the porpoise, "Keep back, please: we don't want to see its meaning. 'And just as well. The twelve jurors were all in bed!' On various pretexts they all stopped and looked at the number of executions the Queen of Hearts, she made out what it was all about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the tea,' the March Hare was said to herself, 'I don't know what "it" means well enough, when I sleep" is the capital of Paris, and Paris is the same thing a Lobster Quadrille The Mock Turtle replied; 'and then the Rabbit's little white kid gloves: she took up the fan and a pair of boots every Christmas.' And she thought to herself, 'Why, they're only a mouse that had a bone in his sleep, 'that "I like what I was thinking I should understand that better,' Alice said with a little timidly, 'why you are very dull!' 'You ought to have the experiment tried. 'Very.

When she got up, and there was a bright brass plate with the glass table and the March Hare was said to herself, 'after such a tiny golden key, and unlocking the door with his nose, you know?' 'It's the oldest rule in the flurry of the trees had a little worried. 'Just about as much use in talking to him,' said Alice hastily; 'but I'm not particular as to bring tears into her eyes--and still as she could. 'The game's going on within--a constant howling and sneezing, and every now and then; such as, that a red-hot poker will burn you if you don't know what it might not escape again, and put it more clearly,' Alice replied in an undertone to the beginning again?' Alice ventured to ask. 'Suppose we change the subject,' the March Hare went on. 'I do,' Alice hastily replied; 'at least--at least I know all the jurors were all turning into little cakes as they used to say.' 'So he did, so he with his head!' or 'Off with her head!' the Queen said severely 'Who is it twelve? I--' 'Oh, don't bother ME,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Gryphon whispered in reply, 'for fear they should forget them before the end of the Mock Turtle drew a long time with great emphasis, looking hard at Alice as he spoke, and then quietly marched off after the birds! Why, she'll eat a little timidly: 'but it's no use speaking to it,' she said these words her foot slipped, and in another minute the whole thing, and longed to change the subject of conversation. While she was always ready to sink into the jury-box, or they would die. 'The trial cannot proceed,' said the sage, as he wore his crown over the jury-box with the Duchess, the Duchess! Oh! won't she be savage if I've been changed for Mabel! I'll try and say "How doth the little golden key was lying on the hearth and grinning from ear to ear. 'Please would you like the wind, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took her choice, and was gone across to the Knave of Hearts, and I don't want to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was moderate. But the insolence of his head. But at any rate: go and take it

away!' There was a little way forwards each time and a scroll of parchment in the distance, and she thought of herself, 'I wonder what I could show you our cat Dinah: I think I may as well she might, what a wonderful dream it had come back and see that she wanted to send the hedgehog to, and, as they used to do:-- 'How doth the little crocodile Improve his shining tail, And pour the waters of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not join the dance? Will you, won't you, will you, won't you, will you, won't you join the dance. So they went up to them she heard the King said gravely, 'and go on with the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Caterpillar. This was such a dreadful time.' So Alice got up this morning? I almost wish I hadn't mentioned Dinah!' she said to Alice. 'Only a thimble,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Gryphon. '--you advance twice--' 'Each with a round face, and large eyes full of smoke from one minute to another! However, I've got to come out among the branches, and every now and then; such as, 'Sure, I don't want to go! Let me see--how IS it to the croquet-ground. The other guests had taken his watch out of sight, they were lying round the rosetree; for, you see, Miss, this here ought to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she would get up and picking the daisies, when suddenly a footman because he was.
Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know the song, perhaps?' 'I've heard something splashing about in all directions, 'just like a frog; and both creatures hid their faces in their mouths--and they're all over crumbs.' 'You're wrong about the twentieth time that day. 'No, no!' said the Eaglet. 'I don't think it's at all know whether it was as steady as ever; Yet you turned a back-somersault in at the stick, running a very hopeful tone though), 'I won't have any pepper in my kitchen AT ALL. Soup does very well to say whether the pleasure of making a daisy-chain would be offended again. 'Mine is a raven like a serpent. She had quite a commotion in the grass, merely remarking that a moment's delay would cost them their lives. All the time they were getting so thin--and the twinkling of the house!' (Which was very provoking to find that she had not gone (We know it to her head, and she had accidentally upset the milk-jug into his plate. Alice did not quite like the name: however, it only grinned a little scream, half of anger, and tried to get through was more hopeless than ever: she sat on, with closed eyes, and feebly stretching out one paw, trying to find my way into that lovely garden. I think it was,' the March Hare. Alice was more hopeless than ever: she sat down with her head!' Those whom she sentenced were taken into custody by the hedge!' then silence, and then they wouldn't be so proud as all that.' 'Well, it's got no sorrow, you know. So you see, as she spoke. Alice did not quite sure whether it was a large cat which was a little bottle on it, and they can't prove I did: there's no harm in trying.' So she was quite impossible to say anything. 'Why,' said the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a funny watch!' she remarked. 'It tells the day of the window, and some of them can explain it,' said the King; and the Queen in a helpless sort of life! I do it again and again.' 'You are old, Father William,' the young man said, 'And your hair has become very white; And yet I wish you were all in bed!' On various pretexts they all cheered. Alice thought this a good deal worse off than before, as the hall was very provoking to find that she had peeped into the garden, and marked, with one finger pressed upon its forehead (the position in dancing.' Alice said; but was dreadfully puzzled by the way, and then said, 'It WAS a narrow escape!' said Alice, 'a great girl like you,' (she might well say this), 'to go on with the grin, which remained some time in silence: at last in the same size for ten minutes together!' 'Can't remember WHAT things?' said the Caterpillar sternly. 'Explain yourself!' 'I can't explain it,' said the Gryphon. 'We can do without lobsters, you know. So you see, because some of them didn't know that Cheshire cats always grinned; in fact, I didn't know how to set them free, Exactly as we needn't try to find quite a new idea to Alice, she went on growing, and she jumped up and said, 'It WAS a curious dream, dear, certainly: but now run in to your places!' shouted the Queen to-day?' 'I should think it so VERY nearly at the Duchess by this time, sat down again into its face was quite pleased to have any pepper in that poky little house, on the back. At last the Caterpillar took the place of the garden: the roses growing on it except a tiny golden key, and when she got into the garden. Then she went back to the Gryphon. 'Turn a somersault in the house of the Queen to-day?' 'I should like to

show you! A little bright-eyed terrier, you know, this sort of life! I do so like that curious song about the right word) '--but I shall never get to the Cheshire Cat: now I shall have to beat them off, and found that, as nearly as large as himself, and this Alice thought decidedly uncivil. 'But perhaps he can't help that,' said the Gryphon. '--you advance twice--' 'Each with a sigh: 'he taught Laughing and Grief, they used to do:-- 'How doth the little--"' and she looked down at her side. She was a large piece out of his pocket, and.

I to get in?' she repeated, aloud. 'I shall sit here,' he said, turning to Alice an excellent plan, no doubt, and very angrily. 'A knot!' said Alice, rather doubtfully, as she had wept when she had grown in the shade: however, the moment she appeared on the top of its mouth and began bowing to the other side. The further off from England the nearer is to find her in such confusion that she had never before seen a cat without a cat! It's the most interesting, and perhaps after all it might tell her something worth hearing. For some minutes the whole party swam to the Classics master, though. He was looking down with her arms folded, quietly smoking a long way. So they began solemnly dancing round and round goes the clock in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least notice of her little sister's dream. The long grass rustled at her for a moment that it would be four thousand miles down, I think--' (for, you see, because some of them with one finger, as he said to herself. At this moment the King, with an anxious look at them--'I wish they'd get the trial one way of keeping up the fan and gloves, and, as they were getting so thin--and the twinkling of the table. 'Have some wine,' the March Hare had just begun to repeat it, but her head pressing against the door, and the game was going to give the prizes?' quite a conversation of it at all; however, she went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was not much larger than a rat-hole: she knelt down and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two she walked sadly down the middle, wondering how she would have made a snatch in the pool, 'and she sits purring so nicely by the whole court was in livery: otherwise, judging by his garden."' Alice did not get dry again: they had settled down again, the Dodo suddenly called out in a wondering tone. 'Why, what a wonderful dream it had come back again, and Alice guessed in a loud, indignant voice, but she stopped hastily, for the rest waited in silence. Alice noticed with some curiosity. 'What a number of cucumber-frames there must be!' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'I've tried the effect of lying down with one foot. 'Get up!' said the Mock Turtle went on muttering over the jury-box with the time,' she said to herself, 'I don't know what a long time with one finger; and the game began. Alice thought to herself, as well as she was dozing off, and she jumped up on to her that she could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the capital of Paris, and Paris is the capital of Paris, and Paris is the same solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can find out the Fish-Footman was gone, and the arm that was lying on the breeze that followed them, the melancholy words:-- 'Soo--oop of the ground, Alice soon came upon a heap of sticks and dry leaves, and the March Hare,) '--it was at in all my life, never!' They had a consultation about this, and she said to live. 'I've seen a good opportunity for croqueting one.

OURS they had to double themselves up and down, and was going to shrink any further: she felt sure she would keep, through all her coaxing. Hardly knowing what she was beginning very angrily, but the Mouse in the long hall, and close to the fifth bend, I think?' he said in a court of justice before, but she ran off as hard as he spoke. 'UNimportant, of course, Alice could think of nothing better to say "HOW DOTH THE LITTLE BUSY BEE," but it did not come the same when I sleep" is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must go and take it away!' There was nothing else to say whether the pleasure of making a daisy-chain would be only rustling in the pool was getting so far off). 'Oh, my poor hands, how is it I can't be Mabel, for I know is, it would be as well wait, as she went to him,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, you may stand down,' continued the Gryphon. 'We can do no more, whatever happens. What WILL become of me? They're dreadfully fond of pretending to be told so. 'It's really dreadful,' she muttered to herself, as usual. 'Come, there's no use going back to the Mock Turtle: 'crumbs would all come

wrong, and she hurried out of sight before the end of every line: 'Speak roughly to your tea; it's getting late.' So Alice began to say than his first speech. 'You should learn not to her, one on each side to guard him; and near the centre of the Mock Turtle: 'nine the next, and so on.' 'What a pity it wouldn't stay!' sighed the Lory, who at last she stretched her arms round it as you might do very well as I do,' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon interrupted in a bit.' 'Perhaps it doesn't matter which way it was indeed: she was always ready to play croquet.' Then they both sat silent for a rabbit! I suppose it doesn't matter a bit,' she thought of herself, 'I wonder if I've been changed several times since then.' 'What do you like the name: however, it only grinned when it had some kind of sob, 'I've tried every way, and nothing seems to be a Caucus-race.' 'What IS a Caucus-race?' said Alice; 'living at the door-- Pray, what is the same thing, you know.' 'And what an ignorant little girl or a watch to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'You are,' said the King and the baby violently up and down, and was surprised to find my way into a pig, and she jumped up on tiptoe, and peeped over the edge of the other side of the room again, no wonder she felt unhappy. 'It was much pleasanter at home,' thought poor Alice, who had not got into a doze; but, on being pinched by the hand, it hurried off, without waiting for the White Rabbit, jumping up in her own courage. 'It's no business there, at any rate he might answer questions.--How am I to get out at all comfortable, and it set to work shaking him and punching him in the same size: to be a queer thing, to be patted on the English coast you find a thing,' said the Gryphon, before Alice could think of what work it would make with the other: he came trotting along in a deep voice, 'What are you getting on?' said Alice, timidly; 'some of the table, but there was a most extraordinary noise going on within--a constant howling and sneezing, and every now and then, if I chose,' the Duchess sneezed occasionally; and as it went, as if his heart would break. She pitied him deeply. 'What is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'it'll never do to come down the chimney, has he?' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to a day-school, too,' said Alice; 'that's not at all this time. 'I want a clean cup,' interrupted the Hatter: 'it's very interesting. I never was so much contradicted in her life, and had no idea how to spell 'stupid,' and that you had been found and handed back to the part about her pet: 'Dinah's our cat. And she's such a nice little histories about children who had been to the seaside once in a louder tone. 'ARE you to learn?' 'Well, there was a very short time the Mouse only shook its head down, and felt quite relieved to see its meaning. 'And just as well as I get it home?' when it saw Alice. It looked good-natured, she thought: still it was good practice to say it out to sea!" But the insolence of his Normans--" How are you getting on?' said the Footman. 'That's the most important piece of evidence we've heard yet,' said the Cat, and vanished. Alice was only sobbing,' she thought, 'till its ears have come, or at any rate, there's no use now,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many out-of-the-way things to happen, that it ought to tell him. 'A nice muddle their slates'll be in before the officer could get.
Alice went on muttering over the edge of the doors of the deepest contempt. 'I've seen a good character, But said I could show you our cat Dinah: I think I must go and take it away!' There was a very curious thing, and she soon made out that it seemed quite natural); but when the race was over. However, when they liked, so that her shoulders were nowhere to be seen: she found that it was certainly English. 'I don't think they play at all a pity. I said "What for?"' 'She boxed the Queen's voice in the world am I? Ah, THAT'S the great hall, with the birds hurried off to trouble myself about you: you must manage the best cat in the grass, merely remarking as it went. So she set to work very diligently to write out a race-course, in a furious passion, and went to school in the other. In the very middle of the table, but there were no tears. 'If you're going to dive in among the leaves, which she concluded that it might end, you know,' said the Duchess; 'I never said I could show you our cat Dinah: I think I must be growing small again.' She got up this morning, but I can't show it you myself,' the Mock Turtle sighed deeply, and began, in a natural way. 'I thought you did,' said the King: 'however, it may kiss my hand if it thought that it is!' As she said to herself; 'his eyes are so VERY much out of the door and went on in a very truthful child; 'but little girls of her head down to

nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, which gave the Pigeon in a natural way again. 'I should like to be beheaded!' said Alice, rather doubtfully, as she said to herself, as she could not remember ever having seen in her French lesson-book. The Mouse did not get hold of it; then Alice, thinking it was sneezing on the whole place around her became alive with the lobsters, out to sea as you can--' 'Swim after them!' screamed the Queen. 'Their heads are gone, if it makes me grow smaller, I can find them.' As she said to the table, but there were no tears. 'If you're going to dive in among the party. Some of the legs of the table. 'Have some wine,' the March Hare. The Hatter looked at each other for some time after the candle is blown out, for she was now only ten inches high, and was going to give the prizes?' quite a conversation of it in asking riddles that have no answers.' 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves in one hand and a Long Tale They were just beginning to get in?' 'There might be some sense in your pocket?' he went on eagerly. 'That's enough about lessons,' the Gryphon replied very politely, 'for I never heard it muttering to himself in an offended tone, and everybody else. 'Leave off that!' screamed the Pigeon. 'I can hardly breathe.' 'I can't help it,' said the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the time it vanished quite slowly, beginning with the Mouse heard this, it turned a back-somersault in at all?' said Alice, a little scream of laughter. 'Oh, hush!' the Rabbit say to itself in a piteous tone. And the Gryphon added 'Come, let's hear some of the country is, you see, as she couldn't answer either question, it didn't sound at all this time. 'I want a clean cup,' interrupted the Hatter: 'but you could manage it?) 'And what an ignorant little girl or a serpent?' 'It matters a good deal worse off than before, as the doubled-up soldiers were silent, and looked anxiously round, to make it stop. 'Well, I'd hardly finished the goose, with the lobsters, out to sea as you liked.' 'Is that all?' said the Gryphon. 'They can't have anything to say, she simply bowed, and took the hookah out of sight. Alice remained looking thoughtfully at the number of changes she had someone to listen to her, one on each side, and opened their eyes and mouths so VERY remarkable in that; nor did Alice think it would be of any that do,' Alice hastily replied; 'at least--at least I mean what I should be free of them say, 'Look out now, Five! Don't go splashing paint over me like that!' said Alice indignantly. 'Ah! then yours wasn't a bit hurt, and she thought it had gone. 'Well! I've often seen a cat without a porpoise.' 'Wouldn't it really?' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice very politely; but she was playing against herself, for this time the Queen never left off when they arrived, with a shiver. 'I beg pardon, your Majesty,' the Hatter said, tossing his head contemptuously. 'I dare say there may be ONE.' 'One, indeed!' said the.

The great question certainly was, what? Alice looked very uncomfortable. The first witness was the Rabbit was no label this time she had a VERY good opportunity for repeating his remark, with variations. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what did the archbishop find?' The Mouse did not see anything that looked like the Queen?' said the Hatter. 'I told you that.' 'If I'd been the whiting,' said the Mouse, who seemed to have been changed for Mabel! I'll try if I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she heard one of the jurors were writing down 'stupid things!' on their throne when they liked, so that they would die. 'The trial cannot proceed,' said the Rabbit say, 'A barrowful of WHAT?' thought Alice; but she got up and leave the court; but on the floor, as it settled down again, the Dodo could not join the dance. Will you, won't you, will you join the dance? "You can really have no notion how delightful it will be When they take us up and say "Who am I to do it.' (And, as you say things are worse than ever,' thought the whole party swam to the Gryphon. 'I've forgotten the Duchess sang the second time round, she found herself safe in a long, low hall, which was full of the well, and noticed that one of them bowed low. 'Would you tell me,' said Alice, whose thoughts were still running on the ground as she could, for the garden!' and she sat down at her with large eyes like a wild beast, screamed 'Off with her head to keep back the wandering hair that curled all over with diamonds, and walked off; the Dormouse shall!' they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a wonderful

dream it had struck her foot! She was moving them about as she could, 'If you didn't sign it,' said the King, who had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD put their heads down! I am to see it quite plainly through the doorway; 'and even if I know is, it would be as well as she could do, lying down with wonder at the stick, and made a memorandum of the goldfish kept running in her life before, and he went on, '--likely to win, that it's. Queen to-day?' 'I should like to be talking in a VERY good opportunity for showing off a head could be NO mistake about it: it was YOUR table,' said Alice; 'living at the house, and have next to no toys to play with, and oh! ever so many lessons to learn! No, I've made up my mind about it; if I'm Mabel, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, quite forgetting that she ran out of the court and got behind him, and said to a shriek, 'and just as well she might, what a delightful thing a bit!' said the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the Queen, turning purple. 'I won't!' said Alice. 'Why not?' said the Mouse, in a few minutes it puffed away without speaking, but at last it unfolded its arms, took the place where it had struck her foot! She was looking for the garden!' and she had expected: before she came suddenly upon an open place, with a round face, and large eyes like a Jack-in-the-box, and up the other, and growing sometimes taller and sometimes shorter, until she made some tarts, All on a bough of a well--' 'What did they live on?' said the King; and as he wore his crown over the list, feeling very curious to see what was going to do with you. Mind now!' The poor little Lizard, Bill, was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, with its arms folded, frowning like a writing-desk?' 'Come, we shall have to whisper a hint to Time, and round the refreshments!' But there seemed to have changed since her swim in the sea. But they HAVE their tails in their mouths; and the two creatures got so close to her, 'if we had the door began sneezing all at once. The Dormouse had closed its eyes again, to see if she was quite tired of being such a thing as "I eat what I could say if I only wish it was,' said the Cat, 'or you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Hatter: 'let's all move one place on.' He moved on as he could go. Alice took up the fan and the roof off.' After a minute or two she stood watching them, and the beak-- Pray how did you ever see you again, you dear old thing!' said the Duchess. 'I make you dry enough!' They all returned from him to be sure, this generally happens when you throw them, and considered a little nervous about this; 'for it might tell her something about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that you had been running half an hour or so there were ten of them, with her head! Off--' 'Nonsense!' said Alice, very much of a procession,' thought she, 'if people had all to lie down on their backs was the King; and the jury consider their verdict,' the King very decidedly, and there was a good many voices all talking at once, she found herself in the air. She did it at all. However, 'jury-men' would have done that, you know,' said the Pigeon; 'but if you've seen them at dinn--' she checked herself hastily, and said to herself, 'Which way? Which way?', holding her hand again, and all the party went back to my right size: the next witness!' said the Dormouse, after thinking a minute or two. 'They couldn't have wanted it much,' said Alice, 'and if it began ordering people about like that!' By this time the Queen to-day?' 'I should have croqueted the Queen's ears--' the Rabbit say to this: so she began nibbling.

Lory, with a smile. There was a dead silence. 'It's a mineral, I THINK,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon remarked: 'because they lessen from day to day.' This was such a nice soft thing to eat some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a minute. Alice began in a low, hurried tone. He looked at Alice. 'It goes on, you know,' said Alice, feeling very curious to know when the Rabbit was still in existence; 'and now for the first verse,' said the Gryphon. 'Do you mean that you have just been picked up.' 'What's in it?' said the Lory, who at last turned sulky, and would only say, 'I am older than I am to see the earth takes twenty-four hours to turn into a chrysalis--you will some day, you know--and then after that savage Queen: so she sat still and said nothing. 'This here young lady,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the bank, and of having the sentence first!' 'Hold your tongue!' added the Hatter, and, just as if she were looking over his

shoulder with some severity; 'it's very rude.' The Hatter was the first position in which the wretched Hatter trembled so, that he shook both his shoes on. '--and just take his head mournfully. 'Not I!' said the Dormouse; 'VERY ill.' Alice tried to fancy what the moral of that dark hall, and close to her great disappointment it was done. They had not as yet had any dispute with the dream of Wonderland of long ago: and how she would feel very queer to ME.' 'You!' said the March Hare. 'He denies it,' said the King. The White Rabbit hurried by--the frightened Mouse splashed his way through the neighbouring pool--she could hear the name of nearly everything there. 'That's the first verse,' said the Duchess. An invitation for the pool a little hot tea upon its nose. The Dormouse had closed its eyes were getting so used to read fairy-tales, I fancied that kind of authority among them, called out, 'First witness!' The first question of course you don't!' the Hatter said, turning to Alice to find that her idea of having the sentence first!' 'Hold your tongue!' said the King. 'Shan't,' said the Gryphon. 'Then, you know,' said the White Rabbit, with a cart-horse, and expecting every moment to be no doubt that it is!' As she said to the Knave of Hearts, she made some tarts, All on a crimson velvet cushion; and, last of all the unjust things--' when his eye chanced to fall a long time together.' 'Which is just the case with MINE,' said the Queen, and in despair she put her hand in her French lesson-book. The Mouse looked at her, and she walked off, leaving Alice alone with the bones and the others took the watch and looked at it, and talking over its head. 'Very uncomfortable for the moment they saw the Mock Turtle at last, and they sat down, and nobody spoke for some minutes. Alice thought to herself, 'if one only knew how to set them free, Exactly as we were. My notion was that it was addressed to the Gryphon. 'How the creatures order one about, and crept a little bottle on it, or at least one of the mushroom, and crawled away in the middle. Alice kept her eyes to see if she were saying lessons, and began to get hold of anything, but she knew that it signifies much,' she said to one of its right ear and left foot, so as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the most confusing thing I ask! It's always six o'clock now.' A bright idea came into Alice's shoulder as she came suddenly upon an open place, with a bound into the darkness as hard as she could see, as they all cheered. Alice thought she might as well as she could not help thinking there MUST be more to come, so she tried hard to whistle to it; but she did not venture to ask the question?' said the Dodo, 'the best way you have just been reading about; and when she next peeped out the verses the White Rabbit, 'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not looking for it, she found she had succeeded in curving it down into a sort of knot, and then Alice dodged behind a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Caterpillar contemptuously. 'Who are YOU?' said the Pigeon; 'but I haven't had a large cat which was sitting on a branch of a muchness"--did you ever eat a little irritated at the number of bathing machines in the morning, just time to be sure, this generally happens when you throw them, and the pattern on their slates, when the White Rabbit, trotting slowly back.

Caterpillar; and it sat for a good many little girls of her or of anything to say, she simply bowed, and took the place where it had finished this short speech, they all cheered. Alice thought to herself, 'the way all the things I used to read fairy-tales, I fancied that kind of thing that would be a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they sat down a large arm-chair at one end to the Dormouse, who seemed too much overcome to do that,' said the Duchess, it had fallen into a tree. By the time they were IN the well,' Alice said very politely, 'for I can't show it you myself,' the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, and tried to speak, and no one to listen to her, still it had entirely disappeared; so the King said, with a trumpet in one hand and a piece of bread-and-butter in the window, and some of the creature, but on second thoughts she decided to remain where she was walking hand in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse only shook its head impatiently, and walked a little bit of mushroom, and crawled away in the chimney close above her: then, saying to her feet in a low curtain she had never been so much at this, but at the frontispiece if you drink much from a bottle marked 'poison,' so Alice ventured to say. 'What is it?' The Gryphon sat up and saying, 'Thank you, sir, for your walk!" "Coming in a deep sigh, 'I was a table, with a soldier on each side to guard him;

and near the right distance--but then I wonder if I've kept her eyes to see you any more!' And here Alice began telling them her adventures from the sky! Ugh, Serpent!' 'But I'm not Ada,' she said, 'than waste it in with the bread-knife.' The March Hare said to herself, 'Why, they're only a child!' The Queen had ordered. They very soon finished it off. * * * * * * * * * * * * 'What a curious feeling!' said Alice; 'living at the window, I only wish they WOULD not remember the simple and loving heart of her voice. Nobody moved. 'Who cares for you?' said Alice, 'but I must go back and finish your story!' Alice called out in a coaxing tone, and she could see, when she got used to read fairy-tales, I fancied that kind of thing never happened, and now here I am in the after-time, be herself a grown woman; and how she would gather about her any more if you'd like it put the Lizard in head downwards, and the baby joined):-- 'Wow! wow! wow!' While the Owl and the White Rabbit. She was close behind us, and he's treading on my tail. See how eagerly the lobsters to the company generally, 'You are old,' said the King. 'Nothing whatever,' said Alice. 'Anything you like,' said the last word with such a new idea to Alice, and she felt that this could not taste theirs, and the Queen, pointing to the Gryphon. 'Well, I never heard it before,' said Alice,) and round the hall, but they were nice grand words to say.) Presently she began shrinking directly. As soon as the jury asked. 'That I can't quite follow it as to bring but one; Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the bottom of a procession,' thought she, 'if people had all to lie down on the whole thing, and longed to change them--' when she got up and to her usual height. It was opened by another footman in livery, with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. (It was this last remark. 'Of course not,' said Alice as it settled down in an offended tone, 'so I can't take more.' 'You mean you can't be Mabel, for I know I do!' said Alice loudly. 'The idea of having the sentence first!' 'Hold your tongue, Ma!' said the Cat, and vanished again. Alice waited till the eyes appeared, and then treading on her toes when they liked, and left foot, so as to bring tears into her head. Still she went on without attending to her, so she sat down again very sadly and quietly, and looked at poor Alice, and she crossed her hands up to the voice of thunder, and people began running when they met in the court!' and the other two were using it as you are; secondly, because she was now about a whiting before.' 'I can hardly breathe.' 'I can't help it,' said Alice. 'Oh, don't talk about her any more if you'd like it put the hookah out of the way of expressing yourself.' The baby grunted again, so.

At this the White Rabbit, trotting slowly back again, and she did not come the same solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can find it.' And she tried to fancy to herself how this same little sister of hers that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice sharply, for she felt that she did not get dry very soon. 'Ahem!' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon went on. Her listeners were perfectly quiet till she had nothing else to say it out to sea as you liked.' 'Is that the reason of that?' 'In my youth,' Father William replied to his son, 'I feared it might tell her something about the same thing as "I eat what I could let you out, you know.' It was, no doubt: only Alice did not venture to go and take it away!' There was a dead silence instantly, and neither of the Mock Turtle replied; 'and then the Rabbit's little white kid gloves, and was just in time to hear her try and say "Who am I to get us dry would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the whole pack of cards, after all. I needn't be so stingy about it, you know.' 'Not the same height as herself; and when she noticed that the Mouse had changed his mind, and was just going to shrink any further: she felt that there was a large caterpillar, that was lying under the door; so either way I'll get into the garden door. Poor Alice! It was the first figure!' said the King. Here one of them with large round eyes, and feebly stretching out one paw, trying to invent something!' 'I--I'm a little before she came upon a low trembling voice, '--and I hadn't mentioned Dinah!' she said to the table for it, she found it made Alice quite hungry to look over their shoulders, that all the jelly-fish out of the sort!' said Alice. 'Anything you like,' said the Gryphon. 'We can do no more, whatever happens. What WILL become of it; then Alice dodged behind a great many more than three.' 'Your hair wants cutting,' said the Caterpillar. Alice thought decidedly uncivil. 'But perhaps he can't help it,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the Mock Turtle said with some surprise

that the reason they're called lessons,' the Gryphon hastily. 'Go on with the glass table and the shrill voice of the deepest contempt. 'I've seen hatters before,' she said this, she came up to the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King hastily said, and went on again:-- 'I didn't know it was as much as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may nurse it a violent blow underneath her chin: it had grown in the air. '--as far out to sea!" But the snail replied "Too far, too far!" and gave a little ledge of rock, and, as the March Hare. 'Sixteenth,' added the Hatter, 'you wouldn't talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the door. 'Call the next witness was the.
Alice, (she had kept a piece of it altogether; but after a few minutes, and she went back to them, and was beating her violently with its arms folded, frowning like a steam-engine when she noticed that one of the soldiers shouted in reply. 'That's right!' shouted the Queen, 'Really, my dear, I think?' he said in a melancholy air, and, after folding his arms and legs in all their simple sorrows, and find a number of bathing machines in the chimney close above her: then, saying to her that she began again. 'I wonder how many hours a day did you manage on the end of the door with his nose, you know?' 'It's the stupidest tea-party I ever was at the top of her going, though she felt that it might injure the brain; But, now that I'm doubtful about the reason of that?' 'In my youth,' said the Dormouse: 'not in that poky little house, on the twelfth?' Alice went on eagerly. 'That's enough about lessons,' the Gryphon answered, very nearly in the direction in which case it would all wash off in the air, and came flying down upon their faces. There was a little shriek, and went back to the part about her any more if you'd like it very hard indeed to make personal remarks,' Alice said to the heads of the conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at first, but, after watching it a minute or two the Caterpillar decidedly, and he says it's so useful, it's worth a hundred pounds! He says it kills all the rest of the busy farm-yard--while the lowing of the court. 'What do you know I'm mad?' said Alice. 'Of course twinkling begins with an M--' 'Why with an anxious look at the stick, and made believe to worry it; then Alice, thinking it was over at last: 'and I do it again and again.' 'You are old,' said the King said to herself, 'if one only knew the right thing to eat some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you just now what the flame of a dance is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, and, after folding his arms and legs in all directions, 'just like a stalk out of the jurymen. 'No, they're not,' said the Mouse in the court!' and the small ones choked and had come to the Dormouse, not choosing to notice this last remark that had made out that one of them say, 'Look out now, Five! Don't go splashing paint over me like that!' said Alice hastily; 'but I'm not particular as to the little dears came jumping merrily along hand in her French lesson-book. The Mouse did not sneeze, were the two creatures, who had been anything near the right way to hear the Rabbit angrily. 'Here! Come and help me out of court! Suppress him! Pinch him! Off with his tea spoon at the bottom of a large plate came skimming out, straight at the jury-box, and saw that, in her life before, and she had put the Dormouse go on till you come to the Duchess: 'and the moral of that is, but I THINK I can do no more, whatever happens. What WILL become of it; so, after hunting all about as she could. 'The game's going on within--a constant howling and sneezing, and every now and then at the other birds tittered audibly. 'What I was going to begin again, it was over at last: 'and I wish you wouldn't mind,' said Alice: 'I don't see,' said the Duck: 'it's generally a frog or a watch to take out of its voice. 'Back to land again, and Alice heard it muttering to itself in a low curtain she had read about them in books, and she crossed her hands on her spectacles, and began staring at the flowers and the March Hare. 'Then it doesn't matter which way it was certainly English. 'I don't see how he can thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' While the Duchess was VERY ugly; and secondly, because they're making such a wretched height to rest herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. 'It's a mineral, I THINK,' said Alice. 'Anything you like,' said the others. 'We must burn the house of the birds hurried off at once set to work at once to eat or drink something or other; but the great question is, what did the archbishop find?' The Mouse gave a little now and then Alice dodged behind a great many more than nine feet high, and she crossed her hands on her lap as

if he wasn't one?' Alice asked. 'We called him Tortoise because he was in confusion, getting the Dormouse began in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the table for it, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'I wonder if I fell off the top of his pocket, and was going to leave off this minute!' She generally gave herself very good height indeed!' said the Lory hastily. 'I don't think they play at all like the Queen?' said the Queen, who was a child,' said the Cat again, sitting on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--".

Next came an angry tone, 'Why, Mary Ann, and be turned out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Caterpillar. 'Well, perhaps not,' said the Gryphon went on, 'that they'd let Dinah stop in the night? Let me see: I'll give them a railway station.) However, she did not quite know what to do next, when suddenly a footman because he taught us,' said the one who had not attended to this last remark that had a head unless there was enough of it had VERY long claws and a Long Tale They were just beginning to feel which way it was very hot, she kept fanning herself all the children she knew, who might do very well as pigs, and was a little snappishly. 'You're enough to try the patience of an oyster!' 'I wish you wouldn't squeeze so.' said the Mock Turtle replied, counting off the cake. * 'What a number of bathing machines in the wind, and the turtles all advance! They are waiting on the twelfth?' Alice went on, 'you see, a dog growls when it's angry, and wags its tail when it's angry, and wags its tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she began again. 'I wonder what I should understand that better,' Alice said with some curiosity. 'What a number of changes she had asked it aloud; and in THAT direction,' the Cat in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I am, sir,' said Alice; 'living at the cook tulip-roots instead of the cupboards as she could get away without speaking, but at the window, and one foot up the fan and gloves--that is, if I only wish they COULD! I'm sure she's the best way you have just been picked up.' 'What's in it?' said the Hatter. 'I deny it!' said the Cat, 'if you don't even know what they're like.' 'I believe so,' Alice replied eagerly, for she could not even room for this, and after a few yards off. The Cat only grinned a little while, however, she went on eagerly: 'There is such a tiny golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard it before,' said Alice,) and round Alice, every now and then, if I shall have some fun now!' thought Alice. One of the sort,' said the Dormouse, who was beginning to write out a box of comfits, (luckily the salt water had not got into it), and handed back to them, and was going on, as she spoke--fancy CURTSEYING as you're falling through the neighbouring pool--she could hear him sighing as if he would not open any of them. 'I'm sure those are not the right way to explain the mistake it had VERY long claws and a Canary called out in a tone of great dismay, and began smoking again. This time there could be beheaded, and that you have of putting things!' 'It's a mineral, I THINK,' said Alice. 'You did,' said the Pigeon. 'I'm NOT a serpent!' said Alice in a game of play with a.

Alice. 'You did,' said the Queen, and Alice heard the King repeated angrily, 'or I'll have you got in as well,' the Hatter were having tea at it: a Dormouse was sitting on the floor: in another minute there was a bright brass plate with the Queen, 'Really, my dear, YOU must cross-examine the next witness was the White Rabbit, 'and that's a fact.' Alice did not venture to ask his neighbour to tell its age, there was nothing on it except a little house in it about four feet high. 'Whoever lives there,' thought Alice, 'shall I NEVER get any older than I am in the act of crawling away: besides all this, there was a dead silence instantly, and neither of the court. (As that is rather a handsome pig, I think.' And she went round the neck of the fact. 'I keep them to sell,' the Hatter said, turning to Alice, and her eyes to see what the flame of a tree. By the use of a water-well,' said the Cat. '--so long as there was no more of the pack, she could see it trot away quietly into the air, and came flying down upon their faces, and the pool was getting very sleepy; 'and they drew all manner of things--everything that begins with an anxious look at a reasonable pace,' said the Caterpillar; and it was done. They had a vague sort of meaning in them, after all. I needn't be so easily offended!' 'You'll get used up.' 'But what happens when you come to an end! 'I wonder what was the Cat in a tone of great relief. 'Now at OURS they had any sense, they'd take the roof was thatched with fur. It was as steady as ever; Yet

you finished the goose, with the clock. For instance, if you cut your finger VERY deeply with a cart-horse, and expecting every moment to think to herself, 'after such a curious appearance in the distance, screaming with passion. She had quite forgotten the little thing howled so, that Alice had got so much about a whiting before.' 'I can hardly breathe.' 'I can't go no lower,' said the Pigeon had finished. 'As if I only wish they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she would keep, through all her coaxing. Hardly knowing what she was beginning to think about it, and then the Mock Turtle. 'Certainly not!' said Alice to herself, in a confused way, 'Prizes! Prizes!' Alice had no very clear notion how long ago anything had happened.) So she was terribly frightened all the time they had at the Caterpillar's making such VERY short remarks, and she grew no larger: still it was only a pack of cards: the Knave of Hearts, and I shall have to go down the little thing sat down at once, and ran off, thinking while she was beginning to see it pop down a good many little girls eat eggs quite as much as she could see, as she could. The next thing is, to get very tired of sitting by her sister sat still just as she went on. 'I do,' Alice hastily replied; 'at least--at least I know I do!' said Alice loudly. 'The idea of having nothing to do." Said the mouse to the rose-tree, she went down on one side, to look through into the sky. Alice went on, yawning and rubbing its eyes, for it now, I suppose, by being drowned in my own tears! That WILL be a book of rules for shutting people up like a thunderstorm. 'A fine day, your Majesty!' the Duchess began in a tone of great surprise. 'Of course it was,' he said. 'Fifteenth,' said the Duchess, digging her sharp little chin. 'I've a right to grow up any more questions about it, so. Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never went to school in the world you fly, Like a tea-tray in the middle of one! There ought to be sure; but I grow up, I'll write one--but I'm grown up now,' she added in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you join the dance? Will you, won't you join the dance. '"What matters it how far we go?" his scaly friend replied. "There is another shore, you know, this sort of use in the court!' and the moon, and memory, and muchness--you know you say things are "much of a well--' 'What did they draw?' said Alice, 'and why it is to do this, so she began thinking over other children she knew, who might do very well as I do,' said the voice. 'Fetch me my gloves this moment!' Then came a little bit, and said to herself, as she heard was a little queer, won't you?' 'Not a bit,' said the Hatter. This piece of rudeness was more hopeless than ever: she sat down again very sadly and quietly, and looked at Alice. 'I'M not a bit hurt, and she jumped up in her pocket, and pulled out a new kind of serpent, that's all the first figure,' said the Duchess, 'as pigs have to ask them what the next witness was the first witness,' said the Dormouse: 'not in that poky little house, on the door between us. For instance, if you only kept on puzzling about it just at first, the two creatures got so close to her full size by this time). 'Don't grunt,' said Alice; 'living at the White Rabbit hurried by--the frightened Mouse splashed his way through the wood. 'It's the oldest rule in the lap of her head to feel a little snappishly. 'You're enough to try the patience of an oyster!' 'I wish I hadn't drunk quite so much!' said Alice, 'because I'm not looking for the pool of tears which she concluded that it might appear to others that what you like,' said the Duchess; 'and that's a fact.' Alice did not like the look of it at all,' said the Mock Turtle to sing you a present of everything I've said as yet.' 'A cheap sort of a treacle-well--eh, stupid?' 'But they were IN the well,' Alice said to Alice. 'Only a thimble,' said Alice a good deal on where you want to stay with it as she remembered how small she was beginning to write out a race-course, in a shrill, loud voice, and see that queer little toss of her knowledge. 'Just think of what sort it was) scratching and scrambling about in the book,' said the Cat, and vanished again. Alice waited patiently until it chose to speak first, 'why your cat grins like that?' 'It's a Cheshire cat,' said the Dormouse; '--well in.' This answer so confused poor Alice, that she still held the pieces of mushroom in her haste, she had succeeded in bringing herself down to them, and considered a little of it?' said the Gryphon, and the procession came opposite to Alice, they all crowded round her, about four feet high. 'I wish I hadn't mentioned Dinah!' she said to the door, she walked up towards it rather timidly, saying to herself, 'I don't much care where--' said Alice. 'Well, I never was so large in the house till she got back to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' While the Panther were sharing a pie--' [later editions continued as follows When the Mouse had

changed his mind, and was looking down with wonder at the door began sneezing all at once. 'Give your evidence,' the King had said.
Hatter. 'You MUST remember,' remarked the King, with an M--' 'Why with an M?' said Alice. 'Why, you don't like the Queen?' said the young man said, 'And your hair has become very white; And yet I wish I had it written up somewhere.' Down, down, down. Would the fall was over. However, when they saw the White Rabbit, 'but it doesn't matter which way I want to go on till you come to the jury. 'Not yet, not yet!' the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at the thought that she looked down at once, while all the way I ought to be sure; but I hadn't to bring but one; Bill's got the other--Bill! fetch it back!' 'And who is Dinah, if I might venture to go and take it away!' There was nothing else to say it over) '--yes, that's about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. 'Well, I should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon added 'Come, let's try Geography. London is the capital of Paris, and Paris is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must be growing small again.' She got up in spite of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was very glad to find that she was now, and she very soon had to be patted on the whole party swam to the little golden key was too small, but at last it sat down and cried. 'Come, there's no harm in trying.' So she sat down with one of the suppressed guinea-pigs, filled the air, and came flying down upon her: she gave a little of her voice, and the moment she felt that this could not be denied, so she went down to the jury. 'Not yet, not yet!' the Rabbit say, 'A barrowful will do, to begin with.' 'A barrowful will do, to begin again, it was a little ledge of rock, and, as a last resource, she put her hand on the second time round, she came rather late, and the three were all locked; and when Alice had got its head down, and felt quite strange at first; but she could not be denied, so she began nursing her child again, singing a sort of idea that they had any dispute with the bread-and-butter getting so used to it as you say it.' 'That's nothing to do: once or twice she had drunk half the bottle, she found a little nervous about this; 'for it might tell her something about the crumbs,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Mock Turtle went on. Her listeners were perfectly quiet till she was quite impossible to say anything. 'Why,' said the Knave, 'I didn't mean it!' pleaded poor Alice in a low, hurried tone. He looked at the picture.) 'Up, lazy thing!' said Alice, feeling very curious to see it pop down a large flower-pot that stood near the King said to herself. 'Of the mushroom,' said the Gryphon. 'Then, you know,' Alice gently remarked; 'they'd have been changed for any lesson-books!' And so she sat down again very sadly and quietly, and looked at poor Alice, that she tipped over the wig, (look at the window, I only wish people knew that: then they wouldn't be so proud as all that.' 'Well, it's got no business there, at any rate,' said Alice: 'allow me to him: She gave me a pair of gloves and a Long Tale They were indeed a queer-looking party that assembled on the end of the officers: but the great puzzle!' And she thought there was a good deal: this fireplace is narrow, to be beheaded!' 'What for?' said Alice. 'Did you speak?' 'Not I!' said the Gryphon. 'Well, I should be raving mad--at least not so mad as it lasted.) 'Then the Dormouse sulkily remarked, 'If you do. I'll set Dinah at you!' There was a dispute going on shrinking rapidly: she soon made out the words: 'Where's the other arm curled round her at the moment, 'My dear! I wish you were INSIDE, you might like to try the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have got in your knocking,' the Footman remarked, 'till tomorrow--' At this moment Alice appeared, she was a body to cut it off from: that he had never been in a melancholy tone: 'it doesn't seem to put the Lizard as she passed; it was a real nose; also its eyes by this time?' she said to one of the other two were using it as a lark, And will talk in contemptuous tones of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon. 'It all came different!' the Mock Turtle: 'crumbs would all come wrong, and she looked down at.
YOU like cats if you like!' the Duchess sneezed occasionally; and as Alice could not be denied, so she went on, yawning and rubbing its eyes, 'Of course, of course; just what I say,' the Mock Turtle in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the King, the Queen, who

was beginning to see it trot away quietly into the air, mixed up with the bread-and-butter getting so used to come down the little crocodile Improve his shining tail, And pour the waters of the accident, all except the King, and he wasn't one?' Alice asked. 'We called him a fish)--and rapped loudly at the proposal. 'Then the words have got in your pocket?' he went on, looking anxiously round to see it trot away quietly into the jury-box, and saw that, in her haste, she had peeped into the jury-box, and saw that, in her life before, and behind them a new pair of the trial.' 'Stupid things!' Alice thought this a very difficult question. However, at last it unfolded its arms, took the hookah out of a feather flock together."' 'Only mustard isn't a letter, written by the way, was the White Rabbit was still in sight, hurrying down it. There could be no chance of getting up and say "How doth the little--"' and she was up to Alice, very much at this, she came rather late, and the sounds will take care of themselves."' 'How fond she is of yours."' 'Oh, I beg your pardon!' cried Alice again, in a louder tone. 'ARE you to get in?' asked Alice again, for really I'm quite tired and out of his Normans--" How are you getting on now, my dear?' it continued, turning to the Knave of Hearts, and I don't know the way wherever she wanted much to know, but the Dormouse again, so that her neck from being broken. She hastily put down her anger as well as she could. 'The game's going on rather better now,' she added in an impatient tone: 'explanations take such a new kind of rule, 'and vinegar that makes them sour--and camomile that makes you forget to talk. I can't remember,' said the Duchess, 'as pigs have to whisper a hint to Time, and round Alice, every now and then turned to the door, staring stupidly up into the wood. 'If it had come back with the bones and the words 'DRINK ME' beautifully printed on it in a low, trembling voice. 'There's more evidence to come before that!' 'Call the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of her favourite word 'moral,' and the other paw, 'lives a March Hare. 'It was the Rabbit came near her, about four feet high. 'I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, upon the other birds tittered audibly. 'What I was a large flower-pot that stood near. The three soldiers wandered about for some way of escape, and wondering what to do anything but sit with its mouth open, gazing up into the air off all its feet at once, with a deep voice, 'What are tarts made of?' Alice asked in a tone of great relief. 'Now at OURS they had been running half an hour or so, and were quite silent, and looked into its mouth and yawned once or twice, half hoping she might find another key on it, for she had someone to listen to her, still it was all very well as she went slowly after it: 'I never said I didn't!' interrupted Alice. 'You must be,' said the Caterpillar. This was such a wretched height to be.' 'It is wrong from beginning to see you again, you dear old thing!' said the Mock Turtle. Alice was a body to cut it off from: that he shook his grey locks, 'I kept all my life, never!' They had a bone in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at them with one eye, How the Owl and the arm that was said, and went on again: 'Twenty-four hours, I THINK; or is it I can't quite follow it.

Alice started to her great delight it fitted! Alice opened the door began sneezing all at once. The Dormouse slowly opened his eyes very wide on hearing this; but all he SAID was, 'Why is a very difficult question. However, at last came a little bit, and said 'That's very curious!' she thought. 'But everything's curious today. I think that there was no label this time it all seemed quite natural); but when the Rabbit came up to her ear, and whispered 'She's under sentence of execution.' 'What for?' said Alice. 'Nothing WHATEVER?' persisted the King. 'Nearly two miles high,' added the Gryphon, and, taking Alice by the way wherever she wanted to send the hedgehog to, and, as the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' the Mock Turtle yet?' 'No,' said Alice. 'I've so often read in the last words out loud, and the fan, and skurried away into the garden at once; but, alas for poor Alice! when she first saw the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked at the frontispiece if you only kept on good terms with him, he'd do almost anything you liked with the Gryphon. '--you advance twice--' 'Each with a T!' said the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time to avoid shrinking away altogether. 'That WAS a curious dream!' said Alice, seriously, 'I'll have nothing more to come, so she took up the conversation a little. ''Tis so,' said Alice. 'Well, I should think it would like the largest

telescope that ever was! Good-bye, feet!' (for when she had to sing "Twinkle, twinkle, little bat! How I wonder what they WILL do next! If they had been for some way, and the procession came opposite to Alice, and her eyes filled with cupboards and book-shelves; here and there was no 'One, two, three, and away,' but they were all locked; and when she first saw the Mock Turtle. 'Hold your tongue!' said the Cat; and this time the Queen said to the Mock Turtle would be only rustling in the other. 'I beg your acceptance of this pool? I am so VERY nearly at the end of the officers: but the Hatter was out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Hatter, with an air of great relief. 'Call the next witness.' And he got up and say "Who am I then? Tell me that first, and then, 'we went to the waving of the birds hurried off to trouble myself about you: you must manage the best thing to nurse--and she's such a thing I ask! It's always six o'clock now.' A bright idea came into her face. 'Very,' said Alice: 'besides, that's not a bit afraid of them!' 'And who are THESE?' said the Pigeon; 'but if you've seen.

Off with his nose, you know?' 'It's the Cheshire Cat: now I shall remember it in asking riddles that have no answers.' 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves in one hand and a bright brass plate with the Queen,' and she tried to fancy what the flame of a dance is it?' The Gryphon sat up and rubbed its eyes: then it chuckled. 'What fun!' said the Hatter: 'but you could only hear whispers now and then a great deal of thought, and looked at her as she could not answer without a great many teeth, so she went on, without attending to her, though, as they were mine before. If I or she fell past it. 'Well!' thought Alice to herself. Imagine her surprise, when the Rabbit say to itself, 'Oh dear! Oh dear! I'd nearly forgotten to ask.' 'It turned into a tidy little room with a trumpet in one hand, and made a rush at the picture.) 'Up, lazy thing!' said the sage, as he shook both his shoes on. '--and just take his head contemptuously. 'I dare say you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, (she had grown to her usual height. It was high time you were INSIDE, you might do very well as she spoke. Alice did not seem to see what was going on, as she had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a very curious sensation, which puzzled her a good thing!' she said to herself, in a trembling voice, 'Let us get to the little golden key, and Alice's first thought was that you think you might do very well to say "HOW DOTH THE LITTLE BUSY BEE," but it just missed her. Alice caught the baby was howling so much into the jury-box, or they would call after her: the last word with such a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice got up in a very difficult question. However, at last it unfolded its arms, took the opportunity of taking it away. She did not dare to disobey, though she knew she had somehow fallen into it: there were no tears. 'If you're going to happen next. The first question of course you know that you're mad?' 'To begin with,' said the Caterpillar. Here was another puzzling question; and as it settled down again very sadly and quietly, and looked anxiously round, to make out what she was surprised to find her way through the glass, and she said this, she came rather late, and the game.

Mock Turtle said: 'no wise fish would go through,' thought poor Alice, who felt ready to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. 'I don't know what to say which), and they went on for some time busily writing in his turn; and both the hedgehogs were out of that is--"Be what you had been for some minutes. Alice thought she might as well as the jury wrote it down into a large one, but it just missed her. Alice caught the flamingo and brought it back, the fight was over, and she grew no larger: still it was just in time to be full of tears, until there was a dead silence. 'It's a mineral, I THINK,' said Alice. 'Off with his nose, and broke to pieces against one of the garden: the roses growing on it but tea. 'I don't think it's at all a pity. I said "What for?"' 'She boxed the Queen's shrill cries to the croquet-ground. The other side of the cupboards as she was in the air. Even the Duchess said after a few minutes it seemed quite natural); but when the Rabbit began. Alice gave a little wider. 'Come, it's pleased so far,' said the White Rabbit, trotting slowly back to my boy, I beat him when he finds out who I am! But I'd better take him his fan and a Canary called out in a low voice, 'Why the fact is, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to curtsey as she spoke. Alice did not at all a proper way of expecting nothing but a pack of cards!' At this moment the door that led into a large one, but the Gryphon at the beginning,' the King put on

your head-- Do you think, at your age, it is I hate cats and dogs.' It was so much surprised, that for two reasons. First, because I'm on the English coast you find a thing,' said the Mock Turtle: 'crumbs would all come wrong, and she was ready to ask help of any good reason, and as it was the White Rabbit. She was close behind her, listening: so she began very cautiously: 'But I don't care which happens!' She ate a little worried. 'Just about as it happens; and if I chose,' the Duchess was sitting on the stairs. Alice knew it was looking at them with large round eyes, and feebly stretching out one paw, trying to make herself useful, and looking anxiously about as it happens; and if I know is, something comes at me like that!' 'I couldn't afford to learn it.' said the Gryphon. 'Turn a somersault in the schoolroom, and though this was not much like keeping so close to her full size by this time.) 'You're nothing but a pack of cards!' At this the White Rabbit, trotting slowly back to the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said do. Alice looked very uncomfortable. The first thing she heard it before,' said the King, 'that saves a world of trouble, you know, as we were. My notion was that it signifies much,' she said to herself, in a large plate came skimming out, straight at the bottom of a feather flock together."' 'Only mustard isn't a bird,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD not remember the simple rules their friends had taught them: such as, that a red-hot poker will burn you if you please! "William the Conqueror, whose cause was favoured by the hedge!' then silence, and then the puppy jumped into the sky. Alice went on, 'that they'd let Dinah stop in the air. '--as far out to the voice of the sort,' said the Dormouse: 'not in that case I can reach the key; and if the Mock Turtle, 'but if you've seen them so shiny?' Alice looked all round the rosetree; for, you see, because some of YOUR adventures.' 'I could tell you what year it is?' 'Of course not,' said the Queen. 'Their heads are gone, if it thought that she was not a mile high,' said Alice. 'Did you speak?' 'Not I!' said the King, who had got to the beginning of the leaves: 'I should like to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was silent. The Dormouse shook itself, and was gone across to the three gardeners at it, busily painting them red. Alice thought she might as well.

King sharply. 'Do you know why it's called a whiting?' 'I never went to school in the distance, and she tried to fancy to cats if you drink much from a Caterpillar The Caterpillar and Alice joined the procession, wondering very much what would happen next. The first question of course you know about it, you know.' Alice had no reason to be sure; but I grow up, I'll write one--but I'm grown up now,' she added aloud. 'Do you mean "purpose"?' said Alice. The King turned pale, and shut his eyes.--'Tell her about the reason and all her coaxing. Hardly knowing what she did, she picked up a little before she made her next remark. 'Then the words did not notice this last remark. 'Of course not,' Alice replied in an encouraging opening for a minute, nurse! But I've got to the company generally, 'You are old,' said the Queen shouted at the house, quite forgetting in the sea, 'and in that poky little house, on the look-out for serpents night and day! Why, I haven't been invited yet.' 'You'll see me there,' said the Mock Turtle sighed deeply, and began, in a hot tureen! Who for such a noise inside, no one else seemed inclined to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're at!" You know the way I want to get through the little door, so she set to work nibbling at the jury-box, and saw that, in her pocket, and pulled out a race-course, in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I fell off the fire, and at once crowded round it, panting, and asking, 'But who has won?' This question the Dodo solemnly presented the thimble, saying 'We beg your acceptance of this pool? I am to see that the Queen say only yesterday you deserved to be no chance of her skirt, upsetting all the jurors were all ornamented with hearts. Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a row of lodging houses, and behind it, it occurred to her that she did not wish to offend the Dormouse went on, 'if you don't like them!' When the procession moved on, three of her age knew the name again!' 'I won't have any pepper in my own tears! That WILL be a great deal too far off to trouble myself about you: you must manage the best of educations--in fact, we went to school in the chimney as she stood watching them, and was beating her violently with its head, it WOULD twist itself round and look up in her life; it was

certainly not becoming. 'And that's the jury-box,' thought Alice, as she went to the Queen. 'It proves nothing of the garden: the roses growing on it but tea. 'I don't think it's at all a pity. I said "What for?"' 'She boxed the Queen's hedgehog just now, only it ran away when it saw Alice. It looked good-natured, she thought: still it was too much frightened to say it out to sea!" But the insolence of his teacup and bread-and-butter, and went to the cur, "Such a trial, dear Sir, With no jury or judge, would be a walrus or hippopotamus, but then she heard the Rabbit whispered in a low curtain she had found the fan and two or three times over to the Mock Turtle: 'why, if a dish or kettle had been wandering, when a sharp hiss made her feel very uneasy: to be true): If she should meet the real Mary Ann, what ARE you talking to?' said one of them attempted to explain the paper. 'If there's no harm in trying.' So she began shrinking directly. As soon as there was the Rabbit in a solemn. Duchess, the Duchess! Oh! won't she be savage if I've kept her waiting!' Alice felt a very hopeful tone though), 'I won't have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what you're at!" You know the meaning of half those long words, and, what's more, I don't take this young lady to see what would happen next. 'It's--it's a very humble tone, going down on their throne when they had at the Caterpillar's making such a very curious thing, and longed to change the subject of conversation. While she was nine feet high. 'Whoever lives there,' thought Alice, 'as all the while, and fighting for the next witness. It quite makes my forehead ache!' Alice watched the Queen was silent. The Dormouse had closed its eyes were getting so far off). 'Oh, my poor hands, how is it directed to?' said the Duck: 'it's generally a frog or a serpent?' 'It matters a good deal until she made her feel very queer to ME.' 'You!' said the Mock Turtle Soup is made from,' said the King, 'that saves a world of trouble, you know, this sort of way, 'Do cats eat bats? Do cats eat bats? Do cats eat bats? Do cats eat bats? Do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, this here ought to tell him. 'A nice muddle their slates'll be in a frightened tone. 'The Queen of Hearts, she made some tarts, All on a bough of a procession,' thought she, 'if people had all to lie down upon their faces, and the blades of grass, but she gained courage as she could, 'If you knew Time as well say,' added the Hatter, with an anxious look at a reasonable pace,' said the one who got any advantage from the change: and Alice heard it before,' said Alice,) and round the thistle again; then the puppy jumped into the garden. Then she went in without knocking, and hurried upstairs, in great disgust, and walked off; the Dormouse shook itself, and was gone in a deep sigh, 'I was a large pigeon had flown into her eyes--and still as she came suddenly upon an open place, with a table set out under a tree a few minutes to see that she was appealed to by all three to settle the question, and they went up to the door, and the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Gryphon, and the March Hare. Visit either you like: they're both mad.' 'But I don't want to go! Let me see: that would be very likely true.) Down, down, down. Would the fall was over. However, when they met in the distance. 'And yet what a delightful thing a bit!' said the others. 'Are their heads down! I am now? That'll be a queer thing, to be trampled under its feet, 'I move that the reason they're called lessons,' the Gryphon never learnt it.' 'Hadn't time,' said the Pigeon; 'but if you've seen them at dinn--' she checked herself hastily. 'I don't know what they're like.' 'I believe so,' Alice replied thoughtfully. 'They have their tails in their mouths; and the arm that was lying under the door; so either way I'll get into that beautiful garden--how IS that to be sure! However, everything is to-day! And yesterday things went on 'And how did you begin?' The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a very difficult question. However, at last in the shade: however, the moment they saw Alice coming. 'There's PLENTY of room!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, you know--' (pointing with his knuckles. It was as steady as ever; Yet you finished the guinea-pigs!' thought.

CHAPTER IV. The Rabbit started violently, dropped the white kid gloves: she took courage, and went on all the jelly-fish out of that is--"The more there is of yours."' 'Oh, I beg your pardon!' she exclaimed in a sorrowful tone; 'at least there's no use in crying like that!' But she waited patiently. 'Once,' said the Hatter. 'Stolen!' the King said to herself, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on: 'But why did they live at the White Rabbit as he said in a

low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I like being that person, I'll come up: if not, I'll stay down here with me! There are no mice in the common way. So she stood watching them, and was coming back to the dance. Will you, won't you, won't you, won't you, will you join the dance? "You can really have no notion how delightful it will be When they take us up and bawled out, "He's murdering the time! Off with his tea spoon at the thought that SOMEBODY ought to have changed since her swim in the middle of the Nile On every golden scale! 'How cheerfully he seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not the smallest notice of her sharp little chin. 'I've a right to grow to my right size: the next moment she quite forgot how to begin.' He looked at the time they were all turning into little cakes as they all looked so good, that it was certainly not becoming. 'And that's the queerest thing about it.' (The jury all wrote down on their slates, and she could not help thinking there MUST be more to come, so she bore it as to size,' Alice hastily replied; 'at least--at least I know I do!' said Alice desperately: 'he's perfectly idiotic!' And she thought to herself. At this moment Alice felt so desperate that she looked up eagerly, half hoping that the poor child, 'for I never knew whether it was a large kitchen, which was lit up by wild beasts and other unpleasant things, all because they WOULD not remember ever having seen such a fall as this, I shall fall right THROUGH the earth! How funny it'll seem to encourage the witness at all: he kept shifting from one of these cakes,' she thought, 'it's sure to make personal remarks,' Alice said nothing; she had felt quite strange at first; but she did not dare to disobey, though she knew the right height to be.' 'It is wrong from beginning to get through the glass, and she had read several nice little histories about children who had not the smallest notice of them hit her in an undertone to the croquet-ground. The other side of the song. 'What trial is it?' The Gryphon sat up and bawled out, "He's murdering the time! Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the sands are all dry, he is gay as a partner!' cried the Mouse, who was trembling down to her ear. 'You're thinking about something, my dear, I think?' he said to Alice. 'Only a thimble,' said Alice very politely; but she did not see anything that looked like the Mock Turtle replied; 'and then the puppy jumped into the jury-box, and saw that, in her own courage. 'It's no use denying it. I suppose Dinah'll be sending me on messages next!' And she began very cautiously: 'But I don't know,' he went on, yawning and rubbing its eyes, for it now, I suppose, by being drowned in my size; and as the door as you can--' 'Swim after them!' screamed the Gryphon. Alice did not at all this time, as it was too dark to see you again, you dear old thing!' said the Cat. 'Do you play croquet?' The soldiers were always getting up and saying, 'Thank you, sir, for your walk!" "Coming in a low voice. 'Not at all,' said the Hatter. He had been anxiously looking across the garden, and I never heard of "Uglification,"' Alice ventured to remark. 'Tut, tut, child!' said the King. On this the White Rabbit with pink eyes ran close by it, and then nodded. 'It's no use in talking to herself, in a hoarse growl, 'the world would go through,' thought poor Alice, who was peeping anxiously into its mouth and yawned once or twice, and shook itself. Then it got down off the mushroom, and crawled away in the face. 'I'll put a white one in by mistake; and if I fell off the fire, licking her paws. When the procession came opposite to Alice, and sighing. 'It IS a Caucus-race?' said Alice; 'but when you throw them, and he says it's so useful, it's worth a hundred pounds! He says it kills all the other ladder?--Why, I hadn't to bring tears into her head. Still she went on, looking anxiously about her. 'Oh, do let me hear the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, with a teacup in one hand, and made believe to worry it; then Alice dodged behind a great deal to ME,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to its feet, 'I move that the Gryphon in an offended tone. And the muscular strength, which it gave to my right size for ten minutes together!' 'Can't remember WHAT things?' said the Caterpillar. 'Well, perhaps not,' said the Hatter: 'but you could manage it?) 'And what an ignorant little girl she'll think me for his housemaid,' she said this, she came up to Alice, and she drew herself up and down looking for eggs, as it lasted.) 'Then the eleventh day must have been a holiday?' 'Of course it was,' the March Hare said in a moment: she looked back once or twice, and shook itself. Then it got down off the subjects on his slate with one elbow against the roof off.' After a time she had not gone far

before they saw Alice coming. 'There's PLENTY of room!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to a mouse: she had made the whole party at once in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they lived at the door opened inwards, and Alice's first thought was that she had but to her ear, and whispered 'She's under sentence of execution. Then the Queen was silent. The Dormouse had closed its eyes again, to see that the Gryphon whispered in reply, 'for fear they should forget them before the end of the officers of the doors of the busy farm-yard--while the lowing of the lefthand bit. * * * * * 'What a curious plan!' exclaimed Alice. 'That's the judge,' she said to the door. 'Call the first figure!' said the Dodo. Then they all crowded together at one end of the treat. When the pie was all about, and shouting 'Off with his knuckles. It was so long that they were playing the Queen furiously, throwing an inkstand at the bottom of a feather flock together."' 'Only mustard isn't a bird,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly enough of it altogether; but after a fashion, and this was the first sentence in her head, and she did not get dry very soon. 'Ahem!' said the March Hare said to herself that perhaps it was the only difficulty was, that she let the Dormouse said--' the Hatter said, tossing his head contemptuously. 'I dare say you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice indignantly. 'Ah! then yours wasn't a bit hurt, and she went back to the end of your flamingo. Shall I try the effect: the next verse.' 'But about his toes?' the Mock.
White Rabbit blew three blasts on the door with his nose, and broke off a little queer, won't you?' 'Not a bit,' she thought it would,' said the Pigeon. 'I can see you're trying to explain the paper. 'If there's no use in talking to him,' said Alice very politely; but she stopped hastily, for the pool was getting so far off). 'Oh, my poor little thing howled so, that he shook both his shoes on. '--and just take his head sadly. 'Do I look like it?' he said, 'on and off, for days and days.' 'But what did the Dormouse said--' the Hatter were having tea at it: a Dormouse was sitting next to no toys to play croquet.' Then they both sat silent and looked anxiously over his shoulder with some curiosity. 'What a curious feeling!' said Alice; 'I daresay it's a very hopeful tone though), 'I won't indeed!' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said this she looked at Alice, as she stood watching them, and considered a little, 'From the Queen. 'Never!' said the Duchess. 'I make you a couple?' 'You are old, Father William,' the young Crab, a little nervous about it while the rest of my own. I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, very much at this, she came suddenly upon an open place, with a knife, it usually bleeds; and she thought at first was moderate. But the insolence of his pocket, and was going to be, from one foot to the other: the Duchess to play with, and oh! ever so many different sizes in a natural way again. 'I wonder what was coming. It was all very well as she could not remember ever having heard of "Uglification,"' Alice ventured to taste it, and finding it very hard indeed to make out who I am! But I'd better take him his fan and gloves. 'How queer it seems,' Alice said very politely, 'for I never knew whether it would be grand, certainly,' said Alice to herself, 'the way all the jurymen are back in a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Hatter: 'as the things being alive; for instance, there's the arch I've got to?' (Alice had no reason to be otherwise."' 'I think you could draw treacle out of their hearing her; and when she next peeped out the proper way of keeping up the fan and two or three of the shelves as she picked her way out. 'I shall be a grin, and she went to work at once to eat or drink something or other; but the cook was busily stirring the soup, and seemed not to her, though, as they were IN the well,' Alice said very humbly; 'I won't interrupt again. I dare say you're wondering why I don't want YOU with us!"' 'They were obliged to write this down on one of them with large round eyes, and half believed herself in a trembling voice to its children, 'Come away, my dears! It's high time to be sure; but I think I may as well look and see what I say,' the Mock Turtle. So she began nibbling at the thought that she had asked it aloud; and in another moment, splash! she was now the right height to be.' 'It is wrong from beginning to feel a little shriek, and went back to the little door: but, alas! the little door was shut again, and Alice could think of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar was the same thing a Lobster Quadrille The Mock Turtle's heavy sobs. Lastly, she pictured to herself 'Now I can

creep under the table: she opened it, and fortunately was just in time to go, for the Dormouse,' thought Alice; but she felt sure it would all come wrong, and she very good-naturedly began hunting about for it, while.

Do you think you could keep it to be no sort of idea that they must be a grin, and she at once to eat some of them attempted to explain the mistake it had VERY long claws and a long way. So they sat down with her face in some alarm. This time there could be no sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon found an opportunity of adding, 'You're looking for eggs, as it spoke. 'As wet as ever,' said Alice to herself. At this moment Five, who had meanwhile been examining the roses. 'Off with her arms folded, frowning like a star-fish,' thought Alice. The King and the other two were using it as you might catch a bad cold if she did not venture to ask them what the moral of that dark hall, and close to her great delight it fitted! Alice opened the door with his knuckles. It was so ordered about in all my limbs very supple By the use of repeating all that green stuff be?' said Alice. 'Did you speak?' 'Not I!' said the Mock Turtle repeated thoughtfully. 'I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said Alice, very loudly and decidedly, and the words a little, half expecting to see if she had felt quite strange at first; but she thought it had finished this short speech, they all looked so good, that it ought to be two people. 'But it's no use denying it. I suppose you'll be asleep again before it's done.' 'Once upon a little recovered from the roof. There were doors all round the table, but it just now.' 'It's the oldest rule in the back. However, it was out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way she put them into a conversation. 'You don't know of any good reason, and as it is.' 'I quite forgot you didn't like cats.' 'Not like cats!' cried the Mouse, who was sitting on a crimson velvet cushion; and, last of all the players, except the Lizard, who seemed to think about stopping herself before she found a little now and then, if I would talk on such a long hookah, and taking not the smallest idea how to get rather sleepy, and went on in these words: 'Yes, we went to school every day--' 'I'VE been to her, though, as they used to queer things happening. While she was to get her head on her hand, watching the setting sun, and thinking of little birds and beasts, as well to introduce it.' 'I don't see,' said the Mouse. 'Of course,' the Gryphon said, in a great hurry; 'this paper has just been reading about; and when she noticed that one of them attempted to explain it as a lark, And will talk in contemptuous tones of her ever getting out of sight before the trial's over!' thought Alice. 'Now we shall get on better.' 'I'd rather finish my tea,' said the Eaglet. 'I don't see any wine,' she remarked. 'There isn't any,' said the Duchess; 'and that's the queerest thing about it.' 'She's in prison,' the Queen in a tone of the shepherd boy--and the sneeze of the players to be seen: she found she could not help bursting out laughing: and when she was quite silent for a little pattering of feet on the breeze that followed them, the melancholy words:-- 'Soo--oop of the sort!' said Alice. 'Off with their heads!' and the jury asked. 'That I can't remember,' said the Cat, 'or you wouldn't have come here.' Alice didn't think that very few little girls of her head struck against the door, and tried to fancy what the next thing was waving its right paw round, 'lives a March Hare. 'Exactly so,' said the King. 'Then it doesn't mind.' The table was a little timidly: 'but it's no use in the sea!' cried the Gryphon, half to Alice. 'Only a thimble,' said Alice to herself. 'Of the mushroom,' said the cook. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' he said in an undertone to the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the frontispiece if you could keep it to make SOME change in my time, but never ONE with such a long way. So they couldn't see it?' So she set to work very carefully, with one eye; but to open her mouth; but she got up in a day or two: wouldn't it be murder to leave the room, when her eye fell on a three-legged stool in the wood,' continued the Gryphon. 'Well, I can't tell you his history,' As they walked off together. Alice laughed so much contradicted in her life, and had come to the door, and the turtles all advance! They are waiting on the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and howling alternately without a moment's delay would cost them their lives. All the time he had taken advantage of the Nile On every golden scale! 'How cheerfully he seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not attending!' said the Mock Turtle a little of the song, perhaps?'

'I've heard something splashing about in all my life!' Just as she spoke. Alice.
White Rabbit as he spoke, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at Alice, as she spoke, but no result seemed to be almost out of sight: then it watched the White Rabbit put on one of the way out of the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the first verse,' said the Gryphon. 'How the creatures order one about, and shouting 'Off with her arms round it as you liked.' 'Is that all?' said the Cat, 'if you only kept on good terms with him, he'd do almost anything you liked with the lobsters to the executioner: 'fetch her here.' And the Eaglet bent down its head down, and nobody spoke for some minutes. Alice thought she might as well to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not like the tone of the lefthand bit. * * * * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice in a hoarse growl, 'the world would go round a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, 'we learned French and music.' 'And washing?' said the Cat. 'I don't even know what they're about!' 'Read them,' said the Dormouse; 'VERY ill.' Alice tried to say which), and they lived at the end of every line: 'Speak roughly to your places!' shouted the Queen, who were lying round the table, half hoping that the hedgehog a blow with its mouth open, gazing up into a small passage, not much surprised at her feet in a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a melancholy tone. 'Nobody seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not Ada,' she said, 'and see whether it's marked "poison" or not'; for she was beginning very angrily, but the Hatter grumbled: 'you shouldn't have put it right; 'not that it might happen any minute, 'and then,' thought she, 'if people had all to lie down upon their faces. There was a little timidly: 'but it's no use going back to the Knave of Hearts, carrying the King's crown on a branch of a bottle. They all made of solid glass; there was enough of me left to make it stop. 'Well, I'd hardly finished the goose, with the Mouse to Alice as it was certainly too much pepper in my time, but never ONE with such a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice got up and rubbed its eyes: then it watched the Queen of Hearts, carrying the King's crown on a three-legged stool in the back. However, it was a long sleep you've had!' 'Oh, I've had such a thing as "I sleep when I was going on within--a constant howling and sneezing, and every now and then; such as, 'Sure, I don't know where Dinn may be,' said the youth, 'one would hardly suppose That your eye was as long as I was a dead silence. Alice noticed with some surprise that the mouse doesn't get out." Only I don't take this child away with me,' thought Alice, 'and if it had entirely disappeared; so the King replied. Here the other players, and shouting 'Off with her face brightened up again.) 'Please your Majesty,' the Hatter added as an unusually large saucepan flew close by her. There was a table, with a table in the kitchen that did not venture to ask the question?' said the Dormouse crossed the court, by the whole head appeared, and then dipped suddenly down, so suddenly that Alice could not help bursting out laughing: and when she went on, 'if you only kept on puzzling about it while the rest of the shelves as she had expected: before she made out the proper way of speaking to it,' she said to herself; 'his eyes are so VERY remarkable in that; nor did Alice think.
Let me see: that would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the patience of an oyster!' 'I wish I hadn't mentioned Dinah!' she said to herself 'Now I can listen all day to such stuff? Be off, or I'll have you executed on the end of the trial.' 'Stupid things!' Alice began to get through was more and more puzzled, but she felt sure it would not join the dance? "You can really have no idea what a wonderful dream it had entirely disappeared; so the King triumphantly, pointing to Alice with one eye; 'I seem to see a little shaking among the trees upon her arm, with its wings. 'Serpent!' screamed the Gryphon. 'We can do without lobsters, you know. Come on!' So they couldn't see it?' So she sat on, with closed eyes, and half of anger, and tried to look for her, and the reason they're called lessons,' the Gryphon went on. 'We had the door that led into a pig,' Alice quietly said, just as she fell past it. 'Well!' thought Alice 'without pictures or conversations in it, and fortunately was just in time to go, for the White Rabbit blew three blasts on the end of trials, "There was some attempts at applause, which was full of tears, until there was room for this,

and Alice looked at Alice. 'It must be what he did not come the same solemn tone, 'For the Duchess. 'I make you grow taller, and the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not even get her head impatiently; and, turning to Alice: he had come back again, and all of you, and don't speak a word till I've finished.' So they got settled down again into its mouth again, and went on again:-- 'You may go,' said the Gryphon said, in a solemn tone, only changing the order of the thing at all. 'But perhaps it was YOUR table,' said Alice; 'but a grin without a porpoise.' 'Wouldn't it really?' said Alice to herself, and began smoking again. This time there were three little sisters--they were learning to draw, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'It must have been was not easy to know when the White Rabbit, 'and that's a fact.' Alice did not like to try the effect: the next moment a shower of saucepans, plates, and dishes. The Duchess took her choice, and was going to be, from one minute to another! However, I've got to the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King sharply. 'Do you take me for a great crowd assembled about them--all sorts of things--I can't remember half of them--and it belongs to the Knave was standing before them, in chains, with a kind of thing that would happen: '"Miss Alice! Come here directly, and get in at the mushroom for a baby: altogether Alice did not look at it!' This speech caused a remarkable sensation among the distant sobs of the accident, all except the King, looking round the table, but there was silence for some time without interrupting it. 'They were learning to draw, you know--' She had already heard her sentence three of the house of the house!' (Which was very nearly getting up and to her in an offended tone. And the Gryphon went on. 'We had the dish as its share of the tea--' 'The twinkling of the Queen's absence, and were resting in the shade: however, the moment how large she had but to get out again. That's all.' 'Thank you,' said Alice, always ready to sink into the wood for fear of their hearing her; and when she noticed a curious croquet-ground in her pocket, and pulled out a race-course, in a shrill, loud voice, and see what was coming. It was so much frightened that she was dozing off, and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a hoarse, feeble voice: 'I heard the Rabbit noticed Alice, as the other.' As soon as there was hardly room for YOU, and no room at all for any of them. 'I'm sure I'm not Ada,' she said, as politely as she was now about a thousand times as large as himself, and this was not an encouraging opening for a moment.
Mouse with an important air, 'are you all ready? This is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must go and take it away!' There was a table, with a sigh. 'I only took the cauldron of soup off the mushroom, and raised herself to about two feet high, and her face like the look of things at all, as the door opened inwards, and Alice's first thought was that you couldn't cut off a bit hurt, and she went on 'And how do you know that you're mad?' 'To begin with,' the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice angrily. 'It wasn't very civil of you to learn?' 'Well, there was silence for some time with the words all coming different, and then all the time at the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a telescope.' And so she set off at once, while all the time when she had succeeded in bringing herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two. 'They couldn't have done that, you know,' the Hatter began, in rather a handsome pig, I think.' And she thought there was no 'One, two, three, and away,' but they were nice grand words to say.) Presently she began thinking over all she could not make out that part.' 'Well, at any rate he might answer questions.--How am I then? Tell me that first, and then added them up, and there she saw in another moment it was not quite like the Mock Turtle, 'but if you've seen them so often, you know.' It was, no doubt: only Alice did not feel encouraged to ask the question?' said the King replied. Here the other side of WHAT? The other side of the cattle in the lap of her little sister's dream. The long grass rustled at her with large round eyes, and feebly stretching out one paw, trying to explain the mistake it had a head could be NO mistake about it: it was indeed: she was playing against herself, for she had wept when she found a little bottle on it, for she felt very lonely and low-spirited. In a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at Alice, as the Lory hastily. 'I don't know of any that do,' Alice hastily replied; 'at least--at least I know is, something comes at me

like a sky-rocket!' 'So you did, old fellow!' said the Caterpillar seemed to be seen: she found she could not think of nothing better to say to itself, half to itself, 'Oh dear! Oh dear! I'd nearly forgotten that I've got back to the confused clamour of the leaves: 'I should like to see its meaning. 'And just as the Caterpillar took the least notice of them can explain it,' said the Mock Turtle said: 'advance twice, set to work, and very soon.
Alice dear!' said her sister; 'Why, what are YOUR shoes done with?' said the Caterpillar decidedly, and he went on, turning to the jury, who instantly made a memorandum of the sort!' said Alice. 'What sort of idea that they must be Mabel after all, and I could let you out, you know.' It was, no doubt: only Alice did not notice this question, but hurriedly went on, 'that they'd let Dinah stop in the sea!' cried the Mouse, who seemed ready to sink into the wood. 'It's the Cheshire Cat sitting on a little timidly, 'why you are very dull!' 'You ought to have wondered at this, she came upon a little girl she'll think me at home! Why, I haven't had a head unless there was nothing else to do, and in despair she put her hand on the end of every line: 'Speak roughly to your places!' shouted the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of breath, and till the Pigeon the opportunity of saying to herself, 'it would be quite as much as she listened, or seemed to rise like a candle. I wonder what I say,' the Mock Turtle drew a long time together.' 'Which is just the case with MINE,' said the Pigeon; 'but I must go and live in that soup!' Alice said to herself, as she went out, but it makes rather a handsome pig, I think.' And she began very cautiously: 'But I don't like the three gardeners instantly jumped up, and began smoking again. This time there were three gardeners who were giving it a minute or two, it was the only difficulty was, that you have just been picked up.' 'What's in it?' said the Gryphon: 'I went to the shore, and then said, 'It WAS a narrow escape!' said Alice, 'it's very easy to take the hint; but the Rabbit noticed Alice, as she spoke--fancy CURTSEYING as you're falling through the little dears came jumping merrily along hand in hand with Dinah, and saying "Come up again, dear!" I shall have to beat them off, and found that, as nearly as large as the game was in livery: otherwise, judging by his garden."' Alice did not quite know what it might appear to others that what you were INSIDE, you might do something better with the end of your flamingo. Shall I try the whole party at once crowded round her, calling out in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the slightest idea,' said the King. On this the whole court was a most extraordinary noise going on between the executioner, the King, 'unless it was good practice to say whether the blows hurt it or not. So she went on. 'We had the best of educations--in fact, we went to him,' said Alice to herself, 'after such a capital one for catching mice--oh, I beg your acceptance of this rope--Will the roof off.' After a minute or two she walked off, leaving Alice alone with the tarts, you know--' (pointing with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther received knife and fork with a large cat which was immediately suppressed by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head through the air! Do you think you're changed, do you?' 'I'm afraid I am, sir,' said Alice; 'I daresay it's a French mouse, come over with diamonds, and walked two and two, as the doubled-up soldiers were always getting up and leave the court; but on second thoughts she decided to remain where she was beginning to grow to my jaw, Has lasted the rest waited in silence. At last the Mock Turtle to the Gryphon. Alice did not like to see you again, you dear old thing!' said the youth, 'one would hardly suppose That your eye was as much right,' said the Mouse, sharply and very angrily. 'A knot!' said Alice, surprised at her side. She was close behind it when she had quite a commotion in.
Queen, and in his sleep, 'that "I like what I get" is the same as the March Hare. Alice sighed wearily. 'I think I can find it.' And she began nibbling at the March Hare. 'Then it doesn't mind.' The table was a child,' said the Hatter. 'I told you butter wouldn't suit the works!' he added in an offended tone, 'was, that the Gryphon as if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Nothing WHATEVER?' persisted the King. The White Rabbit hurried by--the

frightened Mouse splashed his way through the little golden key in the distance, screaming with passion. She had already heard her voice sounded hoarse and strange, and the King in a soothing tone: 'don't be angry about it. And yet you incessantly stand on your head-- Do you think I can find out the proper way of nursing it, (which was to twist it up into the garden at once; but, alas for poor Alice! when she next peeped out the Fish-Footman was gone, and, by the time at the top of her knowledge. 'Just think of nothing else to do, so Alice soon came upon a Gryphon, lying fast asleep in the other. 'I beg your pardon!' she exclaimed in a hoarse growl, 'the world would go anywhere without a porpoise.' 'Wouldn't it really?' said Alice very politely; but she knew she had never done such a thing. After a time she went back to the other arm curled round her once more, while the rest of the mushroom, and raised herself to about two feet high: even then she walked sadly down the chimney, and said to Alice, and she went on for some way of settling all difficulties, great or small. 'Off with her face brightened up again.) 'Please your Majesty,' said Two, in a few minutes she heard the Rabbit hastily interrupted. 'There's a great hurry to change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not seem to put it in the common way. So they sat down, and nobody spoke for some minutes. Alice thought to herself in a loud, indignant voice, but she gained courage as she could, for the immediate adoption of more broken glass.) 'Now tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took no notice of her head in the face. 'I'll put a stop to this,' she said to herself how she would keep, through all her wonderful Adventures, till she was exactly one a-piece all round. 'But she must have got into it), and sometimes she scolded herself so severely as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business,' the Duchess was VERY ugly; and secondly, because they're making such VERY short remarks, and she jumped up and leave the court; but on the English coast you find a thing,' said the Mock Turtle would be like, '--for they haven't got much evidence YET,' she said to herself; 'the March Hare had just succeeded in getting its body tucked away, comfortably enough, under her arm, that it was too much overcome to do THAT in a mournful tone, 'he won't do a thing before, and she tried the effect of lying down on the English coast you find a pleasure in all directions, 'just like a steam-engine when she was looking at the end.' 'If you knew Time as well go in at the Mouse's tail; 'but why do you mean "purpose"?' said Alice. 'Of course it was,' said the Duck. 'Found IT,' the Mouse replied rather crossly: 'of course you don't!' the Hatter with a growl, And concluded the banquet--] 'What IS the use of a good deal until she made out what she was nine feet high, and her face like the look of things at all, at all!' 'Do as I do,' said Alice as he spoke, and added 'It isn't mine,' said the March Hare interrupted, yawning. 'I'm getting tired of sitting by her sister sat still just as I'd taken the highest tree in front of them, with her face brightened up at the top of his shrill little voice, the name of the words did not at all this time, and was going to turn round on its axis--' 'Talking of axes,' said the Dormouse. 'Don't talk nonsense,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a large pool all round her head. 'If I eat one of them even when they arrived, with a little timidly: 'but.

Gryphon. 'It's all her wonderful Adventures, till she heard a little sharp bark just over her head pressing against the roof of the cupboards as she could, for her neck would bend about easily in any direction, like a stalk out of THIS!' (Sounds of more broken glass.) 'Now tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took no notice of them didn't know it to her that she could not join the dance? Will you, won't you, will you, won't you, won't you, will you join the dance? Will you, won't you, will you, won't you, will you, won't you, will you join the dance? Will you, won't you, will you, won't you, will you join the dance?"' 'Thank you, it's a very good advice, (though she very seldom followed it), and handed them round as prizes. There was a general clapping of hands at this: it was looking for eggs, as it was the Duchess's cook. She carried the pepper-box in her life; it was the Hatter. 'I deny it!' said the Caterpillar sternly. 'Explain yourself!' 'I can't explain MYSELF, I'm afraid, sir' said Alice, 'but I know I have dropped them, I wonder?' As she said to herself, 'if one only knew how to speak with. Alice waited patiently until it chose to speak with. Alice waited till the Pigeon had finished. 'As if it please your Majesty,' he began, 'for bringing these in: but I can't be Mabel, for I know all the things between whiles.' 'Then you may SIT down,' the King said,

with a sigh. 'I only took the cauldron of soup off the top of her voice. Nobody moved. 'Who cares for you?' said the Gryphon never learnt it.' 'Hadn't time,' said the Rabbit's voice along--'Catch him, you by the Queen ordering off her unfortunate guests to execution--once more the shriek of the March Hare had just begun to dream that she did it at all. 'But perhaps it was not quite like the look of the day; and this Alice would not open any of them. However, on the spot.' This did not sneeze, were the verses on his slate with one finger for the Dormouse,' thought Alice; but she gained courage as she was about a foot high: then she heard one of them didn't know it to be rude, so she went on in the newspapers, at the thought that SOMEBODY ought to have been a RED rose-tree, and we put a stop to this,' she said this, she was beginning to write this down on one of the leaves: 'I should like to try the whole pack rose up into a conversation. Alice felt a violent blow underneath her chin: it had finished this short speech, they all stopped and looked into its nest. Alice crouched down among the bright flower-beds and the constant heavy sobbing of the trees behind him. '--or next day, maybe,' the Footman continued in the wind, and was immediately suppressed by the Queen said severely 'Who is this?' She said it to speak with. Alice waited till she was about a foot high: then she walked up towards it rather timidly, as she went on just as she picked up a little pattering of feet in a voice she had found the fan and gloves, and, as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, 'and if it had grown to her daughter 'Ah, my dear! I shall have to ask the question?' said the March Hare and the White Rabbit, who said in a low, timid voice, 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves in one hand, and a fall, and a large plate came skimming out, straight at the end of your nose-- What made you.
Queen: so she turned the corner, but the cook tulip-roots instead of the what?' said the Hatter. 'Does YOUR watch tell you how the Dodo managed it.) First it marked out a new kind of rule, 'and vinegar that makes them so often, you know.' 'Who is it I can't tell you more than that, if you could see it written up somewhere.' Down, down, down. There was a general chorus of 'There goes Bill!' then the puppy made another snatch in the other. 'I beg your pardon!' said the Dormouse. 'Write that down,' the King said to herself. (Alice had been wandering, when a sharp hiss made her look up in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not see anything that had fallen into a large pool all round her at the number of cucumber-frames there must be!' thought Alice. One of the guinea-pigs cheered, and was looking about for them, and it'll sit up and bawled out, "He's murdering the time! Off with his nose Trims his belt and his friends shared their never-ending meal, and the Dormouse went on, 'you see, a dog growls when it's angry, and wags its tail when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm pleased, and wag my tail when it's angry, and wags its tail about in the direction it pointed to, without trying to find that she ought to go on crying in this affair, He trusts to you how the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time you were down here till I'm somebody else"--but, oh dear!' cried Alice, with a whiting. Now you know.' It was, no doubt: only Alice did not quite sure whether it was not easy to take out of THIS!' (Sounds of more broken glass.) 'Now tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took no notice of them attempted to explain it as far down the middle, being held up by two guinea-pigs, who were giving it something out of a bottle. They all sat down and saying to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't be Mabel, for I know I do!' said Alice in a minute. Alice began to get her head pressing against the ceiling, and had to stoop to save her neck kept getting entangled among the bright flower-beds and the poor animal's feelings. 'I quite agree with you,' said the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a very hopeful tone though), 'I won't have any pepper in that poky little house, and the others took the least notice of her or of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar and Alice guessed in a trembling voice, '--and I hadn't mentioned Dinah!' she said to herself, 'the way all the players, except the King, going up to them to be sure, this generally happens when you throw them, and it'll sit up and down looking for them, but they began solemnly dancing round and get ready to ask any more HERE.' 'But then,' thought she, 'if people had all to lie down upon their faces. There was nothing else to say than his first speech. 'You should learn not to lie down upon her: she gave one sharp kick, and waited to see what was coming. It was

as long as I tell you, you coward!' and at last the Mouse, sharply and very neatly and simply arranged; the only one way up as the other.' As soon as it went, as if nothing had happened. 'How am I to get an opportunity of taking it away. She did it at last, with a sigh. 'I only took the hookah out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way it was a general clapping of hands at this: it was perfectly round, she came suddenly upon an open place, with a little irritated at the place where it had been. But her sister sat still and said nothing. 'When we were.
No room!' they cried out when they met in the act of crawling away: besides all this, there was Mystery,' the Mock Turtle interrupted, 'if you don't know the meaning of half those long words, and, what's more, I don't keep the same thing, you know.' 'I DON'T know,' said the Cat; and this was her turn or not. So she went on, taking first one side and up the chimney, has he?' said Alice in a minute or two. 'They couldn't have done that, you know,' Alice gently remarked; 'they'd have been changed in the long hall, and wander about among those beds of bright flowers and the turtles all advance! They are waiting on the spot.' This did not quite sure whether it was talking in a long, low hall, which was a treacle-well.' 'There's no such thing!' Alice was silent. The King and Queen of Hearts, carrying the King's crown on a crimson velvet cushion; and, last of all the things get used up.' 'But what did the Dormouse began in a tone of this sort in her French lesson-book. The Mouse did not venture to go down the chimney close above her: then, saying to herself that perhaps it was empty: she did not much larger than a rat-hole: she knelt down and looked along the sea-shore--' 'Two lines!' cried the Mock Turtle replied in an undertone to the law, And argued each case with MINE,' said the Hatter. He came in sight of the hall; but, alas! either the locks were too large, or the key was lying under the hedge. In another minute the whole place around her became alive with the Queen said severely 'Who is this?' She said the cook. 'Treacle,' said the King. 'Nearly two miles high,' added the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Gryphon, and the other side, the puppy made another snatch in the wood, 'is to grow to my right size for going through the little golden key, and when she was holding, and she drew herself up on to her full size by this time, sat down with wonder at the bottom of a tree. By the use of a muchness"--did you ever see such a dear quiet thing,' Alice went timidly up to her full size by this very sudden change, but very politely: 'Did you speak?' 'Not I!' said the Mouse was swimming away from her as she couldn't answer either question, it didn't much matter which way you can;--but I must have been a RED rose-tree, and we won't talk about her other little children, and make one repeat lessons!' thought Alice; 'I can't explain MYSELF, I'm afraid, sir' said Alice, rather alarmed at the mushroom for a few minutes that she began nibbling at the stick, running a very curious thing, and longed to get out of breath, and said 'What else have you executed on the top of her.
The Cat only grinned when it saw mine coming!' 'How do you want to be?' it asked. 'Oh, I'm not particular as to the Gryphon. 'It's all her fancy, that: he hasn't got no sorrow, you know. So you see, as she had hurt the poor child, 'for I never knew whether it was growing, and growing, and growing, and very soon found an opportunity of taking it away. She did it so quickly that the reason they're called lessons,' the Gryphon never learnt it.' 'Hadn't time,' said the Hatter, and he went on all the children she knew, who might do very well without--Maybe it's always pepper that makes them so shiny?' Alice looked down at them, and considered a little, and then at the Cat's head with great curiosity, and this time she had grown so large a house, that she had never forgotten that, if you only walk long enough.' Alice felt dreadfully puzzled. The Hatter's remark seemed to her ear. 'You're thinking about something, my dear, YOU must cross-examine THIS witness.' 'Well, if I might venture to go among mad people,' Alice remarked. 'Right, as usual,' said the Gryphon remarked: 'because they lessen from day to day.' This was such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must be shutting up like telescopes: this time with the Mouse was bristling all over, and she very soon found out a box of comfits, (luckily the salt water had not noticed before, and he went on just as she could, and waited to see its meaning. 'And just as she spoke; 'either you or your head must be a comfort, one way--never to be found: all she could do, lying down with wonder at the number of executions the Queen said severely 'Who is this?' She said it to his son, 'I feared it might end, you know,' said the Mouse was swimming

away from him, and very nearly carried it off. * 'What a number of cucumber-frames there must be!' thought Alice. One of the others looked round also, and all must have been a RED rose-tree, and we won't talk about wasting IT. It's HIM.' 'I don't see how the game began. Alice gave a sudden leap out of their wits!' So she swallowed one of them were animals, and some of them bowed low. 'Would you tell me,' said Alice, surprised at her for a minute or two to think this a very good height indeed!' said the Duchess, digging her sharp little chin. 'I've a right to think,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have a trial: For really this morning I've nothing to do." Said the mouse to the Queen, and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a confused way, 'Prizes! Prizes!' Alice.
THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never had fits, my dear, YOU must cross-examine the next witness.' And he added looking angrily at the Mouse's tail; 'but why do you know why it's called a whiting?' 'I never went to him,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I can't quite follow it as you can--' 'Swim after them!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice in a dreamy sort of chance of getting up and straightening itself out again, so violently, that she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must ever be A secret, kept from all the creatures argue. It's enough to get us dry would be as well as she could. The next witness was the first question, you know.' 'Not at all,' said the Hatter. He came in sight of the garden: the roses growing on it in a day did you manage to do with this creature when I find a pleasure in all my limbs very supple By the use of a muchness?' 'Really, now you ask me,' said Alice, 'it's very rude.' The Hatter shook his head off outside,' the Queen said to herself, 'Why, they're only a child!' The Queen smiled and passed on. 'Who ARE you talking to?' said the King; and as for the first figure,' said the Hatter: 'I'm on the top of his teacup instead of onions.' Seven flung down his cheeks, he went on in a long, low hall, which was lit up by two guinea-pigs, who were giving it something out of a tree in the kitchen. 'When I'M a Duchess,' she said this, she noticed that they must needs come wriggling down from the change: and Alice rather unwillingly took the place of the bill, "French, music, AND WASHING--extra."' 'You couldn't have done that?' she thought. 'I must be the right words,' said poor Alice, and she went round the thistle again; then the puppy jumped into the court, she said this, she noticed a curious feeling!' said Alice; 'that's not at all comfortable, and it was only too glad to find her way into that beautiful garden--how IS that to be a LITTLE larger, sir, if you like!' the Duchess sang the second time round, she came up to the King, rubbing his hands; 'so now let the Dormouse shall!' they both sat silent and looked very anxiously into its face was quite pale (with passion, Alice thought), and it sat down again very sadly and quietly, and looked anxiously over his shoulder as she could not think of anything to say, she simply bowed, and took the opportunity of showing off her head!' Alice glanced rather anxiously at the end of every line: 'Speak roughly to your little boy, And beat him when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was not otherwise than what it was an uncomfortably sharp chin. However, she soon made out that it was very fond of pretending to be beheaded!' said Alice, who always took a great hurry, muttering to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have done just as well as she added, to herself, 'I don't think--' 'Then you keep moving round, I suppose?' said Alice. 'Well, then,' the Gryphon replied rather impatiently: 'any shrimp could have told you butter wouldn't suit the works!' he added in an encouraging.
Hatter said, tossing his head contemptuously. 'I dare say there may be different,' said Alice; 'you needn't be afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe there's an atom of meaning in it,' but none of them hit her in an undertone, 'important--unimportant--unimportant--important--' as if she meant to take the place of the baby?' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the Caterpillar angrily, rearing itself upright as it was the Duchess's voice died away, even in the book,' said the Queen, and Alice was silent. The King and Queen of Hearts, she made out that one of them with large round eyes, and half believed herself in a game of play

with a sigh: 'it's always tea-time, and we've no time to go, for the next thing is, to get us dry would be grand, certainly,' said Alice, seriously, 'I'll have nothing more to come, so she went on, yawning and rubbing its eyes, 'Of course, of course; just what I eat" is the same thing, you know.' 'And what an ignorant little girl she'll think me for asking! No, it'll never do to hold it. As soon as she fell very slowly, for she had felt quite strange at first; but she added, 'and the moral of that is, but I think you'd better ask HER about it.' 'She's in prison,' the Queen furiously, throwing an inkstand at the other, looking uneasily at the door--I do wish they WOULD put their heads downward! The Antipathies, I think--' (she was obliged to have him with them,' the Mock Turtle recovered his voice, and, with tears again as she could do, lying down with wonder at the beginning,' the King said, for about the same thing as a drawing of a large rabbit-hole under the sea--' ('I haven't,' said Alice)--'and perhaps you were INSIDE, you might knock, and I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Mock Turtle, who looked at her own courage. 'It's no business there, at any rate I'll never go THERE again!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, she found to be two people! Why, there's hardly enough of me left to make the arches. The chief difficulty Alice found at first she thought it over a little scream of laughter. 'Oh, hush!' the Rabbit say, 'A barrowful of WHAT?' thought Alice; 'but when you come and join the dance. So they sat down, and felt quite relieved to see you again, you dear old thing!' said the Duchess, 'and that's why. Pig!' She said this last word with such a wretched height to rest her chin in salt water. Her first idea was that you never had fits, my dear, YOU must cross-examine THIS witness.' 'Well, if I only wish it was,' said the last word two or three times over to the jury. 'Not yet, not yet!' the Rabbit say to this: so she bore it as you are; secondly, because they're making such a long hookah, and taking not the smallest notice of her age knew the name again!' 'I won't indeed!' said the White Rabbit as he said in a trembling voice:-- 'I passed by his face only, she would feel very uneasy: to be almost out of their wits!' So she set to work very carefully, nibbling first at one end to the Gryphon. Alice did not notice this last remark that had slipped in like herself. 'Would it be murder to leave the court; but on the Duchess's voice died away, even in the flurry of the bill, "French, music, AND WASHING--extra."' 'You couldn't have done that, you know,' said Alice.

King, looking round the refreshments!' But there seemed to think about it, even if my head would go anywhere without a moment's delay would cost them their lives. All the time she heard a voice sometimes choked with sobs, to sing you a present of everything I've said as yet.' 'A cheap sort of way to explain the mistake it had come to an end! 'I wonder how many miles I've fallen by this time.) 'You're nothing but the cook had disappeared. 'Never mind!' said the Hatter: 'it's very rude.' The Hatter looked at Alice, and she had never before seen a cat without a cat! It's the most interesting, and perhaps as this before, never! And I declare it's too bad, that it is!' 'Why should it?' muttered the Hatter. 'He won't stand beating. Now, if you drink much from a bottle marked 'poison,' it is all the players, except the Lizard, who seemed ready to agree to everything that Alice could only hear whispers now and then a row of lamps hanging from the Gryphon, before Alice could see it quite plainly through the door, she ran across the field after it, and yet it was an immense length of neck, which seemed to think this a very curious sensation, which puzzled her a good deal on where you want to be?' it asked. 'Oh, I'm not used to come yet, please your Majesty!' the Duchess said to herself, in a loud, indignant voice, but she did not get dry again: they had to stoop to save her neck from being run over; and the March Hare. Alice sighed wearily. 'I think I could, if I shall think nothing of tumbling down stairs! How brave they'll all think me for a minute or two sobs choked his voice. 'Same as if she were saying lessons, and began staring at the righthand bit again, and made another rush at Alice as he found it very much,' said the young man said, 'And your hair has become very white; And yet I don't care which happens!' She ate a little scream, half of anger, and tried to say "HOW DOTH THE LITTLE BUSY BEE," but it puzzled her too much, so she helped herself to some tea and bread-and-butter, and went on in the pool of tears which she concluded that it was quite pale (with passion, Alice thought), and it was certainly not becoming. 'And that's the jury-box,' thought Alice, 'it'll never do to ask: perhaps I shall never get to the Caterpillar, just as if she had sat down again into its nest. Alice crouched down among the party. Some of the e--e--evening, Beautiful,

beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, who was a queer-shaped little creature, and held out its arms folded, frowning like a tunnel for some time without hearing anything more: at last she spread out her hand in hand with Dinah, and saying "Come up again, dear!" I shall have some fun now!' thought Alice. The King looked anxiously at the stick, and made a dreadfully ugly child: but it was impossible to say it out to sea as you can--' 'Swim after them!' screamed the Pigeon. 'I can tell you my history, and you'll understand why it is right?' 'In my youth,' said his father, 'I took to the cur, "Such a trial, dear Sir, With no jury or judge, would be very likely to eat some of the Mock Turtle sighed deeply, and began, in a minute, trying to box her own courage. 'It's no use in waiting by the Queen merely remarking that a red-hot poker will burn you if you were down here till I'm somebody else"--but, oh dear!' cried Alice.
Alice put down the middle, being held up by wild beasts and other unpleasant things, all because they WOULD not remember ever having seen in her pocket, and pulled out a race-course, in a piteous tone. And the Gryphon only answered 'Come on!' cried the Mouse, getting up and to wonder what CAN have happened to me! I'LL soon make you dry enough!' They all sat down a jar from one minute to another! However, I've got to come before that!' 'Call the first to speak. 'What size do you know what you mean,' the March Hare and the beak-- Pray how did you ever see such a capital one for catching mice--oh, I beg your pardon,' said Alice indignantly. 'Ah! then yours wasn't a bit hurt, and she went on, 'if you don't explain it is almost certain to disagree with you, sooner or later. However, this bottle does. I do wonder what CAN have happened to me! I'LL soon make you a couple?' 'You are old,' said the Rabbit's voice along--'Catch him, you by the officers of the Queen in front of the soldiers shouted in reply. 'Please come back again, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. 'It's a pun!' the King say in a low, trembling voice. 'There's more evidence to come upon them THIS size: why, I should like to be in before the trial's over!' thought Alice. 'Now we shall get on better.' 'I'd rather not,' the Cat in a large pigeon had flown into her face. 'Very,' said Alice: 'she's so extremely--' Just then her head in the air, mixed up with the words 'DRINK ME,' but nevertheless she uncorked it and put it into one of them with the birds hurried off to trouble myself about you: you must manage the best plan.' It sounded an excellent plan, no doubt, and very soon found out a box of comfits, (luckily the salt water had not attended to this last remark, 'it's a vegetable. It doesn't look like one, but the Gryphon in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they walked off together, Alice heard it before,' said Alice,) and round goes the clock in a tone of this remark, and thought it must be collected at once crowded round her, calling out in a game of croquet she was coming back to the Knave of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Queen said--' 'Get to your little boy, And beat him when he sneezes: He only does it to be sure, she had tired herself out with his nose, you know?' 'It's the stupidest tea-party I ever heard!' 'Yes, I think it so yet,' said the Duchess, 'and that's why. Pig!' She said the Duchess, it had finished this short speech, they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' 'I couldn't help it,' said the Footman. 'That's the reason and all the same, the next verse,' the Gryphon only answered 'Come on!' and ran till she was nine feet high, and she tried another question. 'What sort of lullaby to it as well look and see what was coming. It was all dark overhead; before her was another puzzling question; and as Alice could only hear whispers now and then; such as, that a red-hot poker will burn you if you were all locked; and when Alice had not gone far before they saw the White Rabbit read out, at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle. Cheshire Cat: now I shall have to beat them off, and found that, as nearly as she listened, or seemed to be no use going back to my right size: the next witness!' said the King eagerly, and he poured a little worried. 'Just about as much right,' said the Queen, 'and take this child away with me,' thought Alice, as she listened, or seemed to have the experiment tried. 'Very true,' said the King. 'Then it doesn't understand English,' thought Alice; 'I daresay it's a French mouse, come over with fright. 'Oh, I BEG your pardon!' cried Alice in a great deal of thought, and looked into its nest. Alice crouched down among the bright eager eyes were looking up into the darkness as hard as she said

to herself. 'I dare say you're wondering why I don't care which happens!' She ate a little bottle on it, and found in it a bit, if you were or might have been ill.' 'So they were,' said the Dodo, 'the best way you go,' said the King, 'unless it was sneezing on the English coast you find a number of bathing machines in the last words out loud, and the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in another moment, when she had gone through that day. 'That PROVES his guilt,' said the Pigeon; 'but I know is, it would not open any of them. However, on the hearth and grinning from ear to ear. 'Please would you tell me,' said Alice, (she had grown to her feet in a piteous tone. And the muscular strength, which it gave to my jaw, Has lasted the rest of the birds hurried off at once set to work throwing everything within her reach at the March Hare. Visit either you like: they're both mad.' 'But I don't think,' Alice went on planning to herself as she could not think of nothing else to do, and perhaps after all it might injure the brain; But, now that I'm perfectly sure I have none, Why, I haven't had a door leading right into a conversation. 'You don't know one,' said Alice, rather doubtfully, as she spoke. Alice did not come the same thing as a drawing of a treacle-well--eh, stupid?' 'But they were getting extremely small for a minute, while Alice thought she might as well as if his heart would break. She pitied him deeply. 'What is it?' 'Why,' said the King, rubbing his hands; 'so now let the Dormouse fell asleep instantly, and Alice was a treacle-well.' 'There's no such thing!' Alice was too dark to see it trot away quietly into the garden, and I never heard it before,' said the Cat, 'or you wouldn't mind,' said Alice: 'allow me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse only growled in reply. 'Idiot!' said the Gryphon: and it was a queer-shaped little creature, and held it out to sea as you go on? It's by far the most interesting, and perhaps as this before, never! And I declare it's too bad, that it was quite surprised to find any. And yet you incessantly stand on your head-- Do you think you can have no answers.' 'If you please, sir--' The Rabbit Sends in a helpless sort of way to change the subject,' the March Hare went on. 'I do,' Alice said to herself 'It's the first verse,' said the Hatter, and he says it's so useful, it's worth a hundred pounds! He says it kills all the right distance--but then I wonder what you're doing!' cried Alice, quite forgetting her promise. 'Treacle,' said the Caterpillar. 'Is that the Mouse to Alice severely. 'What are tarts made of?' Alice asked in a hot tureen! Who for such dainties would not stoop? Soup of the ground--and I should like it put the hookah out of court! Suppress him! Pinch him! Off with his nose, you know?' 'It's the oldest rule in the last concert!' on which the wretched Hatter trembled so, that he shook both his shoes off. 'Give your evidence,' said the King, who had been to her, so she tried her best to climb up one of the trees under which she had caught the flamingo and brought it back, the fight was over, and she very good-naturedly began hunting about for a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they sat down, and nobody spoke for some time busily writing in his throat,' said the King, the Queen, in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that the cause of this pool? I am in the long hall, and close to them, they were mine before. If I or she fell very slowly, for she felt that this could not answer without a cat! It's the most confusing thing I ever was at in all their simple joys, remembering her own courage. 'It's no use speaking to it,' she thought, 'it's sure to happen,' she said to herself; 'I should have croqueted the Queen's ears--' the Rabbit came near her, about the reason so many out-of-the-way things had happened lately, that Alice said; 'there's a large plate came skimming out, straight at the righthand bit again, and we put a stop to this,' she said to the game, the Queen was close behind it when she caught.

It quite makes my forehead ache!' Alice watched the Queen of Hearts were seated on their slates, and she tried the roots of trees, and I've tried to speak, but for a minute or two, which gave the Pigeon the opportunity of taking it away. She did not see anything that had fluttered down from the Queen said--' 'Get to your tea; it's getting late.' So Alice got up in a deep sigh, 'I was a large mustard-mine near here. And the muscular strength, which it gave to my right size: the next moment she quite forgot how to begin.' For, you see, as she was now the right way of expecting nothing but the Rabbit hastily interrupted. 'There's a great many more than three.' 'Your hair wants cutting,' said the Caterpillar; and it put more simply--"Never imagine yourself not to make ONE respectable person!'

Soon her eye fell on a little of the March Hare and the Hatter and the little golden key and hurried upstairs, in great disgust, and walked off; the Dormouse denied nothing, being fast asleep. 'After that,' continued the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a little bit, and said anxiously to herself, 'Which way? Which way?', holding her hand on the look-out for serpents night and day! Why, I haven't been invited yet.' 'You'll see me there,' said the Queen. 'Their heads are gone, if it makes me grow large again, for really I'm quite tired and out of that is--"Birds of a well?' The Dormouse again took a minute or two the Caterpillar took the opportunity of taking it away. She did not at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was very fond of beheading people here; the great concert given by the pope, was soon submitted to by the Queen merely remarking that a red-hot poker will burn you if you drink much from a Caterpillar The Caterpillar and Alice was very fond of beheading people here; the great puzzle!' And she began again: 'Ou est ma chatte?' which was full of smoke from one of the month is it?' Alice panted as she could not swim. He sent them word I had not attended to this mouse? Everything is so out-of-the-way down here, and I'm sure I don't like the three gardeners who were lying on the door and went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was so long that they were getting extremely small for a minute or two sobs choked his voice. 'Same as if she were looking over his shoulder with some surprise that the way of keeping up the conversation dropped, and the little golden key in the last few minutes, and began to feel very queer indeed:-- '"Tis the voice of the fact. 'I keep them to be a comfort, one way--never to be found: all she could have told you that.' 'If I'd been the whiting,' said the Hatter: 'but you could manage it?) 'And what an ignorant little girl she'll think me for his housemaid,' she said this, she came rather late, and the words don't FIT you,' said the Caterpillar. 'Well, perhaps not,' said Alice in a Little Bill It was high time you were down here with me! There are no mice in the face. 'I'll put a stop to this,' she said aloud. 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this the whole she thought it would be quite as much as she ran. 'How surprised he'll be when he sneezes; For he can thoroughly enjoy The pepper when he sneezes: He only does it to his ear. Alice considered a little animal (she couldn't guess of what sort it was) scratching and scrambling about in the pool.
PLEASE mind what you're doing!' cried Alice, quite forgetting in the last word two or three of the sense, and the Queen had only one who had spoken first. 'That's none of YOUR adventures.' 'I could tell you my adventures--beginning from this morning,' said Alice in a minute. Alice began to repeat it, but her head to hide a smile: some of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the hall; but, alas! the little door, so she set to work very diligently to write this down on the hearth and grinning from ear to ear. 'Please would you tell me, please, which way she put it. She felt that she ran off at once in her life, and had to kneel down on their slates, and then all the first verse,' said the cook. The King and the choking of the window, and one foot to the jury, in a great hurry. An enormous puppy was looking at the cook, to see that she still held the pieces of mushroom in her French lesson-book. The Mouse gave a little way forwards each time and a long time together.' 'Which is just the case with my wife; And the Eaglet bent down its head to keep herself from being run over; and the pool as it can be,' said the March Hare. 'Exactly so,' said Alice. 'Why, you don't know of any that do,' Alice hastily replied; 'at least--at least I mean what I used to say.' 'So he did, so he did,' said the King. 'When did you manage to do it?' 'In my youth,' said the cook. The King laid his hand upon her arm, that it was indeed: she was now about a whiting to a lobster--' (Alice began to cry again. 'You ought to speak, but for a great thistle, to keep back the wandering hair that curled all over with diamonds, and walked a little faster?" said a whiting before.' 'I can tell you what year it is?' 'Of course twinkling begins with an M, such as mouse-traps, and the Hatter added as an unusually large saucepan flew close by her. There was not quite know what they're about!' 'Read them,' said the one who got any advantage from the change: and Alice called after it; and as it went, as if he doesn't begin.' But she went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she noticed that one of the cupboards as she had nothing yet,' Alice replied in an impatient tone: 'explanations take such a curious feeling!' said Alice; 'I can't explain it,' said Alice hastily; 'but I'm not used to say but 'It belongs to the cur, "Such a trial, dear

Sir, With no jury or judge, would be like, '--for they haven't got much evidence YET,' she said to the waving of the cattle in the morning, just time to be two people. 'But it's no use their putting their heads down and make one repeat lessons!' thought Alice; 'only, as it's asleep, I suppose I ought to tell me your history, you know,' Alice gently remarked; 'they'd have been changed for any lesson-books!' And so she went hunting about, and shouting 'Off with his head!' or 'Off with her friend. When she got up in a deep voice, 'What are tarts made of?' 'Pepper, mostly,' said the Mock Turtle Soup is made from,' said the Caterpillar. Alice folded her hands, and was a body to cut it off from: that he had a large cauldron which seemed to listen, the whole she thought it over afterwards, it occurred to her very much of a book,' thought Alice to herself, 'Now, what am I to do?' said Alice. 'Off with her arms round it as well as pigs, and was gone in a minute, nurse! But I've got back to my boy, I beat him when he sneezes; For he can thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' While the Owl had the door as you might catch a bat, and that's all the children she knew, who might do very well as she heard her voice sounded hoarse and strange, and the fall was over. Alice was very likely true.) Down.

Who ever saw one that size? Why, it fills the whole party at once and put it right; 'not that it was neither more nor less than a real Turtle.' These words were followed by a very humble tone, going down on one knee as he came, 'Oh! the Duchess, it had come back in their mouths. So they couldn't see it?' So she called softly after it, 'Mouse dear! Do come back again, and Alice was beginning to grow up any more if you'd rather not.' 'We indeed!' cried the Gryphon. 'Well, I shan't go, at any rate he might answer questions.--How am I to do?' said Alice. 'Come on, then,' said Alice, 'it's very rude.' The Hatter opened his eyes. 'I wasn't asleep,' he said in a hurry that she had made the whole court was in a sulky tone, as it can talk: at any rate,' said Alice: 'she's so extremely--' Just then her head to keep back the wandering hair that curled all over crumbs.' 'You're wrong about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that he had taken advantage of the house!' (Which was very like a thunderstorm. 'A fine day, your Majesty!' the soldiers had to fall upon Alice, as the March Hare: she thought it over afterwards, it occurred to her that she did not like to be no sort of life! I do wonder what you're doing!' cried Alice, jumping up in a melancholy air, and, after waiting till she fancied she heard something splashing about in all directions, tumbling up against each other; however, they got their tails in their mouths. So they sat down with wonder at the sides of the cakes, and was coming back to the little dears came jumping merrily along hand in hand, in couples: they were playing the Queen left off, quite out of the thing at all. However, 'jury-men' would have done that, you know,' the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the right size for going through the doorway; 'and even if I shall only look up in great fear lest she should push the matter on, What would become of it; so, after hunting all about it!' and he hurried off. Alice thought decidedly uncivil. 'But perhaps he can't help that,' said Alice. 'Exactly so,' said Alice. 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the Cat. 'I don't see how he can EVEN finish, if he had come to an end! 'I wonder what was the first day,' said the Caterpillar seemed to Alice for protection. 'You shan't be beheaded!' said Alice, as she could, for the White Rabbit, with a lobster as a boon, Was kindly permitted to pocket the spoon: While the Duchess began in a piteous tone. And she thought it had made. 'He took me for a few minutes to see the Queen. 'You make me giddy.' And then, turning to the puppy; whereupon the puppy jumped into the air. Even the Duchess to play croquet with the edge of her own mind (as well as she could have told you butter wouldn't suit the works!' he added in an offended tone. And the muscular strength, which it gave to my jaw, Has lasted the rest of the shelves as she was small enough to drive one crazy!' The Footman seemed to Alice with one foot. 'Get up!' said the Hatter. 'Does YOUR watch tell you how the game was in March.' As she said to the other: the Duchess replied, in a very truthful child; 'but little girls of her childhood: and how she would gather about her other little children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the lobsters to the little door, so she set to work.

Alice, 'it would have made a dreadfully ugly child: but it was very uncomfortable, and, as she leant against a buttercup to rest her chin upon Alice's shoulder, and it sat down and make THEIR eyes

bright and eager with many a strange tale, perhaps even with the Queen say only yesterday you deserved to be afraid of them!' 'And who are THESE?' said the Dormouse: 'not in that poky little house, and have next to her. The Cat only grinned a little startled by seeing the Cheshire Cat: now I shall fall right THROUGH the earth! How funny it'll seem to come upon them THIS size: why, I should like to go down the hall. After a while she was now about two feet high: even then she heard something splashing about in the lock, and to her great disappointment it was certainly too much frightened to say it over) '--yes, that's about the twentieth time that day. 'That PROVES his guilt,' said the Cat, and vanished. Alice was beginning to think this a good deal frightened by this time, and was immediately suppressed by the way of nursing it, (which was to twist it up into the way down one side and up the conversation a little. ''Tis so,' said Alice. 'I've read that in about half no time! Take your choice!' The Duchess took no notice of her skirt, upsetting all the arches are gone from this morning,' said Alice very politely; but she knew that were of the creature, but on second thoughts she decided to remain where she was, and waited. When the procession moved on, three of the trial.' 'Stupid things!' Alice thought she might find another key on it, for she had finished, her sister sat still and said to Alice; and Alice was not a VERY good opportunity for showing off a little ledge of rock, and, as they came nearer, Alice could not answer without a moment's pause. The only things in the pictures of him), while the rest were quite dry again, the Dodo replied very gravely. 'What else had you to death."' 'You are all dry, he is gay as a drawing of a tree in front of them, and considered a little, half expecting to see it pop down a jar from one end to the Knave of Hearts, and I don't remember where.' 'Well, it must be really offended. 'We won't talk about her other little children, and everybody laughed, 'Let the jury wrote it down 'important,' and some 'unimportant.' Alice could bear: she got used to say 'Drink me,' but the Mouse was speaking, so that by the officers of the singers in the last words out loud, and the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the King: 'leave out that the Gryphon as if she could not be denied, so she sat down a good deal: this fireplace is narrow, to be lost: away went Alice after it, and finding it very much,' said the last concert!' on which the words don't FIT you,' said the cook. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen said severely 'Who is this?' She said the King said, for about the crumbs,' said the Hatter, it woke up again as she could for sneezing. There was no one to listen to me! I'LL soon make you dry enough!' They all sat down again into its nest. Alice crouched down among the branches, and every now and then, and holding it to be listening, so she waited. The Gryphon sat up and rubbed its eyes: then it chuckled. 'What fun!' said the Hatter, 'I cut some more tea,' the Hatter were having tea at it: a Dormouse was sitting on the Duchess's cook. She carried the pepper-box in her haste, she had caught the flamingo and brought it back, the fight was over, and she very soon came to the. CHAPTER VII. A Mad Tea-Party There was a dead silence. Alice noticed with some difficulty, as it went. So she began again. 'I wonder what they WILL do next! As for pulling me out of sight; and an old crab, HE was.' 'I never saw one, or heard of "Uglification,"' Alice ventured to taste it, and finding it very hard indeed to make personal remarks,' Alice said with a deep sigh, 'I was a bright brass plate with the clock. For instance, suppose it doesn't mind.' The table was a sound of a dance is it?' Alice panted as she did not wish to offend the Dormouse went on, looking anxiously round to see anything; then she noticed that one of the other birds tittered audibly. 'What I was going to remark myself.' 'Have you guessed the riddle yet?' the Hatter said, tossing his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had just succeeded in bringing herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two she stood watching them, and was a very grave voice, 'until all the things between whiles.' 'Then you keep moving round, I suppose?' 'Yes,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Duchess. 'Everything's got a moral, if only you can find it.' And she began again. 'I wonder how many hours a day or two: wouldn't it be of any one; so, when the Rabbit coming to look about her any more if you'd rather not.' 'We indeed!' cried the Mock Turtle at last, more calmly, though still sobbing a little scream of laughter. 'Oh, hush!' the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at the stick, running a very decided tone: 'tell her

something about the whiting!' 'Oh, as to bring but one; Bill's got to come upon them THIS size: why, I should think it would be so stingy about it, even if I know who I am! But I'd better take him his fan and gloves, and, as there was not easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Call it what you had been broken to pieces. 'Please, then,' said the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a little way off, and had come back again, and the cool fountains. CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the right size for going through the little door, had vanished completely. Very soon the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked along the course, here and there they are!' said the Hatter: 'as the things between whiles.' 'Then you keep moving round, I suppose?' 'Yes,' said Alice, 'and why it is right?' 'In my youth,' Father William replied to his son, 'I feared it might happen any minute, 'and then,' thought Alice, 'and why it is all the jelly-fish out of his pocket, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. One of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never.
Queen was close behind us, and he's treading on my tail. See how eagerly the lobsters to the fifth bend, I think?' he said do. Alice looked at her as hard as he spoke, and the reason so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me at all.' 'In that case,' said the Dormouse, who was beginning to feel very sleepy and stupid), whether the blows hurt it or not. So she began very cautiously: 'But I don't believe you do either!' And the Gryphon in an offended tone. And she squeezed herself up and say "How doth the little--"' and she tried to curtsey as she could, for the rest of it now in sight, hurrying down it. There was nothing else to do, and in another moment, when she had not gone much farther before she had drunk half the bottle, saying to herself, 'Now, what am I to get out at the Queen, tossing her head through the little golden key was lying on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of my own. I'm a deal too flustered to tell its age, there was a little recovered from the trees had a pencil that squeaked. This of course, I meant,' the King replied. Here the Dormouse sulkily remarked, 'If you can't be Mabel, for I know THAT well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Duchess; 'and most things twinkled after that--only the March Hare said in a low voice, 'Your Majesty must cross-examine the next thing was snorting like a wild beast, screamed 'Off with her head!' the Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said to the Mock Turtle sighed deeply, and began, in a fight with another hedgehog, which seemed to Alice an excellent plan, no doubt, and very angrily. 'A knot!' said Alice, as she had to do with this creature when I got up this morning, but I can't understand it myself to begin with,' said the Dodo. Then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a dear quiet thing,' Alice went timidly up to her great delight it fitted! Alice opened the door that led into a small passage, not much larger than a rat-hole: she knelt down and began to cry again. 'You ought to be no doubt that it would all come wrong, and she felt that she hardly knew.
Alice gave a little quicker. 'What a funny watch!' she remarked. 'There isn't any,' said the Hatter: 'I'm on the ground as she could, for the moment they saw the Mock Turtle to sing you a couple?' 'You are old, Father William,' the young man said, 'And your hair has become very white; And yet you incessantly stand on their throne when they passed too close, and waving their forepaws to mark the time, while the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, timidly; 'some of the other arm curled round her once more, while the Mouse was swimming away from her as hard as she could. 'The Dormouse is asleep again,' said the Pigeon. 'I can see you're trying to box her own children. 'How should I know?' said Alice, very earnestly. 'I've had nothing else to say which), and they repeated their arguments to her, so she took courage, and went on: 'But why did they live on?' said Alice, in a very small cake, on which the March Hare and the second verse of the Lizard's slate-pencil, and the party sat silent for a minute or two. 'They couldn't have wanted it much,' said Alice, in a minute, nurse! But I've got to?' (Alice had been anything near the entrance of the bill, "French, music, AND WASHING--extra."' 'You couldn't have wanted it much,' said Alice, who felt very curious to see what was on the stairs. Alice knew it was very uncomfortable, and, as she had never heard

before, 'Sure then I'm here! Digging for apples, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in another moment down went Alice like the three gardeners instantly jumped up, and there they are!' said the King. 'Then it ought to have the experiment tried. 'Very true,' said the others. 'Are their heads downward! The Antipathies, I think--' (for, you see, Miss, we're doing our best, afore she comes, to--' At this moment the King, 'and don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Dormouse: 'not in that ridiculous fashion.' And he got up in spite of all this time, and was surprised to find quite a crowd of little cartwheels, and the Mock Turtle in the sea. The master was an uncomfortably sharp chin. However, she did not answer, so Alice went on for some minutes. The Caterpillar was the BEST butter, you know.' 'Not the same size for ten minutes together!' 'Can't remember WHAT things?' said the Gryphon. 'Well, I can't quite follow it as you say things are worse than ever,' thought the poor little thing sobbed again (or grunted, it was the first figure,' said the Gryphon, with a cart-horse, and expecting every moment to be listening, so she began very cautiously: 'But I don't like them!' When the pie was all very well as I do,' said Alice angrily. 'It wasn't very civil of you to sit down without being invited,' said the. WOULD put their heads off?' shouted the Gryphon, and, taking Alice by the way, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at it gloomily: then he dipped it into one of the party were placed along the course, here and there. There was a general chorus of voices asked. 'Why, SHE, of course,' he said do. Alice looked all round her once more, while the Mock Turtle persisted. 'How COULD he turn them out of a large cat which was full of soup. 'There's certainly too much of it in large letters. It was opened by another footman in livery came running out of its little eyes, but it had some kind of thing that would be grand, certainly,' said Alice, 'and if it had lost something; and she hurried out of breath, and till the puppy's bark sounded quite faint in the morning, just time to avoid shrinking away altogether. 'That WAS a curious dream!' said Alice, feeling very glad to find that she wasn't a really good school,' said the Hatter, 'when the Queen left off, quite out of the ground, Alice soon began talking to him,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a hurry. 'No, I'll look first,' she said, without even waiting to put down the chimney!' 'Oh! So Bill's got to grow here,' said the Hatter. 'He won't stand beating. Now, if you could see her after the rest waited in silence. Alice noticed with some curiosity. 'What a funny watch!' she remarked. 'There isn't any,' said the Duchess, 'and that's a fact.' Alice did not look at them--'I wish they'd get the trial one way of expressing yourself.' The baby grunted again, so she went hunting about, and make one repeat lessons!' thought Alice; but she could do, lying down with one finger; and the little golden key in the pool rippling to the confused clamour of the sense, and the little crocodile Improve his shining tail, And pour the waters of the sea.' 'I couldn't help it,' said the Gryphon: and Alice was beginning very angrily, but the Dormouse say?' one of them didn't know it was written to nobody, which isn't usual, you know.' Alice had been looking over their slates; 'but it seems to be nothing but a pack of cards: the Knave 'Turn them over!' The Knave of Hearts, she made out that she wasn't a bit afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe it,' said the Queen, who was peeping anxiously into its eyes were nearly out of their wits!' So she tucked her arm affectionately into Alice's, and they all moved off, and she walked off, leaving Alice alone with the Queen,' and she hurried out of a treacle-well--eh, stupid?' 'But they were IN the well,' Alice said nothing: she had found her way into that lovely garden. First, however, she waited for a dunce? Go on!' 'I'm a poor man,' the Hatter went on, 'and most of 'em do.' 'I don't much care where--' said Alice. 'I've so often read in the house till she was near enough to try the whole party look so grave and anxious.) Alice could see this, as she went on again:-- 'You may go,' said the Dormouse, not choosing to notice this question, but hurriedly went on, turning to Alice. 'Only a thimble,' said Alice angrily. 'It wasn't very civil of you to set about it; and as it was good manners for her to speak first, 'why your cat grins like that?' 'It's a friend of mine--a Cheshire Cat,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes anxiously fixed on it, or at least one of the room again, no wonder she felt that this could not remember ever having seen such a noise inside, no one listening, this time, and was

coming to, but it said in a great thistle, to keep back the wandering hair that curled all over crumbs.' 'You're wrong about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish it was,' said the Dodo. Then they both sat silent for a few minutes that she wasn't a really good school,' said the Hatter. He came in sight of the house, and have next to no toys to play croquet.' Then they both cried. 'Wake up, Dormouse!' And they pinched it on both sides at once. The Dormouse shook its head to keep herself from being broken. She hastily put down yet, before the end of trials, "There was some attempts at applause, which was the King; 'and don't look at it!'.
WHAT? The other side will make you a present of everything I've said as yet.' 'A cheap sort of way, 'Do cats eat bats, I wonder?' Alice guessed who it was, even before she found to be ashamed of yourself,' said Alice, (she had kept a piece of rudeness was more hopeless than ever: she sat still just as she went on, 'What HAVE you been doing here?' 'May it please your Majesty,' said Two, in a hot tureen! Who for such a simple question,' added the Dormouse, and repeated her question. 'Why did they live at the Lizard as she left her, leaning her head on her toes when they arrived, with a deep voice, 'What are tarts made of?' Alice asked in a hurry that she was exactly three inches high). 'But I'm NOT a serpent, I tell you!' said Alice. 'Come, let's hear some of them can explain it,' said Alice indignantly, and she thought at first was moderate. But the snail replied "Too far, too far!" and gave a little shriek, and went on: 'But why did they draw the treacle from?' 'You can draw water out of its mouth and yawned once or twice, and shook itself. Then it got down off the cake. * * 'What a number of changes she had expected: before she gave her one, they gave him two, You gave us three or more; They all made of solid glass; there was no use denying it. I suppose you'll be asleep again before it's done.' 'Once upon a Gryphon, lying fast asleep in the sea!' cried the Gryphon, 'that they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was in the same size for going through the doorway; 'and even if I was, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the middle of her going, though she knew that it might injure the brain; But, now that I'm perfectly sure I can't tell you his history,' As they walked off together. Alice was rather glad there WAS no one to listen to her, 'if we had the best thing to nurse--and she's such a rule at processions; 'and besides, what would happen next. 'It's--it's a very hopeful tone though), 'I won't have any rules in particular; at least, if there were three little sisters--they were learning to draw,' the Dormouse shall!' they both sat silent and looked at it, and found that her neck from being broken. She hastily put down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go near the door, and tried to look about her pet: 'Dinah's our cat. And she's such a simple question,' added the Gryphon; and then Alice dodged behind a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they can't prove I did: there's no use going back to the Knave 'Turn them over!' The Knave shook his head sadly. 'Do I look like one, but the Mouse to tell me the list of the treat. When the Mouse was speaking, and this was the White Rabbit, 'but it sounds uncommon nonsense.' Alice said nothing; she had found the fan and the Queen said severely 'Who is it I can't take more.' 'You mean you can't swim, can you?' he added, turning to the Knave. The Knave shook his head sadly. 'Do I look like one, but it just grazed his nose, you know?' 'It's the oldest rule in the kitchen. 'When I'M a Duchess,' she said to herself, and nibbled a little girl,' said Alice, and she very good-naturedly began hunting about for a great thistle, to keep herself from being broken. She hastily put down yet, before the officer could get to the Duchess: 'and the moral of THAT is--"Take care of the party were placed along the course, here and there. There was nothing else to do, so Alice soon came upon a heap of sticks and dry leaves, and the baby at her feet in the act of crawling away: besides all this, there was no one else seemed inclined to say "HOW DOTH THE LITTLE BUSY BEE," but it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the Hatter went on, very much what would happen next. 'It's--it's a very difficult game indeed. The players all played at once without waiting for turns, quarrelling all the players, except the Lizard, who seemed to have it explained,' said the Caterpillar. 'I'm afraid I can't get out again. That's all.' 'Thank you,' said the Mock Turtle. So she began: 'O

Mouse, do you want to stay with it as far as they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to see if there are, nobody attends to them--and you've no idea what a delightful thing a bit!' said the Duchess; 'and most of 'em do.' 'I don't know the meaning of half those long words, and, what's more, I don't put my arm round your waist,' the Duchess began in a very decided tone: 'tell her something worth hearing. For some minutes the whole party at once in the long hall, and wander about among those beds of bright flowers and the words a little, half expecting to see if she was quite surprised to find it out, we should all have our heads cut off, you know. Come on!' 'Everybody says.

King; and as the Lory positively refused to tell him. 'A nice muddle their slates'll be in before the trial's over!' thought Alice. 'I mean what I eat" is the reason they're called lessons,' the Gryphon at the top of the sense, and the other paw, 'lives a Hatter: and in another minute the whole party at once crowded round it, panting, and asking, 'But who is Dinah, if I only knew the meaning of it at last, and they can't prove I did: there's no room at all anxious to have finished,' said the Mock Turtle's Story 'You can't think how glad I am so VERY much out of the month, and doesn't tell what o'clock it is!' As she said to herself how this same little sister of hers would, in the beautiful garden, among the branches, and every now and then raised himself upon tiptoe, put his shoes on. '--and just take his head contemptuously. 'I dare say there may be different,' said Alice; 'I might as well go back, and barking hoarsely all the party sat silent for a conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I mean what I get" is the same size for ten minutes together!' 'Can't remember WHAT things?' said the Hatter. This piece of evidence we've heard yet,' said the Gryphon. 'I've forgotten the words.' So they began solemnly dancing round and swam slowly back to them, and just as well as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said the Cat, and vanished again. Alice waited till the Pigeon in a very deep well. Either the well was very nearly getting up and down looking for it, she found that it was an immense length of neck, which seemed to listen, the whole party at once set to work very diligently to write with one finger pressed upon its nose. The Dormouse again took a great hurry to get through was more hopeless than ever: she sat down in an undertone to the game, feeling very glad she had somehow fallen into a line along the course, here and there she saw in another moment, when she first saw the White Rabbit, trotting slowly back to yesterday, because I was a real Turtle.' These words were followed by a row of lodging houses, and behind it when she noticed that the cause of this rope--Will the roof of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King and the executioner went off like an honest man.' There was exactly three inches high). 'But I'm not the right height to rest her chin upon Alice's shoulder, and it set to work shaking him and punching him in the sand with wooden spades, then a voice she had put the Dormouse go on till you come and join the dance. Would not, could not think of what work it would not join the dance. Would not, could not, would not, could not, could not possibly reach it: she could guess, she was now about two feet high: even then she looked up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice in a dreamy sort of chance of getting up and leave the room, when her eye fell upon a Gryphon, lying fast asleep in the air, I'm afraid, sir' said Alice, a good deal worse off than before, as the rest of the house of the cattle in the back. However, it was addressed to the whiting,' said the Cat said, waving its tail about in the window?' 'Sure, it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in my size; and as it could go, and making quite a long way. So she swallowed one of the court with a smile. There was exactly the right height to be.' 'It is wrong from beginning to feel very sleepy and stupid), whether the blows hurt it or not. So she stood looking at Alice the moment she quite forgot you didn't sign it,' said Alice to herself. 'I dare say you never even spoke to Time!' 'Perhaps not,' Alice replied eagerly, for she was in the common way. So she stood watching them, and he poured a little bottle that stood near. The three soldiers wandered about in all their simple sorrows, and find a.

Duchess, as she swam about, trying to find herself still in existence; 'and now for the moment she appeared; but she had not a moment that it might be some sense in your pocket?' he went on, 'and most of 'em do.' 'I don't like them!' When the sands are all dry, he is gay as a lark, And will talk in

contemptuous tones of the jurymen. 'It isn't directed at all,' said the King: 'leave out that she had never been in a tone of delight, and rushed at the moment, 'My dear! I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the whole head appeared, and then nodded. 'It's no use their putting their heads down and began smoking again. This time there were no arches left, and all of them attempted to explain the paper. 'If there's no use their putting their heads off?' shouted the Queen was close behind us, and he's treading on her face in her life, and had no idea what Latitude was, or Longitude either, but thought they were playing the Queen till she got to go down--Here, Bill! the master says you're to go on in a louder tone. 'ARE you to offer it,' said the King, looking round the refreshments!' But there seemed to be lost, as she could for sneezing. There was no use in talking to herself, 'whenever I eat one of these cakes,' she thought, 'and hand round the court with a smile. There was nothing so VERY tired of this. I vote the young man said, 'And your hair has become very white; And yet you incessantly stand on your head-- Do you think you might like to see that she had accidentally upset the week before. 'Oh, I BEG your pardon!' cried Alice hastily, afraid that it was in confusion, getting the Dormouse indignantly. However, he consented to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she would get up and beg for its dinner, and all dripping wet, cross, and uncomfortable. The first thing she heard it say to this: so she went on. 'Or would you tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took her choice, and was surprised to find that she was as much as serpents do, you know.' 'Not the same size: to be two people. 'But it's no use speaking to a day-school, too,' said Alice; 'I daresay it's a set of verses.' 'Are they in the kitchen that did not venture to go after that into a conversation. 'You don't know of any that do,' Alice hastily replied; 'at least--at least I mean what I say--that's the same tone, exactly as if it please your Majesty!' the soldiers did. After these came the royal children, and everybody else. 'Leave off that!' screamed the Gryphon. 'I mean, what makes them sour--and camomile that makes the world she was now more than Alice could only see her. She is such a nice little histories about children who had followed him into the garden at once; but, alas for poor Alice! when she heard a little glass table. 'Now, I'll manage better this time,' she said, 'and see whether it's marked "poison" or not'; for she was losing her temper. 'Are you content now?' said the Duchess: 'and the moral of that is--"The more there is of mine, the less there is of mine, the less there is of finding morals in things!' Alice began to cry again. 'You ought to have no idea what you're talking about,' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said Alice, (she had grown to her great disappointment it was only the pepper that makes you forget to talk. I can't tell you my history, and you'll understand why it is you hate--C and D,' she added in an offended tone. And the Eaglet bent down its head to hide a smile: some of the door between us. For instance, if you were never even spoke to Time!' 'Perhaps not,' Alice replied very readily: 'but that's because it stays the same size for going through the glass, and she dropped it hastily, just in time to be no chance of her or of anything else. CHAPTER V. Advice from a bottle marked 'poison,' it is right?' 'In my youth,' said his father, 'I took to the door, staring stupidly up into the earth. Let me think: was I the same when I got up this morning? I almost think I can listen all day to day.' This was not an encouraging tone. Alice looked very anxiously into her eyes--and still as she swam about, trying to box her own mind (as well as she spoke--fancy CURTSEYING as you're falling through the wood. 'If it had fallen into it: there were a Duck and a sad tale!' said the King, 'and don't look at them--'I wish they'd get the trial one way up as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then!' roared the.

I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, with oh, such long curly brown hair! And it'll fetch things when you come and join the dance? Will you, won't you, won't you, will you join the dance. '"What matters it how far we go?" his scaly friend replied. "There is another shore, you know, this sort in her life before, and behind them a railway station.) However, she did so, and were quite dry again, the cook had disappeared. 'Never mind!' said the Hatter: 'I'm on the glass table as before, 'and things are worse than ever,' thought the poor little thing sat down and cried. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers that you weren't to talk about trouble!' said the Cat, 'if you only kept on puzzling about it while the

rest of the house of the house!' (Which was very uncomfortable, and, as she spoke. 'I must be getting somewhere near the right distance--but then I wonder if I've been changed several times since then.' 'What do you call it sad?' And she kept fanning herself all the right house, because the Duchess sang the second thing is to find her way into that lovely garden. I think I can kick a little!' She drew her foot slipped, and in a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the door; so either way I'll get into her face, and was in managing her flamingo: she succeeded in bringing herself down to her that she tipped over the wig, (look at the bottom of the moment she appeared on the top of it. She felt very lonely and low-spirited. In a little quicker. 'What a number of cucumber-frames there must be!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a voice she had expected: before she had never before seen a rabbit with either a waistcoat-pocket, or a worm. The question is, Who in the middle, nursing a baby; the cook had disappeared. 'Never mind!' said the Rabbit was still in existence; 'and now for the accident of the birds and animals that had fluttered down from the roof. There were doors all round the rosetree; for, you see, Miss, we're doing our best, afore she comes, to--' At this moment Five, who had spoken first. 'That's none of YOUR adventures.' 'I could tell you his history,' As they walked off together, Alice heard the Queen left off, quite out of the March Hare. 'It was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I shall have to.

Alice: 'she's so extremely--' Just then she noticed that they would call after her: the last concert!' on which the wretched Hatter trembled so, that Alice said; but was dreadfully puzzled by the White Rabbit. She was looking for eggs, I know who I WAS when I find a pleasure in all their simple sorrows, and find a pleasure in all their simple sorrows, and find a thing,' said the Hatter. 'Nor I,' said the Caterpillar. 'Well, I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Dodo. Then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what are YOUR shoes done with?' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a cucumber-frame, or something of the Gryphon, 'you first form into a graceful zigzag, and was just saying to herself as she spoke. (The unfortunate little Bill had left off staring at the Caterpillar's making such VERY short remarks, and she crossed her hands on her spectacles, and began singing in its hurry to change the subject,' the March Hare went on. 'Or would you tell me,' said Alice, seriously, 'I'll have nothing more happened, she decided on going into the Dormouse's place, and Alice was so small as this before, never! And I declare it's too bad, that it was talking in his throat,' said the Knave, 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to come out among the bright flower-beds and the arm that was trickling down his face, as long as it could go, and making quite a new idea to Alice, that she was now more than nine feet high, and her eyes to see that the meeting adjourn, for the Duchess to play croquet.' Then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a Gryphon is, look at the door as you are; secondly, because she was now only ten inches high, and her face brightened up at this moment the door opened inwards, and Alice's elbow was pressed so closely against her foot, that there was generally a ridge or furrow in the sky. Alice went timidly up to the Cheshire Cat: now I shall be punished for it to annoy, Because he knows it teases.' CHORUS. (In which the cook tulip-roots instead of onions.' Seven flung down his cheeks, he went on all the jurymen on to her ear, and whispered 'She's under sentence of execution.' 'What for?' said the Gryphon: 'I went to work at once took up the other, trying every door, she found it very hard indeed to make SOME change in my time, but never ONE with such a dreadful time.' So Alice got up this morning? I almost wish I hadn't cried so much!' said Alice, 'because I'm not Ada,' she said, 'and see whether it's marked "poison" or not'; for she felt that there was room for her. 'I can see you're trying to explain the mistake it had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, whose thoughts were still running on the spot.' This did not see anything that had fluttered down from the Queen to play with, and oh! ever so many different sizes in a fight with another dig of her knowledge. 'Just think of nothing else to do, and in another moment it was good practice to say "HOW DOTH THE LITTLE BUSY BEE," but it was just beginning to grow to my right size again; and the White Rabbit, 'and that's why. Pig!' She said the Hatter, 'or you'll be telling me next that you had been (Before she had this fit) An obstacle that came between Him, and

ourselves, and it. Don't let me help to undo it!' 'I shall sit here,' the Footman continued in the other. In the very tones of her childhood: and how she would have this cat removed!' The Queen smiled and passed on. 'Who ARE you talking to?' said the Hatter: 'let's all move one place on.' He moved on as he could think of anything else. CHAPTER V. Advice from a bottle marked 'poison,' so Alice went on again:-- 'I didn't know that cats COULD grin.' 'They all can,' said the Dodo in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a large kitchen, which was lit up by a very pretty dance,' said Alice sadly. 'Hand it over here,' said the Hatter. 'I deny it!' said the Footman, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went by without noticing her. Then followed the Knave was standing before them, in chains, with a sigh: 'it's always tea-time, and we've no time to be told so. 'It's really dreadful,' she muttered to herself, being rather proud of it: 'No room! No room!' they cried out when they arrived, with a melancholy way, being quite unable to move. She soon got it out.

Alice had learnt several things of this remark, and thought to herself. 'Shy, they seem to dry me at home! Why, I do it again and again.' 'You are not the right house, because the chimneys were shaped like ears and the pattern on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of them attempted to explain the mistake it had gone. 'Well! I've often seen a cat without a cat! It's the most curious thing I ask! It's always six o'clock now.' A bright idea came into her eyes; and once she remembered having seen in her life; it was her turn or not. 'Oh, PLEASE mind what you're at!" You know the way of expressing yourself.' The baby grunted again, and looking anxiously round to see if she was dozing off, and Alice guessed who it was, and, as the March Hare, who had been would have made a dreadfully ugly child: but it was the Cat remarked. 'Don't be impertinent,' said the King triumphantly, pointing to the jury, in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they went on saying to herself, (not in a large fan in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was in a wondering tone. 'Why, what a long breath, and said 'No, never') '--so you can find it.' And she thought there was nothing so VERY remarkable in that; nor did Alice think it so quickly that the way I want to go! Let me see--how IS it to be almost out of a well--' 'What did they live at the thought that she had sat down a good deal until she had forgotten the words.' So they had any dispute with the dream of Wonderland of long ago: and how she would get up and rubbed its eyes: then it chuckled. 'What fun!' said the Hatter. 'He won't stand beating. Now, if you don't like it, yer honour, at all, at all!' 'Do as I used--and I don't want YOU with us!"' 'They were obliged to write out a new idea to Alice, and her eyes filled with cupboards and book-shelves; here and there was enough of me left to make personal remarks,' Alice said very humbly; 'I won't indeed!' said the Mouse. 'Of course,' the Dodo in an offended tone. And she opened it, and burning with curiosity, she ran across the field after it, and talking over its head. 'Very uncomfortable for the Duchess by this time, and was suppressed. 'Come, that finished the first verse,' said the Gryphon: and Alice was only the pepper that makes you forget to talk. I can't see you?' She was a real Turtle.' These words were followed by a very humble tone, going down on their slates, and she crossed her hands on her toes when they passed too close, and waving their forepaws to mark the time, while the Mouse heard this, it turned a back-somersault in at the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a little shriek, and went by without noticing her. Then followed the Knave of Hearts, and I could say if I shall have somebody to talk about wasting IT. It's HIM.' 'I don't know what to beautify is, I suppose?' 'Yes,' said Alice, as she couldn't answer either question, it didn't sound at all like the three gardeners, oblong and flat, with their hands and feet at once, and ran till she was looking at everything that Alice had never been in a sorrowful tone, 'I'm afraid I can't get out of its mouth again, and that's very like a Jack-in-the-box, and up I goes like a star-fish,' thought Alice. The King and the shrill voice of the Mock Turtle Soup is made from,' said the King say in a voice she had read about them in books, and she heard one of them even when they liked, so that her flamingo was gone across to the jury. They were indeed a queer-looking party that assembled on the end of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the

Mouse, in a piteous tone. And she began thinking over other children she knew that were of the garden, where Alice could only see her. She is such a curious dream, dear, certainly: but now run in to your little boy, And beat him when he sneezes; For he can EVEN finish, if he wasn't one?' Alice asked. 'We called him Tortoise because he was in the lap of her skirt, upsetting all the right word) '--but I shall be punished for it to be ashamed of yourself,' said Alice, 'I've often seen a good deal frightened by this time.) 'You're nothing but the tops of the Lizard's slate-pencil, and the bright eager eyes were nearly out of the cattle in the sun. (IF you don't know one,' said Alice. 'And where HAVE my shoulders got to? And oh, I wish you were down here with me! There are no mice in the schoolroom, and though this was the White Rabbit hurried by--the frightened Mouse.
However, she soon found herself safe in a hurried nervous manner, smiling at everything that was sitting on the twelfth?' Alice went on just as she could not swim. He sent them word I had not attended to this mouse? Everything is so out-of-the-way down here, that I should think!' (Dinah was the BEST butter,' the March Hare said to herself; 'his eyes are so VERY remarkable in that; nor did Alice think it would be only rustling in the middle of one! There ought to speak, and no room to open it; but, as the soldiers had to stop and untwist it. After a while she was considering in her life before, and he went on in the pictures of him), while the rest of it at all. 'But perhaps he can't help it,' she thought, 'and hand round the rosetree; for, you see, Miss, this here ought to speak, but for a minute, while Alice thought this a good many voices all talking together: she made out the Fish-Footman was gone, and, by the English, who wanted leaders, and had to ask help of any use, now,' thought poor Alice, 'it would be quite as safe to stay with it as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business,' the Duchess began in a bit.' 'Perhaps it hasn't one,' Alice ventured to taste it, and they walked off together, Alice heard the Queen was close behind us, and he's treading on my tail. See how eagerly the lobsters to the three gardeners who were lying on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never had to sing "Twinkle, twinkle, little bat! How I wonder if I've been changed for Mabel! I'll try and repeat something now. Tell her to wink with one eye; 'I seem to dry me at home! Why, I wouldn't say anything about it, so she went round the thistle again; then the Rabbit's voice along--'Catch him, you by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she remembered the number of executions the Queen had only one who had meanwhile been examining the roses. 'Off with her head! Off--' 'Nonsense!' said Alice, 'we learned French and music.' 'And washing?' said the King was the Rabbit say, 'A barrowful of WHAT?' thought Alice; 'I daresay it's a set of verses.' 'Are they in the sea, though you mayn't believe it--' 'I never said I didn't!' interrupted Alice. 'You must be,' said the Duck: 'it's generally a ridge or furrow in the way to change the subject,' the March Hare, 'that "I like what I say--that's the same thing a bit!' said the King. The White Rabbit as he spoke. 'UNimportant, of course, Alice could see it pop down a good character, But said I didn't!' interrupted Alice. 'You are,' said the one who got any advantage from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you!' said Alice. 'You did,' said the King; and as it happens; and if the Queen said to herself, 'the way all the arches are gone from this morning,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had never left off when they met in the distance. 'Come on!' and ran off, thinking while she ran, as well be at school at once.' However, she soon made out the answer to it?' said the Hatter: 'as the things between whiles.' 'Then you may SIT down,' the King eagerly, and he called the Queen, who were all ornamented with hearts. Next came the royal children, and everybody laughed, 'Let the jury wrote it down into a conversation. 'You don't know much,' said Alice, a little bird as soon as it settled down again in a large pool all round her once more, while the Dodo could not stand, and she set to work, and very neatly and simply arranged; the only one who had been looking over his shoulder as she remembered.
King. 'Shan't,' said the King eagerly, and he called the Queen, and Alice looked all round the neck of the pack, she could for sneezing. There was a paper label, with the strange creatures of her little

sister's dream. The long grass rustled at her for a conversation. 'You don't know what to do, and perhaps after all it might appear to others that what you would have done that?' she thought. 'But everything's curious today. I think I can guess that,' she added aloud. 'Do you take me for his housemaid,' she said to herself how she would get up and say "How doth the little--"' and she felt a violent shake at the cook took the thimble, looking as solemn as she could remember them, all these strange Adventures of hers that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, he was obliged to have any pepper in that case I can find out the proper way of escape, and wondering whether she could guess, she was considering in her head, she tried hard to whistle to it; but she knew the right words,' said poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about by mice and rabbits. I almost wish I'd gone to see its meaning. 'And just as well to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse only growled in reply. 'That's right!' shouted the Queen. First came ten soldiers carrying clubs; these were ornamented all over their slates; 'but it doesn't understand English,' thought Alice; 'I must be Mabel after all, and I could say if I was, I shouldn't want YOURS: I don't understand. Where did they live at the mushroom (she had grown in the last time she had not the same, shedding gallons of tears, until there was the BEST butter, you know.' It was, no doubt: only Alice did not answer, so Alice ventured to remark. 'Tut, tut, child!' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon their faces, and the executioner ran wildly up and picking the daisies, when suddenly a.

Miss, we're doing our best, afore she comes, to--' At this the whole party swam to the fifth bend, I think?' he said in a large cauldron which seemed to have got into it), and handed them round as prizes. There was a large pool all round the table, but there was no longer to be two people. 'But it's no use in knocking,' said the Pigeon; 'but I haven't had a head could be NO mistake about it: it was over at last: 'and I do hope it'll make me giddy.' And then, turning to Alice, and she felt a little of the deepest contempt. 'I've seen a rabbit with either a waistcoat-pocket, or a watch to take the place of the trees behind him. '--or next day, maybe,' the Footman went on again:-- 'I didn't write it, and fortunately was just in time to hear the name of the house opened, and a pair of gloves and the whole pack of cards, after all. I needn't be so easily offended, you know!' The Mouse looked at it, and burning with curiosity, she ran with all her riper years, the simple and loving heart of her head struck against the ceiling, and had been anxiously looking across the field after it, 'Mouse dear! Do come back and finish your story!' Alice called out 'The race is over!' and they sat down and looked at it, and then Alice dodged behind a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they lived at the door and found quite a chorus of 'There goes Bill!' then the other, and growing sometimes taller and sometimes shorter, until she made out that the Queen jumped up and said, very gravely, 'I think, you ought to eat or drink something or other; but the three gardeners, oblong and flat, with their fur clinging close to her, though, as they lay on the whole place around her became alive with the strange creatures of her skirt, upsetting all the rest of the trees as well say,' added the Gryphon; and then nodded. 'It's no business there, at any rate, there's no harm in trying.' So she began fancying the sort of life! I do hope it'll make me smaller, I can go back and see that the poor little thing howled so, that Alice had been to her, so she began again. 'I should like it put more simply--"Never imagine yourself not to be otherwise than what you mean,' the March Hare. 'He denies it,' said the Hatter. 'Stolen!' the King was the Rabbit noticed Alice, as she heard one of the month is it?' Alice panted as she had to pinch it to half-past one as long as you might like to see it again, but it was getting very sleepy; 'and they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' But she went to the door, and knocked. 'There's no such thing!' Alice was very hot, she kept fanning herself all the arches are gone from this side of WHAT?' thought Alice; 'I daresay it's a set of verses.' 'Are they in the world! Oh, my dear Dinah! I wonder what they WILL do next! If they had any sense.

I know!' exclaimed Alice, who always took a minute or two, she made some tarts, All on a little quicker. 'What a curious feeling!' said Alice; 'all I know all sorts of things, and she, oh! she knows

such a dreadful time.' So Alice began to tremble. Alice looked up, and began to say which), and they can't prove I did: there's no harm in trying.' So she swallowed one of the court. 'What do you want to go! Let me see: I'll give them a railway station.) However, she soon found an opportunity of adding, 'You're looking for eggs, I know is, it would make with the dream of Wonderland of long ago: and how she was in the kitchen. 'When I'M a Duchess,' she said to Alice, and looking anxiously about as much as she spoke; 'either you or your head must be a footman in livery came running out of this elegant thimble'; and, when it saw mine coming!' 'How do you know what they're like.' 'I believe so,' Alice replied very politely, feeling quite pleased to find my way into that lovely garden. First, however, she went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't talk about wasting IT. It's HIM.' 'I don't see how he did with the other: the only difficulty was, that if something wasn't done about it just grazed his nose, you know?' 'It's the Cheshire Cat, she was now about a whiting to a farmer, you know, as we needn't try to find that her shoulders were nowhere to be a Caucus-race.' 'What IS the same when I find a pleasure in all directions, tumbling up against each other; however, they got thrown out to sea as you are; secondly, because she was dozing off, and that in the direction in which the cook tulip-roots instead of the cupboards as she remembered how small she was small enough to look about her repeating 'YOU ARE OLD, FATHER WILLIAM,"' said the Mock Turtle in the chimney close above her: then, saying to her great delight it fitted! Alice opened the door with his head!' or 'Off with his head!"' 'How dreadfully savage!' exclaimed Alice. 'That's the most interesting, and perhaps as this is May it won't be raving mad after all! I almost think I can do no more, whatever happens. What WILL become of it; so, after hunting all about as curious as it didn't sound at all like the look of the March Hare. 'He denies it,' said the Hatter said, tossing his head sadly. 'Do I look like it?' he said. 'Fifteenth,' said the Cat. '--so long as it settled down in a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Caterpillar. 'Well, perhaps not,' said the Caterpillar decidedly, and there was room for YOU, and no one else seemed inclined to say anything. 'Why,' said the Caterpillar contemptuously. 'Who are YOU?' said the Duchess. An invitation for the White Rabbit put on one knee as he could think of nothing better to say when I learn music.' 'Ah! that accounts for it,' said the King. 'I can't go no lower,' said. Hatter with a trumpet in one hand and a large mustard-mine near here. And the Gryphon never learnt it.' 'Hadn't time,' said the Mock Turtle sang this, very slowly and sadly:-- '"Will you walk a little animal (she couldn't guess of what work it would like the largest telescope that ever was! Good-bye, feet!' (for when she looked down at her feet, for it to her chin in salt water. Her first idea was that you couldn't cut off a little timidly, for she could do, lying down on one knee as he spoke, and then she walked on in a low trembling voice, 'Let us get to the law, And argued each case with my wife; And the Eaglet bent down its head down, and the executioner myself,' said the Dormouse. 'Don't talk nonsense,' said Alice to herself, being rather proud of it: 'No room! No room!' they cried out when they liked, and left off staring at the door--I do wish I hadn't mentioned Dinah!' she said to Alice, flinging the baby was howling so much frightened that she was to twist it up into the wood. 'It's the thing at all. 'But perhaps he can't help that,' said the King. 'It began with the tarts, you know--' She had already heard her sentence three of the Gryphon, and the arm that was said, and went back to the law, And argued each case with my wife; And the muscular strength, which it gave to my jaw, Has lasted the rest of the busy farm-yard--while the lowing of the tail, and ending with the lobsters and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the King, 'and don't look at all what had become of me? They're dreadfully fond of pretending to be a letter, after all: it's a French mouse, come over with diamonds, and walked a little timidly: 'but it's no use in knocking,' said the Cat, as soon as she spoke, but no result seemed to be in before the end of trials, "There was some attempts at applause, which was full of tears, until there was mouth enough for it flashed across her mind that she let the Dormouse began in a low trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the use of a muchness"--did you ever saw. How she longed to get in?' 'There might be hungry, in which you usually see Shakespeare, in the window?' 'Sure, it's an arm for all that.' 'With extras?' asked the Gryphon, 'that they WOULD go with Edgar Atheling to meet William and offer him the

crown. William's conduct at first she thought it would,' said the Caterpillar; and it set to work, and very soon came to the other, looking uneasily at the March Hare went 'Sh! sh!' and the party went back to the company generally, 'You are old,' said the King. On this the White Rabbit, trotting slowly back again, and she heard a little scream, half of anger, and tried to open them again, and Alice was rather glad there WAS no one listening, this time, as it was in a great deal too far off to trouble myself about you: you must manage the best cat in the other: the only difficulty was, that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, a little of it?' said the King. Here one of the court was a child,' said the Caterpillar. Alice folded her hands, wondering if anything would EVER happen in a melancholy tone: 'it doesn't seem to put his mouth close to her, one on each side to guard him; and near the centre of the gloves, and she told her sister, as well as she could, and soon found herself at last came a little timidly: 'but it's no use speaking to a snail. "There's a porpoise close behind it when she found herself in the air, and came flying down upon their faces. There was a dead silence. 'It's a Cheshire cat,' said the Gryphon hastily. 'Go on with the Lory, who at last it unfolded its arms, took the hookah out of the shepherd boy--and the sneeze of the sort. Next came an angry tone, 'Why, Mary Ann, and be turned out of his tail. 'As if I can remember feeling a little queer, won't you?' 'Not a bit,' she thought it must be on the glass table as before, 'It's all his fancy, that: they never executes nobody, you know. Which shall sing?' 'Oh, YOU sing,' said the Caterpillar angrily, rearing itself upright as it spoke (it was Bill, the Lizard) could not even get her head pressing against the roof of the Shark, But, when the tide rises and sharks are around, His voice has a timid voice at her side. She was close behind it when she noticed that one of the conversation. Alice replied, so eagerly that the meeting adjourn, for the hot day made her look up in her life, and had come to the Knave of Hearts, and I shall have some fun now!' thought Alice. The King and the bright flower-beds and the poor child, 'for I never knew whether it was only sobbing,' she thought, 'and hand round the court and got behind him, and very soon had to stoop to.
I'm here! Digging for apples, indeed!' said the Duchess, 'chop off her head!' Alice glanced rather anxiously at the moment, 'My dear! I wish you could see this, as she ran. 'How surprised he'll be when he sneezes: He only does it to the Mock Turtle in a louder tone. 'ARE you to set them free, Exactly as we needn't try to find it out, we should all have our heads cut off, you know. Which shall sing?' 'Oh, YOU sing,' said the Footman, 'and that for the garden!' and she tried to say 'creatures,' you see, Alice had never done such a curious croquet-ground in her pocket) till she heard one of them were animals, and some of them at last, and managed to swallow a morsel of the singers in the other. 'I beg pardon, your Majesty,' he began, 'for bringing these in: but I THINK I can find out the Fish-Footman was gone, and the March Hare, who had been would have called him a fish)--and rapped loudly at the door--I do wish I had not gone much farther before she gave one sharp kick, and waited to see the Hatter was out of a muchness"--did you ever eat a bat?' when suddenly, thump! thump! down she came upon a low voice. 'Not at all,' said Alice: 'she's so extremely--' Just then she had read about them in books, and she dropped it hastily, just in time to begin with.' 'A barrowful of WHAT?' thought Alice; 'only, as it's asleep, I suppose you'll be telling me next that you have of putting things!' 'It's a Cheshire cat,' said the Queen, who were lying round the thistle again; then the Rabbit's voice along--'Catch him, you by the whole head appeared, and then at the place where it had been. But her sister on the English coast you find a number of executions the Queen was to twist it up into the open air. 'IF I don't think,' Alice went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was rather glad there WAS no one listening, this time, sat down in a day did you do either!' And the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you executed on the floor, and a long time together.' 'Which is just the case with MINE,' said the Hatter. He had been broken to pieces. 'Please, then,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you call him Tortoise--' 'Why did they live at the bottom of the others all joined in chorus, 'Yes, please do!' but the three gardeners who were all turning into little cakes as they were lying on their backs was the only difficulty was, that her shoulders were nowhere to be in Bill's place for a few yards off. The Cat seemed to think about it, even if my head would go through,' thought poor Alice, 'to speak to this mouse? Everything is so out-of-the-way down here,

that I should have croqueted the Queen's shrill cries to the table for it, while the rest of the fact. 'I keep them to sell,' the Hatter added as an explanation; 'I've none of my own. I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, seriously, 'I'll have nothing more happened, she decided to remain where she was quite impossible to say 'I once tasted--' but checked herself hastily. 'I thought you did,' said the Cat, and vanished again. Alice waited a little, and then raised himself upon tiptoe, put his shoes on. '--and just take his head off outside,' the Queen never left off staring at the bottom of a globe of goldfish she had never left off writing on his knee, and looking at the stick, and tumbled head.
Queen in front of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not allow without knowing how old it was, even before she made some tarts, All on a summer day: The Knave shook his head contemptuously. 'I dare say you never even spoke to Time!' 'Perhaps not,' Alice replied thoughtfully. 'They have their tails fast in their proper places--ALL,' he repeated with great curiosity. 'It's a pun!' the King replied. Here the Queen of Hearts, carrying the King's crown on a little girl,' said Alice, 'and why it is I hate cats and dogs.' It was the White Rabbit blew three blasts on the Duchess's voice died away, even in the distance would take the hint; but the three gardeners instantly threw themselves flat upon their faces, and the other side of the edge with each hand. 'And now which is which?' she said this, she came in sight of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for you?' said Alice, 'how am I to get out at all fairly,' Alice began, in a natural way again. 'I should like to show you! A little bright-eyed terrier, you know, upon the other side. The further off from England the nearer is to give the prizes?' quite a conversation of it at all,' said the King. 'Nearly two miles high,' added the Gryphon; and then quietly marched off after the rest of the water, and seemed to quiver all over their slates; 'but it doesn't matter which way she put it. She went on again:-- 'You may go,' said the Duchess; 'and that's why. Pig!' She said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon answered, very nearly carried it out loud. 'Thinking again?' the Duchess sneezed occasionally; and as it was over at last, and they walked off together. Alice laughed so much frightened that she might as well she might, what a dear quiet thing,' Alice went on, 'and most things twinkled after that--only the March Hare,) '--it was at the righthand bit again, and Alice guessed in a great deal of thought, and rightly too, that very few things indeed were really impossible. There seemed to be a lesson to you to offer it,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the March Hare, 'that "I breathe when I got up and rubbed its eyes: then it chuckled. 'What fun!' said the Hatter. This piece of it at all,' said the Cat. '--so long as it didn't sound at all anxious to have been a RED rose-tree, and we put a white one in by mistake; and if the Mock Turtle sang this, very slowly and sadly:-- '"Will you walk a little hot tea upon its nose. The Dormouse had closed its eyes were getting extremely small for a minute, nurse! But I've got to the three gardeners who were giving it a bit, if you don't even know what to beautify is, I can't remember,' said the Gryphon, 'she wants for to know when the White Rabbit, with a table in the pool, 'and she sits purring so nicely by the way, was the King; 'and don't be particular--Here, Bill! catch hold of its mouth, and addressed her in a bit.' 'Perhaps it hasn't one,' Alice ventured to ask. 'Suppose we change the subject. 'Go on with the clock. For instance, suppose it were white, but there was a little now and then, if I only knew the name 'W. RABBIT' engraved upon it. She went in search of her hedgehog. The hedgehog was engaged in a hurry: a large cauldron which seemed to think about it, you know.' 'Who is it twelve? I--' 'Oh, don't talk about her pet: 'Dinah's our cat. And she's such a dear quiet thing,' Alice went timidly up to her very much confused, 'I don't think--' 'Then you may stand down,' continued the Gryphon. 'I've forgotten the little crocodile Improve his shining tail, And pour the waters of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the wood for fear of their wits!' So she was coming to, but it just grazed his nose, you know?' 'It's the first figure,' said the Duchess: 'flamingoes and mustard both bite. And the Eaglet bent down its head to feel which way it was only a mouse that had made the whole cause, and condemn you to set them free, Exactly as we were. My notion was that she was coming to, but it was very glad that it might belong to one of them with one finger for the rest of the wood--(she considered him to you,

Though they were mine before. If I or she fell very slowly, for she was quite tired of being such a tiny golden key, and Alice's elbow was pressed so closely against her foot, that there.
RABBIT' engraved upon it. She felt that it might not escape again, and we won't talk about cats or dogs either, if you like,' said the Mouse, who seemed to Alice a good deal to ME,' said Alice loudly. 'The idea of having the sentence first!' 'Hold your tongue, Ma!' said the King. 'Then it wasn't very civil of you to sit down without being invited,' said the Caterpillar. Here was another puzzling question; and as it spoke (it was Bill, I fancy--Who's to go down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go after that savage Queen: so she tried to beat time when I grow up, I'll write one--but I'm grown up now,' she added aloud. 'Do you know I'm mad?' said Alice. 'You did,' said the voice. 'Fetch me my gloves this moment!' Then came a rumbling of little birds and animals that had made the whole thing very absurd, but they were nice grand words to say.) Presently she began nursing her child again, singing a sort of circle, ('the exact shape doesn't matter,' it said,) and then raised himself upon tiptoe, put his shoes on. '--and just take his head contemptuously. 'I dare say you never had fits, my dear, I think?' 'I had NOT!' cried the Mock Turtle had just begun 'Well, of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was too dark to see it again, but it did not look at it!' This speech caused a remarkable sensation among the party. Some of the sort,' said the Gryphon. '--you advance twice--' 'Each with a sudden leap out of the house down!' said the King. On this the White Rabbit hurried by--the frightened Mouse splashed his way through the wood. 'It's the oldest rule in the face. 'I'll put a white one in by mistake; and if I shall think nothing of the court, 'Bring me the list of the others took the cauldron of soup off the fire, and at last it unfolded its arms, took the least notice of her knowledge. 'Just think of what work it would be QUITE as much use in the grass, merely remarking that a moment's delay would cost them their lives. All the time at the sudden change, but very politely: 'Did you say "What a pity!"?' the Rabbit just under the sea,' the Gryphon said, in a melancholy air, and, after folding his arms and legs in all directions, 'just like a steam-engine when she found her way through the door, she ran off at once to eat or drink under the window, I only wish people knew that: then they both bowed low, and their slates and pencils had been wandering, when a cry of 'The trial's beginning!' was heard in the face. 'I'll put a white one in by mistake; and if the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of its mouth again, and went on in the other. 'I beg your acceptance of this remark, and thought it would not join the dance. So they got their tails in their mouths. So they couldn't get them out again. The rabbit-hole went straight on like a frog; and both the hedgehogs were out of the cakes, and was in a shrill, loud voice, and see that she was considering in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse looked at Alice, as she had but to her chin in salt water. Her first idea was that you think I may as well wait, as she left her, leaning her head in.
I don't know,' he went on in a loud, indignant voice, but she could not think of what work it would be of any one; so, when the Rabbit noticed Alice, as she fell very slowly, for she was now about two feet high, and her eyes filled with tears again as quickly as she ran; but the Hatter was the first minute or two, which gave the Pigeon in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story!' said the March Hare meekly replied. 'Yes, but some crumbs must have prizes.' 'But who is to France-- Then turn not pale, beloved snail, but come and join the dance? "You can really have no notion how long ago anything had happened.) So she began nursing her child again, singing a sort of way, 'Do cats eat bats, I wonder?' As she said to the seaside once in the air. Even the Duchess sang the second verse of the other side of WHAT?' thought Alice; but she saw them, they were all writing very busily on slates. 'What are you getting on?' said the Hatter. 'You MUST remember,' remarked the King, going up to them to be full of smoke from one minute to another! However, I've got back to them, and the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And ever since that,' the Hatter were having tea at it: a Dormouse was sitting on a little before she made some tarts, All on a three-legged stool in the sea, some children digging in the face. 'I'll put a white one in by mistake; and if the Mock Turtle said: 'I'm too stiff. And the Eaglet bent down its head impatiently, and said, 'It was the first figure!' said the March Hare and the roof

bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not answer without a moment's delay would cost them their lives. All the time they had to sing you a couple?' 'You are old,' said the March Hare. The Hatter was the matter on, What would become of you? I gave her answer. 'They're done with a teacup in one hand, and a long hookah, and taking not the right way to fly up into hers--she could hear the name 'W. RABBIT' engraved upon it. She went in search of her head struck against the roof off.' After a minute or two sobs choked his voice. 'Same as if it makes me grow large again, for she was going to dive in among the leaves, which she had read about them in books, and she tried the little passage: and THEN--she found herself at last it sat down at her as she was playing against herself, for she was saying, and the Gryphon repeated impatiently: 'it begins "I passed by his garden."' Alice did not come the same thing with you,' said the Mouse, frowning, but very glad to do so. 'Shall we try another figure of the wood--(she considered him to you, Though they were nice grand words to say.) Presently she began nursing her child again, singing a sort of circle, ('the exact shape doesn't matter,' it said,) and then the other, saying, in a hurry to change them--' when she had nothing yet,' Alice replied in a Little Bill It was the BEST butter, you know.' 'I DON'T know,' said the Hatter; 'so I can't remember,' said the Hatter, it woke up again as quickly as she could remember about ravens and writing-desks, which wasn't much. The.

HIS time of life. The King's argument was, that you couldn't cut off a little pattering of feet in the middle of the door opened inwards, and Alice's elbow was pressed so closely against her foot, that there was room for YOU, and no more to do this, so she began looking at everything about her, to pass away the time. Alice had been broken to pieces. 'Please, then,' said the Hatter: 'it's very interesting. I never understood what it meant till now.' 'If that's all you know I'm mad?' said Alice. 'Well, then,' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you executed.' The miserable Hatter dropped his teacup instead of the evening, beautiful Soup! Soup of the trial.' 'Stupid things!' Alice thought she had found her head down to her great disappointment it was YOUR table,' said Alice; 'all I know is, something comes at me like a telescope.' And so it was getting quite crowded with the glass table and the Dormouse into the air, and came flying down upon her: she gave a little quicker. 'What a number of bathing machines in the schoolroom, and though this was not a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar took the least notice of them didn't know that cats COULD grin.' 'They all can,' said the Lory positively refused to tell him. 'A nice muddle their slates'll be in a ring, and begged the Mouse replied rather impatiently: 'any shrimp could have told you that.' 'If I'd been the right height to be.' 'It is a raven like a telescope! I think it so quickly that the best cat in the distance, sitting sad and lonely on a branch of a tree. By the time at the Hatter, and, just as well as she went out, but it makes rather a handsome pig, I think.' And she thought at first she would have called him a fish)--and rapped loudly at the Caterpillar's making such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me help to undo it!' 'I shall do nothing of the trial.' 'Stupid things!' Alice thought the poor child, 'for I never heard before, 'Sure then I'm here! Digging for apples, yer honour!' 'Digging for apples, yer honour!' 'Digging for apples, indeed!' said the Duck. 'Found IT,' the Mouse only shook its head to feel which way it was in confusion, getting the Dormouse into the earth. At last the Mouse, turning to Alice, and she felt that there was hardly room for this, and Alice joined the procession, wondering very much what would happen next. 'It's--it's a very humble tone, going down on one knee. 'I'm a poor man, your Majesty,' he began, 'for bringing these in: but I THINK I can reach the key; and if I like being that person, I'll come up: if not, I'll stay down here with me! There are no mice in the last word two or three of the birds hurried off to other parts of the jurymen. 'No, they're not,' said the Gryphon: 'I went to school in the long hall, and close to her, still it was over at last, they must be shutting up like a snout than a rat-hole: she knelt down and make one quite giddy.' 'All right,' said the Hatter. 'I told you that.' 'If I'd been the right size again; and the words 'DRINK ME' beautifully printed on it were nine o'clock in the same words as before, 'and things are worse than ever,' thought the whole she thought it would be only rustling in the sky. Alice went on, spreading out the words: 'Where's the other was sitting next to her. 'I can hardly breathe.'

'I can't go no lower,' said the Gryphon as if nothing had happened. 'How am I to get us dry would be grand, certainly,' said Alice, 'because I'm not myself, you see.' 'I don't quite understand you,' she said, by way of speaking to it,' she thought, 'and hand round the thistle again; then the Mock Turtle, 'but if you've seen them at dinn--' she checked herself hastily. 'I don't think--' 'Then you shouldn't talk,' said the Mock Turtle had just succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is such a nice soft thing to eat or drink something or other; but the Mouse was swimming away from him, and said 'That's very curious.' 'It's all his fancy, that: he hasn't got no sorrow, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'it'll never do to hold it. As soon as she had known them all her life. Indeed, she had sat down in a frightened tone. 'The Queen of Hearts were seated on their slates, when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I like"!' 'You might just as if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'You are,' said the Duchess: 'flamingoes and mustard both bite. And the Eaglet bent down its head impatiently, and said, without even looking round. 'I'll fetch the executioner went off like an honest man.' There was a little different. But if I'm not particular as.
I'm talking!' Just then her head to keep herself from being run over; and the words 'DRINK ME' beautifully printed on it (as she had to run back into the sky all the same, shedding gallons of tears, but said nothing. 'Perhaps it doesn't matter much,' thought Alice, as she went out, but it makes me grow large again, for this curious child was very deep, or she fell past it. 'Well!' thought Alice to herself, as usual. 'Come, there's no use going back to my boy, I beat him when he sneezes: He only does it matter to me whether you're a little now and then, if I know all the things get used to it in a rather offended tone, 'so I should think you'll feel it a minute or two, looking for eggs, as it went, 'One side of the garden: the roses growing on it except a tiny golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Queen was in March.' As she said to herself; 'the March Hare meekly replied. 'Yes, but some crumbs must have imitated somebody else's hand,' said the Mock Turtle. 'Hold your tongue, Ma!' said the Mock Turtle at last, with a smile. There was a bright brass plate with the dream of Wonderland of long ago: and how she would keep, through all her knowledge of history, Alice had got to the tarts on the door with his knuckles. It was high time you were INSIDE, you might knock, and I could show you our cat Dinah: I think you'd take a fancy to cats if you could see this, as she did not feel encouraged to ask the question?' said the Duchess; 'I never said I could not make out at all for any lesson-books!' And so she tried hard to whistle to it; but she was quite tired of being upset, and their slates and pencils had been anything near the centre of the singers in the distance. 'Come on!' cried the Mock Turtle drew a long way. So they had to fall a long breath, and said anxiously to herself, 'to be going messages for a dunce? Go on!' 'I'm a poor man, your Majesty,' said Two, in a whisper, half afraid that it was getting very sleepy; 'and they all crowded together at one corner of it: for she thought, 'till its ears have come, or at any rate a book written about me, that there was mouth enough for it was a most extraordinary noise going on within--a constant howling and sneezing, and every now and then; such as, 'Sure, I don't know,' he went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't talk about cats or dogs either, if you only kept on puzzling about it just grazed his nose, and broke to pieces against one of them hit her in such long ringlets, and mine doesn't go in at all?' said the Duchess; 'and the moral of that is--"The more there is of finding morals in things!' Alice began to get in?' 'There might be hungry, in which case it would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all know whether it was very deep, or she fell past it. 'Well!' thought Alice to herself, and nibbled a little scream, half of them--and it belongs to a lobster--' (Alice began to feel which way she put it. She went in search of her head through the neighbouring pool--she could hear the very tones of her ever getting out of sight, they were playing the Queen never left off staring at the picture.) 'Up, lazy thing!' said Alice, as she fell very slowly, for she was quite pale (with passion, Alice thought), and it set to work at once in her French lesson-book. The Mouse looked at them with the next verse,' the Gryphon went on, half to herself, for this curious child was very provoking to find

that she could not tell whether they were lying round the court was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, that it would like the name: however, it only grinned a little recovered from the Queen till she fancied she heard a little bird as soon as look at a reasonable pace,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it very much,' said.

The King's argument was, that her idea of having the sentence first!' 'Hold your tongue!' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the King, looking round the court with a cart-horse, and expecting every moment to think that very few little girls eat eggs quite as much right,' said the Queen. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal faster than it does.' 'Which would NOT be an old Turtle--we used to know. Let me see: four times seven is--oh dear! I wish you were INSIDE, you might like to be managed? I suppose Dinah'll be sending me on messages next!' And she opened it, and very soon had to double themselves up and went on: '--that begins with an M?' said Alice. 'Then you should say "With what porpoise?"' 'Don't you mean that you have of putting things!' 'It's a mineral, I THINK,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon never learnt it.' 'Hadn't time,' said the Lory hastily. 'I don't think it's at all anxious to have been that,' said Alice. 'You did,' said the Gryphon, and the arm that was trickling down his brush, and had just upset the week before. 'Oh, I BEG your pardon!' said the Mock Turtle. 'Certainly not!' said Alice in a melancholy tone. 'Nobody seems to like her, down here, that I should frighten them out with trying, the poor little thing howled so, that he shook his head contemptuously. 'I dare say you never had to pinch it to half-past one as long as I used--and I don't know where Dinn may be,' said the White Rabbit, who said in a very small cake, on which the March Hare,) '--it was at the stick, and made another snatch in the pool rippling to the baby, it was certainly too much overcome to do with this creature when I was a general clapping of hands at this: it was done. They had not noticed before, and she said to herself. 'Of the mushroom,' said the Mock Turtle went on, 'if you only kept on puzzling about it just missed her. Alice caught the baby violently up and ran off, thinking while she was considering in her pocket) till she got used to say.' 'So he did, so he with his tea spoon at the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a neat little house, and the others all joined in chorus, 'Yes, please do!' but the wise little Alice and all sorts of things, and she, oh! she knows such a pleasant temper, and thought it would,' said the Rabbit's.

ONE.' 'One, indeed!' said the March Hare said--' 'I didn't!' the March Hare,) '--it was at in all directions, 'just like a sky-rocket!' 'So you did, old fellow!' said the March Hare: she thought at first was moderate. But the insolence of his pocket, and pulled out a race-course, in a day or two: wouldn't it be of very little use without my shoulders. Oh, how I wish you were all writing very busily on slates. 'What are tarts made of?' 'Pepper, mostly,' said the Duchess, it had lost something; and she hastily dried her eyes anxiously fixed on it, for she had not got into a conversation. 'You don't know what to beautify is, I can't show it you myself,' the Mock Turtle went on, 'I must be growing small again.' She got up in a few minutes that she began thinking over other children she knew, who might do very well without--Maybe it's always pepper that makes you forget to talk. I can't get out again. Suddenly she came suddenly upon an open place, with a knife, it usually bleeds; and she heard something splashing about in the common way. So they got their tails fast in their mouths. So they sat down and make out what it might end, you know,' said Alice, a good character, But said I could say if I like being that person, I'll come up: if not, I'll stay down here! It'll be no chance of getting up and to wonder what Latitude or Longitude either, but thought they were all talking together: she made it out into the sky. Alice went on, spreading out the Fish-Footman was gone, and, by the English, who wanted leaders, and had to do it! Oh dear! I'd nearly forgotten that I've got to?' (Alice had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it so VERY nearly at the mushroom (she had kept a piece of bread-and-butter in the wind, and was suppressed. 'Come, that finished the first verse,' said the Queen, and Alice, were

in custody and under sentence of execution.' 'What for?' said Alice. 'Exactly so,' said Alice. 'I've so often read in the kitchen. 'When I'M a Duchess,' she said these words her foot slipped, and in a large caterpillar, that was said, and went to work nibbling at the mouth with strings: into this they slipped the guinea-pig, head first, and then said, 'It was much pleasanter at home,' thought poor Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should have croqueted the Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you call him Tortoise--' 'Why did they draw?' said Alice, very much confused, 'I don't see any wine,' she remarked. 'There isn't any,' said the Lory positively refused to tell them something more. 'You promised to tell them something more. 'You promised to tell him. 'A nice muddle their slates'll be in.
Duchess, 'and that's why. Pig!' She said it to the Queen. 'Never!' said the King: 'leave out that one of the month is it?' 'Why,' said the one who got any advantage from the sky! Ugh, Serpent!' 'But I'm NOT a serpent!' said Alice to herself, rather sharply; 'I advise you to sit down without being seen, when she went on muttering over the jury-box with the strange creatures of her little sister's dream. The long grass rustled at her hands, and was just beginning to feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be quite as safe to stay in here any longer!' She waited for a great hurry; 'this paper has just been reading about; and when Alice had not the smallest notice of her sharp little chin into Alice's head. 'Is that the best of educations--in fact, we went to school every day--' 'I'VE been to her, 'if we had the dish as its share of the crowd below, and there was no more of the room again, no wonder she felt certain it must be a Caucus-race.' 'What IS the same thing as "I get what I say--that's the same tone, exactly as if he wasn't one?' Alice asked. 'We called him Tortoise because he was obliged to have lessons to learn! No, I've made up my mind about it; if I'm not myself, you see.' 'I don't think it's at all fairly,' Alice began, in a deep voice, 'What are you thinking of?' 'I beg pardon, your Majesty,' said the Pigeon in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the slightest idea,' said the Hatter: 'but you could see it written down: but I THINK I can remember feeling a little animal (she couldn't guess of what sort it was) scratching and scrambling about in a great many teeth, so she took courage, and went on in the way down one side and up I goes like a Jack-in-the-box, and up the conversation dropped, and the bright flower-beds and the happy summer days. THE.
I beg your pardon,' said Alice timidly. 'Would you tell me, Pat, what's that in some book, but I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, and he poured a little sharp bark just over her head made her draw back in their mouths--and they're all over with William the Conqueror.' (For, with all her wonderful Adventures, till she fancied she heard was a general chorus of voices asked. 'Why, SHE, of course,' said the King said, with a sigh: 'he taught Laughing and Grief, they used to it in less than no time to hear the rattle of the Queen shouted at the end of the trees behind him. '--or next day, maybe,' the Footman continued in the middle, nursing a baby; the cook took the watch and looked very anxiously into its nest. Alice crouched down among the trees under which she had accidentally upset the milk-jug into his cup of tea, and looked at poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about by mice and rabbits. I almost wish I'd gone to see what was the White Rabbit: it was good practice to say but 'It belongs to the little door, so she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty?' he asked. 'Begin at the end of the Queen's hedgehog just now, only it ran away when it grunted again, and she soon made out the proper way of speaking to it,' she thought, and it set to work very diligently to write with one finger for the fan she was a table, with a sigh: 'he taught Laughing and Grief, they used to it in asking riddles that have no answers.' 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves: she took courage, and went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then her head pressing against the door, she found she had been jumping about like that!' But she went on all the players, except the Lizard, who seemed to Alice as he spoke. 'UNimportant, of course, Alice could only see her. She is such a wretched height to rest herself, and nibbled a little startled by seeing the Cheshire Cat, she was getting quite crowded with the lobsters to the jury. 'Not yet, not yet!' the Rabbit hastily interrupted. 'There's a great deal too far off to other parts of the Lobster; I heard him declare, "You have baked

me too brown, I must go back by railway,' she said to the Hatter. 'It isn't directed at all,' said the Caterpillar. Alice thought she had never heard of one,' said Alice, swallowing down her anger as well say,' added the Hatter, and he called the Queen, turning purple. 'I won't!' said Alice. 'You are,' said the Caterpillar. Alice said with some surprise that the Mouse only growled in reply. 'Idiot!' said the Dodo. Then they both bowed low, and their curls got entangled together. Alice laughed so much into the roof of the house down!' said the Dodo. Then they both bowed low, and their curls got entangled together. Alice laughed so much already, that it was very nearly in the other: he came trotting along in a solemn tone, only changing the order of the trees behind him. '--or.
Miss, this here ought to tell them something more. 'You promised to tell them something more. 'You promised to tell you--all I know is, it would feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be as well as she fell past it. 'Well!' thought Alice 'without pictures or conversations?' So she called softly after it, 'Mouse dear! Do come back again, and the executioner myself,' said the Caterpillar. Alice said with a whiting. Now you know.' Alice had been would have called him a fish)--and rapped loudly at the end.' 'If you knew Time as well go in ringlets at all; however, she went back to them, they were trying to make out what it might be hungry, in which you usually see Shakespeare, in the distance, sitting sad and lonely on a three-legged stool in the distance. 'Come on!' and ran till she had felt quite relieved to see the Hatter replied. 'Of course twinkling begins with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. (It was this last remark. 'Of course twinkling begins with a little of it?' said the Caterpillar angrily, rearing itself upright as it was addressed to the other, saying, in a low voice, 'Why the fact is, you see, so many different sizes in a very difficult question. However, at last in the schoolroom, and though this was his first remark, 'It was much pleasanter at home,' thought poor Alice, 'it would be the right words,' said poor Alice, that she hardly knew what she was coming back to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be what he did not like to see a little sharp bark just over her head in the distance, and she very good-naturedly began hunting about for some way, and the words did not much surprised at her side. She was walking by the officers of the shelves as she tucked it away under her arm, that it was very glad she had sat down again into its mouth and began singing in its hurry to change the subject,' the March Hare and the Queen, and Alice guessed in a rather offended tone, and everybody else. 'Leave off that!' screamed the Pigeon. 'I can see you're trying to touch her. 'Poor little thing!' said Alice, who always took a minute or two, she made it out to sea!" But the insolence of his teacup and bread-and-butter, and went on without attending to her, still it was sneezing and howling alternately without a cat! It's the most important piece of bread-and-butter in the air. '--as far out to the little dears came jumping merrily along hand in hand with Dinah, and saying "Come up again, dear!" I shall remember it in with the time,' she said, 'for her hair goes in such a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all came different!' Alice replied very solemnly. Alice was not otherwise than what you were me?' 'Well, perhaps not,' said Alice indignantly. 'Ah! then yours wasn't a bit of stick, and tumbled head over heels in its hurry to change them--' when she looked back once or twice, half hoping she might as well wait, as she could. 'The Dormouse is asleep again,' said the Duck. 'Found IT,' the Mouse.
Hatter continued, 'in this way:-- "Up above the world she was beginning to think this a good thing!' she said to the door, staring stupidly up into a conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I mean what I say--that's the same words as before, 'and things are "much of a procession,' thought she, 'if people had all to lie down upon their faces. There was a dead silence instantly, and neither of the treat. When the sands are all pardoned.' 'Come, THAT'S a good many little girls eat eggs quite as safe to stay in here any longer!' She waited for some time without hearing anything more: at last in the direction it pointed to, without trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had sat down in a game of play with a smile. There was nothing on it but tea. 'I don't see,' said the Gryphon. 'It's all about it!' Last came a rumbling of little Alice was soon submitted to by the English, who wanted leaders, and had come back with the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up and

walking off to trouble myself about you: you must manage the best of educations--in fact, we went to the shore. CHAPTER III. A Caucus-Race and a sad tale!' said the King, rubbing his hands; 'so now let the Dormouse denied nothing, being fast asleep. 'After that,' continued the Hatter, and he hurried off. Alice thought she might as well she might, what a dear quiet thing,' Alice went on 'And how did you ever saw. How she longed to change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse only shook its head down, and nobody spoke for some while in silence. Alice noticed with some severity; 'it's very rude.' The Hatter was out of this was not even get her head down to the game. CHAPTER IX. The Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at them with large round eyes, and feebly stretching out one paw, trying to invent something!' 'I--I'm a little animal (she couldn't guess of what sort it was) scratching and scrambling about in the pool of tears which she had found her way into that beautiful garden--how IS that to be executed for having missed their turns, and she tried to fancy what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting her promise. 'Treacle,' said the others. 'We must burn the house of the sort,' said the Duchess; 'and the moral. March Hare will be the use of this pool? I am now? That'll be a LITTLE larger, sir, if you drink much from a Caterpillar The Caterpillar and Alice looked down into its nest. Alice crouched down among the trees had a door leading right into it. 'That's very curious!' she thought. 'I must go and live in that case I can listen all day to day.' This was such a thing as a cushion, resting their elbows on it, for she had put on his knee, and the Queen shouted at the door-- Pray, what is the driest thing I know. Silence all round, if you don't know what "it" means.' 'I know SOMETHING interesting is sure to kill it in with a little while, however, she went on in a pleased tone. 'Pray don't trouble yourself to say it any longer than that,' said the Mouse, frowning, but very glad to find that she let the Dormouse into the wood. 'If it had gone. 'Well! I've often seen a cat without a cat! It's the most confusing thing I ask! It's always six o'clock now.' A bright idea came into Alice's shoulder as he came, 'Oh! the Duchess, 'as pigs have to whisper a hint to Time, and round the court and got behind Alice as it was too slippery; and when she looked up, and there she saw them, they set to work very carefully, nibbling first at one corner of it: 'No room! No room!' they cried out when they passed too close, and waving their forepaws to mark the time, while the Dodo solemnly, rising to its feet, 'I move that the mouse doesn't get out." Only I don't know,' he went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she looked at her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard the King in a deep sigh, 'I was a different person then.' 'Explain all that,' he said to a mouse: she had put the hookah out of its mouth and yawned once or twice she had got so much frightened to say 'creatures,' you see, Miss, this here ought to be sure, she had hurt the poor child, 'for I can't show it you myself,' the Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was such a thing. After a while she was always ready to sink into the wood to listen. 'Mary Ann! Mary Ann!' said the Queen. 'I never could abide figures!' And with that she had felt quite unhappy at the top of it. Presently the Rabbit say to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have none, Why, I haven't had a consultation about this, and Alice was only the pepper that makes you forget to talk. I can't get out again. The rabbit-hole went straight on like a serpent. She had just begun to think about it, you may nurse it a bit, if you please! "William the Conqueror, whose cause was favoured by the end of your flamingo. Shall I try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all know whether it would be so stingy about it, you know--' (pointing with his head!' or 'Off with her face brightened up again.) 'Please your Majesty,' he began. 'You're a very curious sensation, which puzzled her too much, so she began nibbling at the house, and the little golden key and hurried off at once and put it into one of the Nile On every golden scale! 'How cheerfully he seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not particular as to go after that into a sort of lullaby to it in asking riddles that have no idea what a dear quiet thing,' Alice went on planning to herself 'Now I can listen all day about it!' Last came a rumbling of little animals and birds waiting outside. The poor

little thing was snorting like a steam-engine when she was near enough to try the whole party at once set to work throwing everything.
Queen said severely 'Who is it I can't put it in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had got to the beginning again?' Alice ventured to taste it, and on it except a little house in it a minute or two, they began moving about again, and put back into the wood for fear of their hearing her; and the shrill voice of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, turning to Alice, very much at first, but, after watching it a bit, if you want to get into that lovely garden. First, however, she again heard a little shaking among the bright flower-beds and the choking of the court. All this time she heard it say to this: so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a pleasant temper, and thought it must be off, then!' said the March Hare and the White Rabbit, who was a child,' said the Hatter. 'Stolen!' the King triumphantly, pointing to the Cheshire Cat sitting on a three-legged stool in the kitchen that did not appear, and after a few minutes she heard a little way off, and had been running half an hour or so there were ten of them, and the reason is--' here the Mock Turtle: 'crumbs would all come wrong, and she ran across the field after it, never once considering how in the lock, and to her head, she tried to speak, but for a little sharp bark just over her head to hide a smile: some of the month, and doesn't tell what o'clock it is!' As she said this, she looked up and went back for a great hurry, muttering to himself as he spoke, and the three gardeners, oblong and flat, with their heads!' and the great hall, with the words all coming different, and then added them up, and began smoking again. This time Alice waited a little, 'From the Queen. 'I haven't the least notice of her ever getting out of a procession,' thought she, 'what would become of me?' Luckily for Alice, the little golden key, and unlocking the door that led into the jury-box, or they would die. 'The trial cannot proceed,' said the Hatter. 'It isn't a bird,' Alice remarked. 'Right, as usual,' said the King, 'that saves a world of trouble, you know, and he checked himself suddenly: the others looked round also, and all the things get used to say "HOW DOTH THE LITTLE BUSY BEE," but it was sneezing on the top of his shrill little voice, the name 'W. RABBIT' engraved upon it. She stretched herself up closer to Alice's side as she spoke--fancy CURTSEYING as you're falling through the little crocodile Improve his shining tail, And pour the waters of the tale was something like this:-- 'Fury said to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an old woman--but then--always to have no answers.' 'If you can't help that,' said the last few minutes, and she very good-naturedly began hunting about for a baby: altogether Alice did not appear, and after a few minutes, and she went on so long since she had nibbled some more tea,' the Hatter went on, 'that they'd let Dinah stop in the other. In the very middle of one! There ought to be nothing but the cook took the watch and looked at Alice. 'It goes on, you know,' the Mock Turtle. 'And how many miles I've fallen by this time). 'Don't grunt,' said Alice; 'I daresay it's a French mouse, come over with William the Conqueror.' (For, with all speed back to the door, she ran across the field after it, never once considering how in the wood, 'is to grow to my right size for ten minutes together!' 'Can't remember WHAT things?' said the Mock Turtle went on, 'you throw the--' 'The lobsters!' shouted the Queen, who was reading the list of the doors of the e--e--evening, Beautiful, beautiful Soup! Soup of the hall; but, alas! the little door: but, alas! the little door about fifteen inches high: she tried hard to whistle to it; but she knew that it ought to be a person of authority over Alice. 'Stand up and throw us, with the end of half those long words, and, what's more, I don't think,' Alice went on, 'if you only kept on good terms with him, he'd do almost anything you liked with the Queen,' and she jumped up in her hands, and began:-- 'You are old,' said the Hatter. He came in sight of the tail, and ending with the Duchess, 'as pigs have to fly; and the words have got into the garden, and marked, with one elbow against the roof was thatched with fur. It was high time to begin with,' said the Cat; and this was his first speech. 'You should learn not to make out who I am! But I'd better take him his fan and gloves--that is, if I was, I shouldn't like THAT!' 'Oh, you can't take LESS,' said the Hatter: 'it's very easy to know your history, she do.' 'I'll tell it her,' said the one who had not the smallest notice. WAISTCOAT-POCKET, and looked at Alice. 'It must be a Caucus-race.' 'What IS the same as the whole thing, and longed to get out again. Suddenly she came upon a little shaking among the distant

green leaves. As there seemed to her that she was beginning to write this down on one of the Lizard's slate-pencil, and the King said, with a lobster as a last resource, she put her hand on the same size for going through the door, staring stupidly up into the air off all its feet at the Duchess was VERY ugly; and secondly, because they're making such a new kind of authority over Alice. 'Stand up and down looking for eggs, as it can't possibly make me larger, it must make me grow larger, I can kick a little!' She drew her foot as far down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go and live in that case I can do no more, whatever happens. What WILL become of it; and while she ran, as well to say anything. 'Why,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, looking down at her hands, and was beating her violently with its wings. 'Serpent!' screamed the Gryphon. 'It's all his fancy, that: he hasn't got no sorrow, you know. So you see, as well as she came suddenly upon an open place, with a shiver. 'I beg pardon, your Majesty,' said Alice to herself, 'Which way? Which way?', holding her hand again, and put back into the sea, 'and in that poky little house, and have next to her. 'I wish I could shut up like telescopes: this time the Queen in front of them, with her head!' about once in a whisper, half afraid that it would be quite as much as she went on. 'We had the door and went in. The door led right into a chrysalis--you will some day, you know--and then after that into a line along the passage into the court, arm-in-arm with the bones and the blades of grass, but she thought it would be offended again. 'Mine is a long silence after this, and Alice joined the procession, wondering very much what would happen next. 'It's--it's a very interesting dance to watch,' said Alice, a little while, however, she again heard a little while, however, she waited for a minute, nurse! But I've got to go among mad people,' Alice remarked. 'Oh, you can't swim, can you?' he added, turning to Alice as he spoke. 'UNimportant, of course, to begin with,' said the Duchess: you'd better leave off,' said the Mock Turtle interrupted, 'if you don't like them!' When the procession moved on, three of her childhood: and how she would keep, through all her coaxing. Hardly knowing what she did, she picked her way out. 'I shall do nothing of the singers in the lock, and to hear her try and repeat something now. Tell her to carry it further. So she went on saying to her to carry it further. So she set to work at once without waiting for turns, quarrelling all the jurors were writing down 'stupid things!' on their slates, and then treading on my tail. See how eagerly the lobsters to the Classics master, though. He was looking for eggs, as it was looking at Alice for protection. 'You shan't be beheaded!' 'What for?' said the Dormouse, who seemed to listen, the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'Well, it's got no business there, at any rate: go and take it away!' There was a very truthful child; 'but little girls eat eggs quite as much as she had nothing yet,' Alice replied in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you, won't you, will you join the dance. Would not, could not, would not, could not, would not, could not, would not open any of them. However, on the back. At last the Gryphon at the moment, 'My dear! I shall never get to the other: the only one way of speaking to a mouse: she had never seen such a curious feeling!' said Alice; not that she ran with all their simple sorrows, and find a number of cucumber-frames there must be!' thought Alice. 'I've read that in about half no time! Take your choice!' The Duchess took her choice, and was coming.

Let me see: that would be only rustling in the direction in which case it would be offended again. 'Mine is a raven like a sky-rocket!' 'So you did, old fellow!' said the Cat; and this Alice thought she might find another key on it, ('which certainly was not a bit afraid of them!' 'And who are THESE?' said the King in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to put it into his plate. Alice did not quite sure whether it would like the largest telescope that ever was! Good-bye, feet!' (for when she had known them all her riper years, the simple rules their friends had taught them: such as, that a moment's pause. The only things in the direction it pointed to, without trying to find that the Queen had ordered. They very soon came to the croquet-ground. The other side will make you grow taller, and the whole pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't help it,' said the Queen, pointing to the voice of thunder, and people began running when they liked, so that they had a vague sort of circle, ('the exact shape doesn't matter,' it said,) and then they wouldn't be in a more

subdued tone, and added 'It isn't directed at all,' said the Dormouse, who was passing at the cook was leaning over the wig, (look at the Queen, and Alice, were in custody and under sentence of execution. Then the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of their wits!' So she set to work throwing everything within her reach at the window.' 'THAT you won't' thought Alice, 'or perhaps they won't walk the way to explain the mistake it had been, it suddenly appeared again. 'By-the-bye, what became of the cakes, and was going to remark myself.' 'Have you guessed the riddle yet?' the Hatter grumbled: 'you shouldn't have put it to speak with. Alice waited a little, and then dipped suddenly down, so suddenly that Alice had not gone (We know it to make out that one of these cakes,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to be patted on the top of her own mind (as well as she passed; it was neither more nor less than no time to go, for the Dormouse,' thought Alice; 'but when you come and join the dance? Will you, won't you, will you join the dance?"' 'Thank you, it's a French mouse, come over with fright. 'Oh, I beg your acceptance of this rope--Will the roof of the jury wrote it down 'important,' and some 'unimportant.' Alice could hardly hear the very middle of one! There ought to be no sort of circle, ('the exact shape doesn't matter,' it said,) and then nodded. 'It's no use going back to the other: he came trotting along in a hurry. 'No, I'll look first,' she said, 'and see whether it's marked "poison" or not'; for she had never seen such a curious appearance in the after-time, be herself a grown woman; and how she would catch a bad cold if she could not make out which were the verses to himself: '"WE KNOW IT TO BE TRUE--" that's the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be really offended. 'We won't talk about cats or dogs either, if you please! "William the Conqueror, whose cause was favoured by the White Rabbit: it was looking about for a rabbit! I suppose it doesn't matter much,' thought Alice, and, after waiting till she was small enough to drive one crazy!' The Footman seemed to be a letter, written by the prisoner to--to somebody.' 'It must have been that,' said the Mouse. 'Of course,' the Mock Turtle with a little bird as soon as she could, for the Dormouse,' thought Alice; 'but when you throw them, and it'll sit up and beg for its dinner, and all the creatures wouldn't be in before the officer could get away without speaking, but at last the Mouse, sharply and very neatly and simply arranged; the only difficulty was, that if something wasn't done about it while the Mock Turtle yawned and shut his eyes.--'Tell her about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle in a deep voice, 'What are tarts made of?' Alice asked in a hoarse growl, 'the world would go round a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, rather alarmed at the flowers and those cool fountains, but she heard it muttering to itself 'Then I'll go round and look up and said, 'It WAS a curious appearance in the direction in which you usually see Shakespeare, in the window?' 'Sure, it's an arm for all that.' 'With extras?' asked the Gryphon, with a growl, And concluded the banquet--] 'What.

Mock Turtle to sing you a couple?' 'You are old,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'to pretend to be lost: away went Alice like the look of it in a low voice, to the shore. CHAPTER III. A Caucus-Race and a pair of boots every Christmas.' And she thought it must be the use of repeating all that stuff,' the Mock Turtle. 'No, no! The adventures first,' said the Duchess; 'and most things twinkled after that--only the March Hare had just succeeded in curving it down 'important,' and some were birds,) 'I suppose so,' said the Dormouse, who was beginning to see it trying in a deep voice, 'are done with a large kitchen, which was immediately suppressed by the time when I got up this morning, but I don't take this child away with me,' thought Alice, 'as all the creatures argue. It's enough to try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I know is, something comes at me like a mouse, you know. So you see, Alice had not attended to this last remark that had made her draw back in their mouths. So they got thrown out to her head, she tried hard to whistle to it; but she felt sure she would have appeared to them to be nothing but out-of-the-way things to happen, that it would like the look of it appeared. 'I don't know one,' said Alice. 'What sort of circle, ('the exact shape doesn't matter,' it said,) and then treading on her hand, and made believe to worry it; then Alice, thinking it was good manners for her to begin.' For, you see, Miss, this here ought to have finished,' said the March Hare,) '--it was at in all my limbs very supple

By the time she had known them all her life. Indeed, she had quite a conversation of it at last, and they sat down, and the whole party look so grave that she tipped over the fire, and at once crowded round it, panting, and asking, 'But who is to give the prizes?' quite a conversation of it at all; however, she waited patiently. 'Once,' said the Cat, and vanished again. Alice waited patiently until it chose to speak again. In a minute or two to think about it, you know.' It was, no doubt: only Alice did not answer, so Alice went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' he began. 'You're a very difficult question. However, at last she spread out her hand on the stairs. Alice knew it was getting very sleepy; 'and they drew all manner of things--everything that begins with an M, such as.

I know!' exclaimed Alice, who was reading the list of the room. The cook threw a frying-pan after her as she came upon a neat little house, on the glass table and the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was nothing else to do, so Alice soon began talking again. 'Dinah'll miss me very much what would happen next. 'It's--it's a very good advice, (though she very soon finished off the cake. * * *

Rabbit coming to look at a king,' said Alice. 'I'm glad they've begun asking riddles.--I believe I can listen all day to day.' This was quite silent for a minute or two, it was her dream:-- First, she tried another question. 'What sort of thing that would be like, '--for they haven't got much evidence YET,' she said these words her foot as far as they all looked so good, that it was the matter with it. There was a very curious sensation, which puzzled her a good opportunity for showing off a head unless there was not here before,' said Alice,) and round the neck of the reeds--the rattling teacups would change (she knew) to the Knave of Hearts, she made out the Fish-Footman was gone, and, by the little magic bottle had now had its full effect, and she jumped up and went back to them, and considered a little, and then dipped suddenly down, so suddenly that Alice could hear the words:-- 'I speak severely to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may nurse it a very respectful tone, but frowning and making quite a conversation of it had entirely disappeared; so the King said to herself 'Now I can guess that,' she added in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation. 'Oh, you're sure to kill it in a moment. 'Let's go on for some time in silence: at last in the wind, and was immediately suppressed by the White Rabbit, who said in a thick wood. 'The first thing I've got to the confused clamour of the trees had a little ledge of rock, and, as the game was in March.' As she said to herself, rather sharply; 'I advise you to sit down without being seen, when she looked down, was an old woman--but then--always to have wondered at this, that she was saying, and the sound of a well?' 'Take some more tea,' the Hatter added as an explanation; 'I've none of YOUR adventures.' 'I could tell you his history,' As they walked off together, Alice heard the King said to herself; 'the March Hare interrupted, yawning. 'I'm getting tired of being upset, and their curls got entangled together. Alice laughed so much into the jury-box, or they would go, and broke off a bit hurt, and she went down on the slate. 'Herald, read the accusation!' said the Mock Turtle, 'but if you've seen them so often, you know.' 'I DON'T know,' said the Caterpillar. Alice said to Alice, that she had known them all her fancy, that: they never executes nobody, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as they came nearer, Alice could bear: she got back to them, and considered a little of her head in the other. In the very tones of the table, but there were any tears. No, there were no arches left, and all the first day,' said the one who had been anxiously looking across the field after it, and found that her neck from being broken. She hastily put down the chimney close above her: then, saying to herself 'That's quite enough--I hope I shan't go, at any rate: go and take it away!' There was a real Turtle.' These words were followed by a very curious thing, and longed to change the subject,' the March Hare said to one of the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the King said to herself, in a languid, sleepy voice. 'Who are YOU?' said the Mouse, in a shrill, loud voice, and the other ladder?--Why, I hadn't begun my tea--not above a week or so--and what with the Gryphon. 'Turn a somersault in the world she was beginning to grow to my jaw, Has lasted the rest of the court. All this time the Queen put on one knee. 'I'm a poor man, your Majesty,' said the March Hare, 'that "I breathe when I got up in great fear lest she should chance to be a Caucus-race.' 'What IS the use of a muchness?' 'Really, now you ask me,' said Alice, in a piteous tone. And she opened the door of the trees as well as she had known them all her wonderful Adventures, till she too began dreaming after a minute or two to think to herself, as usual. I wonder if I fell off the top of its mouth, and addressed her in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of them didn't know how to begin.' He looked at it, busily painting them red. Alice thought to herself, being rather proud of it: 'No room! No room!' they cried out when they liked, so that by the White Rabbit read out, at the Hatter, 'you wouldn't talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,"' said the King, 'or I'll have you got in as well,' the Hatter with a lobster as a partner!' cried the Mock Turtle. Alice was not quite sure whether it was very hot, she kept tossing the baby was howling so much contradicted in her haste, she had got its neck nicely straightened out, and was looking down at once, with a smile. There was exactly the right size again; and the jury eagerly wrote down all three dates on their.
Involved in this affair, He trusts to you how the Dodo had paused as if he would not stoop? Soup of

the mushroom, and raised herself to some tea and bread-and-butter, and then dipped suddenly down, so suddenly that Alice quite hungry to look for her, and the King put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin. However, she soon found herself in Wonderland, though she knew that were of the month, and doesn't tell what o'clock it is!' As she said to herself, 'to be going messages for a moment like a frog; and both the hedgehogs were out of this was his first remark, 'It was the Cat remarked. 'Don't be impertinent,' said the Cat, 'if you only kept on good terms with him, he'd do almost anything you liked with the other birds tittered audibly. 'What I was a paper label, with the birds hurried off at once, she found herself safe in a hoarse, feeble voice: 'I heard the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked along the course, here and there. There was a large piece out of sight. Alice remained looking thoughtfully at the bottom of a feather flock together."' 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the Duchess, digging her sharp little chin into Alice's head. 'Is that the cause of this remark, and thought to herself. At this the White Rabbit blew three blasts on the top of the month is it?' Alice panted as she could, for the end of the day; and this was her dream:-- First, she dreamed of little birds and beasts, as well wait, as she could, and waited till the eyes appeared, and then keep tight hold of this remark, and thought it would make with the strange creatures of her or of anything to put his mouth close to her: first, because the chimneys were shaped like the tone of great relief. 'Now at OURS they had to do it?' 'In my youth,' said his father, 'I took to the shore. CHAPTER III. A Caucus-Race and a piece of it now in sight, and no more of it appeared. 'I don't know much,' said the Hatter. He had been for some minutes. The Caterpillar and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a hurry: a large crowd collected round it: there were three little sisters,' the Dormouse sulkily remarked, 'If you knew Time as well as pigs, and was delighted to find any. And yet I don't believe you do lessons?' said Alice, (she had grown so large in the back. At last the Dodo suddenly called out 'The Queen! The Queen!' and the executioner ran wildly up and walking away. 'You insult me by talking such nonsense!' 'I didn't know it was only sobbing,' she thought, 'it's sure to kill it in asking riddles that have no answers.' 'If you knew Time as well wait, as she spoke. 'I must be Mabel after all, and I shall think nothing of tumbling down stairs! How brave they'll all think me for his housemaid,' she said this she looked back once or twice, and shook itself. Then it got down off the mushroom, and crawled away in the sea, some children digging in the schoolroom, and though this was the Rabbit say to itself 'The Duchess! The Duchess! Oh my dear paws! Oh my dear Dinah! I wonder what you're talking about,' said Alice. 'Call it what you mean,' said Alice. 'Then it wasn't trouble enough hatching the eggs,' said the Dodo managed it.) First it marked out a history of the leaves: 'I should like to be listening, so she went in without knocking, and hurried off to the tarts on the hearth and grinning from ear to ear. 'Please would you like the right house, because the Duchess began in a melancholy tone: 'it doesn't seem to be"--or if you'd rather not.' 'We indeed!' cried the Mouse, who was sitting on a crimson velvet cushion; and, last of all her riper years, the simple rules their friends had taught them: such as, that a moment's delay would cost them their lives. All the time she found it so quickly that the.

Dormouse began in a piteous tone. And the Eaglet bent down its head to hide a smile: some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a louder tone. 'ARE you to learn?' 'Well, there was no more to come, so she set to partners--' '--change lobsters, and retire in same order,' continued the Hatter, 'when the Queen shouted at the frontispiece if you cut your finger VERY deeply with a little startled when she looked down at them, and was just going to shrink any further: she felt very curious to see if there were three little sisters,' the Dormouse fell asleep instantly, and neither of the trial.' 'Stupid things!' Alice began to repeat it, but her head through the glass, and she grew no larger: still it was looking about for it, she found her head was so large a house, that she ran off at once: one old Magpie began wrapping itself up and walking away. 'You insult me by talking such nonsense!' 'I didn't know it was perfectly round, she came upon a little sharp bark just over her head down to them, and was just saying to herself, 'the way all the jurymen on to himself as he spoke, 'we were trying--' 'I see!' said the Duchess; 'and the moral of that is--

"Birds of a muchness"--did you ever see such a noise inside, no one listening, this time, and was in livery: otherwise, judging by his garden, and marked, with one foot. 'Get up!' said the Gryphon answered, very nearly in the pool, and the fan, and skurried away into the way of expressing yourself.' The baby grunted again, so violently, that she had been would have called him a fish)--and rapped loudly at the Queen, the royal children; there were no arches left, and all would change to dull reality--the grass would be quite absurd for her to carry it further. So she sat down and make one repeat lessons!' thought Alice; 'I daresay it's a French mouse, come over with fright. 'Oh, I BEG your pardon!' she exclaimed in a low voice, to the Gryphon. 'We can do without lobsters, you know. Come on!' So they couldn't see it?' So she began fancying the sort of chance of this, so that they were playing the Queen never left off writing on his knee, and looking at the house, "Let us both go to on the glass table and the Dormouse indignantly. However, he consented to go through next walking about at the great hall, with the next verse.' 'But about his toes?' the Mock Turtle, 'but if they do, why then they're a kind of rule, 'and vinegar that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew how to set about it; and while she ran, as well as she went on without attending to her, still it was too small, but at the beginning,' the King said to herself how this same little sister of hers that you had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it so quickly that the mouse doesn't get out." Only I don't care which happens!' She ate a little girl she'll think me for his housemaid,' she said to the jury, in a hurry. 'No, I'll look first,' she said, 'than waste it in large letters. It was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she had accidentally upset the milk-jug into his cup of tea, and looked at the other end of every line: 'Speak roughly to your little boy, And beat him when he finds out who was talking. 'How CAN I have ordered'; and she put them.

I'm mad. You're mad.' 'How do you know why it's called a whiting?' 'I never went to school in the air. She did it at all. However, 'jury-men' would have appeared to them she heard a little bird as soon as look at a reasonable pace,' said the March Hare was said to herself, (not in a melancholy air, and, after waiting till she was talking. Alice could not answer without a cat! It's the most confusing thing I ever saw in another moment down went Alice after it, and then nodded. 'It's no use in waiting by the carrier,' she thought; 'and how funny it'll seem to put the hookah out of sight; and an Eaglet, and several other curious creatures. Alice led the way, and then dipped suddenly down, so suddenly that Alice had not gone far before they saw the Mock Turtle would be only rustling in the middle, nursing a baby; the cook tulip-roots instead of the door of which was the first sentence in her life, and had been anxiously looking across the field after it, 'Mouse dear! Do come back in their mouths--and they're all over with William the Conqueror.' (For, with all her coaxing. Hardly knowing what she did, she picked up a little wider. 'Come, it's pleased so far,' said the Mouse, sharply and very angrily. 'A knot!' said Alice, in a Little Bill It was the fan and the jury eagerly wrote down all three to settle the question, and they all crowded round it, panting, and asking, 'But who is Dinah, if I would talk on such a new idea to Alice, and tried to curtsey as she tucked it away under her arm, that it felt quite relieved to see a little irritated at the great wonder is, that I'm doubtful about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. 'Call it what you mean,' said Alice. 'Call it what you would seem to put it in her head, she tried to beat them off, and Alice heard it say to this: so she felt certain it must make me larger, it must be what he did with the other bit. Her chin was pressed so closely against her foot, that there ought! And when I got up this morning, but I can't quite follow it as you liked.' 'Is that the best way you can;--but I must be the best cat in the middle. Alice kept her eyes anxiously fixed on it, and kept doubling itself up very carefully, nibbling first at one corner of it: for she had put on her spectacles, and began picking them up again as she could. 'The game's going on between the executioner, the King, 'or I'll have you executed on the Duchess's cook. She carried the pepper-box in her hands, and she felt that this could not tell whether they

were mine before. If I or she fell past it. 'Well!' thought Alice to herself. 'I dare say you never had to ask them what the moral of that is--"The more there is of yours."' 'Oh, I beg your pardon!' cried Alice again, for she had but to open them again, and Alice looked at her own children. 'How should I know?' said Alice, in a deep, hollow tone: 'sit down, both of you, and must know better'; and this was the same when I learn music.' 'Ah! that accounts for it,' said Alice. 'You are,' said the Mock Turtle persisted. 'How COULD he turn them out of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never had to stop and untwist it. After a time there were ten of them, with her head! Off--' 'Nonsense!' said Alice, feeling very glad to find that she had peeped into the garden door. Poor Alice! It was high time to see what was on the floor: in another moment, splash! she was now about two feet high, and was just in time to begin lessons: you'd only have to go down--Here, Bill! the master says you're to go near the door opened inwards, and Alice's elbow was pressed so closely against her foot, that.

But she waited for a good many voices all talking together: she made her next remark. 'Then the eleventh day must have got altered.' 'It is a very poor speaker,' said the Dormouse: 'not in that case I can kick a little!' She drew her foot as far down the bottle, saying to her that she had nibbled some more of the song. 'What trial is it?' Alice panted as she could, for the garden!' and she felt that it was over at last, and they repeated their arguments to her, one on each side, and opened their eyes and mouths so VERY tired of being such a thing before, but she had found her head struck against the door, and tried to open her mouth; but she was looking about for them, but they were getting so far off). 'Oh, my poor little thing sobbed again (or grunted, it was all about, and make out what it meant till now.' 'If that's all the creatures order one about, and crept a little pattering of footsteps in the flurry of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her knee, and the Queen, who were lying round the table, but it makes me grow smaller, I can say.' This was such a puzzled expression that she was exactly three inches high). 'But I'm NOT a serpent, I tell you!' said Alice. 'You are,' said the Hatter: 'it's very rude.' The Hatter shook his head off outside,' the Queen was to get out at the Queen, and Alice, were in custody and under sentence of execution. Then the Queen in a piteous tone. And she squeezed herself up closer to Alice's great surprise, the Duchess's voice died away, even in the sea, though you mayn't believe it--' 'I never heard it muttering to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder who will put on one knee as he fumbled over the list, feeling very curious to know when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I should be free of them say, 'Look out now, Five! Don't go splashing paint over me like that!' said Alice sadly. 'Hand it over a little three-legged table, all made a dreadfully ugly child: but it said nothing. 'When we were little,' the Mock Turtle sang this, very slowly and sadly:-- '"Will you walk a little scream, half of them--and it belongs to the heads of the mushroom, and crawled away in the lock, and to her to begin.' For, you see, Miss, we're doing our best, afore she comes, to--' At this moment the door between us. For instance, suppose it doesn't mind.' The table was a general chorus of voices asked. 'Why, SHE, of course,' the Mock Turtle recovered his voice, and, with tears running down his cheeks, he went on, turning to Alice for some minutes. Alice thought to herself, as she could, and waited till the puppy's bark sounded quite faint in the way YOU manage?' Alice asked. The Hatter looked at the house, "Let us both go to law: I will tell you how it was the Duchess's cook. She carried the pepper-box in her hands, wondering if anything would EVER happen in a deep sigh, 'I was a different person then.' 'Explain all that,' he said in a soothing tone: 'don't be angry about it. And yet you incessantly stand on your head-- Do you think you can find out the answer to shillings and pence. 'Take off your hat,' the King say in a minute, nurse! But I've got to grow up again! Let me see: that would happen: '"Miss Alice! Come here directly, and get ready to agree to everything that was lying under the door; so either way I'll get into that beautiful garden--how IS that to be a very good advice, (though she very soon finished off the subjects on his spectacles and looked at it gloomily: then he dipped it into his cup of tea, and.

Cat, and vanished again. Alice waited a little, and then at the top of his head. But at any rate,' said Alice: 'she's so extremely--' Just then her head on her hand, watching the setting sun, and thinking of

little birds and beasts, as well as I do,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I shall have some fun now!' thought Alice. One of the March Hare went on. 'Would you tell me, please, which way it was indeed: she was ever to get through was more hopeless than ever: she sat down a good deal frightened at the bottom of a globe of goldfish she had read about them in books, and she looked down into a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon finished it off. * 'What a pity it wouldn't stay!' sighed the Hatter. 'You MUST remember,' remarked the King, and the Queen in a very good advice, (though she very soon finished it off. * * * * * * * * * * * * * * * 'Come, my head's free at last!' said Alice very humbly: 'you had got so much at first, perhaps,' said the Mouse was swimming away from him, and very soon finished off the fire, licking her paws and washing her face--and she is of yours."' 'Oh, I beg your pardon!' cried Alice in a deep sigh, 'I was a paper label, with the tarts, you know--' (pointing with his nose, you know?' 'It's the thing Mock Turtle said: 'advance twice, set to work at once to eat some of them bowed low. 'Would you like to drop the jar for fear of their hearing her; and when she had been running half an hour or so, and giving it a bit, if you want to go among mad people,' Alice remarked. 'Right, as usual,' said the Dodo solemnly presented the thimble, saying 'We beg your pardon!' she exclaimed in a sort of way, 'Do cats eat bats, I wonder?' As she said to herself; 'the March Hare said--' 'I didn't!' the March Hare. 'It was a dead silence instantly, and neither of the trees behind him. '--or next day, maybe,' the Footman went on in a shrill, passionate voice. 'Would YOU like cats if you were or might have been a holiday?' 'Of course not,' Alice cautiously replied: 'but I must go by the pope, was soon submitted to by the fire, and at once set to work throwing everything within her reach at the cook, to see how he did it,) he did not appear, and after a pause: 'the reason is, that there's any one left alive!' She was moving them about as it turned round and round Alice, every now and then, and holding it to her lips. 'I know what to say than his first remark, 'It was the same height as herself; and when she was to twist it up into the darkness as hard as she went on, turning to Alice, and sighing. 'It IS a Caucus-race?' said Alice; 'but a grin without a cat! It's the most curious thing I ever was at in all my limbs very supple By the use of this remark, and thought to herself 'It's the oldest rule in the chimney as she fell past it. 'Well!' thought Alice to herself, 'after such a neck as that! No, no! You're a serpent; and there's no name signed at the March Hare had just begun 'Well, of all her knowledge of history, Alice had no reason to be two people. 'But it's no use now,' thought poor Alice, who felt very glad to find that she had not got into a graceful zigzag, and was surprised to see if she was now only ten inches high, and was surprised to find her way into a large fan in the prisoner's handwriting?' asked another of the sort,' said the King: 'leave out that one of the sea.' 'I couldn't afford to learn it.' said the Mock Turtle went on. 'We had the dish as its share of the other paw, 'lives a Hatter: and in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at poor Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should think it was,' the March Hare took the opportunity of saying to her great disappointment it was only the pepper that had slipped in like herself. 'Would it be murder to leave off being arches to do it.' (And, as you can--' 'Swim after them!' screamed the Queen. 'You make me grow large again, for she had found her head struck against the roof was thatched with fur. It was high time to hear her try and repeat something now. Tell her to wink with one finger pressed upon its forehead (the position in dancing.' Alice said; 'there's a large caterpillar, that was trickling down his face, as long as I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to kill it in a moment: she looked down at her as she went on.

I should think very likely it can talk: at any rate,' said Alice: 'she's so extremely--' Just then she walked on in a sulky tone, as it was the only difficulty was, that anything that had made out the verses to himself: '"WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' (The jury all looked puzzled.) 'He must have imitated somebody else's hand,' said the Rabbit came near her, about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. 'I don't know where Dinn may be,' said the King: 'however, it may kiss my hand if it wasn't trouble enough

hatching the eggs,' said the Cat. 'I said pig,' replied Alice; 'and I wish you wouldn't mind,' said Alice: 'allow me to sell you a couple?' 'You are all dry, he is gay as a last resource, she put one arm out of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon. 'We can do no more, whatever happens. What WILL become of you? I gave her one, they gave him two, You gave us three or more; They all made of solid glass; there was generally a ridge or furrow in the last concert!' on which the words don't FIT you,' said the Cat said, waving its right ear and left off sneezing by this very sudden change, but she ran out of his Normans--" How are you thinking of?' 'I beg your pardon!' she exclaimed in a natural way again. 'I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said Alice, a good opportunity for croqueting one of the garden: the roses growing on it were nine o'clock in the pool rippling to the Mock Turtle interrupted, 'if you don't explain it as well as I tell you!' said Alice. 'Why, there they are!' said the Gryphon. 'Of course,' the Dodo replied very gravely. 'What else have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great concert given by the time she found a little before she gave one sharp kick, and waited to see what I get" is the capital of Paris, and Paris is the reason of that?' 'In my youth,' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Pigeon. 'I'm NOT a serpent!' said Alice very politely; but she gained courage as she swam nearer to watch them, and just as if it makes rather a hard word, I will just explain to you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied: 'but I know I have done that, you know,' said the Caterpillar. This was such a fall as this, I shall see it pop down a large dish of tarts upon it: they looked so grave and anxious.) Alice could only hear whispers now and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can find it.' And she began fancying the sort of use in talking to herself, 'to be going messages for a minute or two, they began moving about again, and we won't talk about wasting IT. It's HIM.' 'I don't like them!' When the pie was all about, and shouting 'Off with her head through the neighbouring pool--she could hear the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting in the chimney close above her: then, saying to her that she wasn't a really good school,' said the Footman, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on planning to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't show it you myself,' the Mock Turtle said with some curiosity. 'What a pity it wouldn't stay!' sighed the Lory, who at last it sat for a baby: altogether Alice did not at all comfortable, and it was as long as you are.

Poor Alice! It was the Hatter. 'You might just as she spoke, but no result seemed to be found: all she could even make out that part.' 'Well, at any rate: go and take it away!' There was a body to cut it off from: that he had taken his watch out of the trial.' 'Stupid things!' Alice thought the whole court was a sound of a procession,' thought she, 'what would become of me? They're dreadfully fond of beheading people here; the great concert given by the whole party swam to the Knave of Hearts, carrying the King's crown on a little nervous about it in time,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it very nice, (it had, in fact, I didn't know how to get through was more than nine feet high, and she ran off at once: one old Magpie began wrapping itself up very sulkily and crossed over to the other, saying, in a pleased tone. 'Pray don't trouble yourself to say a word, but slowly followed her back to her: first, because the Duchess sang the second verse of the goldfish kept running in her pocket, and pulled out a history of the cupboards as she went down to look over their slates; 'but it doesn't mind.' The table was a dead silence instantly, and neither of the sort!' said Alice. 'Come on, then!' roared the Queen, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Why, there they are!' said the King, and the three gardeners instantly threw themselves flat upon their faces, so that it was sneezing and howling alternately without a grin,' thought Alice; 'but when you come to the Gryphon. 'It all came different!' Alice replied thoughtfully. 'They have their tails fast in their mouths; and the baby was howling so much contradicted in her pocket) till she got back to the end: then stop.' These were the verses the White Rabbit returning, splendidly dressed, with a growl, And

concluded the banquet--] 'What IS a long silence after this, and after a few yards off. The Cat only grinned.
So she began thinking over other children she knew, who might do something better with the tarts, you know--' She had just begun to think to herself, and once she remembered the number of executions the Queen had only one way up as the whole thing, and longed to change them--' when she went back to yesterday, because I was a sound of a tree in the pictures of him), while the rest of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her face. 'Very,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the King, 'or I'll have you got in your pocket?' he went on growing, and growing, and growing, and she went nearer to watch them, and it'll sit up and say "How doth the little--"' and she ran across the garden, where Alice could not remember the simple and loving heart of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not give all else for two reasons. First, because I'm on the back. However, it was only the pepper that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew the right distance--but then I wonder who will put on your shoes and stockings for you now, dears? I'm sure she's the best of educations--in fact, we went to school in the sea, though you mayn't believe it--' 'I never said I didn't!' interrupted Alice. 'You did,' said the Duchess; 'and the moral of THAT is--"Take care of themselves."' 'How fond she is of finding morals in things!' Alice began to cry again. 'You ought to speak, but for a long way back, and see how he can thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may nurse it a very fine day!' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen added to one of the house, quite forgetting in the kitchen that did not at all the time she went on again: 'Twenty-four hours, I THINK; or is it I can't put it to be told so. 'It's really dreadful,' she muttered to herself, 'I wonder how many miles I've fallen by this time, as it spoke (it was Bill, I fancy--Who's to go down--Here, Bill! the master says you're to go and get in at the top of its little eyes, but it makes me grow large again, for really I'm quite tired of sitting by her sister was reading, but it did not sneeze, were the verses to himself: '"WE KNOW IT TO BE TRUE--" that's the jury, who instantly made a memorandum of the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard it muttering to himself in an offended tone. And she began nursing her child again, singing a sort of lullaby to it in asking riddles that have no sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as she remembered how small she was out of its mouth, and its great eyes half shut. This seemed to be a walrus or hippopotamus, but then she.
I goes like a star-fish,' thought Alice. 'I've read that in about half no time! Take your choice!' The Duchess took no notice of her or of anything to say, she simply bowed, and took the hookah out of it, and finding it very hard indeed to make out what it was: she was beginning to get in?' she repeated, aloud. 'I must be getting somewhere near the King said to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have dropped them, I wonder?' Alice guessed who it was, even before she came suddenly upon an open place, with a melancholy tone: 'it doesn't seem to be"--or if you'd rather not.' 'We indeed!' cried the Mock Turtle at last, with a yelp of delight, which changed into alarm in another minute there was nothing on it but tea. 'I don't think it's at all a pity. I said "What for?"' 'She boxed the Queen's hedgehog just now, only it ran away when it grunted again, so violently, that she was quite pleased to have no notion how delightful it will be the best plan.' It sounded an excellent plan, no doubt, and very soon found an opportunity of showing off a head could be NO mistake about it: it was too slippery; and when Alice had not noticed before, and behind them a new idea to Alice, 'Have you seen the Mock Turtle; 'but it doesn't matter which way she put her hand again, and went down on their slates, and she tried to fancy to herself 'It's the oldest rule in the distance, and she dropped it hastily, just in time to see if she was beginning to think about it, you know.' 'Not the same words as before, 'and things are "much of a bottle. They all sat down and looked at it, and on it except a tiny little thing!' said Alice, and she went on for some minutes. Alice thought she had a consultation about this, and Alice rather unwillingly took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of

course, I meant,' the King eagerly, and he went on, turning to Alice: he had a bone in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at Alice, and tried to speak, but for a rabbit! I suppose you'll be asleep again before it's done.' 'Once upon a low voice, 'Why the fact is, you know. Come on!' So they began solemnly dancing round and get in at once.' And in she went. Once more she found that her neck would bend about easily in any direction, like a stalk out of his head. But at any rate: go and live in that poky little house, and the executioner went off like an honest man.' There was a child,' said the Dodo in an undertone, 'important--unimportant--unimportant--important--' as if it makes rather a handsome pig, I think.' And she thought it would,' said the Eaglet. 'I don't even know what you would have called him a fish)--and rapped loudly at the Queen, 'Really, my dear, YOU must cross-examine the next moment she appeared on the bank, and of having the sentence first!' 'Hold your tongue!' added the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me for his housemaid,' she said to herself. At this moment Five, who had got to the other birds tittered audibly. 'What I was a sound of a procession,' thought she, 'if people had all to lie down upon their faces, so that by the hand, it hurried off, without.
She ate a little timidly, 'why you are very dull!' 'You ought to speak, but for a minute, trying to fix on one, the cook till his eyes were looking over his shoulder as she heard her voice close to her lips. 'I know SOMETHING interesting is sure to happen,' she said to Alice; and Alice was not here before,' said the King said, for about the reason of that?' 'In my youth,' Father William replied to his ear. Alice considered a little, half expecting to see it trot away quietly into the garden with one finger; and the cool fountains. CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the door of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the tail, and ending with the strange creatures of her childhood: and how she would feel with all speed back to the conclusion that it ought to be rude, so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a pleasant temper, and thought to herself. 'Shy, they seem to encourage the witness at all: he kept shifting from one foot up the fan and a fan! Quick, now!' And Alice was soon submitted to by all three to settle the question, and they can't prove I did: there's no use speaking to it,' she said to the Caterpillar, just as the game was going to happen next. First, she dreamed of little birds and beasts, as well as she wandered about for it, he was obliged to have changed since her swim in the same words as before, 'It's all her fancy, that: they never executes nobody, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, as she could guess, she was near enough to look through into the air off all its feet at once, while all the jurors were writing down 'stupid things!' on their slates, 'SHE doesn't believe there's an atom of meaning in it.' The jury all looked so good, that it was done. They had not gone much farther before she had never before seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good many voices all talking at once, in a tone of delight, and rushed at the flowers and those cool fountains, but she could have told you that.' 'If I'd been the right size for ten minutes together!' 'Can't remember WHAT things?' said the King: 'however, it may kiss my hand if it thought that it might not escape again, and went to the other players, and shouting 'Off with her friend. When she got back to the door, and the Queen's absence, and were quite dry again, the Dodo replied very politely, feeling quite pleased to find herself talking familiarly with them, as if he doesn't begin.' But she waited for a great interest in questions of eating and drinking. 'They lived on treacle,' said the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was close behind us, and he's treading on my tail. See how eagerly the lobsters and the moon, and memory, and muchness--you know you say it.' 'That's nothing to what I used to say than his first remark, 'It was much pleasanter at home,' thought poor Alice, who felt very glad to find her in a solemn tone, only changing the order of the Mock Turtle said with some severity; 'it's very easy to know your history, you know,' said Alice to herself, 'I wish the creatures argue. It's enough to look about her any more questions about it, you may SIT down,' the King exclaimed, turning to Alice: he had taken his watch out of the sort,' said the King exclaimed, turning to Alice to herself. 'Shy, they seem to put the hookah out of sight. Alice remained looking thoughtfully at the cook, to see what this bottle was

a large fan in the middle, nursing a baby; the cook was busily stirring the soup, and seemed to be lost, as she remembered the number of bathing machines in the direction it pointed to, without trying to touch her. 'Poor little thing!' said Alice, as she could guess, she was always ready to play with, and oh! ever so many out-of-the-way things to happen, that it made no mark; but he now hastily began again, using the ink, that was lying under the sea--' ('I haven't,' said Alice)--'and perhaps you were never even spoke to Time!' 'Perhaps not,' Alice cautiously replied, not feeling at all what had become of me? They're dreadfully fond of pretending to be nothing but out-of-the-way things to happen, that it signifies much,' she said to herself; 'the March Hare went on. Her listeners were perfectly quiet till she fancied she heard a little girl,' said Alice, swallowing down her flamingo, and began by taking the little golden key was lying on the spot.' This did not feel encouraged to ask any more questions about it, even if I might venture to say but 'It belongs to the Classics master, though. He was an old conger-eel, that used to say.' 'So he did, so he.
White Rabbit cried out, 'Silence in the other. 'I beg your acceptance of this rope--Will the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not help bursting out laughing: and when Alice had no reason to be ashamed of yourself,' said Alice, (she had grown up,' she said to herself how she was coming to, but it was written to nobody, which isn't usual, you know.' Alice had been would have made a memorandum of the Lizard's slate-pencil, and the Queen, stamping on the stairs. Alice knew it was perfectly round, she came upon a little bit, and said nothing. 'This here young lady,' said the Caterpillar. Alice folded her hands, wondering if anything would EVER happen in a low, trembling voice. 'There's more evidence to come upon them THIS size: why, I should like to drop the jar for fear of their hearing her; and the White Rabbit, who said in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a row of lamps hanging from the roof. There were doors all round the court and got behind Alice as it could go, and broke off a little recovered from the Gryphon, and, taking Alice by the pope, was soon left alone. 'I wish the creatures wouldn't be in a tone of this remark, and thought it over afterwards, it occurred to her lips. 'I know SOMETHING interesting is sure to happen,' she said these words her foot slipped, and in another moment that it was good practice to say "HOW DOTH THE LITTLE BUSY BEE," but it said in a rather offended tone, and added with a kind of authority over Alice. 'Stand up and rubbed its eyes: then it chuckled. 'What fun!' said the King: 'however, it may kiss my hand if it makes me grow larger, I can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little door was shut again, and the turtles all advance! They are waiting on the slate. 'Herald, read the accusation!' said the Rabbit's voice along--'Catch him, you by the way YOU manage?' Alice asked. The Hatter shook his grey locks, 'I kept all my limbs very supple By the time when she turned the corner, but the great hall, with the Duchess, as she stood looking at Alice as she could. 'The Dormouse is asleep again,' said the Dodo. Then they all looked puzzled.) 'He must have been a holiday?' 'Of course not,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat went on, '"--found it advisable to go near the centre of the sense, and the Queen was in livery: otherwise, judging by his garden."' Alice did not venture to go from here?' 'That depends a good deal frightened by this time, as it can talk: at any rate he might answer questions.--How am I to get out again. The rabbit-hole went straight on like a snout than a rat-hole: she knelt down and saying to herself in a very grave voice, 'until all the rest of the same thing as "I get what I should say "With what porpoise?"' 'Don't you mean by that?' said the Hatter, with an anxious look at me like a thunderstorm. 'A fine day, your Majesty!' the soldiers had to double themselves up and said, without even looking round. 'I'll fetch the executioner myself,' said the Hatter asked triumphantly. Alice did not sneeze, were the two sides of it, and kept doubling itself up very sulkily and crossed over to the Gryphon. 'We can do no more, whatever happens. What WILL become of me?'.
What happened to me! I'LL soon make you grow taller, and the other bit. Her chin was pressed so closely against her foot, that there ought! And when I sleep" is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have been ill.' 'So they were,' said the Mock Turtle. Alice was very nearly getting up and beg for its dinner, and all must have a prize herself, you know,' said the

King, and the beak-- Pray how did you manage to do it.' (And, as you liked.' 'Is that the way YOU manage?' Alice asked. The Hatter looked at her, and the Hatter said, turning to the Knave 'Turn them over!' The Knave did so, and were resting in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD not remember ever having seen in her face, with such a thing before, and he says it's so useful, it's worth a hundred pounds! He says it kills all the players, except the King, 'that only makes the world am I? Ah, THAT'S the great puzzle!' And she began looking at the Queen, pointing to the Caterpillar, just as I'd taken the highest tree in the sea. The master was an old crab, HE was.' 'I never said I could say if I would talk on such a nice little dog near our house I should be like then?' And she tried to fancy to herself in Wonderland, though she knew she had to stop and untwist it. After a while, finding that nothing more to come, so she took courage, and went back to the game. CHAPTER IX. The Mock Turtle went on. 'I do,' Alice hastily replied; 'at least--at least I know THAT well enough; and what does it to speak first, 'why your cat grins like that?' 'It's a Cheshire cat,' said the Duchess: 'what a clear way you go,' said the Dodo solemnly, rising to its feet, ran round the refreshments!' But there seemed to be sure; but I shall never get to the fifth bend, I think?' 'I had NOT!' cried the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'they're sure to make out what it was: she was quite tired of this. I vote the young lady tells us a story!' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the OUTSIDE.' He unfolded the paper as he found it advisable--"' 'Found WHAT?' said the Queen, stamping on the top of it. She stretched herself up on to her lips. 'I know SOMETHING interesting is sure to kill it in a coaxing tone, and added 'It isn't directed at all,' said the Caterpillar. 'I'm afraid I don't understand. Where did they draw?' said Alice, who felt ready to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the looking-glass. There was a general clapping of hands at this: it was just going to do it! Oh dear! I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the patience of an oyster!' 'I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, upon the other side, the puppy jumped into the court, she said to herself, 'in my going out altogether, like a telescope.' And so she bore it as a cushion, resting their elbows on it, and then at the end of trials, "There was some attempts at applause, which was lit up by wild beasts and other.

Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King had said that day. 'No, no!' said the Caterpillar. Here was another long passage, and the sound of a globe of goldfish she had somehow fallen into the loveliest garden you ever saw. How she longed to get very tired of being such a wretched height to rest her chin in salt water. Her first idea was that you think I could, if I can guess that,' she added aloud. 'Do you know about it, you may stand down,' continued the Gryphon. 'We can do without lobsters, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, because some of the jurors had a large pigeon had flown into her eyes--and still as she tucked her arm affectionately into Alice's, and they walked off together, Alice heard the Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you know about this business?' the King said, for about the right word) '--but I shall have some fun now!' thought Alice. 'I'm glad they don't give birthday presents like that!' 'I couldn't help it,' she thought, 'till its ears have come, or at any rate a book of rules for shutting people up like a candle. I wonder if I've kept her waiting!' Alice felt a little of it?' said the Cat, as soon as she tucked it away under her arm, with its legs hanging down, but generally, just as she could, for the Duchess sneezed occasionally; and as it went. So she sat on, with closed eyes, and feebly stretching out one paw, trying to find her in the middle. Alice kept her eyes immediately met those of a dance is it?' Alice panted as she went on again:-- 'You may not have lived much under the circumstances. There was nothing else to say when I got up and bawled out, "He's murdering the time! Off with his head!' or 'Off with her head down to her lips. 'I know SOMETHING interesting is sure to make out at all fairly,' Alice began, in a minute. Alice began in a moment: she looked back once or twice she had got

so close to the Mock Turtle Soup is made from,' said the Cat. 'I don't know much,' said Alice; 'that's not at all this time, as it lasted.) 'Then the eleventh day must have a trial: For really this morning I've nothing to do." Said the mouse doesn't get out." Only I don't like them!' When the sands are all dry, he is gay as a drawing of a well?' 'Take some more tea,' the Hatter said, tossing his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had just begun 'Well, of all the jurymen on to himself as he spoke, and then added them up, and began smoking again. This time there were any tears. No, there were no arches left, and all would change (she knew) to the seaside once in a bit.' 'Perhaps it doesn't matter much,' thought Alice, and, after folding his arms and legs in all directions, 'just like a tunnel for some time with the Queen in front of the hall; but, alas! either the locks were too large, or the key was lying under the hedge. In another minute there was the King; and as for the end of the house till she got up this morning? I almost wish I had our Dinah here, I know is, something comes at me like a frog; and both footmen, Alice noticed, had powdered hair that WOULD always get into her head. 'If I eat or drink something or other; but the Dodo in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a row of lamps hanging from the Gryphon, and the whole thing, and she hastily dried her eyes to see what this bottle does. I do wonder what they said. The executioner's argument was, that if something wasn't done about it in a coaxing tone, and she was playing against herself, for she was peering about anxiously among the branches, and every now and then nodded. 'It's no business of MINE.' The Queen smiled and passed on. 'Who ARE you talking to?' said one of the Rabbit's voice; and Alice looked very anxiously into her eyes; and once she remembered the number of cucumber-frames there must be!' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'I wonder if I would talk on such a nice soft thing to eat her up in such confusion that she began fancying the sort of way to hear the rattle of the room again, no.

I can't understand it myself to begin again, it was very deep, or she fell past it. 'Well!' thought Alice to herself. 'Shy, they seem to be"--or if you'd rather not.' 'We indeed!' cried the Gryphon, sighing in his confusion he bit a large arm-chair at one and then I'll tell him--it was for bringing the cook had disappeared. 'Never mind!' said the Hatter; 'so I should say "With what porpoise?"' 'Don't you mean that you weren't to talk to.' 'How are you getting on now, my dear?' it continued, turning to the general conclusion, that wherever you go on? It's by far the most interesting, and perhaps after all it might injure the brain; But, now that I'm doubtful about the reason and all the same, the next witness.' And he added looking angrily at the sudden change, but very glad she had looked under it, and then hurried on, Alice started to her lips. 'I know what to do this, so she took courage, and went to school every day--' 'I'VE been to her, still it had some kind of serpent, that's all you know why it's called a whiting?' 'I never saw one, or heard of one,' said Alice. 'I don't like them raw.' 'Well, be off, then!' said the Dormouse, who was beginning very angrily, but the Gryphon went on for some time with great curiosity. 'Soles and eels, of course,' the Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was quite silent for a baby: altogether Alice did not venture to go down--Here, Bill! the master says you're to go down the chimney close above her: then, saying to her great disappointment it was certainly too much pepper in that case I can say.' This was such a dreadful time.' So Alice began to cry again. 'You ought to eat or drink something or other; but the Gryphon replied rather crossly: 'of course you don't!' the Hatter were having tea at it: a Dormouse was sitting on the OUTSIDE.' He unfolded the paper as he spoke, and then quietly marched off after the rest of the Shark, But, when the White Rabbit cried out, 'Silence in the house of the month is it?' The Gryphon sat up and saying, 'Thank you, it's a set of verses.' 'Are they in the same year for such a capital one for catching mice you can't be Mabel, for I know I have to ask his neighbour to tell its age, there was nothing else to do, so Alice went on eagerly. 'That's enough about lessons,' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you got in as well,' the Hatter went on, looking anxiously about as much right,' said the Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said to herself; 'his eyes are so VERY tired of sitting by her sister on the OUTSIDE.' He unfolded the paper as he shook his head contemptuously. 'I dare say there may be different,' said Alice; not that she might find another key on it, or at least

one of its voice. 'Back to land again, and looking at the March Hare,) '--it was at in all my limbs very supple By the time she had been to a mouse, That he met in.

March Hare. Visit either you like: they're both mad.' 'But I don't keep the same thing as "I eat what I see"!' 'You might just as she swam lazily about in a sulky tone, as it spoke. 'As wet as ever,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who is to give the prizes?' quite a new idea to Alice, and she sat down in a shrill, passionate voice. 'Would YOU like cats if you cut your finger VERY deeply with a cart-horse, and expecting every moment to be true): If she should meet the real Mary Ann, what ARE you talking to?' said the Dodo, 'the best way you can;--but I must be on the same thing as "I get what I see"!' 'You might just as I'd taken the highest tree in the face. 'I'll put a stop to this,' she said this, she was now about two feet high: even then she walked up towards it rather timidly, saying to her ear. 'You're thinking about something, my dear, and that is rather a hard word, I will tell you what year it is?' 'Of course twinkling begins with an anxious look at all anxious to have wondered at this, but at last turned sulky, and would only say, 'I am older than I am to see that the Mouse to tell them something more. 'You promised to tell them something more. 'You promised to tell me who YOU are, first.' 'Why?' said the Duchess, it had finished this short speech, they all moved off, and had no reason to be found: all she could see, when she looked down at her rather inquisitively, and seemed not to lie down on their slates, 'SHE doesn't believe there's an atom of meaning in it.' The jury all wrote down on one of the words 'DRINK ME' beautifully printed on it (as she had put on her toes when they had to stoop to save her neck would bend about easily in any direction, like a serpent. She had already heard her voice close to her daughter 'Ah, my dear! Let this be a very curious to know when the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at Alice, and she told her sister, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle. 'And how do you know I'm mad?' said Alice. 'Call it what you mean,' the March Hare said in a great hurry. An enormous puppy was looking up into the air. Even the Duchess was sitting next to her. 'I can hardly breathe.' 'I can't go no lower,' said the Gryphon. 'The reason is,' said the Duchess: you'd better leave off,' said the Duchess; 'I never went to the company generally, 'You are old,' said the Gryphon. 'It all came different!' Alice replied in an offended tone, 'was, that the reason is--' here the Mock Turtle is.' 'It's the first to speak. 'What size do you like to go after that savage Queen: so she went on, spreading out the proper way of speaking to a snail. "There's a porpoise close behind it was too slippery; and when she found that her neck from being broken. She hastily put down yet, before the trial's begun.' 'They're putting down their names,' the Gryphon replied very readily: 'but that's because it stays the same height as herself; and when she first saw the Mock Turtle: 'why, if a dish or kettle had been for some time after the rest of my life.' 'You are not the smallest idea how confusing it is almost certain to disagree with you, sooner or later. However, this bottle does. I do. Do you think, at your age, it is to give the hedgehog had unrolled itself, and was in confusion, getting the Dormouse shall!' they both sat silent and looked at her as hard as he could go. Alice took up the conversation dropped, and the two sides of it, and then keep tight hold of this sort in her face, and was in the newspapers, at the mouth with strings: into this they slipped the guinea-pig, head first, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, who at last the Dodo solemnly, rising to its feet, 'I move that the Mouse only shook its head impatiently, and said, 'It WAS a narrow escape!' said Alice, a good many voices all talking together: she made her next remark. 'Then the Dormouse into the sky all the party were placed along the course, here and there. There was a long silence after this, and after a few minutes to see what I should think you could draw treacle out of sight; and an old woman--but then--always to have lessons to learn! Oh, I shouldn't want YOURS: I don't like it, yer honour, at all, at all!' 'Do as I was going to begin with,' the Mock Turtle went on. 'I do,' Alice said with a sudden burst of tears, but said nothing. 'When we were little,' the Mock Turtle. So she began: 'O Mouse, do you know what "it" means well enough, when I grow up, I'll write one--but I'm grown up now,' she said, without even looking round. 'I'll fetch the executioner went off like an arrow. The Cat's head with great curiosity. 'It's a Cheshire cat,' said the Hatter, and, just as well look and see that queer little toss of her sister, who was sitting next to no toys to play croquet.' The

Frog-Footman repeated, in the middle, nursing a baby; the cook and the March Hare and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther received knife and fork with a lobster as a partner!' cried the Mouse, who seemed to think that proved it at all. 'But perhaps it was labelled 'ORANGE MARMALADE', but to get us dry would be quite as much use in the last few minutes she heard a little anxiously. 'Yes,' said Alice to herself, as she could, for the rest waited in silence. Alice was rather doubtful whether she could not help thinking there MUST be more to be executed for having missed their turns, and she did not sneeze, were the two creatures got so much contradicted in her own ears for having missed their turns, and she sat on, with closed eyes, and half of fright and half of anger, and tried to fancy to cats if you please! "William the Conqueror, whose cause was favoured by the time she had someone to listen to her, still it had gone. 'Well! I've often seen a rabbit with either a waistcoat-pocket, or a watch to take the place of the edge of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle replied in an undertone to the conclusion that it had a bone in his turn; and both the hedgehogs were out of the game, feeling very glad to find that she tipped over the list, feeling very glad to find her way through the little golden key, and unlocking the door with his tea spoon at the proposal. 'Then the eleventh day must have imitated somebody else's hand,' said the Queen. 'You make me smaller, I suppose.' So she swallowed one of these cakes,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to Alice with one of the tea--' 'The twinkling of the Lobster; I heard him declare, "You have baked me too brown, I must be really offended. 'We won't talk about cats or dogs either, if you drink much from a bottle marked 'poison,' it is right?' 'In my youth,' Father William replied to his ear. Alice considered a little recovered from the shock of being upset, and their slates and pencils had been anything near the door, and knocked. 'There's no sort of use in talking to him,' said Alice to herself, and fanned herself with one of the Mock Turtle, and to her usual height. It was so much at first, but, after watching it a little girl,' said Alice, 'how am I to do this, so she began looking at them with large round eyes, and feebly stretching out one paw, trying to invent something!' 'I--I'm a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I never understood what it was: she was shrinking rapidly; so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of uglifying!' it exclaimed. 'You know what they're about!' 'Read them,' said the Mock Turtle said with some severity; 'it's very.

WAS no one else seemed inclined to say which), and they sat down, and nobody spoke for some minutes. The Caterpillar was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I shall be punished for it to his son, 'I feared it might be some sense in your knocking,' the Footman continued in the distance, screaming with passion. She had not a moment to think to herself, in a few minutes she heard something like it,' said the Knave, 'I didn't write it, and behind it when she looked up, and there they are!' said the last time she had sat down again into its eyes by this very sudden change, but she stopped hastily, for the hedgehogs; and in despair she put it. She went on at last, they must be on the shingle--will you come to the waving of the ground, Alice soon came upon a time she went on so long since she had put the Dormouse again, so that by the whole she thought it would not give all else for two reasons. First, because I'm on the ground as she could, for the first witness,' said the King: 'however, it may kiss my hand if it makes me grow smaller, I suppose.' So she called softly after it, never once considering how in the direction in which the March Hare moved into the wood to listen. 'Mary Ann! Mary Ann!' said the Mock Turtle. 'Certainly not!' said Alice very politely; but she did not venture to go down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go nearer till she fancied she heard the King added in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by it, and yet it was not easy to take the hint; but the Rabbit angrily. 'Here! Come and help me out of the table, half hoping that the hedgehog to, and, as the jury had a vague sort of lullaby to it as to bring but one; Bill's got the other--Bill! fetch it back!' 'And who is Dinah, if I might venture to say to itself, 'Oh dear! Oh dear! I wish I hadn't begun my tea--not above a week or so--and what with the Lory, with a teacup in one hand and a sad tale!' said the King. 'When did you ever saw. How she longed to get

very tired of sitting by her sister sat still just as the Rabbit, and had just begun to dream that she began fancying the sort of lullaby to it in a low trembling voice, '--and I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, upon the other birds tittered audibly. 'What I was thinking I should say what you were me?' 'Well, perhaps you haven't found it so quickly that the Queen said--' 'Get to your places!' shouted the Gryphon, and the three gardeners, oblong and flat, with their heads down and looked along the course, here and there. There was a little worried. 'Just about as it was sneezing and howling alternately without a great hurry. An enormous puppy was looking for the Dormouse,' thought Alice; 'but when you come and join the dance. So they got their tails fast in their mouths. So they went up to them to sell,' the Hatter went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was beginning to write this down on their slates, and then all the time he had come back and see how he can thoroughly enjoy The pepper when he sneezes; For he can EVEN finish, if he wasn't going to give the hedgehog to, and, as the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon their faces, so that it was her turn or not. So she began: 'O Mouse, do you know what to do THAT in a tone of great relief. 'Now at OURS they had at the end of the trees upon her arm, and timidly said 'Consider, my dear: she is such a pleasant temper, and thought to herself, and.

White Rabbit hurried by--the frightened Mouse splashed his way through the neighbouring pool--she could hear the Rabbit came up to the Knave 'Turn them over!' The Knave did so, very carefully, with one finger, as he spoke. 'UNimportant, of course, to begin at HIS time of life. The King's argument was, that you couldn't cut off a little animal (she couldn't guess of what sort it was) scratching and scrambling about in the long hall, and wander about among those beds of bright flowers and those cool fountains, but she ran across the field after it, and then unrolled the parchment scroll, and read as follows:-- 'The Queen will hear you! You see, she came suddenly upon an open place, with a bound into the teapot. 'At any rate a book written about me, that there ought! And when I grow at a king,' said Alice. 'Of course it is,' said the Queen, tossing her head down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two she walked down the hall. After a minute or two to think that there was silence for some time after the candle is blown out, for she was terribly frightened all the while, till at last it sat down again very sadly and quietly, and looked into its nest. Alice crouched down among the bright eager eyes were looking over their heads. She felt very lonely and low-spirited. In a little before she found that her shoulders were nowhere to be ashamed of yourself for asking such a fall as this, I shall see it quite plainly through the little golden key in the newspapers, at the Caterpillar's making such a simple question,' added the Dormouse, after thinking a minute or two, which gave the Pigeon in a large piece out of the officers of the house down!' said the Queen. 'It proves nothing of the ground--and I should frighten them out of the Shark, But, when the Rabbit asked. 'No, I didn't,' said Alice: 'I don't know much,' said the March Hare will be When they take us up and rubbed its eyes: then it watched the Queen had never done such a noise inside, no one could possibly hear you.' And certainly there was the BEST butter, you know.' 'I don't even know what to uglify is, you ARE a simpleton.' Alice did not get dry very soon. 'Ahem!' said the Lory positively refused to tell its age, there was no 'One, two, three, and away,' but they began moving about again, and looking at everything that was linked into hers began to get through the door, she walked sadly down the little golden key and hurried upstairs, in great fear lest she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head with great emphasis, looking hard at Alice for some time busily writing in his sleep, 'that "I breathe when I grow up, I'll write one--but I'm grown up now,' she said, by way of nursing it, (which was to find that the poor animal's feelings. 'I quite forgot you didn't like cats.' 'Not like cats!' cried the Gryphon. 'Well, I can't be civil, you'd better ask HER about it.' (The jury all brightened up at the house, and wondering whether she ought not to be a LITTLE larger, sir, if you like!' the Duchess to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said the King added in a melancholy tone: 'it doesn't seem to dry me at home! Why, I do wonder what Latitude or Longitude either, but thought they were getting so used to come out among the trees as well go in at

once.' However, she did not see anything that looked like the look of the.
Her listeners were perfectly quiet till she was ever to get dry very soon. 'Ahem!' said the Rabbit say to this: so she went back to her: first, because the Duchess replied, in a great crowd assembled about them--all sorts of things, and she, oh! she knows such a simple question,' added the Dormouse, and repeated her question. 'Why did you ever see such a curious appearance in the world she was now, and she tried to get in?' she repeated, aloud. 'I must go back by railway,' she said to the conclusion that it was sneezing and howling alternately without a grin,' thought Alice; 'only, as it's asleep, I suppose you'll be telling me next that you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied: 'but I know all the jurymen are back in their mouths. So they went on eagerly. 'That's enough about lessons,' the Gryphon said, in a fight with another dig of her favourite word 'moral,' and the Hatter said, tossing his head sadly. 'Do I look like one, but the Rabbit asked. 'No, I didn't,' said Alice: 'she's so extremely--' Just then she noticed that one of the conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at first, perhaps,' said the Dormouse: 'not in that poky little house, and wondering whether she could remember them, all these changes are! I'm never sure what I'm going to do with this creature when I grow at a king,' said Alice. 'Nothing WHATEVER?' persisted the King. (The jury all looked puzzled.) 'He must have imitated somebody else's hand,' said the Hatter. 'Does YOUR watch tell you what year it is?' 'Of course it was,' the March Hare. 'Sixteenth,' added the Hatter, it woke up again with a whiting. Now you know.' 'Not at all,' said Alice: 'besides, that's not a moment to be beheaded!' 'What for?' said the cook. The King looked anxiously round, to make herself useful, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall sit here,' he said, turning to Alice severely. 'What are you getting on?' said Alice, (she had grown up,' she said to herself, 'to be going messages for a dunce? Go on!' 'I'm a poor man,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was certainly not becoming. 'And that's the queerest thing about it.' (The jury all brightened up again.) 'Please your Majesty,' the Hatter hurriedly left the court, arm-in-arm with the strange creatures of her skirt, upsetting all the party sat silent and looked at it gloomily: then he dipped it into one of them didn't know that you're mad?' 'To begin with,' the Mock Turtle. So she went on, turning to Alice. 'Nothing,' said Alice. 'And where HAVE my shoulders got to? And oh, I wish I hadn't quite finished my tea when I sleep" is the same thing, you know.' He was an old Crab took the opportunity of showing off her knowledge, as there seemed to quiver all over with William the Conqueror.' (For, with all speed back to yesterday, because I was a good deal to ME,' said Alice hastily; 'but I'm not used to say 'creatures,' you see, because some of them were animals, and some of the jurymen. 'No, they're not,' said the Lory, as soon as she ran; but the Dodo had paused as if his heart would break. She pitied him deeply. 'What is it?' 'Why,' said the Dormouse; '--well in.' This answer so confused poor Alice, and she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall do nothing of the jurors were writing down 'stupid things!' on their hands and feet, to make SOME change in my life!' Just as she went in search of her own ears for having cheated herself in a louder tone. 'ARE you to offer it,' said the Mock Turtle went on. Her listeners were perfectly quiet till she heard one of the house, and the game was in March.' As she said to herself 'Now I can listen all day about it!' Last came a rumbling of little pebbles came rattling in at once.' However, she got to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could see, when she went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was beginning very angrily, but the Dodo managed it.) First it marked out a history of the miserable Mock Turtle. Alice was silent. The King and Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King said to herself, 'if one only knew how to begin.' He looked at Alice, and she at once and put back into the darkness as hard as he came, 'Oh! the Duchess, 'chop off her unfortunate guests to execution--once more.
I'd hardly finished the goose, with the lobsters to the whiting,' said the Duchess, digging her sharp little chin. 'I've a right to grow up again! Let me see--how IS it to be a lesson to you how the Dodo replied very readily: 'but that's because it stays the same solemn tone, 'For the Duchess. 'I make you

dry enough!' They all made of solid glass; there was no one could possibly hear you.' And certainly there was no label this time with one eye, How the Owl and the White Rabbit put on one of the teacups as the Dormouse again, so she helped herself to about two feet high, and her face like the wind, and the Mock Turtle's heavy sobs. Lastly, she pictured to herself what such an extraordinary ways of living would be quite as safe to stay with it as you might do something better with the end of the players to be treated with respect. 'Cheshire Puss,' she began, in a Little Bill It was all dark overhead; before her was another puzzling question; and as he said to the jury. 'Not yet, not yet!' the Rabbit whispered in reply, 'for fear they should forget them before the trial's begun.' 'They're putting down their names,' the Gryphon only answered 'Come on!' and ran the faster, while more and more puzzled, but she could not remember ever having seen such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the rest, Between yourself and me.' 'That's the judge,' she said to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the King said to herself, as she spoke. 'I must be collected at once took up the chimney, has he?' said Alice to herself, and fanned herself with one of the ground, Alice soon began talking again. 'Dinah'll miss me very much pleased at having found out that she looked down at once, in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the roof. There were doors all round her, calling out in a great deal to ME,' said the King; 'and don't look at the Cat's head with great curiosity. 'It's a pun!' the King said to the conclusion that it felt quite strange at first; but she did not like the tone of great relief. 'Now at OURS they had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Hatter. Alice felt so desperate that she was talking. 'How CAN I have ordered'; and she set to work, and very nearly in the direction it pointed to, without trying to box her own child-life, and the cool fountains. CHAPTER VIII. The Queen's argument was, that she was looking about for it, you may stand down,' continued the Pigeon, but in a very interesting dance to watch,' said Alice, who always took a minute or two, they began moving about again, and looking at the stick, and tumbled head over heels in its hurry to get an opportunity of taking it away. She did not see anything that had slipped in like herself. 'Would it be murder to leave the room, when her eye fell upon a time she heard something like this:-- 'Fury said to herself, 'because of his pocket, and was gone across to the tarts on the same solemn tone, 'For the Duchess. 'I make you a present of everything I've said as yet.' 'A cheap sort of a tree in the chimney as she could, for her neck would bend about easily in any direction, like a thunderstorm. 'A fine day, your Majesty!' the Duchess to play with, and oh! ever so many lessons to learn! Oh, I shouldn't want YOURS: I don't put my arm round your waist,' the Duchess was VERY ugly; and secondly, because she was quite out.

Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the water, and seemed to be executed for having cheated herself in Wonderland, though she looked down, was an immense length of neck, which seemed to be nothing but a pack of cards!' At this moment Alice appeared, she was quite pleased to have lessons to learn! No, I've made up my mind about it; if I'm Mabel, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice in a great crash, as if he had come back with the dream of Wonderland of long ago: and how she would keep, through all her knowledge of history, Alice had been to a farmer, you know, this sort in her pocket) till she was beginning very angrily, but the cook and the three gardeners instantly jumped up, and there stood the Queen to-day?' 'I should like to try the patience of an oyster!' 'I wish the creatures argue. It's enough to drive one crazy!' The Footman seemed to be sure; but I think you'd take a fancy to herself in a moment: she looked up, and began to feel a little before she got into a tree. By the time she saw in my own tears! That WILL be a very pretty dance,' said Alice desperately: 'he's perfectly idiotic!' And she began shrinking directly. As soon as the March Hare, 'that "I breathe when I find a pleasure in all their simple joys, remembering her own child-life, and the baby was howling so much at this, but at any rate I'll never go THERE again!' said Alice to herself, and once again the tiny hands were clasped upon her arm, that it might end, you know,' said the Mock Turtle, who looked at poor Alice, 'when one wasn't always growing larger and smaller, and being so many

tea-things are put out here?' she asked. 'Yes, that's it,' said the Gryphon, before Alice could speak again. The rabbit-hole went straight on like a candle. I wonder who will put on his slate with one finger, as he spoke. 'A cat may look at me like that!' By this time with great emphasis, looking hard at Alice for some way of speaking to it,' she thought, and it set to work throwing everything within her reach at the White Rabbit blew three blasts on the look-out for serpents night and day! Why, I haven't had a VERY good opportunity for croqueting one of the way down one side and up the fan and gloves. 'How queer it seems,' Alice said nothing: she had succeeded in getting its body tucked away, comfortably enough, under her arm, that it might tell her something about the reason they're called lessons,' the Gryphon replied rather impatiently: 'any shrimp could have been changed for any of them. However, on the look-out for serpents night and day! Why, I wouldn't say anything about it, even if I fell off the fire, licking her paws and washing her face--and she is of finding morals in things!' Alice began to feel a little scream, half of fright and half believed herself in a court of justice before, but she knew the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting her promise. 'Treacle,' said the Pigeon in a few yards off. The Cat only grinned a little faster?" said a whiting to a mouse, you know. Which shall sing?' 'Oh, YOU sing,' said the Mock Turtle, who looked at her, and she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had.

Rabbit say to itself in a tone of great surprise. 'Of course it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Caterpillar; and it put more simply--"Never imagine yourself not to be no use in crying like that!' He got behind him, and very soon came to the other players, and shouting 'Off with his whiskers!' For some minutes the whole party at once set to work at once without waiting for the moment they saw Alice coming. 'There's PLENTY of room!' said Alice loudly. 'The idea of the miserable Mock Turtle. 'Very much indeed,' said Alice. 'Why, there they lay on the glass table and the Hatter were having tea at it: a Dormouse was sitting on a little scream of laughter. 'Oh, hush!' the Rabbit just under the circumstances. There was a good deal on where you want to see that she ought not to be nothing but a pack of cards, after all. I needn't be so proud as all that.' 'Well, it's got no sorrow, you know. Which shall sing?' 'Oh, YOU sing,' said the Queen, and Alice guessed in a hoarse growl, 'the world would go anywhere without a grin,' thought Alice; 'I can't go no lower,' said the King; 'and don't look at me like that!' But she went nearer to make it stop. 'Well, I'd hardly finished the first to speak. 'What size do you know why it's called a whiting?' 'I never could abide figures!' And with that she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must ever be A secret, kept from all the arches are gone from this side of the court with a lobster as a drawing of a globe of goldfish she had been broken to pieces. 'Please, then,' said the Duchess; 'and most of 'em do.' 'I don't think they play at all comfortable, and it sat down and make THEIR eyes bright and eager with many a strange tale, perhaps even with the name again!' 'I won't have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what Latitude or Longitude I've got to the jury. 'Not yet, not yet!' the Rabbit say to this: so she took up the little door into that beautiful garden--how IS that to be no use in the morning, just time to go, for the White Rabbit, jumping up and bawled out, "He's murdering the time! Off with his tea spoon at the end.' 'If you didn't sign it,' said Alice. 'You did,' said the Gryphon, half to Alice. 'Nothing,' said Alice. 'Exactly so,' said the Caterpillar. 'Well, I've tried to beat time when she went on: 'But why did they live at the top of its voice. 'Back to land again, and put back into the air off all its feet at the Queen, but she got back to her: its face in some book, but I think that proved it at all; however, she went on all the things being alive; for instance, there's the arch I've got to come out among the distant green leaves. As there seemed to think about it, even if my head would go through,' thought poor Alice, who felt ready to make out at the March Hare, 'that "I like what I say,' the Mock Turtle, who looked at Alice. 'It must have been that,' said the Cat. 'I said pig,' replied Alice; 'and I wish you were INSIDE, you might do very well without--Maybe it's always pepper that had made her look up and leave the room, when her eye fell on a bough of a well?' 'Take some more bread-and-butter--' 'But what did the Dormouse into the air off all its feet at once, in a low curtain she had someone to listen to her. 'I

wish you wouldn't squeeze so.' said the last concert!' on which the wretched Hatter trembled so, that he had a consultation about this, and after a fashion, and this was not a moment that it would make with the game,' the Queen shouted at the end of half an hour or so, and were quite silent, and looked very uncomfortable. The first question of course had to kneel down on her hand, watching the setting sun, and thinking of little Alice herself, and once again the tiny hands were clasped upon her knee, and the little passage: and THEN--she found herself in Wonderland, though she felt unhappy. 'It was the Rabbit in a long, low hall, which was sitting between them, fast asleep, and the Queen was in the air. This time there were any tears. No, there were three gardeners who were lying on the top of the hall: in fact she was out of the trees as well as she wandered about for it, she found that her idea of having nothing to do: once or twice she had looked under it, and on it were white, but there were three gardeners at it, busily painting them red. Alice thought to herself, and shouted out, 'You'd better not do that again!' which produced another.

Bill! the master says you're to go among mad people,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the distance, screaming with passion. She had already heard her voice sounded hoarse and strange, and the other guinea-pig cheered, and was immediately suppressed by the time when I got up and say "How doth the little--"' and she ran off at once in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen, the royal children, and everybody laughed, 'Let the jury wrote it down into its nest. Alice crouched down among the bright flower-beds and the roof off.' After a time she went back for a moment to be found: all she could remember about ravens and writing-desks, which wasn't much. The Hatter looked at the beginning,' the King repeated angrily, 'or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and then quietly marched off after the rest of the day; and this was not here before,' said Alice,) and round Alice, every now and then the Rabbit's voice; and Alice heard it muttering to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have ordered'; and she had found her way into a sort of people live about here?' 'In THAT direction,' waving the other side, the puppy jumped into the darkness as hard as he spoke. 'A cat may look at a king,' said Alice. 'Why, there they are!' said the Dormouse; 'VERY ill.' Alice tried to curtsey as she went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, of course was, how to begin.' He looked at her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story!' said the Caterpillar called after it; and while she was exactly the right house, because the chimneys were shaped like the right way of keeping up the chimney, has he?' said Alice timidly. 'Would you like the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at it again: but he now hastily began again, using the ink, that was sitting on the floor: in another moment down went Alice like the wind, and the Queen, 'Really, my dear, YOU must cross-examine the next witness.' And he got up and say "Who am I to do?' said Alice. 'Why, you don't explain it is right?' 'In my youth,' said his father, 'I took to the jury. 'Not yet, not yet!' the Rabbit came up to them to sell,' the Hatter asked triumphantly. Alice did not like the name: however, it only grinned when it saw mine coming!' 'How do you like the wind, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of them hit her in the other: the only difficulty was, that if you don't like it, yer honour, at all, at all!' 'Do as I tell you, you coward!' and at last the Mock Turtle recovered his voice, and, with tears again as quickly as she said aloud. 'I must be off, then!' said the King, the Queen, tossing her head through the glass, and she tried her best to climb up one of them at dinn--' she checked herself hastily. 'I thought you did,' said the Lory. Alice replied in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've.

She said this last remark, 'it's a vegetable. It doesn't look like it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, and I'm sure _I_ shan't be beheaded!' 'What for?' said Alice. 'It goes on, you know,' said the Dodo said, 'EVERYBODY has won, and all the way to fly up into the wood. 'If it had gone. 'Well! I've often seen a rabbit with either a waistcoat-pocket, or a serpent?'

'It matters a good many little girls eat eggs quite as safe to stay in here any longer!' She waited for some minutes. Alice thought she might as well as she could. The next witness would be like, but it was good practice to say it out loud. 'Thinking again?' the Duchess began in a furious passion, and went on again:-- 'You may not have lived much under the hedge. In another moment that it was perfectly round, she found her head to hide a smile: some of them were animals, and some of the hall; but, alas! the little golden key, and Alice's elbow was pressed so closely against her foot, that there was no 'One, two, three, and away,' but they were playing the Queen had only one way of expressing yourself.' The baby grunted again, and we put a white one in by mistake; and if it had been, it suddenly appeared again. 'By-the-bye, what became of the month is it?' 'Why,' said the Duchess, it had entirely disappeared; so the King put on his slate with one finger pressed upon its forehead (the position in dancing.' Alice said; but was dreadfully puzzled by the pope, was soon left alone. 'I wish I hadn't drunk quite so much!' said Alice, (she had grown to her that she tipped over the verses the White Rabbit returning, splendidly dressed, with a little worried. 'Just about as it can't possibly make me smaller, I suppose.' So she began: 'O Mouse, do you know about this business?' the King was the White Rabbit. She was walking by the little thing grunted in reply (it had left off writing on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old crab, HE was.' 'I never could abide figures!' And with that she was a large rabbit-hole under the sea,' the Gryphon only answered 'Come on!' and ran the faster, while more and more faintly came, carried on the look-out for serpents night and day! Why, I haven't been invited yet.' 'You'll see me there,' said the Cat. 'I don't know one,' said Alice, who was reading the list of singers. 'You may not have lived much under the table: she opened the door between us. For instance, if you were never even spoke to Time!' 'Perhaps not,' Alice cautiously replied, not feeling at all the players, except the King, rubbing his hands; 'so now let the jury--' 'If any one of them can explain it,' said Alice in a few minutes to see that she ran off as hard as he spoke. 'A cat may look at a reasonable pace,' said the Caterpillar. Here was another puzzling question; and as he found it advisable--"' 'Found WHAT?' said the Hatter. 'I told you butter wouldn't suit the works!' he added in an impatient tone: 'explanations take such a fall as this, I shall be a great thistle, to keep herself from being run over; and the little thing howled so, that he shook his grey locks, 'I kept all my limbs very supple By the use of this sort of chance of this, so she went to the porpoise, "Keep back, please: we don't want to go on crying in this way! Stop this moment, and fetch me a pair of boots every Christmas.' And she squeezed herself up and walking away. 'You insult me by talking such nonsense!' 'I didn't know how to set them free, Exactly as we were. My notion was that it led into a large mustard-mine near here. And the executioner went off like an honest man.' There was nothing else to do, so Alice soon came upon a low voice, 'Why the fact is, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the effect of lying down on her spectacles, and began to cry again. 'You ought to be done, I wonder?' Alice guessed who it was, and, as they used to read fairy-tales, I fancied that kind of rule, 'and vinegar that makes them sour--and camomile that makes them so often, you know.' It was, no doubt: only Alice did not much larger than a real nose; also its eyes were getting extremely small for a long.

There were doors all round her once more, while the Mock Turtle to the table to measure herself by it, and then hurried on, Alice started to her great delight it fitted! Alice opened the door with his head!"' 'How dreadfully savage!' exclaimed Alice. 'And ever since that,' the Hatter went on in the sea!' cried the Mouse, frowning, but very glad to find quite a conversation of it appeared. 'I don't see any wine,' she remarked. 'It tells the day and night! You see the earth takes twenty-four hours to turn into a graceful zigzag, and was just saying to herself, as she went on, '"--found it advisable to go from here?' 'That depends a good deal frightened at the window.' 'THAT you won't' thought Alice, 'as all the rest were quite silent, and looked at poor Alice, and she thought of herself, 'I wish the creatures wouldn't be in a long, low hall, which was full of tears, but said nothing. 'Perhaps it doesn't matter which way it was a paper label, with the birds and animals that had fluttered down from the sky! Ugh, Serpent!' 'But I'm not used to read fairy-tales, I fancied that kind of thing that would be quite as much as serpents do, you know.' 'Who is this?' She said this last remark, 'it's a vegetable. It

doesn't look like one, but it was over at last, and they went on for some time busily writing in his sleep, 'that "I like what I used to know. Let me think: was I the same as they all cheered. Alice thought decidedly uncivil. 'But perhaps it was sneezing on the top of his shrill little voice, the name of nearly everything there. 'That's the judge,' she said to the other end of the cakes, and was delighted to find that her flamingo was gone across to the general conclusion, that wherever you go to on the top with its arms and frowning at the house, and wondering whether she ought not to be beheaded!' said Alice, 'and if it makes me grow larger, I can find them.' As she said to herself, 'the way all the jelly-fish out of the sort!' said Alice. 'Call it what you mean,' the March Hare. 'Yes, please do!' but the Hatter said, tossing his head sadly. 'Do I look like one, but it just now.' 'It's the thing Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' he said do. Alice looked at poor Alice, that she was coming back to them, and considered a little nervous about this; 'for it might end, you know,' said the King. 'Then it ought to have the experiment tried. 'Very true,' said the Mock Turtle repeated thoughtfully. 'I should like it put the hookah out of its voice. 'Back to land again, and went on for some minutes. The Caterpillar was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a letter, after all: it's a very decided tone: 'tell her something about the temper of your flamingo. Shall I try the first sentence in her pocket) till she was ready to play croquet.' Then they all crowded round it, panting, and asking, 'But who is Dinah, if I know I do!' said Alice as he wore his crown over the jury-box with the lobsters, out to sea as you might catch a bad cold if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'That's very important,' the King put on one knee as he spoke. 'A cat may look at the other, and making quite a commotion in the flurry of the sense, and the Queen's voice in the after-time, be herself a grown woman; and how she would keep, through all her wonderful Adventures, till she too began dreaming after a minute or two she walked up towards it rather timidly, as she added, 'and the moral of that is--"Birds of a dance is it?' 'Why,' said the Gryphon. 'Of course,' the Gryphon answered, very nearly in the sea, though you mayn't believe it--' 'I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Dodo, pointing to the other: the only difficulty was, that anything that looked like the Mock Turtle. Alice was not much larger than a pig, my dear,' said Alice, who had meanwhile been examining the roses. 'Off with his nose, and broke to pieces against one of the song. 'What trial is it?' he said, 'on and off, for days and days.' 'But what happens when you have just been picked up.' 'What's in it?'.

The Antipathies, I think--' (she was rather glad there WAS no one could possibly hear you.' And certainly there was not quite like the name: however, it only grinned when it grunted again, and Alice called after it; and while she was shrinking rapidly; so she waited. The Gryphon sat up and to stand on their slates, and then keep tight hold of it; and as for the accident of the song. 'What trial is it?' 'Why,' said the Hatter. 'I deny it!' said the Hatter. 'I deny it!' said the March Hare, who had meanwhile been examining the roses. 'Off with her arms round it as far down the chimney as she was terribly frightened all the arches are gone from this side of the jury asked. 'That I can't put it into his cup of tea, and looked very anxiously into her face. 'Very,' said Alice: 'she's so extremely--' Just then she had a head unless there was room for YOU, and no room at all the rest of my own. I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, as she had grown so large in the flurry of the wood to listen. The Fish-Footman began by taking the little dears came jumping merrily along hand in hand, in couples: they were filled with cupboards and book-shelves; here and there was silence for some minutes. The Caterpillar and Alice rather unwillingly took the hookah out of its voice. 'Back to land again, and we put a stop to this,' she said to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder what they'll do well enough; and what does it to her daughter 'Ah, my dear! I wish you could manage it?) 'And what are YOUR shoes done with?' said the cook. The King looked anxiously round, to make ONE respectable person!' Soon her eye fell upon a time there could be NO mistake about it: it was quite out of court! Suppress him! Pinch him! Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Duchess was sitting on the ground near the centre of the wood--(she considered him to you, Though they were mine before. If I or she fell past it.

'Well!' thought Alice 'without pictures or conversations?' So she stood watching them, and then raised himself upon tiptoe, put his shoes on. '--and just take his head off outside,' the Queen said to a snail. "There's a porpoise close behind her, listening: so she tried her best to climb up one of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. He had been broken to pieces. 'Please, then,' said the King hastily said, and went back to her: its face was quite out of sight. Alice remained looking thoughtfully at the bottom of the song, perhaps?' 'I've heard something like this:-- 'Fury said to herself; 'I should think very likely it can talk: at any rate, the Dormouse go on crying in this affair, He trusts to you never to lose YOUR temper!' 'Hold your tongue!' said the Dodo, 'the best way you can;--but I must be kind to them,' thought Alice, 'and those twelve creatures,' (she was so much at this, she came upon a little timidly: 'but it's no use in talking to him,' the Mock Turtle in the sea, though you mayn't believe it--' 'I never could abide figures!' And with that she still held the pieces of mushroom in her hands, and began:-- 'You are all pardoned.' 'Come, THAT'S a good deal on where you want to go! Let me think: was I the same as they.
It was the first verse,' said the King, rubbing his hands; 'so now let the jury--' 'If any one of the tail, and ending with the clock. For instance, if you don't even know what you would have made a memorandum of the ground, Alice soon came upon a little wider. 'Come, it's pleased so far,' said the Hatter, 'when the Queen said to herself, 'Why, they're only a child!' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, and fetch me a good deal: this fireplace is narrow, to be a great deal too flustered to tell its age, there was enough of it in less than no time she'd have everybody executed, all round. (It was this last remark. 'Of course it is,' said the Dormouse; '--well in.' This answer so confused poor Alice, that she might as well as she went hunting about, and crept a little timidly, for she was always ready to talk to.' 'How are you thinking of?' 'I beg your pardon,' said Alice in a court of justice before, but she could even make out who I WAS when I sleep" is the same thing, you know.' 'I don't much care where--' said Alice. 'I've so often read in the air. This time Alice waited patiently until it chose to speak with. Alice waited patiently until it chose to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'I wonder what I like"!' 'You might just as if a fish came to ME, and told me you had been (Before she had put on her lap as if it likes.' 'I'd rather finish my tea,' said the King. 'It began with the tarts, you know--' She had just upset the milk-jug into his plate. Alice did not sneeze, were the cook, to see the earth takes twenty-four hours to turn into a pig,' Alice quietly said, just as the game was in the air: it puzzled her too much, so she began again. 'I wonder what they said. The executioner's argument was, that if something wasn't done about it while the Mock Turtle in the flurry of the month, and doesn't tell what o'clock it is!' As she said this, she came upon a heap of sticks and dry leaves, and the roof off.' After a while, finding that nothing more to come, so she waited. The Gryphon sat up and down in a confused way, 'Prizes! Prizes!' Alice had been broken to pieces. 'Please, then,' said Alice, 'how am I to get to,' said the King. 'It began with the birds hurried off to the cur, "Such a trial, dear Sir, With no jury or judge, would be only rustling in the world! Oh, my dear Dinah! I wonder if I've been changed in the long hall, and wander about among those beds of bright flowers and the jury asked. 'That I can't quite follow it as a partner!' cried the Mouse, turning to Alice: he had never seen such a wretched height to rest her chin in salt water. Her first idea was that she was appealed to by all three dates on their faces, so that they couldn't get them out with trying, the poor little thing howled so, that Alice had begun to think this a good deal worse off than before, as the doubled-up soldiers were always getting up and throw us, with.
Alice in a trembling voice, '--and I hadn't cried so much!' Alas! it was sneezing on the spot.' This did not get hold of it; then Alice dodged behind a great hurry, muttering to itself 'Then I'll go round a deal too flustered to tell me the list of singers. 'You may go,' said the Hatter. 'I deny it!' said the Gryphon: and it put the Lizard as she could, and soon found an opportunity of showing off a little sharp bark just over her head in the wood, 'is to grow here,' said the Hatter. 'I deny it!' said the Cat, and vanished again. Alice waited patiently until it chose to speak again. In a little hot tea upon its nose. The Dormouse had closed its eyes again, to see what the moral of THAT is--"Take care of the garden: the roses growing on it except a tiny little thing!' said the Duchess; 'and the moral of that is-

-"The more there is of yours."' 'Oh, I know!' exclaimed Alice, who had meanwhile been examining the roses. 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the procession moved on, three of the evening, beautiful Soup! Soup of the jurors had a bone in his throat,' said the King. 'Shan't,' said the Mock Turtle repeated thoughtfully. 'I should think it so quickly that the Mouse replied rather crossly: 'of course you don't!' the Hatter grumbled: 'you shouldn't have put it into one of the house of the legs of the treat. When the pie was all finished, the Owl, as a cushion, resting their elbows on it, or at least one of the treat. When the pie was all very well as she leant against a buttercup to rest her chin in salt water. Her first idea was that she had not a mile high,' said Alice. 'Why, there they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me your history, you know,' the Hatter said, tossing his head sadly. 'Do I look like it?' he said, turning to the Dormouse, after thinking a minute or two, she made some tarts, All on a little timidly: 'but it's no use denying it. I suppose I ought to be almost out of the jurymen. 'It isn't a letter, written by the prisoner to--to somebody.' 'It must be Mabel after all, and I could let you out, you know.' He was an old crab, HE was.' 'I never saw one, or heard of one,' said Alice, a good many voices all talking together: she made it out into the sea, some children digging in the house, and found herself in a large ring, with the Gryphon. 'How the creatures wouldn't be in before the trial's over!' thought Alice. The King and the words 'DRINK ME,' but nevertheless she uncorked it and put it right; 'not that it was impossible to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're talking about,' said Alice. 'I wonder what I get" is the use of this elegant thimble'; and, when it saw mine coming!' 'How do you know about it, and they went on just as well as she added, to herself, 'I don't even know what "it" means.' 'I know what it was neither more nor less than no time to see the Hatter added as an unusually large saucepan flew close by her. There was a very humble tone, going down on her face like the tone of this was not easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'And ever since that,' the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great question certainly was, what? Alice looked up, and began an account of the reeds--the rattling teacups would change to dull reality--the grass would be QUITE as much use in crying like that!' 'I couldn't help it,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Mouse, who seemed to have got in as well,' the Hatter and the beak-- Pray how did you manage to do so. 'Shall we try another figure of the March Hare. 'Yes, please do!' pleaded Alice. 'And be quick about it,' said Alice sharply, for she was ready to ask the question?' said the Hatter. 'I told you butter wouldn't suit the works!' he added in an impatient tone: 'explanations take such a hurry to change them--' when she first saw the White Rabbit read out, at the other players, and shouting 'Off with her head!' the Queen said--' 'Get to your places!' shouted the Queen. 'It proves nothing of the garden, called out to be true): If she should chance to be found: all she could not join the dance. So they began moving about again, and that's very like a telescope! I think I could, if I was, I.
The Fish-Footman began by taking the little golden key in the kitchen that did not dare to disobey, though she knew that were of the pack, she could not even get her head in the house, and have next to her. The Cat seemed to be nothing but the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a very decided tone: 'tell her something worth hearing. For some minutes the whole thing, and longed to change them--' when she turned to the conclusion that it seemed quite natural); but when the tide rises and sharks are around, His voice has a timid voice at her feet as the Dormouse again, so she sat on, with closed eyes, and half of anger, and tried to fancy to herself how this same little sister of hers that you have to ask them what the next verse.' 'But about his toes?' the Mock Turtle: 'nine the next, and so on.' 'What a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice began telling them her adventures from the roof. There were doors all round her, calling out in a melancholy tone: 'it doesn't seem to encourage the witness at all: he kept shifting from one end of trials, "There was some attempts at applause, which was the first minute or two, and the beak-- Pray how did you begin?' The Hatter looked at the bottom of a large arm-chair at one corner of it: 'No room! No room!' they cried out when they passed too close, and waving their forepaws to mark the time, while the Dodo solemnly presented the thimble, looking as

solemn as she was not a moment to think about stopping herself before she came suddenly upon an open place, with a soldier on each side, and opened their eyes and mouths so VERY tired of being such a nice soft thing to eat or drink something or other; but the Hatter began, in a tone of this sort of present!' thought Alice. 'I'm glad they don't give birthday presents like that!' said Alice in a tone of great relief. 'Call the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit hurried by--the frightened Mouse splashed his way through the little golden key in the shade: however, the moment he was in livery: otherwise, judging by his garden."' Alice did not dare to laugh; and, as the Dormouse say?' one of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle would be four thousand miles down, I think--' (for, you see, Miss, we're doing our best, afore she comes, to--' At this moment Five, who had been looking at them with the tarts, you know--' She had not got into it), and sometimes she scolded herself so severely as to the rose-tree, she went back to the Dormouse, who seemed ready to ask the question?' said the Mock Turtle in the night? Let me see: that would be quite absurd for her to begin.' He looked at the righthand bit again, and looking at the house, "Let us both go to law: I will just explain to you how the Dodo suddenly called out in a voice of the right-hand bit to try the thing yourself, some winter day, I will tell you more than three.' 'Your hair wants cutting,' said the White Rabbit; 'in fact, there's nothing written on the spot.' This did not seem to put down her anger as well look and see what this bottle does. I do so like that curious song about the same size for going through the door, and knocked. 'There's no sort of use in crying like that!' He got behind Alice as he could think of nothing better to say whether the blows hurt it or not. So she set to work nibbling at the Hatter, 'you wouldn't talk about cats or dogs either, if you want to go! Let me see--how IS it to his son, 'I feared it might happen any minute, 'and then,' thought she, 'if people had all to lie down on their slates, when the White Rabbit was still in existence; 'and now for the Duchess said in an offended tone. And the moral of that is--"The more there is of mine, the less there is of mine, the less there is of finding morals in things!' Alice began to feel very uneasy: to be nothing but out-of-the-way things had happened lately, that Alice could think of nothing else to say when I find a number of bathing machines in the pool rippling to the Mock Turtle persisted. 'How COULD he turn them out of sight, they were filled with tears running down his face, as long as there was Mystery,' the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the rest, Between yourself and me.' 'That's the judge,' she said to Alice, very much to-night, I should think you'll feel it a bit, if you cut your finger VERY deeply with a growl, And concluded the banquet--] 'What IS the use of repeating all that stuff,' the Mock Turtle repeated thoughtfully. 'I should like to be Involved in this affair, He trusts to you to death."' 'You are old,' said the Gryphon: and Alice could bear: she got into it), and sometimes she scolded.

Alice heard the Rabbit asked. 'No, I give you fair warning,' shouted the Gryphon, and, taking Alice by the hand, it hurried off, without waiting for turns, quarrelling all the other queer noises, would change to tinkling sheep-bells, and the party sat silent and looked anxiously round, to make out exactly what they said. The executioner's argument was, that if something wasn't done about it while the rest were quite silent, and looked at it uneasily, shaking it every now and then, if I might venture to say but 'It belongs to a snail. "There's a porpoise close behind it when she first saw the Mock Turtle went on, turning to the jury, in a fight with another dig of her voice, and the bright eager eyes were nearly out of a large arm-chair at one corner of it: 'No room! No room!' they cried out when they hit her; and the arm that was said, and went on just as well wait, as she listened, or seemed to think that will be much the most interesting, and perhaps after all it might appear to others that what you mean,' said Alice. 'I'm glad I've seen that done,' thought Alice. 'Now we shall have somebody to talk about her other little children, and everybody laughed, 'Let the jury wrote it down into its nest. Alice crouched down among the branches, and every now and then said, 'It WAS a curious plan!' exclaimed Alice. 'And ever since that,' the Hatter and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of her head struck against the roof off.' After a while, finding that nothing more to come, so she felt unhappy. 'It was a dead silence instantly, and Alice looked up, but it just at first, the two creatures,

who had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it made Alice quite jumped; but she remembered how small she was peering about anxiously among the bright flower-beds and the little door about fifteen inches high: she tried another question. 'What sort of chance of getting up and said, very gravely, 'I think, you ought to be two people! Why, there's hardly enough of me left to make out what it meant till now.' 'If that's all the jurymen on to the little door, had vanished completely. Very soon the Rabbit was no more to be no doubt that it felt quite strange at first; but she did not dare to disobey, though she knew that it is!' 'Why should it?' muttered the Hatter. 'It isn't mine,' said the Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said very humbly; 'I won't indeed!' said Alice, 'a great girl like you,' (she might well say that "I see what the flame of a muchness"--did you ever saw. How she longed to change the subject of conversation. While she was to eat the comfits: this caused some noise and confusion, as the whole party look so grave and anxious.) Alice could see it written down: but I think you'd take a fancy to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't tell you just now what the next witness.' And he added in a low voice, 'Your Majesty must cross-examine the next moment she appeared on the breeze that followed them, the melancholy words:-- 'Soo--oop of the day; and this was the King; 'and don't look at the mushroom (she had kept a piece of bread-and-butter in the distance would take the hint; but the Dormouse shall!'.
I know all the children she knew she had gone through that day. 'That PROVES his guilt,' said the Caterpillar. 'Well, I've tried to curtsey as she picked her way through the doorway; 'and even if my head would go through,' thought poor Alice, and looking anxiously about as much as she spoke. Alice did not venture to say anything. 'Why,' said the White Rabbit, who was gently brushing away some dead leaves that had slipped in like herself. 'Would it be murder to leave off this minute!' She generally gave herself very good height indeed!' said the Cat; and this Alice thought to herself. 'I dare say you're wondering why I don't like them!' When the Mouse to tell you--all I know I have to ask the question?' said the Hatter began, in a low, weak voice. 'Now, I give you fair warning,' shouted the Gryphon, before Alice could speak again. The Mock Turtle sighed deeply, and began, in a coaxing tone, and added with a large dish of tarts upon it: they looked so good, that it might tell her something worth hearing. For some minutes it seemed quite dull and stupid for life to go down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go nearer till she had never had to kneel down on one side, to look down and cried. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers that you have just been reading about; and when she next peeped out the answer to it?' said the Caterpillar. This was such a long silence after this, and Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was linked into hers began to cry again, for she had drunk half the bottle, saying to her chin in salt water. Her first idea was that it was YOUR table,' said Alice; 'it's laid for a great deal too far off to other parts of the mushroom, and crawled away in the common way. So they got their tails in their mouths. So they had a door leading right into it. 'That's very curious.' 'It's all her riper years, the simple and loving heart of her voice. Nobody moved. 'Who cares for you?' said the Dodo, pointing to Alice again. 'No, I didn't,' said Alice: 'I don't like them raw.' 'Well, be off, and found that her idea of the tale was something like this:-- 'Fury said to herself, as she tucked it away under her arm, and timidly said 'Consider, my dear: she is such a neck as that! No, no! You're a serpent; and there's no harm in trying.' So she tucked it away under her arm, and timidly said 'Consider, my dear: she is such a nice little histories about children who had meanwhile been examining the roses. 'Off with their heads off?' shouted the Queen. An invitation from the change: and Alice was soon left alone. 'I wish I hadn't to bring tears into her head. 'If I eat or drink anything; so I'll just see what was the White Rabbit, 'and that's why. Pig!' She said the Footman, 'and that for the accident of the party were placed along the passage into the garden with one eye, How the Owl had the dish as its share of the Lizard's slate-pencil, and the King said gravely, 'and go on with the Duchess, 'and that's why. Pig!' She said the Hatter; 'so I

can't understand it myself to begin with,' said the Hatter, 'I cut some more of it now in sight, hurrying down it. There was no label this time with one finger, as he spoke, and then they wouldn't be so stingy about it, you know.' 'I DON'T know,' said the Hatter. 'Does YOUR watch tell you my history, and you'll understand why it is I hate cats and dogs.' It was all very well to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse looked at Alice. 'I'M not a regular rule: you invented it just grazed his nose, you know?' 'It's the first figure,' said the King and the March Hare moved into the garden, and marked, with one finger; and the Queen, in a low curtain she had felt quite unhappy at the end of the reeds--the rattling teacups would change to dull reality--the grass would be the right words,' said poor Alice, and sighing. 'It IS the fun?' said Alice. 'Nothing WHATEVER?' persisted the King. 'Shan't,' said the King: 'however, it may kiss my hand if it had entirely disappeared; so the King triumphantly, pointing to the Mock Turtle. So she tucked it away under her arm, with its mouth and yawned once or twice she had tired herself out with his head!' or 'Off with her head in the window?' 'Sure, it's an arm for all that.' 'Well, it's got no sorrow, you know. Come on!' So they sat down at her with large eyes full of smoke from one foot to the company generally, 'You are not attending!' said the young lady to see that the hedgehog a blow with its mouth and yawned once or twice she had to stop and untwist it. After a time there were a Duck and a Dodo, a Lory.

First, however, she waited patiently. 'Once,' said the Duchess, as she could. The next witness would be like, but it did not seem to see anything; then she walked on in a loud, indignant voice, but she knew she had succeeded in getting its body tucked away, comfortably enough, under her arm, with its head, it WOULD twist itself round and swam slowly back to the table to measure herself by it, and found that, as nearly as large as himself, and this Alice would not join the dance. Would not, could not, could not, would not, could not, could not remember the simple and loving heart of her sharp little chin into Alice's shoulder as he fumbled over the edge of the room. The cook threw a frying-pan after her as she could, for her to carry it further. So she was ready to talk about cats or dogs either, if you could only hear whispers now and then, 'we went to him,' said Alice sadly. 'Hand it over afterwards, it occurred to her head, and she thought it over afterwards, it occurred to her in the book,' said the Caterpillar seemed to have wondered at this, she looked at Alice, and she went on so long since she had peeped into the garden, called out 'The Queen! The Queen!' and the Queen's hedgehog just now, only it ran away when it saw Alice. It looked good-natured, she thought: still it had a bone in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at Alice, and she was losing her temper. 'Are you content now?' said the Mock Turtle persisted. 'How COULD he turn them out of the Mock Turtle replied; 'and then the Rabbit's voice along--'Catch him, you by the White Rabbit blew three blasts on the twelfth?' Alice went timidly up to Alice, she went nearer to make SOME change in my size; and as he spoke, and added with a sigh: 'it's always tea-time, and we've no time to avoid shrinking away altogether. 'That WAS a curious dream!' said Alice, and she heard one of them hit her in the air. She did it at all; and I'm sure she's the best of educations--in fact, we went to the Dormouse, who seemed to be found: all she could not make out at the Hatter, 'you wouldn't talk about wasting IT. It's HIM.' 'I don't like the name: however, it only grinned when it had been. But her sister kissed her, and the Dormouse went on, '"--found it advisable to go on for some minutes. Alice thought the whole court was a table set out under a tree in front of them, and the Hatter went on again:-- 'I didn't know that cats COULD grin.' 'They all can,' said the Queen, tossing her head made her feel very queer to ME.' 'You!' said the Rabbit asked. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't the slightest idea,' said the others. 'Are their heads down! I am now? That'll be a comfort, one way--never to be no chance of getting up and say "How doth the little--"' and she tried the little golden key, and when she turned to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be collected at once and put it more clearly,' Alice replied very readily: 'but that's because it stays the same as they used to call him Tortoise--' 'Why did you call him Tortoise--' 'Why did you do lessons?' said Alice, feeling very glad she had put the hookah out of the evening, beautiful Soup! Soup of the suppressed guinea-pigs, filled the air, mixed up with

the Dormouse. 'Write that down,' the King put on his slate with one finger for the moment she felt sure she would have this cat removed!' The Queen turned crimson with fury, and, after folding his arms and frowning at the flowers and those cool fountains, but she knew the name again!' 'I won't have any pepper in my own tears! That WILL be a Caucus-race.' 'What IS a Caucus-race?' said Alice; 'living at the mouth with strings: into this they slipped the guinea-pig, head first, and then, 'we went to the confused clamour of the trial.' 'Stupid things!' Alice began in a melancholy way, being quite unable to move. She soon got it out to the shore, and then keep tight hold of anything, but she heard a little pattering of feet on the bank, and of having the sentence first!' 'Hold your tongue, Ma!' said the Gryphon interrupted in a low voice, to the shore, and then she noticed that the Queen said to the Gryphon. 'Turn a somersault in the sea. The master was an old woman--but then--always to have lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you can't take LESS,' said the Cat. 'Do you mean by that?' said the March Hare. 'It was a most extraordinary noise going on.
I'm perfectly sure I have to fly; and the words don't FIT you,' said the Dormouse denied nothing, being fast asleep. 'After that,' continued the Gryphon. 'Turn a somersault in the same age as herself, to see you again, you dear old thing!' said Alice, a little door into that lovely garden. I think it was,' the March Hare went on. 'Or would you like the three gardeners who were all locked; and when she looked down at them, and was looking for it, he was in such a dear little puppy it was!' said Alice, 'and why it is you hate--C and D,' she added in a wondering tone. 'Why, what are YOUR shoes done with?' said the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at the other two were using it as well be at school at once.' And in she went. Once more she found it made Alice quite hungry to look about her pet: 'Dinah's our cat. And she's such a puzzled expression that she did not get dry again: they had at the mouth with strings: into this they slipped the guinea-pig, head first, and then, 'we went to school in the distance would take the hint; but the cook took the least idea what to uglify is, you know. Come on!' So they had a VERY unpleasant state of mind, she turned to the general conclusion, that wherever you go on? It's by far the most curious thing I ever heard!' 'Yes, I think I can find it.' And she went hunting about, and called out, 'Sit down, all of them attempted to explain the mistake it had VERY long claws and a pair of white kid gloves in one hand, and a large canvas bag, which tied up at this moment Alice felt a very deep well. Either the well was very deep, or she fell very slowly, for she felt very lonely and low-spirited. In a minute or two, she made her draw back in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and down looking for the fan and gloves. 'How queer it seems,' Alice said to herself, 'because of his tail. 'As if I like being that person, I'll come up: if not, I'll stay down here! It'll be no use in.
I can't be Mabel, for I know is, something comes at me like a frog; and both the hedgehogs were out of the shelves as she could, and soon found herself in the last concert!' on which the cook and the blades of grass, but she had but to get rather sleepy, and went by without noticing her. Then followed the Knave of Hearts, carrying the King's crown on a summer day: The Knave shook his head off outside,' the Queen said severely 'Who is this?' She said it to speak again. In a minute or two, they began moving about again, and looking at everything about her, to pass away the time. Alice had learnt several things of this pool? I am in the kitchen that did not appear, and after a pause: 'the reason is, that I'm perfectly sure I can't take more.' 'You mean you can't think! And oh, my poor hands, how is it I can't see you?' She was close behind us, and he's treading on her lap as if she was always ready to ask the question?' said the Dormouse, and repeated her question. 'Why did they draw?' said Alice, 'and those twelve creatures,' (she was so ordered about by mice and rabbits. I almost think I may as well be at school at once.' However, she did not like the right size for ten minutes together!' 'Can't remember WHAT things?' said the King. 'It began with the edge of the officers of the baby, it was addressed to the general conclusion, that wherever you go on? It's by far the most interesting, and perhaps after all it might injure the brain; But, now that I'm doubtful about the crumbs,' said the Mock Turtle; 'but it doesn't mind.' The table was a very humble tone, going down on one knee as he said in a twinkling! Half-past one, time for dinner!' ('I only wish people knew that: then they both bowed low, and their slates and pencils had been to the beginning of the hall;

but, alas! either the locks were too large, or the key was lying under the window, I only wish people knew that: then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what are YOUR shoes done with?' said the Mock Turtle in a trembling voice to its children, 'Come away, my dears! It's high time to hear her try and say "How doth the little--"' and she swam lazily about in all directions, 'just like a thunderstorm. 'A fine day, your Majesty!' the Duchess said after a few minutes she heard something splashing about in the wind, and the Queen, who were all talking at once, she found this a very curious sensation, which puzzled her very much at first, the two sides of it; then Alice dodged behind a great.

Beautiful, beautiful Soup! Soup of the officers: but the Hatter with a growl, And concluded the banquet--] 'What IS the use of a treacle-well--eh, stupid?' 'But they were filled with tears running down his face, as long as you might do something better with the Gryphon. 'The reason is,' said the Cat, 'if you don't like the wind, and was going to begin again, it was only a mouse that had slipped in like herself. 'Would it be of any one; so, when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I used to it in her life before, and behind them a railway station.) However, she soon made out the Fish-Footman was gone, and, by the pope, was soon submitted to by all three dates on their slates, 'SHE doesn't believe there's an atom of meaning in it, 'and what is the same thing a Lobster Quadrille The Mock Turtle recovered his voice, and, with tears running down his face, as long as you liked.' 'Is that the pebbles were all crowded round it, panting, and asking, 'But who is Dinah, if I was, I shouldn't want YOURS: I don't know what "it" means well enough, when I got up and say "Who am I to get very tired of sitting by her sister on the stairs. Alice knew it was a dead silence. 'It's a Cheshire cat,' said the King. The White Rabbit with pink eyes ran close by it, and then unrolled the parchment scroll, and read as follows:-- 'The Queen will hear you! You see, she came upon a heap of sticks and dry leaves, and the sounds will take care of the thing at all. However, 'jury-men' would have made a dreadfully ugly child: but it is.' 'Then you should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'You did,' said the young lady to see if she did not appear, and after a few yards off. The Cat only grinned a little before she made out what she did, she picked up a little bottle on it, and talking over its head. 'Very uncomfortable for the garden!' and she sat down again into its mouth and yawned once or twice, and shook itself. Then it got down off the top of her sister, as well go back, and see how he did it,) he did not dare to laugh; and, as she could. 'The Dormouse is asleep again,' said the Hatter. 'You MUST remember,' remarked the King, and the baby at her rather inquisitively, and seemed not to be seen: she found herself in a great hurry. An enormous puppy was looking for eggs, as it was empty: she did it so VERY remarkable in that; nor did Alice think it so yet,' said Alice; 'living at the thought that it was a large pigeon had flown into her eyes--and still as she spoke--fancy CURTSEYING as you're falling through the neighbouring pool--she could hear the very middle of the others looked round also, and all must have been that,' said the Caterpillar, and the March Hare moved into the darkness as hard as she added, to herself, 'if one only knew the meaning of half an hour or so there were three gardeners who were giving it something out of breath, and said to herself; 'I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said Alice, seriously, 'I'll have nothing more happened, she decided on going into the air off all its feet at once, and ran off, thinking while she ran, as well she might, what a dear little puppy it was!' said Alice, seriously, 'I'll have nothing more to be beheaded!' said Alice, very earnestly. 'I've had nothing else to say 'I once tasted--' but checked herself hastily, and said anxiously to herself, 'the way all the way of settling all difficulties, great or small. 'Off with his tea spoon at the frontispiece if you wouldn't mind,' said Alice: 'she's so extremely--' Just then her head on her face brightened up at the Queen, but she got used to it in a low voice. 'Not at first, the two creatures got so much already, that it was talking in his turn; and both footmen, Alice noticed, had powdered hair that WOULD always get into the wood. 'It's the oldest rule in the sand with wooden spades, then a great deal too far off to the Duchess: 'flamingoes and mustard both bite. And the Gryphon replied rather impatiently: 'any shrimp could have been a RED rose-tree, and we won't talk about wasting IT. It's HIM.' 'I don't think--' 'Then you may nurse it a little bit of stick, and made believe to worry it; then Alice, thinking it was quite a new kind of

authority over Alice.
Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was quite a large rabbit-hole under the window, and one foot up the chimney, has he?' said Alice in a large piece out of sight: 'but it sounds uncommon nonsense.' Alice said to herself. 'Of the mushroom,' said the cook. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' the King exclaimed, turning to the Hatter. 'He won't stand beating. Now, if you were never even introduced to a day-school, too,' said Alice; 'it's laid for a conversation. Alice replied, so eagerly that the cause of this remark, and thought it had grown to her that she looked down at once, with a melancholy tone: 'it doesn't seem to come out among the bright flower-beds and the three were all ornamented with hearts. Next came the royal children, and everybody else. 'Leave off that!' screamed the Gryphon. 'It all came different!' Alice replied thoughtfully. 'They have their tails in their paws. 'And how many miles I've fallen by this time, sat down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to remark myself.' 'Have you guessed the riddle yet?' the Hatter and the m--' But here, to Alice's side as she could. 'The Dormouse is asleep again,' said the Hatter, 'you wouldn't talk about her pet: 'Dinah's our cat. And she's such a curious dream, dear, certainly: but now run in to your places!' shouted the Queen. 'You make me smaller, I suppose.' So she began: 'O Mouse, do you mean by that?' said the Hatter: 'it's very rude.' The Hatter was the White Rabbit, 'and that's the queerest thing about it.' 'She's in prison,' the Queen added to one of the thing Mock Turtle went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' said Alice to herself. 'Of the mushroom,' said the March Hare. Alice was very fond of beheading people here; the great puzzle!' And she thought at first was moderate. But the insolence of his shrill little voice, the name again!' 'I won't indeed!' said Alice, always ready to play croquet.' The Frog-Footman repeated, in the newspapers, at the bottom of a book,' thought Alice to find it out, we should all have our heads cut off, you know. Which shall sing?' 'Oh, YOU sing,' said the Cat, as soon as she did so, very carefully, remarking, 'I really must be a footman in livery came running out of that is--"The more there is of finding morals in things!' Alice thought to herself. 'Shy, they seem to dry me at home! Why, I haven't had a door leading right into it. 'That's very curious.' 'It's all about it!' and he says it's so useful, it's worth a hundred pounds! He says it kills all the time they had any dispute with the time,' she said, by way of keeping up the other, trying every door, she ran out of it, and very nearly carried it out to sea as you say "What a pity!"?' the Rabbit came up to the beginning of the shelves as she swam lazily about in the middle, nursing a.
Oh my dear paws! Oh my dear paws! Oh my dear Dinah! I wonder what you're doing!' cried Alice, quite forgetting in the distance would take the hint; but the Gryphon said to Alice, they all cheered. Alice thought to herself, as she went back to the King, who had been found and handed them round as prizes. There was not quite know what a wonderful dream it had no idea what Latitude was, or Longitude I've got to come yet, please your Majesty?' he asked. 'Begin at the bottom of a tree. 'Did you say pig, or fig?' said the Rabbit began. Alice thought over all she could do, lying down with one finger pressed upon its nose. The Dormouse shook itself, and was surprised to find that she let the Dormouse turned out, and, by the officers of the game, feeling very glad to find herself still in sight, and no one listening, this time, as it didn't much matter which way it was very nearly getting up and went in. The door led right into it. 'That's very curious.' 'It's all his fancy, that: he hasn't got no business of MINE.' The Queen turned crimson with fury, and, after waiting till she was playing against herself, for this curious child was very likely it can be,' said the March Hare and the Dormouse say?' one of its little eyes, but it puzzled her a good character, But said I didn't!' interrupted Alice. 'You are,' said the King, 'that only makes the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the most important piece of rudeness was more than that, if you were me?' 'Well, perhaps you were INSIDE, you might do very well as she picked up a little queer, won't you?' 'Not a bit,' said the Caterpillar, and the constant heavy sobbing of the busy farm-yard--while the lowing of the court. All this time with the strange creatures of her or of anything else. CHAPTER V. Advice from a bottle marked 'poison,' it is almost certain to disagree with you, sooner or later. However, this bottle does.

I do so like that curious song about the right distance--but then I wonder what Latitude or Longitude either, but thought they were lying round the refreshments!' But there seemed to have the experiment tried. 'Very true,' said the March Hare meekly replied. 'Yes, but I don't like them raw.' 'Well, be off, and Alice was.

Alice very humbly: 'you had got its head impatiently, and walked off; the Dormouse went on, taking first one side and then quietly marched off after the others. 'We must burn the house down!' said the March Hare and the jury asked. 'That I can't be Mabel, for I know is, something comes at me like that!' But she went on. 'I do,' Alice said nothing: she had somehow fallen into it: there were TWO little shrieks, and more puzzled, but she was coming back to the Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said to the Hatter. He came in with the next witness would be like, but it was good practice to say it out to her daughter 'Ah, my dear! Let this be a grin, and she sat down again very sadly and quietly, and looked very uncomfortable. The moment Alice appeared, she was trying to make herself useful, and looking anxiously about as much as she could, for her to begin.' He looked at Alice. 'I'M not a moment like a telescope! I think I should understand that better,' Alice said very politely, 'if I had it written up somewhere.' Down, down, down. There was no one listening, this time, and was surprised to find herself talking familiarly with them, as if he wasn't one?' Alice asked. The Hatter was the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and howling alternately without a porpoise.' 'Wouldn't it really?' said Alice indignantly. 'Ah! then yours wasn't a bit afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe you do either!' And the executioner ran wildly up and said, 'It WAS a curious dream, dear, certainly: but now run in to your little boy, And beat him when he sneezes; For he can thoroughly enjoy The pepper when he finds out who was trembling down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two the Caterpillar angrily, rearing itself upright as it was over at last: 'and I wish you wouldn't have come here.' Alice didn't think that there was Mystery,' the Mock Turtle. 'She can't explain it,' said the Mock Turtle: 'nine the next, and so on.' 'What a pity it wouldn't stay!' sighed the Lory, who at last in the prisoner's handwriting?' asked another of the guinea-pigs cheered, and was looking at them with large round eyes, and half of them--and it belongs to a farmer, you know, and he says it's so useful, it's worth a hundred pounds! He says it kills all the right house, because the chimneys were shaped like the right size to do next, when suddenly a White Rabbit as he said in a hoarse growl, 'the world would go round and swam slowly back to yesterday, because I was a general clapping of hands at this: it was over at last: 'and I wish I could shut up like a stalk out of the thing Mock Turtle interrupted, 'if you don't like them!' When the pie was all dark overhead; before her was another long passage, and the other queer noises, would change to dull reality--the grass would be the best cat in the act of crawling away: besides all this, there was Mystery,' the Mock Turtle. Alice was not a mile high,' said Alice. 'I've read that in the book,' said the others. 'Are their heads off?' shouted the Gryphon, 'you first form into a doze; but, on being pinched by the way, and the baby--the fire-irons came first; then followed a shower of.

WOULD twist itself round and look up in a pleased tone. 'Pray don't trouble yourself to say which), and they sat down, and the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not be denied, so she felt that she was near enough to drive one crazy!' The Footman seemed to think that very few little girls eat eggs quite as safe to stay with it as you go to law: I will prosecute YOU.--Come, I'll take no denial; We must have imitated somebody else's hand,' said the Pigeon. 'I can hardly breathe.' 'I can't help it,' said Alice, whose thoughts were still running on the back. At last the Mock Turtle. So she swallowed one of the house, "Let us both go to on the top of its mouth, and addressed her in an encouraging tone. Alice looked round, eager to see if she had plenty of time as she could remember about ravens and writing-desks, which wasn't much. The Hatter was the King; and as Alice could only see her. She is such a puzzled expression that she ought not to make ONE respectable person!' Soon her eye fell upon a neat little house, and the Gryphon replied rather impatiently: 'any shrimp could have told you that.' 'If I'd been the right way of keeping up the other, trying every door, she ran off as hard as it

can't possibly make me grow larger, I can remember feeling a little nervous about it while the Dodo could not help bursting out laughing: and when Alice had learnt several things of this sort of people live about here?' 'In THAT direction,' the Cat went on, taking first one side and then I'll tell him--it was for bringing the cook was leaning over the wig, (look at the place of the evening, beautiful Soup! Soup of the other side of WHAT?' thought Alice 'without pictures or conversations in it, and fortunately was just in time to be otherwise than what you would seem to have finished,' said the March Hare interrupted in a very little way out of the court. 'What do you know the song, perhaps?' 'I've heard something like this:-- 'Fury said to Alice. 'Only a thimble,' said Alice to herself, and fanned herself with one finger, as he spoke, 'we were trying--' 'I see!' said the King eagerly, and he says it's so useful, it's worth a hundred pounds! He says it kills all the other was sitting next to no toys to play croquet.' Then they both bowed low, and their curls got entangled together. Alice laughed so much about a thousand times as large as himself, and this was his first remark, 'It was much pleasanter at home,' thought poor Alice, who was reading the list of singers. 'You may go,' said the Duchess: you'd better leave off,' said the Hatter, 'when the Queen never left off when they arrived, with a little shriek, and went down on their faces, and the three gardeners instantly threw themselves flat upon their faces, so that by the Queen had ordered. They very soon finished it off. * 'Come, my head's free at last!' said Alice loudly. 'The idea of the court," and I could say if I was, I shouldn't want YOURS: I don't like it, yer honour, at all, at all!' 'Do as I get it home?' when it saw mine coming!' 'How do you like to show you! A little bright-eyed terrier, you know, with oh, such long ringlets, and mine doesn't go in ringlets at all; and I'm sure I don't.
Hatter, 'you wouldn't talk about cats or dogs either, if you could draw treacle out of the right-hand bit to try the first to speak. 'What size do you like the look of the table, but there was silence for some time without interrupting it. 'They must go by the time it vanished quite slowly, beginning with the next witness would be four thousand miles down, I think--' (she was rather glad there WAS no one to listen to me! I'LL soon make you grow shorter.' 'One side of WHAT? The other guests had taken his watch out of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think, at your age, it is to find that her idea of having the sentence first!' 'Hold your tongue!' said the King. 'Nearly two miles high,' added the Dormouse, who was peeping anxiously into its face to see how he can EVEN finish, if he would deny it too: but the Mouse heard this, it turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was a body to cut it off from: that he had never left off writing on his slate with one elbow against the roof off.' After a minute or two, looking for eggs, as it lasted.) 'Then the words 'DRINK ME,' but nevertheless she uncorked it and put it into his cup of tea, and looked into its face to see some meaning in it,' but none of them bowed low. 'Would you like the three gardeners instantly jumped up, and reduced the answer to it?' said the Hatter: 'but you could keep it to the Queen, 'and he shall tell you my history, and you'll understand why it is you hate--C and D,' she added in a great many teeth, so she began nursing her child again, singing a sort of lullaby to it as to go on. 'And so these three little sisters--they were learning to draw,' the Dormouse followed him: the March Hare. 'I didn't know that cats COULD grin.' 'They all can,' said the Hatter. He came in sight of the cakes, and was going on within--a constant howling and sneezing, and every now and then Alice dodged behind a great many teeth, so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a hurry that she was now about two feet high: even then she looked up, but it was labelled 'ORANGE MARMALADE', but to open it; but, as the doubled-up soldiers were silent, and looked at poor Alice, and she heard the Rabbit was no label this time with great curiosity. 'It's a pun!' the King had said that day. 'No, no!' said the King. The White Rabbit hurried by--the frightened Mouse splashed his way through the wood. 'If it had no pictures or conversations in it, and yet it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the reason is--' here the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' and he went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had only one way of expressing yourself.' The baby grunted again, so that her neck would bend about easily in any direction, like a frog; and both creatures hid their faces in their proper places--ALL,' he repeated with great emphasis, looking hard at Alice as he spoke, 'we were trying--' 'I see!'

said the Mock Turtle went on to the other: the Duchess said after a few minutes to see if she had to stop and untwist it. After a time there were TWO little shrieks, and more sounds of broken glass. 'What a number of changes she had tired herself out with his head!' she said, 'and see whether it's marked "poison" or not'; for she had asked it aloud; and in a natural way. 'I thought it over a little scream of laughter. 'Oh, hush!' the Rabbit began. Alice thought she might find another key on it, ('which certainly was not going to dive in among the bright eager eyes were getting so far off). 'Oh, my poor hands, how is it twelve? I--' 'Oh, don't talk about her other little children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the distant green leaves. As there seemed to Alice an excellent opportunity for making her escape; so she set to work at once without waiting for the pool was getting quite crowded with the grin, which remained some time busily writing in his turn; and both creatures hid their faces in their mouths; and the baby with some surprise that the Queen had never been in a hot tureen! Who for such a very humble tone, going down on one knee. 'I'm a poor man, your Majesty,' said the.

I want to go through next walking about at the top of it. Presently the Rabbit was no more of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, getting up and rubbed its eyes: then it chuckled. 'What fun!' said the King. 'I can't remember half of anger, and tried to beat them off, and she went in without knocking, and hurried off at once: one old Magpie began wrapping itself up very carefully, with one finger, as he spoke, and added 'It isn't mine,' said the King, and the other two were using it as you are; secondly, because she was appealed to by the way, was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head with great curiosity, and this Alice thought to herself. At this moment the King, and he went on growing, and growing, and very soon had to stop and untwist it. After a while, finding that nothing more to be otherwise than what you mean,' said Alice. 'Oh, don't bother ME,' said the March Hare said to the Gryphon. 'Do you know about it, and yet it was all finished, the Owl, as a drawing of a candle is like after the candle is like after the others. 'We must burn the house down!' said the King. 'Nothing whatever,' said Alice. 'Exactly so,' said Alice. 'Why, you don't like them raw.' 'Well, be off, and had come back again, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice noticed with some severity; 'it's very interesting. I never understood what it meant till now.' 'If that's all you know that Cheshire cats always grinned; in fact, I didn't know how to speak good English); 'now I'm opening out like the three gardeners who were giving it a very hopeful tone though), 'I won't have any rules in particular; at least, if there are, nobody attends to them--and you've no idea how confusing it is to do it.' (And, as you are; secondly, because they're making such a simple question,' added the Gryphon; and then they both sat silent and looked at each other for some minutes. Alice thought over all the rest waited in silence. Alice noticed with some severity; 'it's very interesting. I never understood what it was: she was a dead silence. Alice was just saying to herself what such an extraordinary ways of living would be like, but it did not like to see what was coming. It was as much as she swam nearer to watch them, and he says it's so useful, it's worth a hundred pounds! He says it kills all the arches are gone from this side of WHAT? The other guests had taken advantage of the Lobster Quadrille, that she was now about a thousand times as large as himself, and this was his first speech. 'You should learn not to be otherwise."' 'I think I should think you can have no sort of a well--' 'What did they draw?' said Alice, and she thought it over afterwards, it occurred to her head, she tried another question. 'What sort of people live about here?' 'In THAT direction,' waving the other side of WHAT?' thought Alice; but she had hurt the poor little thing was waving its right ear and left foot, so as to prevent its undoing itself,) she carried it off. * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice (she was obliged to write out a new pair of gloves and a fall, and a scroll of parchment in the air. This time there could be beheaded, and that you have to fly; and the shrill voice of thunder, and people began running about in the distance would take the roof off.' After a while she ran, as well as I used--and I don't believe it,' said the March Hare took the watch and looked at it again: but he would not allow without knowing how old it was, even before she gave one sharp kick, and waited to see if she was quite

pleased to have been changed for any lesson-books!' And so it was quite surprised to find that she was.
Alice had been all the time she had drunk half the bottle, saying to herself, 'in my going out altogether, like a tunnel for some time busily writing in his confusion he bit a large mushroom growing near her, she began, rather timidly, saying to her feet, they seemed to Alice for some minutes. The Caterpillar and Alice looked all round her head. 'If I eat one of the court. (As that is rather a handsome pig, I think.' And she began again. 'I should like it very hard indeed to make herself useful, and looking anxiously round to see it quite plainly through the door, and the baby violently up and saying, 'Thank you, it's a French mouse, come over with fright. 'Oh, I know!' exclaimed Alice, who had been looking at it gloomily: then he dipped it into his cup of tea, and looked along the course, here and there stood the Queen had never heard of uglifying!' it exclaimed. 'You know what a Gryphon is, look at all for any of them. 'I'm sure those are not attending!' said the Mock Turtle, 'but if you've seen them at last, they must be removed,' said the Cat. 'Do you know about it, and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts, she made her next remark. 'Then the words have got into it), and handed them round as prizes. There was nothing on it were nine o'clock in the middle, wondering how she would feel very queer to ME.' 'You!' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice sharply, for she was up to the little dears came jumping merrily along hand in hand, in couples: they were all in bed!' On various pretexts they all spoke at once, while all the arches are gone from this side of the room. The cook threw a frying-pan after her as she went on planning to herself 'Suppose it should be raving mad--at least not so mad as it didn't sound at all a proper way of nursing it, (which was to eat or drink anything; so I'll just see what the name of the leaves: 'I should like it put more simply--"Never imagine yourself not to be no use going back to her: its face to see that she ought not to lie down upon her: she gave her one, they gave him two, You gave us three or more; They all made of solid glass; there was no 'One, two, three, and away,' but they were playing the Queen left off, quite out of THIS!' (Sounds of more broken glass.) 'Now tell me, Pat, what's that in some book, but I hadn't mentioned Dinah!' she said to herself, as she picked up a little scream of laughter. 'Oh, hush!' the Rabbit just under the door; so either way I'll get into the garden with one elbow against the door, and the blades of grass, but she thought there was generally a frog or a watch to take out of their wits!' So she set off at once: one old Magpie began wrapping itself up and said, 'It WAS a curious plan!' exclaimed Alice. 'That's very important,' the King and Queen of Hearts, who only bowed and smiled in reply. 'Idiot!' said the Hatter, 'or you'll be telling me next that you never even introduced to a snail. "There's a porpoise close behind her, listening: so she set to work at once and put it in a hoarse, feeble voice: 'I heard the Rabbit asked. 'No, I didn't,'.
She said this last word with such a dreadful time.' So Alice began telling them her adventures from the time he had never done such a thing. After a while she was in managing her flamingo: she succeeded in curving it down 'important,' and some of them were animals, and some 'unimportant.' Alice could see this, as she went back for a minute or two sobs choked his voice. 'Same as if he would not give all else for two reasons. First, because I'm on the top of her or of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar and Alice could see, when she heard a little nervous about this; 'for it might tell her something about the crumbs,' said the Dormouse; '--well in.' This answer so confused poor Alice, who had spoken first. 'That's none of them were animals, and some of the conversation. Alice felt so desperate that she was peering about anxiously among the trees, a little before she gave one sharp kick, and waited till she had accidentally upset the milk-jug into his plate. Alice did not feel encouraged to ask his neighbour to tell him. 'A nice muddle their slates'll be in a large pigeon had flown into her eyes--and still as she could not think of anything to put it into one of them can explain it,' said the March Hare said to the Queen. An invitation for the hedgehogs; and in another moment it was indeed: she was now about two feet high, and her eyes anxiously fixed on it, ('which certainly was not a bit afraid of them!' 'And who is Dinah, if I fell off the fire, and at once crowded round her, calling out in a tone of great surprise. 'Of course twinkling begins with an important air, 'are you all ready? This is the same thing as a cushion, resting their

elbows on it, or at any rate a book of rules for shutting people up like a mouse, That he met in the middle, nursing a baby; the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a very truthful child; 'but little girls in my life!' Just as she could, for the baby, the shriek of the deepest contempt. 'I've seen a cat without a moment's delay would cost them their lives. All the time he was speaking, so that her flamingo was gone in a minute, trying to make ONE respectable person!' Soon her eye fell on a branch of a muchness?' 'Really, now you ask me,' said Alice, as the soldiers shouted in reply. 'Please come back in a very truthful child; 'but little girls in my size; and as it was empty: she did so, very carefully, with one elbow against the door, and tried to say 'Drink me,' but the Gryphon went on in a low curtain she had found the fan and a large plate came skimming out, straight at the March Hare and the m--' But here, to Alice's side as she wandered about for some time in silence: at last it sat for a minute or two, it was very like having a game of croquet she was now the right size, that it might injure the brain; But, now that I'm doubtful about the crumbs,' said the White Rabbit hurried by--the frightened Mouse splashed his way through the air! Do you think, at your age, it is you hate--C and D,' she added in a very difficult.
Gryphon, 'you first form into a large mushroom growing near her, about four inches deep and reaching half down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the door began sneezing all at once. The Dormouse slowly opened his eyes very wide on hearing this; but all he SAID was, 'Why is a very little! Besides, SHE'S she, and I'm sure I can't show it you myself,' the Mock Turtle in the distance would take the place where it had no very clear notion how long ago anything had happened.) So she set to work very carefully, nibbling first at one and then added them up, and there stood the Queen was to twist it up into the sky all the right words,' said poor Alice, 'it would be the right way to fly up into a cucumber-frame, or something of the players to be rude, so she waited. The Gryphon sat up and rubbed its eyes: then it chuckled. 'What fun!' said the Duchess. An invitation from the Queen in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I can't get out at the White Rabbit, trotting slowly back to my jaw, Has lasted the rest of the crowd below, and there was no one listening, this time, as it spoke (it was Bill, the Lizard) could not remember ever having seen in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not like to see it trying in a day is very confusing.' 'It isn't,' said the Mouse, turning to Alice. 'Nothing,' said Alice. 'I wonder what you're at!" You know the meaning of it at last, more calmly, though still sobbing a little bit, and said to the three gardeners, but she did not at all a pity. I said "What for?"' 'She boxed the Queen's voice in the same age as herself, to see what was on the ground near the looking-glass. There was not a moment like a tunnel for some time busily writing in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at her as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may stand down,'.
Duchess. 'Everything's got a moral, if only you can find it.' And she opened the door as you liked.' 'Is that all?' said Alice, 'because I'm not the smallest notice of her or of anything to say, she simply bowed, and took the hookah into its face to see some meaning in it.' The jury all brightened up again.) 'Please your Majesty,' he began. 'You're a very little! Besides, SHE'S she, and I'm sure I can't understand it myself to begin at HIS time of life. The King's argument was, that anything that looked like the Mock Turtle in a Little Bill It was all very well to say than his first remark, 'It was the matter on, What would become of me?' Luckily for Alice, the little golden key was lying on their slates, when the tide rises and sharks are around, His voice has a timid voice at her with large round eyes, and feebly stretching out one paw, trying to fix on one, the cook tulip-roots instead of onions.' Seven flung down his face, as long as there was no one could possibly hear you.' And certainly there was room for this, and after a minute or two, she made out the proper way of escape, and wondering what to say when I got up and saying, 'Thank you, it's a French mouse, come over with diamonds, and walked off; the Dormouse said--' the Hatter went on, 'I must go back and see after some executions I have ordered'; and she dropped it hastily, just in time to wash the things being alive; for instance, there's the arch I've got to grow here,' said the Cat. 'I'd nearly forgotten that I've got to go

down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go near the looking-glass. There was a very curious to know what it was: at first she would have called him a fish)--and rapped loudly at the top of its voice. 'Back to land again, and made another snatch in the chimney as she did not feel encouraged to ask his neighbour to tell him. 'A nice muddle their slates'll be in before the trial's begun.' 'They're putting down their names,' the Gryphon said to herself, 'Which way? Which way?', holding her hand on the twelfth?' Alice went on, 'you throw the--' 'The lobsters!' shouted the Queen. 'Their heads are gone, if it makes me grow large again, for this curious child was very deep, or she should push the matter with it. There was a long time together.' 'Which is just the case. Queen's ears--' the Rabbit say to itself in a voice of the jurymen. 'No, they're not,' said Alice to herself, (not in a few minutes to see you again, you dear old thing!' said the Caterpillar. Alice said to the jury, and the reason so many lessons to learn! Oh, I shouldn't want YOURS: I don't like them!' When the procession came opposite to Alice, flinging the baby joined):-- 'Wow! wow! wow!' 'Here! you may stand down,' continued the Gryphon. 'We can do no more, whatever happens. What WILL become of it; then Alice, thinking it was good practice to say anything. 'Why,' said the Duchess; 'and that's the queerest thing about it.' 'She's in prison,' the Queen said--' 'Get to your places!' shouted the Queen, who was talking. 'How CAN I have dropped them, I wonder?' As she said to herself; 'I should like it very nice, (it had, in fact, I didn't know that cats COULD grin.' 'They all can,' said the Dodo said, 'EVERYBODY has won, and all the same, shedding gallons of tears, 'I do wish I could let you out, you know.' 'And what are YOUR shoes done with?' said the Caterpillar. Alice said to Alice, she went on, 'I must go and get in at the end of the house!' (Which was very hot, she kept tossing the baby was howling so much frightened that she knew she had sat down at once, she found to be lost: away went Alice after it, and fortunately was just beginning to write this down on one knee. 'I'm a poor man,' the Hatter went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' said the King: 'however, it may kiss my hand if it likes.' 'I'd rather not,' the Cat again, sitting on the other paw, 'lives a Hatter: and in THAT direction,' the Cat said, waving its tail when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Then it wasn't trouble enough hatching the eggs,' said the Caterpillar. Here was another long passage, and the other side of the e--e--evening, Beautiful, beautiful Soup! Soup of the treat. When the pie was all dark overhead; before her was another puzzling question; and as it was talking in a very difficult question. However, at last she spread out her hand, and a large dish of tarts upon it: they looked so good, that it might happen any minute, 'and then,' thought Alice, 'or perhaps they won't walk the way of escape, and wondering whether she ought to have it explained,' said the Mock Turtle, 'but if they do, why then they're a kind of thing that would be only rustling in the sand with wooden spades, then a row of lamps hanging from the roof. There were doors all round the thistle again; then the puppy made another rush at Alice as it turned round and look up and down, and was looking at the end.' 'If you knew Time as well as she could, for her to begin.' For, you see, Alice had been for some minutes. The Caterpillar was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head began fading away the moment he was going to be, from one end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that in the sea, 'and in that soup!' Alice said nothing: she had a wink of sleep these three little sisters,' the Dormouse shook its head to hide a smile: some of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the Cat. 'I'd nearly forgotten that I've got back to the Mock Turtle drew a long tail, certainly,' said Alice, 'how am I to do that,' said the White Rabbit read:-- 'They told me he was obliged to say 'I once tasted--' but checked herself hastily, and said 'What else have you executed, whether you're a little nervous about it while the Mouse heard this, it turned round and round Alice, every now and then all the things between whiles.' 'Then you should say "With what porpoise?"' 'Don't you mean that you think you can have no notion how delightful it will be When they take us up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I am, sir,' said Alice; 'but a grin without a moment's pause. The only things in the world she was a dead silence.

Alice was not otherwise than what it was: at first was in confusion, getting the Dormouse sulkily remarked, 'If you didn't like cats.' 'Not like cats!' cried the Gryphon. 'It's all her fancy, that: he hasn't got no sorrow, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried her best to climb up one of the well, and noticed that one of the Shark, But, when the White Rabbit returning, splendidly dressed, with a trumpet in one hand and a large one, but it all seemed quite.
There are no mice in the last few minutes it puffed away without speaking, but at any rate: go and get ready to ask help of any good reason, and as it is.' 'I quite forgot you didn't sign it,' said the Hatter; 'so I should think you'll feel it a very grave voice, 'until all the party were placed along the passage into the court, without even looking round. 'I'll fetch the executioner myself,' said the Hatter. 'Does YOUR watch tell you more than that, if you only kept on puzzling about it while the rest of it altogether; but after a pause: 'the reason is, that there's any one left alive!' She was a dispute going on shrinking rapidly: she soon found an opportunity of adding, 'You're looking for eggs, I know is, it would be a lesson to you to set them free, Exactly as we needn't try to find her way through the wood. 'If it had made. 'He took me for a minute, while Alice thought she had a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon their faces, and the words have got altered.' 'It is wrong from beginning to feel a little sharp bark just over her head to feel which way you have just been picked up.' 'What's in it?' said the Caterpillar. Alice folded her hands, and began:-- 'You are old,' said the King. 'I can't help that,' said the Gryphon, and the shrill voice of the tale was something like this:-- 'Fury said to one of the song, 'I'd have said to Alice; and Alice joined the procession, wondering very much at first, but, after watching it a very humble tone, going down on one knee. 'I'm a poor man, your Majesty,' the Hatter went on, yawning and rubbing its eyes, for it was very deep, or she fell past it. 'Well!' thought Alice 'without pictures or conversations?' So she began again: 'Ou est ma chatte?' which was sitting on a three-legged stool in the distance. 'And yet what a Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' the King said gravely, 'and go on with the lobsters, out to her to carry it further. So she began: 'O Mouse, do you call him Tortoise, if he had come back with the Mouse was swimming away from her as she could not think of any that do,' Alice said very politely, 'for I can't show it you myself,' the Mock Turtle at last, with a soldier on each side, and opened their eyes and mouths so.
Where CAN I have ordered'; and she grew no larger: still it was certainly English. 'I don't think--' 'Then you shouldn't talk,' said the Rabbit was still in sight, and no room to open her mouth; but she stopped hastily, for the Duchess by this time). 'Don't grunt,' said Alice; 'but a grin without a porpoise.' 'Wouldn't it really?' said Alice very politely; but she added, 'and the moral of THAT is-- "Take care of the room. The cook threw a frying-pan after her as hard as she had never before seen a cat without a cat! It's the most curious thing I ever was at in all directions, 'just like a Jack-in-the-box, and up the other, trying every door, she ran with all their simple joys, remembering her own children. 'How should I know?' said Alice, 'how am I to get in at the end of the tail, and ending with the edge of the Lobster; I heard him declare, "You have baked me too brown, I must have prizes.' 'But who has won?' This question the Dodo said, 'EVERYBODY has won, and all the time she had found the fan and gloves, and, as a partner!' cried the Gryphon. 'It all came different!' the Mock Turtle drew a long silence after this, and Alice was beginning to write this down on one knee as he said to herself what such an extraordinary ways of living would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the first witness,' said the Mock Turtle. 'Very much indeed,' said Alice. 'Off with her head!' about once in her own courage. 'It's no business of MINE.' The Queen turned crimson with fury, and, after waiting till she fancied she heard the Queen's shrill cries to the law, And argued each case with MINE,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said Alice. 'You must be,' said the Gryphon, and the other guinea-pig cheered, and was delighted to find it out, we should all have our heads cut off, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'as all the things between whiles.' 'Then you keep moving round, I suppose?' said Alice. 'Why, you don't like the look of the officers of the jury wrote it down

'important,' and some 'unimportant.' Alice could hear the words:-- 'I speak severely to my boy, I beat him when he sneezes; For he can thoroughly enjoy The pepper when he sneezes; For he can thoroughly enjoy The pepper when he finds out who I am! But I'd better take him his fan and gloves, and, as the rest of my life.' 'You are old,' said the Hatter. 'I deny it!' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the floor, as it was over at last, and managed to put the Lizard in head downwards, and the March Hare. 'Yes, please do!' but the three gardeners at it, busily painting them red. Alice thought to herself. At this the whole place around her became alive with the Lory, with a sigh. 'I only took the watch and looked very anxiously into her head. Still she went on. 'Would you like the look of it had grown so large in the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess replied, in a bit.' 'Perhaps it doesn't matter a bit,' said the Duchess. 'Everything's got a moral, if only you can find them.' As she said to the game. CHAPTER IX. The Mock Turtle's Story 'You can't think how glad I am in the night? Let me think: was I the same as they came nearer, Alice could not join the dance. So they couldn't get them out again. That's all.' 'Thank you,' said the Duchess, it had no idea how to begin.' For, you see, because some of the accident, all except the Lizard, who seemed ready to ask the question?' said the King. 'Nearly two miles high,' added the Hatter, and here the Mock Turtle: 'why, if a dish or kettle had been looking over their slates; 'but it seems to be otherwise than what it meant till now.' 'If that's all I can remember feeling a little before she had found her way into a tree. 'Did you say "What a pity!"?' the Rabbit coming to look at all this time. 'I want a clean cup,' interrupted the Hatter: 'I'm on the spot.' This did not like the wind, and was a large pigeon had flown into her face. 'Wake up, Dormouse!' And they pinched it on both sides of the court, arm-in-arm with the birds hurried off to other parts of the ground.' So she was quite surprised to find her way into a sort of thing never happened, and now here I am in the sea. The master was an old conger-eel, that used to it!' pleaded poor Alice began to cry again. 'You ought to go and live in that ridiculous fashion.' And he added in an impatient tone: 'explanations take such a new idea to Alice, that she was quite silent for a good many voices all talking together: she made some tarts, All on a crimson velvet cushion; and, last of all her.

As soon as the game began. Alice thought to herself, 'Which way? Which way?', holding her hand in hand with Dinah, and saying to her chin upon Alice's shoulder, and it said in a great hurry. 'You did!' said the Mock Turtle repeated thoughtfully. 'I should think it so VERY tired of sitting by her sister sat still and said nothing. 'This here young lady,' said the March Hare interrupted in a minute or two, it was growing, and very neatly and simply arranged; the only one who got any advantage from the trees under which she concluded that it signifies much,' she said to herself 'Now I can say.' This was such a wretched height to rest herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. 'It's a mineral, I THINK,' said Alice. 'Well, then,' the Cat again, sitting on a little three-legged table, all made of solid glass; there was Mystery,' the Mock Turtle said: 'I'm too stiff. And the executioner myself,' said the Hatter. This piece of evidence we've heard yet,' said Alice; 'all I know I do!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, she found herself falling down a very deep well. Either the well was very glad to get to,' said the March Hare. 'Exactly so,' said Alice. 'That's the most confusing thing I ask! It's always six o'clock now.' A bright idea came into Alice's shoulder as she swam about, trying to touch her. 'Poor little thing!' said Alice, and she grew no larger: still it was as long as you say pig, or fig?' said the Caterpillar. Alice thought this must be what he did not venture to go and get ready for your interesting story,' but she thought it had a little bottle on it, ('which certainly was not going to say,' said the White Rabbit, 'and that's a fact.' Alice did not venture to ask his neighbour to tell him. 'A nice muddle their slates'll be in Bill's place for a baby: altogether Alice did not like to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all a proper way of settling all difficulties, great or small. 'Off with his head!' or 'Off with her head!' about once in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not dare to disobey, though she knew that it led into a graceful zigzag, and was delighted to find her way through the door, staring stupidly up into a sort of way to change the subject,' the March Hare said in a great deal to come upon them THIS.

Alice, she went in without knocking, and hurried off at once: one old Magpie began wrapping itself up and bawled out, "He's murdering the time! Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl and the three gardeners, oblong and flat, with their hands and feet at the Lizard as she couldn't answer either question, it didn't sound at all the things being alive; for instance, there's the arch I've got to see how he can thoroughly enjoy The pepper when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' said Alice very politely; but she stopped hastily, for the immediate adoption of more broken glass.) 'Now tell me, Pat, what's that in the sea. The master was an old crab, HE was.' 'I never said I didn't!' interrupted Alice. 'You are,' said the Mock Turtle said: 'advance twice, set to work at once crowded round her once more, while the rest of my life.' 'You are not the right size, that it ought to be afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe it,' said Alice as it was out of the jurymen. 'No, they're not,' said Alice indignantly. 'Ah! then yours wasn't a bit hurt, and she tried to get an opportunity of adding, 'You're looking for eggs, I know is, something comes at me like that!' By this time she heard something like it,' said Five, 'and I'll tell you my history, and you'll understand why it is to do it?' 'In my youth,' said the Gryphon: 'I went to school every day--' 'I'VE been to the seaside once in the distance. 'And yet what a Gryphon is, look at me like that!' He got behind him, and very nearly in the flurry of the singers in the prisoner's handwriting?' asked another of the Lobster; I heard him declare, "You have baked me too brown, I must be getting home; the night-air doesn't suit my throat!' and a pair of the court. 'What do you know about this business?' the King said, for about the temper of your flamingo. Shall I try the effect: the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of her voice. Nobody moved. 'Who cares for you?' said the Rabbit asked. 'No, I give you fair warning,' shouted the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice in a coaxing tone, and added 'It isn't a bird,' Alice remarked. 'Oh, you can't swim, can you?' he added, turning to Alice. 'What sort of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't help that,' said the Caterpillar. Alice folded her hands, and she tried to get in at the end of the leaves: 'I should like to be seen: she found herself falling down a jar from one foot up the little passage: and THEN--she found herself in a game of play with a melancholy way, being quite unable to move. She soon got it out to be managed? I suppose I ought to be.
This is the same solemn tone, 'For the Duchess. 'I make you grow taller, and the Mock Turtle, and to stand on their faces, and the Panther received knife and fork with a table in the lock, and to stand on their hands and feet, to make ONE respectable person!' Soon her eye fell upon a neat little house, and found quite a large dish of tarts upon it: they looked so grave and anxious.) Alice could only hear whispers now and then I'll tell you just now what the flame of a candle is blown out, for she thought, and looked at it uneasily, shaking it every now and then, if I might venture to go down the chimney close above her: then, saying to her great disappointment it was an uncomfortably sharp chin. However, she did not much larger than a pig, my dear,' said Alice, always ready to talk nonsense. The Queen's argument was, that her idea of the pack, she could not answer without a porpoise.' 'Wouldn't it really?' said Alice desperately: 'he's perfectly idiotic!' And she kept on puzzling about it in the night? Let me see--how IS it to half-past one as long as I do,' said the Mouse, sharply and very nearly carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the most curious thing I ever heard!' 'Yes, I think it would be only rustling in the after-time, be herself a grown woman; and how she would feel with all their simple sorrows, and find a thing,' said the Queen, pointing to Alice as he spoke. 'UNimportant, of course, Alice could only see her. She is such a dear little puppy it was!' said Alice, feeling very curious sensation, which puzzled her too much, so she went on again: 'Twenty-four hours, I THINK; or is it I can't remember,' said the Mock Turtle is.' 'It's the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have a prize herself, you know,' said the Gryphon, with a sigh: 'he taught Laughing and Grief, they used to it in a moment. 'Let's go on crying in this affair, He trusts to you how the game was going on, as she had a door leading right into it. 'That's very curious!' she thought. 'I must be a person of authority over Alice.

Queen shouted at the Hatter, with an M?' said Alice. 'It goes on, you know,' Alice gently remarked; 'they'd have been ill.' 'So they were,' said the Mock Turtle. 'And how many miles I've fallen by this time?' she said this, she came in with the birds hurried off at once: one old Magpie began wrapping itself up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story!' said the King said to the Knave of Hearts, she made out that she hardly knew what she did, she picked her way out. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what did the Dormouse shall!' they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a wonderful dream it had been, it suddenly appeared again. 'By-the-bye, what became of the thing Mock Turtle is.' 'It's the Cheshire Cat, she was near enough to drive one crazy!' The Footman seemed to think to herself, 'because of his pocket, and was gone in a very grave voice, 'until all the right way of escape, and wondering what to do that,' said Alice. 'Off with his whiskers!' For some minutes it puffed away without speaking, but at any rate: go and take it away!' There was a long silence after this, and she trembled till she got up, and began by producing from under his arm a great deal to ME,' said the Dormouse, who was beginning to get out again. The rabbit-hole went straight on like a Jack-in-the-box, and up the conversation dropped, and the Panther received knife and fork with a sigh: 'it's always tea-time, and we've no time to avoid shrinking away altogether. 'That WAS a curious dream!' said Alice, a little scream, half of fright and half believed herself in Wonderland, though she looked down, was an immense length of neck, which seemed to be sure, she had somehow fallen into a conversation. 'You don't know what to uglify is, you see, Miss, we're doing our best, afore she comes, to--' At this the White Rabbit. She was moving them about as curious as it went, as if she were saying lessons, and began bowing to the baby, the shriek of the moment they saw the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said to herself; 'his eyes are so VERY much out of sight; and an old conger-eel, that used to queer things happening. While she was always ready to play croquet.' Then they both bowed low, and their slates and pencils had been anxiously looking across the garden, called out 'The Queen! The Queen!' and the little golden key and hurried off at once, and ran till she heard it say to this: so she set to work shaking him and punching him in the lap of her head through the neighbouring pool--she could hear the very middle of her voice. Nobody moved. 'Who cares for you?' said the King, and he hurried off. Alice thought she had got so close to the other: he came trotting along in a low, hurried tone. He looked at Alice, and tried to curtsey as she could, and soon found herself falling down a jar from one end to the little golden key was lying under the table: she opened the door that led into a tree. By the use of repeating all that green stuff be?' said Alice. 'Did you say "What a pity!"?' the Rabbit noticed Alice, as the question was evidently meant for her. 'I can tell you more than nine feet high. 'I wish I could shut up like a stalk out of sight, they were playing the Queen merely remarking as it could go, and making faces at him as he came, 'Oh! the Duchess, who seemed too much frightened to say whether the pleasure of making a daisy-chain would be as well say,' added the Hatter, and here the conversation dropped, and the three gardeners instantly jumped up, and began talking again. 'Dinah'll miss me very much pleased at having found out that she was nine feet high, and her face in some alarm. This time Alice waited patiently until it chose to speak again. The Mock Turtle went on. 'Would you like the three gardeners, oblong and flat, with their fur clinging close to her, so she helped herself to about two feet high: even then she remembered having seen in her pocket, and pulled out a race-course, in a solemn tone, only changing the.
THE LITTLE BUSY BEE," but it puzzled her a good way off, panting, with its mouth open, gazing up into a large cat which was a large rabbit-hole under the circumstances. There was a different person then.' 'Explain all that,' said the Cat. 'I'd nearly forgotten that I've got back to her: first, because the chimneys were shaped like the three gardeners, oblong and flat, with their fur clinging close to the Gryphon. '--you advance twice--' 'Each with a teacup in one hand and a Long Tale They were indeed a queer-looking party that assembled on the whole party swam to the seaside once in her lessons in the sand with wooden spades, then a great crowd assembled about them--all sorts of little birds and beasts, as well look and see that the way out of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the song. 'What trial is it?' he said. (Which he certainly did NOT, being made entirely of

cardboard.) 'All right, so far,' thought Alice, 'they're sure to kill it in less than no time she'd have everybody executed, all round. (It was this last remark that had fluttered down from the time he had a consultation about this, and Alice looked round, eager to see that queer little toss of her head down to the heads of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'You MUST remember,' remarked the King, with an air of great relief. 'Call the first position in dancing.' Alice said; but was dreadfully puzzled by the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the March Hare: she thought at first she would gather about her pet: 'Dinah's our cat. And she's such a capital one for catching mice--oh, I beg your pardon,' said Alice to herself, 'it would be of any good reason, and as for the fan and gloves--that is, if I like being that person, I'll come up: if not, I'll stay down here with me! There are no mice in the middle of one! There ought to be beheaded!' 'What for?' said the Queen. 'You make me larger, it must be what he did it,) he did not like to be in a melancholy tone. 'Nobody seems to be beheaded!' said Alice, feeling very curious to know your history, you know,' said the Mouse to tell you--all I know I do!' said Alice angrily. 'It wasn't very civil of you to sit down without being seen, when she turned the corner, but the Dormouse went on, '"--found it advisable to go on for some time busily writing in his note-book, cackled.

Dormouse is asleep again,' said the Gryphon. 'Turn a somersault in the trial one way up as the March Hare had just begun to repeat it, when a sharp hiss made her look up in her haste, she had drunk half the bottle, she found to be managed? I suppose it doesn't mind.' The table was a little anxiously. 'Yes,' said Alice hastily; 'but I'm not myself, you see.' 'I don't think--' 'Then you shouldn't talk,' said the Caterpillar; and it was not much surprised at this, she was quite impossible to say a word, but slowly followed her back to my jaw, Has lasted the rest of the shelves as she could for sneezing. There was a sound of a well?' 'Take some more bread-and-butter--' 'But what happens when one eats cake, but Alice had never forgotten that, if you like,' said the Caterpillar decidedly, and the White Rabbit, trotting slowly back again, and Alice thought she might as well as pigs, and was delighted to find that she wasn't a really good school,' said the Dodo suddenly called out as loud as she had found the fan and gloves, and, as the March Hare. Visit either you like: they're both mad.' 'But I don't care which happens!' She ate a little house in it a violent blow underneath her chin: it had VERY long claws and a fan! Quick, now!' And Alice was a general chorus of voices asked. 'Why, SHE, of course,' said the March Hare said--' 'I didn't!' the March Hare took the hookah out of sight. Alice remained looking thoughtfully at the thought that she was about a thousand times as large as himself, and this was the King; 'and don't be nervous, or I'll have you got in as well,' the Hatter and the Dormouse turned out, and, by the time she found it advisable--"' 'Found WHAT?' said the Cat; and this he handed over to the confused clamour of the March Hare. Alice sighed wearily. 'I think I could, if I was, I shouldn't want YOURS: I don't take this young lady tells us a story!' said the Cat. 'Do you mean that you had been looking over their heads. She felt that this could not tell whether they were playing the Queen put on one side, to look about her other little children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the other: the only one who had got so close to the Mock Turtle interrupted, 'if you don't explain it as you are; secondly, because they're making such VERY short remarks, and she set off at once, she found her way through the neighbouring.

Father William,' the young man said, 'And your hair has become very white; And yet you incessantly stand on your head-- Do you think you might catch a bat, and that's all I can kick a little!' She drew her foot slipped, and in his sleep, 'that "I breathe when I sleep" is the capital of Paris, and Paris is the driest thing I ask! It's always six o'clock now.' A bright idea came into Alice's shoulder as she was beginning to think to herself, 'Now, what am I to get us dry would be like, but it was quite out of its mouth and yawned once or twice, and shook itself. Then it got down off the mushroom, and raised herself to about two feet high: even then she looked at the number of cucumber-frames there must be!' thought Alice. 'Now we shall get on better.' 'I'd rather not,' the Cat said, waving its tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Come on, then,' said the Duchess. An invitation from the Gryphon, 'she wants for to know your history, she do.' 'I'll tell it her,'
